Associate of Science with Emphasis in Health Information Systems

The health information systems degree program prepares students to support the health information systems industry usage of electronic health records to improve the quality, efficiency, and security of patient records for improved care.

Health information systems professionals specialize in information technology necessary to support clinical processes and data, including roles which analyze system workflow, test-configure-maintain systems, and train end-users for software use. Trained professionals will understand national policy reform including HIPAA, meaningful use, information exchanges, consumer engagement and security regulations. The health IT industry professional is highly motivated, proficient in problem-solving, embraces change for quality improvement through system analysis, and understands the impact of customer service and technical support in the evolving healthcare environment for long term impact.

Employment includes a wide variety of positions from employers such as hospital systems, clinics, health departments, provider practices, safety net providers, software vendors, consultants, third-party payers, medical device companies, non-profits, and government. The associate's degree provides opportunity for experienced healthcare or IT workforce to complete a degree in the specialized industry and springboard individuals new to healthcare information systems into one of the fastest growing industries today. A career pathway to 4-year institutions with health information systems emphasis will provide greater opportunity for potential career advancement.

(Major Code 2180: State CIP Code 24.0101)

First Semester

Total Hours		17
ENGL 121	Composition I*	3
MATH 171	College Algebra*	3
SPD 121	Public Speaking	3
CPCA 111	Spreadsheets II: MS Excel*	1
CPCA 110	Spreadsheets I: MS Excel*	1
HCIS 262	Customer Service in the Health Environment*	2
HCIS 255	Technology Concepts in Healthcare*	2
HCIS 230	Introduction to Health Information Systems*	2

Second Semester

Total Hours		17
Note: Biology course re	commended, refer to your transfer school for best selection.	
Science and/or Math Ele	ective^	4
ENGL 122	Composition II*	3
CPCA 115	Databases II: MS Access*	2
CPCA 114	Databases I: MS Access*	1
HCIS 272	Terminology in Health Care Settings*	2
HCIS 271	The Culture of Healthcare*	2
HCIS 267	EHR Design, Functionality, and Usability*	3

See all AS general education electives (http://catalog.jccc.edu/degreerequirements/associate-science)

Third Semester (Workflow Management Option)

HCIS 263	Working with Health Information Technology (HIT) Systems*	2
HCIS 273	Quality Improvement in Healthcare*	2
HCIS 274	Healthcare Workflow Analysis and Redesign*	2
PHIL 124	Logic and Critical Thinking	3
PSYC 130	Introduction to Psychology	3
SOC 122	Introduction to Sociology	3

Physical Education Elective Total Hours		16
