

# Interior Design Marketing & Management, AAS

The Interior Design program offers three certificate and three degree options designed to meet the needs of students seeking to become an interior designer, kitchen and bath designer, manager of an interior design firm, or industry-specializing professional among the vast variety of interior design disciplines. Interior Design: Marketing and Management AAS prepares students for careers in the interior design industry and provides coursework required to transfer for a Bachelor's degree program under an existing transfer agreement. The JCCC Interior Design Program provides relevant curriculum with experiential learning that emphasizes the student's ability to think creatively, critically and collaboratively in preparation of entering professional employment. Theory and application dovetail in the classroom and community, providing exposure to business and industry standards, professional practices and progressive design opportunities through cultivated industry relationships. Two required internships help develop technical, creative and business skills. Faculty have worked in the field, which equips them to offer valuable firsthand knowledge of what it takes to succeed.

JCCC's interior design program is recognized by the National Kitchen and Bath Association as an NKBA Accredited program.

Note: Some prerequisite courses for the Interior Design programs require a "C" or higher to be awarded the AAS degrees and certificates.
