Catalog of Courses Fall 2007

JCCC Statement of General Education

Graduation Requirements

Associate's Degrees

Transfer Guides
JCCC's transfer programs, ranging from accounting to theater. Credits from JCCC can be transferred to many colleges and universities in the United States.

Credit Career and Certificate Programs
JCCC's credit career and certificate programs, ranging from automotive technology to veterinary technology. JCCC's credit career and certificate programs give you the opportunity to study a specific career and enter the job market directly.

Credit Course Descriptions
Descriptions of the courses offered at JCCC, with additional links to the course outlines.

Continuing Education Certificate Programs
Certificate programs offered through JCCC's continuing education program.

Continuing Education Course Descriptions

Student Handbook
Admissions information, services for students, student code of conduct, and academic policies and procedures.

Faculty and Staff
A list of full-time faculty and administrators.

Accreditation
Johnson County Community College is officially accredited by the North Central Association of Colleges and Schools. In addition, individual programs are accredited by associated professional organizations: Dental Hygiene - American Dental Hygienists Association and American Dental Association; Hospitality Food and Beverage and Chef Apprentice - American Culinary Federation; Fire Service Administration - International Fire Service Accreditation Congress; Mobile Intensive Care Technician - Joint Review Committee on Educational Programs for the EMT-Paramedic; Nursing - Kansas State Board of Nursing and National League for Nursing and National League of Nursing; Paralegal and Legal Nurse Consulting - American Bar Association; Basic Police Academy - University of Kansas; and Respiratory Care - Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon recommendation of the Committee on Accreditation for Respiratory Care; Accounting, Business Office Technology, Business Entrepreneurship, Business Administration and Marketing and Management - Association of Collegiate Business Schools and Programs.
JCCC Statement of General Education

General education at Johnson County Community College combines essential thinking skills with knowledge from areas such as the arts, communication, humanities, language, mathematics, natural sciences, and social sciences. It prepares students to become lifelong learners capable of making informed, ethical decisions in an increasingly complex and diverse global community.

Students who pursue a course of study at JCCC will be expected to:

- Access and evaluate information from credible sources.
- Collaborate respectfully with others.
- Communicate effectively through the clear and accurate use of language.
- Demonstrate an understanding of the broad diversity of the human experience.
- Process numeric, symbolic, and graphic information.
- Read, analyze, and synthesize written material.
- Select and apply appropriate problem-solving techniques.
- Use current technology efficiently and responsibly.

Graduation Requirements

One semester prior to your graduation:

Complete an Application for Degree and/or Certificate of Completion Form and turn it in at the
Success Center, second floor, Student Center, or mail to the attention of the Records Office, 12345 College Blvd., Overland Park, Kan. 66210.

Graduation Application Deadlines:
- June 15 for summer graduation
- October 15 for fall graduation
- April 15 for spring graduation

Requirements for degree or certificate of graduation

- For an associate's degree, 15 credit hours must be earned in residence at JCCC. Advanced standing credit will not count toward satisfying this credit hour requirement.
- For certificates, a student must complete a minimum of 50 percent of the required coursework at JCCC.
- Graduates must have earned both a 2.0 grade point average at JCCC and have a cumulative 2.0 or better on all completed course work.
- Developmental and/or prerequisite courses, required before enrollment in college-level courses, will not count toward fulfilling graduation degree/certificate requirements.
- Students must be enrolled in classes at JCCC during the semester they anticipate completing degree/certificate requirements and wish to graduate.

Rules to determine a student's graduation catalog term

Students are considered continuously enrolled if they complete at least one class during each regular fall and spring semester. If students do not maintain continuous enrollment, they will be required to follow the graduation requirements that are in effect at the time of re-enrollment.

Graduation Verification Process

1. When an Application for Degree and/or Certificate of Completion Form is received in the Records office, an initial verification will be completed to ensure degree and/or certificate requirements will be satisfied.
2. A letter will be sent to the student once the verification is complete. If you do not receive a letter, please contact the Admissions Office to verify your mailing address.
3. A student's degree and/or certificate status will be recorded on a student's permanent transcript once grades have been posted and a final verification is done to ensure that all graduation requirements have been completed.

Graduation Application Deadline Appeal Process

If a student misses the application deadline, a student may submit an Graduation Appeal Form. This form can be picked up in the Success Center, second floor, Student Center, or found online at Records (http://www.jccc.net/home/depts.php/5105).

Associate's Degrees

Associate's Degrees Offered at JCCC

Graduation Requirements
To officially graduate, an application for graduation must be filed in the Records Office by the appropriate deadline.

Associate of Arts
Associate of Science

Associate of Applied Science

(Associate of Science and Associate of Applied Science degrees require a student to choose an
academic major. Visit
http://www.jccc.net/home/catalog/current/toccareerprograms/careerprograms to view the majors of
study available at JCCC.)

Associate of General Studies

Kansas AVS/TC Articulated, A.A.S.

Associate of Arts

The associate of arts degree from JCCC

- is designed for students who plan to transfer to a baccalaureate college or university.
- requires completion of 64 college-level credit hours within specified course distribution
  areas with a 2.0 or higher GPA.

The 64 hours of credit necessary to complete the associate of arts degree include the following:

- Communications (9 credit hours)
- Humanities (6 credit hours)
  - History is included in the Humanities category
- Social Science and/or Economics (6 credit hours)
- Science and Mathematics (9 credit hours)**

**Must include one course from a lab science and one from mathematics
- Health and/or Physical Education (1 credit)

Note: The associate of arts degree is designed as a transfer curriculum. Students should refer to
the transfer program sheets in the Student Success Center.

The following is an example of a first year schedule for an undecided transfer student.
Students interested in a specific major or degree should talk with a JCCC counselor.

First Semester - CR (Credit Hours)

ENGL 121 Composition I 3
Social Science Elective 3
Math/Natural Science Elective 3-5
Humanities Elective 3
General Elective 3
Total Credit Hours 15-17

Second Semester - CR (Credit Hours)

ENGL 122 Composition II 3
Oral Communication Elective 3

Math/Natural Science Elective 3-5

Social Science/Humanities Elective 3

General Elective 3

Total Credit Hours 15-17

An associate of arts program is designed specifically to meet your educational objectives and needs by allowing you to complete general education requirements.

General Education Requirements

Communications - 9 hours

A. English Composition - 6 hours

ENGL 121 Composition I*...............................3
ENGL 122 Composition II*.............................3
*Prerequisite/Corequisite required

B. Oral Communication - 3 hours

SPD 120 Interpersonal Communication..................3
SPD 121 Public Speaking..................................3
SPD 125 Personal Communication........................3
SPD 180 Intercultural Communication..................3

Humanities - 6 hours

No more than one course from each of the five areas may count toward the six required hours.

A. Literature/Theatre

ENGL 130 Introduction to Literature*....................3
ENGL 227 Introduction to Poetry*........................3
ENGL 230 Introduction to Fiction*.......................3
ENGL 231 American Prose*...............................3
ENGL 235 Drama as Literature*..........................3
ENGL 241 British Writers*...............................3
ENGL 250 World Masterpieces*...........................3
ENGL 254 Masterpieces of the Cinema*..................3
ENGL 256 American Poetry*..............................3
THEA 120 Introduction to Theater........................3
*Prerequisite/Corequisite required

B. Foreign Language

FL 178 Intermediate Russian I*............................3
FL 179 Intermediate Russian II*..........................3
FL 190 Intermediate Japanese I*..........................3
FL 191 Intermediate Japanese II*........................3
FL 192 Intermediate Chinese I*...........................3
FL 193 Intermediate Chinese II*..........................3
FL 220 Intermediate German I*...........................3
FL 221 Intermediate German II*..........................3
FL 230 Intermediate Spanish I*...........................3
FL 231 Intermediate Spanish II*..........................3
FL 240 Intermediate French I*............................3
FL 241 Intermediate French II*...........................3
**Prerequisite/Corequisite required**

### C. History

- **HIST 125** Western Civilization: Readings and Discussion I ........ 3
- **HIST 126** Western Civilization: Readings and Discussion II ....... 3
- **HIST 128** Medieval History ............................................ 3
- **HIST 129** Early Modern Europe 1500-1789 ............................ 3
- **HIST 130** European History Since 1789 .............................. 3
- **HIST 135** Eastern Civilization ......................................... 3
- **HIST 137** African American Studies .................................... 3
- **HIST 140** U.S. History to 1877 ......................................... 3
- **HIST 141** U.S. History Since 1877 ..................................... 3
- **HIST 151** World History I: Traditional World ....................... 3
- **HIST 152** World History II: Modern World .......................... 3
- **HIST 160** Modern Russian History ..................................... 3
- **HIST 162** Modern Latin America ...................................... 3

### D. Humanities

- **ART 180** Art Hist:Ancient/Renaissance ............................... 3
- **ART 182** Art History:Renaissance/Modern ............................ 3
- **ART 184** Art History:Twentieth Century ............................... 3
- **HUM 122** Introduction to Humanities .................................. 3
- **HUM 145** Introduction to World Humanities I ....................... 3
- **HUM 146** Introduction to World Humanities II ...................... 3
- **HUM 155** Classical Mythology ......................................... 3
- **HUM 164** Civilization .................................................... 3
- **MUS 121** Introduction to Music Listening ............................. 3
- **MUS 125** Introduction to Jazz Listening .............................. 3
- **MUS 126** Introduction to World Music .................................. 3
- **PHOT 140** History of Photography ...................................... 3
- **REL 120** Exploring World Religions ................................... 3
- **REL 125** Religions of the East ......................................... 3
- **REL 126** Religions of the West ......................................... 3

### E. Philosophy

- **PHIL 121** Introduction to Philosophy .................................. 3
- **PHIL 124** Logic and Critical Thinking .................................. 3
- **PHIL 143** Ethics .......................................................... 3
- **PHIL 154** History of Ancient Philosophy ............................... 3
- **PHIL 176** Philosophy of Religion ....................................... 3

### Social Science/Economics - 6 hours

No more than one course from each of the five areas may count toward the six required hours.

### A. Anthropology

- **ANTH 125** Cultural Anthropology ..................................... 3
- **ANTH 126** Physical Anthropology ..................................... 3
- **ANTH 130** World Cultures ............................................... 3

### B. Economics

- **ECON 132** Survey of Economics ........................................ 3
- **ECON 230** Economics I .................................................. 3
- **ECON 231** Economics II .................................................. 3

### C. Political Science

- **POLIS 122** Political Science ............................................ 3
POLS 124  American National Government.................................3
POLS 126  State and Local Government..................................3
POLS 132  Introduction to Comparative Government..................3
POLS 135  International Relations........................................3

D.  Psychology

PSYC 121  Applied Psychology.............................................3
PSYC 130  Introduction to Psychology....................................3

E.  Sociology

SOC 122  Introduction to Sociology.......................................3
SOC 125  Social Problems....................................................3
SOC 131  Marriage and the Family........................................3

Science and/or Mathematics - 9 hours

Must include at least one course from a lab science and one from mathematics.

A.  Life Science

BIOL 122  Principles of Biology..........................................3
BIOL 123  Principles of Biology Lab*....................................1
BIOL 124  Oceanus: Essentials of Oceanography......................3
BIOL 125  General Botany.................................................5
BIOL 127  General Zoology.................................................5
BIOL 130  Environmental Science........................................3
BIOL 131  Environmental Science Lab*..................................1
BIOL 140  Human Anatomy..................................................4
BIOL 144  Human Anatomy and Physiology.............................5
BIOL 150  Biology of Organisms*.........................................5
BIOL 225  Human Physiology*.............................................4
BIOL 230  Microbiology*....................................................3
BIOL 231  Microbiology Lab*...............................................2
*Prerequisite/Corequisite required

B.  Physical Science

ASTR 120  Fundamentals of Astronomy..................................3
ASTR 122  Astronomy.........................................................4
CHEM 120  Chemistry in Society.........................................4
CHEM 122  Principles of Chemistry.....................................5
CHEM 124  General Chemistry I Lecture*...............................4
CHEM 125  General Chemistry I Lab*.....................................1
CHEM 131  General Chemistry II Lecture*..............................4
CHEM 132  General Chemistry II Lab*....................................1
CHEM 140  Principles of Organic & Biological Chemistry*..........5
GEOS 130  General Geology................................................5
GEOS 140  Physical Geography.............................................3
GEOS 141  Physical Geography Lab*......................................2
GEOS 145  World Regional Geography..................................3
PHYS 130  General Physics I*.............................................5
PHYS 131  General Physics II*............................................5
PHYS 220  Engineering Physics I*........................................5
PHYS 221  Engineering Physics II*......................................5
PSCI 120  Physical Science................................................4
*Prerequisite/Corequisite required

C.  Mathematics

MATH 165  Finite Mathematics*...........................................3
MATH 171  College Algebra*^.............................................3
MATH 172  Trigonometry*^..................................................3
MATH 173  Precalculus*^...........................................5
MATH 175  Discrete Mathematics and its Applications*........3
MATH 181  Statistics*...........................................3
MATH 225  Mathematics as a Decision Making Tool*...........3
MATH 231  Business and Applied Calculus I*..................3
MATH 232  Business and Applied Calculus II*..................3
MATH 241  Calculus I*.........................................5
MATH 242  Calculus II*.........................................5
MATH 243  Calculus III*........................................5
MATH 244  Differential Equations*.............................3
*Prerequisite/Corequisite required

Note: ^MATH 173 is not available for credit to students who have completed MATH 171 and/or MATH 172. Students who have credit in MATH 173 will not receive credit for MATH 171 and/or MATH 172.

Health and/or Physical Education - 1 hour

HPER       Any Activity Course.................................1
EMS 121    CPR I - Basic Life Support for Healthcare Provider...1
HMEC 151   Nutrition and Meal Planning........................3
HPER 192   Wellness for Life....................................1
HPER 200   First Aid and CPR....................................2
HPER 202   Personal Community Health.........................3
HPER 205   Individual Lifetime Sports.........................2
HPER 240   Lifetime Fitness I..................................1
HPER 255   Introduction to Physical Education...............3

Associate of Science

The associate of science degree from JCCC
• is designed with an emphasis in a specific career program.
• requires completion of a minimum of 64 college-level credit hours within specified course distribution areas, including the emphasis of study, with a 2.0 or higher GPA.

The 64 hours of credit necessary to complete the associate of science degree include the following general education requirements plus the courses listed for the specific career program:
• Communications (9 hours)
• Humanities (6 hours)
• Social Science and/or Economics (6 hours)
• Science and Mathematics (12 hours)
• Health and/or Physical Education (1 hour)

Specific courses that meet the associate of science degree requirements are:

General Education Requirements

(available for career programs only)

A.  Communications - 9 hours

ENGL 121  Composition I*.........................................3
*Prerequisite/Corequisite required

B.  Communications Elective - 6 hours

Associate of Applied Science

The associate of applied science degree from JCCC

- is designed with an emphasis in a specific career program.
- requires completion of a minimum of 64 college-level credit hours within
  specified course distribution areas, including emphasis of study, with a 2.0
  GPA.

The 64 hours of credit necessary to complete the associate of applied science
degree include 15 credits of general education requirements plus the courses
listed for the specific career program. At a minimum, the distribution must include:

- Communications (3 hours)
- Humanities (3 hours)
- Social Science and/or Economics (3 hours)
- Science and Mathematics (3 hours)
- 3 additional credit hours to be selected from one of the above categories
- Health and/or Physical Education (1 hour)

Specific courses that meet the associate of applied science degree requirements
are:

General Education Requirements
(available for career programs only)

A. Communications - 3 hours

ENGL 121 Composition I*...............................................3
*Prerequisite/Corequisite required

If your specific degree program requires a communications
elective, choose three hours from the following:

ENGL 122 Composition II*..............................................3
ENGL 123 Technical Writing I*.........................................3
ENGL 140 Writing for Interactive Media*..............................3
BUS 150 Business Communications*................................3
SPD 120 Interpersonal Communication................................3
SPD 121 Public Speaking...............................................3

*Prerequisite/Corequisite required

Humanities - 3 hours

One course from any of the following categories
may count toward the three required hours.

A. Literature/Theater

ENGL 130 Introduction to Literature*...............................3
ENGL 227 Introduction to Poetry*....................................3
ENGL 230 Introduction to Fiction*....................................3
ENGL 231 American Prose*...........................................3
ENGL 235 Drama as Literature*......................................3
ENGL 241 British Writers*.............................................3
ENGL 250 World Masterpieces*........................................3
ENGL 254 Masterpieces of the Cinema*...............................3
ENGL 256 American Poetry*..........................................3
THEA 120 Introduction to Theater.................................3
B. Foreign Language

FL 178 Intermediate Russian I* ............................................. 3  
FL 179 Intermediate Russian II* ....................................... 3  
FL 190 Intermediate Japanese I* ....................................... 3  
FL 191 Intermediate Japanese II* .................................... 3  
FL 192 Intermediate Chinese I* ....................................... 3  
FL 193 Intermediate Chinese II* ..................................... 3  
FL 220 Intermediate German I* ....................................... 3  
FL 221 Intermediate German II* .................................... 3  
FL 230 Intermediate Spanish I* ....................................... 3  
FL 231 Intermediate Spanish II* ..................................... 3  
FL 240 Intermediate French I* ....................................... 3  
FL 241 Intermediate French II* ..................................... 3  

*Prerequisite/Corequisite required

C. History

HIST 125 Western Civilization: Readings and Discussion I ........ 3  
HIST 126 Western Civilization: Readings and Discussion II .... 3  
HIST 128 Medieval History............................................ 3  
HIST 129 Early Modern Europe 1500-1789.......................... 3  
HIST 130 European History Since 1789......................... 3  
HIST 135 Eastern Civilization......................................... 3  
HIST 137 African American Studies................................ 3

Social Science/Economics - 3 hours

One course from any of the following categories may count toward the three required hours.
A. Anthropology

ANTH 125  Cultural Anthropology...........................................3
ANTH 126  Physical Anthropology...........................................3
ANTH 130  World Cultures.....................................................3

B. Economics

ECON 132  Survey of Economics...............................................3
ECON 230  Economics I..........................................................3
ECON 231  Economics II..........................................................3

C. Political Science

POLS 122  Political Science....................................................3
POLS 124  American National Government.................................3
POLS 126  State and Local Government.....................................3
POLS 132  Introduction to Comparative Government.....................3
POLS 135  International Relations...........................................3

D. Psychology

PSYC 121  Applied Psychology................................................3
PSYC 130  Introduction to Psychology........................................3

E. Sociology

SOC 122  Introduction to Sociology...........................................3
SOC 125  Social Problems.......................................................3
SOC 131  Marriage and the Family............................................3

Science and/or Mathematics - 3 hours

Any mathematics course except Fundamentals of Mathematics or Introduction to Algebra will satisfy this requirement, or the requirement can be satisfied by any of the following courses.

A. Life Science

Biol 122  Principles of Biology................................................3
Biol 123  Principles of Biology Lab*............................................1
Biol 124  Oceanus: Essentials of Oceanography............................3
Biol 125  General Botany........................................................5
Biol 127  General Zoology........................................................5
Biol 130  Environmental Science...............................................3
Biol 131  Environmental Science Lab*........................................1
Biol 140  Human Anatomy.......................................................4
Biol 144  Human Anatomy and Physiology...................................5
Biol 150  Biology of Organisms*...............................................5
Biol 225  Human Physiology*....................................................4
Biol 230  Microbiology*..........................................................3
Biol 231  Microbiology Lab*......................................................2
*Prerequisite/Corequisite required

B. Physical Science

astro 120  Fundamentals of Astronomy........................................3
astro 122  Astronomy...............................................................4
Chem 120  Chemistry in Society...............................................4
Chem 122  Principles of Chemistry............................................5
Chem 124  General Chemistry I Lecture*.....................................4
Chem 125  General Chemistry I Lab*..........................................1
Chem 131  General Chemistry II Lecture*....................................4
CHEM 132 General Chemistry II Lab*............................1
CHEM 140 Principles of Organic & Biological Chemistry*........5
GEOS 130 General Geology........................................5
GEOS 140 Physical Geography.....................................3
GEOS 141 Physical Geography Lab*..............................2
GEOS 145 World Regional Geography.............................3
PHYS 130 General Physics I*...................................5
PHYS 131 General Physics II*..................................5
PHYS 220 Engineering Physics I*...............................5
PHYS 221 Engineering Physics II*...............................5
PSCI 120 Physical Science.....................................4
*Prerequisite/Corequisite required

Note: MATH 173 is not available for credit to students who have completed MATH 171 and/or MATH 172. Students who have credit in MATH 173 will not receive credit for MATH 171 and/or MATH 172.

Health and/or Physical Education - 1 hour

HPER Any Activity Course.................................1
EMS 121 CPR I - Basic Life Support for Healthcare Provider...1
HMEC 151 Nutrition and Meal Planning..........................3
HPER 192 Wellness for Life.....................................1
HPER 200 First Aid and CPR...................................2
HPER 202 Personal Community Health........................3
HPER 205 Individual Lifetime Sports........................2
HPER 240 Lifetime Fitness I....................................1
HPER 255 Introduction to Physical Education................3

Associate of General Studies

The associate of general studies degree from JCCC

- is designed for students who do not plan to transfer to a traditional baccalaurate institution, but wish to receive recognition for completion of a more general program of study
- requires completion of 64 college-level credit hours within specified course distribution areas with a 2.0 or higher GPA.

General Education Requirements

The 64 hours of credit necessary to complete the associate of general studies degree include the following:

- General Education Requirements (26 credit hours)
- Computer Skills (3 credit hours)
- Global Issues/Diversity (3 credit hours)
- College level electives (32 credit hours)

This distribution was designed around JCCC's General Education Learning Outcomes institutional assessment process. At a minimum, the distribution must include:

- The Arts........3 hours
- Communication Skills.......6 hours
- Culture and Ethics.....6 hours
- Health, Physical Education, Recreation....2 hours
- Mathematics......3 hours
- Modes of Inquiry......6 hours
- Computer Skills..........3 hours
Courses may not be used to satisfy requirements in more than one category.

Transfer Guides

University Transfer Program for Undecided Students
If you are planning to transfer but have not decided upon a major or chosen a four-year school, you should select courses from the general education requirement areas and under the associate of arts degree requirements.

In general, a total of 124 to 128 hours are required for most four-year degrees. If you are still undecided about a major in your second year, you should work closely with a counselor in making a decision that will enable you to transfer without loss of time or credit.

University Transfer Programs for Specific Majors
Copies of university transfer programs are available in the Success Center on campus or on the transfer information Web site.

Individual Transfer Program
If you plan to attend a four-year college or university that is not local or if you choose a major not listed under local university transfer programs, you may work with a counselor to develop your own individual transfer program.

Credit Career and Certificate Programs

Credit Career and Certificate Program List
Listing of JCCC's career and certificate programs

Career Programs
JCCC's career programs provide the opportunity for students to study specific careers and enter the job market directly. Each program has been designed with the assistance of a community advisory committee of men and women currently working in the field who are well aware of the requirements and job potential in today’s market.

Although career program courses usually are not intended to be transfer programs, some of the courses may transfer to four-year colleges and universities. Specific information on course transferability can be found in the Success Center on campus or on the transfer information Web site (http://web.jccc.net/academic/transfer). Several of the career programs enable students to gain valuable work experience in the community while taking the career program courses.

Students who are interested in a career program should contact a JCCC counselor for more information. Counselors can assist students with entrance requirements, course selection and sequence, and job possibilities. Careful planning and course selection can be just as important in a career program as dedication in the classroom.

Certificate of Completion
To earn a certificate of completion at Johnson County Community College, students must have demonstrated the basic skills competencies as outlined. In addition, students must have successfully completed an approved certificate program with both a cumulative grade point average of 2.0 or better and a JCCC GPA of 2.0 or better. Students must complete a minimum of 50 percent of the required coursework at JCCC.
Students must be enrolled at the college during the time they anticipate completing certificate requirements. An application to complete certificate requirements must be filed in the Success Center on campus by the following dates:

- Feb. 15 for spring graduation
- June 15 for summer graduation
- Oct. 15 for fall graduation

Certificates will be issued at the end of each semester or term. Graduation exercises will be held once a year at the completion of the spring semester.

Students who have completed the requirements for a certificate in prior semesters of the same academic year will be invited to participate in graduation. Specific course completion certificates will be awarded as appropriate and as specified in the college catalog.

**Postsecondary/Vocational Certificates**

- are designed with an emphasis on a specific career program.

**Postsecondary Certificates**

- provide training in a focused program.
- require successful completion of a minimum of 31 credit hours with a 2.0 or higher GPA.
- must include ENGL 121, Composition I, and MATH 115, Introduction to Algebra, or higher.

**Vocational Certificates**

- provide specialized training.
- require successful completion of the courses specified with at least a 2.0 or higher GPA.
- can range from 3 to 30 credit hours (or up to 33 if additional credits are due to courses with 4 or 5 credit hours).

ABLE

Academic Bridges to Learning Effectiveness
This nationally recognized program teaches students with neurological disabilities (learning disabilities, traumatic brain injuries, autism spectrum disorders, ADHD, etc.) how to become independent learners.
Students take courses with supplemental workshops as well as attend weekly support group meetings to build skills and confidence for college and vocational programs.
A learning disabilities specialist works with each student to design an individualized curriculum. For more information, call Longview Community College, 816-672-2053, or Penn Valley Community College, 816-759-4089.

Accounting, A.A.S.
Accounting is a crucial part of every business operation and the language that businesses speak. The associate of applied science degree program focuses on practical skills often required for entry-level paraprofessional positions. The internship course gives the graduate on-the-job experience working in an approved business. Two-year graduates may find positions as accounting
assistants, accounting clerks and general bookkeepers.
The accounting career program (see: www.jccc.net/home/depts/1202) is accredited by the Association of Collegiate Business Schools and Programs (ACBSP). For students wishing to transfer to a four-year college accounting or business program, this accreditation makes the transfer a smoother process. For more information, please contact the career facilitator (skleiner@jccc.edu) or a JCCC counselor.

Administration of Justice, A.A.

More than 1 million people are employed in the administration of justice/law enforcement fields in the United States. Employment opportunities are expected to grow as fast or slightly faster than average for all occupations in the field.

JCCC’s administration of justice/law enforcement program provides you the opportunity to study various aspects of the criminal justice fields. Successful completion of 64 hours of credit in this two-year program leads to an associate of arts degree. You should contact a counselor when developing a program plan.

*Prerequisite/Corequisite required
** You must take two courses from the following list, but
not more than one course from each group may count
ward the required 6 hours.

Group 1:

POLS 124 American National Government................3
POLS 126 State and Local Government....................3

Group 2:

PSYC 130 Introduction to Psychology.....................3
Note: This is a prerequisite for ADMJ 230.

Group 3:

SOC 122 Introduction to Sociology........................3
SOC 125 Social Problems..................................3

NOTE:*** You must complete a minimum of 9 hours in math and
science. See associate of arts general education
requirements.

NOTE:  ^ If you are certified under the Kansas Law
Enforcement Training Act, you are eligible to
receive assessment of prior learning credit for some
or all of these courses.

Basic Police Academy Certificate

This course consists of 60 clock hours of law enforcement training provided in
addition to the 540 hours required by the Kansas Minimum Standards Training Act
for recruits attending the Police Academy. While the required 600-hour curriculum
is provided without fee, enrollment in advanced training is required of all those
attending the academy. The curriculum covers law, criminal investigations, patrol procedures, defensive tactics, report writing and specialized training required by local law enforcement agencies.

Prerequisite: Selective Admissions - open only to currently employed full-time police officers attending the Police Academy under sponsorship of a law enforcement agency

(Major Code 4880; CIP Code 43.0103)

Animation, A.A.S.

The Associate of Applied Science Degree Animation program provides instruction for creating animation, 3D modeling and special effects for applications such as animated shorts and movies and games, and rendering 3D environments. Fundamental interactive concepts, the development of assets and screen design will be covered. Depending on individual choices and talents, students who complete the Animation program should be prepared for employment as an animator, a game art creator, a 3D visual artist, and/or a special effects artist.

(Major Code 2630; CIP Code 10.0304)

Associate of Applied Science Degree

Prerequisites for Required Courses

Note: Prior to the beginning of the program, the student must take the following prerequisites, or have taken the equivalent transfer courses, or have passed the waiver test (where applicable), or have obtained a waiver from the program administrator.

**Kansas AVS/TC Articulated, A.A.S.**

This degree is designed to facilitate student transfer of technical education programs under the provisions outlined in the Transfer Agreement and Articulation Guide for Kansas Community Colleges, Area Technical Schools and Colleges for the Associate in Applied Science, dated September 1999.

This degree may be earned by a student wishing to transfer from a Kansas Area Vocational Technical School or Kansas Technical College with the following criteria:

- Completion of an eligible technical program of 1080 hours or more from a Kansas Vocational Technical School of Kansas Technical College.
- Official transcript from the technical institution documenting the number of hours and certificate or degree awarded.
- The student must have 15 credits from JCCC in order to receive this degree from JCCC.
- The 1080 documented hours will be transferred to JCCC as 45 transfer credit hours and will be placed on the student's JCCC transcript when the student applies for graduation from JCCC.
- Students must also meet general JCCC admissions, residency and graduation requirements.
- Interested students should contact a JCCC counselor for further information prior to transfer and enrollment.

Automotive Technology, A.A.S.

Automotive technicians generally begin their careers in service repair shops, with continually expanding industrial and service career advancement opportunities. Technicians work with experienced professionals and have frequent contact with the public. This field requires good mechanical aptitude and manual dexterity skills.

The two-year associate of applied science degree, which is certified by the ASE, covers all major areas, including diagnosis and tune-up, chassis, electrical/electronic and hydraulic systems, automatic transmissions, engines, and emissions. Students work on developing the skills needed to advance to a supervisory position, such as customer relations, estimating materials and labor costs, and managing the work of others.

In the Kansas City area, the anticipated job growth is 32 percent by 2008. About 239 annual openings are expected to occur each year. The average hourly wage in 2002 was $16.22.

(Major Code 2420; CIP Code 47.0604)

Automotive Technology

Associate of Applied Science Degree

Prior to beginning the automotive technology associate of applied science degree program, the student must have:

AUTO 125 Introduction to Automotive Shop Practices.............. 3
or
Approval of division administrator

First Semester

AUTO 163 Automotive Steering and Suspension* .................... 3
AUTO 234 Automotive Electrical System* .......................... 4
INDT 125 Industrial Safety ......................................... 3
MATH 120 Business Mathematics* ................................ 3
ENGL 121 Composition I* .......................................... 3
TOTAL CREDIT HOURS ................................................. 16

Second Semester

AUTO 165 Automotive Engine Repair* .............................. 4
AUTO 167 Automotive Brake System* ................................ 2
AUTO 168 Automotive Manual Drivetrain and Axles* ............ 3
ENGL 123 Technical Writing I* .................................... 3
   Technical/Related Electives .................................. 3
   Health and/or Physical Education Elective .................. 1
TOTAL CREDIT HOURS ................................................. 16

Third Semester
Automotive Technology Certificate

The automotive technology certificate program is designed to meet the needs of today’s beginning and experienced auto technicians. With the completion of the certificate program, the student will have a well-rounded background in the repair required for dealership and independent service personnel. Completion of courses should assist students in preparing for ASE certification tests. Most automotive trades expect applicants to pass one or more of the ASE tests, which will enable them to qualify for technical positions in service repair.

(Major Code 4710; CIP Code 47.0604)

Automotive Technology

Vocational Certificate

Prior to beginning the automotive technology vocational certificate program, the student must have:

AUTO 125 Introduction to Automotive Shop Practices........3
or
Approval of division administrator

Required Courses

INDT 125 Industrial Safety........................................3
INDT 155 Workplace Skills..................................3
AUTO 163 Automotive Steering and Suspension*...............1
AUTO 165 Automotive Engine Repair*.........................4
Automotive Technology Entrepreneurship Certificate

This 31 credit-hour certificate is designed to prepare students to open their own automotive service business. This certificate is designed to provide the student with basic skills in automotive technology and small business development and management. Upon completion, the students should be better prepared to develop, grow and sustain their own automotive service business venture.

(Major Code 4180; CIP Code 47.0604)

Biotechnology, A.A.S.

The greater Kansas City area and specifically Johnson County have numerous biological-, pharmaceutical- and chemical-related formulating, manufacturing, research and testing companies. Many of these facilities employ scientific technicians to support the endeavors of their professional scientists and engineers.

JCCC’s science technology program is designed to develop scientific support personnel for the metropolitan area.

This program offers specific knowledge and training designed to provide you with entry-level skills for employment as a technician. It also provides the breadth of background sufficient to encourage change and flexibility.
The biotechnology associate of applied science degree program will prepare students to work in biotechnology laboratories associated with universities, medical centers, private research institutions, and a variety of industrial applications. Upon completion of this 66-68 hour degree, students will be able to find entry-level or higher positions in diverse fields of biotechnology. Along with basic and more advanced science courses, students will take specialized courses such as laboratory safety and biotechnology methods.

Note: Metropolitan Community College students should seek specific counsel from the JCCC program personnel for the appropriate course plan and numbers. Missouri students should refer to Cooperative Program Information.

Business Administration, A.A.S.

Business is more competitive than ever before. People running businesses will be
judged by how well they manage change, stay ahead of trends and learn the latest theories. JCCC’s business administration career program can train you in the many skills required to manage a variety of businesses.

Focusing on the development of decision-making, organizational and supervisory skills, the program offers professional courses in management, marketing, economics, accounting, finance, communications, business law and data processing. These are combined with a core of general education courses to ensure that students receive a well-rounded curriculum.

Graduates have opportunities in entry-level management and supervisory positions in a variety of businesses. Johnson County’s continued growth as the business center for the area means job opportunities are available.

Business-Logistics Mgt, A.A.S.

This program focuses not only on those who currently work in a logistics career but also those who wish to test their interest and want more knowledge about that field. The program stretches all employees, including management personnel, professionally. Students receive information and training that can lead them to one of hundreds of careers tied to logistics. In addition to classroom knowledge, students receive current insights from professionals in the field.

The JCCC business logistics management program is offered to Johnson County residents in cooperation with Metropolitan Community Colleges of Kansas City. Related courses are taken at JCCC. You must be accepted as a student to JCCC and accepted into the program by MCC. Students must be residents of Johnson County in order to receive in-state tuition rates. Consult with a JCCC counselor for more information.

Program courses and credit hours are subject to change because of requirement changes at the degree-granting institution. Contact MCC-Blue River at 816-220-6532 or visit www.mcckc.edu

For enrollment information regarding this cooperative program, go to Cooperative Program Information.

Civil Engineering Technology, A.A.S.

Civil engineering technicians use theory and practical application in planning, designing, constructing, inspecting and maintaining civil engineering projects. Job duties can include performing land surveys, creating civil engineering drawings using computer aided drafting, assisting engineers with design, and project management.

JCCC's civil engineering technology program offers a broad base of instruction in mathematics, engineering design, drawing interpretation, computer-aided drafting, construction methods and communication skills. The program will qualify graduates for a variety of entry-level positions in design firms, construction companies or public agencies. Successful completion of 64 hours from the civil
engineering technology curriculum will lead to an associate of applied science degree.  
(Major Code 2210; CIP Code 15.0201)

### Computer Information Systems, A.A.S.

Employment opportunities for programmer analysts continue to grow as the need for sophisticated information systems increases in the business environment. Increased demand will focus on the areas of object-oriented programming, database management and client-server applications.

JCCC’s information systems program focuses on developing the skills needed for entry-level programmer analysts and related positions. The associate of applied science degree in information systems offers an integrated program of study designed to prepare professionals with skills that are applicable to different hardware systems. With its emphasis on practical experience and on currency in the areas of software and curriculum, the program has much to offer the
information systems professional who wishes to upgrade or broaden his or her knowledge of the field.
The associate of applied science degree is awarded for successful completion of 69 credit hours.
(Major Code 2930; CIP Code 11.0201)
Computing Sciences and Information Technology Department

Associate of Applied Science Degree

Prerequisite for Required Course

Note: Prior to beginning the information systems program, the student must take the following prerequisite, or have taken an equivalent transfer course, or have passed the waiver test, or have obtained a waiver from the program administrator:

CIS 134 Programming Fundamentals.............................4

Required Courses

First Semester

CS 200 Concepts of Programming Algorithms Using C++*........4
or
CS 205 Concepts of Programming Algorithms using JAVA*........4
CIM 133 Screen Design*.......................................4
ACCT 121 Accounting I........................................3
ENGL 121 Composition I*......................................3
MATH 171 College Algebra*.................................3
or
Any Precalculus/Calculus Course*.............................3
TOTAL CREDIT HOURS..................................17

Second Semester

Level One Programming Language
Option........................................4
CS 210 Discrete Structures I*...............................3
CIS 162 Database Programming*..............................4
CIS 242 Introduction to System Design and Analysis*........3
SPD 125 Personal Communication............................3
or
ENGL 123 Technical Writing I*...............................3
TOTAL CREDIT HOURS..................................17

Third Semester

Level Two Programming Language
Option........................................4
CIS 258 Operating Systems*..................................3
or
CIS 204 UNIX Operating System*.............................3
CIS Elective..............................................3
Humanities/Art Elective.....................................3
Social Science and/or Economic Electives..................3
Health and/or Physical Education Elective................1
TOTAL CREDIT HOURS..................................17

Fourth Semester

Level Three Programming Language
Option........................................4
CIS 264 Application Development and Programming*.........4
CIS 260 Database Management*..............................4
Each student should select one option area from the following list. All three levels of programming language must be from the same option area.

**Level One Programming Language Options:**

**Option in C++:**
- CIS 235 Object-Oriented Programming Using C++* ............4
- CS 250 Basic Data Structures using C++* ..................4

**Option in JAVA:**
- CS 255 Basic Data Structures using JAVA* .................4

**Option in VISUAL BASIC:**
- CIS 138 Visual Basic .Net* ..................................4

**Level Two Programming Language Options:**

**Option in C++:**
- CIS 235 Object-Oriented Programming Using C++* ............4
- CS 250 Basic Data Structures using C++* ..................4

**Option in JAVA:**
- CIS 240 Advanced Topics in JAVA I* ......................4

**Option in VISUAL BASIC:**
- CIS 238 Visual Basic Intermediate Topics* ................4

**Level Three Programming Language Options:**

**Option in C++:**
- CIS 269 GUI Programming* ................................4

**Option in JAVA:**
- CIS 280 Advanced Topics in JAVA II* .....................4

**Option in VISUAL BASIC:**
- CIS 277 Active Server Pages.Net* .........................4

Six hours of computer information systems electives are to be selected from the following list:

- CS 180 Introduction to Artificial Intelligence* ..........3
- CS 200 Concepts of Programming Algorithms Using C++* ....4
- CS 201 Concepts of Programming Algorithms using C#* ....4
- CS 205 Concepts of Programming Algorithms using JAVA* ....4
- CS 250 Basic Data Structures using C++* ..................4
- CS 255 Basic Data Structures using JAVA* ..................4
- CS 211 Discrete Structures II* ..................................4
- CIS 138 Visual Basic .Net*^ ..................................4
Database Certificate

Completion of this certificate, offered through the computer information systems program, will help to prepare students for future careers as database specialists or for one of many other information systems careers in which knowledge of database concepts, products and technologies is important. Students will be able to design and build personal databases using Access. The student will acquire a strong foundation in knowledge of an object-oriented programming language (Visual Basic) and will work with Web-enabled databases, SQL and other database products, as well as attaining formal systems analysis and design skills.

(Major Code 5190; CIP Code 11.0802)

Desktop Publishing Certificate

Individuals with or without a college degree whose goal is to acquire or improve their personal desktop computer application skills will accomplish that goal in this program. Emphasis is on acquiring results-oriented career business and industry skills. The program is intended for those seeking entry-level positions as well as those currently employed who want to enhance their job skills. It provides current employers or prospective employers tangible evidence of computer competency. Application courses for the certificate are based on a combination of the Windows and Macintosh operating environments. Students will be encouraged to develop a cross-platform mastery.

First Semester
**Advanced Esthetics Certificate**

This 100 contact hour course is designed to meet the educational requirements for licensure by the Missouri Board of Cosmetology for estheticians in the cosmetology sciences and meet the needs of students who desire exposure to advanced esthetics techniques. Students will attend 44 hours of lecture/discussion/demonstration, practice 44 hours of integrated lecture/clinical, complete 4 hours assisting in a salon and participate in 8 hours of community service. Topics covered include body treatments, theory of the day spa, airbrush, makeup, microdermabrasion, and manual lymphatic drainage.

Prerequisite: Must possess current esthetics license granted by the Kansas Board of Cosmetology or a current cosmetology license.

(Major Code 3760; CIP Code 12.0409)

**Vocational Certificate**

AVCO 218 Advanced Esthetics Training*.................................100

Note: TOTAL CONTACT HOURS................................100

*Prerequisite/Corequisite required

**Cosmetology, A.A.S.**

This degree may be earned only by a student who has completed the JCCC cosmetology certificate program. A student must have 19 additional credits in order to receive a degree from Johnson County Community College. Students who graduated with the certificate prior to conversion to credit hours will receive 45 hours of documented advanced standing credit, which will be placed on the student’s record when the application for graduation is filed. Students must also meet JCCC admissions, residency and graduation requirements.

Interested students should contact the JCCC Student Success Center for further information prior to enrollment in the sequence of courses.

(Major Code 2090; CIP Code 12.0401)

**Associate of Applied Science Degree**

**Sequence of Courses**

Option 1 - No Professional Licensure
AVCO 110 Introduction to Cosmetology.................................21
AVCO 112 Clinical Cosmetology*..........................................12
AVCO 114 Advanced Cosmetology*.......................................12
Cosmetology Certificate

The field of cosmetology relies on creative people who use their ability to visualize shapes and forms for hair design and personal care. Cosmetologists need manual dexterity, an understanding of chemistry and superior client communication skills. This program provides theory and skill development in shampooing, cutting, shaping, curling and coloring hair, as well as manicuring and esthetics.

Employment opportunities are available in beauty salons, department stores, health care and hotel facilities. Entrepreneurship opportunities are also available for cosmetologists who choose to pursue this pathway. Additional employment choices include nail artist, complexion care, cosmetic or beauty supply sales and services, manufacturing technician and color chemist.

Enrollment is limited in the program. Admission requires an interview, testing and a physical examination. Contact the salon at 913-469-8500, ext. 4723 or 2390, for additional information.

(Major Code 3700; CIP Code 12.0401)

Cosmetology Instructor Training Certificate

This 300 contact hour course is designed to meet the educational requirements for licensure by the Kansas Board of Cosmetology for instructors in the cosmetology sciences. Students will attend 40 hours of lecture and participate in 260 hours of observation, clinic supervision, and classroom teaching. Topics covered include instructor characteristics, student motivation, methods and evaluation.

(Major Code 3740; CIP Code 12.0401)

Vocational Certificate

AVCO 212  Cosmetology Instructor Training*...................300
Note: TOTAL CONTACT HOURS...............................300

Esthetics Certificate

Theory and skill development in sanitation, skin sciences, skin treatments, waxing, makeup and business practices are offered. Upon completion of this program, students are prepared for the Kansas State Board of Cosmetology for Estheticians licensure written and practical exams. Admission requires an interview, testing and a physical examination. Contact the salon at 913-469-8500, ext. 4721 or 2390, for additional information.

(Major Code 3720; CIP Code 12.0409)

Vocational Certificate

AVCO 118  Esthetics..........................................650
Note: TOTAL CONTACT HOURS...............................650

Nail Technology Certificate

The program provides theory and skill development in artistic application of artificial nail services which includes the application of fiberglass and silk wraps, tips with overlay, sculptured nails, and gels. Pedicures, manicures, and identifying the various diseases and disorders of the nails will also be taught. Upon completion of this program, students are prepared for the Kansas State Board of Cosmetology Onychology licensure written and practical exams. Admission requires an interview, testing and a physical examination. Contact the Salon at 913-469-8500, ext. 6402 or 2390, for additional information.

(Major Code 3690; CIP Code 12.0410)
Dental Hygiene, A.A.S.

A key member of the professional dental team, the licensed dental hygienist is on the "front line" of patient care, responsible for providing educational, clinical and therapeutic services that promote total health through good oral health. The growing public awareness of the benefits of oral health, combined with the growth of corporate dental plans, has significantly increased the demand for dental care and has made dental hygiene one of the country's fastest-growing careers. The demand for dental hygienists is expected to grow 46 percent by 2010. Competitive salaries and flexible work schedules are added benefits. Students in JCCC's dental hygiene program prepare for careers as preventive dental professionals who have a choice of working in a variety of settings. Upon successful completion of licensure requirements and board examinations, graduates get jobs in school systems, nursing homes and dental supply firms, as well as private dental offices.

Fully accredited by the American Dental Association Commission on Dental Accreditation, this 81-credit-hour program requires four semesters and one summer session of full-time study. Successful completion leads to an associate of applied science degree. All dental hygiene students gain important practical experience working in JCCC's state-of-the-art clinical facility under the supervision of licensed dental hygienists and dentists.

Enrollment is limited. The deadline for fall semester applications is December 1st. Fall course transcripts are due January 15th. For an application, call the dental hygiene program at 913-469-3808 or download a copy by clicking http://www.jccc.net/home/depts/001253

(Major Code 223A; CIP Code 51.0602)

Dental Hygiene Program

Associate of Applied Science Degree

BEGINNING FALL 2008, STUDENTS WILL BE REQUIRED TO TAKE BIOL 231 MICROBIOLOGY LAB FOR TWO CREDIT HOURS.

---

**Computer-aided Drafting and Design Technology, A.A.S.**

Drafting technicians are engineering communication specialists who apply mathematics, computer applications and manual skills to develop specifications and drawings for the manufacturing and construction of virtually everything made in the world. JCCC’s drafting technology program offers students up-to-date equipment in facilities located in the Industrial Training Center on the JCCC campus. In addition, the program offers departmental specialty courses. The program provides students with the skills necessary to produce detailed shop drawings, land plats, erection drawings and designs for manufacturing, building, production, commercial building and site construction as well as detailed drawings and designs of components, assemblies and systems used in manufactured products.

Industrial growth and increasingly complex design problems will greatly increase the demand for design and drafting services, particularly using CAD equipment. Employers are most interested in applicants with drafting and mechanical skills, a background in CAD techniques and courses in math, science and engineering technology.

The two-year curriculum enables students to use the latest computer-aided design equipment. Course projects and laboratory procedures are similar to those used in industry.

An associate of applied science degree is awarded upon the successful completion of 67 credit hours.

(Major Code 2220; CIP Code 15.1302)

Computer Aided Drafting and Design
Associate of Applied Science Degree

Prerequisites for Required Courses

Note: Prior to beginning the program, the student must take the following prerequisite courses, or have taken an equivalent transfer course, or have passed the waiver test (if applicable), or have obtained a waiver from the program administrator.

**DRAF 120** Introduction to Drafting.............................2
**BOT 101** Computerized Keyboarding.............................1
**DRAF 130** Introduction to CAD Concepts - AutoCAD: 2007*........3
**CPCA 105** Introduction to Personal Computers: Windows........1
**CPCA 138** Windows for Microcomputers*..........................1

## Early Childhood Education, A.S.

The Early Childhood Education associate's degree program is for those students who currently are employed or aspire to work in early childhood care and education programs. Completion of JCCC’s associate of science degree program provides students the credentials to advance in quality early childhood care and education settings. The program has four areas of specialization: administration, care and education of young children with special needs, infant/toddler care and education and school age programs. Credits will transfer to many Kansas universities. Excellent practical education opportunities are available to students in the program.

**Prerequisite**

Students must meet the requirements for employment in early childhood care and education centers in Kansas (stated in the Kansas Licensing Regulations for Preschools and Child Care Centers).

(Major Code 2100; CIP Code 19.0708)

Early Childhood Education Certificate

This certificate is for students seeking employment in early childhood care and education programs and for current early childhood care and education teachers/administrators who want to upgrade their skills and increase their knowledge in this area of study. The program does not need to be completed in one year.

Students must be first aid/CPR certified to receive the early childhood education certificate. The first aid/CPR certification may be obtained through your center; you may also enroll in HPER 200 First Aid/CPR at JCCC. Students must meet the requirements for employment in early childhood care and education centers in Kansas (stated in the Kansas Licensing Regulations for Preschool and Child Care Centers).

(Major Code 6600; CIP Code 19.0708)

Electrical Technology, A.A.S.

The use of electrical technology in residential, commercial and industrial applications continues to grow rapidly. Electricians install and maintain electrical systems for a variety of purposes, including lighting, appliances, climate control,
security and communications.

JCCC offers a 65-credit-hour associate of applied science degree program and a 29-credit-hour vocational certificate program. Both programs emphasize hands-on training integrated with a knowledge of theory and study of the National Electrical Code that prepares students to take a national licensure exam.

The associate of applied science degree program prepares students to enter the electrical trade in four types of electrical occupations: residential, commercial, industrial and maintenance. The program also prepares students for continued education in electrical contracting/management, electrical design and industrial/electronic controls.

(Major Code 2260; CIP Code 46.0302)

### Electronics Technology, A.A.S.

Electronics technology influences almost every aspect of modern life. Skilled electronics technicians are needed to support growth in this industry. These technicians must be able to fabricate, test, install, operate and maintain highly technical systems such as communications systems, computers and computer networks, and industrial process control systems. The program focuses on the underlying principles of electronic devices, circuit analysis and digital electronics and will provide a broad systems view of electronics.

Students in the electronics program will work with outstanding facilities and the latest laboratory equipment. Graduates of the program will have the opportunity for employment in one of today’s most challenging and exciting career fields.

Program graduates also have the opportunity to pursue a baccalaureate degree (B.S.E.E.T.) in electronics engineering technology through the transfer of JCCC electronics technology and other courses to participating four-year institutions. Students contemplating this option should seek early counseling and prepare a program plan with specific course selections in anticipation of four-year institution
requirements. Students should be prepared to enroll in higher-level math and physics courses when compared with current electronics technology program requirements.

Students who are transferring to JCCC with significant numbers of electronic technology credits should be aware that at least 9 credit hours of approved electronic technology courses must be completed at JCCC before the A.A.S. degree will be awarded. In addition, because of changes in technology, students who desire to graduate using electronics technology courses completed more than seven years ago should seek counseling regarding the current relevance of those courses.

(Major Code 2690; CIP Code 47.0101)

Industrial Controls Certificate

This certificate is designed to focus on programmable logic controllers and a variety of input and output devices. The certificate is a 9-credit-hour, 3-course sequence involving both the hardware and programming aspects of controllers used in industrial processes. Lectures provide a theoretical basis and laboratory projects offer experience in controller program planning, documentation and troubleshooting.

Microcomputer Technical Support Certificate

The microcomputer technical support vocational certificate is designed to provide an entry-level set of competencies that will allow the recipient to quickly perform satisfactorily in computer system help desk environment. This 6-course sequence will expose the student to significant aspects of computer hardware, computer networks and interconnection computer software, as well as interpersonal skills. Lectures will provide a theoretical foundation of microcomputer performance while a variety of laboratory projects will offer experience in system organization, interconnection and troubleshooting.

Emergency Medical Science, A.A.S.

People who work in the field of emergency medical science (EMS) often enter people’s lives during critical times of illness and injury. Their ability to act knowledgeably, compassionately, quickly and calmly can stabilize chaotic, frightening situations.

JCCC offers three progressively intensive options for learning the skills of emergency medical science. All three options prepare you for state certification examinations.

JCCC’s financial aid program includes scholarships, grants and loans if you are eligible. Financial aid is particularly important in the MICT program, since long hours usually prohibit you from holding a full-time job.

EMS First Responder Course

EMS first responder students receive classroom and skills training in cardiopulmonary resuscitation (CPR), patient assessment, and fracture and airway management. This class is recommended for:

- people without a medical background who wish to enter the EMT program
- anyone who wishes to learn basics of emergency medical care
- firefighters, police officers, lifeguards and others from agencies involved in public safety
- employees involved in company safety programs

Students successfully completing this course will be allowed to sit for the certification examination administered by the Kansas Board of Emergency Medical Services.

The EMS First Responder class is offered as the need arises – in general, once each semester.

EMS 128  EMS First Responder.................5
TOTAL CREDIT HOURS.................5

Emergency Medical Technician Course

This program is designed for individuals interested in providing medical care to patients in the pre-hospital setting. It will provide the participants with opportunities to gain information, skills and attitudes necessary for certification and practice as an emergency medical technician (EMT) in the state of Kansas.

The program has been approved by the Kansas Board of Emergency Medical Services. It addresses information and techniques currently considered to be the responsibility of the EMT, according to the United States Department of Transportation, National Standard Curriculum. The program consists of lecture instruction, practical skill training and clinical experience.

Classroom instruction includes anatomy, physiology, recognition and care of actual medical emergencies and trauma-related injuries. Skills in performing CPR, bandaging, splinting, childbirth techniques and other emergency care procedures are taught. An extrication session will give students hands-on experience with auto accident situations and provide the opportunity to observe an air evacuation of a patient. Upon instructor recommendation, students will participate in a clinical observation in a hospital setting. Additionally, students will arrange to participate as an observer with a local EMS service. Students participate in seven hours of lecture and five hours of lab a week (average). Students are also required to attend Saturday session(s) as necessary. Saturday dates and times will be announced during the first class session.

Students successfully completing this course will be allowed to sit for the
certification examinations administered by the Kansas Board of Emergency Medical Services.

EMS 130   Emergency Medical Technician Course*............9
*Prerequisite - EMS 128 or equivalent, or be an active member in a health-related occupation (firefighter, rescue, ambulance, law enforcement, industrial first-aid personnel or other health-related field), or attained the minimum of an associate's degree.
TOTAL PROGRAM CREDIT HOURS........................9

EMT Practicum
EMT Practicum is designed to give the EMT-B, recently certified or those with limited field experience, the additional skills and confidence needed to successfully compete for a position as an EMT-B with an EMS service. Skills will include ambulance operation, driving, map reading, insurance billing and unit maintenance. This course will also provide high-fidelity scenario training in all aspects of the EMS call, as well as extensive field lab time with a local EMS service.

Students will become directly involved in their own training by leading and participating in realistic medical emergency scenarios with “actors” playing life-like patients and bystanders. Numerous field internship shifts on a licensed ambulance are part of the training. Students will work through all phases of an ambulance call. They will be presented with complex patient-care situations that require the development of critical thinking and decision-making skills. Students will be tested on their ability to lead a team of pre-hospital caregivers in the diagnosis, proper treatment and evacuation of a patient. Scenario simulations will be set up to be as life-like as possible.

EMS 133   EMT Practicum*....................3
*Prerequisite - EMS 130 EMT-B or equivalent and a copy of current EMT-B card
TOTAL CREDIT HOURS......3

Mobile Intensive Care Technician (Paramedic) Program
This advanced emergency medical care program consists of four courses, including a clinical rotation in a hospital setting and a field internship with an ambulance service. You learn emergency procedures such as cardiac monitoring and defibrillation and the administration of medications and IV fluids. Successful completion of this program and subsequent certification exams will enable graduates to work as skilled paramedics and to provide sophisticated, advanced pre-hospital life support.

JCCC’s MICT program is fully accredited by the Committee on Accreditation of Educational Programs for the EMS Professions (CoAEMSP). If you are interested, contact the Admissions office for an application packet, which includes deadlines, admission requirements and options for meeting academic criteria.

This is a selective admission program with limited enrollment. If you are accepted into the program, you take classes in the spring, summer and fall, completing the program in December.

Students successfully completing this program will be allowed to sit for the certification examinations administered by the Kansas Board of Emergency Medical Services.
(Major Code 248A; CIP Code 51.0904)

Emergency Medical Science

Entrepreneurship, A.A.S.

The small business sector is one of the fastest growing in the nation’s economy. With an ever-increasing number of adults today self-employed, many residents in Johnson County either work for a small business or plan to start their own. JCCC’s entrepreneurship program can help prospective entrepreneurs launch new ventures or, if you are an entrepreneur who already has your business established, you can strengthen your managerial and business skills to grow your business.

You will learn the fundamentals of starting and operating your own business. The program includes basic business skills as well as specific courses in starting and managing an entrepreneurial business. Course work covers evaluating a business opportunity, preparing a business plan, legal issues for small business, planning advertising and sales promotions, marketing a product or service, developing an accounting system and financial management for the
entrepreneurial company. You also will complete two internships in a small business. You can apply what you learn in the classroom to your job and take your work experiences back to the classroom for analysis.

Fashion Merchandising, A.A.S.

Rome, Paris, New York and Tokyo are centers of the fashion world. In today’s fast-paced fashion market, these cities aren’t that far ahead of your local shopping mall. Fashion is on the move -- in New York, Paris and Johnson County.

At JCCC, the fashion curriculum is designed to prepare you for a career in retail management, retail sales, apparel and textile design, promotion, display, illustration, and representative positions.

The program includes professional courses in merchandising, design, apparel construction, management, visual merchandising, creative selling and merchandise evaluation. To complement your education, you will also study important basic subjects such as business math, English, economics and marketing.

An associate of applied science degree is awarded after successful completion of the 65-credit-hour curriculum in fashion merchandising or fashion design. The program also offers an 18-credit-hour certificate in visual merchandising. Seminars in career options and industry topics are available. Required work-study internships in the fashion business of your choice will give you experience in technical, creative and merchandising skills and make you more marketable in the industry.

With an associate’s degree or certificate, you’ll be ready to apply your energy and creativity in an industry that rewards both. Or, if you prefer to continue your education, you can complete a bachelor’s degree through a transfer program to a college or university.

**Fashion Merchandising Entrep Certificate**

The fashion merchandising entrepreneurship certificate prepares students to open their own fashion retail business. This certificate is designed to provide the student with basic skills in fashion merchandising and small business development and management. Upon successful completion, students should be prepared to develop and sustain their own fashion retail business venture.

(Major Code 4150; CIP Code 52.1902)

Fire Services Administration, A.A.

The goal of the fire science program at Johnson County Community College is to provide comprehensive education and training, specifically designed to:

- Promote the academic and professional development of fire service company-level officers.
- Prepare those seeking employment with fire service agencies of Johnson County.

The program serves to provide higher academic education, technical training and lifelong learning for members of Johnson County fire-related organizations and those seeking employment in those organizations.

The fire science program at JCCC, in close cooperation with the Johnson County Fire Chiefs Association and the University of Kansas Fire and Rescue Training Institute, has developed a degree for advancement in the fire service and for further study toward the baccalaureate degree at a four-year institution, should you elect to pursue your education goals beyond the associate’s level.

The program emphasizes general education in addition to technical education and is built around a core of fire science courses carefully selected by the members of the Fire Science Advisory Committee to prepare for your career growth. Technical electives may be pursued through courses available under a continuing cooperative agreement between area fire science programs or through other degree-granting institutions that are accredited by the International Fire Service Accreditation Congress. The transfer of credit from other institutions is governed by JCCC policy. You may fulfill technical education requirements through the advanced standing credit process.

JCCC also offers course work that will prepare you to take the Fire Fighter I and II certification examinations offered by the University of Kansas Fire and Rescue Training Institute. This course work includes FIRE 110, Essentials of Fire Fighting; EMS 130; HPER 240, Lifetime Fitness I; or equivalent. HPER 240, Lifetime Fitness I, is the prerequisite/corequisite for FIRE 110, Essentials of Fire Fighting.

Note: Mechanisms have been developed to compensate for the effect of students working 24-hour shifts.

(Major Code 2320; CIP Code 43.0203)

Associate of Arts Degree

Prerequisite

Prior to admission into any FIRE course, the student must possess an International Fire Service Accreditation Congress certification as a firefighter or be an active member in a fire-related occupation.

  or
Game Development, A.A.S.

The game development associate of applied science degree provides students with the focused knowledge and understanding of game design and development useful in qualifying for entry level industry positions as game programmers, tool builders, collision detection developers, engine builders and interface programmers as well as video and online training developers, Q/A (Question/Answer) Testers, customer supporters and simulations developers. Completion of this degree program will greatly enhance students’ ability to create code for 2D/3D graphics and real time virtual environments. Additional skills will include an understanding of game ethics, of the proper presentation of “game bibles” and of math and physics required to model a realistic game world.

(Major Code 2650; CIP Code 11.0899)

Computing Sciences and Information Technology Department

Associate of Applied Science

Note: Prior to beginning the game development program, the student must take the following prerequisites, or have taken an equivalent transfer course, or have passed the waiver test (where applicable), or have obtained a waiver from the program administrator.

Geographic Info Systems Cert

This is a professional certificate that gives the GIS user the tools needed to attract a good job in the exciting field of GIS or to advance in their chosen field. It also prepares students to complete their AA degree or transfer to a four year institution. GIS professionals are found in the fields of city, county and state business, economics, natural resources, conservation, pollution, industry, science, infrastructure planners, public works, transportation, architects, education, healthcare, travel, space industry.

The JCCC geographic information systems program is offered to Johnson County residents in cooperation with Metropolitan Community Colleges of Kansas City. Related courses are taken at JCCC. You must be accepted as a student to JCCC and accepted into the program by MCC. Students must be residents of Johnson County in order to receive in-state tuition rates. Consult with a JCCC counselor for more information.

Program courses and credit hours are subject to change because of requirement changes at the degree-granting institution. Contact www.mcckc.edu. Required GIS classes are taught at MCC-Longview and MCC-Maple Woods Community Colleges as early evening courses.

For enrollment information regarding this cooperative program, go to Cooperative Program Information.

Vocational Certificate

Certificate granted by Metropolitan Community College

Specific Program Requirements-must be taken MCC

KEOG 120 Introduction to Geographic Information Systems.......3

Graphic Design, A.A.S.

The graphic design field is highly competitive for both salaried and freelance positions. There is a demand for artists with above-average talents and graphic art skills. Opportunities in the field range from entry-level layout and production to art director positions.

Demonstrated abilities are most often the key to obtaining a position in the graphic design field. JCCC has structured its graphic design program to help the student develop a comprehensive portfolio. The student's work will be critiqued by a team of professionals every semester. These professionals working in the field, along with the faculty, will help develop the student's skills in creative problem solving and in the use of materials, processes, tools and equipment. Outstanding studio and computer facilities are available for working on class projects. The two-year curriculum consisting of 71 credit hours leads to an associate of applied science degree.

NOTE: Working knowledge of these CDTP and CWEB courses is required for successful performance in and completion of the courses in the Graphic Design curriculum. Enroll in: CDTP 145 Desktop Illustration I: Illustrator (1 cr. hr.); CDTP 135 Desktop Photo Manipulation I: Photoshop (1 cr. hr.); CDTP 131 Desktop Publishing I: QuarkXpress (1 cr. hr.); CDTP 140 Desktop Publishing I: InDesign (1 cr. hr.) and CWEB 105 Intro to Dreamweaver (1 cr. hr.). Refer to ART and GDES course descriptions for information on which courses require these skills.

Some GDES courses are typically offered in the fall semester only, and some courses are typically offered in the spring semester only. This information can be found under the relevant course descriptions.

**Prerequisite/Corequisite required**

Note: ^A graphic design major may apply to this internship course if the student is also enrolled in or has completed all fourth-semester studio courses.

Note: +Could be taken in the second year--anytime after completion of PHOT 121.

**Health Information Tech, A.A.S**

A health information technician has the technical skills needed to maintain the components of health information systems consistent with the medical, administrative, ethical, legal accreditation and regulatory requirements of the health care delivery system. Area hospitals and a variety of other health facilities in the community offer field experience in all procedures performed by the health information technician. When the 70-72 credit-hour program has been completed and the associate of applied science degree obtained, you will be eligible to take the accreditation examination of the American Association of Health Information Management.

Health information technology is a cooperative program between JCCC and MCC-Penn Valley Community College for Johnson County residents. You must be accepted as a student at JCCC and accepted into the program by MCC-Penn Valley. Consult with a JCCC counselor for more information.

Program courses and credit hours are subject to change because of requirement changes at the degree-granting institution. Contact MCC-Penn Valley Community College at 816-759-4231 for an application packet, which includes deadlines, program prerequisites and admission requirements.

For enrollment information regarding this cooperative program, go to Cooperative Program Information.

Certified Medication Aide Certificate

This 80-hour course covers information related to many commonly prescribed medications. Students learn the classification, side effects and techniques of administration, including preparations and accurate distribution of medications. Safety of clients in long-term care will be discussed and demonstrated by students. Clinical practice sessions will be conducted in a long-term care facility.

A pre-requisite to admission is successful completion of a reading level exam/assessment. Copies of the following will be required on the first day of class: social security card, current Kansas CNA card, current CPR for Health Care Provider card and documentation of a current negative TB test. The Kansas CMA examination is administered to successful completers of this course.

The employment outlook for the future is excellent. Facilities employing the CMA include long-term care nursing centers as well as other types of group homes and agencies.

For more information, go to http://www.jccc.net/home/depts/5104/site/newstudent/types/adm_avs/CMA_Information-Requirements
(Major Code 3560; CIP Code 51.2603)

Certified Medication Aide Update Certificate

Certified medication aides in Kansas are required to obtain continuing education every two years to renew the CMA certificate. This course meets the state requirements for recertification. The update course includes review of commonly used drugs and their interactions with foods and other drugs.

Students will discuss and identify legal implications and regulations related to administration and record keeping. Biological effects of medications on the elderly and basic safety principles are reviewed and discussed with other CMAU course participants. This course is available in the classroom and online. A roster of CMAs who complete the update course will be submitted to the Department of Health and Environment for certificate renewal.

Copies of the following are required on the first day of class: social security card,
Certified Nurse Aide Certificate

This 96-hour course provides classroom and clinical instruction for basic care of clients in long-term and acute-care facilities. Students will learn skills for daily hygiene, bedside care, vital-sign measurement, positioning and safe transfer of clients. You will learn about common health problems and chronic illnesses. Clinical practice sessions are conducted in the nursing home setting. This course is offered in a classroom setting as well as non-traditional online.

Enrollees for this course must pass a reading level exam/assessment prior to admission. Copies of the following will be required on the first day of class: social security card, current CPR for Health Care Providers card and documentation of a current negative TB test.

Attendance is critical and should be given top priority. Failure to meet the criteria outlined in the syllabus will necessitate withdrawal from a class. Upon successful completion of the course, students will be scheduled to take the Kansas CNA examination. Sufficient notice of the exam date is given to allow students to make arrangements to be in attendance on the appointed day.

Employment for workers with CNA skills and training is abundant in long-term care facilities. Acute-care hospitals also employ basic patient care aids who are willing to learn advanced skills.

For more information, go to http://www.jccc.net/home/depts/5104/site/newstudent/types/adm_avs/CNA_Information-Requirements
(Major Code 3530; CIP Code 51.1614)
Health Occupations

Vocational Certificate

Required Course

Certified Nurse Aide Refresher Certificate

The CNA in Kansas is required to work at least eight hours every two years for the CNA certificate to remain active. If the CNA does not work for two years, a 21-hour refresher course must be completed. This course meets the state requirement to activate the CNA certificate.

This course includes 12 hours of classroom instruction and 9 hours of laboratory experience. Students will discuss the nurse aide’s responsibility in the current health care system and the importance of resident’s rights. The student will demonstrate safety measures, infection control procedures, personal care skills, measurement of vital signs and transfers, positioning and turning.

Students enrolled in the refresher course must show proof of certification as a...
Kansas CNA by bringing a copy of their card on the first day of class.

Dental Assisting, A.A.S.

This program, which leads to either an associate in applied science degree or a
certificate of proficiency, prepares the student to enter the workforce as a trained
dental auxiliary. Graduates of this program are eligible to take the national
certifying examination given by the Dental Assisting National Board.
Admission to the Dental Assisting Program - Because enrollment in the program
is limited, a student must meet the requirements and apply for admission.
JCCC offers the cooperative dental assisting degree for Johnson County
residents with MCC-Penn Valley Community College. You must be accepted as a
student at JCCC and accepted into the program at MCC-Penn Valley Community
College. The student is awarded the degree from MCC-Penn Valley Community
College upon successful completion of all requirements. It is the student's
responsibility to check with a JCCC counselor before enrollment.
Program courses and credit hours are subject to change because of requirement
changes at the degree-granting institution. Contact MCC-Penn Valley Community
College at 816-759-4231 for an application packet, which includes deadlines,
program prerequisites and admission requirements.
For enrollment information regarding this cooperative program, go to Cooperative
Program Information.

Dental Assisting Certificate

One of the most exciting features of a dental assistant career is the variety of work
experiences you'll have, including working chair-side with dentists, taking
radiographs, mixing dental materials, performing laboratory procedures, taking
dental impressions, creating models, and fabricating bleaching trays and mouth
guards. The demand for dental assistants and other professionals that dentists
rely on to serve patients has increased dramatically.

The dental assistant program has accreditation from the American Dental
Association (ADA), Commission on Dental Accreditation. Graduating from an
ADA-accredited dental assisting program allows you to take the Dental Assisting
National Board examination without the two years of full-time work experience that
would otherwise be required.

JCCC offers the cooperative dental assisting certificate program for Johnson
County residents with MCC-Penn Valley Community College. You must be
accepted as a student at JCCC and accepted into the program at MCC-Penn
Valley Community College. Consult with a JCCC counselor for more information. Program courses and credit hours are subject to change because of requirement changes at the certificate-granting institution. Contact MCC-Penn Valley Community College at 816-759-4231 for an application packet, which includes deadlines, program prerequisites and admission requirements.

For enrollment information regarding this cooperative program, go to Cooperative Program Information.

### Home Health Aide Certificate

Home health care services are in demand, and continued growth in employment opportunities is expected into the next century. Home health aides may be required to provide support services for all age levels in the home setting. This 21-hour course will provide you with information necessary for nutritional meal planning, task modification, emotional support and personal services to clients and families needing health care assistance at home.

Enrollees must complete a reading comprehension exam/assessment prior to admission. Copies of the following will be required on the first day of class: social security card, current Kansas CNA card, current CPR for Health Care Provider card and documentation of a current negative TB test. Those who successfully complete this course will be scheduled to take the Kansas HHA certification examination. Sufficient notice of the exam date is given to allow students to make
arrangements to be in attendance on the appointed day.

IV Therapy for LPN's Certificate

This 48-hour course is designed to prepare the student for clients who require intravenous fluid therapy. This course meets the Kansas requirements for nurses seeking certification in IV therapy.
During this course, you will review basic physiology of the circulatory system and learn principles of site selection for veins appropriate to assess for IV therapy. A pharmacology review will include action, interaction, breakdown and allergic responses to medications commonly administered via the intravenous route. Principles of infection control, correct legal documentation and calculation of infusion rates will be taught. Equipment and supplies routinely used to initiate and administer IV therapy will be used in instruction. You will use the laboratory setting to demonstrate the basic skills of initiating intravenous therapy along with clinical sessions in a hospital setting.
At the conclusion of the class, a comprehensive written exam will be administered. Upon successful completion of the exam, the Kansas State Board of Nursing will be notified and the individual’s nursing license will be updated to reflect IV certification.
Copies of the following are required at the first class: documentation of current Liability Insurance-standard policy, current CPR for Health Care Provider card and documentation of a current negative TB skin test or negative chest X-ray.
For more information, go to
http://www.jccc.net/home/depts/5104/site/newstudent/types/adm_avs/IV_Therapy_Info-Requirements

Occupational Therapy Asst, A.A.S.

The occupational therapy assistant works under the supervision of a registered occupational therapist, helping people with emotional and developmental limitations achieve more functional lives. Graduates are eligible to sit for the national certification examination for the occupational therapy assistant administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of the exam, the individual will be a Certified Occupational Therapy Assistant (COTA). Most states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination.
The JCCC occupational therapy assistant program is offered to Johnson County residents in cooperation with MCC-Penn Valley Community College. The support courses are held at JCCC. The clinical courses are held at MCC-Penn Valley or at affiliated clinical agencies. You must be accepted as a student at JCCC and accepted into the program at MCC-Penn Valley. Consult with a JCCC counselor for more information.

Program courses and credit hours are subject to change because of requirement changes at the degree-granting institution. Contact MCC-Penn Valley Community College at 816-553-2231 for an application packet, which includes deadlines, program prerequisites and admission requirements.

Radiologic Technology, A.A.S.

The radiologic technology curriculum (X-ray technology) consists of a continuous 24-month period of study. Areas of study are radiographic exposure, positioning and anatomy, and the use of imaging equipment. The program is fully accredited by the Joint Review Committee on Education in Radiologic Technology.

The JCCC radiologic technology program is offered to Johnson County residents in cooperation with MCC-Penn Valley Community College. Related courses are taken at JCCC with lab and clinical courses held at MCC-Penn Valley or at a cooperating health facility. You must be accepted as a student at JCCC and accepted into the program by MCC-Penn Valley. Consult with a JCCC counselor for more information.

Program courses and credit hours are subject to change because of requirement changes at the degree-granting institution. Contact MCC-Penn Valley Community College at 816-759-4231 for an application packet, which includes deadlines, admission requirements and options for meeting academic criteria.

Rehabilitative Aide Certificate

The 32-hour rehabilitative aide course includes both classroom and laboratory instruction. The roles of the rehabilitative aide as a member of the health care team and in the aging process are emphasized. Students learn skills required to enhance the ability of elderly residents in long-term care. Skills required for residents with special needs are also learned. Student must have current CNA certification.

For more information, go to http://www.jccc.net/home/depts/5104/site/newstudent/types/adm_avs/RA_Information__Requirements

(Major Code 3620; CIP Code 51.2602)

Health Occupations

Vocational Certificate
Surgical Technology Cert

The surgical technology vocational certificate program leads to a certificate of proficiency and prepares students for entry-level jobs as operating room technicians.

JCCC offers the cooperative surgical vocational certificate program for Johnson County residents with MCC-Penn Valley Community College. You must be accepted as a student at JCCC and accepted into the program at MCC-Penn Valley Community College. Consult with a JCCC counselor for more information. Students must be a resident of Johnson County in order to receive in-state tuition rates.

Program courses and credit hours are subject to change at the certificate-granting institution. Contact MCC-Penn Valley Community College at 816-759-4231 for an application packet, which includes deadlines, program prerequisites, and admission requirements.

For enrollment information regarding this cooperative program, go to Cooperative Program Information.

General Basic HVAC Certificate

This vocational certificate is the recommended first step to employment in the Heating, Ventilation and Air Conditioning field. It is 10 credit hours of basic knowledge in HVAC. This certificate is the first completion point for students in the HVAC field and verifies that the student can demonstrate several basic HVAC skills.

(Major Code 3770; CIP Code 47.0201)

### General Basic HVAC Installation and Duct Fabrication Cert.

This vocational certificate provides the student with the fundamentals necessary to gain employment in the area of installation and duct fabrication in the heating and air conditioning field. It is 20 credit hours of basic knowledge in heating ventilation air conditioning, industrial safety, and sheet metal. This certificate is the beginning completion point for students in the HVAC field and verifies that the student can demonstrate several basic HVAC skills as they relate to installation and duct fabrication.

(Major Code 3780; CIP Code 47.0201)

TOTAL PROGRAM CREDIT HOURS: 20

*Prerequisite/Corequisite required

HVAC Commercial Service Technician, A.A.S.

Modern residential, commercial, institutional and manufacturing operations depend on carefully monitored temperature conditions and well-trained installation and service technicians. Government researchers say graduates of training programs that emphasize hands-on experience will have a definite advantage when seeking employment in heating, ventilation and air conditioning technology. JCCC provides you the opportunity to work on actual equipment while pursuing a degree or certificate program. The 64-credit-hour associate of applied science degree program focuses on developing an awareness of basic mathematical and scientific principles. The curriculum is concerned with the manner by which these principles affect the control of temperature and the quality of air, design, testing, installation and development of heating and cooling systems.

If you select the commercial maintenance technician degree, you will learn the special emphasis is on energy conservation through computer management. The theory of operation as well as installation, service and repair of rooftop air conditioners, cooling towers, steam boilers and commercial systems air conditioning are part of the curriculum. In addition to the 31 core hours, the following courses are required for the A.A.S. degree, facilities maintenance technician option.

HVAC Commercial Service Technician Certificate

The postsecondary certificate program is designed to prepare you for the basic job skills needed to service and maintain heating and air conditioning equipment. Students who elect the facilities maintenance technician certificate option learn the theory of operation and how to service, repair and design rooftop air conditioners, cooling towers, steam boilers and commercial systems air conditioners. This knowledge is reinforced by working on actual equipment in the laboratory. Completion of this program will allow the student to seek employment as a commercial maintenance and service technician in the heating/air conditioning trade.

Horticulture Certificate

Programs in some career areas are made available by means of cooperative agreements with other educational institutions. These cooperative agreements have resulted in the sharing of programming, curriculum and staffing in the greater Kansas City area and have promoted increased economies of operations for cooperating institutions. The horticultural certificate program is a cooperative program with the Metropolitan Community Colleges.

The 29-credit-hour certificate granted by Johnson County Community College is a certificate program designed to prepare students for a career in the “greening industry.” Upon completion of this certificate, students will possess the competencies to be successful at entry-level or higher positions in landscape design and maintenance, lawn care, garden centers and nurseries, wholesale greenhouse growers, and greenhouse operations and other related occupations.

Note: Metropolitan Community College students should seek specific counsel from the JCCC program personnel for the appropriate course plan and numbers. Missouri students should refer to Cooperative Program Information.

Horticulture Entrepreneurship Certificate
This certificate is designed to prepare students to open their own business in the “greening industry” businesses such as landscape design and maintenance, lawn care, garden centers and nurseries, and wholesale greenhouse growers. This certificate is designed to provide the student with basic skills in horticulture and small business development and management. Upon completion, the student should be prepared to develop, grow and sustain their own “green industry” business venture.

Landscape Technician Certificate

The 31-credit-hour certificate program is designed to prepare students for a career in landscape design and maintenance. Upon completion of this certificate, students will possess the competencies to be successful at entry-level or higher positions in landscape design and maintenance and other related occupations.

A full-time student can complete this certificate in a fall-spring sequence year.

Chef Apprenticeship, A.A.S.

The hospitality management program at JCCC is a comprehensive study of the food service and public lodging industries. The program is accredited by the American Culinary Federation Educational Institute Accrediting Commission.

The chef apprenticeship program at the college is sponsored by the American Culinary Federation and the U.S. Department of Labor. The three-year program has special admission requirements. You must be 18 years old and have a high school diploma or the equivalent.

The career program features formal course work along with the opportunity to actually practice such skills as baking, menu planning, food purchasing, beverage control and food preparation. After job placement, you join the American Culinary Federation Educational Institute for registered apprentice membership. Likewise, you register with the Department of Labor and will be officially indentured to supervising chefs and the sponsoring American Culinary Federation affiliate chapter for 6,000 hours. The program consists of 75 credit hours and leads to an associate of applied science degree.

Note: Metropolitan Community College students should seek specific counsel from the JCCC program personnel for the appropriate course plan and numbers.

Missouri students should refer to Cooperative Program Information.

Food and Beverage Management, A.A.S.

The hospitality management program at JCCC is a comprehensive study of the food service and public lodging industries. The program is accredited by the American Culinary Federation Educational Institute Accrediting Commission.

The JCCC food and beverage management program prepares graduates to enter a restaurant, club or food service management as a trainee or assistant manager. Courses in the 66-credit-hour program include supervisory management, hospitality accounting, hospitality law, food management, design techniques and advanced hospitality management. In addition, students learn food preparation skills through courses in basic and intermediate food preparation, menu planning, purchasing, nutrition and beverage control. Individuals considering this field should enjoy a very active environment and a lot of contact with people.

Note: Metropolitan Community College students should seek specific counsel from the JCCC program personnel for the appropriate course plan and numbers. Missouri students should refer to Cooperative Program Information.

### Pastry/Baking Certificate

The one-year pastry/baking certificate program is for students who are seeking employment as pastry cooks in pastry/bake shops, hotels, restaurants or other areas that produce pastry and baked products. Students may have an entrepreneurial interest for opening their own operation.

The program involves a total of 30 credits over two semesters with a maximum enrollment of 15 students. This is an open enrollment program beginning only during the fall semester. Current industry professionals may desire this program to upgrade their skills and increase their knowledge in this area of study.

Students must complete HMGT 120, Food Service Sanitation, and HMGT 123, Professional Cooking I, before enrolling in the program.

(Major Code 4350; CIP Code 12.0501)

Industrial Maintenance, A.A.S.

Industrial maintenance requires people employed in the field to be trained in a variety of areas, including welding, electricity, HVAC, gasoline or diesel engines, and generators. Often, the needs will change due to growth in a company or the expansion of services provided. This degree option will allow a student to choose from numerous courses to custom build a program that will fit the needs of an employer. It will also allow students employed in an industrial maintenance position to broaden their skill areas and achieve an associate of applied science degree.

Industrial Maintenance Certificate

Industrial maintenance mechanics are employed in the die-casting, plastics, food processing, printing, precision metal and woodworking industries. The vocational certificate course work includes a broad curriculum of industrial electricity, welding, HVAC and blueprint reading. Emphasis will be hands-on training in the repairing and testing of equipment. This also allows students employed in an industrial maintenance position to broaden their skill areas and achieve a vocational certificate.

Information Technology, A.A.S.

Information technology connects people, departments and companies for communication purposes. The technology of local area networks gives employees the ability to share and retrieve information at the group level. Combining local area networks with the Internet and telecommunications resources gives employees unlimited intranet access to information throughout the company and beyond. The associate of applied science degree in information technology provides students with a foundation in designing, installing and implementing computer networking resources. Course requirements include network operations and product-specific requirements for Netware, Windows, Unix and Cisco.

## Network Administration: UNIX Certificate

This certificate is a 26-credit-hour program that students can complete in four semesters. The certificate will provide students with competencies necessary to install, troubleshoot and administer Unix systems in an enterprise environment. These skills are sought in the industry today, with Unix operating systems claiming the majority of new implementations in the enterprise environment. 

(Major Code 7000; CIP Code 11.0901)

Network Connectivity Certificate

The network connectivity vocational certificate is a 13-credit-hour program that students can complete in three semesters. The certificate addresses the crucial area of Internet connection devices and provides necessary skills for students to be successful in the field. This certificate is supported and promoted by Cisco through its Networking Academy initiative. Course work parallels the requirements for Cisco Certified Network Associate (CCNA) certification exam.

Interactive Media, A.A.S.

The interactive media program provides instruction in the design and development process for different types of interactive media, acquiring and managing assets, the history and theory of communication forms, authoring for interactive media, interface design, and project management. This program is designed to build a common foundation of experience while allowing the student to elect asset and authoring courses as well as general electives that best serve his or her individual needs. Depending on individual choices and talents, students who complete the interactive media program should be prepared for employment in a variety of positions in the interactive media field. Interior Design, A.A.S.

Seven options in JCCC’s interior design program offer students opportunities to choose a career path from a wide variety of exciting fields. Three associate of applied science degree options -- interior design, interior merchandising and interior entrepreneurship -- offer design, retail and business proprietorship skills. Three certificate programs, the interior products sales certificate, interior design and merchandising entrepreneurship certificate and the interior design sales and marketing representative certificate, are available for students who need skills for immediate employment or who want a broader knowledge base for their current employment. The interior design advanced certificate offers classes needed to sit for the NCIDQ exam.

JCCC’s program offers courses in interior materials and resources, professional selling, business management, manual and CAD drafting, and product presentation, combined with a basic curriculum of business math, English and art history. Two required internships help develop technical, creative and business skills.

Faculty have worked in the field, which equips them to offer valuable firsthand knowledge of what it takes to succeed.

Note: Metropolitan Community College students should seek specific counsel from the JCCC program personnel for the appropriate course plan and numbers. Missouri students should refer to Cooperative Program Information. (Major Code 2750; CIP Code 50.0408)

Interior Design & Merchandising Entrep Certificate

The interior design and merchandising entrepreneurship certificate prepares students to open their own interior design or merchandising service or retail business. This certificate is designed to provide the student with basic skills in interior merchandising and design and the basic skills in small business development and management. Upon successful completion, students should be prepared to develop and sustain their own interior merchandising or design business venture.

Faculty have worked in the field, which equips them to offer valuable first hand knowledge of what it takes to succeed.

Note: Metropolitan Community College students should seek specific counsel
from the JCCC program personnel for the appropriate course plan and numbers. Missouri students should refer to Cooperative Program Information. (Major Code 4210; CIP Code 50.0408)

Interpreter Training, A.A.S.

The employment outlook for sign language interpreters is promising. As the population grows, so does the need for interpreters. Another factor in the predicted increase in employment opportunities is the effort many social service agencies, school systems, medical services and industries are making to provide interpreter services.

JCCC’s program concentrates on preparing students to provide entry-level interpretation and transliteration for the deaf, hard of hearing and non-deaf communities. During the last semester of the program, students participate in a practicum class in which they interpret under supervision in a variety of situations. Upon successful completion of this program, and a required capstone evaluation, students will earn an associate of applied science degree.

This is a selective admission program with limited enrollment. The deadline for fall semester applications is February 15th. If you are interested, contact the Admissions office for an application packet, which includes prerequisites, deadlines, admission requirements and academic criteria.

### American Sign Language Studies Certificate

The American Sign Language (ASL) studies postsecondary certificate has been developed based on the need for professionals and community members to be skilled in ASL. This program is intended as supplementary and does not prepare the learner to work as an interpreter. MATH 115 or higher is required for the certificate program; students planning to apply for admission to the interpreter training program after receiving their certificates are advised that MATH 116 or higher and/or a science elective are required for the A.A.S. degree. Students should contact a counselor or the career program facilitator for advice concerning graduation requirements.

Please note: INTR 145, INTR 122 and INTR 147 are only offered in the fall semester; INTR 123, INTR 135 and INTR 150 are only offered in the spring semester.

### Health Care Interpreting Certificate

Health care interpreting (HCI) is designed to give bilingual (English and Spanish) students the awareness, knowledge and skills necessary to serve as entry-level interpreters and translators in health care settings, including hospitals, clinics, medical offices and similar environments. Program completers should be eligible for employment as salaried or on-call staff interpreters, or as self-employed freelance interpreters. Employment opportunities may also be available with professional interpreting and translating service companies. Although the emphasis of the program is medical interpreting, the skills gained could be applied to other interpreting and translating settings in the community, such as conference and escort interpreting and translation of written documents.

The health care interpreting program is a 20-credit hour vocational program.
leading to a certificate of completion. It is designed to be completed in three semesters, although there is enough flexibility in the curriculum to extend the time period for several additional semesters, if the student prefers a slower pace. The program is organized in a progression of courses leading the student from general concepts to increasingly complex skills and knowledge, culminating in a comprehensive skills exam and a professional practicum. It includes five courses developed specifically for the program plus two courses offered through other departments. Students must earn a grade of C or higher in each of the program’s courses to continue in the program. The latter two courses, AAC 130, Medical Terminology, and HC 101, Introduction to Health Care Delivery, do not have prerequisites and could be taken at any time prior to completion of the program.

The HCI program is organized as part of the JCCC interpreter training program, although it has its own unique course prefix (HCI) and curriculum. Other courses in the interpreter training program emphasize deaf communication and sign language. HCI students should enroll only in courses with the HCI prefix, plus AAC 130 and HC 101.

Health Care Interpreting Entrepreneurship Certificate

This certificate is designed to prepare students to open their own business providing health care interpreting services. The certificate will provide the student with instruction in the national standards; professional roles and responsibilities of interpreters; common medical conditions, treatments, protocols and procedures; medical terminology in both English and Spanish; culture competence; code of ethics and professional standards of practice; and legal aspects of interpreting. Students will successfully complete a field practicum course and a comprehensive skills test. Prospective students must demonstrate fluency in both English and Spanish through an oral interview and other documentation as needed. Additionally, the certificate provides the student instruction in small business development and management. Upon successful completion, the student should be prepared to develop, grow and sustain their own health care interpreting service business venture.

Students must earn a grade of C or higher in each of the program's courses to continue in the program.

Land Surveying, A.A.S.

This program leads to an associate in applied science degree which provides students with the experience and knowledge they need to take the exam to become a land surveyor.

The JCCC land surveying program is offered to Johnson County residents in cooperation with MCC-Longview Community College. The support courses are held at JCCC. Program course and credit hours are subject to change because of the requirement changes at the degree-granting institution. It is the student’s responsibility to check with a JCCC counselor or advisor before enrollment.

Contact MCC-Longview Community College at 816-672-2510 for an application packet, which includes deadlines, program prerequisites and admission requirements.

For enrollment information regarding this cooperative program, go to Cooperative Program Information.

Paralegal, A.A.

The expanding role of the paralegal in the delivery of legal services has created increased opportunities with private law firms, corporate legal departments, insurance companies, real estate and title firms, banks, and government agencies. If you are interested in entering this career field, you should be aware that although the number of jobs for trained paralegals is rising, competition for these positions is increasing. A minimum of 18 hours of legal specialty courses must be taken at Johnson County Community College.

Paralegals may not provide legal service directly to the public, except as permitted by law.

The paralegal program at JCCC

- has a challenging curriculum
- requires that you possess excellent communication skills, analytical ability and a high level of motivation
- is approved by the American Bar Association
- is a selective admission program based on various academic and testing criteria

(Major Code 264A; CIP Code 22.0302)

Paralegal

Associate of Arts Degree

The following courses must be completed with a minimum GPA of 2.0 prior to application for admission to the paralegal program. Upon successful completion of the requirements for the associate of arts degree, you will be eligible to receive an A.A. degree and a paralegal certificate.

Legal Nurse Consultant Certificate

A legal nurse consultant (LNC) is a registered nurse who possesses both medical and legal knowledge. The LNC assists members of the legal profession with medical malpractice, personal injury and workers’ compensation cases. The LNC functions in two roles: a consulting expert and a testifying expert.

Prior to admission, you must have earned a registered nurse degree and have satisfied JCCC and American Bar Association general education requirements. Students will have fulfilled these general education requirements if they have 18 hours of general education. LNC applicants must also possess a current state license to practice nursing and have completed 2,500 hours of clinical work as a registered nurse. A minimum of 18 hours of legal specialty courses must be taken at Johnson County Community College.

LEGAL NURSE CONSULTANTS MAY NOT PROVIDE LEGAL SERVICES DIRECTLY TO THE PUBLIC, EXCEPT AS PERMITTED BY LAW.

**Marketing and Management, A.A.S.**

Merchandising, marketing and management-related fields have recently experienced tremendous growth and expansion in Johnson County. Surveys indicate that few other areas offer greater opportunity to qualified people. In fact, employment of people in this field is expected to increase faster than the average for all occupations nationwide.

JCCC’s marketing and management program prepares you for jobs in this field. Graduates of JCCC’s program are ready for entry-level management or sales positions in retail, wholesale or manufacturing and marketing services. Through marketing and management courses and in the case studies capstone...
course, you learn the latest in business trends. You also learn the importance of good customer service and the skills needed to deliver that service. The curriculum reflects current industry standards, including an emphasis on personal computer use, interpersonal communications and human relations.

Because all marketing and management students work at least 15 hours a week each semester in a store or business, you can apply what you learn in the classroom to your job. You also can take your work experiences back to the classroom for analysis and a greater understanding of the problems businesses face. You acquire basic merchandising information and learn how to work with people. By integrating coursework and on-the-job experience, you are given the knowledge, skills and attitudes necessary to reach your career objectives.

Marketing Specialist Entrepreneurship Certificate

The marketing specialist entrepreneurship certificate prepares students to open their own service business providing marketing services to businesses. This certificate is designed to provide the student with basic skills in marketing as well as basic skills in small business development and management. Upon successful completion, students should be prepared to develop and sustain their own marketing services business.

All 17 credit hours in the retail sales representative certificate program apply to the 35-credit-hour sales and customer service certificate.

Sales and Customer Relations Certificate

JCCC’s sales and customer relations program is designed for people employed in sales who wish to refine their skills or those who are contemplating a career in sales. The program focuses on the steps involved in the selling process and the delivery of effective customer service. Students who complete the program may find careers in sales (retail, wholesale or manufacturing) or in the customer service departments of stores, businesses and manufacturers.

All of the 30 credit hours required for the sales and customer relations certificate apply toward JCCC’s 64-credit-hour marketing and management associate of applied science degree.

Overall, employment in the selling field is expected to increase significantly through the year 2005.

Metal Fabrication Technology, A.A.S.

The welding technology/metal fabrication is a safety-oriented program that provides students the opportunity to learn practical knowledge and skill competencies associated with welding, metal fabrication and related processes. The JCCC welding technology/metal fabrication curriculum is designed to prepare students for various phases and levels of occupational skills. The program also offers currently employed professional welders the opportunity to upgrade their skills by taking advanced welding courses. Day and evening classes are available. Opportunities for those who wish to become welders, cutters and machine operators should be good through the year 2010. The number of qualified (certified) welders graduating from technical schools and community colleges is expected to be in balance with the number of future job openings. Welding technology/metal fabrication offers the service of four welding instructors and two machine tool instructors. Two are American Society (AWS) Certified Welding Inspectors (CWIs) for the inspection and testing of welds. JCCC welding technology professors can customize welding and machine programs to provide course materials utilizing many processes, materials or welding positions that can meet a particular company's needs.

JCCC provides well-equipped laboratories that enable students to receive instruction in blueprint and symbol reading for welders. The welding technology program consists of individual welding processes that allow students time to master each. After students master the Introduction to Welding course, other welding processes can be selected to meet individual needs. They are oxyacetylene welding (OAW) and cutting (OFC), plasma arc cutting (PAC), shielded metal arc welding (SMAW), gas metal arc welding (GMAW), flux cored arc welding (FCAW), gas tungsten arc welding (GTAW), metallurgy and allied processes. Basic machining includes hands-on training with milling machines, turning lathes, surface grinders, band saws and the use of hand tools. The program is accredited as an American Welding Society Participating Organization in the Training and Testing of Entry Level Welders. Eligible students may elect to test under AWS QC10 certification guidelines and, if successful, be listed in the AWS National Registry of Entry Level Welders.

A series of welder related certificates are offered, all leading toward the associate of applied science degree.

**Metal Fabrication Technology Certificate**

The welding/metal fabrication vocational certificate program teaches welding skills in the areas of shielded metal arc welding (SMAW), gas metal arc welding (GMAW), flux cored arc welding (FCAW), oxyacetylene welding (OAW) and cutting (OFC), plasma arc cutting (PAC), shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and gas tungsten arc welding (GTAW). The students also will receive training in safety and basic blueprint reading. This should give the student the skills needed to successfully enter the field of welding.

(Major Code 4790; 48.0508)

Metal Fabrication (Welding) Technology

**Vocational Certificate**

**Required Courses**
Combination Welder I Certificate

This certificate is the second step to the achievement of the MFAB A.A.S. degree. It is 11 college credit hours of general basic knowledge in welding.

The Combination Welder I certificate could be a completion point, for employment as a combination welder. This certificate verifies that the student has an understanding of several welding and cutting processes, and is entry level skilled with two basic welding processes, shielded metal arc welding (SMAW) and gas metal welding (GMAW). The student should have an understanding of basic metallurgy or welding symbols and blue print reading for welders.

Students are encouraged to pursue other welding certificates that will enhance their knowledge of welding and metal fabrication.

(Major Code 4600; CIP Code 48.0508)

Metal Fabrication (Welding) Technology

Vocational Certificate

Required Courses

- MFAB 121 Introduction to Welding.........................4
- MFAB 130 Gas Metal Arc Welding I........................4
- MFAB 240 Metallurgy.....................................2
- INDT 155 Workplace Skills................................1

TOTAL PROGRAM CREDIT HOURS..........................11

Combination Welder II Certificate

This certificate is the third step to achievement of the MFAB A.A.S. degree. It is 14 college credit hours of advanced welding knowledge.

Entry into this vocational certificate will depend on the applicant's past experience as a welder and on the prerequisites of course materials.

This certificate is a completion point if an advanced combination welder with entry level skills in several welding processes is needed. Both certificates, general basic welding and the combination welder I, must be completed before the combination welder II can be taken.

This certificate verifies that the student has entry level skills in at least four main welding processes, Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding I (GMAW), Gas Tungsten Arc Welding (GTAW) and Gas Metal Arc Welding-S (GMAW-S) and aluminum wire. The student should have successfully completed workplace skills. Blue print and symbol reading for welders and/or metallurgy.

(Major Code 4610; CIP Code 48.0508)

Metal Fabrication (Welding) Technology

Vocational Certificate

Required Courses

- MFAB 125 Advanced Gas and Arc Welding*..............4
Combination Welder/Machinist I Certificate

This certificate is the fourth step to the achievement of the MFAB A.A.S. degree. It is 15 college credit hours with an emphasis on machine tool materials and processes.

Completion of this vocational certificate will depend on the applicants past experience as a welder, and/or machinist, and on the prerequisites of course materials and successfully completing the basic machine tool processes class.

The advanced combination welder/machinist provides entry level skills in several welding processes. Both certificates, general basic welding and combination welder I, must be completed before starting this certificate. Combination Welder II is optional welding training and can be taken before or after this certificate is pursued.

This vocational certificate verifies that the student understands and has entry level skills with several basic machines and processes welding and cutting skills needed for entry level repair welding with multiple welding processes and machine tool skills.

The student should also have an understanding of metallurgy and blueprint and symbols for welders.

(Major Code 4620; CIP Code 48.0508)

General Basic Welding Certificate

This certificate is the recommended first step to employment in the welding field. It is 9 college credit hours of general basic knowledge in welding.

The general basic welding certificate verifies that the student can demonstrate several welding and cutting processes. It is designed for automotive students, artists, hobby welders or students interested in exploring welding as a possible career.

(Major Code 4590; CIP Code 48.0508)

Nursing - Registered Nurse, A.A.S.

Nursing is a rewarding and challenging career with an optimistic employment future. JCCC’s registered nurse program is fully accredited by the National League for Nursing Accrediting Commission and Kansas State Board of Nursing. It is designed with the assistance of a community advisory committee composed of men and women who work in the nursing health care fields and are aware of the requirements for a successful nursing career. Our faculty are well qualified and experienced in the practice and teaching of nursing.

Students receive clinical practice in a variety of settings, including hospitals, long-term care facilities and clinics. Experiences are offered in maternal child nursing, pediatric nursing, operating room nursing, medical-surgical nursing, mental health nursing and gerontology.

A registered nurse with an associate’s degree is a skilled health care provider who administers nursing care directly to patients and their families in a variety of settings. The job outlook is very positive. Employment of registered nurses is expected to grow faster than the average for all occupations through 2005.

(Major Code 235A; CIP Code 51.1601)

PN to RN Transition, A.A.S

The LPN to RN bridge program provides those licensed practical nurses wanting to become registered nurses the opportunity to do so. Admission to the program is based on academic criteria.

All licensed practical nurses making application must have completed required general education courses before being accepted.

Following successful completion of the summer transition courses, students are admitted to the third semester of the program. At least 10 openings are available each year. Successful completion of the third and fourth semesters of the program allows the graduate to apply to take the national licensing examination for RNs. The application deadline is Jan. 15.

(Major Code 235A; CIP Code 51.1601)

Nursing

Associate of Applied Science Degree

Note: LPN to RN Transition
Students must successfully complete NURS 136 and NURS 228 and NURS 230 before advanced standing credits for NURS 124 and NURS 126 will be granted.

Prerequisite: Prior to enrolling in NURS 228 and NURS 230

**Practical Nursing Day Certificate**

The health care industry needs informed, skilled and dependable workers to complete the care team. The licensed practical nurse assists registered nurses and physicians in caring for physically or mentally ill clients. In the long-term care setting and home health, the LPN may supervise other nursing care personnel.

Practical nursing offers employment in many health care settings. Long-term care, physicians’ offices, home care, hospitals and clinics provide opportunity for the practical nurse to administer care to a variety of clients. Job outlook for the Kansas City area is good, with an average starting salary of $35,152-$37,400.

Upon successful completion of the program, graduates are eligible to take the Practical Nursing Licensing exam. After completing the practical nursing program, you may continue your education in to become a registered nurse.

The program, which can be completed in 10 months, provides 1,100 hours of instruction. This includes classroom and clinical laboratory experiences in many areas of nursing. The application deadline is March 15, 2007 for the August, 2007, start date and March 15, 2008 for the August, 2008, start date. Admission to this program requires successful completion of several prerequisites.

(Major Code 3660; CIP Code 51.1613)

Railroad Electronics, A.A.S.

The associate of applied science in railroad electronics degree program is a restricted access program for those students enrolled in the railroad electronics certificate program who wish to progress to a degree. The certificate program has been an active program on the JCCC campus since 1993, with a total enrollment to date of almost 400 students.

The certificate program consists of 33 credit hours of electronics courses, previously designated as ELEC courses, currently designated as RREL courses. The total program content is equivalent to the electronics degree program, but the delivery differs. Content is divided into courses differently. Examples tend to be railroad-related where possible, and courses are delivered in alternative format, combining distance learning (using a remote access server) and classroom presentations.

Electronics technology influences almost every aspect of modern life. Skilled electronics technicians are needed to support growth in the railroad industry. These technicians must be able to fabricate, test, install, operate and maintain highly technical systems, such as communications systems networks, medical delivery systems, computers and computer networks, and industrial process control systems. The program focuses on the underlying principles of electronic devices used extensively in railroad signaling, circuit analysis and digital electronics and will provide a broad systems view of electronics.

Students in the railroad electronics technology program will work with outstanding facilities and the latest laboratory equipment. Graduates of the program will have the opportunity for employment in today’s most challenging and exciting railroad signal career field.

No new courses are required for this program. All RREL courses are offered as closed courses for BNSF Railway, with the railroad furnishing all equipment, trainers, computers and software.

(Major Code 2820; CIP Code 49.0299)

Railroad Electronics Certificate

This certificate is a comprehensive program of study that covers the fundamental electronic principles used by railroad signal control systems technicians. Upon successful completion of this program, the student should be able to apply basic digital and analog theory required in the maintenance of right-of-way crossing and train control systems.

Enrollment in the program is subject to the approval of the BNSF training director and JCCC division administrator.

(Major Code 4540; CIP Code 49.0299)

Railroad Carman Welding Certificate

JCCC’s railroad industrial technology certificate program is OPEN ONLY TO BNSF RAILWAY EMPLOYEES.

Enrollment is subject to the approval of the BNSF Railway training director and JCCC division administrator.

The railroad carman welding vocational certificate is designed to provide students with training in welding and cutting operations used by carmen employed in the railroad industry. Students completing the program should be able to demonstrate safe operating procedures for welding and cutting applications and perform skill competencies involving oxyacetylene cutting, shielded metal arc welding, gas metal arc welding and flux cored arc welding. Students should also be able to
complete qualification tests according to industry standards.

Railroad Structural Welding Certificate

JCCC’s railroad industrial technology certificate program is OPEN ONLY TO BNSF RAILWAY EMPLOYEES.

Enrollment is subject to the approval of the BNSF Railway training director and JCCC division administrator.

This certificate is designed to address the training needs for railway structural welders. Upon successful completion of this program, you should be able to demonstrate safe operating procedures for welding applications, perform skill competencies involving a variety of processes and positions, pass code welding requirements according to AWS D1.5, and perform welding operations as needed.

Railroad Track Welding Certificate

Enrollment is subject to the approval of the BNSF Railway training director and JCCC division administrator.

This certificate is designed to provide a concentrated program for industry-specific training in track maintenance and repairs. Upon successful completion of this program, you should have the ability to safely operate track welding equipment, perform basic and advanced welding operations, and complete specialized procedures as needed to perform the job of railway track welder.

Railroad Operations - Conductor Option, A.A.S.

Conductors are responsible for supervising over-the-road operation of freight trains and are in demand throughout the railroad industry. They may choose career paths leading to locomotive engineer service or railroad management. The final phase of this program consists of six weeks of full-time training provided in cooperation with the National Academy of Railroad Sciences on the campus of JCCC.

Note: Metropolitan Community College students should seek specific counsel from the JCCC program personnel for the appropriate course plan and numbers. Missouri students should refer to Cooperative Program Information.

Railroad Operations - General Option, A.A.S.

JCCC’s associate’s degree program in railroad operations can prepare you for an exciting and well-paying career. The more than 500 companies that make up the U.S. railroad industry provide the country’s freight and passenger transportation service on a network of some 300,000 route-miles of track. Railroads employ a substantial workforce to service, maintain and manage this extensive transportation network. JCCC’s program offers five options. The general option requires 66 credit hours, the conductor option 65 credit hours, the mechanical option 65 credit hours and the maintenance of way welding option 65 credit hours.

In general, this option is designed to provide the student with general knowledge and skills for entry-level employment in the railroad industry. The student is introduced to the history of railroading and the various railroad crafts. Railroad operations, safety, environment and quality also are covered. The student will choose from a list of business and technical electives in order to provide a basis for possible employment and further post-employment training.

### Railroad Operations - Welding Option, A.A.S.

Maintenance of way welding involves maintenance and repair of rail and track components. The final phase of this program consists of course work provided in cooperation with the National Academy of Railroad Sciences. Selective admission to the program is based on various criteria. Interested students should meet with a JCCC counselor as early as possible.

Respiratory Care, A.A.S.

The respiratory therapist is involved in a variety of lifesaving and life-supporting situations. Respiratory therapists treat patients ranging in age from newborns to senior citizens in the prevention, treatment, management and rehabilitation of lung problems. Employment is typically in hospitals but is available in several other health delivery venues. The health care needs of an aging population will play a role in the future of respiratory care.

JCCC’s associate of applied science program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP) in collaboration with the Committee on Accreditation for Respiratory Care (CoARC). Graduates are eligible to take the National Board for Respiratory Care examinations for both the certified (CRT) and registered (RRT) respiratory therapist.

This is a selective admission program with limited enrollment. Prospective students are encouraged to visit the program Web site at http://www.jccc.net/home/depts.php/001256 or to contact JCCC program personnel for additional information and application materials at 913-469-2583.

Note: Metropolitan Community College students should seek specific counsel from the JCCC program personnel for the appropriate course plan and numbers.

Missouri students should refer to Cooperative Program Information, specifically the reverse cooperative section.

Teaching, A.A.
The Teaching Associate of Arts degree is a two-year transfer degree designed to introduce students to the teaching at the elementary or secondary level to the teaching profession, and prepare them for transfer to a four-year institution. Students earning the associate of arts in teaching degree will satisfy many of the general education and pre-professional requirements for the first two years of the Bachelor’s degree program at four-year institutions that lead to state licensure of teachers. Students interested in teaching at the secondary level are encouraged to complete elective credits in the appropriate discipline.

Notes: Students should check requirements of the transfer school to insure transferability of selected course work. Secondary education students are advised to choose electives in the discipline in which they plan to teach.

Veterinary Technology, A.A.S.

A background in veterinary technology provides opportunities for employment with veterinarians, assisting them in providing professional services and performing veterinary-related tasks. Opportunities also exist with pharmaceutical companies in technical services or laboratory animal care.
The program features supervised intensive clinical study under the direction of a licensed veterinarian and is fully accredited by the American Veterinary Medical Association. Students study sanitation, animal care, preparation of animals for surgery and anesthetic management as well as laboratory techniques and radiology.

JCCC’s veterinary technology program is offered to Johnson County residents in cooperation with MCC-Maple Woods Community College. You must be accepted as a student at JCCC and accepted into the program at MCC-Maple Woods Community College. Consult with a JCCC counselor for more information.

Program courses and credit hours are subject to change because of requirement changes at the degree-granting institution. Contact MCC-Maple Woods Community College at 816-437-3235 or www.mcckc.edu for an application packet, which includes deadlines, program prerequisites, admission requirements and performance standards.

For enrollment information regarding this cooperative program; go to http://www.jccc.net/cooperative

Credit Course Descriptions

The following course offerings at JCCC are listed alphabetically by subject area. Clicking on the subject in which you are interested will give you a list of all courses that fall under that subject and a course description (including credit hour value) for each of those courses. If you then click on a particular course (ANTH 125, for example), you will be directed to a copy of the course outline, which includes the objectives and competencies covered in the course.

Academic Achievement Center (AAC)

AAC 100
Study Skills (1 CR)
This self-instructional course is designed to improve students’ ability to study efficiently. Based on the results of a study skills survey administered during the student’s initial visit to the center, an individualized program is established. Using instructional material provided by the A.A.C., students will master a variety of concepts, including time management, goal setting, textbook reading, note taking from textbook and from lecture, stress management, test taking and using college...
resources. An Academic Achievement Center instructor is available to work with
the student to establish specific instructional goals, administer tests, and provide
individualized instruction as it is needed to complete the student's program. This
course does not fulfill degree requirements.
Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $2 to 5.

AAC 101
Study Skills Mini-Course (1 CR)
This class is designed to improve students' ability to study efficiently. The focus is
an array of skills the college student needs, i.e., test-taking skills and note-taking
skills, using a textbook, critical reading and memory recall, and effective listening
and classroom strategies. Also covered are services the college offers to facilitate
the learning experience for the college student, i.e., the Writing Center, the Math
Resource Center, the Academic Achievement Center, the Student Success
Center and the Billington Library. The format includes reading, discussion and
application activities. This course does not fulfill degree requirements.
Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $2 to 5.

AAC 102
Basic Spelling (3 CR)
This self-instructional course is for students who wish to improve their spelling
ability but who have not been successful in the traditional spelling program. This
course provides a highly structured approach to spelling improvement through
mastery of morphographs (units of meaning) and guidelines for combining
morphographs. A limited number of spelling rules are taught in the course. This
course is ideal for students for whom English is a second language. An Academic
Achievement Center instructor is available to work with students to establish
specific goals, administer tests, and provide individualized instruction as needed
to complete the students' program. This course does not fulfill degree
requirements.
Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $2 to 5.

AAC 103
Advanced Spelling (1 CR)
This self-instructional course is for students who need to learn or review the basic
spelling concepts and to improve their level of spelling mastery. Based on the
results of a pretest administered during the student's initial visit, an individualized
program is established. Using instructional material provided by the AAC,
students will master a variety of concepts, including the final-e rule, the doubling
rule, the y-to-i rule, forming the plurals and using possessives. In addition,
students will monitor misspellings that occur in their own writing and will master
the correct spelling of those words. A post-test will be administered at the end of
the program to measure progress. An Academic Achievement Center instructor is
available to work with students to establish specific instructional goals, administer
tests and provide individualized instruction as needed to complete the students'
program. This course does not fulfill degree requirements.
Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $2 to 5.

AAC 104
Reading Comprehension (1 CR)
This self-instructional course is designed for students who wish to improve their
understanding of written language. A pretest is administered to determine a
baseline reading comprehension level. An individualized program of study will be
developed for each student, which includes both instructional and practice
material provided by the A.A.C. Textbooks, computer software and handouts are
some of the materials used in this course. This course does not fulfill degree
requirements. Students learn techniques for increasing reading comprehension,
which include previewing, questioning, careful reading with note taking, reciting
and reviewing. An Academic Achievement Center instructor is available to work
with students to establish specific goals, administer tests and provide individualized instruction as needed to complete the student's program. This course does not fulfill degree requirements.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $2 to 5.

AAC 105
Reading Rate (1 CR)
This self-instructional course is designed for students who demonstrate strong comprehension skills and wish to improve the rate at which they process written language. Students learn techniques for increasing reading rate and for improving skimming and scanning levels. A pretest will be administered to determine a baseline reading efficiency rate. An individualized program of study will be developed for each student, which includes both instructional and practice material provided by the A.A.C. Textbooks, computer software and handouts are some of the materials used in this course. An Academic Achievement Center instructor is available to work with students to establish specific instructional goals, administer tests and provide individualized instruction as needed to complete each student's program. This course does not fulfill degree requirements.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $2 to 5.

AAC 106
Vocabulary Development (1 CR)
This self-instructional course is designed for college students who wish to expand both their receptive and expressive vocabulary levels. College students are expected to be able to recognize and use vocabularies specific to specialized and changing contents, i.e., data processing, sociology and business. A vocabulary placement test will be administered to determine a starting level. Instructional material provided by the A.A.C. includes Latin and Greek derivatives, specialized vocabulary, stated and implied meanings as well as the process of acquisition (context clues, etymology and derivatives). An Academic Achievement Center instructor is available to work with the student to establish specific instructional goals, administer tests and provide individualized instruction as needed to complete the student's program. This course does not fulfill degree requirements.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $2 to 5.

AAC 112
Basic Math Review (1 CR)
This self-instructional course is designed for students who need to learn or review basic mathematical concepts. Based on the results of a pretest administered during the student's initial visit to the Center, an individualized program is established. While one student may begin the program with multiplication facts, another may begin with solving proportions or equations. Instructional material is provided by the A.A.C. An Academic Achievement Center instructor is available to work with the student to establish specific instructional goals, administer tests and to provide individualized instruction as needed to complete the student's program. This course does not fulfill degree requirements.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30 to 35.

AAC 113
Algebra Preparation (1 CR)
This self-instructional course is designed for students who possess basic math skills and want to learn basic concepts in algebra. Based on the results of a pretest administered during the student's initial visit to the center, an individualized program is established. Using instructional material provided by the A.A.C., students will master a variety of concepts, including the terminology of mathematics and algebra, simplifying open expressions, solving algebraic equations and other concepts. An Academic Achievement Center instructor will be available to work with the student to establish specific instructional goals,
administer tests and provide individualized instruction as needed to complete
the student's program. This course does not fulfill degree requirements.

Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $2 to 5.

AAC 114
Chemistry Preparation (1 CR)
This self-instructional course is designed for students who need to learn or review
the basic chemistry concepts. Based on the results of a pretest administered
during the student's initial visit to the center, an individualized program is
established. Using instructional material provided by the A.A.C., students will
master a variety of concepts, including chemical symbols and formulas, valences,
chemical equations, the metric system, units and dimensions, temperature,
numbers in exponent form, significant figures, electrical charges, acids, bases,
salts and solubility. An Academic Achievement Center instructor is available to
work with the student to establish specific instructional goals, administer tests and
provide individualized instruction needed to complete the student's program. This
course does not fulfill degree requirements.

Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $2 to 5.

AAC 115
College Skills Development (1 CR)
This course is designed to improve student self-awareness and institutional
awareness. Focus is on strengthening the student's ability to use campus
resources and services, as well as improving self-awareness in terms of
communication skills, aptitudes, interests, values pertaining to career/life
decisions, and self-advocacy. This course does not fulfill degree requirements.

AAC 120
Individualized Study (1 CR)
This self-instructional course is designed for students who want to improve in any
of the following A.A.C. areas: study skills, reading comprehension, reading rate,
vocabulary improvement, advanced spelling, basic math, algebra preparation or
chemistry preparation. Once the area of study has been determined, a pretest will
be administered by the instructor and a program of study will be developed using
materials provided by the A.A.C. An Academic Achievement Center instructor is
available to work with students to establish specific goals, administer tests, and to
provide individualized instruction needed to complete the student's program. This
course does not fulfill degree requirements.

Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $2 to 5.

AAC 121
Individualized Study (2 CR)
This self-instructional course is designed for students who want to improve in one
or two of the following A.A.C. areas: study skills, reading comprehension, reading rate,
vocabulary improvement, advanced spelling, basic math, algebra preparation or
chemistry preparation. Once the areas of study have been determined, a
pretest will be administered by the instructor in each of these areas, and a
program of study will be developed using materials provided by the A.A.C. An
Academic Achievement Center instructor is available to work with students to
establish specific goals, administer tests, and to provide individualized instruction
needed to complete the student's program. This course does not fulfill degree
requirements.

Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $2 to 5.

AAC 122
Individualized Study (3 CR)
This self-instructional course is designed for students who want to improve in two or three of the following A.A.C. areas: study skills, reading comprehension, reading rate, vocabulary improvement, advanced spelling, basic math, algebra preparation or chemistry preparation. Once the areas of study have been determined, a pretest will be administered by the instructor in each of these areas, and a program of study will be developed using materials provided by the A.A.C. An Academic Achievement Center instructor is available to work with students to establish specific goals, administer tests, and to provide individualized instruction needed to complete the student's program. This course does not fulfill degree requirements.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $2 to 5.

**AAC 130**
**Medical Terminology** (3 CR)
This self-instructional course is designed for the student who wants to learn a systematic format for acquiring a medical vocabulary. The course begins with a study of suffixes and prefixes common to most of the body systems and guidelines for combining word parts and forming plurals. This is followed by a study of each body system and oncological terminology. Any student who is planning a career in any facet of the health care industry will find this course beneficial. An Academic Achievement Center instructor is available to work with students to establish specific goals, administer tests and provide individualized instruction as needed to complete the student's program.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 30.

**AAC 135**
**Career and Life Planning** (3 CR)
This course helps students make decisions about their college majors, careers and other life goals. It emphasizes career research as a tool for making current career decisions and meeting changes in the future workplace. Students learn a systematic approach for making career and life decisions based on their personalities, interest, skills and values.

**AAC 150**
**Job Search Skills** (1 CR)
This class presents the skills students need to conduct an effective job search, including locating job leads, writing resumes, employment interviewing and job correspondence. Additionally, students will explore the importance of adapting to changes in the workplace to ensure their job survival and success. The class consists of lectures, activities, discussion and exercises in the career planning and job search process.

**Accounting (ACCT)**

**ACCT 109**
**Basics of Income Taxes** (1 CR)
This course teaches the student federal income tax rules and the procedures for reporting federal income tax. Upon completion of this course, the student should be able to keep records that will provide appropriate information for use in preparing federal income tax. The student should also be able to prepare the basic individual federal income tax return. 1 hr. lecture/wk., 16 contact hours.

**ACCT 111**
**Small Business Accounting** (3 CR)
This course will introduce the basic accounting procedures needed to maintain
daily records for a small business and the use of such records in the
decision-making process. Upon successful completion of the course, the student
will be able to maintain a set of financial records with the occasional help of an
outside accountant. This course does not prepare the student for Accounting II. 3
hrs./wk.

ACCT 121
Accounting I (3 CR)
This course is an introduction to accounting fundamentals. Upon successful
completion of this course, a student should be able to analyze transactions, use
various journals and ledgers, prepare financial statements and summarize results
at the close of the fiscal period for the sole proprietorship. 3 hrs./wk.

ACCT 122
Accounting II (3 CR)
Prerequisite: ACCT 121
This course is a continuation of ACCT 121. Upon successful completion of this
course, the student should be able to prepare and use financial statements with
increased emphasis on interpretation and use of accounting data peculiar to
partnerships, corporations and manufacturing firms. 3 hrs./wk.

ACCT 131
Federal Income Taxes I (3 CR)
This course teaches the student federal income tax rules and the procedures for
reporting federal income tax. Upon completion of this course, the student should
be able to do short- and long-range tax planning and keep records that will
provide appropriate information for use in preparing federal income tax. The
student should also be able to prepare the standard individual federal income tax
return. 3 hrs./wk.

ACCT 135
Computerized Accounting Applications (3 CR)
Prerequisite: ACCT 121 or ACCT 111
Upon successful completion of this course, a student will be able to use the
microcomputer to create a chart of accounts, accounts receivable and payable
subsidiary ledgers, transaction journals, general ledgers, financial statements,
reports and forecasts. 3 hrs./wk.

ACCT 140
Computerized Accounting Problems (3 CR)
Prerequisite or corequisite: ACCT 122
The course will teach students how to use spreadsheet and database software to
set up and solve accounting problems. 3 hrs/wk.

ACCT 215
Accounting for Nonprofit Organizations (3 CR)
Prerequisite: ACCT 121
This course is a three-hour survey course of not-for-profit accounting and its
primary users: federal, state and local governments; hospitals; and schools. Upon
successful completion of the course, the student should be able to describe the
primary funds and accounting groups, assist in the budget process, and practice
variances among the major nonprofit organizations according to their authoritative
pronouncements. 3 hrs./wk.

ACCT 221  
Cost Accounting (3 CR)  
Prerequisite: ACCT 122  
Upon completion of this course, the student should be able to develop and use accounting information to plan and control operations, value inventory, determine income in a manufacturing environment, and evaluate subsequent results. 3 hrs./wk.

ACCT 222  
Managerial Accounting (3 CR)  
Prerequisite: ACCT 122  
Upon completion of this course, the student should be able to develop and use accounting information as an instrument of management control. Students will recognize needed information, determine where it can be obtained and decide how this information can be used by managers to plan, control and make decisions. Material covered includes financial statement analysis, cost application and budgeting reports management. 3 hrs./wk.

ACCT 231  
Intermediate Accounting I (3 CR)  
Prerequisite: ACCT 122  
The course will present the use of accounting theory in the preparation of financial reports. Upon successful completion of this course, the student should be able to solve problems that arise in the presentation of cash, receivables, inventories, tangible and intangible assets on the statement of financial position, and their related effect on the statement of income. 3 hrs./wk.

ACCT 232  
Intermediate Accounting II (3 CR)  
Prerequisite: ACCT 122  
Accounting theory learned through the study of accounting concepts and technical procedures will be presented in this course. Upon completion, the student should be able to solve problems in the presentation of capital structures, long-term investments, debts, leases, pensions, the analysis of financial statements, and price-level, and fair value accounting and reporting. 3 hrs./wk.

ACCT 278  
Accounting Internship (1 CR)  
Prerequisites: ACCT 121 plus 12 additional ACCT hours beyond ACCT 121 and Assistant Dean’s Approval  
The student will be able to gain work experience in an approved training station under instructional supervision in an accounting or an accounting-related occupation. This internship is designed to give students the opportunity to apply the skills they have acquired in accounting specialty courses. The internship will require an average of 12 hours of job training per week by arrangement.

ACCT 285  
Accounting Capstone (3 CR)  
Prerequisites: ACCT 121 and ACCT 122 plus 15 hours of accounting courses and
Assistant Dean's Approval

This course is designed as a capstone experience before entering the workplace. Students will maintain a complete set of books and related financial statements both manually and electronically through an accounting cycle. Students will use previously prepared financial statements to make informed judgments and solve problems, identify and apply ethical positions and effectively communicate this information to others both orally and in writing.

Administration of Justice (ADMJ)

ADMJ 121
Introduction to Administration of Justice (3 CR)
This course provides a detailed description of the components of the American criminal justice system: police, courts and corrections. Students utilize critical thinking skills to discern the balance between individual rights and public order as it pertains to the criminal justice process. Students demonstrate knowledge of criminal justice processes through examinations, assigned papers and reports. Additionally, students are required to participate in field and classroom experiences designed to explore the various career opportunities within the criminal justice system. 3 hrs. lecture/wk.

ADMJ 124
Criminal Justice and Corrections (3 CR)
This course is a detailed exploration of the subsystems of the criminal justice system. It will begin with the history and evolution of the penal system. The law, legal system and criminal justice process will be reviewed. This focus includes a detailed examination of jails, detention facilities, probation, prisons and parole. An overview of the state, local and federal correctional systems will provide a systemic view of society's response to criminal behavior. 3 hrs. lecture/wk.

ADMJ 127
Criminology (3 CR)
This class will explore various explanations for criminal behavior including choice, biosocial, psychological, social structure and social process theories. Society's responses to crime will also be examined. 3 hrs. lecture/wk.

ADMJ 130
Crime Prevention (3 CR)
Topics of special interest include the techniques public service agencies use to operate crime-prevention programs and provide technically accurate, cost-effective security recommendations to the community. 3 hrs. lecture/wk.

ADMJ 133
Juvenile Delinquency (3 CR)
This class will provide an analysis of detention procedures, disposition, custody and treatment of juvenile offenders throughout the United States with a specific interest in area systems. The origin and development of juvenile agencies, as well as the organization, functions, and jurisdiction of juvenile courts will be studied. 3 hrs. lecture/wk.

ADMJ 140
Constitutional Case Law (3 CR)
Students will study Supreme Court decisions that have had significant effect on law enforcement techniques and procedures. 3 hrs. lecture/wk.

ADMJ 141
Criminal Law (3 CR)
Prerequisite: ADMJ 124 or LAW 121 or PL 121
After taking this course, the student will be able to state the two basic elements necessary for any crime and the philosophy behind these two elements. After a detailed exploration of common law crimes and selected Kansas and Missouri statutes, the student will be able to classify common law crimes and state the difference between a felony and a misdemeanor. The student will understand the significance of the separation of powers doctrine and its application to criminal law and the constant interplay of the U.S. Constitution in criminal law. 3 hrs. lecture/wk.

ADMJ 143
Crime Analysis (3 CR)
Students will learn crime profiling skills and specialized techniques of conducting research, analyzing data and producing crime analysis products. Students will survey existing computer applications and learn practical use and evaluation of these applications. Students will become familiar with the common written reports, charts and graphs used to describe crime analysis products. Students will survey the variety of customers served by crime analysts and the integral part crime analysis plays within the community. 3 hrs. lecture/wk.

ADMJ 145
Fundamentals Private Security (3 CR)
In addition to understanding the general field of private security, the student will be able to differentiate between the security needs of industry, private business, government and selected educational institutions. 3 hrs. lecture/wk.

ADMJ 146
Retail Security (3 CR)
This is a study of retail security supervision and management. Topics will include employment practices, employee dishonesty, controlling shoplifters, and building and perimeter protection. 3 hrs. lecture/wk.

ADMJ 148
Family Violence/Sexual Abuse (3 CR)
A description and causal analysis of the different physical, psychological, and sexual abuse acts that may occur within the primary family unit will be provided in this course. The study will include possible causative factors; psychological and social effects on the various family members; psychological, social and legal implications; treatments; and the relationship between abuse and crime. 3 hrs. lecture/wk.

ADMJ 154
Fundamentals of Criminal Investigation (3 CR)
Prerequisite: ADMJ 124
This course is designed to give fundamental information that serves as an overview of the entire field as well as a solid foundation for specialized course work. The course focuses on homicide investigation, crimes against children and sex-related offenses. 3 hrs. lecture/wk.
ADMJ 170
Introduction to Substance Use and Abuse (3 CR)
This course explores mood-altering substance use and abuse, including these substances’ history and evolution. The course will focus on the models of abuse, addiction and treatment. The current local and federal laws governing substance use and abuse will be examined. Students will gain a comprehensive grasp of the current facts, focuses, and methods of dealing with mood-altering substances. 3 hrs. lecture/wk.

ADMJ 201
Police Interrogation (3 CR)
Prerequisite: Suggested course: ENGL 121
This class will assist students in developing the specific verbal and written communication skills used in the criminal justice field. Emphasis will be placed on the development of interviewing, interrogation, and report writing skills. Course content will focus on interviewing victims, witnesses and suspects and utilizing the information to write accurate and complete narrative reports. 3 hrs. lecture/wk.

ADMJ 220
Writing for Criminal Justice (1 CR)
Prerequisites: ENGL 121 and ENGL 122
Writing for Criminal Justice is designed to complement the Administration of Justice program by emphasizing the types of writing required in a criminal justice career. Students are required to gather pertinent information and then record that information by writing a variety of report narratives representative of those prepared by individuals working in a profession within the criminal justice system. Students document criminal incidents depicted in videotaped scenarios as well as participate in active information gathering during incidents simulated in class. 1 hr. lecture/wk.

ADMJ 221
Introduction to Forensics (3 CR)
This course provides an overview of forensic science by focusing on the current technologies police rely on to apprehend criminal perpetrators and to link them through trace evidence to crime scenes. Emphasis is on crime scene investigation, physical evidence, organic and inorganic analysis, forensic toxicology and use of DNA in investigations. 3 hrs. lecture/wk.

ADMJ 224
Introduction to Terrorism (3 CR)
This course defines and describes for students and current police officers the following terms: terrorism, current terrorist organizations, which includes their history, their personnel and their capacity to threaten the security and interests of the United States. Within this context, students learn how law enforcement officials can predict patterns of terrorist activities. The course focuses especially on law enforcement’s methods for combating terrorism within multiple arenas, including deterrence, detection, prevention, and swift response. The course further addresses the challenges facing law enforcement and intelligence agencies in developing a coordinated response to terrorism. 3 hrs. lecture/wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

ADMJ 230
Criminal Behavior (3 CR)
Prerequisite: PSYC 130
This course is a detailed survey of the various psychological pathologies displayed by citizens when coming into contact with the police, as well as the sources of those pathologies. Various strategies of handling and dealing with troubled persons will be discussed. Students will learn about psychological profiling and mental status examination. Factors contributing to individual behavior will be explored. Students will receive an overview of common treatment procedures. 3 hrs. lecture/wk.

ADMJ 235
Community Based Corrections (3 CR)
This course is a comprehensive examination of community based corrections. The history of probation and parole is discussed as a foundation for the expanded coverage of correctional services offered in the community. Emphasis is given to modern correctional paradigms including diversion, intermediate sanctions and restorative justice. Practical field experience will broaden the students' understanding of this population and successful best practices of existing federal, state and county agencies will be examined. 3 hrs. lecture/wk.

ADMJ 265
Advanced Police Training
Prerequisite: Selective Admissions - open only to currently employed full-time police officers attending the Police Academy under sponsorship of a law enforcement agency
This course consists of 60 clock hours of law enforcement training provided in addition to the 540 hours required by the Kansas Minimum Standards Training Act for recruits attending the Police Academy. While the required 600-hour curriculum is provided without fee, enrollment in advanced training is required of all those attending the academy. The curriculum covers law, criminal investigations, patrol procedures, defensive tactics, report writing and specialized training required by local law enforcement agencies.

ADMJ 280
Criminal Justice and the Public (3 CR)
Prerequisites: ADMJ 121 and ADMJ 124 and ADMJ 127 and ADMJ 220 and at least five (5) additional credit hours of Administration of Justice course work
This capstone course for Administration of Justice majors assists students in preparing for a career in the field of criminal justice or an advanced program of study. The course is designed to integrate knowledge and skills acquired from prior ADMJ coursework. Additionally, students study concepts of ethics and professionalism as they relate to criminal justice professionals and the communities they serve. 3 hrs. lecture/wk.

ADMJ 281
Readings in Police Science (3 CR)
Prerequisite: 15 credit hours in ADMJ courses
The class will consist of selected readings in police science on topics such as police administration, criminal investigation, criminology, corrections, juvenile problems and evidence. By arrangement.

ADMJ 285
Administration of Justice Internship (3 CR)
Prerequisites: Fifteen credit hours in ADMJ courses or program facilitator approval and a grade point average of 2.0 or higher
The student will gain experience in settings that reflect the application of knowledge and skills acquired in the Administration of Justice program. The
student is expected to interact in a structured format with a professional agency, in a role related to study and career interests, and to develop insight and information that will help refine career directions and focus further study.

Animation (ANI)

ANI 120  
Conceptual Art for Animation (1 CR)  
Prerequisite: CDTP 135  
In this basic concept art course designed specifically for the game artist, graphic artist and animator, students will study basic and advanced drawing elements and principles. Students will produce conceptual artwork used in animation, graphic arts and gaming, including realistic and cartoon character design, landscape environments, architecture, and vehicles. 2 hr. integrated lecture-studio/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

ANI 145  
Introduction to 3D Animation (3 CR)  
Prerequisites: CDTP 135 and either ANI 120 or CIM 120  
This introductory course will provide a historical background and general design and production issues for 3D animation and game art creation. The details of modeling dimensional objects and environments and a range of simple to complex rendering techniques will be covered. Issues associated with telling a story through moving pictures such as screenplay writing, storyboarding and techniques for bringing an animated character to life will be explored. 6 hrs. integrated lecture-studio/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

ANI 245  
Character Animation (3 CR)  
Prerequisite: ANI 145 or CIM 145  
Students will continue to refine their skills in a variety of character animation media. The computer and cutting edge software has become an increasingly important tool in creating character animations, 2D and 3D character animations. More principles and elements of character animation will be introduced to create more realistic, believable and engaging stories. Continued focus on the importance of plot, character development, key principles of animation and artistic skill will push students into realms of endless creativity and imagination. 6 hrs. integrated lecture-studio/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

ANI 255  
Advanced Animation and Effects (3 CR)  
Prerequisite: ANI 245 or CIM 245  
The Advanced Animation and Effects course exposes students to various Hollywood style effects, from viscous liquid to open ocean effects. Through hands-on tutorials students will simulate and render a variety of visual effects including fire, explosions, smoke, steam, lightning, rain, snow storms and tornados. These are just a few of the many limitless possibilities that are required by today's demanding visual effects companies. The students will also explore compositing, combining CG (computer generated) and live video together to create stunning imagery. 6 hrs. integrated lecture-studio/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.
ANI 260
Animation Capstone (3 CR)
Prerequisite: ANI 255 or CIM 255
In this course, the student will use all the knowledge attained in previous core animation courses and develop a finished 1-2 minute independent movie following a predetermined animation production process and schedule. Students will develop a portfolio including an auto-run DVD or VHS tape, and a hard copy portfolio including illustrations of characters, model sheets, storyboards, props, environments, textures and final rendered scenes created for the movie. 6 hrs. integrated lecture-studio/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

ANI 272
Animation Internship (1 CR)
Prerequisite: Facilitator approval required
Students will work in an approved training situation under instructional supervision. The internship is designed to give the student the opportunity to use the skills learned in the interactive media program. Student interns will be required to complete a minimum of 180 hours of on-the-job training. ANI 272 and CIM 272 are the same course; do not enroll in both.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

ANI 273
Career Preparation (4 CR)
Prerequisite or corequisite: ANI 260
This course will provide interactive media majors instruction in the presentation of his or her work in a digital portfolio format of professional quality. A printed and written resume will be produced. Self-promotion, networking, job searches and interview skills will also be covered. 3 hrs. lecture, 2 hrs. lab/wk. ANI 273 is the same course as CIM 273; do not enroll in both.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

Anthropology (ANTH)

ANTH 125
Cultural Anthropology (3 CR)
This introductory course will employ various anthropological theories, perspectives, and methodologies to critically and comparatively examine an array of cultural and social topics as they relate to selected Western and Non-Western cultures and societies. 3 hrs./wk.

ANTH 126
Physical Anthropology (3 CR)
This course is an introduction to selected concepts and principles important to an understanding of evolutionary forces and their influence on the physiology and behavior of humans. The importance of the scientific method will be explored. Awareness of humans and their place in nature will be achieved by examining basic genetics, micro- and macroevolution, primate ecology and behavior, the paleoanthropological evidence for human evolution, and modern human adaptation and variation. 3 hrs./wk.

ANTH 130
World Cultures (3 CR)
This introductory course will utilize an ethnographic approach to introduce students to various cultural and social practices of Westernized and non-Westernized cultures and societies from around the world. This course will examine a wide range of topics including economic production, religion, world view, kinship patterns and political and economic institutions. 3 hrs./wk.

ANTH 134
Native Americans (3 CR)
This ethnographic course will introduce students to the indigenous peoples and First Nations of North, Central and South America, with particular attention being paid to North America. This course will focus on selected First Nations cultures and societies to examine a wide range of topics including arts, oral traditions, religions, and Indian-White relations. 3 hrs. lecture/wk.

ANTH 135
American Indian Artistic Tradition (3 CR)
This course introduces students to many art forms of the various American Indian nations of the United States, Canada, and Mexico. Mediums to be explored include traditional and contemporary visual art, traditional and contemporary music and dance, oral tradition, and film. In addition, social, political, economic, and legal influences on art will be discussed. Lectures, discussions, readings, and films will be utilized to accomplish this. 3 hrs. lecture/wk.

ANTH 140
Archaeology (3 CR)
This course is an introduction to the basic concepts, methods, and findings in archaeology. Awareness of the variety and continuity of the human past will be achieved by examining the processes that form and transform the archaeological record, basic dating techniques, and approaches to understanding the past. Through the archaeological record we will consider the evolution of humans, the transition of foraging to farming economies, the rise of complex societies, secondary state formation, and the collapse of complex societies. 3 hrs./wk.

Architecture (ARCH)

ARCH 120
Introduction to Architecture (3 CR)
This course is an introduction to the profession of architecture through a study of its history, vocabulary, theories and practices. The facets that make up the total architectural curriculum as well as the various professional roles that architects can be expected to perform will be covered. Architectural study is seen as both an art and a science. The interdisciplinary character of architectural practice is emphasized. 3 hrs. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $50 to 100.

ARCH 123
Architectural Principles (3 CR)
Prerequisite: ARCH 120
This course will elaborate on the concepts first presented in introduction to architecture. General focus will be on the modern profession and architects dealing with past, present and emerging ideas as they relate to physical and social context including landscaping, buildings and cities. Unifying themes will be presented of formal architectural principles in relation to modernism and the impact on design, the site, landscaping, and site planning issues. 3 hrs.
ARCH 127
Introduction to Architectural Graphics (4 CR)
This course is designed to build a conceptual and manual foundation for professional architectural education. Students will learn to apply a variety of media and drawing systems such as freehand drawing, architectural lettering and equipment usage. Students will also learn applied geometry including line, tone, texture and utilizing sun, shade and shadows. Multi-view, paraline, axonometric and oblique drawings will be taught and students will build models related to architectural forms. Emphasis will be on learning to think in spatial terms while introducing professional, conceptual and visual vocabulary. Graphic presentation skills will be developed using standard graphic conventions, basic computer skills, and basic material investigations. 8 hrs. integrated lecture, studio/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $125 to 200.

ARCH 131
Architectural Graphics (3 CR)
Prerequisite: ARCH 127 or ARCH 130
This course builds upon the conceptual and manual skills acquired in Introduction to Architectural Graphics. Students will expand their ability by learning to apply a variety of media and advanced drawing systems, such as design drawing techniques, model building, graphic diagramming, grid perspective drawing, projection perspective drawing, and shade and shadow studies. Emphasis will continue to be on learning to think in spatial terms as well as developing a new repertoire of graphic presentation skills. 6 hrs. integrated lecture, studio/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 300.

ARCH 140
Architectural Design (3 CR)
Prerequisite: ARCH 127 or ARCH 130
This course introduces the student to the process and vocabulary of design. The purpose of the content is to develop the ability to solve two- and three-dimensional design problems with basic methods, vocabulary and media appropriate to the architectural profession. 6 hrs. integrated lecture, studio/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 300.

ARCH 240
Architectural History: Ancient to Middle Ages (3 CR)
This course will trace the development of the built environment from Antiquity to the Middle Ages and explore pre-Columbian and Islamic architecture. Emphasis will be placed on how materials, technological advances and natural environment influence architecture. The shaping of architecture through cultural forces will be stressed. Fundamental design principles and analyses of the built form will also be covered. 3 hrs. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $25 to 100.

ARCH 241
Architectural History: Renaissance to Enlightenment (3 CR)
This course will investigate the architecture of the Renaissance, Baroque and Enlightenment periods. A brief exploration into non-Western architecture will also be presented. The focus of this course will be on the principles of design, cultural
forces and concept of the built environment within its historical context. The work of prominent architects from each period will be highlighted and analyzed. 3 hrs. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $25 to 50.

Art (ART)

ART 124
Design 2D (3 CR)
This is an introductory study of the principles of visual perception, two-dimensional space organization and the visual elements of line, shape, texture and space. Concepts, materials and processes necessary to an understanding of two-dimensional form are explored using traditional and digital tools and techniques. Working knowledge of Adobe Illustrator is required. 6 hrs. lecture and studio/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $200 to 400.

ART 127
Design 3D (3 CR)
Prerequisite: ART 124
This is a study of the function of three-dimensional organization in the development of visual ideas. Concepts, materials and processes necessary to an understanding of the three-dimensional relationships of space, form, form evolution and the dynamics of structure are explored. 6 hrs. lecture and studio/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $200 to 400.

ART 129
Design Color (3 CR)

This is a study of the nature of color, its physical properties and visual qualities. Basic theories, phenomena and their applications will be explored using pigment, colored paper and digital color systems. Working knowledge of Adobe Photoshop is required. 6 hrs. lecture and studio/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $200 to 400.

ART 130
Drawing I (3 CR)
This is an introductory course with an emphasis on the development of fundamental drawing skills, increased power of observation and an awareness of the personally expressive and compositional aspects of drawing. 6 hrs./wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 200.

ART 131
Drawing II (3 CR)
Prerequisite: ART 130
This course involves intermediate problems in drawing with emphasis on individual expression based on historical as well as contemporary concerns and approaches in art. Students will work from models, still-life, and conceptual presentations. A variety of media will be explored. 6 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 200.

ART 135
Painting I (3 CR)
This course is an introduction to the basic elements of painting. Students will learn basic painting skills, color properties, color mixing, color relationships, applications and proper use of tools and equipment. 6 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 200.

ART 136
Painting II (3 CR)
Prerequisite: ART 135
This course involves intermediate problems in painting with emphasis on individual expression based on historical as well as contemporary concerns and approaches in art. 6 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 200.

ART 138
Digital Imaging for Artists (3 CR)
This course is an introduction to the use of the computer as a medium for making fine art. The course will emphasize developing the student’s skill in making expressive visual statements using computer technology. 6 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 200.

ART 142
Ceramics I (3 CR)
This course is designed to build a conceptual and manual foundation for future ceramics education. Students will study the properties of clay, its preparation, hand and wheel techniques, surface design, firing methods, fundamental ceramic terms, principles of design, introductory ceramic history and orientation to safe practices for the ceramic artist. Emphasis will be on developing skills appropriate to the beginning student for the purpose of creative and technical expression. 6 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 250.

ART 143
Ceramics II (3 CR)
Prerequisite: ART 142
This course covers more advanced methods and studio practices in creative ceramic wheel expression and glaze formation. Emphasis is on development of a sense of thrown form and creative decoration or optional creative non-wheel ceramic form development. The course focuses on advanced ceramic form production, aesthetic issues, investigative study and practice. Clay, glaze and firing techniques are investigated in depth. The student acquires a repertoire of studio skills, a deeper awareness of ceramic history and articulated criteria of judgment. Individual interpretation and conceptual development are expected. The study of aesthetics of ceramic form is undertaken. 6 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 250.
ART 145
Sculpture I (3 CR)
Students will explore and study natural and synthetic sculptural forms as they create work using traditional or contemporary media and techniques. Assignments require work in limestone, clay, wax, bronze, aluminum and steel, and involve carving, modeling and building up. 6 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $50 to 200.

ART 146
Sculpture II (3 CR)
Prerequisite: ART 145
This continuation of ART 145 will focus on advanced methods and techniques with emphasis on materials, forms and the student’s selection of an individual direction with individual material choices. 6 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $50 to 200.

ART 148
Metal and Silversmithing I (3 CR)
This course is a basic introduction to the terms, tools and techniques involved in creating jewelry and other wearables as they relate to the human figure. Casting, fabrication and construction will be explored. 6 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $50 to 200.

ART 149
Metal and Silversmithing II (3 CR)
Prerequisite: ART 148
Students will study advanced casting and construction techniques. Projects should show a higher degree of design and function. 6 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $50 to 200.

ART 172
Watercolor Painting (3 CR)
This course is an introduction to transparent water media with emphasis on learning fundamental painting skills, the visual elements, composition, visual perception and an awareness of personal expression. 6 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 200.

ART 180
Art Hist:Ancient/Renaissance (3 CR)
This course will acquaint students with the arts and ideas of world civilizations from the prehistoric period to the beginning of the Italian Renaissance. The course will examine the aesthetic elements that mark the styles of major periods in two-dimensional, three-dimensional and architectural works. Particular attention will be paid to the relationship between artistic elements and their various cultural and historical contexts. 3 hrs./wk.

ART 182
Art History:Renaissance/Modern (3 CR)
This course will acquaint students with the arts and ideas of Western cultures from the beginning of the Italian Renaissance to the present. The course will examine the aesthetic elements that mark the styles of major periods in
two-dimensional, three-dimensional and architectural works. Particular attention will be paid to the relationship between artistic elements and their various cultural and historical contexts. 3 hrs./wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

ART 184
Art History: Twentieth Century (3 CR)
This course introduces the student to the arts and ideas of Western Europe and the United States from the late 19th century to the present. The course will examine the aesthetic elements that mark the styles of major movements in two-dimensional, three-dimensional and architectural works. Particular attention will be paid to the relationship between artistic elements and their various cultural and historical contexts. 3 hrs. lecture/wk.

ART 186
Art History: Intro to Asian Art (3 CR)
This course will acquaint students with the arts and ideas that arose in India, China and Japan from the prehistoric to the early modern periods. The course will examine the aesthetic elements that mark the styles of major periods in two-dimensional, three-dimensional and architectural works. Particular attention will be paid to the relationship between artistic elements and their various cultural and historical contexts. 3 hrs. lecture/wk.

ART 231
Life Drawing I (3 CR)
Prerequisite: ART 130
This course is an introduction to the basic elements of drawing for students wanting a concentration in drawing the human figure. Students will acquire basic competence in developing drawings involving the human form. 6 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 200.

ART 232
Life Drawing II (3 CR)
Prerequisite: ART 231
This course is an intermediate investigation of drawing from the human form. This class is for students wanting to concentrate on figure drawing beyond Life Drawing I. 6 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 200.

ART 235
Studio Workshop I (3 CR)
Prerequisite: ART 131 or ART 136
This course involves advanced problems in painting (or drawing) with emphasis on individual expression based on historical as well as contemporary concerns and approaches in art. 6 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 200.

ART 236
Studio Workshop II (3 CR)
**Prerequisite: ART 235**

This course involves advanced problems in painting (or drawing), above and beyond those experienced in Workshop I, with emphasis on individual expression. 6 hrs./wk.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 200.

**ART 244**  
**Ceramics Workshop I (3 CR)**  
*Prerequisites: ART 143 and permission of the assistant dean*

Students will have the opportunity to pursue advanced individual research under the direction of the instructor. Emphasis is on creative expression and development of technical skills as well as the further pursuit of technical studies that have relevance for emerging personal specializations. Students will conduct a personal program of study on one aesthetic issue that emerges as personally significant and present the outcomes in an appropriate and acceptable manner at the close of the semester. Students should initiate and pursue studies in directions that inform and further their individual professional and creative growth, which leads to invention, innovation and refinement of their personal semester work, as agreed upon with the instructor. This course enables further pursuit of technical studies that have relevance for these emerging personal specializations. Skill refinement, three-dimensional imagination, with increased creative expression and creative product generation are anticipated. 6 hrs. lecture, lab/wk.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 250.

**Art History (ARTH)**

**Astronomy (ASTR)**

**ASTR 120**  
**Fundamentals of Astronomy (3 CR)**  
This course is a study of the universe from the earth, moon and planets to the stars and the most distant galaxies. Topics include black holes, quasars, and the origin of the universe and the possibility of life on other planets. Current astronomical discoveries are discussed in class as they occur. Access to astronomical Web sites is available to students in this course. 3 hrs. lecture/wk.

**ASTR 122**  
**Astronomy (4 CR)**  
This course is a study of the universe from the earth, moon, and planets to the stars and the most distant galaxies. Topics include black holes, quasars, and the origin of the universe and the possibility of life on other planets. Current astronomical discoveries are discussed in class as they occur. Access to astronomical Web sites is available to students in this course. 3 hrs. lecture, 2 hrs. lab/wk., 5 nighttime telescope sessions are required.

**Automotive Technology (AUTO)**

**AUTO 121**  
**Small Engine Service (3 CR)**  
Upon successful completion of this course, the student should be able to compare and contrast operating principles of two-stroke and four-stroke cycle engines. The student should be able to describe lubricating, cooling, fuel and governor systems;
troubleshoot engine problems; inspect engine components; and service the fuel, cooling and exhaust systems. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 2 hrs. lecture, 3 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $40 to 300.

AUTO 122
Introduction to Automotive Glass (3 CR)
Upon successful completion of this course, the student should be able to diagnose, service and repair various automotive glass problems, provide professional service to customers, and manage and supervise jobs and employees. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/ or equipment. 2 hrs. lecture, 1 1/2 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $40 to 300.

AUTO 123
Motorcycle Maintenance and Repair (2 CR)
Upon successful completion of this course, the student should be able to demonstrate the proper use of tools and equipment used in servicing motorcycles. Two-stroke and four-stroke cycle designs will be studied. Overhaul procedures will be demonstrated. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 1 hr. lecture, 3 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $40 to 300.

AUTO 125
Introduction to Automotive Shop Practices (3 CR)
This is a beginning course that is appropriate for both the automotive major and other interested students. Upon successful completion of this course, the student should be able to develop shop safety habits and become proficient in tire, battery, cooling system, lubrication service and minor electrical diagnosis. This course is an introductory course required for all students in the Automotive Technology program. Emphasis will be placed on learning basic skills needed to enter advanced automotive classes. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 2 hrs. lecture, 3 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $40 to 300.

AUTO 128
Automotive Parts Specialist (2 CR)
Upon successful completion of this course, the student should be able to demonstrate good communication and basic math skills. Ordering and maintaining correct inventory, as well as displaying and selling automotive parts for a fair profit, will be studied. Lectures will be supported by parts specialists in the industry. 2 hrs. lecture/wk.

AUTO 130
Diesel Fundamentals (2 CR)
Prerequisite or corequisite: AUTO 125
Upon successful completion of this course, the student should be able to identify diesel engine components and parts and troubleshoot and service all external components with emphasis on glow plugs, injectors and injector pumps. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 1 hr. lecture, 3 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $40 to 300.

**AUTO 163**  
**Automotive Steering and Suspension** (3 CR)  
Prerequisite or corequisite: AUTO 125 or approval of division administrator  
Upon successful completion of this course, the student should be able to describe manual and power steering component operation, summarize construction and operation of front and rear suspension systems, perform four-wheel alignment on current vehicles and service steering and suspension components. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 2 hrs. lecture, 3 hrs. lab/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $40 to 300.

**AUTO 165**  
**Automotive Engine Repair** (4 CR)  
Prerequisite or corequisite: AUTO 125 or approval of the program administrator  
Upon successful completion of this course, the student should be able to demonstrate an understanding of the four-stroke cycle internal combustion engine, calculating compression ratio, piston displacement, horsepower and torque, and correcting internal engine malfunctions. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 2 hrs. lecture, 6 hrs. lab/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $40 to 300.

**AUTO 167**  
**Automotive Brake System** (2 CR)  
Prerequisite or corequisite: AUTO 125 or approval of program administrator  
Upon successful completion of this course, the student should be able to summarize disc and drum brake construction and operation, service all brake system components and describe anti-lock brake system services. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 1 hr. lecture, 3 hrs. lab/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $40 to 300.

**AUTO 168**  
**Automotive Manual Drivetrain and Axles** (3 CR)  
Prerequisite or corequisite: AUTO 125 or approval of program administrator  
Upon successful completion of this course, the student should be able to work safely in the shop; service the typical manual transmission/transaxle; service typical transfer cases; inspect, adjust and replace all clutch components; disassemble, reassemble and set up a differential; and service all front- and rear-wheel drive shaft components. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 2 hr. lecture, 3 hrs. lab/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $40 to 300.

**AUTO 201**  
**ASE Certification Seminar** (1 CR)  
This course will prepare students to take any of the eight basic National Institute for Automotive Service Excellence (ASE) automotive certification tests, the Advanced Engine Performance Specialist (L1) test or the three ASE Engine Machinist tests. 1 hr. lecture/wk.
AUTO 206  
Automotive Retailing Sales (3 CR)  
Prerequisite: MKT 133 or MKT 134  
Upon successful completion of this course, the student should be able to demonstrate the skills necessary for competency in automotive retailing. Student awareness and understanding will be directed toward an introduction to automotive retailing, past, present and future; professionalism in sales; the components of sales transactions; a structured sales program and product knowledge; customer satisfaction and follow-up; building a clientele; and success through self-improvement. 3 hrs. lecture/wk.

AUTO 210  
Advanced Engine Repair (3 CR)  
Prerequisite: AUTO 165  
Upon successful completion of this course, the student should be able to plan, design, and build a performance engine. The student will also demonstrate knowledge of the relationships between displacement, horsepower and torque; regulations governing performance engines; and current trends in engine modification. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 1 hr. lecture, 6 hrs. lab/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $40 to 300.

AUTO 230  
Automotive Heating and Air Conditioning (3 CR)  
Prerequisite or corequisite: AUTO 125 or approval of program administrator  
Upon successful completion of this course, the student should be able to operate, service and diagnose automotive heating, ventilation and air conditioning systems. The course will cover the theory and operation of these systems, major components, testing, recycling and other service procedures. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 2 hrs. lecture, 3 hrs. lab/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $40 to 300.

AUTO 234  
Automotive Electrical System (4 CR)  
Prerequisite or corequisite: AUTO 125 or approval of program administrator  
Upon successful completion of this course, the student should be able to service starting and charging system components; describe the operation and construction of starters, alternators and controlling devices; describe various lighting systems used in current automotive vehicles; and repair electrical lighting and accessory systems. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 3 hrs. lecture, 3 hrs. lab/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $40 to 300.

AUTO 250  
Automatic Transmissions and Transaxles (4 CR)  
Prerequisite or corequisite: AUTO 125 or approval of program administrator  
Upon completion of this course, the student should be able to diagnose, service and repair various automatic transmissions and automatic transaxles, including computer-controlled systems. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 3 hrs. lecture/demonstration, 3 hrs. lab/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $40 to 300.
AUTO 254
Automotive Engine Performance (5 CR)
Prerequisites or corequisites: AUTO 165 and AUTO 234
Upon successful completion of this course, the student should be able to describe
the operation and construction of automotive fuel system components such as
carburetors, fuel pumps, injectors and controlling devices. The student should
also be able to describe the operation and construction of ignition circuits to
include computer controlled and DIS systems. Finally, students should be able to
service all performance systems on the automobile. The student will required to
provide ANSI Z87 safety glasses and may be expected to provide other basic
hand tools and/or equipment. 3 hrs. lecture, 6 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $40 to 300.

AUTO 260
Automotive Service Management (3 CR)
Prerequisite: AUTO 254
Upon successful completion of this course, the student should understand the
automotive service manager's job. The manager's job includes planning for
inevitable change, maintaining flexibility, site planning, customer satisfaction,
employee practices, meeting financial goals, and managing time, conflict and
stress. The student will be required to provide ANSI Z87 safety glasses and may
be expected to provide other basic hand tools and/or equipment. 2 hrs. lecture, 3
hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $40 to 300.

AUTO 261
Automotive Service Techniques (3 CR)
Prerequisite: AUTO 254
Upon successful completion of this course, the student should become proficient
in ordering of parts, writing repair orders, presenting work orders to customers,
questioning customers about automobile service problems, answering the
telephone, and supervising work loads. Students will also diagnose and perform
service work on student and staff vehicles. The student will be required to provide
ANSI Z87 safety glasses and may be expected to provide other basic hand tools
and/or equipment. 1 hr. lecture, 6 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $40 to 300.

AUTO 271
Automotive Technology Internship (3 CR)
Prerequisite: Program facilitator approval required
Upon successful completion of this course, the student should be able to apply
classroom knowledge to an actual work situation. The internship will provide
advanced students on-the-job experience under the supervision of professionals
in the industry. The work will be developed cooperatively with area employers,
college staff and each student to provide a variety of actual job experiences
directly related to the student's career goals. 1 hr. lecture, 15 hrs. work min./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $40 to 300.

Biology (BIOL)

BIOL 110
Nutrition for Life (2 CR)
Designed for students who wish to apply nutrition information to their lives, this
course explores how food selection affects body size, body composition,
performance, disease resistance and longevity. Students will analyze the
composition of their diets and develop a plan of action to improve their eating behaviors. 2 hrs. lecture/wk.

BIOL 115
Natural History of Kansas (3 CR)
Natural History of Kansas describes physical and biological processes that have led to the present Kansas landscape. Physical science topics include geology, climate patterns and soil formation. Biological science topics include ecology and a survey of the plants and animals of Kansas. The course will consider how the physical and biological environment relates to past and present human resource uses. 3 hrs. lecture/wk. Two 7-hr. Saturday labs required.

BIOL 122
Principles of Biology (3 CR)
This course is an introduction to selected concepts and principles important to an understanding of how biological systems operate. The importance of scientific methods and processes will be explored. Biological organization will be studied by examining the chemical, cellular, organismal and ecological properties that are unique to life. The diversity and unity of life will be explained in terms of classical and molecular genetics. 3 hrs./wk. BIOL 122 students see Memory Strategies classes on pg. - Optional Enrollment.

BIOL 123
Principles of Biology Lab (1 CR)
Prerequisite or corequisite: BIOL 122 or consent of the assistant dean
This introductory lab examines basic biological concepts by focusing on the structures and functions of plants and animals. 2 hrs./wk. BIOL 123 students must be currently enrolled in BIOL 122 or have successfully completed BIOL 122 within the last three years.

BIOL 124
Oceanus: Essentials of Oceanography (3 CR)
This course for beginning students focuses on the marine environment as a unique feature of the planet earth and investigates areas of intense scientific and public concern: the pervasiveness of the ocean and its effect on the earth's weather, its stunning physical size and diversity of contained life forms, its contributions to the physical and historical development of man, its impact on geopolitical and economic matters, and the impact of oceanic pollutants and the potential exploitation of marine resources. 3 hrs. lecture/wk.

BIOL 125
General Botany (5 CR)
This is a survey of the life, growth and structure of plants. Divisions of the plant kingdom will be presented with emphasis on life cycles, anatomy, physiology and ecology of major groups. Students will do microscopic and macroscopic analysis of the major division. 3 hrs. lecture, 4 hrs. lab/wk.

BIOL 127
General Zoology (5 CR)
This is a survey of the life, structure, and growth of animals. Students will concentrate on identifying animals by their structural characteristics and looking at the role adaptation plays in anatomical and physiological features. Students will do dissections and microscopic analysis of the major phyla. 3 hrs. lecture, 4 hrs.
BIOL 130

Environmental Science (3 CR)

Environmental Science seeks to describe problems and solutions associated with human use of natural resources. Students will study the major physical and biological processes that govern the complex interactions in natural ecosystems. Major course topics include human population growth, resource use and pollution. Practical solutions aimed at sustainability will be identified and examined. This is an introductory, nonscience-major survey course. 3 hrs./wk. BIOL 131 students must be currently enrolled in BIOL 130 or have successfully completed BIOL 130 within the last three years. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

BIOL 131

Environmental Science Lab (1 CR)

Prerequisite or corequisite: BIOL 130

In this lab, students will learn ecological principles that are necessary for understanding and solving environmental problems. Students will sample the local environment for various types of environmental pollution, conduct lab projects and computer simulations, and attend field trips. Field trips may include a visit to a local wastewater treatment plant, a stream ecosystem and a prairie ecosystem. 2 hrs.lab/wk. plus up to three field trips. BIOL 131 students must be currently enrolled in BIOL 130 or have successfully completed BIOL 130 within the last three years.

BIOL 135

Principles of Cell and Molecular Biology (4 CR)

This is an integrated lecture and laboratory course for biology majors and students planning to take additional courses in biology. Subjects covered include basic biochemistry, cell structure and function, cellular metabolism, Mendelian and molecular genetics, natural selection and evolution, cell physiology and development of plants and animals from the single-celled stage to the embryonic stage. 3 hrs. lecture, 2 hrs. lab/wk.

BIOL 140

Human Anatomy (4 CR)

Students will study gross and microscopic aspects of cells, tissues and organ systems of the human body. They will concentrate on a detailed analysis of the structure of each body system. 3 hrs. lecture, 3 hrs. lab/wk. The Open Anatomy Lab, 311 CLB, is available for students enrolled in Human Anatomy and Human Anatomy and Physiology classes at JCCC. Contact your professor, check the schedule outside of 311 CLB or call 913-469-8500, ext. 4124, for hours. A current student ID is required for using the Open Anatomy Lab.

BIOL 144

Human Anatomy and Physiology (5 CR)

This course provides basic knowledge on human structures and their function. Students will study the relationship of structures to function in the organ systems of the human body. Emphasis will be on the identification of the anatomical features and their functions. This course is integrated lecture and laboratory. 3 hrs. lecture, 4 hrs. lab/wk. The Open Anatomy Lab, 311 CLB, is available for students enrolled in Human Anatomy and Human Anatomy and Physiology classes at JCCC. Contact your professor, check the schedule outside of 311 CLB or call 913-469-8500, ext. 4124, for hours. A current student ID is required for using the Open Anatomy Lab.
BIOL 145  
Human Anatomy and Physiology Dissection (1 CR)
Prerequisites: BIOL 144 and consent of the Assistant Dean
Students will dissect the cat and study the relationship of structures to function in the organ systems of the cat. In this laboratory course, they will also dissect the cow kidney, heart, brain and eye. Students will compare and contrast these structures and functions with the organ systems of the human body. 2 hrs. lab/wk.
Students enrolling in BIOL 145 should have completed BIOL 140 or BIOL 144 and have the approval of the assistant dean.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $35.

BIOL 150  
Biology of Organisms (5 CR)
Prerequisite: BIOL 135 or consent of the assistant dean
This is a survey of the five kingdoms of life. Monera, fungi, protista, plant and animal kingdoms will be presented, with emphasis on life cycles, anatomy, physiology and ecology of the major groups. 4 hrs. lecture, 3 hrs. lab/wk.

BIOL 155  
Introduction to Bioethics (3 CR)
Prerequisite: BIOL 122 or BIOL 135 or equivalent, or permission of the assistant dean
This course is an introductory course in ethics with an emphasis on the ethical content raised by the discipline of biology. The student will examine the major ethical theories, including deontology, act utilitarianism, rule utilitarianism, along with select others. Study of the theories will enable the analysis of case studies involving such issues as human populations problems, reproductive technologies, genetic engineering of humans and other organisms, stem cells and their use, beginning/ending of life, the human genome project, environmental impact of humans, cloning, medical and non-medical genetic interventions, and biological ethics. 3 hrs. lecture/wk.

BIOL 205  
General Genetics (4 CR)
Prerequisite: BIOL 122 or the equivalent introductory college-level biology course
This introductory course emphasizes human heredity using concepts from classical and modern genetics. Themes of advancing technologies and bioethical issues are interwoven in the basic background fabric of the course. 3 hrs. lecture, 2 hrs. lab/wk.

BIOL 225  
Human Physiology (4 CR)
Prerequisites: CHEM 122 and either BIOL 140 or BIOL 144
This is an introduction to the dynamic functions of the human organism from the chemical and molecular mechanisms that sustain cellular processes through the control systems responsible for homeostasis and the influence of these systems on the cellular function of organ and systems operation. Laboratory investigation using selected biochemical and physiological preparations allows correlation of theory with experimental observations. 3 hrs. lecture, 3 hrs. lab/wk.

BIOL 227  
Human Pathophysiology (4 CR)
Prerequisite: BIOL 144 or BIOL 225
This introduction to the physiology of disease covers common disorders of the body from the cellular to the systemic level. Topics include causes, symptoms, diagnostic tests and treatments of disease. 4 hrs. lecture/wk.

**BIOL 230**  
**Microbiology** (3 CR)  
*Prerequisite: CHEM 122 or one year of high school chemistry*  
This is a general introductory course in microbiology. It provides a background in many areas of microbiology with an emphasis on medical aspects. The structure, physiology, antimicrobial agents, immunology and host-parasite relationship of microorganisms will be studied, with an emphasis on bacteria. 3 hrs./wk.

**BIOL 231**  
**Microbiology Lab** (2 CR)  
*BIOL 231 students must be currently enrolled in BIOL 230 or have successfully completed BIOL 230 within the last three years.*  
Students will learn aseptic techniques and apply them in the isolation of pure cultures of bacteria. Students will also perform various staining techniques and chemical tests to identify these bacteria. The response of bacteria to changes in environmental conditions will also be examined. Various life stages of medically important parasites will also be observed. 4 hrs./wk.  
*Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $35.*

**BIOL 235**  
**General Nutrition** (3 CR)  
*Prerequisites: BIOL 144 and either BIOL 225 or CHEM 122*  
This introductory course provides a basic knowledge of human nutrition. Students will learn the sources and functions of the various nutrients. They will also explore the interaction of diet, disease prevention and treatment. Through the use of a computerized nutrition program, students will analyze their diets for nutritional deficiencies and excesses. 3 hrs. lecture/wk.

**BIOL 240**  
**General Pharmacology** (3 CR)  
*Prerequisite: BIOL 225*  
This course provides a basic understanding of the science of drugs—how they work and what they do. Students will study various drug concepts including mechanism of action, pharmacologic class, pharmaco-kinetics, pharmacodynamics and clinical implications. 3 hrs. lecture/wk. Spring.

**BIOL 250**  
**Ecology** (4 CR)  
*Prerequisites: BIOL 122 and BIOL 123 or BIOL 130 and BIOL 131 or equivalent courses or consent of the assistant dean*  
Major topics in this course will include population dynamics, competition, predation, mutualism, community structure, ecological succession, energy flow, nutrient cycling, and biogeography. Students will also review the major features of terrestrial, freshwater, and marine ecosystems. Field and laboratory experiments will introduce students to several different habitat types; various techniques commonly used in ecology; and engage students in collecting, analyzing and evaluating ecological data. Lab reports emphasize critical evaluation of ecological concepts and data and effective scientific communication. 3 hrs. lecture, 3 hrs. lab/wk.
Biotechnology (BIOT)

BIOT 160
Introduction to Biotechnology (2 CR)
Prerequisite: CHEM 122 and Prerequisite or corequisite: BIOL 135 or consent of assistant dean
This course is an introduction to biotechnology, including career exploration, history and applications of DNA/RNA technology, molecular biology, and bioethics. Topics include cloning, DNA, antibodies, gene therapy, plant biotechnology, the human genome project, DNA fingerprinting, genetic testing, diverse products made through biotechnology, and the ethical implications of this technology. The course is intended for those interested in pursuing a career in an industrial, academic, or biomedical research laboratory. 2 hrs. lecture/wk.

BIOT 165
Laboratory Safety (1 CR)
Prerequisite: CHEM 122 and Prerequisite or corequisite: BIOL 135 or consent of assistant dean
This course will emphasize laboratory safety and procedures. Additionally, regulations that govern the biotechnology laboratory will be discussed. Biological, chemical and radiation safety will all be handled through lectures, videotapes, demonstrations and field trips. There will also be exposure to good manufacturing practices (GMP), quality assurance and control procedures (QA/QC), and OSHA and FDA regulations. 1 hr. lecture/wk.

BIOT 260
Biotechnology Methods (5 CR)
Prerequisites: Either BIOT 160 or BIOL 160 and either BIOT 165 or BIOL 165 and Prerequisite or corequisite: BIOL 230 or consent of assistant dean
This course is an introduction to the theory and laboratory techniques in molecular biology, protein biochemistry and immunology with an emphasis on gene expression and regulation, recombinant DNA, RNA transcription, and protein translation. Laboratory emphasis will be on molecular biological techniques utilized in modern research and industrial laboratories. Techniques include growth and maintenance of E. coli, gene cloning, DNA and protein electrophoresis protein purification and enzymatic and immunology assays. Lecture and laboratory exercises on the principles and practices of initiation, cultivation, maintenance, preservation of cell culture lines and applications will also be covered. 6 hrs. lab/wk.

BIOT 265
Biotechnology Internship (4 CR)
Prerequisites: BIOT 260 and either BIOT 160 or BIOL 160 and either BIOT 165 or BIOL 165 and Assistant Dean's Approval
The internship will provide advanced students the opportunity to develop job and career-related skills while in a work setting. Upon successful completion of this course, the student should be able to apply classroom knowledge to an actual work situation. The work will be developed cooperatively with academic, industrial and private institutional biotechnology laboratories. 20 lab hrs./wk.

Business (BUS)

BUS 120
Management Attitudes and Motivation (3 CR)
Upon successful completion of this course, the student should be able to assess personal strengths and weaknesses and set goals for personal and professional life, define communication and listening skills, analyze human relations problems, apply problem-solving strategies to human relations issues in the workplace, and define and compare management styles. Class meets for 48 hrs.

**BUS 121**  
*Introduction to Business* (3 CR)  
Upon successful completion of this course, the student should be able to explain the basic principles of the American free enterprise economic system. In addition, the student should be able to explain the fundamentals of starting a business and the interrelationship among the four functional areas: accounting, finance, management and marketing. 3 hrs./wk.

**BUS 123**  
*Personal Finance* (3 CR)  
Upon successful completion of this course, the student should be able to define the role of a consumer in the economy; develop a basic financial plan; apply budgeting procedures in a daily and monthly spending plan; calculate principal and interest; define the types of consumer credit; identify the types of housing mortgages; and explain the important considerations in buying, selling and renting. In addition, the student should be able to calculate individual insurance needs in the areas of life insurance, health insurance, property and liability insurance, automobile insurance and other types of special insurance and be able to explain employee and retirement benefits, including tax-sheltered plans. 3 hrs./wk.

**BUS 140**  
*Principles of Supervision* (3 CR)  
Upon successful completion of this course, the student should be able to define the supervisor's role within a company and identify the skills necessary to successfully fulfill that role. In addition, the student should be able to determine the supervisor's role in supervising employees on an individual basis and as a group. The student should also be able to apply the principles of supervision in simulated work situations. 3 hrs./wk.

**BUS 141**  
*Principles of Management* (3 CR)  
Upon successful completion of this course, the student should be able to state the basic functions of management, explain the nature of organizations and organizational theories and types, explain the importance of effective communication within the organizational structure, develop and define the techniques for directing and motivating employees, explain the effects of change on an organization, and develop techniques for coping with those effects. In addition, the student should be able to explain and discuss the application of business ethics in managerial decision-making. 3 hrs./wk.

**BUS 145**  
*Small Business Management* (3 CR)  
Upon successful completion of this course, the student should be able to demonstrate an understanding of management techniques vital to small business. In addition, the student should be able to apply decision making skills in the areas of business start-up choosing the form of ownership, marketing, financial planning and managing the small business.
BUS 150  
**Business Communications** (3 CR)  
*Prerequisite: ENGL 121*

Upon successful completion of this course, the student should be able to explain the role of communication in the business environment and identify the most effective methods for creating, sending and receiving messages. In addition, the student should be able to use effective oral and written communication skills in business; write and evaluate business documents, including letters, memos, and reports using the principles of correct style, organization and format; and prepare an effective oral business presentation. 3 hrs./wk.

BUS 215  
**Savings and Investments** (3 CR)

Upon successful completion of this course, the student should be able to define, analyze and evaluate types of savings instruments and other investments. In addition, the student should be able to determine which instruments are desirable for a personal financial plan. The student should also be able to demonstrate an understanding of basic financial-planning concepts and tax-planning procedures. 3 hrs./wk.

BUS 225  
**Human Relations** (3 CR)

Upon successful completion of this course, the student should be able to evaluate the impact of human relations as it relates to the social system, technical system and administrative system of a work environment. In addition, the student should be able to analyze these systems and their effects on individual group and organizational performance. 3 hrs./wk.

BUS 230  
**Marketing** (3 CR)

Upon successful completion of this course, the student should be able to explain the concepts of production, consumption and distribution in relation to a free enterprise economy; list the basic channels of distribution available to the manufacturer of consumer and industrial products; explain and compare the distribution functions of the manufacturer, wholesale and retailer; and state the procedures necessary to develop a total marketing plan for a given product, service or product line. In addition, the student should be able to discuss the fundamental principles of consumer behavior in the buying process and apply those principles to target market strategies. 3 hrs./wk.

BUS 235  
**Introduction to International Business** (3 CR)

This course is designed to introduce the student to the global economy. Differences in political, economic and cultural forces within countries will be analyzed and national competitiveness assessed. Cross-border trade and investment and the global monetary system will be introduced and analyzed. Competition and a firm’s international business strategy in the global marketplace will be examined. Ethical issues in international business will also be discussed. 3 hrs./wk.

BUS 240  
**Legal Environment of International Business** (3 CR)  
*Prerequisites: BUS 235 and BUS 261 and BUS 263*

This course provides an introduction to the legal aspects of contracts for international sale of goods. Topics include multinational enterprises, sovereignty,
international finance, international transportation, international marketing, protection of intellectual property, international dispute resolution, negotiation and diplomacy. 3 hrs. lecture/wk.

BUS 243  
Human Resource Management (3 CR)  
Upon successful completion of this course, the student should be able to state the principles of human resource management; describe the human resource function as an integral part of management; differentiate between roles of the personnel and line manager in the management of human resources; define and evaluate strategic planning, recruitment, selection and training; define the primary methods of human resource development; employ methods of employer appraisal; and state the major components and coverages of the Equal Employment Opportunity Act and other personnel/human resource-related laws. 3 hrs./wk.

BUS 261  
Business Law I (3 CR)  
This course is designed to introduce the students to the American legal system. Principles of legal ethics in business will be introduced. Principles of common law of contracts will be discussed. Sections of Uniform Commercial Code as applied to the law of sales and law of negotiable instruments will be introduced. 3 hrs./wk.

BUS 263  
Business Law II (3 CR)  
Prerequisite: BUS 261  
A continuation of Business Law I, this course will introduce the student to the principles of Uniform Commercial Code as applied to secured transactions. The law of bankruptcy, principles of agency and business organizations such as partnerships, limited partnerships, joint ventures, corporations, and sole proprietorships will be discussed. Principles of real property, personal property, bailments, estate and trusts will be introduced. 3 hrs./wk.

Business Logistics Management (KSCL)  

KSCL 210  
Logistics Management (3 CR)  
Logistics management is an integrated systems approach involving a variety of environments within a global marketplace. The course explores the logistic system from inbound movement of material and freight into the organization through physical distribution of the completed product to the consumer. Hands-on applications, activities and simulations. IAW Council of Logistics Management’s guidelines will be emphasized. 3 hrs. lecture/wk. Course taught at MCC-Blue River Community College, 20301 East 78 Highway, Independence, MO. Students should contact the Blue River coordinator of supply chain logistics about the class meeting times and beginning and ending dates of classes. Call 816-220-6532.

KSCL 211  
Operations Management (3 CR)  
This course covers the central role and importance of the operations function in both service and product organizations. Strategy, design, scheduling, materials handling, inventory, production, MRP and distribution are covered. 3 hrs. lecture/wk. Course taught at MCC-Blue River Community College, 20301 East 78 Highway, Independence, MO. Students should contact the Blue River coordinator of supply chain logistics about the class meeting times and beginning and ending dates of classes. Call 816-220-6532.
KSCL 212

**Transportation Operation and Management (3 CR)**

This course covers the significance of an integrated, well-organized transportation system to a market-driven economy. The development of the transportation system of the United States from both historic and economic perspectives is included. 3 hrs. lecture/wk. Course taught at MCC-Blue River Community College, 20301 East 78 Highway, Independence, MO. Students should contact the Blue River coordinator of supply chain logistics about the class meeting times and beginning and ending dates of classes. Call 816-220-6532.

KSCL 213

**Warehouse and Distribution Centers (3 CR)**

This is an integrated systems approach involving a variety of environments within a global marketplace. The course covers the organization and operations of warehouses and distribution centers. The major components are warehousing and distribution center paradigms, system design, locations, technology and financial dimensions. 3 hrs. lecture/wk. Course taught at MCC-Blue River Community College, 20301 East 78 Highway, Independence, MO. Students should contact the Blue River coordinator of supply chain logistics about the class meeting times and beginning and ending dates of classes. Call 816-220-6532.

**Business Office Technology (BOT)**

**BOT 101**  
**Computerized Keyboarding (1 CR)**

Upon successful completion of this course, the student should be able to operate a computer keyboard by touch to enter data with speed and accuracy. 1 hr./wk.

**BOT 103**  
**Business English (3 CR)**

Upon successful completion of this course, the student should be able to demonstrate the basic rules of English, develop correct sentence structure and use accurate English grammar and mechanics when writing documents. Students also will be able to proofread written work using standard proofreading symbols. 3 hrs. lecture/wk.

**BOT 105**  
**Keyboarding and Formatting I (3 CR)**

Upon successful completion of this course, the student should be able to develop speed and accuracy by learning to use the alphabetic, numeric and symbol keys by touch; identify and operate the basic machine parts and special purpose keys; and format and type personal correspondence and business documents - letters, reports, tables and memos. Microsoft Word will be used in this class to complete and format documents. 3 hrs./wk.

**BOT 106**  
**Intro to Business Computer Applications (3 CR)**  
*Prerequisite or corequisite: BOT 105 or keyboarding proficiency test*

Upon successful completion of this course, the student should be able to use the beginning features of an operating system and word processing, spreadsheet, database management, presentation graphics, and e-mail programs to prepare and manage documents simulating legal, medical and general business office applications. Proficiency will also be attained in selecting appropriate applications to use and to integrate all of the business computer application programs to
complete projects. Document formatting and proofreading will also be introduced. Hands-on, practical projects will be performed to reinforce the concepts taught. 3 hrs. lecture/wk.

**BOT 110**  
**Skillbuilding I** (1 CR)  
*Prerequisite: BOT 105 or equivalent*  
Upon successful completion of this course, the student should be able to use a diagnostic approach to develop typing speed and accuracy. Specific problems will be identified, and the student should be able to complete specialized drills and activities tailored to the student’s own typing needs to improve or eliminate deficiencies. 1 hr./wk. Students attempting to take the short-term classes BOT 110 Skillbuilding I and BOT 118 Skillbuilding II in the same semester, should contact Kathy at 913-469-8500 ext 3145, and provide their student ID number and the CRN for the specific BOT 118 section.

**BOT 115**  
**Electronic Calculators** (1 CR)  
Upon successful completion of this course, the student should be able to review basic arithmetic, operate the electronic calculator by touch to build speed and accuracy, use basic calculator functions and operating controls, and solve business application problems. 1 hr./wk.

**BOT 118**  
**Skillbuilding II** (1 CR)  
*Prerequisite: BOT 110*  
Upon successful completion of this course, the student should further develop speed and accuracy. The student should be able to improve keyboard skills through diagnostic evaluation and by completing individualized drills and activities. 1 hr. lecture/wk. Students attempting to take the short-term classes BOT 110 Skillbuilding I and BOT 118 Skillbuilding II in the same semester, should contact Kathy at 913-469-8500 ext 3145, and provide their student ID number and the CRN for the specific BOT 118 section.

**BOT 122**  
**Medical Keyboarding** (1 CR)  
*Prerequisite: BOT 105*  
Upon successful completion of this course, the student should be able to develop keyboarding speed and accuracy in medical formats. The student should also be able to improve keyboard skills by completing drills and activities pertaining to the transcription of medical reports. 1 hr. lecture/wk.

**BOT 125**  
**Document Formatting** (1 CR)  
*Prerequisite: BOT 155*  
Upon successful completion of this course, the student should be able to type business letters with special features, memorandums, reports, tables and a variety of administrative documents. The student should also be able to use Microsoft Word to complete these activities. 1 hr./wk.

**BOT 130**  
**Office Systems Concepts** (3 CR)
Upon successful completion of this course, the student should be able to understand and apply technological factors of contemporary office systems. Implementation of office automation concepts will be examined as they relate to people, technology and organizations. These concepts will be applied to organizational and strategic planning to enhance productivity in the office. 3 hrs./wk.

**BOT 150**  
**Records Management** (3 CR)  
Methods for developing and controlling an office records management program will be discussed. Selection of equipment for active and inactive records will be covered, along with procedures for document, card and special records; microrecords; mechanized and automated records; and records storage, retention and transfer. Upon successful completion of this course, the student should be able to file documents using alphabetic, subject, consecutive numeric, terminal digit numeric and geographic filing systems using requisition charge out and transfer procedures. The student should be able to create a computer database for records management; enter, modify and delete records; print reports; and determine disposition of records filed alphabetically, numerically, by subject and geographically. The course will cover the identification of evaluation methods and standards for both staff and programs in a records management department. 3 hrs./wk.

**BOT 155**  
**Word Processing Application I** (2 CR)  
Prerequisites: BOT 105 or equivalent and BOT 106  
Upon successful completion of this course, the student should be able to demonstrate skill in creating, saving, opening, closing, printing and editing documents. The student should be able to use beginning and intermediate features of Microsoft Word. The student should be able to demonstrate file maintenance procedures. 2 hrs. lecture/demonstration/wk.

**BOT 160**  
**Legal Transcription** (3 CR)  
Prerequisite: BOT 155 or equivalent  
Upon successful completion of this course, the student should be able to demonstrate skill in spelling, defining, pronouncing and using legal terms in proper context. The student should also be able to use legal reference resources and transcribe legal documents from dictation using proper formatting rules. 3 hrs./wk.

**BOT 165**  
**Medical Transcription** (3 CR)  
Prerequisites: AAC 130 and BOT 155 or equivalent  
Upon successful completion of this course, the student should be able to transcribe medical reports using proper formats and transcription rules. These reports concern in-patients with a specific medical problem. Reports include history and physical examinations, radiology reports, operative reports, pathology reports, requests for consultation, death summaries, discharge summaries and autopsy reports. Students should be able to spell, define, pronounce and use medical terms in proper context and be able to use medical reference books. 3 hrs./wk.

**BOT 170**  
**Medical Coding and Billing** (3 CR)  
Prerequisite: AAC 130
This course is designed to give the student an overview of the medical insurance billing process. This includes becoming acquainted with ICD-9, HCPCS and CPT procedural coding systems as well as Blue Cross/Blue Shield, Medicaid, Medicare and Champus/Champva programs. Students will be given hands-on coding advice for optimal insurance reimbursement. 3 hrs. lecture/wk.

**BOT 180**  
**Business Spreadsheet Applications** (1 CR)  
**Prerequisite:** BOT 106 or CPCA 110 or extensive experience using Windows-based spreadsheets  
Upon successful completion of this course, the student should be able to demonstrate competencies in using advanced formatting techniques, advanced features and advanced functions of Microsoft Excel. The following topics will be covered: working with templates, workbooks and lists; using Excel's analysis tools; managing and auditing worksheets; collaborating with workgroups; creating and editing macros; and importing and exporting data. 1 hr. lecture/wk.

**BOT 185**  
**Business Database Applications** (1 CR)  
**Prerequisite:** BOT 106 or CPCA 114 or extensive experience using Windows-based databases  
Upon successful completion of this course, the student should be able to demonstrate database development skills by effectively identifying the types of projects that should be developed using Microsoft Access rather than a spreadsheet; build tables that can be related to each other in order to eliminate data entry duplication; customize forms and reports; create basic and advanced queries; and define relational integrity between tables. The student should also be able to create basic and advanced queries with single and multiple tables using Boolean logic. The student should be able to identify and implement methods of troubleshooting and explain ways of getting additional help. 1 hr. lecture/wk.

**BOT 205**  
**Professional Image Development** (1 CR)  
Upon successful completion of this course, the student should be able to develop work habits and self-management skills that will affect performance on the job by reducing stress, conflict and miscommunication. 1 hr. lecture/wk.

**BOT 210**  
**Working in Teams** (1 CR)  
Upon successful completion of this course, the student should possess the necessary skills to work in teams. Students should also be able assess and adjust their perceptions of how they should communicate within a team environment and to assess their own workplace expectations, values and methods of communicating as a basis for understanding how to improve communication with others to achieve a common goal. 1 hr. lecture/wk.

**BOT 220**  
**Pharmacology Terminology** (2 CR)  
**Prerequisite:** AAC 130  
Upon successful completion of this course, the student should be able to use pharmacological terminology in an appropriate context. This course includes an investigation of medication actions, dosage forms, routes of administration and uses. The course emphasizes the terminology necessary for transcription of medical reports. This course is taught in the spring semester. 2 hrs. lecture/wk.
BOT 255  
**Word Processing Applications II (2 CR)**  
*Prerequisite: BOT 155 or extensive experience using the same software with approval of the program facilitator*

Upon successful completion of this course, the student should be able to demonstrate word processing skills using such features as macros, styles, tables of contents and indexes, graphics, master and subdocuments, and other advanced features of Microsoft Word. 2 hrs. lecture-demonstration/wk.

BOT 260  
**Desktop Publishing for the Office (3 CR)**  
*Prerequisite: BOT 155 or the equivalent*

Upon successful completion of this course, the student should be able to use desktop publishing skills using Microsoft Publisher to produce publications such as fliers, newsletters, brochures, operating manuals, price lists and bulletins. 3 hrs. lecture/demonstration/wk.

BOT 265  
**Computerized Office Applications (3 CR)**  
*Prerequisites: Both CPCA 110 and CPCA 114 or BOT 106 and also CPCA 141 and BOT 255 and BOT 130 (This capstone course should be taken near the end of the degree or certificate program)*

Upon successful completion of this course, the student will be able to use the basic features of word processing, database, spreadsheet and presentation applications. The student will also use advanced features to complete simulated office applications and to perform multitasking projects. This course is taught in the spring semester. 3 hrs./wk.

BOT 270  
**Advanced Medical Transcription (3 CR)**  
*Prerequisite: BOT 165*

Upon successful completion of this course, the student will develop medical transcription skills with emphasis on additional speed and accuracy. Students will apply language skills, decision-making skills and “common-sense” skills during the transcription process. Students will become familiar with the medical transcription profession, employment opportunities, the important role of the medical transcriptionist in the health care team, and personal attributes, knowledge and skills required to produce error-free documents according to the employer’s and AAMT standards. 3 hrs. lecture/wk.

BOT 275  
**Office Internship I (1 CR)**  
*Prerequisite: Admission to the business office technology program*

The student should be able to gain work experience in an approved training station under instructional supervision in Administrative Assistant, Medical, Legal, or Certificate Programs. The course will provide practical experience in the use of skills acquired in Business Office Technology specialty courses. The internship will require a minimum of 185 hours of job training.

BOT 280  
**Office Internship II (1 CR)**  
*Prerequisite: BOT 275*

The student should be able to gain work experience in an approved training
station under instructional supervision in Administrative Assistant, Medical, Legal, or Certificate Programs. The course will provide practical experience using skills acquired in Business Office Technology courses. The internship will require a minimum of 185 hours per semester job training.

Chemistry (CHEM)

CHEM 120
Chemistry in Society (4 CR)
This course is designed for non-science majors who seek an understanding of the concepts of chemistry. Historical foundations of chemistry, applications to society and daily life, controversies of contemporary concern and current research topics are explored. Inquiry-based laboratory experiments will illustrate chemical principles. 3 hrs. lecture, 2 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $60.

CHEM 122
Principles of Chemistry (5 CR)
This course is an introduction to the fundamentals of chemistry, with emphasis on general concepts of inorganic chemistry and sufficient study of organic chemistry to introduce the student to biochemistry. The student will learn basic definitions and theories of chemistry, solve numerical problems related to chemical principles and apply chemical concepts in laboratory work. 4 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $60.

CHEM 124
General Chemistry I Lecture (4 CR)
Prerequisite or corequisite: MATH 171 or assessment test and Corequisite: CHEM 125
Students will relate atomic structure to chemical systems, calculate the amount of material used in chemical reactions, use the periodic table as an aid to understanding chemical systems and interpret chemical reactions. 4 hrs./wk.

CHEM 125
General Chemistry I Lab (1 CR)
Prerequisite or Corequisite: CHEM 124 Students who withdraw from GENERAL CHEMISTRY I LECTURE must also withdraw from the corresponding laboratory GENERAL CHEMISTRY I LABORATORY Students may not withdraw from the laboratory course GENERAL CHEMISTRY I LABORATORY without withdrawing from CHEMISTRY I LECTURE.
Experiments of a qualitative and quantitative nature that support topics from General Chemistry I Lecture will be carried out. 3 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $60.

CHEM 131
General Chemistry II Lecture (4 CR)
Prerequisites: CHEM 124 and CHEM 125 and Corequisite: CHEM 132
Chemistry 131 is the second semester of a two-semester course in general chemistry in which the student will develop a working knowledge of some of the fundamental concepts and quantitative relationships involved in the study of chemical reactivity. Topics include solutions, chemical kinetics, chemical equilibrium, acid-base chemistry, chemical thermodynamics, electrochemistry, and nuclear chemistry. 4 hrs./wk. CHEM 131 students are required to enroll concurrently in CHEM 132.
CHEM 132
General Chemistry II Lab (1 CR)
Prerequisites: CHEM 124 and CHEM 125 and Corequisite: CHEM 131 Students who withdraw from GENERAL CHEMISTRY II LECTURE must also withdraw from the corresponding laboratory GENERAL CHEMISTRY II LABORATORY. Students may not withdraw from the laboratory course GENERAL CHEMISTRY II LABORATORY without withdrawing from CHEMISTRY II LECTURE.

The laboratory consists of qualitative and quantitative experiments designed to parallel and support General Chemistry II Lecture. 3 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $60.

CHEM 140
Principles of Organic & Biological Chemistry (5 CR)
Prerequisites: BIOL 135 and CHEM 122 or permission of the assistant dean
This course covers nomenclature, theory and applications of basic organic chemistry and biochemistry in the area of carbohydrates, lipids, proteins and enzymes. The lab activities reinforce the topics presented in the lecture. 4 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $80.

CHEM 220
Organic Chemistry I (5 CR)
Prerequisites: CHEM 131 and CHEM 132
Organic Chemistry I is an introduction to the theories and principles of the chemistry carbon compounds. The student will develop an understanding of organic chemistry, which will be useful in the studies of chemistry and related fields such as medicine, engineering and pharmacy. The laboratory is supportive in nature, with a strong emphasis on developing laboratory techniques. Representative compounds will be prepared and used to introduce the student to instrumental analysis. 3 hrs. lecture, 6 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $80.

CHEM 221
Organic Chemistry II (5 CR)
Prerequisite: CHEM 220
Organic Chemistry II is a continuation of Organic Chemistry I, the nomenclature, principles and theories of organic chemistry, with emphasis on electronic theories and reaction mechanisms. Laboratory is supportive in nature with emphasis on developing laboratory techniques and preparation of representative compounds. Organic Chemistry II completes the study of organic chemistry designed to prepare the student for continued work in chemistry and related fields. 3 hrs. lecture, 6 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $80.

CHEM 250
Biochemistry (4 CR)
Prerequisites: CHEM 131 and CHEM 132 and CHEM 140 or CHEM 220
This course is an introduction to the major topics in biochemistry. Topics include the major classes of biological molecules, such as proteins, lipids and nucleic acid; an overview of the major metabolic pathways; and developments and topics relating to molecular biology. 4 hrs. lecture/wk.

CHEM 251
Biochemistry Laboratory (2 CR)
Prerequisites: CHEM 131 and CHEM 132 and CHEM 140 or CHEM 220
Corequisite: CHEM 250

The laboratory will consist of qualitative and quantitative experiments using biological molecules. Particular emphasis upon biochemistry laboratory techniques, including chromatography and spectroscopy, will be used. 3 hrs. lab, 1 hr. recitation/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $60.

Civil Engineering Technology (CET)

CET 105
Construction Methods (3 CR)
This course introduces the student to the terms, methods, procedures, sequences of operation, and types of construction and planning in civil and building construction. This course is typically offered the first half of each semester. 3 hrs./wk.

CET 120
Engineered Plumbing Systems I (3 CR)
Upon successful completion of this course, the student should be able to use codes and engineering principles and design engineering practices to analyze and design basic plumbing systems. Topics covered include codes, materials, hangers, supports, and expansion and contraction. Plumbing systems covered include fuel gas, domestic water and soil waste/vent. The student should also be able to interpret drawings related to plumbing technology. 3 hrs. lecture/wk.

CET 122
Engineered Plumbing Systems II (3 CR)
Upon successful completion of this course, the student should be able to describe storm water, industrial wastes, compressed air and irrigation and fire sprinkler systems. Topics include water treatment, noise control, decorative pools, pumps, estimating, specifications and field inspection. 3 hrs. lecture/wk.

CET 125
Construction Specifications (2 CR)
Prerequisite or corequisite: CET 105 or equivalent
Upon successful completion of this course, the student will be able to describe the phases of a project, identify the bidding requirements, explain contractual relationships between parties, categorize the drawings, write specifications, list warranties and explain contract modifications. This course is typically offered in the fall semester. This course is typically offered the second half of the fall semester. 2 hrs. lecture/wk.

CET 129
Construction Management (3 CR)
This course is intended for students interested in learning management principles for construction projects. Upon successful completion of this course, the student should be able to perform many processes associated with construction projects and complete forms typically used in project management. Topics include contract documents, scheduling, job costs and management issues. Project management software will be used to schedule and track project resources and progress. This course is typically offered in the spring semester. This course is typically offered in the spring semester. 2 hrs. lecture, 3 hrs. lab/wk.
CET 133
Concrete Testing (2 CR)
This course covers the principles of making and testing concrete. The emphasis will be on allowing concrete to reach the highest level of durability through proper mix design, placing and finishing techniques, and curing methods. This course will help prepare the student for ACI National Certification exam. This course is typically offered in the spring semester. 1.5 hrs. lecture, 1 hrs. lab/wk.

CET 140
Civil Engineering Materials (3 CR)
Corequisite: MATH 133
Upon successful completion of this course, the student will be able to analyze materials commonly used in civil engineering construction projects. Common properties of soil, concrete and asphalt will be studied for classification as engineering materials. Students will learn to perform typical materials tests in accordance with ASTM guidelines. This course is typically offered in the spring semester. 2 hrs. lecture, 3 hrs. lab/wk.

CET 150
Construction Safety (3 CR)
This course introduces the student to construction safety policies, procedures, and standards. Topics include safety theories and concepts, OSHA (Occupational Safety and Health Administration) construction standards for safety and health, and safety application on the job site. Special emphasis is placed on those areas that are the most hazardous, using OSHA standards as a guide. 3 hr. lecture/wk.

CET 211
Technical Statics and Design (3 CR)
Prerequisite: MATH 134 or MATH 172 or MATH 173 or MATH 241
Upon successful completion of this course, the student should be able to evaluate and design force systems in equilibrium. Topics include truss analysis, stress and strain, shear, loading conditions, steel member selection, and connection design. Computer applications are included. This course is typically offered in the fall semester. 3 hrs. lecture/wk.

CET 227
Construction Cost Estimating (3 CR)
Prerequisites: CET 105 and CET 125 or permission of program administrator and CET 105 and CET 125 or permission of program administrator
This course adds to the student's knowledge of the construction process by covering the principles of construction estimating. Topics include estimating quantities of material using reference books, tables and the Construction Specifications Institute (C.S.I.) format and preparing estimating reports. Students will use industry-standard software for construction estimating. The student needs a basic knowledge of spreadsheet software to be successful in this course. This course is typically taught on campus in the fall and online in the spring. 2 hrs. lecture & 3 hrs lab/wk.

CET 270
Fluid Mechanics (3 CR)
Prerequisites: MATH 172 or MATH 134
Upon successful completion of this course, the student should be able to analyze fluid systems using the fundamental properties of pressure, hydrostatic force,
buoyancy, flow in pipes, open channel flow and hydrology. The student should also be able to solve practical problems related to engineering technology. Computer applications will be included. This course is typically offered in the spring semester. 3 hrs. lecture/wk.

Computer Desktop Publishing (CDTP)

**CDTP 131**  
Desktop Publishing I: QuarkXpress (1 CR)  
Prerequisite: CPCA 105 or CPCA 106 or CIS 124 or DP 124 or CPCA 128 or an appropriate score on an assessment test  
In this career-related course, students will create page layout documents using a variety of basic techniques on either the Macintosh or PC computer platform. Students will produce text material with complex tabs and indents and style attributes. Students will also be able to group and distribute multiple elements, demonstrate a basic proficiency with drawing tools, multiple document work, drop caps, text rotation, locking items and threading text blocks. 1 hr. lecture/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $15 to 90.

**CDTP 135**  
Desktop Photo Manipulation I: Photoshop (1 CR)  
Prerequisite: CPCA 105 or CPCA 106 or CIS 124 or DP 124 or CPCA 128 or an appropriate score on an assessment test  
This course is designed to explore the manipulation of digital photographs using a variety of techniques and tools. The application of painting and editing tools to digital images; the manipulation of selections, layers and resolution; and analyzing scanned images will be covered. 1 hr. lecture/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

**CDTP 140**  
Desktop Publishing I: InDesign (1 CR)  
Prerequisite: CPCA 105 or CPCA 106 or CIS 124 or DP 124 or CPCA 128 or an appropriate score on an assessment test  
In this career-related course, students will create page layout documents using a variety of basic techniques on either the Macintosh or PC computer platform. Students will produce text material with complex tabs and indents and style attributes. Upon successful completion of the course, students will also be able to group and distribute multiple elements and demonstrate a basic proficiency with drawing tools, multiple document work, drop caps, text rotation, locking items and threading text blocks. 1 hr. lecture/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $15 to 90.

**CDTP 145**  
Desktop Illustration I: Illustrator (1 CR)  
Prerequisite: CPCA 105 or CPCA 106 or CIS 124 or DP 124 or CPCA 128 or an appropriate score on an assessment test  
In this career-related course, students will create basic computer-generated illustrations using a variety of techniques on either the Macintosh or Windows PC computer platform. Students will draw simple paths and shapes, create layers, import graphics and add typographic elements in rows and columns with runarounds, baseline shifts and conversion to outlines. 1 hr. lecture/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $15 to 90.

**CDTP 151**
Desktop Publishing II: QuarkXpress (1 CR)
**Prerequisite: CDTP 131**
This course concentrates on text-handling skills, including converting text to graphics, super step and repeat, layering, Bezier paths, merge functions, repurposing files for Web viewing, creating encapsulated postscript graphic files from text, creating books with lists, and the basics of production preparation using spot colors. Demonstrations are given for embossing, drop shadow techniques and converting styles. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $15 to 90.

CDTP 155
Desktop Photo Manipulation II: Photoshop (1 CR)
**Prerequisite: CDTP 135**
In this career-related short course, students will manipulate digital photographs and images using a variety of introductory to intermediate techniques on either the Macintosh or PC computer platform. Students will apply techniques to edit masks and channels, process and enhance multiple image file formats, group and apply adjustments to layers, automate common tasks, create composite images, learn and apply intermediate scanning techniques, and apply multiple creative and adjustment filters on a variety of digital photographs and images. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CDTP 160
Desktop Publishing II: InDesign (1 CR)
**Prerequisite: CDTP 140**
In this career-related course, students will create intermediate-level page layout documents using a variety of techniques on either the Macintosh or PC computer platform. Students will learn how to work with type styles, threads, columns, special characters, hanging indents, vertical spacing and tables as well as exploring PDF files. Students will also be able to master several aspects of working with graphic images: placing images, linking, clipping paths, libraries, grids, Bezier drawing, compound paths and reflections. Finally, students will work with advanced framing techniques to nest frames within shapes. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $15 to 90.

CDTP 165
Desktop Illustration II: Illustrator (1 CR)
**Prerequisite: CDTP 145**
In this career-related course, students will create intermediate-level computer-generated illustrations using a variety of techniques on either the Macintosh or PC computer platform. Students will trace an object, create complex gradients with custom blends, create complex objects receding toward a vanishing point, and create an orthogonal projection to simulate depth. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $15 to 90.

CDTP 168
Desktop Publishing III: InDesign (1 CR)
**Prerequisite: CDTP 160**
In this career-related course, students will create advanced-level page layout documents using a variety of techniques on either the Macintosh or PC computer platform. Students will learn how to work with advanced color specifications, transparency blending modes, long document organization, and brochure layout production art. 1 hr. lecture/wk.
CDTP 171
Desktop Publishing III: QuarkXpress (1 CR)
Prerequisite: CDTP 151
In this career-related course, students will create several brochure layouts on either the Macintosh or PC computer platform that incorporate a variety of drawing techniques, including layering, blends, distribution, EPS files, Bezier shapes, merge shapes and multi-ink colors. Pre-press production for final art will also be covered. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $15 to 90.

CDTP 175
Desktop Photo Manipulation III: Photoshop (1 CR)
Prerequisite: CDTP 155
In this career-related short course, students will manipulate digital photographs and images using a variety of beginning, intermediate and advanced techniques on either the Macintosh or PC computer platform. Students will apply techniques to create and design typographic elements, use vector drawing techniques, prepare images for print, optimize images for web output, and use a digital photo preparation workflow on a variety of digital photographs and images, including scanned images. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CDTP 180
Photoshop for the Web: Photoshop (1 CR)
Prerequisite: CDTP 155
This course is designed to explore the preparation of digital photographs and images for the Web using a variety of techniques and tools. Optimizing images for the Web, creating Web graphics using slices and rollovers, and creating animated images for the Web will be covered. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $15 to 90.

CDTP 185
Desktop Illustration III: Illustrator (1 CR)
Prerequisite: CDTP 165
In this career-related course, students will create advanced computer-generated illustrations using a variety of techniques on either the Macintosh or PC computer platform. Students will create charts, autotrace scanned images, fill objects with various pen-and-ink filter effects and create an image map for the Web. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $15 to 90.

Computer Forensics (CFOR)

CFOR 150
Introduction to Computer Forensics (3 CR)
Prerequisites: CIS 134 and CPCA 139 and assistant dean's approval
In this course, students are introduced to computer forensics and incident response essentials. This course shows the student how to collect and analyze the digital evidence left behind in a digital crime scene. Computer forensics, the newest branch of computer security, focuses on the aftermath of a computer security incident. The goal of computer forensics is to conduct a structured investigation to determine exactly what happened and who was responsible and to perform the investigation in such a way that the results are useful in a criminal proceeding and to lay the foundation for further study of computer forensics. Prior to attending the course, students will be required to complete a background check.
CFOR 180
File Structure & Residual Artifacts (3 CR)

Prerequisite: CFOR 150

This course provides the basic understanding of how computers 'see' data and manage its storage. While covering physical device concepts, students will learn the boot process of a computer. The FAT file system will then be described in terms of system areas created during the format process, the File Allocation Table and its function and detailed information regarding saving files and directories - to include a full breakdown of directory entries. In addition, concepts of clusters and file slack space will be covered and led into how to identify the affects of deleting files and forensic issues surrounding their recovery. The students will learn how to use hardware and software write protection tools to create duplicate images of hard disk drives, USB thumb drives and other alternate media. Mastery of technical knowledge will be combined with problem-solving skills to aid students in developing creative and adaptive responses to future changes in technology. This course meets for two hours of lecture and two hours of laboratory each week. 2 hrs. lecture 2 hrs. lab/wk.

Computer Information Systems (CIS)

CIS 124
Introduction to Computer Concepts and Applications (3 CR)

In this introductory, nontechnical computer course, students study computing concepts, terminology, issues and uses. Extensive hands-on experience with the microcomputer is provided using business applications and the operating system to reinforce the concepts. 3 hrs. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 15.

CIS 134
Programming Fundamentals (4 CR)

At the completion of this course, the student should be able to use the elementary concepts of computers, including several number systems. In addition, students will design, develop and write modular programs on a microcomputer in a structured programming language using standard structured concepts. 3 hrs. lecture, 2 hrs. lab by arrangement/wk.

CIS 138
Visual Basic .Net (4 CR)

Prerequisite: CIS 134

Upon successful completion of this course, students should be able to describe the Visual Basic programming environment, identifying the controls and objects available for creating .NET applications. Students should be able to define the basic terminology used by Visual Basic. They will create forms, draw the controls for each form, design menu bars, set form and control properties, write event and general procedures, and test and debug their applications. 3 hrs. lecture, 2 hrs. lab by arrangement/wk.

CIS 162
Database Programming (4 CR)
Prerequisite: CIS 134 or the equivalent
This course covers the use of an interactive environment and programming language to create, maintain and manipulate databases using Access as the RDBMS. The use of a command-level database programming language to customize business systems and selectively retrieve information using single or multiple database tables also will be studied. 3 hrs. lecture, 2 hrs. lab by arrangement/wk.

CIS 201
Introduction to Information Systems (3 CR)
Prerequisite: ACCT 121
This course is an introduction to the use of computers in management, concepts of computer software, hardware, and systems analysis. Applications will include electronic spreadsheets, database management software, graphics and presentation tools, and other special purpose tools. Word processing tools will be used for most graded assignments. Programming will be studied in the context of spreadsheet macros. 3 hrs. lecture/wk.

CIS 204
UNIX Operating System (3 CR)
Prerequisites: CS 200 or CS 205 or CS 201 and CPCA 139
This course will cover the concepts and principles of the multi-user, multi-tasking UNIX operating system. Students will complete projects in UNIX ranging from using simple commands to writing shell scripts automating repetitive tasks. 3 hrs. lecture/wk.

CIS 206
Programming in PERL (4 CR)
Prerequisites: CS 200 or CS 205 or CS 201 and CPCA 139
This course is an in-depth introduction to the Perl scripting language. Students successfully finishing the course should be familiar with the most common operations and language idioms used in Perl programs and should be able to produce useful Perl scripts. In addition, students will have been introduced to the more powerful and rich elements of the language. Lectures and lab projects will cover the many features of the Perl language. 3 hrs. lecture, 1.5 hrs. lab/wk.

CIS 235
Object-Oriented Programming Using C++ (4 CR)
Prerequisite: CS 200 using C++
This course is intended to prepare students to apply the object-oriented programming paradigm to solve typical business problems. The student should work with container classes such as Linked Lists, Trees, Stacks and Queues as tools in their program solutions. Students will be building application-oriented objects using the concepts of inheritance, function overloading and polymorphism. Students will also apply techniques of dynamic memory to build arrays and objects that can adjust memory requirements at run time. Students will be exploring the object-oriented and I/O capabilities as well as the string processing capabilities of the object-oriented language. 3 hrs. lecture, 2 hrs. lab by arrangement/wk.

CIS 238
Visual Basic Intermediate Topics (4 CR)
Prerequisite: CIS 138
Upon successful completion of this course, students should be able to write and
test a Visual Basic program that uses the ADO.NET to access a local database. They will identify the commands necessary to open, display and maintain the database. They will correctly use Visual Basic keystroke events to edit and control input to the database. Students will use the Try-Catch Error trapping structures to create robust projects. Students will generalize code for reuse. They will create a .Net component to coordinate a TextBox and ListBox that can be deployed from the ToolBox. 3 hrs. lecture, 2 hrs. lab by arrangement/wk.

CIS 240
Advanced Topics in JAVA I (4 CR)
Prerequisite: CS 250 or CIS 235 or CS 255
At the completion of this course, the student should be able to create Java applications and applets appropriate for implementation on the Internet and World Wide Web. The student will complete projects using Java’s built-in features. The course will include graphics, graphical user interfaces, exception handling, multi-threading and interactive media. 3 hrs. lecture, 2 hrs. lab/wk.

CIS 242
Introduction to System Design and Analysis (3 CR)
Prerequisite: CIS 138 or DP 138 or CS 200 or CS 201 or CS205
Students will study the basic philosophy and techniques of developing and using business information systems. The emphasis will be on the human involvement necessary in systems design and implementation. The course will address the use of specific technical approaches available in information processing. 3 hrs. lecture/wk.

CIS 243
Object-Oriented Analysis and Design (4 CR)
Prerequisite: One programming course using an object-oriented programming language or equivalent experience
This course includes information and materials that will introduce the student to an object-oriented analysis and design methodology suitable for designing systems that can be implemented in any object-oriented programming language. Experience in using specific techniques and tools will be gained through the completion of real-world projects. 3 hrs. lecture, 2 hrs. lab by arrangement/wk.

CIS 244
Advanced Topics in C# I (4 CR)
Prerequisite: CS 250 or CIS 235 or CS 255
At the completion of this course, the student should be able to create C# applications appropriate for implementation on the .NET platform. The student will complete projects using C#'s built-in features. The course will include graphics, graphical user interfaces, exception handling, multi-threading and database access. 3 hrs. lecture and 1.5 hrs lab/wk.

CIS 254
UNIX System Administration (4 CR)
Prerequisite: CIS 204
This course is designed to present the skills and provide the hands-on experience required to be a Unix system and Web administrator. Typical system administration duties to be covered include installation, backup, restoration and routine maintenance, including adding/removing users, managing system resources, monitoring and optimizing system activity, and automating activities. Typical Web administration duties to be covered include installation and
management of a relational database management system, installation and management of a Web server and an FTP server, kernel recompiling relevant to Web technology, and audio/video streaming. 3 hrs. lecture, 2 hrs. lab/wk.

**CIS 258**  
**Operating Systems (3 CR)**  
*Prerequisite: CIS 138 or CIS 162 or CS 200 or CS 201 or CS 205*  
The basic concepts and principles of a digital computer operating system will be explained. Also explored through a study of a typical digital computer operating system will be the relationships between hardware and software. 3 hrs. lecture/wk.

**CIS 260**  
**Database Management (4 CR)**  
*Prerequisite: CS 250 or CS 255 or CIS 235 or CIS 238 or CIS 248*  
Characteristics and objectives of database management systems (DBMS) versus traditional file management systems are discussed. Topics include relational, hierarchical and network models; data modeling using entity-relational model; normalization to avoid modification anomalies; and operational considerations of a relational database. Students will create and use a relational DBMS (currently Oracle) and a Standard Structured Query Language (SQL). SQL*Plus and embedded SQL will be used in programs. 3 hrs. lecture, 2 hrs. lab/wk.

**CIS 262**  
**Project Management (3 CR)**  
*Prerequisite: CIS 242*  
This course will prepare students to effectively manage projects, with a focus on information systems (IS) projects. Topics include project management terminology, project manager roles, project success factors, integration, scope, time, cost, quality, human resources, communications, risk, professional responsibility and procurement management. Using case studies, students will plan, schedule, execute and control projects, modifying their timelines and resource allocations as required. 3 hrs. lecture/wk.

**CIS 264**  
**Application Development and Programming (4 CR)**  
*Prerequisites: CIS 242 and either CIS 260 or CIS 162 Prerequisites or Corequisites: CIS 238 or CIS 253 or CIS 269 or CIS 240 and CIS 262*  
This course is designed for students to apply the foundations of systems analysis and design, database design and programming to a significant information system. Students should work within a team to analyze a problem, develop and present a proposed information system solution, build a demonstrable prototype of the system and develop a significant portion of the system. Students should also develop a project schedule and present progress information to the class. Students should also develop job search skills and both written and oral communication skills. 3 hrs. lecture, 2 hrs. lab by arrangement/wk.

**CIS 269**  
**GUI Programming (4 CR)**  
*Prerequisites: CIS 235 or CS 250*  
Upon completion of this course, students should be able to demonstrate applications in the graphical user interface (GUI) programming language and use the appropriate GUI library. Techniques of object-oriented programming developed in CIS 235 will be applied to problems involving user interaction. The
common user access (CUA) standards of GUI programming will be used throughout the course. The message queue and ordered linked lists objects used in CIS 235 will be applied to problems involving user selection and updating information in a database. Students will make extensive use of the application framework for the GUI environment provided by the GUI language compiler. It is strongly recommended that students be familiar with common user programs that run under the chosen operating system (Windows, OS/2, X-Windows) before taking this course. 3 hrs. lecture, 2 hrs. lab by arrangement/wk.

CIS 270
Information Systems Internship (3 CR)
Prerequisites: CS 250 or CS 255 or CIS 235 or CIS 238 or CIS 248 and program facilitator approval
Students will work in an approved training situation under instructional supervision. The internship is designed to give the student the opportunity to use the skills learned in information systems courses. Fifteen hours on-the-job training per week will be the usual workload for the student.

CIS 275
Web-Enabled Database Programming (4 CR)
Prerequisites: CS 200 or CS 201 or CS 205 or CIS 162 and either CPCA 139 or CIS 204 and either CPCA 161 or CPCA 158
At the completion of this course, the student should be able to create dynamic Web pages containing information accessed from a database for implementation on the Internet and World Wide Web. The student will complete projects using Dynamic HTML and a scripting language that can interface with a database. The course will include graphics, graphical user interfaces, exception handling, database and interactive media. 3 hrs. lecture, 2 hrs. lab/wk.

CIS 277
Active Server Pages.Net (4 CR)
Prerequisites: CS 200 or CS 201 or CS 205 or CIS 162 and either CPCA 139 or CIS 204 and either CPCA 161 or CPCA 158
At the completion of this course, the student should be able to create dynamic Web pages containing information accessed from a database for implementation on the Internet and World Wide Web. The student will complete projects using ASP.Net objects, dynamic HTML and a scripting language that can interface with a database. The course will include graphics, graphical user interfaces, exception handling, database and interactive media. 3 hrs. lecture, 2 hrs. lab/wk.

CIS 279
Enterprise GUI Programming in C++ (4 CR)
Prerequisite: CIS 243 and CIS 269 and CIS 260
Students will learn advanced programming techniques for Windows, including enterprise software tools, advanced user-interface techniques, multimedia, ActiveX and Internet programming. The course project provides students with real-world development experience covering analysis, design and implementation of a large-scale development project using an object-oriented software development methodology, version control technique, advanced testing techniques, defect-tracking and technical documentation. 3 hrs. lecture, 2 hrs. lab/wk.

CIS 280
Advanced Topics in JAVA II (4 CR)
Prerequisite: CIS 240
At the completion of this course, the student should be able to create Java applications and applets that link to databases and provide the security and advanced GUI features appropriate for implementation on the Internet and World Wide Web. The student will complete projects using Java's built-in features. The course will include techniques for graphics optimization, building components for graphical user interfaces, client-server database connections in Java, handling security managers, building JAR files, using Java's remote objects and linking to other applications. 3 hrs. lecture, 2 hrs. lab/wk.

Computer Personal Computer App (CPCA)

CPCA 105
Introduction to Personal Computers: Windows (1 CR)
This introductory course is designed to give the beginning computer user an overview of the personal computer. The student will gain confidence in basic computer skills and concepts through a hands-on approach while becoming familiar with a microcomputer and its primary uses. Topics include computer software, hardware and terminology; an introduction to microcomputer operating systems, and the graphical user interface. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 106
Introduction to Personal Computers: Macintosh (1 CR)
This introductory course is designed to give the beginning computer user an overview of the Macintosh personal computer. The student will gain confidence in basic computer skills and concepts through a hands-on approach while becoming familiar with a Macintosh computer and its primary uses. Topics include computer software, hardware and terminology; as well as an introduction to the Macintosh operating system, word processing, drawing, spreadsheets and database management. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 108
Word Processing I: MS Word (1 CR)
Prerequisites: CPCA 105 or CPCA 106 or CIS 124 or DP 124 or CPCA 128 or appropriate score on a waiver test
Students will learn concepts and use of word processing software on the personal computer. Concepts covered will include creating, saving, printing and editing word processing files; searching and replacing text; creating headers and footers; inserting and resizing graphic images; setting up tables; creating and applying styles; and creating mail merge letters. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 110
Spreadsheets I: MS Excel (1 CR)
Prerequisite: CPCA 105 or CPCA 106 or CIS 124 or DP 124 or CPCA 128 or an appropriate score on a waiver test
Students will learn concepts and uses of spreadsheet software on the personal computer. Business decision-making worksheet models will be created and modified by entering labels, functions and formulas. Various formatting techniques will be applied to enhance the appearance of printed worksheets. Students will also learn to display the worksheet data graphically with the charting capabilities of the software. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.
CPCA 111
Spreadsheets II: MS Excel (1 CR)
Prerequisite: CPCA 110 or CPCA 128
This course is a continuation of CPCA 110, Spreadsheets on the Microcomputer I, and will provide the student with intermediate level of spreadsheet concepts. Using typical business scenarios, the student will perform manual and automated "what-if" analyses, manage data in worksheets with tables and database functions, and use multiple worksheets to build consolidated statements. Basic macros will be introduced. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 114
Databases I: MS Access (1 CR)
Prerequisite: CPCA 105 or CPCA 106 or CPCA 128 or CIS 124 or DP 124 or an appropriate score on a waiver test
This course provides an introduction to the concepts and real-world applications of microcomputer relational database software. Foundational database competencies, including building tables, defining fields, relating tables, entering and editing data, filtering, and sorting will be covered. Students will query the database to select, calculate and summarize information. Students will build and customize forms and reports. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 115
Databases II: MS Access (2 CR)
Prerequisite: CPCA 114
Upon completion of this course, the student should be able to design and define a relational database; create custom forms and reports for data entry, updating and presentation; and build the necessary queries to support these objects. The student should be able to transfer data into and out of the database from various file formats; use database software to develop Web pages and hyperlinks; and manipulate the data and database with introductory macro, query language and programming skills. The course contains a capstone project in which the student uses all the skills learned to create a working database for a client based on a real-world situation. 2 hrs. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 116
Database:Filemaker Pro (1 CR)
Prerequisite: CPCA 105 or CPCA 106 or CPCA 128 or CIS 124 or DP 124
In this career-related course, students will be introduced to the essential concepts of data management so they can store, organize and synthesize information for effective use in the day-to-day business needs of even a medium-sized organization. Students will create a database file with fields, records, calculations, summaries, auto entries and pop-up lists. Several layouts will be created with links between them. Sorts and finds will be created and saved as scripts with buttons. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 117
Databases III: MS Access (1 CR)
Prerequisite: CPCA 115
Upon successful completion of this course, the student should be able to analyze an existing database solution that is not working properly, import the data into Access and use action queries and SQL to normalize the database into an effective rational database. A case study emphasis will cover different database
design and documentation issues. Students will also build complex forms and reports using Visual Basic for Applications programming code. Student will be introduced to Data Access Objects and ActiveX Data Objects. 1 hr. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 118
Groupware (1 CR)
Prerequisite: CPCA 105 or CPCA 106 or CPCA 128 or CIS 124 or DP 124 or an appropriate score on a waiver test

This course provides an introduction to the concepts and applications of today's robust groupware applications. Students will use groupware to compose, send and receive e-mail, post and organize discussion group messages, manage calendars, appointments and to-do lists; and use contact management features. 1 hr. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 121
Introduction to Project Management (1 CR)
Prerequisite: CPCA 105 or CPCA 106 or CPCA 128 or CIS 124 or DP 124 or an appropriate score on a waiver test

Upon completion of this course, the student should be able to effectively manage projects using project management software. Students will learn about project management goals and terminology, create a project schedule and use project management methodologies and tools such as the Gantt chart, critical path method (CPM) and program evaluation review technique (PERT) chart to update a project and communicate project progress to others. Students will use other project management techniques such as applying resources, leveling overallocations, evaluating constraints and analyzing planned versus projected schedule and budget variables. 1 hr. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 122
Assistive Technology (1 CR)

This introductory course is designed to give the student with or without disabilities an overview of the personal and the adaptive hardware and software available. The student will gain confidence in basic computer skills and concepts through a hands-on approach while becoming familiar with the adaptive software and hardware available on the campus. 1 hr. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 123
E-Presentation: MS PowerPoint (1 CR)
Prerequisite: CPCA 105 or CPCA 106 or DP 124 or CIS 124 or CPCA 128 or an appropriate score on a waiver test

Upon completion of this course, students should be able to organize and produce an effective on-computer or slide-generated presentation, complete with printed speaker notes and handouts plus overhead transparencies, using the basic features of a presentation graphics program. Students will use master pages, template files, text formatting, color schemes, various drawing tools, the automated outline feature and animation dissolve sequence and incorporate photographs. 1 hr. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 125
Word Processing II: MS Word (1 CR)
Prerequisite: CPCA 108

This is a continuation of CPCA 108, Word Processing on Micros I. After completing this course, students should be able to use advanced concepts and applications of word processing software. The applications will include importing graphics, creating reports, newsletters, footnotes and endnotes, styles, columns, templates, macros, creating a Web page, on-screen forms, and linking and embedding an object. 1 hr. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 128

PC Applications: Office 2003 (3 CR)

Upon successful completion of this course, the student should be able to use Windows to create and organize files and folders and perform essential file management procedures such as copying, moving, deleting and renaming files and folders. An in-depth proficiency will also be attained with the use of word processing, spreadsheet, presentation graphics and Internet browser applications. Hands-on, practical projects will be performed to reinforce the concepts taught. 3 hrs./wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 134

Managing Your Macintosh (1 CR)

Prerequisite: CPCA 106 or an appropriate score on an assessment test

In this career-related course, students will be introduced through lecture material and hands-on practical projects to the essential concepts of file organization, utility software installation and use, font management and backup techniques. 1 hr. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 138

Windows for Microcomputers (1 CR)

Prerequisite: CPCA 105 or CPCA 106 or CPCA 128 or CIS 124 or DP 124 or an appropriate score on an assessment test

At the completion of this course, the student will be able to discuss the components of the Windows desktop, use the Windows Help system, create and organize a folder system on a disk, perform file management commands, customize the Windows desktop environment, use the Search tool to locate files and folders, and perform file backup and disk maintenance procedures. The student will also be able to use performance monitoring tools, add hardware and software to the system, and use basic MS DOS directory and file management commands.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 139

UNIX (1 CR)

Prerequisite: CPCA 105 or CPCA 106 or CPCA 128 or CIS 124 or DP 124 or an assessment test

This course will introduce students to the major commands of the Unix operating system. E-mail, the VI editor and Telnet will be covered. Basic file and disk management projects will be completed in this course. 1 hr. lecture/wk.

CPCA 141

Internet I (1 CR)

Prerequisite: CPCA 105 or CPCA 106 or CPCA 128 or CIS 124 or DP 124 or an appropriate score on an assessment test
This course will introduce the student to the commands and techniques required to effectively access the resources of the Internet. Windows applications to browse the Internet, locate and retrieve information and send and receive electronic mail will be covered. 1 hr. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 151
Internet II (1 CR)
Prerequisite: CPCA 141 or an appropriate score on an assessment test
This course will cover the commands and techniques required to effectively use various Internet application tools. The student will also use Windows and non-Windows applications to locate information, download and upload files, and create a Web page. Additionally the course will cover basic LINUX commands and publish a Web page to a Web server. 1 hr. lecture/wk.

CPCA 158
Internet Application and Utilities (3 CR)
Prerequisite: CPCA 141 or an appropriate score on an assessment test
This course will introduce the student to the commands and techniques required to effectively access the resources of the Internet. Windows and non-Windows applications will be used to locate, retrieve and disseminate essential information. This course will cover the techniques required to create and publish World Wide Web pages using HTML. 3 hrs. lecture-demonstration/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CPCA 161
Introduction to Web Pages using HTML (1 CR)
Prerequisite: CPCA 151 or an appropriate score on an assessment test
This course will cover the commands and techniques required to create and publish World Wide Web pages using HyperText Markup Language. Topics covered will include basic text layout, background colors, formatting, ordered and unordered lists, tables, frames that include graphic images in a page and linking to other Web pages. 1 hr./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

Computer Science (CS)

CS 180
Introduction to Artificial Intelligence (3 CR)
Prerequisite: CIS 145 or DP 145 or CIS 148 or DP 148 or CIS 150 or DP 150 or CS 200
Upon successful completion of this course, students should be able to understand simple computer programs illustrating introductory concepts in artificial intelligence, define terms and application areas in the field and describe knowledge representation and problem-resolution techniques used in artificial intelligence. 3 hrs. lecture/wk.

CS 200
Concepts of Programming Algorithms Using C++ (4 CR)
Prerequisite: CIS 134 or ENGR 171 or equivalent experience
This course emphasizes programming methodology and problem solving. Algorithm design and development, data abstraction, good programming style, testing and debugging will be presented. An appropriate block-structured
high-level programming language will be studied and used to implement algorithms. 3 hrs. lecture, 2 hrs. lab by arrangement/wk. Four-credit-hour CS courses have two hours of open lab per week.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 50.

CS 201
Concepts of Programming Algorithms using C# (4 CR)
Prerequisite: CIS 134 or ENGR 171 or equivalent experience
This course emphasizes programming methodology and problem-solving using C#. Algorithm design and development, data abstraction, good programming style, testing and debugging will be presented. 3 hrs. lecture, 1.5 hrs. lab/wk. Four-credit-hour CS courses have two hours of open lab per week.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 50.

CS 205
Concepts of Programming Algorithms using JAVA (4 CR)
Prerequisite: CIS 134 or ENGR 171 or equivalent experience
This course emphasizes programming methodology and problem-solving using Java. Algorithm design and development, data abstraction, good programming style, testing and debugging will be presented. 3 hrs. lecture, 1.5 hrs. lab/wk. Four-credit-hour CS courses have two hours of open lab per week.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 50.

CS 210
Discrete Structures I (3 CR)
Prerequisites: MATH 171 or both MATH 116 and CIS 134 or appropriate math assessment scores
Upon successful completion of this course, the student should be able to use fundamental discrete mathematics as it relates to computers and computer applications. The student will be exposed to a variety of discrete mathematical topics. The course will include fundamental mathematical principles, combinatorial analysis, mathematical reasoning, graphs and trees, and Boolean logic circuits. 3 hrs. lecture/wk.

CS 211
Discrete Structures II (3 CR)
Prerequisite: CS 210
Upon successful completion of this course, the student should be able to use fundamental discrete mathematics as it relates to computers and computer applications. The student will experiment with a variety of discrete mathematical topics. The course will include fundamental mathematical principles, combinatorial analysis, mathematical reasoning, graphs and trees, and Boolean logic circuits. 3 hrs. lecture/wk.

CS 250
Basic Data Structures using C++ (4 CR)
Prerequisite:CS 200 Prerequisite or corequisite: CS 210 for students transferring to most four-year computer science programs
This course will cover advanced programming topics using C++. Files, recursion, data structures and large program organization will be implemented in projects using object-oriented methodology. Students will write programs using the concepts covered in the lecture. 3 hrs. lecture, 2 hrs. lab/wk. Four-credit-hour CS courses have two hours of open lab per week.
CS 255
Basic Data Structures using JAVA (4 CR)
Prerequisite: CS 205
This course will cover advanced programming topics using Java. Files, recursion, data structures and large program organization will be implemented in projects using object-oriented methodology. Students will write programs using queues, stacks, lists and other concepts covered in the lecture. 3 hrs. lecture, 1.5 hrs. lab/wk. Four-credit-hour CS courses have two hours of open lab per week.

Computer Web (CWEB)

CWEB 101
Introduction to the Web using Internet Explorer (1 CR)
Prerequisites: CPCA 105 or CPCA 106 or CPCA 128 or DP 124 or CIS 124 or an appropriate score on an assessment test
This course will introduce the student to commands and techniques required to effectively use the resources of the World Wide Web. Topics to be covered will include how to browse, search and retrieve information on the Internet using Internet Explorer, how to create and manage "favorites", how to protect computers from viruses, how to send and receive electronic mail, and how to create a basic home page. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 105
Introduction to Web Pages: Dreamweaver (1 CR)
Prerequisite: CWEB 101
This course will cover the commands and techniques required to create and revise Web pages using Dreamweaver. Topics to be covered will include basic text layout, viewing and identifying basic HTML tags, creating a site map, formatting a Web page, applying background color, inserting images and sounds, creating ordered and unordered lists, inserting files, and creating links on Web pages. 1 hr. lecture/wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 106
Introduction to Microsoft FrontPage (1 CR)
Prerequisite: CWEB 101
This course will cover the commands and techniques required to create and revise World Wide Web pages using Microsoft FrontPage. Topics to be covered will include basic text layout, viewing and identifying basic HTML tags, formatting a Web page, inserting background color, adding pictures and sounds, creating ordered and unordered lists, inserting files and creating links to other Web pages. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 107
Web Tools: Microsoft Office (1 CR)
Prerequisites: CWEB 101 and CPCA 110 or CPCA 114
Upon successful completion of this course, the student should be able to create static and dynamic Web-based documents, Excel spreadsheets, PowerPoint presentations and Access databases. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.
CWEB 108
GoLive I (1 CR)
Prerequisite: CPCA 105 or CPCA 106 or an appropriate score on an assessment test
This short course provides instruction in the creation, production and management of Web pages and Web sites. The course covers introductory concepts and techniques in Web page creation, from the initial preplanning and page layout through the actual publishing of Web pages to a Web site. The emphasis is on introductory, practical experience in Web page creation and management using Adobe GoLive. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 111
Intermed Web Concepts/Techniques using Explorer (1 CR)
Prerequisite: CWEB 101
This course is a continuation of CWEB 101, Introduction to the Web using IE, and will cover intermediate commands and techniques required to use various Web-based tools and programs. Topics to be covered will include using complex search strategies; finding people, businesses and e-mail addresses on the Web; accessing and using Newsgroups; joining and leaving mailing lists; using a Web-based chat facility; locating and downloading freeware and shareware programs; and identifying online backup and storage options. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 115
Intermediate Web Pages: Dreamweaver (1 CR)
Prerequisite: CWEB 105
This course will cover intermediate-level commands and techniques required to create and enhance a Web page using Dreamweaver. Topics to be covered will include tracing images, layers, converting layers to tables, custom tables, cascading style sheets, templates and libraries, and publishing a Web site. 1 hr. lecture/wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 116
Intermediate Microsoft FrontPage (1 CR)
Prerequisite: CWEB 106
This course is a continuation of CWEB 106, Introduction Web Pages: FrontPage, and will cover intermediate-level commands and techniques required to create and enhance a FrontPage Web site. Topics to be covered will include shared borders and themes, publishing a Web site, new Web site creation on a Web server, database integration and using office components and styles. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 118
GoLive II (1 CR)
Prerequisite: CWEB 108
This intermediate course is designed to explore the relation, production and management of Web pages and Web sites using a variety of techniques and tools within Adobe GoLive. Creating animations, using actions and JavaScript, creating forms, using cascading style sheets, and management of Web sites will be covered. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.
CWEB 120
Internet Applications: Fireworks I (1 CR)
Prerequisite: CPCA 105 or CPCA 106 or waiver test scores
This course is an introduction to the fundamentals, tools and techniques of Web imaging using Macromedia Fireworks. Students will gain an understanding how to import, manipulate, optimize and animate Web graphics. Students will combine graphics with HTML and JavaScript creating image slices, navigation menus and hotspots. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 125
Internet Applications: Dreamweaver & Databases (1 CR)
Prerequisites: CWEB 115 and CPCA 114
This course explores the Dreamweaver database environment and dynamic site concepts. Students will learn how to create, sort and display recordset content in a Web page. Students will create search applications, allowing movement between master and detail record pages, and to display the results of database searches. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 130
Introduction to Flash (1 CR)
Prerequisite: CPCA 161 or CWEB 105 or CWEB 106
This course will cover the commands and techniques available to add Flash content to Web pages and CD-ROMs. Topics covered will include using drawing tools, manipulating text with text tools, adding and modifying sound, creating animation and publishing work. This class will be taught in a classroom with both Macintosh and Windows computers. 1 hr. lecture/wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 135
Web-Enabled Databases I using Access (1 CR)
Prerequisite: CPCA 114
Upon completion of this course, the student should be able to create dynamic Web pages used to publish database information or create user entry forms. Using a browser, students will be able to open the Web pages to find, sort, enter and update data in the underlying database. Students will be introduced to underlying Internet technologies, such as Web servers, ODBC, HTML and HTTP, and how they relate to a data-driven Web site. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 140
Intermediate Flash (1 CR)
Prerequisite: CWEB 130
This course will build on the fundamental skills learned in CWEB 130, Introduction to Flash. Topics will include complex animation techniques; interactivity with simple frame actions; and interactivity using objects such as buttons, hot spots and movie clips. 1 hr. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 145
Web-Enabled Databases II using Access (1 CR)
Prerequisite: CWEB 135

Upon completion of this course, the student should be able to create advanced dynamic Web pages used to publish database information, create complex user entry forms and analyze data interactively with advanced controls such as charts. Using a browser, students will be able to open the Web pages to manipulate and analyze data in the underlying database. Students will implement Internet technologies, such as Web servers, ODBC, HTML and HTTP, to build an intranet-based Web-enabled database. 1 hr. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 150
Advanced Flash (1 CR)
Prerequisite: CWEB 140

This course will build on the skills learned in CWEB 131, Intermediate Flash. Students will do projects to control movie clips, sound, external data, multiple timelines and text fields. Some ActionScripting will be introduced. 1 hr. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 160
Introduction to JavaScript (1 CR)
Prerequisite: CWEB 105 or CWEB 106 or CPCA 161

This course will cover the commands and techniques available to add functionality to Web pages using JavaScript. Topics to be covered include integrating JavaScript into an HTML file, creating pop-up windows, adding scrolling messages, validating forms and enhancing the use of image and form objects. 1 hr. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 165
Introduction to Adobe Acrobat (1 CR)

This course will introduce students to the Adobe Acrobat software program. Students will be presented with the basics of Adobe Acrobat and will be shown how to create and edit PDF files using Acrobat and Distiller. Topics will include how to gather Web page content for off-line viewing and how to use JavaScript inside a PDF document to make it interactive. Projects will include how to add navigation, multimedia elements and data forms to PDF files. 1 hr. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 170
Intermediate JavaScript (1 CR)
Prerequisite: CWEB 160

This course builds on the skills learned in CWEB 160, Introduction to Web Scripting: JavaScript. Students will learn to use JavaScript in their Web pages to build menus and navigational structures. They will also learn to use intermediate techniques for cookie manipulation and storage. Complex use of operators (Bitwise, Assignment, Comparison, Arithmetic and Boolean) will be explained. 1 hr. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 180
E-Commerce Using JavaScript (1 CR)
Prerequisite: CWEB 170

This course builds on the skills learned in CWEB 160, Introduction to Web Scripting: JavaScript, and CWEB 161, Intermediate JavaScript. The student will
build a complete e-commerce site that will support online ordering and payment with JavaScript. 1 hr. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 190
ActionScript for Flash (1 CR)
Prerequisite: CWEB 150
This course will teach the basic skills needed to use ActionScripts in Flash movies. Students will build interactivity into their movies using ActionScript. They will also manipulate data and control Flash objects such as movie clips. ActionScript logic and functions will be explained. 1 hr. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 230
Introductory E-Commerce Applications (1 CR)
Prerequisite: CWEB 101 or CPCA 141
This course will introduce students to e-commerce in a software-driven, hands-on way. It will use software tools to discuss and explore a variety of e-commerce activities. Students will examine an extensive list of e-commerce sites, such as those that support purchasing, delivery, support, auction, business-to-business, virtual community and Web-portal business goals. They will examine e-commerce stores that incorporate advertising, marketing, branding, and business efficiency goals. They will explore how to populate a store catalog, create site-wide navigation links and publish a store. 1 hr. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

CWEB 240
Intermediate E-Commerce Applications (1 CR)
Prerequisite: CWEB 230
This course will use software tools such as Internet Explorer and Netscape Communicator to discuss and explore a variety of intermediate e-commerce activities. For example, students will examine e-commerce security issues, such as cookies, privacy risks and property threats, including copyright issues, viruses, security policies, encryption, digital signatures and transaction integrity. Students will study electronics payment systems, including script, electronic checks, credit card purchases, electronic wallets, smart cards and electronic cash. Students will explore international and legal issues, such as language and custom barriers, laws and regulations, and tax considerations. They will also explore ethical issues, such as trust and defamation issues. Finally, they will explore careers in electronic commerce. 1 hr. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

Cosmetology (AVCO)

AVCO 102
Nail Technology (17 CR)
This course provides skill instruction in determining nail disorders and care as well as the artistic application of tips, overlays and sculptured nails. Upon successful completion, students are prepared to take the Kansas State Board of Cosmetology onychology examination. In-state tuition and fees $700.00 total. Out-of-state tuition and fees $2,870.00 total, 350 contact hrs. For enrollment and tuition information, call 913-469-8500 ext. 2390. The credit reflected in this course is for transcript reporting, recording and transfer only.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $145 to 150.
AVCO 110  
**Introduction to Cosmetology** (21 CR)  
*Prerequisite: Selective Admission Approval*

This course provides skill instruction in shampooing, cutting, shaping, curling and coloring. Also included is curriculum from Nail Technology and Cosmetology Technician I and II. The first 500 contact hours are in the basic lab and the classroom without client contact. In-state tuition and fees $970 total. Out-of-state tuition and fees $4,070 total. For enrollment and tuition information, call 913-469-8500 ext. 2390. The credit reflected in this course is for transcript reporting, recording and transfer only.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $28 to 38.

AVCO 112  
**Clinical Cosmetology** (12 CR)  
*Prerequisite: Selective Admission Approval*

This course provides continuing skill instruction in shampooing, cutting, shaping, curling and coloring. Included is an introduction to client relations skills and sales promotion techniques. Instruction includes classroom and salon. In-state tuition and fees $955 total. Out-of-state tuition and fees $4,055 total. For enrollment and tuition information, call 913-469-8500, ext. 2390. The credit reflected in this course is for transcript reporting, recording and transfer only.

AVCO 114  
**Advanced Cosmetology** (12 CR)  
*Prerequisites: AVCO 110 with a min grade of "C" or higher and selective admission approval*

This course provides advanced instruction in shampooing, cutting, shaping, curling and coloring. This course prepares the student for the Kansas State Board of Cosmetology examination. In-state tuition and fees $955 total. Out-of-state tuition and fees $4,055 total. For enrollment and tuition information, call 913-469-8500, ext. 2390. The credit reflected in this course is for transcript reporting, recording and transfer only.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $159.

AVCO 115  
**Cosmetology with Nail Technology License** (12 CR)  
*Prerequisites: AVCO 110 and current Kansas nail technology license*

This course provides continuing skill instruction in shampooing, cutting, shaping, curling and coloring hair, as well as skin care and nail technology. Included is an introduction to client relations skills and sales promotion techniques. Instruction includes classroom and salon. Current Kansas Nail Technology license required. In-state tuition and fees $631. Out-of-state tuition and fees $2615. 30 lecture hrs, 30 lab hrs, 205 clinical hrs.

AVCO 116  
**Cosmetology with Esthetics License** (12 CR)  
*Prerequisites: AVCO 110 and current Kansas esthetics license*

This course provides continuing skill instruction in shampooing, cutting, shaping, curling and coloring, as well as skin care and nail technology. Included is an introduction to client relations skills and sales promotion techniques. Instruction includes classroom and salon. Current Kansas Esthetics license required. In-state tuition and fees $685. Out-of-state tuition and fees $2855. 85 lecture, 30 lab, 235 clinical hrs.
AVCO 118
Esthetics (26 CR)
Prerequisite: Selective Admission Approval
This course provides skill instruction in skin care. Topics include sanitation, skin sciences, waxing, skin treatments, makeup and business practices. This course prepares the student for the Kansas State Board of Cosmetology esthetician examination. In-state tuition and fees $1,240 total. Out-of-state tuition and fees $5,270 total. 650 contact hrs. For enrollment and tuition information, call 913-469-8500 ext. 2390. The credit reflected in this course is for transcript reporting, recording and transfer only.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $174 to 190.

AVCO 212
Cosmetology Instructor Training (9 CR)
Prerequisites: Current Kansas Cosmetology and Esthetics or Nail Technology License. Minimum of one year of practice in trained area and selective admission approval
This 300 contact hour course is designed to meet the educational requirements for licensure by Kansas Board of Cosmetology for instructors in the cosmetology sciences. Students will attend 40 hours of lecture and participate in 260 hours of observation, clinic supervision, and classroom teaching. Topics covered include instructor characteristics, student motivation, methods and evaluation. In-state tuition $540 total. Out-of-state tuition $2,400 total. 300 contact hrs. For enrollment information call 913-469-8500 ext. 2390. The credit reflected in this course is for transcript reporting, recording and transfer only.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $75.

AVCO 218
Advanced Esthetics Training (6 CR)
Prerequisite: Must possess current esthetics license granted by the Kansas Board of Cosmetology, a current cosmetology license, or the minimum of 500 hours of esthetics training from another institution.
This 100-contact-hour course is designed to meet the education requirements for licensure by the Missouri Board of Cosmetology for estheticians in the cosmetology sciences and meet the needs of students who desire exposure to advanced esthetics techniques. Students will attend 44 hours of lecture/demonstration, practice 48 hours of integrated lecture/clinical, and participate in eight hours of community service. Topics covered include body treatments, theory on the day spa, airbrush makeup, microdermabrasion and manual lymphatic drainage. In-state tuition is $1,100. Out-of-state tuition is $1,720. 100 contact hrs. For enrollment information, call 913-469-8500 ext. 2390. The credit reflected in this course is for transcript reporting, recording and transfer only.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $15.

Dental Assisting (KDA)
KDA 100
Introduction to Dental Assisting (1 CR)
This course is a prerequisite for admission to the dental assisting program. Dental terminology, roles of dental assistant and scope of dentistry. 1 hr. lecture/wk. Course taught at Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting and beginning and ending dates of classes. Call 816-759-4000.

KDA 101
Body Structure and Function (2 CR)
*Prerequisite: Admission to dental assisting program*
Admission to dental assisting program is required. Basic anatomy and physiology for the dental assistant, 2 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting and beginning and ending dates of classes. Call 816-759-4000.

KDA 102
Head & Neck Anatomy (2 CR)
*Prerequisite: Admission to the dental assisting program*
Admission to dental assisting program is required. Utilizes a systems approach to the gross anatomy of the head and neck with emphasis on the maxilla and mandible and oral tissues, neuromuscular and circulatory function, supporting structures and the temporomandibular joint also study of oral embryology and histology. 1.5 hr lecture and 1 hr. lab/wk. Course taught at MCC-Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting and beginning and ending dates of classes. Call 816-759-4000.

KDA 103
Dental Anatomy (2 CR)
Admission to dental assisting program is required. Introduces to students a detailed study of crown and foot morphology of both primary and permanent dentition. Eruption Schedule and Numbering System. 4 hrs. lab/wk. Course taught at Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting and beginning and ending dates of classes. Call 816-759-4000.

KDA 104
Dental Emergencies & Pharmacology (1 CR)
Admission to dental assisting program is required. An overview of emergencies common to the dental office setting. Students will gain knowledge in emergency drugs, allergic reactions and drug related emergencies. Also emphasized are specific medical conditions related to treatment, management of medical emergencies, pharmacology related to dental. 1 hr. lecture/wk. Course taught at Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting and beginning and ending dates of classes. Call 816-759-4000.

KDA 105
Dental Materials I (2 CR)
Admission to dental assisting program is required. Basic knowledge and manipulation of waxes, temporary crowns, custom trays, alginate materials, impression materials, bite registration materials, cements, varnishes, bases and liners. 2 hr. lecture, 4 hrs. lab/wk. Course taught at MCC-Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KDA 108
Oral Microbiology & Infection Control (2 CR)
Admission to dental assisting program is required. An overview of microbiological aspects of health and disease with emphasis on sterile process and disinfection techniques. 1 hr lecture, 2 hrs. lab/wk. Course taught at Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.
KDA 110

**Chairside Assisting I (5 CR)**
Admission to dental assisting program is required. Dental terminology and responsibilities of the dental assistant in the dental operatory to include patient preparation and utilization of rubber dam, matrix, anesthetics, fluoride, wedge, amalgam and composite procedure and coronal polishing techniques. 3 hrs. lecture, 4 hrs. lab/wk. Course taught at MCC-Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KDA 115

**Dental Radiology I (4 CR)**
Admission to dental assisting program is required. Radiography history, characteristics of radiation production, film composition, x-radiation terminology, effects of radiation exposure, and protection. Exposing, processing, and mounting of radiographs taken on a radiographic manikin. 3 hr. lecture, 2 hrs. lab/wk. Course taught at MCC-Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KDA 125

**Clinical Experience I (2 CR)**
Prerequisite: CPR certification for healthcare workers
Admission to dental assisting program is required. Clinical experience in operative and preventive dental procedures utilizing four-handed dentistry in the clinic at the University of Missouri-Kansas City School of Dentistry. 6 hrs. clinic/wk. Course taught at MCC-Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KDA 205

**Dental Materials II (3 CR)**
Prerequisite: KDA 105
Advanced manipulation of dental cements, amalgam, esthetic restoratives (composites), alginate and gypsum products, sealants and various impressions materials. 6 hrs. lab/wk. Course taught at MCC-Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KDA 210

**Chairside Assisting II (5 CR)**
Prerequisite: KDA 110
Specialty area of dentistry to include orthodontics, periodontics, prosthodontics, oral surgery, endodontics, pediatric dentistry and geriatric dentistry. Includes procedures, instruments and current concepts of assisting in these areas. 1 hr. lecture, 8 hrs. lab/wk. Course taught at MCC-Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KDA 215

**Dental Radiology II (2 CR)**
Prerequisite: KDA 115
Radiographic techniques, procedures and infection control emphasized. Practical experience in exposing, processing, and mounting radiographs taken on patients at the University of Missouri-Kansas City School of Dentistry and in private practice offices (general and specialty). 4 hrs. lab/wk. Course taught at MCC-Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KDA 225
Dental Office Management (2 CR)
Admission to the dental assisting program is required. Principles of business management in the dental office. Control of the appointment book, filing, financial management, insurance forms, supply inventory and recall systems by conventional and computerized methods. Dental computer applications and use. Hands-on experience in private practice offices and/or clinic KDA 250. 1 hr. lecture, 2 hrs. lab/wk. Course taught at MCC-Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KDA 230
Oral Pathology (2 CR)
Prerequisites: KDA 108 and KDA 110
An overview of diseases of the human body, including basic cell tissues, with specific emphasis on diseases of the face and mouth. 2 hrs. lab/wk. Course taught at Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting times and beginning and ending dates of classes.

KDA 250
Clinical Experience II (4 CR)
Prerequisite: KDA 125
Advanced clinical experience in the front office, at chairside, in radiographic and laboratory assisting techniques in general and in specialty dental offices and clinics, 16 hrs. clinic/wk. Course taught at MCC-Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KDA 260
Dental Assisting Seminar (2 CR)
Prerequisite: KDA 125
Preparation for the Dental Assisting National Board Examination and for successful employment. Clarification of prior material by discussion and dialogue between students and instructors. Preparation of personal resume and job applications. Demonstrates interview techniques. 2 hr. lecture/wk. Course taught at MCC-Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KDA 270
Expanded Functions in Restorative Dentistry (1 CR)
Prerequisite: Student must meet one of the following: 1) Certified dental or orthodontic assistant through the Dental Assisting National Board, Inc. 2) Graduate of an ADA-accredited dental assisting or dental hygiene program. 3) Completion of KDA 106 Basic Dental Techniques and successful completion of Basic Skills Mastery Exam given by the Missouri Dental Assistants Association
Dental restorative materials with emphasis on placing and carving amalgam and composite restorations and palliative care of dental emergencies. 2 hrs. lab/wk. Course taught at MCC-Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KDA 271
Expanded Functions in Orthodontics
Prerequisite: Student must meet one of the following: 1) Certified dental or orthodontic assistant through the Dental Assisting National Board, Inc. 2) Graduate of an ADA-accredited dental assisting or dental hygiene program 3) Completion of KDA 106 Basic Dental Techniques and successful completion of Basic Skills Mastery Exam given by the Missouri Dental Assistants Association
Orthodontic procedures with emphasis on impressions, bending archwires, placement and removal of orthodontic bands and brackets, and palliative care of orthodontic emergencies. .5 credit hour, 1 hr. lab/wk. Course taught at MCC-Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KDA 272
Expanded Functions in Periodontics
Prerequisite: Student must meet one of the following: 1) Certified dental or orthodontic assistant through the Dental Assisting National Board, Inc. 2) Graduate of an ADA-accredited dental assisting or dental hygiene program 3) Completion of KDA 106 Basic Dental Techniques and successful completion of Basic Skills Mastery Exam given by the Missouri Dental Assistants Association
Periodontal procedures with emphasis on air-brasive coronal polishing and placement of periodontal dressings. Credit hours .5, 1 hr. lab/wk. Course taught at MCC-Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KDA 273
Expanded Functions in Prosthetic Dentistry (1 CR)
Prerequisite: Student must meet one of the following: 1) Certified dental or orthodontic assistant through the Dental Assisting National Board, Inc. 2) Graduate of an ADA-accredited dental assisting or dental hygiene program 3) Completion of KDA 106 Basic Dental Techniques and successful completion of Basic Skills Mastery Exam given by the Missouri Dental Assistants Association
Prosthodontic procedures with emphasis on prosthodontic impression techniques, cementation of dental appliances, extra-oral adjustment of fixed and removable prostheses, placement of soft-tissue liners. 2 hrs. lab/wk. Course taught at Penn Valley Community College, 3201 Southwest Trafficway, Kansas City, MO. Students should contact the Penn Valley coordinator of dental assisting about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

Dental Hygiene (DHYG)

DHYG 121
Clinical Dental Hygiene I: Pre-Clinic (5 CR)
Prerequisites: Admission to the Dental Hygiene Program, a minimum 2.0 GPA in curriculum courses and CHEM 122 and ENGL 121 and BIOL 140 and PSYC 130 and BIOL 230 Corequisites: DHYG 125 and DHYG 138 Prerequisite or corequisite: DHYG 135 and SOC 122
This course will include information and techniques relating to the history, development, current status and future of the profession of dental hygiene. Students will be introduced to fundamental dental hygiene services, instrumentation, patient assessment, preventive treatment, transmissible diseases, exposure barriers and infection control. 2 hrs. lecture, 13 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $3300 to 3350.

DHYG 125
Developmental Dentistry (2 CR)
Prerequisites: Admission to Dental Hygiene Program and CHEM 122 and ENGL 121 and BIOL 140 and PSYC 130 and BIOL 230 and Corequisites: DHYG 121 and DHYG 138 and Prerequisites or corequisites: SOC 122 and DHYG 135
This course will include a study of embryology; oral histology; developmental disturbances of the face, oral cavity and related structures; and dental morphology and occlusion. 1 hr. lecture, 3 hrs. lab/wk.

DHYG 135
Dental Materials (2 CR)
Prerequisites: CHEM 122 and ENGL 121 and PSYC 130 and BIOL 140 and BIOL 230 and Prerequisite or corequisite: SOC 122 Corequisites: DHYG 121 and DHYG 125 and DHYG 138
This course is designed to provide students with a knowledge base of the science and physical properties of dental materials. Through laboratory exercises, students will have hands-on experience with dental materials used in dental hygiene and dentistry while applying their knowledge of dental material sciences. 1 hr. lecture, 2 hrs. lab/wk.

DHYG 138
Head and Neck Anatomy (2 CR)
Prerequisites: BIOL 230 and CHEM 122 and ENGL 121 and PSYC 130 and BIOL 140 and admission to the Dental Hygiene Program and Prerequisites or corequisites: SOC 122 and DHYG 135 Corequisites: DHYG 121 and DHYG 125
This course is designed to provide dental hygiene students with the basic anatomical foundations to support clinical course work. Topics to be covered include embryonic development of the head and neck, along with identification of the bones in the skull. Muscles of the head and neck will be identified along with their functions, insertion and origins. The vascular, lymphatic and nervous systems of the head and neck will be discussed along with the anatomical basis of the spread of infection. 3 hrs. lecture and lab/wk.

DHYG 140
Clinical Dental Hygiene II (4 CR)
Prerequisite: DHYG 121 Corequisites: DHYG 142 and DHYG 146 and DHYG 148 and prerequisites or corequisites: BIOL 225 and DHYG 135
The course will include clinical application of dental hygiene techniques and instrumentation, oral health products, patient motivation and educational techniques, preventive strategies including use of an intraoral clinic camera and an introduction to selected dental specialties. Students will be prepared for medical and dental emergencies, which may be encountered in various practice settings. An introduction to the dental hygiene process (ADPIE) and working with special-needs patient populations will be provided.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $25 to 35.

DHYG 142
Dental Radiology (2 CR)
Prerequisites: DHYG 121 Corequisites: DHYG 140 and DHYG 146 and DHYG 148 and Prerequisites or corequisites: BIOL 225 and DHYG 135
This class will concentrate on the theory and clinical practice of exposing, processing, mounting and evaluating oral radiographs with emphasis on radiation protection and infection control for the patient and operator. 1 hr. lecture, 3 hrs. lab/wk.

DHYG 146
Periodontics (3 CR)
Prerequisite: DHYG 121 Corequisites: DHYG 140 and DHYG 142 and DHYG 148
Prerequisites or Corequisites: BIOL 225 and DHYG 135
This course will include recognition of the etiology and clinical signs and symptoms of periodontal diseases. The inflammatory process, treatment planning and nonsurgical therapy are discussed. 3 hrs. lecture/wk.

DHYG 148
Dental Health Education (2 CR)
Prerequisite: DHYG 121 Corequisites: DHYG 140 and DHYG 142 and DHYG 146
Prerequisites or Corequisites: BIOL 225 and DHYG 135
Students will study health and apply educational methods for individuals and groups, with special emphasis on behavior modification, compliance, communication and motivation. Exercises in the research process and evaluation research articles are included. 1 hr. lecture, 2 hrs. lab/wk.

DHYG 221
Clinical Dental Hygiene III (6 CR)
Prerequisites: DHYG 140 and BIOL 235 Corequisites: DHYG 225 and DHYG 230 and DHYG 240
Students will continue development in the areas of patient management, preventive dental hygiene treatment and proficiency in clinical techniques through practical application. Current advances in dental hygiene services will also be introduced. 2 hrs. lecture, 16 hrs. clinic/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $250 to 275.

DHYG 225
Pathology (3 CR)
Prerequisites: DHYG 140 and BIOL 235 Corequisites: DHYG 221 and DHYG 230 and DHYG 240
This course will introduce the students to concepts related to general systemic and oral pathology. General principles of pathology include inflammation, immunity, neoplasia and wound healing. Basic pathological processes of oral conditions, their etiologies and treatments will be discussed. 3 hrs. lecture/wk.

DHYG 230
Dental Therapeutics (3 CR)
Prerequisites: DHYG 140 and BIOL 235 Corequisites: DHYG 221 and DHYG 225 and DHYG 240
This course will introduce the basic principles of drug actions, emphasizing dental-related therapeutics and drugs associated with common systemic disorders, information on the selection of professional products, and principles necessary in administering local anesthesia. 2 hrs. lecture, 2 hrs. lab/wk.
DHYG 240
Community Dental Health (2 CR)
Prerequisites: DHYG 140 and BIOL 235 Corequisites: DHYG 221 and DHYG 225 and DHYG 230
Topics will include public health agencies, statistical procedures for critiquing scientific literature, identifying dental needs of different groups and planning dental health education programs. Preventive techniques, health promotion, consumer advocacy and the role of the dental hygienist in public health will be emphasized. Field experience will be included. 1 hr. lecture, 3 hrs. lab/wk.

DHYG 245
Nitrous Oxide Analgesia (1 CR)
Prerequisite: DHYG 221 Corequisite: DHYG 250
This course will concentrate on the principles of administering and monitoring nitrous oxide analgesia. Upon completion of the course, didactic and clinical proficiency in nitrous oxide analgesia will meet certification standards set by state dental boards. 1 hr. lecture, lab/wk.

DHYG 250
Clinical Dental Hygiene IV (6 CR)
Prerequisite: DHYG 221 Corequisite: DHYG 245
This course will offer continued development of proficiency in clinical techniques and current procedural practices of the dental hygienist with emphasis on self-evaluation. Topics will include ethics, jurisprudence, office management, current dental hygiene issues and preparation for board exams. 2 hrs. lecture, 16 hrs. clinic/wk., 1 hr. board review for first 8 wks.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 125.

Drafting/CAD/AutoCAD (DRAF)

DRAF 120
Introduction to Drafting (2 CR)
This course should be taken by students without prior drafting experience. Upon successful completion of this course, the student should be able to identify and apply the essential, basic skills necessary to proceed through the drafting program, including lettering, measuring, geometric construction, sketching, isometrics, orthographic views, dimensioning and auxiliary view. 1 hr. lecture, 3 hrs. lab/wk. Drafting classes that have additional lab have either the time and room listed or TBA (to be announced) with the room number listed.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $45 to 60.

DRAF 123
Interpreting Machine Drawings (2 CR)
Prerequisite or corequisite: DRAF 120 or approval of the program assistant dean
This course is a required course in the computer-aided drafting and design technology program. Upon successful completion of this course, students should be able to interpret graphics used to fabricate, assemble, maintain and operate the equipment and products of industry. General detail and assembly prints will be evaluated for title block information, general notes, dimensioning, tolerance specification and symbology. Specialized drawings will include cams, gears, numerical control, plastics, sheet metal and instrumentation. 2 hrs. lecture/wk.
DRAF 129

Interpreting Architectural Drawings (2 CR)

This beginning course will explain the fundamentals of interpreting (reading) architectural drawings. Upon successful completion of this course, students should be able to understand plan and elevation views, sections, details, schedules, specifications, symbols and abbreviations found on most residential and commercial construction drawings. 2 hrs./wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $5 to 10.

DRAF 130

Introduction to CAD Concepts - AutoCAD: 2007 (3 CR)

Prerequisite: DRAF 120 or approval of the program assistant dean

This course provides a basic knowledge of AutoCAD. Students will learn to use CAD equipment, including input/output devices and microcomputers as drafting tools. Emphasis will be on a basic understanding of CAD terms and concepts as they are applied in industry. Students will be provided an overview of many of the key features of a major microcomputer CAD package with hands-on experience at a workstation. Basic instruction will be provided on drawing setup, drawing commands, editing commands and screen control. The important concepts of layering, standard symbols and dimensioning will be introduced. 2 hrs. lecture, 3 hrs. lab/wk. Drafting classes that have additional lab have either the time and room listed or TBA (to be announced) with the room number listed.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 15.

DRAF 132

Introduction to AutoCAD LT (3 CR)

This course provides a basic knowledge of computer-aided drafting (CAD). Students will learn basic AutoCAD LT commands and the use of CAD equipment, including input/output devices as drafting tools. The latest version of AutoCAD LT, student version, will be used to cover topics including creating and setting up a drawing, using blocks and wblocks, editing a drawing, saving completed drawings, developing template drawings, printing from paper space, dimensioning, layering, drawing defaults and hatching. This course is for beginning AutoCAD users. 2 hrs. lecture, 3 hrs. lab/wk.

DRAF 135

Graphic Analysis (3 CR)

Prerequisites: DRAF 120 and DRAF 130 or approval of the program assistant dean

This course expands on introductory knowledge in drafting and CAD. Upon successful completion of this course, the student should be able to solve descriptive geometry problems, locate intersections of geometric shapes and produce developments of geometric shapes. Most assignments in this course will be completed using AutoCAD software. 2 hrs. lecture, 3 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 15.

DRAF 140

Topics in CAD I (2 CR)

This course provides training for a specific design application software. Students will learn software commands and terminology. Students will be provided with in-depth coverage of the selected software and be given hands-on experience. Emphasis will be placed on the application of software to industry projects. 2 hrs. lecture, lab/wk.

DRAF 164
Architectural Drafting/Residential Interior Design (3 CR)
Upon completion of this course the student should be able to interpret residential drawings, draft architectural drawings and use industry references. Drawings studied include floor plans, elevations, sections, details and schedules. In addition to lab assignments, students will draft on coldpress board, vellum and plastic film. This course is required in the Interior Design, Interior Entrepreneurship and Interior Merchandising AAS programs. 2 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $140 to 160.

DRAF 222 Mechanical Drafting (3 CR)
Prerequisites: DRAF 123 and DRAF 230 Prerequisite and/or corequisite: MATH 134
Students successfully completing this course should be able to draw details and assembly views of mechanical parts. The types of parts discussed in this class include castings, sheet metal pieces, jigs and fixtures, and gauges. Important concepts include dimensioning, form and position tolerancing, coordinate tolerancing, and calculations related to material allowances and manufacturing. Project assignments will be completed using computer-aided drafting software. This course is typically taught in the fall semester. 2 hrs lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $40.

DRAF 225 Civil Drafting (3 CR)
Prerequisite: DRAF 230 or ENGR 131 Corequisite: MATH 134
Upon successful completion of this course, the student should be able to apply drafting techniques used in civil engineering offices. The student will learn to draw civil engineering plans from surveying and engineering data. The student will be able to produce plan and profile drawings, roadway cross sections, earthwork calculations, topographic maps and property maps. The student will use CAD in drawing projects. This course is typically taught in the spring semester. 2 hrs. lecture, 3 hrs. lab/wk.

DRAF 228 Industrial Design Applications (3 CR)
Prerequisites: CET 211 and DRAF 222 and DRAF 250 and DRAF 252
This course examines industrial systems. Topics include interdisciplinary considerations of manufacturing processes, machine elements, electrical controls and structural design. Systems will include pumping systems or material handling systems. Team project/protocol will be used to develop graphic, ISO and ANSI-approved solutions. Job books and journals for a project are required from all students. This course is typically taught in the spring semester. 2 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $50 to 75.

DRAF 230 Intermediate CAD: AutoCAD (3 CR)
Prerequisite: DRAF 130 or approval of the program assistant dean
This course provides an increased knowledge of autoCAD as it is used in today's industries. Students will build on their CAD experience by learning new commands and techniques that increase system productivity. Special emphasis will be on developing construction techniques and command usage to increase CAD proficiency. Additional study of standard symbols, layers and editing functions will occur. Concepts covered will include dimensioning variables and styles, attributes and external referencing, as well as paper space and model
space, as used in multiple-view drawings. 2 hrs. lecture, 3 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $5 to 10.

DRAF 231
CAD 3-D (3 CR)
Prerequisite: DRAF 230

In this course students will explore the use of computer-aided drafting and design software for the construction of three-dimensional computer models. Emphasis will be on using 3-D software to produce multiple-view drawings. Visualization commands and techniques will be discussed and developed. Topics will include view commands and wire-frame and surface construction, as well as solid modeling. 2 hrs. lecture, 3 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $5 to 10.

DRAF 232
CAD Applications Workstation Environment (2 CR)
Prerequisite: DRAF 230 or approval of the program assistant dean

This course provides instruction for customizing the CAD workstation and handling files in a network environment. Students will receive instruction in software commands and terminology and be provided with in-depth coverage of customizing the CAD environment and managing CAD data files in a production environment. Emphasis will be on hands-on application of the covered topics. 2 hrs. lecture, lab/wk.

DRAF 233
CAD Administration (2 CR)

This course covers topics necessary for an individual to manage a CAD department in a production environment. Topics include managing CAD data, selecting types of equipment/software and establishing drafting policies and procedures. Also discussed are personnel issues for CAD employees/employers. 2 hrs. lecture/wk.

DRAF 238
Architectural Drafting (3 CR)
Prerequisites: DRAF 129 and DRAF 230

This course is an introduction to the production of architectural drawings for residential and commercial construction. Upon successful completion of this course, the student will be able to draw floorplans, sections, elevations, dimensions and schedules and use industry standards. Projects will be completed using CAD software. This course is typically taught in the spring semester. 2 hrs. lecture, 3 hrs. lab/wk.

DRAF 240
Introduction to AutoLISP (2 CR)
Prerequisite: DRAF 230

This course covers techniques for automation of AutoCAD drafting procedures through the use of the AutoLISP programming language. The scope of this course will include basic AutoLISP functions, creation of AutoLISP expressions and program files. It covers basic techniques and concepts needed to begin using AutoLISP effectively. 1 1/2 hrs. lecture, 1 hr. lab/wk.

DRAF 242
Topics in CAD II (2 CR)
Prerequisite: DRAF 230 or approval of the program assistant dean
This course provides training for a specific CAD-related software. Students will learn software commands and terminology. Students will be provided with in-depth coverage of the selected software and be given hands-on experience. Emphasis will be on the application of the selected software to industry projects. 2 hrs. lecture, lab/wk. Drafting classes that have additional lab have either the time and room listed or TBA (to be announced) with the room number listed.

DRAF 243
Architectural Desktop (2 CR)
Prerequisite: DRAF 230 or ENGR 131 or approval of the program assistant dean
This course introduces the student to the Architectural Desktop software used by many architectural and engineering design firms. Topics include software commands, project setup and the design process. Emphasis will be placed on the hands-on application of the software to industrial projects. It is recommended that students have previous architectural design knowledge or have taken DRAF 238, Architectural Drafting. 2 hrs. lecture and lab/wk.

DRAF 244
Land Development Desktop (2 CR)
Prerequisite: DRAF 230 or ENGR 131 or approval of the program assistant dean
This course introduces the student to the Land Development Desktop software used by many land planning, civil engineering and surveying firms. Topics include software commands, project setup and the design process. Emphasis will be placed on the hands-on application of the software to industrial projects. It is recommended that students have previous civil engineering design knowledge or have taken DRAF 225, Civil Drafting. 2 hrs. lecture and lab/wk.

DRAF 245
Mechanical Desktop: Inventor (2 CR)
Prerequisite: DRAF 230 or ENGR 131 or approval of the program assistant dean
This course introduced the student to the Mechanical Desktop software used by many industrial and mechanical design firms. Topics include software commands, project setup and the design process. Emphasis will be placed on the hands-on application of the software to industrial projects. It is recommended that students have previous mechanical engineering design knowledge or have taken DRAF 222, Mechanical Drafting. 2 hrs. lecture and lab/wk.

DRAF 250
Electrical Drafting (3 CR)
Prerequisites: MATH 133 and DRAF 230 or ENGR 131
Upon successful completion of this course, the student should be able to identify drafting techniques applicable to industrial lighting, motor controls, power distribution and generation. Emphasis will be on the use of tables, catalogs and applications software as aids to decision making required on electrical drawings. Project assignments will be completed primarily using CAD. This course is typically taught in the fall semester. 2 hrs. lecture, 3 hrs. lab/wk.

DRAF 252
Structural Drafting (3 CR)
Prerequisite: DRAF 230 or ENGR 131 Corequisite: MATH 134
Upon successful completion of this course, the student should be able to produce
structural drawings and details of steel, concrete and wood structures for manufacturing, construction, engineering and architectural firms. Project work will be done using CAD. This course is typically taught in the spring semester. 2 hrs. lecture, 3 hrs. lab./wk.

DRAF 264
CAD: Interior Design (3 CR)
Prerequisites: ITMD 122 or ITMD 123 and ITMD 129 both with a grade of C or higher, or approval of the program assistant dean or approval of the program assistant dean

This course is an introduction to the use of computer-aided drafting (CAD) as used in the interior design field. Upon successful completion of this course, the student should be able to draw floor plans and elevations of interiors using a computer-aided drafting system. AutoCAD LT software will be used. 2 hrs. lecture, 3 hrs. lab/wk. Drafting classes that have additional lab have either the time and room listed or TBA (to be announced) with the room number listed. Note: Prerequisites ITMD 123 and ITMD 129 require a grade of "C" or higher.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 15.

DRAF 266
Graphic Communications II for Interior Design (3 CR)
Prerequisite: DRAF 261

Upon successful completion of this course, the student should be able to draft three-dimensional representations of interior spaces, furniture, window treatments and decorative accessories. One-point and two-point perspective drawing, isometric drawing and perspective grids are covered. Student will draft in pencil on vellum and ink on mylar. 2 hrs. lecture, 3 hrs. lab/wk.

DRAF 271
Drafting Internship I (3 CR)
Prerequisite: Assistant Dean's Approval

Upon successful completion of this course, the student should be able to apply classroom knowledge to an actual work situation. The internship will provide advanced students the opportunity to develop job- and career-related skills while in a work setting. The work will be developed cooperatively with area employers, college staff and each student to provide a variety of actual job experiences directly related to the student's career goals. 15 hrs. min./wk. Drafting classes that have additional lab have either the time and room listed or TBA (to be announced) with the room number listed.

DRAF 272
Drafting Internship II (3 CR)
Prerequisites: DRAF 271 and assistant dean’s approval

Upon successful completion of this course, the student should be able to apply classroom knowledge to an actual work situation. The internship will provide advanced students the opportunity to develop job- and career-related skills while in a work setting. The work will be developed cooperatively with area employers, college staff and each student to provide a variety of actual job experiences directly related to the student's career goals. 15 hrs. min./wk. Drafting classes that have additional lab have either the time and room listed or TBA (to be announced) with the room number listed.

Economics (ECON)
ECON 132
Survey of Economics (3 CR)
Upon successful completion of this course, the student should be able to explain basic macroeconomic and microeconomic theory, fiscal and monetary policies, the role and significance of international economics and government trade and regulatory policies. In addition, the student should be able to describe the characteristics and consequences of the differing business units in the economy, as well as the functioning of the labor market and how national income is distributed. The course is primarily for students who desire a one-semester, nontechnical overview of the basic components of macroeconomic and microeconomic theory and the functioning of the United States economy. 3 hrs. lecture/wk.

ECON 230
Economics I (3 CR)
Upon successful completion of this course, the student should be able to use economic terminology and principles to explain and discuss basic macroeconomic concepts, including supply of and demand for products, national income determination, money and banking, and monetary and fiscal policy. The student enrolling in this course should have successfully completed one year of high school algebra or the equivalent. (Macro) 3 hrs./wk.

ECON 231
Economics II (3 CR)
Upon successful completion of this course, the student should be able to use economic terminology and principles to explain and discuss basic microeconomic concepts, including extended analysis of product supply and demand and theory of the firm and product and resource market structures. Students enrolling in this course should have successfully completed one year of high school algebra or the equivalent. (Micro) 3 hrs./wk.

Education and Early Childhood (EDUC)

EDUC 121
Introduction to Teaching (3 CR)
Note: For possible future elementary/secondary educators
Teaching concepts and practices as they apply to today's elementary and secondary schools will be introduced. Topics will include the roles and responsibilities of the teacher, various modes of instruction, specialized areas in teaching, and professional requirements and concerns. Twenty hours of observation in a school setting are required. 3 hrs./wk.

EDUC 130
Foundations of Early Childhood Education (3 CR)
This introductory survey course is designed to provide students with current information on topics relevant to employment in early childhood programs. The course explores the historical and philosophical roots of early childhood education, general principles in child development, the teacher's role, values and ethics in early childhood education, curriculum design, and classroom management. Twenty hours of observation in a group childcare setting are required. 3 hrs. lecture/wk.

EDUC 131
Early Childhood Curriculum I (3 CR)
Prerequisite or corequisite: EDUC 130

This methods course is designed for students who are, or will be, working in an early childhood education setting and parents or others who desire to develop an intellectually challenging environment for young children. The focus of the course is curriculum areas that deal with language and physical development. 3 hrs. lecture/wk.

EDUC 205
Concepts in Early Childhood Education (3 CR)
Prerequisite or corequisite: EDUC 130 for certificate only

This course will provide early childhood care and education professionals, and those aspiring to the profession, with the opportunity to apply early childhood education experience and continuing professional education to college credit. Students will gain and apply knowledge in many aspects of teaching young children in child-care and educational settings. The student will spend seven hours a week (105 clock hours total) in a supervised practical experience at the Hiersteiner Child Developments Center at JCCC and will complete 1.5 CEUs in early childhood education. Credit for prior experience may be substituted for completing this course. The program facilitator must assess the documents (i.e., CDA) provided by the student and/or arrange and evaluate the practical experience before offering credit for this course. Completion of an application for this credit is required and may be obtained from the program facilitator. For certificate only. 3 hrs. lecture/wk.

EDUC 210
Creative Experiences for Young Children (3 CR)
Prerequisite: EDUC 130 and one of the following: PSYC 215 or PSYC 218 or EDUC 270

This course is a study of constructing and maintaining an environment for young children that fosters aesthetic sensitivity and creativity. The course includes the young child's developmental stages in art, music, movement, language, and creative and dramatic play; methods and materials that nourish developmentally appropriate creative experiences and support an inclusive, anti-bias curriculum; integration of creative experiences in the whole curriculum; the use of technology; and helping families understand the creative experience. 3 hrs. lecture/wk.

EDUC 215
Young Children with Special Needs (3 CR)

This course is a study of creating and maintaining a developmentally appropriate inclusive environment for young children with special needs. The course includes the history of education and care for young children with special needs, federal and state legislation, types of differing abilities, developmental stages and capabilities of all young children, an inclusive approach to early education, and curriculum development for young children with special needs. Health, safety and nutrition; screening and assessment; interaction techniques; the role of the educator specific to the child's special needs; partnering with the family, other disciplines and community; and advocating for children are presented. The laboratory will include demonstration of the subject matter. 2 hrs. lecture, 3 hrs. lab/wk.

EDUC 220
Survey of the Exceptional Child (3 CR)

This course is an overview of the field of special education geared to those who are preparing to work with students with special needs. The course provides fundamental information on the identification and exceptionality, laws and legal cases affecting the delivery of services to individuals with exceptionalities and the principles of effective educational approaches for each exceptionality. Categories of exceptionality presented include learning disabilities, mental retardation,
behavior disorders, gifted and talented, communication disorders, autism, traumatic brain injury, physical disabilities, sensory impairments, other health impairments and multiple and severe disabilities. 3 hrs./ wk.

EDUC 225
Infant and Toddler Education and Care (3 CR)
Prerequisite: EDUC 130
This course is a study of creating and maintaining a developmentally appropriate environment for infants and toddlers. The course will include the history of education and care, theories of child development, developmental stages and capabilities of the very young child, and curriculum development for infants and toddlers. Health, safety and nutrition; assessment; interaction techniques; the role of the educator specific to the needs of the infant and toddler; partnering with family and community; and advocating for the very young are presented. The laboratory will include demonstration of the subject matter. 2 hrs. lecture, 3 hrs. lab/wk.

EDUC 231
Early Childhood Curriculum II (3 CR)
Prerequisite: EDUC 131
This methods course is designed for students who are, or will be, working in an early childhood education setting and parents or others who desire to develop an intellectually challenging environment for young children. The focus of the course is on curriculum areas that deal with the physical and social aspects of the world. Included in this inquiry curriculum are mathematics, science, social studies and nutrition. 3 hrs. lecture/wk.

EDUC 235
Parenting (2 CR)
Prerequisite or corequisite: PSYC 215 or PSYC 218 or EDUC 270
This course is a study of effective parenting. The course is designed for teachers of young children and parents and guardians who desire to provide an environment that reflects sensitivity to the unique needs of the individual child and family. Topics covered during the course are the history of child-rearing methods, an overview of child development, types of families, parent/guardian fears and concerns, purposes of child behavior, and effective communication techniques. Problem prevention and resolution, nurturing self-esteem in children and building effective, collaborative relationships between teachers and families are also covered. 2 hrs. lecture/wk.

EDUC 240
School-Age Programs and Curriculum I (3 CR)
Prerequisite: EDUC 130
This methods course is designed for students who are, or will be, working in an early childhood education setting and parents and caregivers who desire to develop an intellectually challenging environment for school age children. The focus of the course is on curriculum areas for the school-aged child and extended day and summer programs. 3 hrs. lecture/wk.

EDUC 243
Issues and Skills for Paraeducators (3 CR)
Students will be explore the issues, skills and challenges specific to working as a paraeducator. In particular, students will be introduced to the issues relating to the inclusion of students with special needs into the mainstream educational environment. Students will review and practice those skills necessary to being an
effective member of an instructional team, including collaboration, problem solving, decision making, team building and parent outreach. 3 hrs./wk.

EDUC 245
School-Age Programs and Curriculum II (3 CR)
Prerequisite: EDUC 240
The student will study the creation and maintenance of a developmentally appropriate environment for school-age children in extended school day and summer programs. The student will acquire the skills and characteristics of effective educators. The student will explore types of programs and how to plan, implement and evaluate these programs. Also, staff supervision and development, record keeping, relevant state regulations and laws will be discussed. Collaboration with family and community, public relations and contributing to the profession will be studied. The lab will include demonstration of the subject matter. 2 hrs. lecture, 1 hrs. lab/wk.

EDUC 246
Multicultural Issues in Education (2 CR)
In this course students will explore the changing demographics of students in public schools. The course will also explore the ways in which a student's culture can affect the student's learning style, communication skill and behavior. The course will also describe strategies that take into account cultural differences, values and child-rearing practices when educators seek to create a safe and accepting environment for all students. 2 hrs. lecture/wk.

EDUC 250
Child Health, Safety and Nutrition (3 CR)
This course is a study of the basic health, nutrition and safety management practices for young children. Information on establishing and maintaining a physically and psychologically safe and healthy learning environment appropriate for the needs of young children will be included. The interrelation of health, safety and nutrition is stressed, with emphasis on appraisal procedures, prevention and protection, services and educational experiences for young children and their families. 3 hrs. lecture/wk.

EDUC 260
Observing and Interacting with Young Children (3 CR)
Prerequisite: EDUC 130 and Prerequisite or corequisite: PSYC 215 or PSYC 218 or EDUC 270
This course is a study of the role of observation to assess and monitor the development and learning of children, birth through age 8, and the appropriate techniques for interacting with young children, considering their individual differences. Included will be the purposes and types of observation procedures, interpretation and use of findings, reporting techniques, and legal and ethical responsibilities. Expected age-related child behavior, fundamental principles of and theoretical approaches to child guidance, guidance techniques, working with families, and issues of diversity are presented. The laboratory will include demonstration of the subject matter. 2 hrs. lecture, 3 hrs. lab/wk.

EDUC 270
Early Childhood Development (3 CR)
This course is a comprehensive account of human development from conception through age 8. The course integrates genetic, biological, physical and social influences with psychological processes affecting the development of young children. 3 hrs. lecture/wk.
EDUC 280  
Administration of Early Childhood Program (3 CR)  
This course is a study of the organization and administration of early childhood programs. The topics include the skills and characteristics of effective administrators: types of programs; planning, implementing and evaluating programs; policy development; staff supervision and development; finances and budget; record keeping; relevant state regulations and laws; developing, equipping and maintaining a facility; organizing a developmentally appropriate environment; collaboration with family and community; public relations; and contributing to the profession. The lab will include demonstration of the subject matter. 2 hrs. lecture, 3 hrs. lab/wk.

EDUC 283  
Prof. Competencies: Early Childhood Education (1 CR)  
Prerequisite: Program Facilitator Approval  
This course focuses on the conduct and responsibilities of the early childhood professional. Topics include early childhood education codes, laws and regulations; child development; experience planning and curriculum development; observation and guidance of young children; authentic assessment; responsibilities to the young child's family, to the community, and to the teaching profession; employability skills; self-assessment; and job seeking skills. Completion of this course is required to obtain the One Year Post-Secondary Certificate in Early Childhood Education. 1hr. lecture/wk.

EDUC 284  
Seminar: Early Childhood Education (3 CR)  
Prerequisite: Program Facilitator Approval Corequisite: EDUC 285  
The course will focus on conduct and responsibilities of the intern; early childhood codes, laws and regulations; child development; activity planning and curriculum development; observation and guidance of young children; authentic assessment; responsibilities to the young child's family and community and to the teaching profession; employability skills; self-assessment; and job-seeking skills. The student's practical application of information in the internship will be discussed, and a portfolio will be developed. 3 hrs. lecture/wk.

EDUC 285  
Student Teaching: Early Childhood Education (3 CR)  
Prerequisite: Program Facilitator Approval Corequisite: EDUC 284  
This supervised field experience in early childhood education is designed for students to apply their knowledge of teaching young children. The student will be participating in curriculum design and presentation; observing and interacting with young children; providing for the health, safety and nutrition of young children; managing the program setting; and working with families and the community. A self-assessment and a professional development plan are completed. The student will spend 20 hours a week (320 clock hours total) in at least two different early childhood settings, serving children of two different ages.

EDUC 290  
Leadership in Early Childhood Education (3 CR)  
Prerequisite: Program Facilitator Approval  
The student will study how early childhood education program directors lead programs and create quality environments for children, families and staff. The leadership topics include: leadership styles; developing mission statements, program philosophies, procedures, manuals and handbooks; assessing and planning for program improvements; recruiting and retaining qualified early childhood teachers; creating professional growth opportunities; developing effective staff meetings; implementing a shared decision making process; utilizing
conflict resolution strategies; and developing partnerships with families and community agencies. 3 hrs. lecture/wk.

**Electrical Technology (ELTE)**

**ELTE 122**  
**National Electrical Code I (4 CR)**  
This is an introductory course on the use and interpretation of the current National Electrical Code. Students should develop a working knowledge of the code that will permit them to apply it to everyday applications. Upon successful completion of this course, the student should be able to use the code to design service entrances, feeders and branch circuits and discern between wiring methods used in different occupancies. 4 hrs. lecture /wk.

**ELTE 123**  
**Electromechanical Systems (4 CR)**  
Upon successful completion of this course, the student should be able to identify electrical components and their relationships to the various repair and troubleshooting techniques. The materials in this course will prove useful to service technicians whose background in electricity is limited. The course includes material from basic electrical theory to troubleshooting complex electrical circuits. This course will provide practice in the application of electrical theory as well as in the interconnection of components of heating and cooling systems. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. This is a beginning course in electrical theory that is required for HVAC, electrical and power plant technology but is appropriate for all interested students. Common components found in the HVAC industry are used to develop these skills. 3 hrs. lecture, 3 hrs. lab/wk.

**ELTE 125**  
**Residential Wiring Methods (4 CR)**  
*Prerequisite or corequisite: HVAC 123 or ELTE 123*  
This is an introductory course on residential wiring methods that includes practical application and hands-on experience in implementing the code requirements. Upon successful completion of this course, the student should acquire the necessary skills to wire a residence to meet the minimum requirements as set forth in the current National Electrical Code for residential occupancies. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 3 hrs. lecture, 3 hrs. lab/wk.  
**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $125 to 300.

**ELTE 200**  
**Commercial Wiring Methods (4 CR)**  
*Prerequisite or corequisite: HVAC 123 or ELTE 123*  
This course covers commercial wiring methods. Upon successful completion of this course, the student should be able to read commercial blueprints and apply the current National Electrical Code to commercial wiring systems. The student will gain working knowledge and hands-on experience with commercial wiring techniques. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 3 hrs. lecture, 3 hrs. lab/wk.  
**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $125 to 300.
ELTE 205
Industrial Electrical Wiring (4 CR)
Prerequisite: ELTE 122 or ELTE 125 or ELTE 200
This advanced course covers industrial wiring methods. Upon successful completion of this course, the student should be able to read industrial blueprints and apply the current National Electrical Code to industrial wiring systems. The student will gain working knowledge and hands-on experience with industrial wiring techniques. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 3 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $125 to 300.

ELTE 210
Code Certification Review (3 CR)
Prerequisite: ELTE 122
Upon successful completion of this course, the student should be able to use the current National Electrical Code to do calculations involving loads, lighting and circuit sizing. The course will cover typical load calculations used in both residential and commercial settings. 3 hrs. lecture/wk.

ELTE 215
Generators, Transformers and Motors (4 CR)
Prerequisite: ELTE 123 and one of the following: ELTE 122 or ELTE 125 or ELTE 200 or equivalent experience and division administrator's approval
This is an advanced course on the use of generators, transformers and motors. Upon successful completion of this course, the student should be able to interpret and apply the rules of the current National Electrical Code to wiring systems composed of these electrical components. Also, the student will gain a working knowledge of the theory of these single-phase and 3-phase electrical components and their practical applications in everyday use in the electrical industry. 4 hrs. lecture/wk.

ELTE 271
Electrical Internship I (3 CR)
Prerequisite: program facilitator approval
Upon successful completion of this course, the student should be able to apply classroom knowledge to an actual work situation. The internship will provide advanced students with on-the-job experience under the supervision of professionals in the industry. The work will be developed cooperatively with area employers, college staff and each student to provide a variety of actual job experiences directly related to the student's career goals. 1 hr. lecture, minimum 15 hrs. on-the-job training/wk.

Electronics (ELEC)

ELEC 120
Introduction to Electronics (3 CR)
This is a beginning course in electronics technology that is appropriate for both electronic majors and other interested students. An overview of basic electronic theory, principles and components is presented. In addition, the laboratory exercises will emphasize the operation and use of the primary pieces of electronic test equipment and the fabrication of selected circuits. 2 hrs. lecture, 2 hrs. lab-lecture, 2 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $10 to 20.

ELEC 122
Circuit Analysis I (3 CR)
Prerequisites: ELEC 120 and MATH 133 or MATH 172
This course covers resistive circuits having DC sources. Analysis topics include Ohm's law, Kirchoff's law, the superposition theorem, Thevenin's theorem and Norton's theorem. The current, voltage and resistance relationships in series, parallel and combination circuits will be studied. 3 hrs. lecture/wk.

ELEC 123
Smart House Technology (3 CR)
This course is a general introduction to the rapidly growing field of home technology and its integration and use. Lectures, demonstrations and lab work will be used to teach the types of home technology being sold and installed. This course is designed to assist new users to implement this technology in their own homes and as an introduction for students wanting to proceed further into the field as contractors or installers. 3 hrs. lecture/wk.

ELEC 125
Digital Electronics I (4 CR)
This is a beginning course in which students will study and practice the basic concepts of digital electronics. Topics will include digital number systems, logic gates, logic circuits, flip-flops, digital arithmetic, counters and registers. 3 hrs. lecture, 3 hrs. lab/wk.

ELEC 126
Microcomputer A+ Preparation (4 CR)
This course is designed to be a general introduction to personal computer hardware and operating system software. The course teaches the operation, installation and upgrade of all the major components of a typical PC. The course also provides the basic knowledge to prepare the student for passing the A+ test, which is the industry standard certification for personal computer technicians. Since A+ Certification is based upon the Windows Operating System and Intel/AMD-type microprocessors, these will be the basis of the course. The course will cover both of the A+ Certification testing areas: PC Hardware (Core Test) and Operating Systems (OS Test). 3 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $5 to 10.

ELEC 127
Robots for Humans (4 CR)
This course is a general introduction to the rapidly growing field of robotics. The class will use lectures, demonstrations and lab work to teach the basics of robotics. This course is designed to assist new users in making use of this technology in their own lives and as an introduction for students wanting to proceed further into the field. 3 hrs lecture, 2 hrs open lab/wk.

ELEC 130
Electronic Devices I (4 CR)
Prerequisite or corequisite: ELEC 140
This is the first course in electronic devices. Topics include diodes and transistors, special purpose diodes and diode application circuits. Both bipolar junction transistors (BJTs) and field effect transistors (FETs) are examined and application circuits for both transistor types are constructed. 3 hrs. lecture, 3 hrs. lab/wk.
ELEC 131
Introduction to Sensors and Actuators (3 CR)
This course examines types and uses of industrial sensors and actuators. Topics include temperature, pressure, optical, position and flow sensors. Operation of AC and DC motor drives will also be covered. The course will also include wiring and troubleshooting of sensors and actuators. Lecture topics will be supported by hands-on lab projects. 2 hrs. lecture, 3 hrs. lab/wk.

ELEC 133
Programmable Controllers (3 CR)
This is an introductory course in programmable logic controllers. The course is designed for individuals without extensive electrical or controller backgrounds. Hardware aspects and programming aspects of controller operation are covered. The foundational controller logic symbols and controller logic operations necessary to interpret and write ladder logic programs are taught in this class. Students will enter, edit and test controller programs through assigned laboratory projects. 2 hrs. lecture, 3 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $5 to 10.

ELEC 140
Circuit Analysis II (3 CR)
Prerequisites: ELEC 122 and MATH 134 or MATH 172 or MATH 173
The analysis techniques presented in Circuit Analysis I will be applied to complex circuits driven by AC and pulsed sources. The responses of circuits having resistance, inductance and capacitance will be analyzed. Other topics include transformers and electrical filters. 3 hrs. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $5 to 30.

ELEC 150
Introduction to Telecommunications (3 CR)
This is an introductory-level course in telecommunications principles that includes both voice and data communications. An examination of the communications industry and its regulatory environment will be provided. Topics include voiceband communications, digital transmission, switching and signaling, and emerging technologies. 3 hrs. lecture/wk.

ELEC 165
Advanced Programmable Controllers (3 CR)
Prerequisite: ELEC 133
This course is a continuation of ELEC 133. Principle topics include sequences, file and block transfers, analog control and PID functions. In addition, methods of networking of PLCs and advanced user interfaces will be covered. Lecture topics will be supported by laboratory projects. 2 hrs. lecture, 3 hrs. lab/wk.

ELEC 175
Telecommunications (3 CR)
Prerequisite or corequisite: ELEC 130
This course studies hardware and software functions of telecommunication systems. Topics include both voice and data aspects of telecommunication systems, including terminology, interfaces, protocols, transmission media, networks and networking technologies. 2 hrs. lecture, 3 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 TO 30.
ELEC 185
LAN Cabling and Installation (3 CR)
This course is designed to provide specialized skills for installing and testing local area network cabling and wireless installation. Twisted-pair, coax and fiber cables will be introduced and contrasted based on their characteristics and applications. Laboratory exercises for terminating and testing network cables and installing wireless systems will accompany the lectures. Students will be trained how to use common wiring tools and testing instruments. Methods of documenting LAN systems will also be introduced. 2 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

ELEC 195
Introduction to Wireless LANs (3 CR)
This course will introduce the student to the subject of wireless local area networks. The course will cover the types of equipment and their uses, correct configuration of equipment, types of security methods used, how to determine the physical lay-out of the access points and other equipment and procedures that can be used to administrate the network. 3 hrs. lecture, 2 hrs lab./wk.

ELEC 225
Digital Electronics II (3 CR)
Prerequisite: ELEC 125
Students will continue their study of digital concepts and will learn how to build digital circuitry using digital integrated circuit chips and basic concepts of computer organization. In additional, emphasis will be placed on learning how to troubleshoot digital circuits and digital systems. Each student will build a digital computer through a series of laboratory projects. 2 hrs. lecture, 3 hrs. lab/wk.

ELEC 230
Electronic Devices II (3 CR)
Prerequisite: ELEC 130
This class is a continuation of the electronic devices sequence. Topics include operational amplifiers, thyristors and voltage regulators. Operational amplifier applications include comparators, summing amplifiers, integrators, differentiators and active filters. 2 hrs. lecture, 3 hrs. lab/wk.

ELEC 240
Electronic Communication Systems (4 CR)
Prerequisite or corequisite: ELEC 230
This course provides a study of electronic communication systems. Topics include the electromagnetic spectrum, decibels, noise, amplitude modulation, antennas, transmission lines and the global positioning satellite system. 3 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 30.

ELEC 245
Microprocessors (3 CR)
Prerequisite: ELEC 225
This course provides students with a basic knowledge of microprocessors and how microprocessors interface with other devices to create microcomputer systems. Students will learn how to write assembly language and machine language programs for a microprocessor as well as how to interface memory, input devices and output devices to a microprocessor. Additionally, emphasis will be placed on learning how to troubleshoot microprocessor-based systems. 2 hrs.
ELEC 250
Microcomputer Maintenance (3 CR)
Prerequisite: ELEC 126
This course is a continuation of the study of personal computers and will further the student’s ability to maintain and repair them. In addition, this course will assist the student in preparing for computer-maintenance certification. Topics will include interaction of hardware and operating systems, resource conflicts, networking capabilities, common hardware and software problems, hardware differences of portable computers, and upgrading computers. The course topics will be supported by laboratory projects. 2 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $5 to 10.

ELEC 271
Electronics Internship I (1 CR)
Prerequisite: assistant dean’s approval
This course affords the student the opportunity to apply classroom knowledge to an actual work environment. It will provide selected advanced electronics technology students with appropriate on-the-job experience with area employers, under instructional oversight, that will promote the student’s career goals. 18 hrs. approved and appropriate work activity/wk.

ELEC 272
Electronics Internship II (1 CR)
Prerequisites: ELEC 271 and approval of the program assistant dean
This course is a continuation of ELEC 271. It affords the student the opportunity to apply classroom knowledge to an actual work environment. It will provide selected advanced electronics technology students with appropriate on-the-job experience with area employers, under instructional oversight, that will promote the student’s career goals. 18 hrs. of approved and appropriate work activity/wk.

Emergency Medical Science/MICT (EMS)

EMS 121
CPR I - Basic Life Support for Healthcare Provider (1 CR)
This course provides an overview of the cardiovascular and respiratory systems, a discussion of medical and environmental emergencies leading to the need for CPR, and an introduction to diagnostic signs and triage, as well as insight into the structure and function of the emergency medical services system. The most current practical CPR skills will be taught, including CPR, AED, and airway obstruction techniques for adults, children and infants. Upon successful completion of all American Heart Association standards, the student will receive affirmation at the Healthcare Provider level. 4 hrs. lecture, lab/wk. for 5 wks.

EMS 125
CPR II-Basic CPR Instructor (1 CR)
Prerequisite: Successful completion of EMS 121 and/or current certification by AHA as Basic Rescuer
This class will include a review and affirmation of Basic Rescuer techniques, practice in the design and implementation of CPR courses, demonstration of manikin maintenance and decontamination procedures, and mini-lectures. Upon successful completion of this class, students will be eligible for affirmation by the
American Heart Association as a BLS instructor. Each participant must teach or co-teach a CPR class while being monitored by an AHA faculty member before the instructor affirmation card will be issued. 2.5 hrs. lecture, lab/wk. for 8 wks. (average).

EMS 128
EMS First Responder (5 CR)
This course is designed to provide training in emergency medical care for those who are apt to be the first persons responding to an emergency incident. Fire, police, civil defense personnel, school bus drivers, day-care providers, utility workers and industrial workers are a few examples of those persons who would benefit from this training. The student will receive both didactic and psychomotor skills training in CPR, patient assessment, fracture management, airway management and trauma management. Successful completion of this course will enable the student to sit for the First Responder certification exam administered by the Kansas Board of Emergency Medical Services. 6 hrs. lecture, 6.5 hrs. lab/wk. for 8 wks. (average).

EMS 130
Emergency Medical Technician (9 CR)
Prerequisite: EMS 128 or equivalent, or be an active member in a health-related occupation (firefighter, rescue, ambulance, law enforcement, industrial first-aid personnel or other health-related field), or attained the minimum of an associate's degree
This program is designed for individuals interested in providing medical care to patients in the pre-hospital setting. It will provide the participants with opportunities to gain information, skills and attitudes necessary for certification and practice as an emergency medical technician (EMT) in the state of Kansas. This program has been approved by the Kansas Board of Emergency Medical Services (BEMS). It addresses information and techniques currently considered the responsibility of the EMT according to the United States Department of Transportation, National Standard Curriculum. The program consists of didactic instruction, practical skill training and clinical experience. Students are also required to attend Saturday session(s) as necessary. Saturday dates and times will be announced during the first class session. Classroom instruction includes anatomy, physiology, recognition and care of medical emergencies, and trauma-related injuries. CPR, bandaging, splinting, childbirth techniques and airway management are among the skills taught. An extrication session will give students hands-on experience with automobile accident situations. Upon instructor recommendation, students will participate in clinical and field observation. All transportation to and from off-campus sites is the responsibility of the student. Students completing this course with a minimum grade of "C" will be allowed to sit for the Kansas EMT State Certification Examination administered by the BEMS. 7 hrs. lecture, 5 hrs. lab/wk. (average)

EMS 133
Emergency Medical Technician Practicum (3 CR)
Prerequisite: EMS 130 or equivalent and a copy of current EMT-B card
EMT Practicum is designed to give the newly certified EMT-B the additional skills and confidence needed to successfully compete for a position as an EMT-B with an EMS service. Skills will include ambulance operation, driving, map reading, insurance billing and unit maintenance. This course will also provide high-fidelity scenario training in all aspects of the EMS call as well as extensive field lab time with a local EMS service. Students will participate in realistic medical emergency scenarios with "actors" playing life-like patients and bystanders as well as numerous field internship shifts on a licensed ambulance. Students will work through all phases of an ambulance call. They will be presented with complex patient care situations that require the development of critical thinking and decision-making skills. Students will be tested on their ability to lead a team of pre-hospital caregivers in the diagnosis, proper treatment and evacuation of a patient. Scenario simulations will be set up to be as life-like as possible. 2 hrs.
EMS 140
Basic Cardiology and EKG Recognition (3 CR)
Prerequisites: Prospective students should be certified in a health profession, i.e., EMT, RN, LPN, EMT-P. Permission of the assistant dean is required.

The health care worker with an understanding of ECG tracing will function more effectively when providing care for the cardiac patient. Increasing numbers of professionals are being called upon to utilize ECG tracing in their work settings, but without adequate knowledge of its use. This course will serve as both continuing education and the preparation for the job entry and/or job advancement. During the course, students will learn to apply monitoring and 12-lead electrodes, diagnose ECG dysrythmias and infarct locations, treat ECG Dysrhythmias, and defibrillate ventricular fibrillation. 3 hrs. lecture/wk.

EMS 203
KS EMT - Intermediate/Defibrillator (11 CR)
Prerequisites: EMT-B and additional prerequisite and/or documentation requirements. See assistant dean for details.

This course will cover selected advanced emergency medical care concepts and practices. This intermediate-level course advances the basic emergency medical technician's knowledge and skills in patient assessment, airway management, intravenous cannulation and manual defibrillation. The KS EMT-I/D's knowledge and skills are intermediate between the EMT-Basic and the EMT-Paramedic. Upon successful completion of this course, the student will be able to utilize the assessment findings to formulate a field impression and implement the treatment plan for the patient suffering a medical or trauma emergency. As the KS-EMT-I/D demonstrates cognitive and motor skill competency in the classroom and skills laboratory, his or her training will proceed to the clinical and field environments, where the knowledge, skills and attitudes necessary for professional practice will be practiced, synthesized and perfected. 7 hrs. lecture, 5 hrs. lab, 10 hrs. clinical/field experience/wk.

EMS 206
Training Officer I (1 CR)
Prerequisite: Kansas Board of EMS certification at the Emergency Medical Technician - Basic (EMT-B) level or above and approval of the course instructor

This course is a requirement for the Kansas Board of Emergency Medical Services (KSBEMS) certification as a Training Officer (TO). The course is intended to prepare the student to plan, implement, coordinate, teach and evaluate continuing education programs. The course is a prerequisite for Training Officer II. 15 hrs. lecture, 5 hrs. lab total.

EMS 207
Training Officer II (2 CR)
Prerequisite: Kansas Board of Emergency Medical Services certification at the provider level the student wishes to teach, completion of EMS 206 Training Officer I and approval of the course instructor

This course is a requirement for the Kansas Board of Emergency Medical Services (KSBEMS) certification as a Training Officer (TP). The course is intended to prepare the student to plan, implement, coordinate, teach and evaluate continuing education programs. As a TOII a student will also be qualified to plan, implement, coordinate, teach and evaluate Initial Instruction Programs for the First Responder level of certification in Kansas. 33 hrs. lecture, 7 hrs. lab total.
EMS 210
Emergency Medical Services Instructor Coordinator (5 CR)

Prerequisites: Prospective students must meet all the requirements for selection as set forth by the Kansas Board of Emergency Medical Services, which includes certification as a care provider, documentation of pre-hospital experience and successful completion of the BEMS pre-selection process.

This course covers the basic tenets of adult education as they apply to teaching emergency medical services provider courses. Students are oriented to all Kansas requirements for conducting initial courses of instruction for ambulance attendants. Successful completion will be the first step toward certification as a Kansas EMS instructor coordinator. This program has been approved by the Kansas Board of Emergency Medical Services (BEMS). It addresses information and techniques currently considered the responsibility of the EMT-IC according to the United States Department of Transportation, National Standard Curriculum. 5 hrs. lecture-demonstration/wk. for 8 wks.

EMS 220
MICT I (10 CR)

Prerequisite: Admission to the MICT program

MICT I is the first of four courses in advanced out-of-hospital emergency medical care leading to the opportunity to sit for the National Registry Examination for Paramedics. In this narrowly focused but intense foundational course, the paramedic student will gain a significant knowledge of patient assessment, pharmacology and medication administration techniques, electrocardiography, advanced airway management, and paramedic scope of practice. Much material will be covered rapidly, and emphasis is on organization, internalization and synthesis of the basic knowledge of the discipline in this 9-week course. Additionally, during the initial psychomotor teaching labs, students will gain the ability to assess patients, administer medications, treat dysrhythmias and manage the airway through manikin practice. 24 hrs. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $700 to 1,000.

EMS 225
MICT II (10 CR)

Prerequisite: EMS 220 with a minimum grade of "C"

MICT II is the second of four courses in advanced out-of-hospital emergency medical care leading to the opportunity to sit for the National Registry Examination for Paramedics. This course builds on the foundational knowledge developed in MICT I and covers advanced management of medical and trauma emergencies in the out-of-hospital environment. Much material will be covered rapidly, and emphasis is on organization, internalization, synthesis and application of the basic knowledge of the discipline in this 9-week course. Students demonstrate competency at motor skill performance, and extensive simulation practice is afforded. Students begin field observation with a paramedic ambulance crew and complete an Advanced Cardiac Life Support Course. 24 hrs. avg. lecture/wk., 12 hrs. lab/field observation avg./wk.

EMS 230
MICT III Clinicals (12 CR)

Prerequisite: EMS 225 with a minimum grade of "C"

MICT III is the third of four courses in advanced out-of-hospital emergency medical care leading to the opportunity to sit for the National Registry Examination for Paramedics. During MICT III, paramedic students have the opportunity to take the knowledge and skills gained in MICT I and II and apply them in actual supervised clinical practice. MICT III represents a brief, intense 14-week course in which knowledge and skills are synthesized and applied to patients under supervision of physicians and nurses in clinical practice in the emergency department, critical care unit, surgery/recovery room, labor/delivery room, pediatric emergency department and burn center. Field observation lab and
classroom and laboratory review are included as well. 4 hrs. lecture avg./wk., 44 hrs. clinical/lab/field avg./wk.

EMS 271
MICT IV Field Internship (15 CR)
Prerequisite: EMS 230 with a minimum grade of "C"

MICT IV is the final of four courses in advanced out-of-hospital emergency medical care leading to the opportunity to sit for the National Registry Examination for Paramedics. During MICT IV, paramedic students have the opportunity to take the knowledge and skills gained in MICT I, II and III and apply them in an actual practice environment. MICT IV represents an intense 4-month course in which knowledge, skills and professional behaviors are synthesized and applied to victims of sudden trauma or medical emergencies under supervision of paramedic preceptors at the emergency scene and in the ambulance. Entry-level competence into the profession is demonstrated as the student demonstrates the ability to assess the scene and the patient, develop a plan for therapeutic intervention as well as scene management, and effectively lead the out-of-hospital resuscitation team's effort. Classroom and laboratory review are included. 4 hrs. lecture avg./wk., 56 hrs. clinical/lab/field avg./wk.

Engineering (ENGR)

ENGR 121
Engineering Orientation (2 CR)
Upon successful completion of this course, the student should be able to describe careers in engineering and use fundamental concepts in engineering problem solving. Topics include engineering disciplines, aptitude and academic requirements, professional responsibilities, problem definition and solution, engineering design, and terminology. Students will meet professional engineers during field trips to engineering companies and work sites. The primary intent of this course is to introduce students to the engineering problem-solving process and to help each student make the best career decision. 2 hrs. lecture/wk.

ENGR 131
Engineering Graphics I (4 CR)
Corequisite: MATH 133 or MATH 171 or MATH 172 or MATH 173 or MATH 241
Upon successful completion of this course, the student will be able to apply graphic principles used in the engineering design process. The student will master graphics concepts using computer-aided drafting (CAD) software. Topics include 2-D and 3-D CAD commands; geometric construction; multi-view, orthographic projection; sectional views; isometrics; dimensioning; and descriptive geometry. 3 hrs. lecture, 4 hrs. lab/wk.

ENGR 171
Programming for Engineering and Science (3 CR)
Prerequisite: MATH 171
At the completion of this course, the student should be able to design algorithms for the solution of engineering and science problems using pseudocoding and flowcharting techniques; code the solution in the FORTRAN programming language; and compile, test and debug the program. Programming concepts covered will include data input from the keyboard and data files, formatted output, sequence, selection and iteration structures, function and subroutine subprograms and array processing. Proficiency with conversions and math in the decimal, binary and hexadecimal numbering systems will also be attained. This is a beginning course that will prepare students for more advanced studies in engineering and science computer applications. 2 hrs. lecture, 2 hrs. lab/wk.
ENGR 180  
**Engineering Land Surveying I (3 CR)**  
*Corequisite: MATH 134 or MATH 172*  
Upon successful completion of this course, the student should be able to identify the basic applications of plane surveying procedures; measurement of horizontal distances, directions, angles, leveling, traversing, curves and stadia coordinates; computations with the aid of a computer; and topographical property and construction surveying. Students will take part in field operations using equipment such as auto levels, theodolites, EDM and total station. 2 hrs. lecture, 3 hrs. lab/wk.

ENGR 251  
**Statics (3 CR)**  
*Prerequisite: MATH 242 Corequisite: PHYS 220*  
Upon successful completion of this course, the student should be able to describe and predict the conditions of rest and motion of bodies under the action of forces. The principles used will include vectors, force systems, equilibrium, free body diagram, centroids, moments of inertia, trusses, frame, and shear and moment diagrams. This course is typically offered in the summer and fall semesters. 3 hrs. lecture/wk.

ENGR 254  
**Dynamics (3 CR)**  
*Prerequisites: ENGR 251*  
Upon successful completion of this course, the student should be able to apply the principles of dynamics, the branch of engineering mechanics that studies objects in motion. Topics covered will include unbalanced force systems (Newton’s second law), displacement, velocity and acceleration, work and energy, and impulse and momentum. Computer applications will be included. This course is typically offered in the spring semester. 3 hrs. lecture/wk.

**English (ENGL)**

ENGL 102  
**Writing Strategies (3 CR)**  
*Prerequisite: Appropriate placement test score*  
This course assists the student in developing strategies for sentence writing. The course is designed to meet a variety of learning styles, levels and needs. Students will develop strategies for self-monitoring errors in written products. Students are taught strategies for writing a variety of sentence formats and have extensive practice in writing sentences as a means of implementing new information. 3hrs/wk. This course does not fulfill degree requirements. Students must take the JCCC writing assessment test before enrolling. For more information, see a JCCC counselor.

ENGL 103  
**Practical Writing Skills (1 CR)**  
At the completion of this course, the student should be able to recognize and write complete sentences. The student will write a variety of sentences using strategies for building sentences with phrases and clauses as well as editing sentences through coordination and subordination. The student will then practice developing paragraphs in various organizational modes. Along with writing the student will read selected prose and write responses to these readings. The course is designed specifically to aid non-native speaking students in acquiring writing skills through individualized instruction. The aim of this course is to
enhance/supplement the English as a Second Language program already offered at JCCC. Also, because hearing-impaired students have similar difficulties with the English language as ESL students, this course addresses the challenges often faced by this student population. This course meets by arrangement in the Writing Center. This course does not fulfill degree requirements. After registering for this course, the student should contact the Writing Center.

ENGL 105
Basic English Grammar (3 CR)
The aim of English 105 is to introduce the student to the basic structures in English grammar: parts of speech, sentence types, phrases and clauses. Students learn to use correct punctuation. Moving from joining short phrases to the basic sentence, students learn to combine ideas to form a variety of sentence structures. Students practice skills, working in class (often in pairs or groups) and making use of computer programs in the Writing Center. Grammar games are used to help prepare students for a test. 3 hrs./wk. This course does not fulfill degree requirements.

ENGL 106
Introduction to Writing (3 CR)
Prerequisite: ENGL 102 or appropriate score on assessment test
Beginning with a review of basic sentence skills, this course focuses on paragraph development, including subject selection, topic sentences, methods of development, transitional devices and effective introductions and conclusions. The last part of the course will focus on developing multi-paragraph essays. 3 hrs./wk. This course does not fulfill degree requirements. Students must take the JCCC writing assessment test. For more information, see a JCCC counselor.

ENGL 107
Sentence Pattern Skills (1 CR)
At the completion of this course, the student should be able to identify the parts of speech, elements of a sentence and basic sentence patterns. Emphasis is on sentence combining and sentence composing. Students are told that grammar in isolation will not improve writing skills, and they are encouraged to practice writing. This course meets by arrangement in the Writing Center. This course does not fulfill degree requirements. After registering for this course, the student should contact the Writing Center.

ENGL 108
Composing Skills (1 CR)
After completing Composing Skills, students will be able to choose a topic, narrow the topic, and organize and develop with supporting evidence a variety of paragraph modes. The student will be able to achieve paragraph unity, coherence and emphasis. Also, the student will learn revision and editing strategies. This course meets by arrangement in the Writing Center. This course does not fulfill degree requirements. After registering for this course, the student should contact the Writing Center.

ENGL 109
Proofreading Skills (1 CR)
This 1-credit module is designed to provide students with strategies and rules that will help them recognize and repair common grammar, usage and mechanical errors in their writing. This course focuses on the major and minor errors as set forth in the English program objectives (available in the Writing Center). Students will learn to recognize and correct these errors, not only on exercise sheets, but also in their own writing. This class meets by arrangement in the Writing Center.
This course does not fulfill degree requirements. After registering for this course, the student should contact the Writing Center.

**ENGL 110**  
*English Grammar Review* (1 CR)  
English Grammar Review helps students to review the parts of speech, elements of a sentence, basic sentence patterns, major sentence level errors, agreement errors and punctuation. Students are encouraged to practice writing. Course meets by arrangement in the Writing Center. This course does not fulfill degree requirements. After registering for this course, the student should contact the Writing Center.

**ENGL 112**  
*Research Skills* (1 CR)  
Research Skills is a review of the various aspects of the research process, beginning with limiting the subject and moving to revising the finished product. Emphasis is on the gathering of resource materials, synthesizing the information and developing an essay in which the resource information is used to support a thesis and is documented in an approved academic form. This course meets by arrangement in the Writing Center. This course does not fulfill degree requirements. After registering for this course, the student should contact the Writing Center.

**ENGL 115**  
*Revision Skills* (1 CR)  
Revision Skills is designed to instruct the practicing writer in skills needed to revise all writing, including business, college and personal writing. Students will use computer programs and self-paced materials. Revision Skills is intended to complement courses in which writing is assigned. Students will be encouraged to bring in business communication or college assignments to apply the learned skills. Course meets by arrangement in the Writing Center. This course does not fulfill degree requirements. After registering for this course, the student should contact the Writing Center.

**ENGL 120**  
*Writing in the Disciplines* (1 CR)  
This course is designed to complement and/or support classes in which writing is intrinsic to the curriculum and provide students with a process that can be applied to the variety of written assignments typically assigned in classes other than composition. Students will practice writing a variety of short papers using a prescribed process for each assignment. The course is individualized. Students enrolled in this class must come to the Writing Center, LIB 308, to make arrangements for their class schedule, to pick up a syllabus and other materials, and to be assigned an instructor. The course is a combination of written materials and software. All completed work will be kept in a folder in the Writing Center. Students should anticipate approximately 20 hours of work to complete the course. This course does not fulfill degree requirements.

**ENGL 121**  
*Composition I* (3 CR)  
*Prerequisite: ENGL 106 or appropriate placement test score or EAP 113 and EAP 117*  
Composition I focuses on writing nonfiction prose suitable in its expression and content to both its occasion and its audience. Students will have an opportunity to improve in all phases of the writing process: discovering ideas, gathering information, planning and organizing, drafting, revising and editing. Each essay
ENGL 122
Composition II (3 CR)
Prerequisite: ENGL 121
Because so much writing required in college and in the workplace demands the ability to synthesize information gathered from various sources, Composition II will focus on skills essential to gathering, comprehending, analyzing, evaluating and synthesizing information. Composition II also emphasizes organizing and polishing steps important in composing expository, evaluative and persuasive prose. 3 hrs./wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

ENGL 123
Technical Writing I (3 CR)
Prerequisite: ENGL 121
This course provides a basic knowledge of technical writing. Students will learn the writing process (prewriting, writing and rewriting) to follow when constructing correspondence, including memos, letters, e-mail, reports, instructional manuals and Web pages. Students also will learn seven key traits of effective technical writing: clarity, conciseness, document design, organization, audience recognition, audience involvement and accuracy. Accuracy specifically entails the need for students to adhere to rules of grammar and mechanics. Students will learn how to create computer-generated graphics and learn word processing skills. Finally, the students will learn how to work in teams, modeling Total Quality Management skills. 3 hrs./wk.

ENGL 130
Introduction to Literature (3 CR)
Prerequisite: ENGL 121
Students will read, discuss and analyze works from three literary genres: the short story, the poem and the play. Students will learn and apply the technical vocabulary used in the criticism of these literary forms. Students will be introduced to representative works from various literary traditions and cultures, including numerous works from contemporary writers. 3 hrs./wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

ENGL 140
Writing for Interactive Media (3 CR)
Prerequisite: ENGL 121
This course teaches students to apply the writing process as well as fundamental rhetorical and composition skills to various interactive media including Web pages, CD-ROMs/DVD, e-mail, kiosks, computer program packages and other electronic media. The instruction will focus on skills essential to selecting, evaluating and synthesizing information from primary and secondary sources; in addition, it will emphasize the different approaches to organization that these media require as well as the variety of discourse styles used in informative, instructional, persuasive and entertainment media texts. 3 hrs. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.
ENGL 150
Digital Narratives (3 CR)
Prerequisite: ENGL 121
Games, particularly Role-Playing Games (RPGs) and other participatory narratives, share many properties with traditional narratives, yet differ significantly from their linear counterparts. This course focuses on the elements of narrative as well as the principles that drive virtual or alternative possible worlds (both fictive and reality-based), and it will provide students with practice writing and designing artifacts that demonstrate an understanding of plot, character, setting, and the impact of structure and purpose in game development. This course is taught in the fall semester only. 3 hrs. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 30.

ENGL 210
Technical Writing II (3 CR)
Prerequisite: ENGL 123
This course provides an advanced knowledge of technical writing. Students will learn the writing process (prewriting, writing, and rewriting) to follow when constructing correspondence. Types of technical writing covered in this course include memos, letters, e-mail, short reports, long reports, instructional manuals, Web pages, PowerPoint presentations, brochures, newsletters, journal articles, resumes, and online resumes. Students also will learn seven key traits of effective technical writing: clarity, conciseness, document design, organization, audience recognition, audience involvement, and accuracy. Accuracy specifically entails the need for students to adhere to rules of grammar and mechanics. Students will learn how to create computer-generated graphics and learn word-processing skills. Finally, the students will learn how to work in teams, modeling Total Quality Management skills. 3 hrs./wk.

ENGL 222
Advanced Composition (3 CR)
Prerequisite: ENGL 122
This course offers challenging insights into the act of writing. We will move beyond Composition I and Composition II, focusing on writing persuasively to a select audience; working together to anticipate and defuse objections; supply convincing evidence; synthesize the ideas of others to support our ends; look critically at all sources; and perfect a mature, polished style that is suitable to audience and occasion. 3 hrs./wk.

ENGL 223
Creative Writing (3 CR)
Prerequisite: ENGL 122
Students will study and practice writing in two or three of the major literary modes of writing: poetry, fiction, and possibly drama. The reading assignments are based on the premise that to be a good writer, students must have knowledge of literary techniques and be perceptive readers and critics. Students will examine techniques of two or possibly three of the literary genres and then apply their knowledge to write in each genre. In addition, they will read other students’ work and provide useful feedback on that work. 3 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

ENGL 224
Creative Writing Workshop (3 CR)
Prerequisite: ENGL 223
In this class, students will build upon the knowledge and skills learned in ENGL 223. In addition to studying writing techniques, they will produce a body of written
work in one or more literary genres of their choice: poetry, fiction, and/or drama. They will also read other students' work and provide useful feedback on that work. 3 hrs./wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $15 to 25.

ENGL 227
Introduction to Poetry (3 CR)
Prerequisite: ENGL 122
This course emphasizes close reading and analysis of poetry by writers from different time periods, countries, and ethnic backgrounds. Students will study terms, patterns, and forms that are useful for an understanding and appreciation of poetic verse. The course will cover major literary, historical, and cultural movements as they relate to poetry. Students will be introduced to major classical and contemporary American and English poets, along with contemporary foreign-language poetry in translation. 3 hrs. lecture/wk.

ENGL 230
Introduction to Fiction (3 CR)
Prerequisite: ENGL 122
This course features significant opportunities to write about the literature and the reader’s response to it. Students will learn the historical fictional precedents of the short story; the similarities and differences between the short story and other narrative forms, such as the novel; the differences between the short story and its historical precedents, between short stories and film adaptations of them, and between commercial and literary short stories. Students will discover the place of short stories in major literary movements, the key elements of short stories and interpretive approaches to short stories. 3 hrs./wk.

ENGL 231
American Prose (3 CR)
Prerequisite: ENGL 122
American Prose presents a series of literary works by American writers that reflects the attitudes and identity of our national literature and culture. By grappling with the ideas and characterizations presented in each literary work, the student develops meaningful insights into the attitudes and human conditions that influence America’s national literary identity. 3 hrs./wk.

ENGL 232
Children's Literature (3 CR)
Prerequisite: ENGL 122
Children’s Literature is meant for all students interested in bringing children and books together but is especially suited for those who are students with English or education majors; teachers already in the elementary school classroom; parents; those working with children in preschools, day-care centers and libraries; and grandparents and prospective parents. The course would also benefit those exploring the field of writing and illustrating for children. Students will identify children’s needs and interests, list the criteria for choosing books for children, and demonstrate the means by which we can bring children and books together. Students will read, examine and critique a variety of children’s literature selected by author, genre and historical time period. 3 hrs./wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 50.

ENGL 235
Drama as Literature (3 CR)
Prerequisite: ENGL 122
This course introduces students to the analysis of plays as literature. Beginning with the Greek dramatists and ending with the contemporary scene, students will read full-length plays and the comments of playwrights, directors, actors and critics. They will analyze drama from psychological, historical, philosophical, structural and dramatic perspectives. Students will write essays demonstrating their understanding of the works studied. This course is taught in the fall semester only. 3 hrs./wk.

**ENGL 241**  
**British Writers** (3 CR)  
*Prerequisite: ENGL 122*  
This course emphasizes reading and discussion of works by selected major British writers and includes related writing projects. Students will identify important biographical details; explore the historical, cultural and artistic context of major writers and their works; and identify and evaluate the use of significant literary devices. The course emphasizes the relationships among influential writers, their lives and times and their works important to our cultural heritage. 3 hrs./wk.

**ENGL 243**  
**Literature of Science Fiction** (3 CR)  
*Prerequisite or corequisite: ENGL 122*  
This course examines the literature of science fiction, especially from 1960 through the present. Students explore the unifying concepts of science and technology, depicted through imaginative narratives of the past, present and future. Students read short stories and/or novels, view science fiction films and discuss key science fiction concepts. 3 hrs. lecture/wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

**ENGL 245**  
**Writing Literature for Children** (3 CR)  
*Prerequisite: ENGL 232*  
Writing Literature for Children is a continuation of Introduction to Children's Literature aimed primarily at those students interested in writing and publishing literature for children. The students will review children's needs and interests, research topics and collect data for possible books. Then students will write and assemble a variety of children's literature. Students will critique their own work and that of their peers and revise their work accordingly. Finally, students will compose all correspondence typically required by publishers. 3 hrs./wk.

**ENGL 250**  
**World Masterpieces** (3 CR)  
*Prerequisite: ENGL 122*  
World Masterpieces introduces students to literary study using major literary works composed from the times of Homer to Shakespeare that have been influential in shaping and expressing values of Western culture. Students will read selections representative of the epic, tragic, comic and lyric traditions primarily to gain knowledge of the works assigned. In addition, students will analyze the assigned texts as literary works and as cultural artifacts and influences. Finally, students will compare and contrast contemporary understandings of the individual and society with those expressed in the works studied. In completing the course objectives, students will learn the conventions of writing about literature and become familiar with general reference materials useful in studying literature. 3 hrs./wk.
**ENGL 254**  
**Masterpieces of the Cinema (3 CR)**  
*Prerequisite: ENGL 122*  
This course examines the development of cinema from the early experiments in the late 1800s up to the present day, presenting the history and art of both American and international cinema. Students read the textbook, view short and full-length films, and discuss important cinematic techniques and concepts. Students verify their judgments by summarizing and analyzing these important concepts, using discussions, and writing effective, well-organized essays in response to cinematic presentations and explanations. 3 hrs./wk.

**ENGL 256**  
**American Poetry (3 CR)**  
*Prerequisite: ENGL 122*  
American Poetry presents a planned reading schedule and directed discussion of poems that reflect the attitudes of American poets and American culture. By grappling with the ideas and characterizations presented in these poems, students can develop meaningful insights into the attitudes and human conditions that have influenced America's national literary identity. 3 hrs./wk.

**English for Academic Purposes (EAP)**

**EAP 091**  
**Reading/Vocabulary I and Writing/Grammar I (6 CR)**  
*Prerequisite: Appropriate assessment test score*  
This course, which pairs three credit hours of reading/vocabulary with three credit hours of writing/grammar, provides students who are English Language Learners (ELL) with an integrated communicative experience on the high beginning college level. Students who successfully complete EAP 091 will be awarded three hours of credit for EAP 101 Writing and Grammar I and three hours of credit for EAP 120 Reading and Vocabulary I. The teaching of this course will be shared by two instructors. This course does not fulfill degree requirements.

**EAP 092**  
**Reading/Vocabulary II and Writing/Grammar II (6 CR)**  
*Prerequisite: Appropriate assessment test score or EAP 091 (EAP 101 and EAP 120) and EAP 105*  
This course, which pairs three credit hours of reading/vocabulary with three credit hours of writing/grammar, provides students who are English Language Learners (ELL) with an integrated communicative experience on the low intermediate college level. Students who successfully complete EAP 092 will be awarded three hours of credit for EAP 103 Writing and Grammar II and three hours of credit for EAP 121 Reading and Vocabulary II. The teaching of this course will be shared by two instructors. This course does not fulfill degree requirements.

**EAP 093**  
**Reading/Vocabulary III and Writing/Grammar III (6 CR)**  
*Prerequisites: Appropriate assessment test score or EAP 092 (EAP 103 and EAP 121) and EAP 107*  
This course, which pairs three credit hours of reading/vocabulary study with three credit hours of writing/grammar, provides students who are English Language Learners (ELL) with an integrated communicative experience on the intermediate level. Students will further develop their skills in reading, writing, vocabulary and grammar. Writing activities will focus on paragraph and multi-paragraph writing. Students who successfully complete EAP 093 will be awarded three hours of
credit for EAP 111 Writing and Grammar III and EAP 122 Reading and Vocabulary III. The teaching of this course will be shared by two instructors. This course does not fulfill degree requirements.

EAP 101
Writing and Grammar I (3 CR)
Prerequisite: Appropriate assessment test score Corequisite: EAP 120
This course, which is paired with EAP Reading and Vocabulary I, provides English as a Second Language students an integrated communicative experience at the beginning college level. As part of a Learning Community, students will learn effective writing techniques for using American English at the sentence and basic paragraph level. The course will also focus on basic study and learning strategies to aid writing. This course is the first writing and grammar course in the sequence of courses for English for Academic Purposes. 3 hrs lecture/wk. This course does not fulfill degree requirements.

EAP 103
Writing and Grammar II (3 CR)
Prerequisite: Appropriate assessment test score or EAP 091 (EAP 101 and EAP 120) and EAP 105 Corequisite: EAP 121
This course, which is paired with EAP Reading and Vocabulary II, provides English as a Second Language students an integrated communicative experience. As part of a Learning Community, students will focus on using American English in writing at the paragraph level. The course will also focus on learning and study strategies to enhance writing. This course is the second writing and grammar course in the sequence of courses for English for Academic Purposes. 3 hrs lecture/wk. This course does not fulfill degree requirements.

EAP 105
Speaking and Pronunciation I (3 CR)
Prerequisite: Appropriate assessment test score
This course provides English as Second Language students the opportunity to develop their speaking and pronunciation skills. Focus will be on effective techniques for using American English in academic, career and personal settings. 3 hrs. lecture/wk. This course does not fulfill degree requirements.

EAP 107
Speaking and Pronunciation II (3 CR)
Prerequisite: Appropriate assessment test score or EAP 091 (EAP 101 and EAP 120) and EAP 105
This course provides English as Second Language students the opportunity to expand fluency in speaking and pronunciation. The course covers techniques for listening with accuracy and speaking with the stress, rhythm and intonation of American English. Personal communications and group interactions in academic, career and community settings are included. The course concludes with applications to individual life goals. 3 hrs lecture/wk. This course does not fulfill degree requirements.

EAP 111
Writing and Grammar III (3 CR)
Prerequisite: Appropriate assessment test score or EAP 092 (EAP 103 and EAP 121) and EAP 107, EAP 107) or appropriate COMPASS ESL score and Corequisite: EAP 122
This course, which is paired with EAP Reading and Vocabulary III, provides
English as a Second Language students an integrated communicative experience at the intermediate level. As part of a Learning Community, students will focus on developing fluency in writing using American English at the paragraph and multi-paragraph level. The course includes study strategies and writing assignments related to the reading Learning Community component. This course is the third writing and grammar course in the sequence of courses for English for Academic Purposes. This course does not fulfill degree requirements. 3 hrs. lecture/wk.

**EAP 113**

**Writing and Grammar IV (3 CR)**

*Prerequisite: Appropriate assessment test score or EAP 093 (EAP 111 and EAP 122) and EAP 115*

This course provides English as a Second Language students the opportunity to improve fluency in American English in writing at the high intermediate to advanced level. Students will engage in writing tasks that relate to the academic disciplines. The course includes reading activities from the academic disciplines and study strategies appropriate for academic tasks. This course is the fourth writing and grammar course in the sequence of courses for English for Academic Purposes. This course does not fulfill degree requirements. 3 hrs. lecture/wk.

**EAP 115**

**Speaking and Pronunciation III (3 CR)**

*Prerequisite: Appropriate assessment test score or EAP 093 (EAP 111 and EAP 122) and EAP 115*

This course provides English as a Second Language students the opportunity to enhance fluency in speaking, pronunciation, and listening at the upper intermediate level. Students apply standard American communication patterns to understand lectures, speak in academic settings, and communicate in group interactions. Informal and formal projects include oral reports in specific fields of study and academic debates. The course concludes with analysis of individual goals and assessments to enhance academic success. This course does not fulfill degree requirements. 3 hrs. lecture/wk.

**EAP 117**

**Speaking and Pronunciation IV (3 CR)**

*Prerequisite: Either (EAP 111 and EAP 122 and EAP 115) or (EAP 093 and EAP 115) or appropriate COMPASS ESL score*

This course offers English as a Second Language students the opportunity to master speaking, pronunciation, and listening at an advanced level. Pronunciation performance will be enhanced for accent reduction and communication of precise meanings of standard American English. Students apply advanced strategies to process knowledge from specific fields of study and give presentations with idiomatic vocabulary from classical literature, media, and other research sources. The course concludes with expansion of sociolinguistic and cultural competencies for group interactions and large audiences. Pre- and post-assessments measure progress in exit competencies. This course does not fulfill degree requirements. 3 hrs. lecture/wk.

**EAP 120**

**Reading/Vocabulary I (3 CR)**

*Prerequisite: Appropriate assessment test score and Corequisite: EAP 101*

This course (EAP 120/RDG 120), which is paired with EAP 101 Writing and Grammar I, provides English Language Learner students an integrated communication experience on the high beginning college level. As part of a Learning Community, students will learn effective techniques for reading, studying and using American English in an academic setting. This is the first reading course in the English for Academic Purposes series. This course does not fulfill
degree requirements.

EAP 121
Reading/Vocabulary II (3 CR)
Prerequisite: Appropriate assessment test score or EAP 091 (EAP 101 and EAP 120) and EAP 105 Corequisite: EAP 103
This course (EAP 121/RDG 121), which is paired with EAP Writing and Grammar II, provides English Language Learner (ELL) the opportunity to develop reading fluency, comprehension and vocabulary on the low intermediate college level in a Learning Community setting. Reading, writing, speaking and listening will be integrated, and students will learn effective techniques for studying and using American English in an academic setting. This is the second reading course in the English for Academic Purposes series. 3 hrs. lecture/wk. This course does not fulfill degree requirements.

EAP 122
Reading and Vocabulary III (3 CR)
Prerequisite: Appropriate assessment test score or EAP 092 (EAP 103 and EAP 121) and EAP 107 and Corequisite: EAP 111
This course (EAP 122/RDG 122), which is paired with EAP Writing and Grammar III, provides English Language Learner (ELL) an integrated communicative experience at the intermediate college level. Students will develop reading fluency, comprehension, and vocabulary in a Learning Community setting. Reading, writing, speaking, and listening will be integrated, and students will learn effective techniques for using American English to read and study in an academic setting. This course is the third reading course in the English for Academic Purposes series. This course does not fulfill degree requirements.

Entrepreneurship (ENTR)

ENTR 120
Introduction to Entrepreneurship (2 CR)
The student will understand the role of entrepreneurial businesses in the United States and the impact on our national and global economy. The student will evaluate the skills and commitment necessary to successfully operate an entrepreneurial venture. Additionally, the student will review the challenges and rewards of entrepreneurship as a career choice as well as entrance strategies to accomplish such a choice. 2 hrs. lecture/wk.

ENTR 131
Financial Management for Small Business (2 CR)
Prerequisite: ACCT 111 or ACCT 121
Upon successful completion of this course, the student should be able to identify and evaluate the various sources available for funding a small business; demonstrate an understanding of financial terminology; read, prepare and analyze a financial statement; and write a loan proposal. In addition, the student should be able to explain the importance of working capital and cash management. The student should also be able to identify financing needs, establish credit policies, and prepare sales forecasts. This course is required for a vocational certificate and associate of applied science degree in business entrepreneurship. 2 hrs./wk.

ENTR 142
Fast Trac Business Plan (3 CR)
Upon successful completion of this course, the student will be able to evaluate a
business concept and write a sound business plan. In the process of doing so, students will be able to assess the strengths and weaknesses of a business concept; collect and organize market research data into a marketing plan; and prepare the financial projections for their business concept. In addition, students will be able to identify and evaluate various resources available for funding small businesses. The course is required for the business plan certificate, the vocational certificate in business entrepreneurship and the associate of applied science degree in business entrepreneurship. 3 hrs. lecture/wk.

ENTR 160
Legal Issues for Small Business (2 CR)
Upon successful completion of this course, the student should be able to identify the forms of business ownership and the legal and tax implications for each. In addition, the student should be able to explain laws covering issues such as personnel, contracts and protection of intellectual property. The student should also be able to explain the reporting requirements for local, state and federal agencies. This course is required for the associate of applied science degree and the vocational certificate in business. 2 hrs/wk.

ENTR 180
Opportunity Analysis (2 CR)
Upon successful completion of this course, the student should be able to assess the current economic, social and political climate for small businesses. In addition, the student should be able to explain how demographic, technological and social changes create opportunities for small business ventures. This course is required for the associate of applied science degree in business entrepreneurship. 2 hrs/wk.

ENTR 190
Small Business Analysis (2 CR)
Prerequisite: BUSE 131 or ENTR 131 and BUSE 160 or ENTR 160 and BUS 230 or permission of division administrator
Upon successful completion of this capstone course, the student should be able to identify problems that frequently arise in small business and use problem-solving skills to formulate solutions. In addition, the student should be able to apply the knowledge of business concepts and techniques in the analysis of cases and actual business situations. This course is required for an associate of applied science degree and a vocational certificate in business entrepreneurship. 2 hrs/wk.

ENTR 195
Franchising (3 CR)
Prerequisite: BUS 230
In this course, the student should be able to research the franchising method of doing business from the perspective of both the franchisor and the franchisee. The student will analyze independent management efforts necessary for a successful franchise business venture as well as understand the interdependent contractual obligations that are legally binding between the franchisor-franchisee. 3 hrs. lecture/wk.

ENTR 210
Entrepreneurship Internship I (1 CR)
Prerequisite: Career program facilitator or assistant dean approval
Upon the successful completion of this course, the student should be able to apply classroom knowledge to an actual work situation. This course consists of
supervised work experience in an approved training situation. A minimum of 240 hours of on-the-job training is required. This course is required for an associate of science degree in business entrepreneurship. Either ENTR 210 or BUSE 210, Entrepreneurship Internship I, or ENTR 215 or BUSE 215, Entrepreneurship Internship II, is required for a vocational certificate in business entrepreneurship.

**ENTR 215**  
**Entrepreneurship Internship II (1 CR)**  
*Prerequisite: ENTR 210 and Assistant Dean’s Approval*  
Upon the successful completion of this course, the student should be able to apply classroom knowledge to an actual work situation. A minimum of 240 hours of on-the-job training is required. This course is required for an associate of applied science degree in business entrepreneurship. Either BUSE 210 or ENTR 210, Entrepreneurship Internship I, or BUSE 215 or ENTR 215, Entrepreneurship Internship II is required for a vocational certificate in business entrepreneurship.

**ENTR 220**  
**Entrepreneurial Marketing (2 CR)**  
*Prerequisite: BUS 230*  
In this course, the student will gain insights essential for marketing an entrepreneurial venture utilizing innovative and financially responsible marketing strategies. The student will analyze marketing philosophies implemented by key successful entrepreneurs. Additionally, the student will prepare a marketing plan to launch the entrepreneurial venture and a marketing plan to implement during the first two years of business operation. 2 hrs. lecture/wk.

**ENTR 225**  
**Family Business (3 CR)**  
Upon successful completion of this course, the student will gain the knowledge and skills needed for the successful management and leadership of a family enterprise by exploring a diverse set of family firms, examining the interrelationships among the owners, the family, and the management team. The student will analyze the management and family practices that ensure success while recognizing the advantages and challenges facing family enterprises. Emphasis is placed on positioning the family enterprise for sustained growth and continuity through generations. 3 hrs. lecture/wk.

**ENTR 240**  
**Funding Acquisition for Entrepreneurs (2 CR)**  
*Prerequisite: ENTR 142*  
Upon successful completion of this course, the student will understand the importance and impact of funding sources for their entrepreneurial venture. This will be accomplished by reviewing the impact of venture capital in every phase of the business venture from idea to exit including planning, teambuilding, protecting intellectual capital, identifying funding sources, raising money, writing funding agreements, and managing through to an IPO or merger and acquisition. Additionally, the student will develop and present a funding proposal. 2 hrs. lecture/wk.

**Fashion Merchandising/Design (FASH)**

**FASH 121**  
**Fashion Fundamentals (3 CR)**  
Upon successful completion of this course, the student should be able to define
appropriate fashion terminology and explain the structure of the industry, including the design process and marketing of the fashion product. 3 hrs./wk.

FASH 123
Apparel Construction I (4 CR)
Upon successful completion of this course, the student should be able to apply clothing construction principles, techniques and skills in apparel construction. The class will use lecture, demonstration and hands-on experience to teach the skills needed to plan and construct four garments during this class. 2 hrs. lecture, 4 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 300.

FASH 124
Apparel Construction II (4 CR)
Prerequisite: FASH 123 or two years of high school apparel construction training or division administrator approval
Upon successful completion of this course, the student should be able to apply intermediate apparel construction principles, techniques and skills in the production of various garments. This continuation of FASH 123 will focus on the planning and construction of an ensemble of intermediate complexity made from muslin fitting samples, with emphasis on precise fitting alteration. This course is a suggested elective for the Fashion Merchandising program. 2 hrs. lecture, 4 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 300.

FASH 125
Visual Merchandising (3 CR)
Upon successful completion of this course, the student should be able to explain and apply the principles of design in visual merchandising. In addition, the student should be able to identify and explain the use of mannequins and other forms, display fixtures and lighting systems; apply color theory; and present merchandise effectively in visual displays. The student should also be able to demonstrate the use of appropriate types of displays for in-store promotions. This course is required for the Fashion Merchandising program. 3 hrs./wk.

FASH 127
CAD: Pattern Design I (4 CR)
Prerequisite: FASH 123
Upon successful completion of this course, the student should be able to apply the use of flat pattern methods in developing patterns for original apparel designs. Basic slopers and the CAD (computer-assisted design) Pattern Design System will be used to develop and manipulate patterns. The class will use lecture, demonstration and hands-on experience to teach skills needed in manual and computer-assisted pattern design. The student will plan and create patterns in this class. 2 hrs. lecture, 4 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $80.

FASH 128
CAD: Pattern Design II (4 CR)
Prerequisite: FASH 127
Upon successful completion of this course, the student should be able to apply advanced methods of flat pattern design in developing patterns. This class is a continuation of FASH 127, CAD: Pattern Design I. Lecture, demonstration and
hands-on experience will be used to teach techniques needed in computer-assisted and manual advanced pattern design. Industry standards will be used for sloper manipulation. Each student will create advanced flat patterns in this class. This is a suggested elective for the Fashion Merchandising program. 2 hrs. lecture, 4 hrs. lab/wk.

FASH 130 
Fashion Illustration I (3 CR) 
Upon completion of this course, students should be able to create fashion illustrations for their portfolios. In addition, the student should be able to apply color, mood, detail and form using various media. 3 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 50.

FASH 132 
Marketing Communications (3 CR) 
Upon successful completion of this course, the student should be able to explain advertising and promotion from an integrated marketing communications perspective that combines theory with planning, management and strategy. In addition, the student will be able to explain advertising, sales promotion, direct marketing and publicity/public relations and the need for integration of these promotional mix elements in an overall marketing communications program. 3 hrs./wk. This course is typically taught in the fall semester.

FASH 135 
Image Management (1 CR) 
Upon successful completion of this course, the student should be able to conduct an extensive wardrobe inventory. In addition, the student should be able to apply principles of personal grooming, elements of design and fabric, and accessory knowledge to the development of an individual professional wardrobe plan based on individual budget constraints. 1 hr./wk.

FASH 140 
Garment Design I (3 CR) 
Prerequisite: FASH 123 
Upon successful completion of this course, students should be able to produce a first pattern and prepare it for production. This includes translating garment ideas from color sketches (croquis); continuing the design process through fabric selection and pattern drafting; figuring yardage, notions and wholesale cost; and constructing a finished garment. 6 hrs. lecture, lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 300.

FASH 143 
Tailoring (4 CR) 
Prerequisite: FASH 124 
Upon successful completion of this course, the student should be able to apply advanced construction principles, techniques and skills in the production of tailored garments. This course is a continuation of FASH 124, Apparel Construction II. The class will use lecture, demonstration and hands-on experience as the student completes a trial muslin for a jacket or coat plus a finished three-piece ensemble of advanced complexity during this class. 2 hrs. lecture, 4 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 300.
FASH 150
Textiles (3 CR)
Upon successful completion of this course, the student should be able to differentiate fibers and fabrics according to their specific characteristics and to select fibers and fabrics for specific applications. In addition, the student should be able to identify properties and characteristics of natural and man-made fibers, the properties and characteristics of yarns, fabric construction methods including weaving and knitting and various finishing processes including printing and dyeing. 3 hrs./wk.

FASH 220
CAD Apparel Design (3 CR)
Upon successful completion of this course, the student should be able to apply the elements and principles of design in evaluating and designing women's, men's and children's apparel. A project of designing a line will apply the student's aesthetic knowledge, the relationship of apparel design to the current socioeconomic conditions and apparel production knowledge. Projects use computer-aided design software. 3 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $25 to 30.

FASH 224
History of Costume (3 CR)
Upon successful completion of this course, the student should be able to identify the political, economic, technological and sociological factors that have influenced Western costume worn by women, men and children from ancient Egyptian times to the present. 3 hrs./wk.

FASH 225
Store Planning (3 CR)
Prerequisite: FASH 125
Upon successful completion of this course, the student should be able to demonstrate the skills needed to plan and execute the display methods and store planning concepts for promoting merchandise within a large or small store interior. These plans will use the student's understanding of design, fixtures, traffic patterns, floor sets, graphics/signage and materials. This course is a requirement for the visual merchandising certificate. 3 hrs. lecture/wk. This course is typically taught in the spring semester.

FASH 230
Fashion Illustration II (3 CR)
Prerequisite: FASH 130
Upon successful completion of this course, the student should be able to produce refined fashion illustrations to enhance the portfolio. Fashion Illustration II is a continuation of Fashion Illustration I. Greater emphasis is placed on development of a personal illustration style and presentation of a professionally executed portfolio. 3 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 50.

FASH 231
Merchandising Planning and Control (3 CR)
Prerequisite: MATH 120
Upon successful completion of this course, the student should be able to describe the management structure of retail merchandising operations, contrast merchandising functions among various types of retail operations, explain the
buying process, explain the financial operations of retail merchandising and apply these principles in computer-simulated case situations. 3 hrs./wk. This course is typically taught in the spring semester.

FASH 242  
**Consumer Product Evaluation** (3 CR)  
Upon successful completion of this course, the student should be able to evaluate a wide range of textile and nontextile products, from lingerie to china, on the basis of specialized product knowledge. In addition, the student should be able to prepare research projects on selected products. 3 hrs./wk. This course is typically taught in the spring semester.

FASH 268  
**Field Study: The Market Center** (3 CR)  
*Prerequisite: FASH 121*  
Upon successful completion of this course, the student should be able to identify and distinguish between national, regional and local retail market centers. In addition, the student should be able to explain the importance of market centers, analyze the marketing mix of selected retailers and describe uses of fashion auxiliary services. This is a suggested course for the Fashion Merchandising program. 3 hrs./wk. This course is typically taught in the spring semester.  
**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $900.

FASH 277  
**Fashion Seminar: Career Options** (2 CR)  
Upon successful completion of this course, the student should be able to define individual career goals after a thorough examination of five career areas within the fashion industry. In addition, the student should be able to explain strategies for success in the workplace. 2 hrs./wk.

FASH 279  
**Fashion Portfolio Development** (2 CR)  
*Prerequisites: FASH 121 and FASH 124 and FASH 127 and FASH 130 and FASH 150 and FASH 220 Prerequisite or corequisite: FASH 280 and FASH 140*  
Students will compile, select and create new material for their portfolio as well as evaluate their own competencies and strengths. In addition, students will create a resume and perform a mock interview to be reviewed by faculty and peers. 2 hrs. lecture/wk. This course is typically taught in the spring semester.  
**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $25 to 80.

FASH 280  
**Capstone: Industry Topics** (3 CR)  
*Prerequisites: FASH 283 and FASH 284 Corequisite: FASH 231*  
Upon successful completion of this course, the student should be able to exhibit knowledge and work-based skill inherent to fashion retailing, wholesaling and manufacturing. The student will have opportunities to apply knowledge gained in prior courses analyzing industry topics. This capstone course will review and evaluate competencies that are essential for employment in the fashion industry. This course is required for the Fashion Merchandising program. 3 hrs. lecture/wk. This course is typically taught in the spring semester.

FASH 283  
**Fashion Internship I** (1 CR)
Upon successful completion of this course, the student should be able to apply classroom knowledge to an actual work situation. This course offers work experience under instructional supervision in an approved training situation designed to provide practical experience in the fashion industry. A minimum of 15 hours on-the-job training/wk.

**FASH 284**  
**Fashion Internship II** (1 CR)  
Upon successful completion of this course, the student should be able to apply classroom knowledge to an actual work situation. The student will receive 225 hours of work experience in an approved training situation designed to provide practical experience in the fashion industry. An average of 15 hours on-the-job training/wk.

**FASH 285**  
**Fashion Internship III** (1 CR)  
Upon successful completion of this course, the student should be able to demonstrate the skills required to advance to an entry-level management position. The student will receive 225 hours of work experience in an approved training situation designed to provide practical experience in the fashion industry. An average of 15 hours on-the-job training is required/wk.

**FASH 286**  
**Fashion Internship IV** (1 CR)  
*Prerequisites: FASH 283 and FASH 284 and FASH 285 and 45 hours toward degree in Fashion Merchandising*  
Upon successful completion of this course, the student will have received 225 hours of work experience in an approved training environment. The student should be able to demonstrate the skills required in an entry level management position. An average of 15 hours on the job training/wk. is required.

**FASH 298**  
**European Fashion Emphasis** (3 CR)  
Upon successful completion of this course, the student will be able to compare American and European retail merchandising, advertising and visual presentation. This travel-for-credit course includes visits to selected European cities.  
**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $3000.

**Fire Services Administration (FIRE)**

**FIRE 110**  
**Essentials of Fire Fighting** (9 CR)  
*Prerequisite or corequisite: HPER 240*  
This course provides cognitive, psychomotor and affective instruction for those students seeking certification as a fire fighter in the state of Kansas. The class covers hazardous materials (first responder; operations level), fire department communications, fire ground operations, rescue operations and prevention, preparedness and maintenance. Upon successful completion of the cognitive examinations and all psychomotor skills evaluations, students will be allowed to sit for the Kansas Fire Fighter II state certification examination, which is administered by the University of Kansas, Fire and Rescue Training Institute. 5 hrs. lecture 7 hrs. lab/wk. This course is typically taught in the fall and spring semesters only.  
**Associated Costs:** In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $200.

FIRE 130
Fire Investigation (1 CR)
Prerequisite: FIRE 110 or FIRE 175
This course provides instruction in basic fire investigation. Students will learn basic cause and origin determination, scene and evidence security techniques, and report-writing skills. This course meets the job performance requirements pertaining to fire investigation identified in NFPA 1021, Fire Office Professional Qualifications. 1 hr./wk. This course is typically taught in the spring semester only.

FIRE 135
Building and Fire Codes (3 CR)
Prerequisite: FIRE 110 or FIRE 175
This course entails application and interpretation of codes and ordinances, especially the Life Safety Codes used extensively in fire prevention. 3 hrs./wk. This course is typically taught in the spring semester only.

FIRE 162
Fire Tactics and Strategy (3 CR)
Prerequisite: FIRE 110 or FIRE 175
Fire control through manpower, equipment and extinguishing agents will be explored, including theoretical models and practical applications. 3 hrs./wk. This course is typically taught in the fall semester only.

FIRE 220
Fire Administration (3 CR)
Prerequisite: FIRE 110 or FIRE 175
Techniques and methods used in managing fire departments are explored, including budgeting processes, administrative functions and types of political systems that affect a fire department. 3 hrs./wk. This course is typically taught in the fall semester only.

FIRE 222
Fire Science Law (3 CR)
Prerequisite: FIRE 110 or FIRE 175
The law as it pertains to the fire service will be explained, along with tort law and business law. 3 hrs./wk. This course is typically taught in the fall semester only.

FIRE 224
Incident Command Systems (3 CR)
Prerequisite: FIRE 110 or FIRE 175
This is a course in basic incident command. Disaster control, disaster management, communications for disaster management and types of disasters are presented. 3 hrs./wk. This course is typically taught in the spring semester only.

FIRE 250
Fire Service Science Instructional Methodology (3 CR)
Prerequisite: FIRE 110 or FIRE 175
This course is designed to provide the instructional skills and knowledge necessary to develop, conduct and evaluate formal training programs in in-service and classroom formats. This course meets NFPA 1041 standards for fire service instruction. This course is typically taught in the spring semester only.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100.

Foreign Language (FL)

FL 116
Elementary Latin I (3 CR)
Students will have the opportunity to learn the basic vocabulary and structural patterns, or grammar, of Latin. Emphasis will be on fundamental grammar concepts, extensive word study for English vocabulary growth and the lasting contributions Roman society made to Western civilization. 3 hrs./wk. This course is not offered in the spring semester.

FL 117
Elementary Latin II (3 CR)
Prerequisite: FL 116 or one year of high school Latin
This course will complete the presentation of basic Latin vocabulary and grammar. Fundamental grammar concepts, extensive word study for English vocabulary growth and the lasting contributions of Roman society to Western civilization will be emphasized. 3 hrs./wk. This course is taught in the spring semester.

FL 120
Elementary German I (5 CR)
This course presents the sounds, vocabulary and basic structural patterns of German, focusing on the development of listening comprehension, speaking, reading and writing skills. Cultural material will be integrated into the course. 5 hrs./wk.

FL 121
Elementary German II (5 CR)
Prerequisite: FL 120 or one year of high school German
This course will continue the presentation of the vocabulary and basic structural patterns begun in Elementary German I with continued emphasis on the development of listening comprehension, speaking, reading and writing skills. 5 hrs./wk.

FL 130
Elementary Spanish I (5 CR)
In this basic course, students will study Spanish grammar conversation, composition and the culture of Spanish-speaking countries. 5 hrs./wk.

FL 131
Elementary Spanish II (5 CR)
Prerequisite: FL 130 or one year of high school Spanish
This course will continue the presentation of the material introduced in Elementary
Spanish I. Graded reading selections will be added as a basis for conversation and composition in discussion periods. Placement test recommended. Go to the Testing Center or to the Language Resource Center. 5 hrs./wk.

**FL 133**
**Basic Spanish for Hospitality Management** (2 CR)
In this basic course, students will be introduced to terminology related to the hospitality industry, basic Spanish grammar and phrases related to work. 2 hrs./wk.

**FL 140**
**Elementary French I** (5 CR)
Areas covered in this basic course include vocabulary building, grammar study, conversation and an introduction to French culture and civilization. The emphasis is on conversation. 5 hrs./wk.

**FL 141**
**Elementary French II** (5 CR)
*Prerequisite: FL 140 or one year of high school French*
This course continues the presentation of the material introduced in Elementary French I. Graded reading selections will be used as the basis for conversation. Placement test recommended. Go to the Testing Center or the Language Resource Center. 5 hrs./wk.

**FL 145**
**Field Study in Russian Language & Culture** (2 CR)
This field study course is open to students with any level of Russian language proficiency - from beginning to advanced. The course combines orientation sessions in Russian language and culture at JCCC with two weeks of study in Russia. During their stay in Russia, students will attend a Russian university, take classes in Russian language and culture and participate in excursions to sites of historical and cultural significance. Students will be placed in Russian language classes that are commensurate with their proficiency level in the Russian language. 10 hrs. lecture & 80 hrs. field study in Russia. FEES: Students are responsible for all expenses incurred during this field study, including costs for travel documents, insurance and all travel expenses. Students should contact instructor for cost estimate. 
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $2300 to 2500.

**FL 150**
**Elementary Russian I** (5 CR)
In this course, students will learn the basic sounds, vocabulary and structural patterns of Russian. Emphasis will be on listening comprehension, speaking, reading and writing skills. Cultural material will be included. 5 hrs./wk.

**FL 151**
**Elementary Russian II** (5 CR)
*Prerequisite: FL 150 or one year of high school Russian*
This course completes the presentation begun in Elementary Russian I. Students will gain listening comprehension, speaking, reading and writing skills appropriate to a second-level course. This course is taught in the spring semester. 5 hrs./wk.
Elementary Arabic I (5 CR)
In this basic course, teacher and student activities are geared toward developing functional abilities to use Arabic accurately and fluently in listening, speaking, reading, and writing. This course requires intensive classroom interaction and out-of-class assignments. 5 hrs. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10.

Elementary Arabic II (5 CR)
Prerequisite: FL 155
This course will continue the presentation of vocabulary and basic structural patterns begun in Elementary Arabic I. There will be a continuation of comprehension, listening, reading, writing from an everyday use emphasis. This course is taught in the spring semester. 5 hrs. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10.

Elementary Italian I (5 CR)
Students will be introduced to the sounds, vocabulary and basic structural patterns of Italian, with primary focus on the development of listening comprehension, speaking, reading and writing skills. Integrated throughout the course will be an introduction to the culture of Italy. 5 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $8 to 20.

Elementary Italian II (5 CR)
Prerequisite: FL 160 or one year of high school Italian
A continuation of the presentation of the vocabulary and basic structural patterns of Italian, this course will emphasize the development of listening comprehension, speaking, reading and writing skills. Cultural material also will be integrated into the course. This course is taught in the spring semester. 5hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $8 to 20.

Elementary Chinese I (5 CR)
This course will introduce students to the basic sounds, vocabulary, grammar and usage, characters and reading of the Chinese language. The emphasis will be on developing basic conversational skills. Students will develop an understanding and appreciation of Chinese culture. 5 hrs./wk.

Elementary Chinese II (5 CR)
Prerequisite: FL 165 or equivalent college-level course with a grade of "D" or better or one year of high school Chinese with a grade of "D" or better
This course offers a continuation of Elementary Chinese I, emphasizing the sounds, vocabulary, grammar, usage, characters and reading of the Chinese language. Students will develop more advanced conversational skills and cultural understanding. 5 hrs./wk.

Elementary Japanese I (5 CR)
This course is an introduction to the sounds, vocabulary, grammar, usage and readings of the Japanese language. The emphasis will be on developing basic conversational skills. Cultural materials will be included. This course is typically taught in the fall semester. 5 hrs./wk.

**FL 171**  
**Elementary Japanese II (5 CR)**  
*Prerequisite: FL 170 or one year of high school Japanese*  
A continuation of Elementary Japanese I, this course will emphasize the sounds, vocabulary, grammar, usage and reading of the Japanese language. The emphasis is on developing more advanced conversational skills and cultural understanding. This course is typically taught in the spring semester. 5 hrs./wk.

**FL 175**  
**Elementary Brazilian Portuguese I (5 CR)**  
In this basic course, students will study Portuguese grammar, conversation, composition and the culture of Brazil. 5 hrs./wk.

**FL 176**  
**Elementary Brazilian Portuguese II (5 CR)**  
*Prerequisite: FL 175*  
This course will continue the presentation of the material introduced in Elementary Brazilian Portuguese I. Graded reading selections are added as a basis for conversation and composition in discussion periods. This course is taught in the spring semester. 5 hrs. lecture/wk.

**FL 178**  
**Intermediate Russian I (3 CR)**  
*Prerequisite: FL 151 or two years of high school Russian*  
This course will emphasize vocabulary development and more advanced study of Russian grammar. Students will practice reading, listening comprehension, speaking and writing at the intermediate level. 3 hrs./wk.

**FL 179**  
**Intermediate Russian II (3 CR)**  
*Prerequisite: FL 178 or three years of high school Russian*  
Students will study Russian language and culture that would prepare them to travel in a Russian-speaking country and engage in simple conversation with the citizens. 3 hrs./wk.

**FL 180**  
**Elementary American Sign Language I (3 CR)**  
This class will focus on the development of beginning American Sign Language communication skills. Comprehension skills and linguistic features of the language taught in context will be emphasized. 6 hrs. integrated lecture-lab/wk. FL 180 and INTR 120 are the same course. Do not enroll in both.

**FL 181**  
**Elementary American Sign Language II (3 CR)**
Prerequisite: FL 180 or INTR 120
This course will focus on continued development of elementary American Sign Language skills beyond those taught in Elementary ASL I. Students will work on developing communication competencies, concentrating on comprehension and production skills. Information about the linguistic and cultural features will be included in the context of language learning experiences. 6 hrs. integrated lecture-lab/wk. FL 181 and INTR 121 are the same course. Do not enroll in both.

FL 190
Intermediate Japanese I (3 CR)
Prerequisite: FL 171 or two years of high school Japanese
This course is a continuation of the study of Japanese language and culture, emphasizing the sounds, vocabulary, grammar, usage and readings of the Japanese language. Emphasis will be on developing further advanced conversational skills by increasing vocabulary and variety of sentence patterns. Cultural understanding will also be stressed. This course is typically taught in the fall semester. 3 hrs/wk.

FL 191
Intermediate Japanese II (3 CR)
Prerequisite: FL 190 or three years of high school Japanese
This course is a continuation of the study of Japanese language and culture, emphasizing the sounds, vocabulary, grammar, usage and readings of the Japanese language. Emphasis will be on developing further advanced conversational skills by increasing vocabulary and variety of sentence patterns. Cultural understanding will also be stressed. This course is typically taught in the spring semester. 3 hrs. lecture/wk.

FL 192
Intermediate Chinese I (3 CR)
Prerequisite: FL 166 or equivalent
This course is a continuation of study of the Chinese language and culture, emphasizing the sounds, vocabulary, grammar, usage and readings of the Chinese language. Focus will be on developing more advanced conversational skills by increasing vocabulary and variety of sentence patterns. Cultural understanding will also be stressed. 3 hrs./wk.

FL 193
Intermediate Chinese II (3 CR)
Prerequisites: FL 192 or equivalent
This course is a continuation of study of the intermediate Chinese language and culture, emphasizing the sounds, vocabulary, grammar, usage and readings of the Chinese language. Focus will be on developing more advanced conversational skills by increasing vocabulary and variety of sentence patterns. Cultural understanding will also be stressed. 3 hrs. lecture/wk.

FL 205
Conversational Japanese (2 CR)
Prerequisite: FL 171 or two years of high school Japanese
This course is designed to enhance the ability of students to express themselves orally in Japanese through vocabulary building and reiteration of essential grammatical structures. The vocabulary will stress everyday situations and current events. 2 hrs. lecture/wk.
FL 220
Intermediate German I (3 CR)
Prerequisite: FL 121 or two years of high school German
This class will emphasize vocabulary building and grammar review primarily through extensive reading of German texts. There will be additional practice in listening comprehension, speaking and writing. Placement test recommended. Go to the Testing Center or to the Language Resource Center. 3 hrs./wk.

FL 221
Intermediate German II (3 CR)
Prerequisite: FL 220 or three years of high school German
This class will further expand the mastery of German vocabulary and structure through extensive reading of more advanced texts with additional practice in listening comprehension, speaking and writing. Placement test recommended. Go to the Testing Center or to the Language Resource Center. 3 hrs./wk.

FL 223
Conversational German (2 CR)
Prerequisite: FL 121 or two years of high school German
By applying vocabulary and structures presented in the text and handouts and by applying knowledge gained in a systematic review of German, the successful student will be able to communicate in German in situations that typically arise while traveling in a German-speaking country. Placement test recommended. Go to the Testing Center or to the Language Resource Center. 2 hrs./wk.

FL 230
Intermediate Spanish I (3 CR)
Prerequisite: FL 131 or two years of high school Spanish
This is a reading course designed to build vocabulary, increase understanding of Hispanic culture and increase speaking fluency. The course will include composition and conversation. Placement test recommended. Go to the Testing Center or to the Language Resource Center. 3 hrs./wk.

FL 231
Intermediate Spanish II (3 CR)
Prerequisite: FL 230 or three years of high school Spanish
Extensive study of Hispanic literature will be included in this class, along with advanced reading and grammar review. Placement test recommended. Go to the Testing Center or to the Language Resource Center. 3 hrs./wk.

FL 234
Conversational Spanish (2 CR)
Prerequisite: FL 131 or two years of high school Spanish
This course is designed to enhance students' ability to express themselves orally in Spanish through vocabulary building and reiteration of essential grammatical structures. The vocabulary will stress everyday life situations and current events. Placement test recommended. Go to the Testing Center or to the Language Resource Center. 2 hrs./wk.

FL 240
Intermediate French I (3 CR)
**FL 241**  
**Intermediate French II** (3 CR)  
**Prerequisite:** FL 240 or three years of high school French  
In this class, students continue their in-depth study of French grammar and improvement of vocabulary. All four communication skills (listening, speaking, reading, and writing) continue to be emphasized as reading assignments, compositions, listening comprehension exercises and class discussion become more complex. Placement test recommended. Go to the Testing Center or to the Language Resource Center. 3 hrs./wk.

**FL 243**  
**Conversational French** (2 CR)  
**Prerequisite:** FL 141 or two years of high school French  
This course is designed to build spontaneous speaking ability. Everyday situations and current events will be discussed in class. Placement test recommended. Go to the Testing Center or to the Language Resource Center. 2 hrs./wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $1 to 3.

**FL 246**  
**Conversational Russian** (2 CR)  
**Prerequisite:** FL 151 or two years of high school Russian  
This course is designed to enhance students' ability to express themselves orally in Russian through vocabulary building and reiteration of essential grammatical structures. The vocabulary will stress everyday situations and current events. 2 hrs./wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

**FL 250**  
**Conversational French: Cinema** (2 CR)  
**Prerequisite:** FL 141 or two years of high school French  
This course is designed to build students' speaking and listening comprehension proficiencies in French through the viewing and discussion of French and francophone films. Students will study vocabulary and grammatical structures presented in the course textbook and/or handouts and will view films and discuss them. Most topics of discussion will relate to everyday life and social situations as well as basic personal information. Students will also learn to identify and discuss the main components of a film and key cinematic techniques and concepts. 4 hrs. lecture/wk.

**FL 270**  
**Intermediate American Sign Language I** (3 CR)  
**Prerequisite:** FL 181 or INTR 121  
This course will focus on the development of intermediate American Sign Language communication skills. Emphasis will be on teaching in context comprehension skills and linguistic features of the language. 8 hrs. lecture-lab/wk. FL 270 and INTR 122 are the same course; do not enroll in both.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 40.

FL 271
Intermediate American Sign Language II (3 CR)
Prerequisite: FL 270 or INTR 122

The study of intermediate American Sign Language will continue in this course. It is designed to further intermediate communication skills in American Sign Language. Information about the linguistic and cultural features will be included in the context of language learning experiences. 6 hrs. lecture/wk. FL 271 and INTR 123 are the same course; do not enroll in both.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 40.

FL 298
French Culture and Civilization (3 CR)

In this travel-for-credit course, students will visit selected sites in France, where they will compare the French and U.S. languages, values, culture and institutions. Summer.

Game Development (GAME)

GAME 101
Computer Game Creation (4 CR)

This course is designed to present the skills and to provide the hands-on experience required to create computer games utilizing game development tools that require no programming. Typical game creation topics to be covered include 2D graphics, 3D modeling, music and sound effects. Typical tasks will include setting up a game development studio, manipulating graphic images, obtaining or creating sounds and music, installing and using various game development tools and working with pictures and animation. 3 hrs. lecture, 1.5 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 50.

GAME 102
The Business of Games (3 CR)

In this course, students are introduced to the business and process of game development, from the concept document to publishing. Students will learn the stages of game development within the context of the often complex relationship between developer, publisher and retailer. The course uses a participatory format emphasizing analytical thinking and problem solving, both key skills for persons seeking a career in the game development industry. 3 hrs lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 50.

GAME 110
Flash Gaming (4 CR)

This course is designed to present the skills and to provide the hands-on experience required to create computer games utilizing Flash MX 2004. Typical topics to be covered include 2D coordinate systems, basic game physics, game trigonometry, motion techniques, collision detection, collision reaction, conservation of momentum and energy, and tile based worlds. Typical tasks include creation of angle conversion functions; projection functions; controlling speed, velocity, and acceleration; applying Newton's three laws of motion, affecting gravity and friction; and creation of grid management systems. 3 hrs. lecture and 1.5 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 50.
GAME 140
Game Programming I - 2D (4 CR)
Prerequisite: CS 200
This course is designed to present skills and provide hands-on experience required to create two-dimensional games utilizing C++. Typical game topics will include programming in a GUI (graphical user interface) environment, game libraries, sound, music and working with graphics. Typical tasks will include setting up the environment, creating several games, using music and sound in a game, and exercises that will highlight important game programming concepts. 3 hrs. lecture, 1.5 hrs. lab/wk.

GAME 180
Artificial Intelligence for Games (3 CR)
Prerequisite: CS 200
Upon successful completion of this course, students should be able to deconstruct simple computer programs illustrating introductory concepts in artificial intelligence as applied to computer games. They will define terms and application areas in the field, and describe game representation and implementation techniques used in artificial intelligence for games. 3 hrs lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 50.

GAME 200
Game Design (3 CR)
Students will refer to the history of video games to describe the progression of development up to the modern forms of games available today. Students will critically analyze video games and identify and understand the thematic, visual, systematic, and geographical elements that contribute to making a fun user experience. Abstract systems will be introduced at the beginning of the course, and students will be invited to give their own examples. Models will be shown early as references for students when investigating specific video game structures later in the course. Students will develop a common lattice of "game design patterns" creating a common vocabulary and database. Creative habits and professional attitudes will be discussed. 3 hrs. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 50.

GAME 230
Game Programming II -3D (4 CR)
Prerequisite: GAME 140
This course will provide an opportunity for students to obtain the knowledge and skills necessary to create 3D multiplayer games. Topics include 3D models of players, vehicles, items, and structures; audio and music; graphical user interfaces and menus; UV wrapped textures and skins; environmental effects; and outdoor terrain. 3 hrs. lecture, 2 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 50.

GAME 250
Game Programming III-Capstone (4 CR)
Prerequisite: GAME 200 and GAME 230 and CIM 145 and ENGL 150 and Prerequisite or corequisite: GAME 180
This course is designed for students to apply the foundations of game design and game programming to a significant original game. Students should work within a team to analyze a problem, develop and present a proposed game design document, build a demonstrable prototype of the game and develop a significant portion of the finished product. Students should also develop a project schedule and present progress information to the class. Students should also develop job search skills and both written and oral communication skills. 3 hrs. lecture, 2 hrs. lab by arrangement/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 50.

GAME 255
Mobile Game Programming (4 CR)
Prerequisite: GAME 140 and GAME 200
This course is designed for students who want to learn mobile device game programming. The students will learn the various limitations on mobile devices and the options available for programming them. They will create a 2D game for mobile devices. 3 hrs lecture, 2 hrs lab per week.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 50.

Geographic Information Systems (KEOG)

KEOG 120
Introduction to Geographic Information Systems (3 CR)
Fundamental concepts of geographic information systems (GIS), elements of GIS, analysis of spatial information, real-world applications, map creation and analysis. Primary objective is to investigate interactive GIS applications rather than develop expert users. Course taught at MCC-Longview Community College, 500 SW Longview Road, Lee’s Summit, Missouri 64081, 816-672-2549, and MCC-Maple Woods Community College, 2601 NE Barry Road, Kansas City, Missouri 64156, 816-437-3355.

KEOG 220
Geographic Information Systems Database and Design (3 CR)
Concepts of Geo-database design and management in geographic information systems (GIS), SQL statements, geographic data types and functions, data entry, techniques of geographic information structure and indexing, querying techniques, searches, and spatial analysis, creation and use of metadata real-world applications. Course taught at MCC-Longview Community College, 500 SW Longview Road, Lee’s Summit, Missouri 64081, 816-672-2549, and MCC-Maple Woods Community College, 2601 NE Barry Road, Kansas City, Missouri 64156, 816-437-3355.

KEOG 224
Applications in Geographic Information Systems (3 CR)
Data collection, incorporation of local and global data, and analysis of spatial information that can be used to investigate major application areas, national GIS policy. This course is taught at MCC-Longview Community College, 500 SW Longview Road, Lee’s Summit, Missouri 64081, 816-627-2549, and MCC-Maple Wood Community College, 2601 NE Barry Road, Kansas City, Missouri 64156, 816-437-3355.

KEOG 228
Administrative Issues in GIS (1 CR)
Prerequisite: KEOG 120
Addresses issues unique to GIS operation such as implementation issues, decision making procedures, strategies for success, legal issues, involvement of management, NCGIA Guidelines, marking within an organization, strategic planning and industry outlook. 3 hrs. lecture/wk. 1-3 credit hour course. A three credit hour internship is required for a student with no GIS experience and 1 hour for someone already employed in the GIS field. This course is taught at MCC-Longview Community College, 500 SW Longview Road, Lee’s Summit, Missouri 64081, 816-672-2549, and MCC-Maple Woods Community College, 2601 NE Barry Road, Kansas City, Missouri 64156, 816-437-3355.
GEOS 230

Geographic Information Systems Internship A-C (1 CR)
Prerequisites: GEOS 120

Internship in a Geographic Information System facility. Experience real-workplace requirements, complete assigned tasks by hosting facility such as GIS data entry, data retrieval, GPS field work, documentation, or general GIS facility duties. Arranged meetings with instructor includes work ethics, expectations, challenges, evaluation. 225-675 hours. This course is taught at MCC-Longview Community College, 500 SW Longview Road, Lee’s Summit, Missouri 64018, 816-672-2549, and MCC-Maple Woods Community College, 2601 NE Barry Road, Kansas City, Missouri 64156, 816-437-3355.

Geoscience (GEOS)

GEOS 130

General Geology (5 CR)
In this introductory course the students will survey the geologic processes that form and shape the earth over geologic time using the models of the rock cycle, the hydrologic cycle and the tectonic cycle. In the laboratory they will conduct hands-on activities designed to enhance and reinforce the geologic concepts they have studied. 4 hrs. lecture, 3 hrs. lab/wk.

GEOS 140

Physical Geography (3 CR)
This course is a survey of the physical and environmental topics of geography, including the methods used to study them. The Earth as a system and the subsystems of the atmosphere, hydrosphere, lithosphere and biosphere constitute the major units of study. Students will acquire basic terminology that they will use to explain the earth, the atmosphere, the landscape, and the processes that occur on earth to change the landscape. Topics may include mapping with topographic maps and remote sensing; development and structure of the atmosphere; weather; water resources; climate; rock formation; mountain building; chemical and physical weathering; mass movement; soil formation; erosion, transportation and deposition by running water, wind, ice, currents, waves and tides; and the foundation that these processes build for the biosphere on earth. 3 hrs./wk.

GEOS 141

Physical Geography Lab (2 CR)
Prerequisite or Corequisite: GEOS 140 or the equivalent
Students in this course will practice their knowledge of physical geography through the collection and analysis of atmospheric data and the identification and interpretation of landforms and biological patterns as depicted on topographic maps and remotely sensed imagery. 4 hrs. lab/wk.

GEOS 145

World Regional Geography (3 CR)
In this introductory course, the student will first review the basic theories of the discipline of geography, the relationship of world population and resources and the factors affecting development. Next, the student will survey the major regions of the world to identify each region’s distinguishing geographic characteristics, summarize its past development and explain the key issues affecting the region’s future development. 3 hrs. lecture/wk.
Graphic Design (GDES)

GDES 120
Introduction to Graphic Design (3 CR)
This course is designed to acquaint the student with the various aspects of the graphic design field. Topics include the ways in which visual messages are used in society, the skills needed by a graphic designer and the potential areas of specialization and employment. This class will have guest speakers from the field of graphic design. Emphasis will be on assisting the student to make an informed decision about graphic design as a career. 3 hrs. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $40 to 50.

GDES 130
Drawing and Media Methods 1 (3 CR)
Prerequisite: ART 124 and GDES 120 or CD 120
This course will provide instruction in perceptual techniques, perspective theory and drawing process methods that relate to the visual analysis of the three-dimensional forms drawn from life. Focus will be on the application of theory, processes and techniques to attain structural accuracy and the illusion of three-dimensional form on a two-dimensional surface. 6 hrs. lecture and studio/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $200 to 400.

GDES 131
Drawing and Media Methods 2 (3 CR)
Prerequisite: GDES 130 or CD 130
This course is a continuation of Drawing and Media Methods I, with emphasis on the creative application of perspective theory, perceptual skill and drawing methods. Drawing methods and rendering techniques will be applied to visual problem-solving processes and the communication of design concepts. 6 hrs. lecture studio/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $200 to 400.

GDES 132
Typography (3 CR)
Prerequisite: ART 124 and either GDES 120 or CD 120
This course will provide instruction in the basic principles of contemporary typographic design. Information concerning typography, from traditional letterpress through digital type design and typesetting, will be included. The course content will emphasize effective methods of communicating to a mass audience through the printed letter, word, line and page. Working knowledge of QuarkXpress and Adobe InDesign required. 6 hrs. lecture and studio/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $200 to 400.

GDES 134
Layout Design (3 CR)
Prerequisite: GDES 132 or CD 132
This course will provide a basic study of layout elements. Students will acquire the skills necessary to produce layouts. These skills include photographic indication techniques, comp lettering, advertising and editorial grid systems and electronic page design. This course is typically offered in the spring semester only. 6 hrs. lecture and studio/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $200 to 400.

GDES 140
Technical Processes (3 CR)
Prerequisite: PHOT 121
This course covers digital prepress applications, scanning, image manipulation and color output devices. The transition from conventional to digital production will be covered. Analysis of output and file management and the understanding of proofing systems will be covered. Proper usage of peripheral equipment will be emphasized. 6 hrs. lecture and studio/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $200 to 400.

GDES 230
Drawing and Media Methods 3 (3 CR)
Prerequisite: GDES 131 or CD 131 and GDES 132 or CD 132 and GDES 134 or CD 134
This course will provide an understanding of the application of illustration to graphic design. Visual problem-solving processes acquired in Drawing and Media Methods 2 will be further developed through problems in image composition emphasizing expressive communication. Techniques in traditional and digital media are explored. This course is typically taught in the fall semester only. 6 hrs. lecture and studio/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $200 to 400.

GDES 231
Advanced Typography (3 CR)
Prerequisite: GDES 134 or CD 134
This course is a continuation of Layout Design. Emphasis will be on typographic solutions that explore verbal/visual messages. Projects include designs for publication, such as posters, brochures, packaging and graphic campaigns. Typography as a functional and experimental medium will be stressed. Design problem-solving for a diverse range of specifications, including audience, client needs and budget constraints, are included. Traditional and digital tools will be incorporated to produce comprehensives. This course is typically offered in the fall semester only. Working knowledge of Macromedia Dreamweaver is required. 6 hrs. lecture and studio/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $200 to 400.

GDES 235
Production Methods (3 CR)
Prerequisites: GDES 134 or CD 134 and GDES 140 or CD 140
This course will provide the fundamentals of preparing art for reproduction. Traditional camera-ready art techniques and digital prepress production methods will be emphasized. This course is typically offered in the fall semester only. 6 hrs. lecture and studio/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $200 to 400.

GDES 236
Electronic Production (3 CR)
Prerequisites: GDES 230 or CD 230 and GDES 231 or CD 231 and GDES 235 or
CD 235 and either PHOT 123 or CIM 135
This course is a continuation of the Production Methods course, providing experience in digital prepress and electronic production techniques. The student will apply production skills to problems of professional scope and complexity, including specialty processes, trapping and color separation. Preparation of graphic files for screen presentation and for the Web will be explored. This course is typically offered in the spring semester only. 6 hrs. lecture and studio/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $200 to 400.

GDES 244
Communication Systems (3 CR)
Prerequisites: GDES 230 or CD 230 GDES 231 or CD 231 and GDES 235 or CD 235 and either CIM 135 or PHOT 123
This course will explore the scope and potential of graphic design as a vehicle for visual communication in contemporary society. Signs and symbols, as well as communicative power of typographic, hand graphic and photographic modes, will be studied. Traditional and electronic methods will be used to develop projects. This course is typically offered in the spring semester only. 6 hrs. lecture and studio/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $200 to 400.

GDES 245
Advanced Design Practice (3 CR)
Prerequisites: GDES 230 or CD 230 and GDES 231 or CD 231 and GDES 235 or CD 235 and either CIM 135 or PHOT 123
This course will focus on the use of the student's total design capability and technical knowledge in solving graphic design problems of professional scope and complexity. Students will have the opportunity to work with three art directors and produce three professional projects for potential inclusion in their portfolios. This course is typically offered in the spring semester only. 6 hrs. lecture and studio/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $200 to 400.

GDES 272
Professional Preparation (3 CR)
Prerequisites: GDES 231 or CD 231 and GDES 235 or CD 235 and GDES 230 or CD 230 and PHOT 123 or CIM 135 Prerequisite: The student must have completed all required studio courses in the graphic design program prior to the semester for which he or she is enrolling in this course or be co-enrolled in all fourth-semester studio courses.
This course will provide graphic design majors instruction in the organization and presentation of his or her work in a portfolio format of professional quality. A portfolio, digital portfolio archive, self promo, resume and business ensemble will be produced. Instruction in interviewing techniques and employment searches will also be provided. 6 hrs. lecture and studio/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $200 to 400.

GDES 275
Graphic Design Internship (1 CR)
Prerequisite: Graphic design faculty review committee approval
Students will work in an approved training situation under instructional supervision. The internship is designed to give the student the opportunity to use the skills learned in the graphic design program. Student interns will complete a
minimum of 180 hours on the job and will be compensated with at least the minimum hourly wage.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $50 to 100.

Health Care (HC)

**HC 101**
**Introduction to Health Care Delivery** (3 CR)
This course is an introduction to the health care delivery system with an overview of health careers and the roles and responsibilities of members of the health care team. Emphasis will be on how to work within a health care team, effective communication skills, professional safety and workplace skills, and legal and ethical rights and responsibilities of patients and health care workers. 3 hrs. lecture/wk.

**HC 125**
**International Awareness Field Study** (2 CR)
This is a service-learning course. While partnering with a not-for-profit agency, teams of students will deliver service to a community in a developing country that suffers from extreme poverty. The service provided will vary depending on the identified needs of the community. While serving in the developing country, students will gain an understanding of the culture, language and health status of the people. Students will be exposed to the social, political and economic aspects of life that shape the community. Prior to travel, students are required to attend preparation meetings, fund raise and participate in a local service project. 16 hrs. lecture, 40 hrs. field study

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 450.

Health Care Interpreting (HCI)

**HCI 110**
**Introduction to Interpreting** (3 CR)
Prerequisite: Interview and permission of the facilitator. Potential indicators of proficiency may be required.
This course provides a practical and theoretical introduction to the field of bilingual interpreting. Students will study interpreter roles and skills, modes of interpreting and translating, ethical issues, professional standards of practices, cultural competence and applied linguistics. Upon completion, students should have a strong foundation of knowledge regarding the profession of interpreting and should be ready for specific skills training. This course is taught in English. 3 hrs. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

**HCI 120**
**Interpreting Skills I** (3 CR)
Prerequisite or corequisite: HCI 110 with a grade of "C" or higher
This course develops students' skills in sight translation and consecutive interpreting. Listening and memory skills, communication strategies and intervention techniques also are emphasized. Upon completion, students should be able to sight translate short written texts and consecutively interpret non-technical, interactive messages between Spanish and English. This course is taught in English with some Spanish terminology and practice. 2 hrs. lecture and 2.5 hrs lab/wk.
HCI 130
Interpreting Skills II (3 CR)
Prerequisite: HCI 110 with a grade of "C" or higher and HCI 120 with a grade of "C" or higher
This course develops students' skills in simultaneous interpreting and written translation. In addition, through classroom, lab and field experiences, students practice the three interpretation modes they have learned in the program and improve all aspects of their interpreting while forming good professional habits. Self-assessment, professional growth and development of a personal philosophy of interpreting are stressed. This course is taught in English with some Spanish terminology and practice. 2 hrs lecture and 2.5 hrs lab/wk.

HCI 140
Spanish Medical Interpreting (3 CR)
Prerequisite: HCI 120 with a grade of "C" or higher and Prerequisite or corequisite: HCI 130 with a grade of "C" or higher and AAC 130 with a grade of "C" or higher
This course develops the knowledge, techniques, and practices needed to function as a bilingual interpreter in a medical environment. Students will be introduced to basic medical conditions, procedures, courses of treatment and equipment, with vocabulary and terminology in both English and Spanish. Upon completion, students should be able to apply medical interpreting and translating techniques in a variety of health care settings. This course is taught in English with some Spanish terminology. 3 hrs. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

HCI 180
Medical Interpreting Practicum (2 CR)
Prerequisite: HCI 130 with a grade of "C" or higher and HCI 140 with a grade of "C" or higher and Prerequisite or corequisite: HC 101 with a grade of "C" or higher
Students will observe and interpret at assigned medical facilities, participate in organized class discussions about their interpreting experiences and develop a personal philosophy of interpreting. Both classroom meetings and fieldwork are required for this class. 1 hr. lecture, 3 hrs. practicum/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

Health Information Technology (KMRT)

KMRT 101
Introduction to the Health Information Technology Profession (2 CR)
Orientation to the health information management profession and the supporting professional organization. History and evolution of health care delivery, facilities, and practitioners. Supervisory functions of the medical record department. 2 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of health information technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KMRT 102
Health Records Systems, Analysis and Control (3.5 CR)
Content, storage, retrieval, control, and retention of medical records, especially hospital records. Forms design and control, microfilming, and computer applications for medical record departments. 2.5 hrs. lecture, 2 hrs. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of health information technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.
KMRT 103

Medical Terminology for Health Records (3 CR)
Professional language of medicine. Analysis of medical terms by roots and combining forms. Disease processes, diagnostic and operative procedures for each system of the body. Selected medical specialties. 3 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of health information technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KMRT 106

Health Care Statistics (3 CR)
Prerequisite: KMRT 102 or approval of instructor.
Vital health statistics, their uses and values. Abstracting and analysis of data from medical records, collection of data from other sources, and methods of presenting the information. 2.5 hrs. lecture, 1 hr. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of health information technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KMRT 108

Legal Aspects of the Health Information Technology Profession (2 CR)
Prerequisite: KMRT 102 or approval of the instructor
Legal principles applied to the health care professions. Confidentiality of the medical record, informed consent, the medical record as a legal document, release of clinical information, response to subpoena, and testimony. 2 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KMRT 109

Directed Practice I (2.5 CR)
Prerequisite: BIOL 144 and KMRT 102
Supervised on-the-job training in a medical records department. Supervised discussion of clinical experiences. 2 hrs. lab, 3 hrs. field studies/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of health information technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KMRT 110

Pharmacology (1.5 CR)
Prerequisites: BIOL 144 and KMRT 103
Introduction to basic pharmacology with a body systems approach to disease. 1 hr. lecture, 1 hr. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of health information technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KMRT 200

Introduction to Classification Systems (1 CR)
Classification systems used to organize clinical data in health care. The ICD-9-CM classification system will be introduced. 1 hr. lecture/wk. Course taught at Penn Valley Community College. Students should contact the MCC-Penn Valley coordinator of health information technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.
Quality Management (3 CR)
Prerequisite: KMRT 108 or approval of instructor
Methods of assessing and improving quality in a health care setting. Concept of continuous quality improvement. Compliance with guidelines of regulatory and accrediting agencies. 2.5 hrs. lecture, 1 hr. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of health information technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KMRT 202
Class. Systms/Nomenclatures/Indexes & Registers I (4 CR)
Prerequisite: KMRT 200
Nomenclatures and classification systems for coding and indexing diagnoses and procedures with special emphasis on ICD-9-CM. 2.5 hrs. lecture, 3 hrs. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of health information technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KMRT 203
Directed Practice II (2 CR)
Prerequisite: BIOL 144 and KMRT 202 and KMRT 210 or BIOL 144 and concurrent enrollment in KMRT 202 and KMRT 210
Supervised learning experience in a medical records department under the direction of a credentialed professional involving a variety of procedures including coding and abstracting health information, medical transcription, and release of information. Supervised discussion of clinical experiences. 1 hr. lab, 3 hrs. field studies/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of health information technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KMRT 206
Specialized Health Records Systems (2 CR)
Overview of specialized health care systems with an emphasis on record maintenance, requirements of accrediting and regulating agencies and specialized health information registers. 2 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of health information technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KMRT 207
Class. System/Nomenclature/Index & Register II (3 CR)
Prerequisites: BIOL 144 and KMRT 202
Nomenclatures and classification system for coding and indexing diagnoses and procedures with emphasis on specialized health care record systems. Impact of DRGs on the coding function. 2 hrs. lecture, 2 hrs. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of health information technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KMRT 208
Directed Practice III (2 CR)
Prerequisite: KMRT 203
Supervised on-the-job instruction about health record systems in specialized health care facilities. Supervised discussion of directed practice experiences. 2 hrs. lab, 2 hrs. field studies. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of health
information technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KMRT 210

Classif Systems & Nomenclatures/Ambulatory Care (3 CR)
Prerequisites: KMRT 200 and BIOL 108/PVCC or concurrent enrollment in BIOL 108/PVCC

Outpatient coding, classification, and payment systems. Assignment of CPT-4 codes to procedures and services. Common outpatient procedures. Role of the health information technologist in ambulatory coding & billing. 2 hrs. lecture, 2 hrs. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of health information technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KMRT 211

Organization & Administration in Health Informat (3 CR)
Prerequisite: KMRT 201, 202, and 203

General principles of management and organization as applied to health information settings. Budget development and control, personnel recruitment and retention, performance appraisal, and progressive discipline. Office design, productivity monitoring, work simplification, job analysis and job descriptions, and quality management. 2.5 hrs. lecture, 1 hr. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of health information technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KMRT 212

Intro to Medical Insurance & Office Procedures (1 CR)

An overview of medical office systems and administrative procedures, with emphasis on insurance billing, compliance with regulatory agencies, and technology tools, including medical transcription. 1 hr. lecture, 1 hr. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of health information technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

Health Occupations (AVHO)

AVHO 102
Certified Nurse Aide (5 CR)
Prerequisite: ENGL 121 with a grade of "C" or higher or Appropriate Compass reading test score. Documentation of current TB test and current CPR for Health Care Providers and a Social Security Card.

This course provides classroom and clinical instruction for the primary care of clients in long-term and acute-care facilities. Students learn skills for daily hygiene, bedside care, vital sign measurement, positioning and safe transfer of clients. The class prepares and schedules the student to take the Kansas CNA examination. In-state tuition and fees $228 total. Out-of-state tuition and fees $823 total. 96 contact hrs. For additional information go to the jccc.edu web page: click on classes; click on credit class search; click the semester; course prefix is AVHO Health Occupations. Click on CRN number for information. The credit reflected in this course is for transcript reporting, recording and transfer only. For more information, go to http://www.jccc.net/home/depts/5104/site/newstudent/types/adm_avs/CNA_Information-Requirements

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 50.
AVHO 103  
Certified Nurse Aide Refresher Course (1 CR)  
Prerequisite: Kansas CNA Certification  
This 21-hour CNA refresher course provides classroom and laboratory experience to update the inactive CNA. The student will discuss the nurse aide’s responsibility in the current health care system and the importance of resident rights. The student will demonstrate safety measures, infection control procedures, personal care skills, measurement of vital signs and transfers, positioning and turning. 21 contact hours. In-state tuition and fees $48 total. Out-of-state tuition and fees $178 total. For additional information go to the jccc.edu web page: click on classes; click on credit class search; click the semester; course prefix is AVHO Health Occupations. Click on CRN number for information. The credit reflected in this course is for transcript reporting, recording and transfer only. For more information, go to http://www.jccc.net/home/depts/5104/site/newstudent/types/adm_avs/CMA_Update_Info-Requirements

AVHO 104  
Certified Medication Aide (4 CR)  
Prerequisite: Appropriate Compass reading test score, and proof of Kansas CNA certification or having completed the state CNA examination and awaiting results. If CNA examination results are not satisfactory, the student must withdraw from the CMA course. Documentation of current TB skin test - negative results within the last year. Current CPR for Health Care Providers and Social Security card.  
This course includes the development of knowledge related to many commonly prescribed medications. Students will learn the classification, side effects and techniques of administration, including preparation and accurate distribution of medications. Safe administration of oral medications is discussed and demonstrated. Students will be scheduled to take the Kansas CMA examination. In-state tuition and fees $199 total. Out-of-state tuition and fees $695 total. 80 contact hrs. For additional information go to the jccc.edu web page: click on classes; click on credit class search; click the semester; course prefix is AVHO Health Occupations. Click on CRN number for information. The credit reflected in this course is for transcript reporting, recording and transfer only. For more information, go to http://www.jccc.net/home/depts/5104/site/newstudent/types/adm_avs/CMA_Information-Requirements  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 50.

AVHO 106  
Home Health Aide (1 CR)  
Prerequisites: Proof of Kansas CNA certification and appropriate Compass reading test score Requirements - copy of current TB test, current CPR for Health Care Providers card, social security card  
This course provides the student with information necessary for nutritional meal planning, task modification, emotional support and personal service to clients and families needing health care assistance at home. Students will be scheduled to take the Kansas HHA certification examination. In-state tuition and fees $93 total. Out-of-state tuition and fees $223 total. 21 contact hrs. For additional information go to the jccc.net web page: click on classes; click on credit class search; click the semester; course prefix is AVHO Health Occupations. Click on CRN number for information. The credit reflected in this course is for transcript reporting, recording and transfer only. For more information, go to http://www.jccc.net/home/depts/5104/site/newstudent/types/adm_avs/HHA_Information-Requirements

AVHO 108  
Certified Medication Aide Update (1 CR)  
Prerequisite: Proof of Kansas CMA certification and Proof of Kansas CNA Certification
This course meets the continuing education requirements for licensed Certified Medication Aides. The course includes review of commonly used drugs and their interactions with foods and other drugs. Also included are discussions of legal implications and regulations related to administration and record keeping, biological effects of medications on the elderly and a review of basic safety principles. 15 contact hours. In-state tuition and fees $37 total. Out-of-state tuition and fees $130 total. For additional information go to the jccc.edu web page: click on classes; click on credit class search; click the semester; course prefix is AVHO Health Occupations. Click on CRN number for information. The credit reflected in this course is for transcript reporting, recording and transfer only. For more information, go to http://www.jccc.net/home/depts/5104/site/newstudent/types/adm_avs/CMA_Updated_Info-Requirements

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20.

AVHO 112
Rehabilitative Aide (2 CR)
Prerequisite: Proof of current Kansas CNA certification
This course includes both classroom and laboratory instruction for the aging process as well as the role of the rehabilitative aide as a member of the health care team. Students learn the skills required to enhance the mobility of elderly residents in long-term care as well as the skills required to care for residents with special needs. A certificate from the college will be issued. In-state tuition and fees $83 total. Out-of-state tuition and fees $281 total. 32 contact hrs total. For additional information go to the jccc.edu web page: click on classes; click on credit class search; click the semester; course prefix is AVHO Health Occupations. Click on CRN number for information. The credit reflected in this course is for transcript reporting, recording and transfer only. For more information, go to http://www.jccc.net/home/depts/5104/site/newstudent/types/adm_avs/RA_Information_-_Requirements

AVHO 115
I V Therapy For LPNs (3 CR)
Prerequisite: Proof of Kansas LPN licensure. Present evidence of personal liability insurance at the time of application for admission to the program and maintain it throughout the clinical practicum. Maintenance of current CPR certification for the duration of the course. Evidence of negative TB test or chest X-ray within the past year.
This course provides review of basic physiology of the circulatory system and instruction in principles of site selection for veins appropriate for I.V. therapy. This course meets the Kansas requirements for LPNs seeking certification in I.V. therapy. In-state tuition and fees $196 total. Out-of-state tuition and fees $494 total. 48 contact hrs total. For additional information go to the jccc.edu web page: click on classes; click on credit class search; click the semester; course prefix is AVHO Health Occupations. Click on CRN number for information. The credit reflected in this course is for transcript reporting, recording and transfer only. For more information, go to http://www.jccc.net/home/depts/5104/site/newstudent/types/adm_avs/IV_Therapy_Info-Requirements

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $50 to 100.

Heating, Vent., Air Conditioning (HVAC)

HVAC 121
Basic Principles of HVAC (4 CR)
Prerequisite or corequisite: HVAC 123
This is a beginning course in heating, ventilation and air conditioning technology that is appropriate for HVAC majors and other interested students. Upon successful completion of this course, the student should be able to identify the
function of the basic components of an air-conditioning system. Topics will include heat laws, refrigerants, oils and refrigeration cycles of residential and light commercial systems. In the lab, students will design, assemble and operate a working refrigeration system. Competencies will include brazing, wiring, evacuating and charging a system. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 3 hrs. lecture, 3 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30 to 150.

HVAC 123
Electromechanical Systems (4 CR)
This is a beginning course in electrical theory that is required for HVAC, electrical and power plant technology, but is appropriate for all interested students. Common components found in the HVAC industry are used to develop these skills. Upon successful completion of this course, the student should be able to identify electrical components and their relationships to the various repair and troubleshooting techniques. The materials in this course will prove useful to service technicians whose background in electricity is limited. The course includes material from basic electrical theory to troubleshooting complex electrical circuits. This course will provide practice in application of electrical theory as well as in the interconnection of components of heating and cooling systems. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 3 hrs. lecture, 3 hrs. lab/wk.

HVAC 124
Equipment Selection and Duct Design (4 CR)
Prerequisites: HVAC 121 and HVAC 123
Upon successful completion of this course, the student should be able to identify techniques and procedures used in the residential construction industry to determine proper sizing of HVAC equipment and ducts to meet the requirements for a high-quality, comfortable climate in terms of heating, cooling, humidifying, dehumidifying, ventilation and air cleaning or filtering. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 3 hrs. lecture, 3 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $5 to 10.

HVAC 125
Energy Alternatives (2 CR)
Upon successful completion of this course, the student should be able to identify diverse methods of alternate energy production. Some of the technologies that will be discussed are wind energy, photovoltaic energy, nuclear energy, hydroelectric energy, biomass and alternate fuel vehicles. Students will understand the advantages of using various alternate energy technologies, the effects or by-products of each and the problems that might be encountered. Some student research will be included in the context of the course. Emphasis will be on the most promising or effective alternate energy technologies available. 2 hrs. lecture/wk.

HVAC 127
Residential Systems: Heating (4 CR)
Prerequisites: HVAC 121 and HVAC 123
Upon successful completion of this course, the student should be able to identify all the components and accessories and their relation to the functions of residential heating systems. Topics covered will be natural gas, propane, oil, forced air and hydronic-types of equipment. Emphasis will be on the electrical diagrams and mechanical principles of operation of these systems. Practical instruction in service diagnosis procedures and techniques for efficient operation, maintenance, troubleshooting and repair of these systems make up the lab

fall-2007 Copyright 2007 Johnson County Community College Page 315
HVAC 137
Residential Systems: Air Conditioning (4 CR)
Prerequisite: HVAC 121 and HVAC 123
Upon successful completion of this course, the student should be able to identify all the components and accessories and their relation to the functions of residential air conditioning systems. Topics covered will include electric and natural gas air conditioner condensing units, metering devices, evaporation coils, and refrigerants. Electrical diagrams, psychrometric charts and techniques for efficient operation, maintenance, troubleshooting and repair of these systems make up the laboratory portion of the course. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 3 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30 to 150.

HVAC 143
Reading Blueprints and Ladder Diagrams (2 CR)
Upon successful completion of this course, the student should be able to identify all types of industrial plant blueprints. Included will be a discussion of machine parts and drawings as well as hydraulic, pneumatic, piping and plumbing, electrical, air conditioning and refrigeration drawings. Sketching used in industrial plants will be covered. A portion of the course will cover the types and use of ladder logic and various components such as input, output and diagrams. The structure, symbols and terminology of ladder logic diagrams will be introduced. Logic and decision-making functions are presented, along with practice in creating ladder logic diagrams. 2 hrs. lecture/wk.

HVAC 146
Plumbing Systems Applications (3 CR)
Upon successful completion of this course, the student should be able to demonstrate familiarity with many aspects of fuel gas piping, gas appliance venting, water heater installations, combustion air requirements and proper piping techniques. Classroom lectures center on methods for proper sizing of both fuel gas piping and vent sizing with emphasis on interpretation of both the Uniform Plumbing Code and the National Fuel Gas Code. There will be an emphasis on combustion air requirements. Laboratory competencies will include identification of materials and proper installation methods of fuel gas lines, vent piping systems and copper water line connections. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 2 hrs. lecture, 3 hrs. lab/wk.

HVAC 148
HVAC Installation and Start-up Procedures (3 CR)
Prerequisites: HVAC 121 and HVAC 123
Upon successful completion of this course, the student should be able to identify techniques and procedures to install new systems, retrofit systems and do an initial start-up, check-out furnaces and air conditioners. Topics will include electrical requirements, flue appliance location, permit and inspections, combustion air, sheet metal ducts, and mechanical standards. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 2 hrs. lecture, 3 hrs. lab/wk.
HVAC 150
Refrigerant Management and Certification (1 CR)
Upon successful completion of this course, the student should have knowledge and confidence necessary to pass the EPA Refrigerant Certification exam and properly, efficiently and responsibly handle refrigerants as set forth in the Clean Air Act of 1990. 1 hr. lecture/wk.

HVAC 155
Workplace Skills (1 CR)
Upon successful completion of this course, the student should be able to identify the job skills necessary to have a successful career in the field of their choice. Topics included listening skills, oral communication, human relations, decision making/problem solving, how to work as a team, time and resource management, work ethics, career planning and resume building. 1 hr. lecture/wk.

HVAC 167
Sheet Metal Layout and Fabrication (3 CR)
Upon successful completion of this course, the student should be able to identify the components, equipment and operation for sheet metal layout and fabrication. Practice problems are included at the end of each unit in order to provide the student with an opportunity to apply the methods attained by sheet metal layout. Shop facilities are available. The patterns will be fabricated and joined into a line of fittings. This gives the most complete test of pattern accuracy and also provides the experience needed by a competent layout person. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 2 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30 to 150.

HVAC 221
Commercial Systems: Air Conditioning (4 CR)
Prerequisites: HVAC 121 and HVAC 123
Upon successful completion of this course, the student should be able to identify cooling systems used in commercial, institutional and industrial applications. Types of equipment include reciprocating and centrifugal chillers, absorption systems, cooling towers, fans and air handlers. Topics also include psychrometrics, pressure-enthalpy diagrams and commercial load calculations, evacuation and charging. 3 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30 to 150.

HVAC 223
Commercial Systems: Heating (4 CR)
Prerequisite: HVAC 123
Upon successful completion of this course, the student should be able to identify large heating systems used in commercial, institutional and industrial applications. Types of equipment include hot water, low-pressure and high-pressure steam boilers; auxiliary, safety and flame safeguard controls; steam traps; condensate return; and water treatment systems. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools. 3 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30 to 150.

HVAC 229
Advanced Control Systems (4 CR)
Prerequisite: HVAC 123 and HVAC 121
Upon successful completion of this course, the student should be able to identify
the components and theory in electronic, pneumatic and direct digital control
systems as they apply to HVAC systems. This course will reinforce and build on
those competencies learned in HVAC 123 and HVAC 121. Classroom lectures will
center on components, wiring diagrams, calibration and sequences of operation,
system components, theory of operation, wiring diagrams and installation
methods. Laboratory competencies include identification, calibration, maintenance
and problem diagnosis of pneumatic, electronic and DDC systems, thermostat
controllers and their related sensors/transmitters. Students will program a
complete building energy management system. Interactive instructional media
will be used in this course. 3 hrs. lecture, 3 hrs. lab/wk
Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $30 to 150.

HVAC 231
HVAC Rooftop Units (3 CR)
Prerequisites: HVAC 121 and HVAC 123
Topics will include electrical controls and economizers of various rooftop units,
roof curbs, installation, service, diagnosis, evacuation and charging of typical light
commercial rooftop units. The student will be required to provide ANSI Z87 safety
glasses and may be expected to provide other basic hand tools and/or equipment.
2 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $30 to 150.

HVAC 235
Residential Heat Pump Systems (4 CR)
Prerequisites: HVAC 121 and HVAC 123
Upon successful completion of this course, the student should be able to identify
the function of all components and accessories of all electric and dual heat pump
systems. Topics will include electric heat and heat pump fundamentals, principles
and applications; refrigerant flow controls; defrost cycle controls; heat pump
thermostats; indoor air distribution; dual fuel controls; and change-over stats.
Emphasis will be on the electrical diagrams and mechanical principles of
operation. These systems, as well as practical instruction in service and diagram
procedures and techniques for the efficient operation, maintenance,
troubleshooting and repair of these systems, will make up the lab portion of the
course. The student will required to provide ANSI Z87 safety glasses and may be
expected to provide other basic hand tools and/or equipment. 3 hrs. lecture, 3 hrs.
lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $30 to 150.

HVAC 271
HVAC Internship (3 CR)
Prerequisite: Program facilitator approval Required
Upon successful completion of this course, the student should be able to apply
classroom knowledge to an actual work situation. The internship will provide
advanced students with on-the-job experience under the supervision of
professionals in the industry. The work will be developed cooperatively with area
employers, college staff and each student to provide a variety of actual job
experiences directly related to the student’s career goals. 1 hr. lecture, minimum
15 hrs. on-the-job training/wk.

History (HIST)

HIST 120
Local and Kansas History (3 CR)
This course introduces students to the history of Kansas from the beginning of the
Late Ceramic Period (1500) to the present. Emphasis will be on the examination of the living patterns of the various peoples who have inhabited the region during this time frame. This course will also analyze the social and economic factors and political objectives that transformed the central plains from the domain of the bison-hunting Plains Indian to a society based in a market-agricultural economy. 3 hrs./wk.

HIST 125
Western Civilization: Readings and Discussion I (3 CR)
The course explores the major developments, ideas and personalities that have shaped Western civilization. Organized around a readings and discussion format, students engage some of the world’s most provocative and influential literature. Western Civilization I begins with the ancient cultures of the Middle East, Greece and Rome and follows the development of Western thought from the medieval period to the Renaissance and Reformation. 3 hrs. lecture/wk. It is not necessary to take HIST 125 before HIST 126.

HIST 126
Western Civilization: Readings and Discussion II (3 CR)
The course explores the major developments, ideas and personalities that, for the past 500 years, have shaped Western civilization. Organized around a readings and discussion format, the course allows students to engage some of the world’s most provocative and influential literature. Western Civilization II begins with the three revolutions that define modernity - Scientific, French, and Industrial. The course also highlights the new ideologies of the 19th century and more recent themes of modernization and the cultural crisis of the 20th century. 3 hrs. lecture/wk. It is not necessary to take HIST 125 before HIST 126. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

HIST 128
Medieval History (3 CR)
Medieval History is a detailed survey of the period from late Roman Antiquity to the early Renaissance. Primary and secondary texts and visual resources will be used to illuminate the period that saw first the decline into relative stagnation caused by barbarian onslaughts, and then gradual reemergence of a powerful civilization that revitalized itself by renewing the insights of ancient times. 3 hrs. lecture/wk.

HIST 129
Early Modern Europe 1500-1789 (3 CR)
This course is an introduction to early modern European history, with emphasis on the economic, social and political developments that have shaped the modern world: the Renaissance; the Catholic and Protestant Reformations; the rise of nation-states; the new inter-cultural contact between Europe and the world; the Commercial Revolution and the Enlightenment. 3 hrs. lecture/wk.

HIST 130
European History Since 1789 (3 CR)
This course covers the major political, intellectual, and economic and social developments in Europe from the end of the 18th century to the present, including modern political ideologies, major wars, the growth of strong governments, the effect of modern science on social and political thought, the Industrial Revolution, the creation of large middle classes, and the effect of modern technology. 3 hrs./wk.
HIST 132
History of Africa (3 CR)
This course introduces students to the history of Africa until the present. It emphasizes the fundamental characteristics and long-term developments in the evolution of African political and socioeconomic institutions. 3 hrs./wk.

HIST 135
Eastern Civilization (3 CR)
This course is an introduction to the societies and cultures of Asia. Through lectures, readings and discussions, the course will focus on aspects of the history, politics, art, literature and economics of China, Japan and India. The major traditional themes and concepts of these civilizations will be stressed. 3 hrs./wk.

HIST 137
African American Studies (3 CR)
This course surveys the major themes and developments in African-American culture and history from the colonial period to the present. The course is divided into three five-week segments. Each segment relates to a historical period; slave, post-emancipation and contemporary. Each segment also permits a flexible, interdisciplinary approach that will include literature, fine arts and the social sciences. 3 hrs. lecture/wk.

HIST 140
U.S. History to 1877 (3 CR)
This survey course in U.S. history will emphasize developments and trends in American society from the early period of discovery and settlement through Reconstruction. Topics will include the Colonial era, the Revolutionary period, the Federalist era, the expansion of the Republic during the mid-19th century, and the Civil War and Reconstruction. The emphasis will be on analysis and interpretation of these developments. 3 hrs./wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

HIST 141
U.S. History Since 1877 (3 CR)
This survey course will emphasize developments and trends in American society from the 1870s to the late twentieth century. Topics will include the Reconstruction era, industrialization, immigration, reform movements, World Wars I and II, social and cultural trends, and foreign policy. Emphasis will be on analysis and interpretation of these developments. 3 hrs./wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

HIST 151
World History I: Traditional World (3 CR)
This course provides students an introduction to the history of the major world civilizations up to approximately 1500. Upon successful completion of the course, students will be able to identify the major political, social, economic and technical developments in the histories of Egypt, Mesopotamia, other Near Eastern civilizations, Rome, Greece, India, China, sub-Saharan Africa, pre-Columbian America and medieval Europe. Students will be able to define the concept of a traditional, as opposed to a modern, society. They will be able to compare these societies with each another and with the modern society of the contemporary United States. 3 hrs. lecture/wk.
HIST 152  
World History II: Modern World (3 CR)  
This course provides students an introduction to the history of the world since approximately 1500. Upon successful completion, students will be able to describe and analyze the development of modernism, which occurred first in the West, including the scientific revolution, secularism, industrialism and the rise of new political ideologies. They will be able to trace the expansion of modernization in both the Western and non-Western worlds and the response to modernism in non-Western countries. 3 hrs. lecture/wk.

HIST 160  
Modern Russian History (3 CR)  
This course examines Russian history within a Eurasian context. It is a study of three centuries of the social, political, economic and cultural forces that shaped Russian history, beginning with a survey of the events that place Russia outside the Western historical tradition. 3 hrs./wk. or online. Usually this course is offered in the fall semester either on-campus or online. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

HIST 162  
Modern Latin America (3 CR)  
This course is an examination of the economic, social, political and cultural history of Latin America since independence. Regional identities, such as Central America, and independent national states, such as Cuba and Mexico, are explored. Literary and intellectual trends together with contemporary popular culture are featured in the course. 3 hrs./wk.

HIST 164  
Japan: Changing Tradition (3 CR)  
Prerequisite: assistant dean approval  
This self-paced course explores Japanese history, politics and economics from the early days of the Tokugawa regime from 1500 to the present. The thrust of the course is geared to exploring the themes that permeate the Japanese experience over the past two centuries.

Home Economics (HMEC)

HMEC 151  
Nutrition and Meal Planning (3 CR)  
This course covers the basic food groups, their use in meal planning, their functions and their nutritional values. In addition to the current trends in eating, this course covers diets and exercise, as well as fad diets, life-cycle nutritional needs, and the effects of nutrient intake on growth and development. This is a required course for the food and beverage program and the chef apprenticeship program. 3 hrs./wk.

Honors Program (HON)

HON 250  
Honors Forum: In Search of Solutions (3 CR)  
This course will focus on two topics during the semester and how those topics
affect the local, national and global communities. The course complements other courses in the curriculum by applying the dual emphases of specific content and skill development to the areas of interaction, analysis, synthesis and conflict resolution. Students will study each issue in a historical and contemporary context, develop a greater understanding of the issues, and take a position on the issues. This position will be subjected to further challenge and dialogue. In this course, the process of reflecting, researching, analyzing and evaluating are as important as content. As points of view concerning the issue are developed, the students must articulate and defend these viewpoints as they are challenged by others and make judgments among alternative options. The first topic is selected by the faculty members, then midway through the semester, the students will select the second topic. This course will require students to use many forms of research, including the Internet and electronic databases. In addition, students will be expected to use e-mail for sharing information with classmates and instructors.

Horticulture (HORT)

HORT 115  
Home Horticulture (2 CR)  
This course provides basic knowledge for the design and management of home lawns, flower and vegetable gardens, and landscape trees and shrubs. Students will learn basic plant anatomy and physiology concepts; how to recognize some common plant deficiency symptoms; the use of fertilizers and pesticides; identification of some common trees, shrubs and garden plants; and the major considerations of good landscape design. 1 hr. lecture, 2 hrs. lab/wk.

HORT 120  
Introduction to Urban Agribusiness (3 CR)  
This is a general survey course for students who wish to learn more about the broad field of agribusiness. Particular emphasis is on the many facets of landscape and grounds management. Career areas that will be covered are interior landscaping, greenhouse management, the position of pesticide applicators’ position and golf course management. 3 hrs. lecture/wk.

HORT 135  
Landscape Design (3 CR)  
The course is designed to familiarize students with aspects of landscape design. Students will analyze the site and preferences of the client and complete a landscape design following basic design principles. Students will learn to make a hand drawing to scale as well as being introduced to computer-aided design. Note: Plant material courses (HORT 214, HORT 215, HORT 220) could be helpful for this course but are not required. 2 hrs. lecture, 2 hrs. lab/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10.

HORT 140  
Turfgrass I (3 CR)  
The basics of turfgrass identification, selection, use and care will be covered. The emphasis will be on efficient management of soil and turf on large or small grounds. Upon successful completion of this course, students should be able to demonstrate their ability to properly identify the major categories of turfgrass; establish and maintain turfgrass; identify turfgrass pests; and develop a pest control fertilizer program. Irrigation systems, their maintenance and repair will also be discussed. 2 hrs. lecture, 2 hrs. lab/wk.

HORT 150
Fruits, Vegetables and Herb Crops (2 CR)
This course is designed to familiarize garden center employees with the plant materials and production of crops many homeowners use and grow. This course will help the employee answer many homeowner questions about production, varieties and potential crop problems. Home hobbyists may also wish to enroll in this course. 1 hr. lecture, 2 hrs. lab/wk.

HORT 160
Garden Center Operations (3 CR)
This course is designed for garden center employees and provides background on the elements necessary for success in a competitive retail environment. The business organization is emphasized, including environmental monitoring, selling, inventory issues, merchandising, advertising, cost effectiveness, labor/team relationships and customer service. In addition, safety and legal issues are examined. 3 hrs. lecture/wk.

HORT 165
Arboriculture (3 CR)
This course will prepare the student to work with trees in Zones 5-6. In lecture and lab settings students will learn and demonstrate how to properly plant, prune and maintain trees, identify hazard trees and proper pruning and tree removal techniques. Emphasis will be placed on ANSI and OSHA safety requirements. At the end of this course the student will be prepared to take the test for arboriculture certification in Kansas. 2 hrs. lecture 3 hrs. lab/wk.

HORT 201
Introduction to Horticultural Science (4 CR)
This is an introduction to the principles and practices of horticultural plant systems. Plant structure and function will be discussed, along with the effects of environmental factors on plant growth. General cultural practices will be described, including pest control, mineral nutrition and plant propagation. 3 hrs. lecture, 2 hrs. lab/wk.

HORT 205
Plant Propagation (3 CR)
Prerequisite: HORT 201
This course provides basic knowledge of the art and science of sexual and asexual methods of propagating plants. Students study the processes of seed development, seed dormancy, germination, root initiation and grafting. Students will learn basic seed sowing, cutting and grafting skills. The students will be able to demonstrate the selection of appropriate propagation methods and choose the proper environmental conditions necessary to achieve successful propagation of seeds or cuttings. 2 hrs. lecture, 2 hrs. lab/wk.

HORT 210
Concepts of Floral Design (3 CR)
This is an introductory course for students to learn the design basics of flower arranging. The course will help the students develop an eye for color combinations, flow of lines, balance, geometric shapes and textures in materials used, mechanics of design, customer perspectives and the post-harvest care of floral materials. 2 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 150.
HORT 214
Woody Plants I, Deciduous (3 CR)
The class places emphasis on identification, ornamental characters, site requirements, and use of woody ornamental deciduous trees and shrubs with special emphasis on the cultivated varieties in climatic zones 5 and 6. Plant uses and seasonal effects and influences that affect plant choices will be also be taught. This course will assist the grounds maintenance employee, landscaper, and garden center employee in identifying plant materials used in the landscape. 2 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10.

HORT 215
Woody Plants II, Evergreens (3 CR)
This course will assist the grounds maintenance employee, landscaper, garden center employee and home hobbyist in identifying evergreen trees and shrubs and flowering shrubs sold in garden centers used in climatic zones 5 and 6. The plant uses, specific characteristics, plant cultivation, seasonal effects, influences that affect plant choices and customer service attributes will be taught. 2 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10.

HORT 220
Herbaceous Plants (3 CR)
This course will focus on the identification, ornamental characters, culture, propagation, and use of herbaceous perennials, bulbs, ground covers, vines and annuals. This course will assist the grounds maintenance employee, landscaper, and garden center employee in identifying and selecting herbaceous plant materials with additional emphasis on uses and maintenance of these plants when used in the landscape. 2 hrs. lecture, 3 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10.

HORT 225
Plant Problems (3 CR)
Prerequisites: HORT 214 and HORT 220 or permission of assistant dean
This course is a broad-spectrum overview of plant insects, diseases and nutrition. Students will look at plants to identify the common characteristics found when diagnosing plant problems. Identification, treatment and treatment alternatives will be considered to help customers make diagnostic decisions for the use of chemicals and integrated pest management techniques (IPM). 2 hrs. lecture, 3 hrs. lab/wk.

HORT 235
Landscape Maintenance and Techniques (3 CR)
This course is designed to familiarize students with the principles and techniques involved in landscape maintenance including pruning techniques, fertilization, irrigation, spray schedules and weed control. Installation and maintenance of annual and perennial plant material is examined. In addition, the student will learn to design preventive strategies and identify and examine disease and insect damage. The students will learn how to maintain good customer relations. 2 hrs. lecture, 2 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30.

HORT 240
Turfgrass II (3 CR)
Prerequisite: HORT 140
This course is a continuation of turfgrass I (HORT 140). Topics include green construction, top dressing, sprayer calibration, management programs (e.g., setting up a lawn care program) and the influence environment has on turfgrass growth. 2 hrs. lecture 2 hrs. lab/wk.

HORT 255
Landscape Pest Control (3 CR)
This course will explore the general concepts of turf and ornamental maintenance and pest control in the local area. The student will become familiar with federal and state regulations pertaining to horticulture chemical application. Upon completion of this course, the student should be prepared to take the Kansas or Missouri licensing examination to become a certified applicator of restricted horticultural pesticides and herbicides. 3 hrs. lecture/wk.

HORT 260
Horticulture Soils (3 CR)
This course covers soil components as well as the physical, chemical and biological properties of soils that affect plant growth. Emphasis will be placed on horticultural substrates and urban soils and their applications. 2 hrs. lecture, 2 hrs. lab/wk.

HORT 265
Landscape Construction (3 CR)
This course will cover the theories, principles and practices used in the interpretation and implementation of landscape construction. It will include site planning and preparation, safety principles, tool use and identification, landscape and construction materials, job bid development and project management. Construction projects in the class will vary by semester. 2 hrs. lecture, 2 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 235.

HORT 270
Horticulture Internship (3 CR)
Prerequisite: Approval of assistant dean
Student should be able to apply classroom knowledge to an actual work situation. The internship will provide students on-the-job experience under the supervision of professionals in the Horticultural industry. The work will be developed cooperatively with area employers, college staff and each student to provide a job experience in the area of their horticultural focus and career goals. 20 hrs field study

Hospitality Management (HMGT)

HMGT 120
Food Service Sanitation (1 CR)
This course covers the basic principles of providing and serving safe food. It also provides the student with safe food-handling procedures necessary to manage a sanitary and safe food service operation in compliance with the National Food code and the National Restaurant Association. The successful completion of the Serv Safe Sanitation exam will result in a national sanitation certification. 1 hr. lecture/wk.
HMGT 121
Perspectives of Hospitality Management (3 CR)
This introductory course is designed to provide students with current information on topics relevant to career exploration, employment and operational specifics of the various segments of the hospitality industry. The course includes exploration of the tourism, lodging, food and beverage and related industries, along with the operational characteristics unique to each and the critical concepts of service management. The identification of current events and trends will be included along with the evaluation of impact on the hospitality industry. This course also identifies and explores career opportunities and includes the professional profiles and job search materials directly related to the hospitality industry. 3 hrs. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $25 to 50.

HMGT 123
Professional Cooking I (3 CR)
Prerequisite or corequisite: HMGT 120
This is the first of two courses in professional cooking methods for students enrolled in hospitality management programs. Upon completion of this course, the student should be able to demonstrate skills in basic cooking methods, recipe conversion, and professional food preparation and handling. Additionally, the student should be able to safely operate common food service equipment used in commercial kitchens. 1 hr. lecture, 2.5 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $50 to 200.

HMGT 126
Food Management (4 CR)
Prerequisites: HMGT 123 and HGMT 230 and HMGT 277 and admission to the hospitality management program
This course offers an overview of restaurant management practices used in the hospitality industry. Emphasis will be on demonstrating the components of menu planning and the styles of food service used for various occasions -- buffet service and French, Russian and American service. The student will participate in the operation of the campus restaurant, including food preparation, service, sales promotion, purchasing and costing. 7 hrs./wk.

HMGT 128
Supervisory Management (3 CR)
This course contains the basic supervisory management skills, management styles, motivation with emphasis on human relations, delegation, training, evaluation and communication. In addition, the hiring and firing functions within FLSA guidelines will be covered. 3 hrs./wk.

HMGT 130
Hospitality Law (3 CR)
This course offers an overview of product and dram shop liability as well as of the various areas of federal and state legislation that regulate the hospitality industry. Emphasis will be on familiarizing the hospitality manager with ways to avoid costly and time-consuming lawsuits. A manager's or owner's legal rights and responsibilities also will be discussed. Upon successful completion of this course, the student should be able to recognize potential legal problems. 3 hrs./wk.

HMGT 132
Seminar in Housekeeping Operations (3 CR)
This course presents a systematic approach to managing housekeeping
operations in the hospitality industry. The course will also include related health
department and OSHA regulations. While enrolled in this class, a student must
work a minimum of 15 hours a week in a lodging operation. The work experience
is concurrent but does not necessarily concentrate on the subject being taught in
the course. This course is typically offered in the fall semester. 2 hrs./wk.

HMGT 145
Food Production Specialties (3 CR)
Prerequisite: HMGT 123
This course covers the fundamentals of convenience baking, hors d'oeuvre and
cold kitchen preparation. It provides knowledge of and basic skills in the pastry
kitchen, where the student can handle convenience products from the frozen or
dried state and produce finished pies, cakes and dessert items. It provides further
knowledge of and skill in the garde-manger kitchen, specifically making salads,
cocktail hors d'oeuvres and cocktail sandwiches, as well as making economic
purchases for gourmet food items. In addition, the student will learn how to make
intermezzo ices, identify different types of cheese, and design and make a
general plan for a buffet. 1 1/2 hrs. lecture, 2 hrs. lab/wk.

HMGT 150
Seminar: Food Service Sales and Marketing (3 CR)
This course includes detailed information in distinguishing the difference between
marketing, sales, promotion, advertising and merchandising. In addition,
development and quantifying the cost of a marketing plan by analyzing markets
and developing a primary target market will be discussed. This course is a
seminar course, and students are required to be employed 15 hours per week in a
job related to the hospitality industry. 3 hrs. lecture, 15 hrs. internship/wk.

HMGT 203
Hotel Sales and Marketing (3 CR)
Prerequisites: HMGT 121 and admission to the hospitality management program
This course will focus on practical sales and marketing techniques for the hotel
industry. It will cover a marketing plan and advertising campaign for a hotel,
including identifying target markets, prospecting for sales leads and using sales
techniques. This course is typically offered in the fall semester. 3 hrs. lecture/wk.

HMGT 207
Hospitality Human Resource Management (3 CR)
Prerequisite: HMGT 128
This course will examine hospitality human resources management from the
global perspective as the rise of multinational hospitality corporations and a
multicultural society place new requirements on managers with human resource
responsibilities. Special emphasis will be placed on both the "soft skills" involved
in counseling, interpersonal relations and different management theories, as well
as the "hard skills" involved in the legislative aspects of managing people. This
course will concentrate on how to manage managers. 3 hrs. lecture/wk.

HMGT 220
American Regional Cuisine (3 CR)
Prerequisite: HMGT 230
This course introduces the student to regional American cooking from nine
regional culinary traditions and two specialty traditions within American cuisine.
Students will study the cuisine of New England; the Mid-Atlantic states; the Deep
South; Florida and the Caribbean; Cajun and Creole; the Central Plains and
Rocky Mountain states; Tex-Mex and the American Southwest; California and
Hawaii; the Pacific Northwest, as well as vegetarian cuisine and kosher dietary laws. Upon completion of this course, the student should be able to demonstrate skills in cooking and presenting classic American dishes in their traditional forms within a restaurant setting. 1 hr. lecture, 2.5 hrs. lab/wk.

**HMGT 221**  
**Design and Facilities Management** (3 CR)  
**Prerequisites:** HMGT 123 and HMGT 271  
This course includes detailed information about food service design that covers layout, design and equipment specifications. In addition, facilities operations will be discussed regarding electrical, water and transportation systems; refrigeration; waste disposal; energy management; and HVAC. Preventive maintenance will be emphasized. 3 hrs./wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $25 to 100.

**HMGT 223**  
**Fundamentals of Baking** (3 CR)  
This course covers bakeshop production as it relates to the basic principles of ingredients, measurements, mixing, proofing, baking and final presentation. In addition, the student will be able to identify the various types of baking equipment used in the preparation of bakeshop products. The class includes lecture and participation. 1 hr. lecture, 2.5 hrs. lab/wk.

**HMGT 226**  
**Garde Manger** (3 CR)  
**Prerequisite:** HMGT 230  
This course is designed for the student to learn cold food production and charcuterie. The course will allow the student to develop fundamental principles of the cold kitchen and modernize traditional methods of salad preparation. 1 hr. lecture, 2.5 hrs. lab/wk.

**HMGT 228**  
**Advanced Hospitality Management** (3 CR)  
**Prerequisite:** assistant dean's approval  
This course includes detailed information about various components of menu planning, food service, supervision, design and beverage control. In addition, an understanding of the external factors affecting the hotel-restaurant industry will be discussed. Skills necessary to secure a position in management within the hospitality industry will be emphasized, and case studies and computer simulation (HOTS) will be used for critical thinking analysis. Business plans will be developed as part of the course project. 3 hrs./wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $25 to 50.

**HMGT 230**  
**Professional Cooking II** (3 CR)  
**Prerequisite:** HMGT 120 and HMGT 123  
This is the second of two courses in professional cooking methods for students enrolled in hospitality management programs. This course is designed to help the student continue to develop professional cooking skills in the savory kitchen, the pastry shop and the cold kitchen. Upon successful completion of this course, the student should be able to demonstrate the skills necessary to prepare standard menu items, to prepare basic convenience baked products, and to prepare basic garde manger items. The class will include menu planning for plated and buffet meals. In addition, the student will learn how to make frozen desserts and intermezzo ices, identify different cheeses and other specialty items. This course
consists of lecture, demonstration and participation in food preparation. 1 hr. lecture, 2.5 hrs. lab/wk.

HMGT 231
Advanced Food Preparation (4 CR)
Prerequisites: HMGT 230 and assistant dean's approval
This course is designed to develop a student's advanced culinary skills in preparation of international cuisine commonly served in today's operations in Latin America, Europe, Asia, the Middle East, the Far East and the Pacific area. 4 hrs. lecture/wk.

HMGT 235
Seminar: Risk Management and Loss Prevention (3 CR)
This course explains the issues surrounding the need for individualized security programs, examines a wide variety of security and safety equipment and procedures, discusses guest protection and internal security for asset protection. It explores risk management and loss prevention issues and outlines OSHA regulations that apply to lodging properties. While enrolled in this class, a student must work a minimum of 15 hours a week in a lodging operation. The work experience is concurrent but does not necessarily concentrate on the subject being taught in the course. This course is typically offered in the spring semester. 2 hrs lecture, 15 hrs. work/wk.

HMGT 240
Advanced Baking (4 CR)
Prerequisites: HMGT 123 and HMGT 223
This course covers the principles needed to enter the baking and pastry industry. The course provides knowledge of specialty ingredients and techniques needed to make tortes, finished desserts and a wedding cake. The student will be instructed in the making of these items through lecture and will prepare a variety of such items in lab. 4 hrs. lecture, lab/wk.

HMGT 248
Confectionery Arts (3 CR)
This course covers the design and production of artistic centerpieces made from confections. It provides knowledge of and basic skills in making decorative dining table centerpieces using food products such as cooled and pulled sugar syrup, isomalt, pastillage, marzipan and chocolate. The student will be instructed in the preparation of these ingredients and will construct center and showpieces after viewing demonstrations. 4.5 hrs. lecture, lab/wk.

HMGT 250
Introduction to Catering (3 CR)
This course includes detailed information about the different types of catered events within the hospitality industry. Topics covered include the importance of marketing, contract writing, food production, room arrangements and required personnel relative to specific catered events. 3 hrs. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $5 to 25.

HMGT 256
Casino Management (3 CR)
This course is designed to familiarize students with the unique conditions and management challenges associated with a casino property. An overview of game
operation and rules will serve as a foundation. Management controls will be
emphasized including how to compute statistical data to assist management in
operations. The course is not intended to be a training exercise. Casino marketing
and ways to develop effective player rating systems will be analyzed. The history
of the casino industry and regulatory environment will also be examined. The
course is not intended to be a training exercise for those interested in learning to
deal games. 3 hrs. lecture/wk.

HMGT 265
Front Office Management (3 CR)
This course provides a full understanding of the flow of business from the front
office, beginning with the reservations process to checkout and settlement. It also
includes the night audit and statistical analysis of rates and revenue management.
This course is typically offered in the spring semester. 3 hrs./wk.

HMGT 268
Hospitality Managerial Accounting (3 CR)
Prerequisites: MATH 120 and HMGT 121 and HMGT 273
This course introduces the student to basic managerial accounting. This includes
accounting concepts, processing data and the flow of financial information within a
hospitality operation. The course provides a working knowledge of an income
statement, balance sheet, statement of owner’s equity and cash flows. 3 hrs.
lecture/wk.

HMGT 271
Seminar in Hospitality Management: Purchasing (3 CR)
This course offers an overview of purchasing techniques and specification writing
for commodities used in the hospitality industry. Emphasis will be on
decision-making skills in the areas of quality, quantity, specifications and general
value analysis. Two hours in class and a minimum of 15 hours a week are
required in a supervised work situation in an approved area of the hospitality
industry. Work experience is concurrent but does not necessarily concentrate on
the subject being taught in the course.

HMGT 273
Hospitality Cost Accounting (3 CR)
Prerequisites: MATH 120 or higher and HMGT 121
This course includes detailed information on how to prepare operation statements
for a food service operator, including inventory and control systems. Areas of
concentration will be food cost controls, labor cost controls, purchasing controls
and profit production. The practice set will be used to reinforce control systems. 2
hrs./wk.

HMGT 275
Seminar in Hospitality Management: Internship (3 CR)
Prerequisite: Admission to the hospitality management program
This course provides industry experience for students in cooperating businesses,
agencies and organizations. While enrolled in this course, a student must work a
minimum of 320 hours in an approved position in the hospitality industry. By
arrangement.

HMGT 277
Seminar in Hospitality Management: Menu Planning (3 CR)
Prerequisite: HMGT 123
This course provides the basic knowledge of menu design and planning. Students will learn the components of menu design and planning for each concept category. The course will cover the topics of menu layout, selection and development, price structures and the theory of menu design. A minimum of 15 hours a week is required in a supervised work situation in an approved area of the hospitality industry. Work experience is concurrent but does not necessarily concentrate on the subject being taught in the course. 2 hrs. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $5 to 25.

HMGT 279
Beverage Control (3 CR)
This course covers the history of wines and their use and storage procedures. The students should gain an understanding of beverage control and how it is used in all types of operations. The course will also cover in-depth study of spirits, internal control systems and local/state alcoholic beverage control laws. 3 hrs./wk.

HMGT 281
Culinary Arts Practicum I (2 CR)
Prerequisite: Acceptance into the American Culinary Federation Chef Apprenticeship training program and hospitality management assistant dean’s approval
A qualified chef who is a member of the American Culinary Federation will supervise this on-the-job apprentice training. Upon successful completion of this course, the student should be able to apply food preparation and presentation techniques and gain experience in all phases of food service operation. Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 300.

HMGT 282
Culinary Arts Practicum II (2 CR)
Prerequisite: HMGT 281
A qualified chef who is a member of the American Culinary Federation will supervise this on-the-job apprentice training. Upon successful completion of this course, the student should be able to apply food preparation and presentation techniques and gain experience in all phases of food service operation. This course is a continuation of Culinary Arts Practicum I.

HMGT 285
Culinary Arts Practicum III (2 CR)
Prerequisite: HMGT 282
A qualified chef who is a member of the American Culinary Federation will supervise this on-the-job apprentice training. Upon successful completion of this course, the student should be able to apply food preparation and presentation techniques and gain experience in all phases of food service operation. This course is a continuation of Culinary Arts Practicum II.

HMGT 286
Culinary Arts Practicum IV (2 CR)
Prerequisite: HMGT 285
A qualified chef who is a member of the American Culinary Federation will supervise this on-the-job apprentice training. Upon successful completion of this course, the student should be able to apply food preparation and presentation techniques and gain experience in all phases of food service operation. This
course is a continuation of Culinary Arts Practicum III.

**HMGT 287**  
**Culinary Arts Practicum V** (2 CR)  
*Prerequisite: HMGT 286*  
A qualified chef who is a member of the American Culinary Federation will supervise this on-the-job apprentice training. Upon successful completion of this course, the student should be able to apply food preparation and presentation techniques and gain experience in all phases of food service operation. This course is a continuation of Culinary Arts Practicum IV.

**HMGT 288**  
**Culinary Arts Practicum VI** (2 CR)  
*Prerequisite: HMGT 287 and assistant dean's approval and approval of hospitality management assistant dean*  
A qualified chef who is a member of the American Culinary Federation will supervise this on-the-job apprentice training. Upon successful completion of this course, the student should be able to apply food preparation and presentation techniques and gain experience in all phases of food service operation. This course is a continuation of Culinary Arts Practicum V.

**Hospitality Mgt Pastry Baking (HMPB)**

**HMPB 155**  
**Pastry Shop Production I** (4 CR)  
*Prerequisite: HMGT 120 and HMGT 123 and Corequisite: HMPB 160 and HMPB 233 and HMPB 252*  
This course will provide hands-on instruction of techniques used to make basic pastry shop staples used in the production of items intended for retail sales in a professional pastry shop. This course is typically offered in the fall semester. 1 hr. lecture & 4 hrs. lab/wk.

**HMPB 160**  
**Pastry Shop Principles I** (4 CR)  
*Prerequisite: HMGT 120 and HMGT 123 and Corequisite: HMPB 155 and HMPB 233 and HMPB 252*  
This course will examine the fundamental baking concepts including sanitation, ingredient identification and usage, weights and measures, inventory and product ordering needed as it pertains to a professional pastry shop. Students will be operating a working bake shop. This course is typically offered in the fall semester. 1 hr. lecture 3 hrs. lab/wk.

**HMPB 233**  
**Patisserie** (4 CR)  
*Prerequisite: HMGT 120 and HMGT 123 and Corequisite: HMPB 155 and HMPB 160 and HMPB 252*  
This course will provide hands-on instruction of techniques to make finished pastry items such as tortes, tarts, pastries, cookies, candies and breads as well as how to present items in a professional manner. This course is typically offered in the fall semester. 1 hr. lecture 3 hrs. lab/wk.
HMPB 252
Pastry Shop Business Basics I (3 CR)
Prerequisite: HMGT 120 and HMGT 123 Corequisite: HMPB 155 and HMPB 160 and HMPB 233

This course will provide basic hands-on techniques used to market finished pastry items, customer service, setting up, restocking and maintaining a display case, as well as taking pastry orders. This course is typically offered in the fall semester. 1 hr. lecture 3 hrs. lab/wk.

HMPB 255
Pastry Shop Production II (4 CR)
Prerequisite: HMPB 155 and HMPB 160 and HMPB 233 and HMPB 252 and Corequisite: HMPB 260 and HMPB 257 and HMPB 252

This course will provide hand-on instruction of advanced techniques used to make advanced staples used in the production of advanced pastries, cakes, tarts, and tortes intended for retail sales in a professional pastry shop. This course is typically offered in the spring semester. 1 hr lect. 3 hrs lab./wk.

HMPB 257
Sugar Basics (4 CR)
Prerequisite: HMPB 155 and HMPB 160 and HMPB 233 and HMPB 252 and Corequisite: HMPB 255 and HMPB 260 and HMPB 262

This course will provide hands-on instruction of pulled and brown sugar techniques used for garnishing advanced pastry items. The student will learn how to cook, pull, blow and store sugar pieces used in a professional pastry shop. This course is typically offered in the spring semester. 3 hrs. lab and 1 hr. lab/wk.

HMPB 260
Pastry Shop Principles II (4 CR)
Prerequisite: HMPB 155 and HMPB 160 and HMPB 233 and HMPB 252 and Corequisite: HMPB 255 and HMPB 257 and HMPB 262

This course will examine the advanced baking concepts including high dollar ingredient identification and usage, storage, advanced inventory control, costing and product sources and product availability as it pertains to a professional pastry shop. This course is typically offered in the spring semester. 1 hr. lecture, 3 hrs. lab/wk.

HMPB 262
Pastry Shop Business Basics II (3 CR)
Prerequisite: HMPB 155 and HMPB 160 and HMPB 233 and HMPB 252 and Corequisite: HMPB 255 and HMPB 260 and HMPB 257

This course will provide advanced hands-on techniques used to market finished pastry items, execute excellent customer service, establishing operational guidelines, inventory and restocking, product ordering, product research, maintaining a display case, as well as taking pastry orders. This course is typically offered in the spring semester. 1 hr. lecture 2 hrs. lab/wk.

Humanities (HUM)

HUM 122
Introduction to Humanities (3 CR)
This interdisciplinary study begins with a look at artistic and technical elements of
several art forms, including painting, sculpture, architecture, music, theater, film, dance and literature. Major themes expressed in the works and their reflection of the values of their culture are also examined.

**HUM 137**  
**Introduction to Russian Culture (3 CR)**  
This course is a survey of the cultural history of Russia from the ninth century to the present. The approach is interdisciplinary, examining representative examples of Russian art, architecture, music, theater, dance, literature and philosophy in their historical context. In addition to developing the students' appreciation of Russia's contribution to world culture, the course aims to enhance students' understanding of the contemporary world. 3 hrs. lecture/wk. When paired with Introduction to Literature, Russian emphasis, it includes an online component. Usually this course is offered in the spring semester. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

**HUM 138**  
**Introduction to Russian Culture, Field Study (1 CR)**  
*Prerequisite: HUM 137 or approval of instructor*  
This course is the field study portion of the HUM 137, Introduction to Russia, course. Students study, on site, selected works of art, architecture, music, literature, theater and film for the various historical periods from the perspective of Russian experts in these fields. In addition, students enhance their knowledge of Russian history by visiting the sites of many of the major events that have shaped the development of Russia's culture. 2 hrs. lab/wk.

**HUM 145**  
**Introduction to World Humanities I (3 CR)**  
This course will acquaint students with the arts and ideas of the world's major civilizations, from antiquity through the Renaissance. The approach will be interdisciplinary, covering the artistic values embodied in painting, sculpture, architecture, literature, theater, music and dance as they have emerged out of their historical contexts. In addition to providing the fundamental principles, methodologies and theories used in the study of the humanities, the course aims to enhance students' understanding of the contemporary world. 3 hrs. lecture/wk.

**HUM 146**  
**Introduction to World Humanities II (3 CR)**  
This course will acquaint students with the arts and ideas of the world's major civilizations, from the Renaissance to the present. The approach will be both interdisciplinary and chronological, covering the artistic values embodied in painting, sculpture, architecture, literature, theater, music and dance as they have emerged out of their historical contexts. In addition to providing the fundamental principles, methodologies and theories used in the study of the humanities, the course aims to enhance students' understanding of the contemporary world. 3 hrs. lecture/wk.

**HUM 155**  
**Classical Mythology (3 CR)**  
This course provides a systematic study of the myths and epic cycles of the Greeks and Romans in both literature and art and investigates their survival and metamorphosis in the literature and visual arts of Western Europe. In addition, this course provides several methodological frameworks with which to analyze several types of tales and their relation to history, religion, rituals and art.
HUM 164
Civilization (3 CR)
This course covers the major ideas and events of Western civilization communicated through the arts. The course begins after the fall of the Roman Empire and includes material to the 20th century.

Industrial Technology (INDT)

INDT 125
Industrial Safety (3 CR)
Upon successful completion of this course, the student should be able to identify various industrial safety and health considerations, list basic safety rules and regulations, identify the proper personal protective equipment needed for common industrial tasks and recognize the need for an ongoing safety program. 3 hr. lecture/wk.

INDT 140
Quality Improvement Using SPC (2 CR)
Upon successful completion of this course, the student should be able to describe and apply basic concepts of quality improvement. This course will examine the application of the "Transformation of America" concept to American businesses. Statistical process control will be introduced as a tool to improve quality. W. Edwards Deming’s 14 points and the management changes required to implement quality improvement also will be covered. 2 hrs. lecture/wk.

INDT 155
Workplace Skills (1 CR)
Upon successful completion of this course, the student should be able to identify the job skills necessary to have a successful career in the field of his or her choosing. Topics include listening skills, oral communication, human relations, decision making/problem solving, how to work as a team, time and resource management, work ethics and career planning. 1 hr. lecture/wk.

Information Technology (IT)

IT 200
Networking Technologies (3 CR)
This course is designed to provide students with the fundamentals of networking technology. Concepts covered include network terminology and protocols, network standards, LANs and WANs, the layers of the OSI reference model, cabling practices, network topologies, and IP addressing.

IT 203
Voice over IP Fundamentals (4 CR)
Prerequisite: IT 200
This course is designed to provide students with the fundamentals of Voice over IP (VoIP) networking technology. Concepts covered include an explanation of the national voice and data network, telephony terminology, VoIP protocol analysis and telephony survey techniques. 3 hrs. lecture, 2 hrs. lab/wk.
IT 205  
**Implementing Windows Client** (3 CR)  
*Prerequisite: IT 200*  
The focus of this course is the use of Microsoft Windows as an operating system in a business environment. Planning a simple network system, installation and configuration of the software and hardware, resource management, connectivity, running application software under Windows, monitoring and optimizing system hardware, and troubleshooting all lead the student to a deeper understanding of local area network use and administration. 2 hrs. lecture, 3 hrs. lab/wk.

IT 210  
**Netware Administration** (3 CR)  
*Prerequisites: IT 200 and ELEC 126 and IT 205*  
This course is designed to provide students with the necessary knowledge and skills to perform competently in the role of a NetWare network administrator. Students completing this course will be able to accomplish basic network management tasks. Topics covered include managing user accounts; planning and managing the network file system; managing NetWare Directory Services (NDS); implementing login, file system and NDS security; and implementing network printing. 2 hrs. lecture, 3 hrs. lab/wk.

IT 221  
**Windows Server** (3 CR)  
*Prerequisites: IT 200 and ELEC 126 and IT 205*  
This course is designed to provide students with the knowledge and skills to perform competently in the role of a network administrator utilizing the Windows network operating system. Students completing this course will be able to accomplish basic fundamental network management tasks, including planning server roles and subsequent requirements, planning the network file system, implementing user accounts and file system security, implementing network printing, and managing the network servers. 2 hrs. lecture, 3 hrs. lab/wk.

IT 225  
**Windows Active Directory Services** (3 CR)  
*Prerequisite: IT 221*  
The focus of this course is using Microsoft Windows Server or Advanced Server software to install, configure and troubleshoot Active Directory components, Domain Name Space (DNS) for Active Directory and Active Directory security solutions. The course also emphasizes the skills required to manage, monitor and optimize the desktop environment using Group Policy. 2 hrs. lecture, 3 hrs. lab/wk.

IT 227  
**SQL Server Administration** (3 CR)  
*Prerequisite: IT 221*  
Upon successful completion of this course, the student should be able to administer an SQL server installation. Topics covered include installing, upgrading and configuring SQL servers using SQL utilities; working with databases and users; backing up and restoring databases and log files; automating maintenance tasks; managing, copying and moving data; replicating; tuning; and troubleshooting. 2 hrs. lecture, 3 hrs. lab/wk.

IT 228  
**Exchange Server** (3 CR)
Prerequisite: IT 225
This course is designed to provide network administrators with information that enhances their ability to manage an Exchange server network. Included are topics related to server and client mail management and server performance, e-mail concepts and advanced Internet networking. 3 hrs. lecture, 2 hrs. lab/wk.

IT 230
UNIX Fundamentals (3 CR)
This course is designed to provide students with a fundamental understanding of the UNIX operating system environment. Students successfully completing this course will be able to plan server roles and subsequent requirements; execute common Unix commands and utilities; and accomplish basic system tasks such as navigating the file system, applying file system security, managing user accounts, installing and configuring user software, using the printing environment, and managing the resources of a basic Unix system. 2 hrs. lecture, 3 hrs. lab/wk.

IT 231
UNIX Administration (3 CR)
Prerequisite: IT 230
This course is designed to provide students with the necessary knowledge and skills to perform competently as a Unix system administrator. Students successfully completing this course should be able to perform basic system administration tasks including installing, configuring and troubleshooting a basic Unix system, managing devices, implementing the printing environment, creating and maintaining file systems, installing packages, and configuring the graphical user interface. 2 hrs. lecture, 3 hrs. lab/wk.

IT 232
UNIX Networking and Security (4 CR)
Prerequisite: IT 231
This course is designed to provide network administrators with information that enhances their ability to manage a Unix network in the enterprise. Included are topics that are related to Unix management of DNS, DHCP, NFS, advanced routing services and Samba. 3 hrs. lecture, 2 hr. lab/wk.

IT 245
Network Infrastructure (3 CR)
Prerequisite: IT 221
This course is designed to provide an in-depth understanding of the ability to install, manage, monitor, configure and troubleshoot DNS, DHCP, Remote Access, Network Protocols, IP Routing and WINS in a Windows 2000 network infrastructure. In addition, it will provide an in-depth understanding of the ability to manage, monitor and troubleshoot Network Address Translation and Certificate Services. Laboratory exercises will accompany the lectures. 2 hrs. lecture, 3 hrs. lab/wk.

IT 246
Introduction to Routers (3 CR)
Prerequisite: IT 200
This course is designed to provide students a fundamental understanding of network routing and the operation of routers. Topics include installing and configuring routers, OSPF and Link State routing protocols, working with metrics and route selection, and TCP/IP configuration. Programming and setup using Cisco routers will be conducted. Laboratory exercises will accompany lectures. 2
IT 247  
**Introduction to Wide-Area Networks** (3 CR)  
*Prerequisite: IT 246*  
This course is designed to provide students a fundamental understanding of internetworking. Topics include local area network segmentation using switches and routers. Wide area network physical technologies will be studied. Configuring WAN protocols using PPP, ISDN and Frame Relay will be presented. Securing the network with standard and extended access lists will be performed. IP and IPX routing will be covered. Programming and configuration will be conducted using Cisco routers and switches. Laboratory exercises will accompany lectures. 2 hrs. lecture, 3 hrs. lab/wk.

IT 249  
**Advanced Routing** (3 CR)  
*Prerequisite: IT 247*  
This course provides advanced instruction of Cisco routers found in medium to large networks. It is intended for students preparing for advanced Cisco certification. Upon completion of this course, the student will be able to select and implement the appropriate Cisco services required to build a scalable router network. Topics covered include extending IP addressing, implementing OSPF for a single area and multiple areas, configuring EIGRP, and implementing BGP. This course will follow semester five in the Cisco Networking Academy curriculum.

IT 250  
**Networking Seminar** (3 CR)  
*Prerequisite: IT 225 and IT 247*  
This course is designed to teach advanced concepts in information technology. Topics covered are section specific and include e-mail servers, Web servers, database servers, routing, switching and advanced LAN design concepts. Prerequisites are posted for each section. Students may use this course as a capstone for applying concepts and procedures developed in previous courses using realistic business scenarios. 2 hrs. lecture, 3 hrs. lab/wk.

IT 251  
**Network Security Fundamentals** (4 CR)  
*Prerequisite: IT 247*  
This course is designed to provide students with a fundamental understanding of network security principles and implementation. Topics covered include authentication, the types of attacks and malicious code that may be used against computer networks, the threats and countermeasures for e-mail, Web applications, remote access, and file and print services. A variety of security topologies will be discussed as well as technologies and concepts used for providing secure communication channels, secure internetworking devices, intrusion detection systems, and firewalls. Hands-on exercises will be used to reinforce the concepts. 3 hrs. lecture, 2 hrs. lab/wk.

IT 252  
**Firewall Security** (4 CR)  
*Prerequisite: IT 247*  
This course is designed to teach students how to protect local area networks (LANs) using firewall security devices. It focuses on the overall security process based on a security policy with an emphasis on hands-on skills. It covers the
basic functionality of the Cisco Private Internet Exchange (PIX) product family. Students will learn specific PIX configurations and settings designed to maximize security. This course is also intended to prepare students to pass the Cisco Secure PIX Firewall Certification exam. 3 hrs. lecture, 2 hrs. lab/wk.

IT 253
Advanced Switching (3 CR)
Prerequisite: IT 247
This course provides advanced instruction of Cisco switches found in medium to large networks. It introduces students to the deployment of the state-of-the-art campus Local Area Networks (LAN). The course focuses on the selection and implementation of the appropriate Cisco Internetworking Operating System (IOS) services to build reliable scalable multilayer-switches LANs. Students will develop skills with Virtual LANs (VLAN), Virtual Trunking Protocol (VTP), Spanning Tree Protocol (STP), inter-VLAN routing, redundancy, Quality of Service (QoS) issues, campus LAN security, and transparent LAN services.

IT 254
Remote Access Networks (3 CR)
Prerequisite: IT 247
This is an advanced course that covers the techniques and features for enabling or enhancing Wide Area Network (WAN) and remote access solutions. It focuses on using one or more of the available WAN dialup or permanent connection technologies for remote access between enterprise sites. This course includes asynchronous modem connections, Point-to-Point Protocol (PPP) features, and network security using Virtual Private Networks (VPNs). Students will apply common remote access solutions including ISDN Basic Rate Interface and Primary Rate Interface (BRI and PRI), Dial-On-Demand Routing (DDR), Frame Relay, dial backup, Quality of Service (QoS), and Authentication Authorization Accounting (AAA). 3 hrs. lecture, 2 hrs. lab/wk.

IT 255
Wireless Security (4 CR)
Prerequisite: IT 247
This course is designed to teach the student how to build, maintain and configure security on a Wireless Local Area Network (WLAN). It provides the student with hands-on projects to reinforce WLAN concepts from LAN cabling and other information technology and electronics courses. Upon completion of this course, students should be able to design, document and troubleshoot the security plan and operation of a WLAN. This course is also intended to prepare the student to pass the Cisco Wireless LAN Certification exam. 3 hrs. lecture, 2 hrs. lab/wk.

IT 271
Information Technology Internship I (3 CR)
Prerequisites: IT 210 or IT 221 or IT 230 and approval of the assistant dean
This course affords the student the opportunity to apply classroom knowledge to an actual work environment. It will provide advanced information technology students with appropriate on-the-job experience with area employers, under instructional oversight, which will promote the student's career goals. Student will work a total of 300 hours a semester at an approved job site.

IT 272
Information Technology Internship II (3 CR)
Prerequisites: IT 271 and approval of the assistant dean
This course is a continuation of IT 271, Internship I. It provides the student additional opportunity to apply classroom knowledge to an actual work environment. Students will work a total of 300 hours per semester at an approved job site.

**Interactive Media (CIM)**

**CIM 130**  
**Interactive Media Concepts (2 CR)**  
This survey course introduces students to the interactive media field. Topics to be covered include the definition of interactive media, the basic stages of interactive media creation and project management fundamentals. Current and future trends in interactive media will also be covered. 2 hrs. lecture/wk.

**CIM 133**  
**Screen Design (4 CR)**  
*Prerequisites: CDTP 135*  
This course will cover fundamental visual principles and the creation of graphic elements, as well as the layout of those visual elements, for the computer screen. Visual perception, composition, color and typographic principles will be covered as applicable to presentation graphics, Web graphics, CD-ROM and kiosk graphics. Cross-platform issues will be addressed. This course is intended to provide nondesigners with fundamental visual literacy. 3 hrs. lecture, 2 hrs. lab/wk.

**CIM 135**  
**Digital Imaging and Video (3 CR)**  
*Prerequisite: CDTP 135 Recommended: PHOT 121*  
This course provides an introduction to electronically mediated photography, including digital video. The course covers basic concepts of photographic communication and design. The course covers basic techniques of electronic photography, including operation of input devices, two-dimensional and time-based computer imaging and digital video production software programs and output devices. Recommended prior courses are Fundamentals of Photography and Introduction to Photoshop. 6 hrs. integrated lecture, studio/wk.

**CIM 140**  
**Interactive Media Assets (4 CR)**  
*Prerequisites: CDTP 135 and CDTP 145 and CWEB 105 and CWEB 130 Prerequisite or corequisite: CIM 130*  
This course explores the creation, acquisition and management of assets for use in the development of interactive media. Assets to be covered include digital graphics, digital sound, digital video and computer-based animation. 3 hrs. lecture, 2 hrs. lab/wk.

**CIM 154**  
**Interactive Authoring I: Director (4 CR)**  
*Prerequisite: CIM 130 and Prerequisite or corequisite: CIM 140*  
This course will provide a hands-on approach to authoring/programming. Upon completion of this course, the student should be able to produce a Director interactive media or Internet presentation that includes text, graphics, sound, movies and animation. The student should have the skills needed to create both a linear presentation and an interactive presentation. Navigational strategies for
CD-ROM and Internet will be discussed. 3 hrs. lecture, 2 hrs. lab/wk.

CIM 156
Interactive Authoring I: Web (4 CR)
Prerequisite: CIM 130 Prerequisite or corequisite: CIM 140
This course will focus on the front-end aspects of Web design, HTML, authoring, graphics production and media development. The course will introduce concepts about the way the World Wide Web works, which will orient students to the peculiarities of the Web and introduce them to new technologies that are destined to have an important effect on the Web's future but are currently in various stages of development. Students will examine specifications for each project, carefully analyze individual sites and, as a class, establish a set of criteria that define what works, what doesn't and why. 3 hrs. lecture, 2 hrs. lab/wk.

CIM 200
Interactive Communication Form (3 CR)
Prerequisite or corequisite: CIM 130
This course will focus on concepts and forms of human communication historically, currently and in the future of our culture. Immediated and mediated forms of communication, such as lecture, telephony, television, print and computer interaction, will be explored. Particular attention will be given to how communication forms affect content. Emphasis will be on the integration of communication forms as demonstrated by interactive media applications. 3 hrs. lecture/wk.

CIM 230
Interactive Media Development (4 CR)
Prerequisite: CIM 154 or CIM 156 and Corequisite: CIM 250
The course will provide a conceptual as well as a hands-on exploration of the development process for interactive media. Information design, interaction design and presentation design will be equally emphasized. Students produce a series of projects starting with the use of text and graphics and building toward more complex projects employing animation and video. 3 hrs. lecture, 2 hrs. lab/wk.

CIM 235
Advanced Digital Video (3 CR)
Prerequisite: CIM 135
This course provides advanced instruction in the production and applications of digital video. The course covers advanced concepts and techniques in video design and production, from the initial preproduction scripts and storyboards through actual shooting to nonlinear editing, mastering and output. The emphasis is on in-depth, advanced, practical experience in producing professional-level video products for a variety of applications, including education, corporate, documentary and entertainment. 6 hrs. integrated lecture studio/wk.

CIM 250
Interface Design (4 CR)
Prerequisite: CIM 154 or CIM 156 Corequisite: CIM 230
This course will specifically focus on the issues and complexity of interface design for interactive media applications. Students are provided an in-depth study of the use of the building blocks of interface design: backgrounds, windows and panels, buttons and controls, text, images, sound, video and animation. Through readings, critiques, exercises and discussions, students will explore what makes the interface of an interactive media application successful. 3 hrs. lecture, 2 hrs.
CIM 254
Interactive Authoring II: Director (4 CR)
Prerequisite: CIM 154
At completion of this course, the student should be able to create Director applications using Director’s scripting language and the Internet capabilities of Macromedia Director. The primary emphasis of the course is hands-on experience with the Lingo, Behaviors, Shockwave and scripts of Director. During the course, students will be involved in learning advanced Lingo. 3 hrs. lecture, 2 hrs. lab/wk.

CIM 270
Interactive Media Project (4 CR)
Prerequisites or corequisites: CIM 200 and CIM 230 and CIM 250
This project-oriented course will require students to actively participate in a group interactive media project, which will require each student to analyze the problem; write a project proposal; design, produce and gather assets for the project; prototype and create a project; and test and evaluate the final project. 3 hrs. lecture; 2 hrs. lab/wk.

CIM 272
Interactive Media Internship (1 CR)
Prerequisite: facilitator approval required
Students will work in an approved training situation under instructional supervision. The internship is designed to give the student the opportunity to use the skills learned in the interactive media program. Student interns will be required to complete a minimum of 180 hours of on-the-job training. ANI 272 and CIM 272 are the same course; do not enroll in both.

CIM 273
Career Preparation (4 CR)
Prerequisite: CIM 230 and CIM 250 and Prerequisite or corequisite: CIM 270
This course will provide interactive media majors instruction in the presentation of his or her work in a digital portfolio format of professional quality. A printed and written resume will be produced. Self-promotion, networking, job searches and interview skills will also be covered. 3 hrs. lecture, 2 hrs. lab/wk. CIM 273 is the same course as ANI 273; do not enroll in both.

Interior Design (ITMD)

ITMD 121
Interior Design/Tech Prep (3 CR)
This course provides basic, introductory knowledge about interior design. Upon successful completion of this course, the student should understand the significance of interior design, complete projects using the elements and principles of design and color theory in interior spaces, use space planning skills to arrange furniture on a floor plan, and present the floor plan and its decorative scheme. 3 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $75 to 100.
ITMD 123  
Space Planning (3 CR)  
Prerequisites: ITMD 121 with "C" or higher and DRAF 164 with a grade of "C" or higher or DRAF 261 with "C" or higher  
This is an advanced course focusing on space planning. Upon successful completion of this course, the student should be able to demonstrate an advanced level of furniture arrangement on a floor plan. 4 hrs. integrated lecture and lab/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $50.

ITMD 125  
Interior Textiles (3 CR)  
This course is a comprehensive study of textiles used in interior design. Upon successful completion of this course, the student should be able to differentiate fibers and textiles according to their specific characteristics and to select fibers and interior textiles for specific applications. Specific course content includes properties and characteristics of natural and man-made fibers; construction methods; and various finishing processes, such as weaving, knitting, felting, printing and dyeing. The course will concentrate on textiles designed for interior applications. 2 hrs. lecture, 2 hrs. lab/wk.

ITMD 127  
Elements of Floral Design (1 CR)  
This course provides in-depth knowledge and hands-on application of floral design. Upon successful completion of this course, the student should be able to use the principles of floral design, develop a proficiency in the techniques of line and mass arrangements, possess a greater appreciation for flowers and other plant material, apply the mechanics and design considerations involved in working with silk and dried materials, and design and create silk and dried floral arrangements. 1.5 hrs. integrated lecture, lab/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 150.

ITMD 129  
Design Presentation (3 CR)  
Prerequisites: ITMD 121 with a grade of "C" or higher and DRAF 164 with a grade of "C" or higher or DRAF 261 with a grade of "C" or higher  
This is an intermediate course focusing on interior design presentation skills. Upon successful completion of this course, the student should be able to demonstrate visual communication skills including isometric, axonometric, oblique and perspective drawings as well as the use of rendering techniques and color to enhance drawings. Additionally the student should be able to organize, mount and verbally present storyboards to communicate the design concept. 2 hrs. lecture, 2 hrs. lab/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $75 to 100.

ITMD 132  
Materials and Resources (3 CR)  
This course provides in-depth knowledge about materials used in interior spaces. Upon successful completion of this course, the student should be able to evaluate the quality of interior materials; demonstrate the ability to use catalogs and other product information resources; identify manufacturing and/or construction techniques used in products; use correct terminology to describe the various types of interior materials; and compare the design, use, durability and cost of materials. 3 hrs./wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.
ITMD 133  
**Furniture & Ornamentation/Antiquity to Renaissance (3 CR)**
This course provides in-depth knowledge in the study of Western furniture and ornament. Upon successful completion of this course, the student should be able to analyze and compare the furniture, ornamentation, design motifs and textiles of historical periods from antiquity to the Renaissance. Additionally, the student should be able to define the religious, political and social influences on the ornamentation and furnishings of each period. The student should also be able to identify the craftsmanship and materials used in the furniture of each historical period and correctly use vocabulary related to each era. 3hrs./wk.

ITMD 140  
**Window Treatments (1 CR)**

*Prerequisites: ITMD 121 and ITMD 125 both with a grade of "C" or higher and Prerequisite or Corequisite: ITMD 271 or ITMD 275 both with a grade of "C" or higher*

This course provides comprehensive knowledge about draperies and window treatments and their construction. Upon successful completion of this course, the student should demonstrate the use of correct vocabulary relating to drapery and window treatments, explain the equipment used in the drapery industry, distinguish appropriate textiles and hardware for specific window treatments, measure for window treatments, and describe and select the proper suspension system for specific window treatments. The student will measure, select and present the proper style, fabric and suspension system for a specific window treatment. 1 hr./wk. NOTE: The prerequisites of ITMD 121 and ITMD 125 both require a grade of "C" or higher and Prerequisites or Corequisites ITMD 271 or ITMD 275 both require a grade of "C" or higher.

ITMD 143  
**Accessory Fundamentals (1 CR)**

*Prerequisite: ITMD 121 with a grade of "C" or higher*

This course provides in-depth knowledge about accessories and accessory placement. Upon successful completion of this course, the student should be able to identify the various principles and elements of design as they relate to accessories. Students should be able to identify and explain the difference between functional and decorative accessories. Additionally, the student should demonstrate an understanding of the quality of different types accessories, how to identify the client's personal style, and how to successfully place different types of accessories. 1 hr. lecture/wk. NOTE: The prerequisite of ITMD 121 requires a grade of "C" or higher.

ITMD 145  
**Upholstered Furniture (1 CR)**

*Prerequisites: ITMD 121 and ITMD 125 both with a grade of "C" or higher and Prerequisite or corequisite: ITMD 271 or ITMD 275 both with a grade of "C" or higher*

This course provides comprehensive knowledge about upholstery construction. Upon successful completion of this course, the student should be able to demonstrate the use of correct vocabulary relating to upholstery construction, explain the equipment used in the upholstery industry, identify appropriate textiles and materials for upholstery use, and describe the various suspension systems used in bench-constructed and mass-produced furniture. 1 hr./wk.

ITMD 147  
**Lighting Basics (1 CR)**

*Prerequisite: ITMD 121 with a grade of "C" or higher or FASH 125*

This course provides general knowledge about lighting design and planning. Upon
successful completion of this course, the student should be able to define and use vocabulary relating to lighting design and planning. The student should be able to recognize and explain lighting application and technology used in the lighting industry. 1 hr. lecture/wk.

**ITMD 148**  
**History of Asian Furniture and Design** (2 CR)  
*Prerequisite: Program Facilitator Approval*  
This course provides in-depth knowledge in the study of Asian furniture and ornament. Upon successful completion of this course, the student will be able to analyze and compare furniture, ornamentation, design motifs and textiles of the Near East and Far East during historical periods from antiquity to modern times. The student should be able to identify the religious, political and social influences on the ornamentation and furnishings of each period. In addition, the student should be able to identify the craftsmanship and materials used in the furniture of each historical period and to demonstrate the use of correct vocabulary related to each era. 2 hrs./wk.

**ITMD 149**  
**Casegoods** (1 CR)  
*Prerequisite: ITMD 121 with a grade of "C" or higher*  
Upon successful completion of this course the student should be able to understand various construction techniques, describe different wood species and their properties, and explain the best functional and decorative uses for each wood species. The student will apply principles and elements of design when selecting casegoods, describe care and repair of casegoods, and understand current trends in the casegood industry. 1 hr. lecture/wk. NOTE: The prerequisite ITMD 121 requires a grade of "C" or higher.

**ITMD 150**  
**Asian Rugs and Carpets** (1 CR)  
This course provides in-depth knowledge in the study of Asian carpets and rugs. Upon successful completion of this course, the students will be able to analyze and compare materials, ornamentation, design motifs and textiles of the Near East and Far East during historical periods from antiquity to modern times. The student should be able to identify the religious, political and social influences on the ornamentation and furnishings. In addition, the student should be able to demonstrate the use of correct vocabulary. 1 hr./wk.

**ITMD 175**  
**Advanced Floral Design** (1 CR)  
*Prerequisite: ITMD 127*  
This course is a continuation of Elements of Floral Design and provides the student with a more comprehensive application of floral design for home interiors. Upon successful completion of this course, the student will be able to determine the appropriate floral design for an existing home, design a variety of florals for specific placement, work with other students on a specific project and learn how to buy and price interior floral designs. 1 hr. lecture, 1.5 hrs. lab/wk.

**ITMD 180**  
**Leadership in Design** (1 CR)  
*Prerequisite: ITMD 123 with a grade of "C" or higher*  
Upon successful completion of this course, the student should be able to identify leadership skills necessary to have successful involvement in the field of interior design and professional organizations. Topics include group communication
methods, time management, team-building skills, and organizing and facilitating meetings. Students desiring leadership opportunities in professional organizations are encouraged to enroll. 1 hr. lecture/wk.

**ITMD 189  
Sustaining Design (1 CR)**
Upon successful completion of this course the student should be able to understand and explain the concepts, terminology and global issues of the various ecological approaches to design and of the impact of design on the environment. The student will have an understanding of the cradle-to-cradle paradigm. Students will learn to identify the impact their selections will have on the environment and to consider ecological options when specifying products. 1 hr. lecture/wk.

**ITMD 213  
Lighting Design and Planning (3 CR)**
*Prerequisite: ITMD 121 with grade of "C" or higher or FASH 125*
This course provides in-depth knowledge about lighting design and planning giving the student the ability to not only understand but to manipulate and create the lighting plan. Upon successful completion of this course, the student should be able to define and use vocabulary relating to lighting design and planning and to recognize and explain lighting application and technology used in the lighting industry. Additionally, the student should be able to identify and describe proper fixtures and equipment for lighting applications and demonstrate skills in selecting proper lighting designs for specific applications. 3 hrs. lecture/wk.

**ITMD 219  
Issues in Interior Design (3 CR)**
*Prerequisite: ITMD 221 with a grade of "C" or higher*
This course is designed to educate the student on the current issues that affect the interior design profession such as environmental design, green/sustainable design and Universal Design. These topics may vary based on current industry concerns. Upon successful completion of this course, the student should be able to identify, explain and analyze ramifications to the industry that arise from the economy, politics and social culture. 3 hrs. lecture/wk.

**ITMD 221  
Residential Design (3 CR)**
*Prerequisites: DRAF 264 with a grade of "C" or higher and ITMD 123 with a grade of "C" or higher and ITMD 129 with a grade of "C" or higher or ITMD 122 with a grade of "C" or higher*
This is an advanced course focusing on residential design. Upon successful completion of this course, the student should be able to demonstrate an advanced level of space planning and furniture arrangement on a floor plan. In addition, the student will develop color schemes that will solve specific assigned interior design problems and demonstrate the ability to coordinate fabrics, colors, texture, patterns and finishes in a complete floor plan for a residential unit. The student will produce floor plans and additional views enhanced by color and shadow. 2 hrs. lecture, 3 hrs. lab/wk.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $50.

**ITMD 223  
Commercial Design (3 CR)**
*Prerequisites: DRAF 264 with a grade of "C" or higher*
This is an advanced course focusing on contract design. Upon successful completion of this course, the student will be able to define and use vocabulary
related to contract design, identify and use proper architectural symbols common to contract floor plans and elevations, and explain the differences between residential and contract design. Additionally, the student should be able to demonstrate the skills necessary to convert, redesign and create contract design space; explain the concept of open office planning; and compare and analyze the costs and benefits of open planning versus closed planning. 2 hr. lecture, 3 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $50.

ITMD 225
Interior Textiles II (3 CR)
Prerequisite: ITMD 125 with a grade of "C" or higher
This course is an advanced study of textiles used in interior design. Upon successful completion of this course, the student should be able to differentiate fibers and textiles according to their specific characteristics and to select fibers and interior textiles for specific applications. The course concentrates on textiles designed for residential and contract applications. 2 hrs. lecture 2 hrs. lab/wk.

ITMD 231
Furniture & Ornamentation Renaissance to 20th Century (3 CR)
This course provides in-depth knowledge in the study of Western furniture and ornament. Upon successful completion of this course, the student should be able to analyze and compare furniture, ornamentation, design motifs and textiles of historical periods from the Renaissance to the 20th century. Additionally, the student should be able to define the social, religious and political influences on the ornamentation and furnishings of each period. The student should also be able to identify the craftsmanship and materials used in the furniture of each historical period and correctly use vocabulary related to each era. 3 hrs./wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

ITMD 234
Kitchen and Bath: Planning and Design (3 CR)
Prerequisites: DRAF 264 with a grade of "C" or higher and either ITMD 122 with a grade of "C" or higher or ITMD 123 with a grade of "C" or higher
This is a comprehensive course in kitchen and bath design and planning. Upon successful completion of this course, the student should be able to define and use proper vocabulary related to kitchen and bath design and construction, identify and use proper architectural symbols common to kitchen and bath plans and elevations, state the space relationships required for proper kitchen and bath usage, convert to metric measurements, and draw a kitchen and bath floor plan and elevation. 2 hrs. lecture, 1 hr. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $50 to 75.

ITMD 237
Capstone: Merchandising and Entrepreneurship (2 CR)
Prerequisite: Approval of program facilitator
This course is designed as a capstone for the Interior Merchandising and Interior Entrepreneurship programs. It should be taken in conjunction with or after completion of the final interiors studio course or in the graduating semester. Upon successful completion of this course, the student should be able to select and rework portfolio materials for maximum visual potential and appeal. In addition, the student will prepare a resume, conduct a job search, and present written and oral presentations based on resource and product files from other classes. 2 hrs. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $75 to 100.
ITMD 239
Capstone: Interior Design (2 CR)
Prerequisite: Program Facilitator Approval
This course is designed as a capstone for the Interior Design Program. It should be taken in conjunction with or after completion of the final interiors studio course or in the graduating semester. Upon successful completion of this course, the student should be able to select and rework portfolio materials for maximum visual potential and appeal. In addition, the student will prepare a resume, conduct a job search, and present written and oral presentations based on resource and product files from other classes. 2 hrs. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $75 to 100.

ITMD 250
20th Century Designers (1 CR)
This course provides in-depth knowledge in the study of the 20th-century designers. Upon successful completion of course, the student should be able to analyze and compare furniture, ornamentation, design motifs and textiles of various 20th-century designers. Recognition of periods and individual styles is stressed. The student will have an opportunity to study a specific designer in depth. 1 hr lecture/wk.

ITMD 271
Budgeting and Estimating (3 CR)
Prerequisite: ITMD 121 with a grade of "C" or higher and ITMD 125 with a grade of "C" or higher and MATH 120 or higher with a grade of "C" or higher
Upon successful completion of this course, the student should be able to demonstrate a business-like approach toward job and work, explain and list methods of pricing interior design/merchandising materials and services, measure accurately for materials, utilize business math in interior design/merchandising applications, and accurately compute cost in cases. 3 hrs. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20.

ITMD 273
Interiors Seminar: Practices and Procedures (2 CR)
Prerequisite: ITMD 122 with a grade of "C" or higher or ITMD 123 with a grade of "C" or higher
Upon successful completion of this course, the student should be able to demonstrate the use of proper interior design industry terminology, appropriate business forms and contracts, define the types of business legal structure, and solve business organizational and ethical problems through use of case studies. 2 hrs./wk.

ITMD 282
Interiors Internship I (1 CR)
Prerequisite: ITMD 121 with a grade of C or higher
Upon successful completion of this course, the student should be able to apply classroom knowledge to an actual work situation. This course consists of supervised work experience in an approved training situation. It is designed to provide practical experience in the interiors industry. A minimum of 15 hours each week on-the-job training is required.

ITMD 284
Interiors Internship II (1 CR)
Prerequisite: ITMD 121 with a grade of C or higher and ITMD 282 with a grade of
Upon successful completion of this course, the student should be able to apply classroom knowledge to an actual work situation. This course consists of supervised work experience in an approved training situation. It is designed to provide practical experience in the interiors industry. A minimum of 15 hours each week on-the-job training is required.

**ITMD 295**
**Field Study: Design and Merchandising (3 CR)**
*Prerequisite: ITMD 121 and approval of the program facilitator*
This travel-for-credit course consists of visits to manufacturing plants, a market showroom and a merchandise mart in a major market city.

**ITMD 296**
**Interior Design: the Orient (3 CR)**
Upon successful completion of this course, the student should be able to recognize and identify Asian furniture pieces and accessories from different countries; define and use vocabulary common to the art periods; and compare and contrast furniture and accessory pieces observed in museums, temples, homes and antique stores. This course will include five 3-hour pre-departure seminars followed by a three-week field trip to Japan, Hong Kong and Thailand.

**Interpreter Training (INTR)**

**INTR 120**
**Elementary American Sign Language I (3 CR)**
This class will focus on the development of beginning American Sign Language communication skills. Comprehension skills and linguistic features of the language taught in context will be emphasized. 6 hrs. integrated lecture-lab/wk. INTR 120 and FL 180 are the same course. Do not enroll in both.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 10.

**INTR 121**
**Elementary American Sign Language II (3 CR)**
*Prerequisite: INTR 120 or FL 180*
This course will focus on continued development of elementary American Sign Language skills beyond those taught in Elementary ASL I. Students will work on developing communication competencies, concentrating on comprehension and production skills. Information about the linguistic and cultural features will be included in the context of language learning experiences. 6 hrs. integrated lecture-lab/wk. INTR 121 and FL 181 are the same course; do not enroll in both.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $250.

**INTR 122**
**Intermediate American Sign Language I (3 CR)**
*Prerequisite: INTR 121 or FL 181 with a grade of "C" or higher and Corequisite: Students accepted in the interpreter training program must take corequisites of INTR 130 and INTR 126 and INTR 147 and INTR 145 all with a grade of "C" or higher*
This course will focus on the development of intermediate American Sign Language communication skills. Comprehension skills and linguistic features of the language taught in context will be emphasized. 6 hrs. lecture-lab/wk. The daytime sections only are open to students in the interpreter training program.
INTR 122 and FL 270 are the same course; do not enroll in both.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

**INTR 123**

**Intermediate American Sign Language II (3 CR)**

*Prerequisite:* INTR 122 or FL 270 with a grade of "C" or higher and *Corequisite:*

For students accepted in the interpreter training program: INTR 131 and INTR 135 and INTR 242 and INTR 248 all with a grade of "C" or higher

The course will continue study of intermediate American Sign Language. It is designed to develop further intermediate communication skills in American Sign Language. Information about the linguistic and cultural features will be included in the context of language learning experiences. 6 hrs. integrated lecture-lab/ wk.

The daytime sections are open only to students in the interpreter training program. INTR 123 and FL 271 are the same course; do not enroll in both.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

**INTR 126**

**Classifiers in American Sign Language (2 CR)**

*Prerequisite:* INTR 121 with a grade of "C" or better and acceptance in the interpreter training program and *Corequisites:* INTR 122 and INTR 130 and INTR 147 and INTR 145

The course will provide an in-depth analysis of classifiers in ASL through discussion and demonstration of the three different categories of classifiers in ASL: representative classifiers (noun and its action), descriptive classifiers (size-grid-shape, extent, perimeter, pattern and texture), and instrumental classifiers (manipulative and handle). Students will learn to comprehend and produce classifiers from all three categories.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $400 to 500.

**INTR 130**

**Survey of the Interpreting Profession (3 CR)**

*Prerequisite:* INTR 121 or FL 181 with a grade of "C" or higher and acceptance in the interpreter training program and *Corequisite:* INTR 122 and INTR 126 and INTR 147 and INTR 145 all with a grade of "C" or higher

This course provides an introduction to interpreting as an occupation. Students will come to understand interpersonal communication skills, professional ethics, parameters of responsibilities, community resources and legal ramifications as they relate to the interpreter. 3 hrs./wk.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 50.

**INTR 131**

**Interpreting Preparation Skills (2 CR)**

*Prerequisite:* INTR 130 with a grade of "C" or higher and acceptance into the interpreter training program and *Corequisite:* INTR 123 and INTR 135 and INTR 242 and INTR 248 all with a grade of "C" or higher

This course provides students with a foundation in the theory of interpretation. Students will explore the Colonomas Model of interpreting and apply this model by first using pre-interpreting skills in isolation. Then students will progress from producing translations to interpreting consecutively. 4 hrs. integrated lecture-lab/wk.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 50.

**INTR 135**

**Intro to American Sign Language Linguistics (3 CR)**
Prerequisite: INTR 122 or FL 270 with a grade of "C" or higher and Corequisite: for students accepted in the interpreter training program enroll in: INTR 123 and INTR 242 and INTR 131 and INTR 248 all with a grade of "C" or higher

This course introduces students to the structural and grammatical principles of ASL. Students will explore concepts of equivalency between English and ASL 3 hrs. lecture/wk. The daytime sections are open only to students in the interpreter training program.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 50.

INTR 145
Introduction to the Deaf Community (3 CR)
Prerequisite: Acceptance to interpreter training program and Prerequisite or corequisite: ANTH 125 and SPD 120 for Interpreter Training Program and Corequisite for Interpreter Training Prog; INTR 122 and INTR 126 and INTR 130 and INTR 147 all with a grade of "C" or higher Note: Prerequisite or corequisite of INTR 120 or FL 180 required for students in the American Sign Language Studies Certificate

This course will prepare students to develop and recognize the diversity within the Deaf Community, significant events and figures in Deaf History, and basic norms and values of Deaf Culture. Students will examine and compare Deaf Culture and hearing culture in America. The daytime sections are open only to students in the interpreter training program. 3 hrs./wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 50.

INTR 147
Fingerspelling I (2 CR)
Prerequisite: INTR 121 or FL 181 with a grade of "C" or higher and Corequisites: For students accepted in the interpreter training program, enroll in: INTR 122 and INTR 126 and INTR 130 and INTR 145 all with a grade of "C" or higher

Students will work on developing beginning expressive and receptive fingerspelling skills based on word recognition principles. 1 hr. lecture, 2 hrs. lab/wk. The daytime sections are open only to students in the interpreter training program. INTR 147 and ASL 145 are the same course; do not enroll in both.

INTR 150
American Sign Language Literature (3 CR)
Prerequisite: INTR 122 with a grade of "C" or higher

This course will provide introduction, discussion, and demonstration of literature in American Sign Language (ASL). The literature involves ASL Poetry, ASL Storytelling/Narratives, Deaf Humor, Deaf Folklore and other genres that have been passed on from one generation to another by culturally deaf people. Students will receive, analyze and retell a variety of ASL literature. 3 hrs. lecture/wk.

INTR 181
Interpreting Practicum I (1 CR)
Prerequisite: INTR 130 with a grade of "C" or higher and Corequisite: INTR 145 and INTR 223 and INTR 226 and INTR 250 all with a grade of "C" or higher

Students will observe skilled interpreters in various interpreting situations in a variety of settings during the semester. 2 hrs. lab, field work/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 50.

INTR 223
Advanced American Sign Language (3 CR)
This course is a continuation of Intermediate American Sign Language II. Students will learn about culturally significant topics related to the Deaf community, more complex ASL grammatical features and conversational skill development. Comprehension skills and linguistic features of ASL will be taught to a variety of contexts in simulated, typical interaction. Students will have opportunities to utilize what they learn about advanced ASL through class activities, dialogues, short stories, general conversations and class discussions. Sign comprehension and production skills will be emphasized. This course meets for six hours of internship/week.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 25.

**INTR 226**

**Specialized and Technical Vocabulary (2 CR)**

Prerequisite: INTR 123 with a grade of "C" or higher and Corequisite: INTR 181 and INTR 250 and INTR 223 all with a grade of "C" or higher

This course will expand the interpreter training students' vocabulary related to specialized and technical contexts. Students will discuss vocabulary use in a variety of contexts to include socially restricted terms and phrases Deaf people use; colloquialisms; varying registers; terminology in medical, mental health, religion, sex, drugs; and strong language in ASL. Students' development of comprehension and production skills in common formal and informal settings will be emphasized. Students will also discuss Signing Exact English (SEE II) and the differences from American Sign Language (ASL). 3 hrs. integrated lecture-lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 50.

**INTR 242**

**Fingerspelling II (2 CR)**

Prerequisite: INTR 142 with a grade of "C" or higher and Corerequisite: INTR 123 and INTR 131 and INTR 135 and INTR 248 all with a grade of "C" or higher

This course focuses on continued development of expressive and receptive fingerspelling skills based on word and phrase recognition and expression. 1 hr. lecture, 2 hrs. lab/wk.

**INTR 248**

**Deaf Community Ethnography (3 CR)**

Prerequisite: INTR 145 with a grade of "C" or better Corequisite: INTR 123 and INTR 131 and INTR 135 and INTR 242 all with grade of "C" or better

This advanced course will provide students the opportunity to explore power and oppression issues experienced by d/Deaf people. Specific attention will be given to society's views of the d/Deaf community and the influence of various media on these views. 3 hrs. lecture/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 25.

**INTR 250**

**Interpreting I (6 CR)**

Prerequisite: INTR 131 with a grade of "C" or higher and Corequisite: INTR 181 and INTR 223 and INTR 226 all with a grade of "C" or higher

In this introduction to interpreting principles, emphasis will be on English-to-ASL and ASL-to-English skills. Students will participate in sequential drills and apply these skills in class. 2 hrs. lecture, 8 hrs. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 50.
Interpreting II (2 CR)
Prerequisite: INTR 250 with a grade of "C" or higher and Corequisite: INTR 262 and INTR 282 and AAC 150 all with a grade of "C" or higher

A description is not available for this course.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 50.

INTR 262
Seminar on Interpreting (3 CR)
Prerequisite: INTR 250 with a grade of "C" or higher and Corequisite: INTR 251 and INTR 282 and AAC 150 all with a grade of "C" or higher

This course provides students with knowledge of stress management as applied to both the physical demands and mental conditions of sign language interpreting. Students will learn and apply decision-making techniques in regard to the Interpreter (RID) Code of Ethics. Additionally, the course provides students with knowledge of career development theory, career decision-making and the job-search process. 3 hrs. lecture/wk.

INTR 282
Interpreting Practicum II (6 CR)
Prerequisite: INTR 181 with a grade of "C" or higher and Corequisite: INTR 251 and INTR 262 and AAC 150 all with a grade of "C" or higher

This course provides students with an opportunity to observe and interpret in an off-site setting with the supervision of an experienced interpreter. Students will actively engage in discussions relating to the difficulties and rewards of working in a realistic interpreting environment. The fieldwork totals 270 hours a semester.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 50.

Journalism/Media Communication (JOUR)

JOUR 120
Mass Media and Society (3 CR)

Via books, newspapers, magazines, recordings, movies, radio, television, new technologies and the related areas of advertising and public relations, each of us is exposed to and affected by the mass media on a daily basis. This course will increase student awareness of the various media and help them understand the influence of the media on their daily activities, beliefs, decisions and goals. As a result, the student will become a more astute critic of the messages delivered by the mass media. 3 hrs./wk.

JOUR 122
Reporting for the Media (3 CR)

Reporting for the Media is structured for students interested in the basics of writing and reporting. Writing for print, broadcast, and online media are included. Information gathering and story writing are conducted under strict deadlines to prepare students for a professional position. Basic news writing and style principles will be gained by writing stories for JCCC student media, including the student newspaper, The Campus Ledger. 3 hrs./wk.

JOUR 125
Fundamentals of Advertising (3 CR)

Fundamentals of Advertising introduces the student to the contemporary advertising process. Research, planning, creativity, production, media placement and sales are discussed, along with individual mediums and their forms, functions
and roles in society. Major emphasis is placed on the areas of advertising/marketing research, planning and creativity, including integrated marketing communications. 3 hrs./wk.

JOUR 127
Introduction to Broadcasting (3 CR)
This course serves as a general introduction to students interested in pursuing knowledge of or a career in radio and television broadcasting. The course includes a study of the industry's development, its form and function, job responsibilities, basic production techniques, audience measurement, FCC regulations and ethics. Class time will include discussion of current trends and issues in the field, with students developing an understanding of broadcast media. Productions in the college's audio booth and TV facilities offer an opportunity to experience the field of broadcasting. These experiences will allow students to evaluate broadcasting as a possible career choice. 3 hrs./wk.

JOUR 130
Principles of Public Relations (3 CR)
This course is intended to provide the student with an overview of the history, principles and real-life functions of public relations. Public relations is a rapidly growing field. The ability to work with the public is essential in business, education, health care and numerous other fields. This course is designed to give students the background to develop their PR skills, both verbally and in writing. 3 hrs./wk.

JOUR 202
Broadcast Performance (3 CR)
Students will learn how to improve their speaking voices and body language as well as the techniques necessary to effectively communicate messages through basic announcing skills. Interviewing, radio and television news, and commercial announcing are some of the topics covered in this course, which will allow students to polish their skills through performances in the college's television studio and audio booth. 3 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 15.

JOUR 222
Advanced Reporting (3 CR)
Prerequisite: JOUR 122
This is an advanced newsgathering and reporting course designed to sharpen the discernment, critical thinking and writing skills of student journalists. Specific English language rules and principles plus AP news writing style will be emphasized in the production of incisive, well-defined news stories, features, profiles, editorials and personal columns. Professional writings in various media will be examined and critiqued, and class members will have the opportunity to participate in hands-on editing and layout. Students will gain additional experience by preparing for and participating in news conferences and events, as well as interacting with area media writers. 3 hrs./wk.

JOUR 225
Promotional Writing (3 CR)
Prerequisite: JOUR 125 or JOUR 130
Students will study the elements of layout and copywriting for promotional purposes, with emphasis on advertising, direct mail and public relations writing. 3 hrs./wk.
JOUR 227
Basic Video Production (3 CR)
This course provides students with the fundamentals of video production. The goal is to teach students basic video techniques. Topics covered include technology, lighting, camera operations, audio and editing. Students will gain hands-on experience in the college's Media Production Services Department. 3 hrs. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.

JOUR 242
Advanced Broadcast Performance: TV (3 CR)
Prerequisite: JOUR 202
Students will produce news, feature, sports, and interview programming for airing on the college's cable station. The development of news packages, event reporting, breaking news, and extended coverage of news events will be included. Learning composure, focus, and detail in a team information-gathering operation will be emphasized. 3 hrs. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 15.

JOUR 247
Advanced Video Production (3 CR)
Prerequisite: JOUR 227
Students will direct, produce, and edit programming for distribution via the college's media outlets. Students will develop the technical skills involved in both studio production and field production as well as advanced skills in camera operations, multi-camera directing, lighting, audio production, and graphics. 3 hrs. lecture/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 30.

JOUR 271
Journalism Internship (3 CR)
Prerequisite: instructor approval; completion of six credit hours in journalism/media communications at JCCC or another college with a minimum grade of "C" in those 6 hours.
A journalism/media internship allows students to gain work experience at an approved training center under staff supervision. Emphasis is on learning new skills related to a particular program or department at a media facility. Students may learn the application of writing techniques needed to produce and broadcast news, and produce advertising or public relations promotional copy. On-the-job training involves approximately 15-20 hrs./wk. by arrangement.

Land Surveying (KSRV)

KSRV 135
Elementary Surveying (3 CR)
Prerequisite: MCC - MATH 104
Introduction to the care and use of optical surveying instruments; Transits, Total Stations and Auto Levels. Use of cloth tapes, steel tapes and electronic distance machines. Reduction of slope measurements to horizontal and vertical components. Measurement, field data reduction and adjustment of a closed traverse. Horizontal and Vertical Curves, earthwork, and coordinates. Extensive field work, field notes and electronic data collection. Introduction to systematic and random errors. MCC-Longview Community College, 500 SW Longview Road, Lee's Summit, Missouri 64081. Call 816-672-2510
KSRV 137
Subdivision Planning and Layout (3 CR)
Prerequisite: ENGR 180 MCC's and DRAF 152
Physical elements of designing land subdivisions including traffic circulation, sewer and drainage systems, soils and earthworks, grading considerations, erosion control, lot and block arrangement, topography and existing land use factors, geometric analysis, laws and codes affecting land subdivisions, environmental considerations, site analysis procedures. 3 hrs. lecture/wk.
Courses taught at MCC-Longview Community College, 500 SW Longview Rd., Lee's Summit, MO. Students should contact the Longview coordinator of land surveying about the class meeting times and beginning and ending dates of classes. Call 816-672-2510.

KSRV 152
Engineering Graphics & CADD I (5 CR)
Prerequisite: MATH test
Introduction to engineering communications and basic computer-aided drafting/design (CADD). Emphasis on sketching, projections, drawing layout, drafting standards and conventions, dimensioning, sectioning, and basic design principles. Foundation for computer aided drafting/design including file management, basic drawing commands, basic editing commands, layering conventions, blocks, dimensioning, polylines, sectioning, and drawing layout and plotting. 3 hrs. lecture, 4 hrs lab.

KSRV 235
Advanced Surveying (3 CR)
Prerequisite: ENGR 180
This course is a continuation of surveying skills introduced in ENGR 180 with an emphasis on advanced techniques beyond plane surveying such as geodetic control networks, practical astronomy, state plane coordinates, photogrammetry and the US Public Land Surveys System. 3 hrs. lecture/wk. Course taught at MCC-Longview Community College, 500 SW Longview Rd., Lee's Summit, MO. Students should contact the Longview coordinator of land surveying about the class meeting times and beginning and ending dates of classes. Call 816-672-2510.

KSRV 236
Legal Aspects of Surveying (3 CR)
Prerequisite: ENGR 180
A study of the legal principles of land boundaries, section corners, area; interpretations of land descriptions; identification of land parcels; legal principles of boundary locations; and the United States land survey system. 3 hrs. lecture/wk. Course taught at MCC-Longview Community College, 500 SW Longview Rd., Lee's Summit, MO. Students should contact the Longview coordinator of land surveying about the class meeting times and beginning and ending dates of classes. Call 816-672-2510.

KSRV 237
Land Surveying (3 CR)
Prerequisite: ENGR 180
A study of the land survey practice of retracement and creation of new parcels as it relates to the lot survey, the sectional survey, and the water boundary survey. Further, standard business practice will be discussed. 3 hrs. lecture/wk. Course taught at MCC-Longview Community College, 500 SW Longview Rd., Lee's Summit, MO. Students should contact the Longview coordinator of land surveying about the class meeting times and beginning and ending dates of classes. Call 816-672-2510.
KSRV 240
Analysis of Survey Measurements I (3 CR)
Prerequisite: KSRV 135
Introduction to the nature of surveying instruments and their use. Analysis of the effect that instruments and observers have on measurements. Explanation of random error propagation and estimates of uncertainty. Introduction to adjustment of data. MCC-Longview Community College, 500 SW Longview Road, Lee’s Summit, Missouri 64081. Call 816-672-2510

KSRV 242
Analysis of Survey Measurements II (3 CR)
Prerequisite: KSRV 240
This course is a continuation of analytical skills introduced in KSRV 240, Analysis of Survey Measurements I as they apply to adjustments of horizontal, GPS and level networks. Emphasis will also be placed on Coordinate transformation, advanced curve fitting and blunder detection in survey networks. MCC-Longview Community College, 500 SW Longview Road, Lee’s Summit, Missouri 64081. Call 816-672-2510

Leadership (LEAD)

LEAD 120
Leadership Development Seminar (3 CR)
This seminar course is designed for individuals who are interested in exploring the concepts of leadership using discussion, film, exercises and works of classic literature. The course will lead to the development of a personal leadership philosophy. 3 hrs./wk.

Learning Communities (LCOM)

LCOM 125
Comp II/College Algebra - You MUST enroll in both 84126-MATH 171 400 and 83394-ENGL 122 402 (6 CR)
Prerequisite: ENGL 121 and MATH 116 with a grade of "C" or better or appropriate score on the math assessment test - Note: College Algebra not available to students with a credit in MATH 173.

Students earn 6 transferable credit hours in general education requirements (3 for ENGL 122, Composition II, and 3 for MATH 171, College Algebra) WARM: Writing and Reading Mathematics is a learning community in which College Algebra and Composition II are integrated. Because most subjects are learned better when the learners write about them in their own language, in WARM, students write about math instead of taking tests. For instance, the first major paper involves defining a function and then describing and showing a number of ways of transforming the graph of the function. Students also read articles and book excerpts concerning language and math acquisition and innate math and language ability. In addition to their major papers on math topics, students write summaries, evaluations and syntheses of the readings and a research paper on a math-related topic.

LCOM 126
Composition II/U.S. Hist to 1877 - You MUST enroll in both 12915-ENGL 122 037 and 13374-HIST 140 007 (6 CR)
Prerequisite: ENGL 106 or appropriate placement score
Students earn 6 transferable credit hours in general education requirements (3 for ENGL 122, Composition II, and 3 for HIST 140, U.S. History to 1877).
philosophy behind joining these two courses together is to encourage students to think critically and write effectively with American history providing unifying themes. Writing instruction works best when students can focus sustained attention on one particular discipline. Writing in college and the workplace demands the ability to synthesize often conflicting information gathered from various sources. The discipline of American history provides ample opportunities for students to develop skills in composing various types of prose.

LCOM 127  
Comp II/US Hist Since 1877 - You MUST enroll in both 85180 Engl 122 023 AND 85897 Hist 141 006 (6 CR)

Prerequisite: ENGL 106 or appropriate test score

Students earn 6 transferable credit hours in general education requirements (3 for ENGL 122, Composition II, and 3 for HIST 141, U.S. History Since 1877). The philosophy behind joining these two courses together is to encourage students to think critically and write effectively with American history providing unifying themes. Writing instruction works best when students can focus sustained attention on one particular discipline. Writing in college and the workplace demands the ability to synthesize often conflicting information gathered from various sources. The discipline of American history provides ample opportunities for students to develop skills in composing various types of prose.

LCOM 128  
Art History: Renaissance to Modern/Furniture and Ornamentation: Renaissance to Modern (6 CR)

Students earn 6 credit hours (3 for ARTH 182, Art History: Renaissance/Modern, and 3 for ITMD 231, History of Furniture & Ornamentation/Renaissance-20th Century). NOTE: This learning community will meet on campus on Tuesdays and the Nelson-Atkins Museum of Art on Thursdays. In a traditional curriculum the history of the visual arts and architecture and the history of furniture and ornamentation are taught separately. In this learning community the two courses will be thoroughly integrated, thus providing students with a more accurate and meaningful way to learn. The class will meet once a week on the JCCC campus and once a week at the Nelson-Atkins Museum of Art in Kansas City, MO. Students, therefore will have the unique opportunity to study paintings, sculpture, furniture and the decorative arts from the Renaissance to the present using historically significant objects and art works. The class will involve such activities as oral presentations about art works in the museum and researching and writing about furniture and ornamentation. Students should have reliable transportation for the weekly drive to the Nelson-Atkins and should NOT enroll in an 11 a.m.-12:15 p.m. class.

LCOM 132  
Composition II/Literature of Science Fiction (6 CR)

Prerequisite: ENGL 121

Students earn 6 credit hours (3 for ENGL 122, Composition II, and 3 for ENGL 243, Literature of Science Fiction). Students in this learning community will integrate their work in Composition II with their work in Literature of Science Fiction. Science fiction literature will be read and evaluated and will act as the subject matter for the writing inherent in the Composition II course objectives: we'll read and summarize science fiction stories and criticism; we'll critique and synthesize definitions of science fiction, its development, and its key concepts; and we'll explore the translation of text to screen.

LCOM 135  
Social Issues:Appomattox-9/11 - You MUST enroll in both 11788 Soc 122 002 AND 14980 Hist 141 008 (6 CR)

Students earn 6 transferable credit hours in general education requirements (3 for
SOC 122, Introduction to Sociology, and 3 for HIST 141, U.S. History Since 1877). Come explore American society in a learning community combining U.S. History since 1865 with Introduction to Sociology. Examine historical events with sociological eyes and understand how we created this society in which we live. We’ll cover everything from A to Z: Appomattox to Z-Boys, Economics to Ecology, Family to Feminism, Media to the Moral Majority, Religions to Race, Social Class to Sexuality, Technology to Terrorism and Wealth to World War II.

LCOM 140
Selling Interior Products - You MUST enroll in both 83181-ITMD 132 001 and 80414-MKT 134 002 (6 CR)
Students earn 6 credit hours (3 for ITMD 132, Interior Products, and 3 for MKT 134, Professional Selling). In this learning community, students will learn in-depth product knowledge inclusive of specific features and benefits for numerous interior products. Additionally, students will learn how to utilize professional selling skills to sell interior products. Students will practice role playing the steps of professional selling to illustrate the application of skill techniques in each step. 6 hrs. lecture/wk.

LCOM 142
Digital Literacies - You MUST enroll in Engl 121 044, Cweb 105 700, Cweb 115 700 & Cweb 130 702 (6 CR)
Prerequisite: ENGL 106 or appropriate test score. Prerequisite for CWEB 105 is CWEB 101; Prerequisite for CWEB 115 is CWEB 105; Prerequisite for CWEB 130 is CPC 161 or CWEB 105 or CWEB 106
Students earn 6 credit hours (3 credit hours for ENGL 121, Composition I, 1 credit hour for CWEB 105, Intro to Web Pages: Dreamweaver; 1 credit hour for CWEB 115, Intermediate Web Pages: Dreamweaver and 1 credit hour for CWEB 130, Intro to Flash) (The CWEB courses would be taken in sequence throughout the semester.) This course combines the basic thinking skills and core competencies needed to thrive in the modern interactive environment. Students will enroll in ENGL 121 and CWEB 105, 115 and 130. Students will learn to transform "technobabble" into a language they can speak and understand. The course unlocks the power and potential of the Internet through a four-step inquiry process of awareness, analysis, reflection and action. This course helps students acquire an empowering set of "navigational" skills which include the ability to: 1) access information from a variety of sources; 2) analyze and explore how messages are "constructed" whether print, verbal, visual or multi-media; 3) evaluate media's explicit and implicit messages against one's own ethical, moral and/or democratic principles and 4) express or create their own messages using a variety of media tools.

LCOM 145
The Origins of Human Nature - You MUST enroll in both 14985 Soc 122 022 & 14984 Psyc 130 032 (6 CR)
Students earn 6 credit hours (3 for SOC 122 Intro to Sociology and 3 for PSYC 130 Intro to Psychology). Is it nature? Is it nurture? Are we who we are because of our genes or our environment, or both? Experience this Learning Community to learn what sociology and psychology have to say about human nature.

LCOM 147
Foundations of Modern Thought - You MUST enroll in both 84099-HIST 126 002 and 84104-SOC 122 028 (6 CR)
Students can earn 6 transferable credit hours in general education requirements (3 for HIST 126, Western Civilization: Readings and Discussions, and 3 for SOC 122, Intro to Sociology). Modern social issues and structures have their origins in classic thought and writings. This learning community connects the heritage of Western thought to our contemporary lives. Search for the connections to democratic thought, social inequalities, the creation and dissolution of community,
and other foundational ideas of modern society.

LCOM 149
Interpersonal Commun/Navigation - You MUST enroll in both 13774-HPER 102 001 and 13772-SPD 120 014 (4 CR)
Students earn 4 transferable credit hours in general education requirements (3 for SPD 120, Interpersonal Communication, and 1 for HPER 102, Navigation 102). This 4-credit hour course combines principles of effective communication with helping students experience a successful transition to college life. Students will learn practical life management skills and how to enhance their academic skills, while navigating through the fundamental elements of the communication process. Students in this learning community class will learn principles of communication theory, terminology of human communication, and will apply communication skills in everyday life. Students will have an opportunity to learn about self, one’s self-concept, and how we relate to our world through healthy interpersonal relationships. Students will participate in self-awareness and career exploration activities that involve campus and community resources. Through decision-making activities, conflict management role playing perception awareness drills, and mastering one’s listening skills, students will view and appreciate communication in a new and improved way. Emphasis will be on interactive and participatory activities, that include journal writing, small and large group discussion, quizzes and self-assessment.

LCOM 151
America & Global Terrorism - You MUST enroll in both 82970-Admj 224 002 and 83199-Pols 124 351 (6 CR)
Students earn 6-credit hours (3 credit hours for POLS 124 American National Government and 3 for ADMJ 224 Introduction to Terrorism). This course gives an overall view of terrorism and the impact on the American political system. This is a Coordinated Studies Learning Community that includes three full hours of on-campus instruction plus online work. The American government course is a JCCC online offering of many years.

LCOM 153
Russian Literature/Russian Culture-You MUST enroll in both 13305-ENGL 130 006 and 11619-HUM 137 001 (6 CR)
Prerequisite: ENGL 121
Students earn 6-credit hours (3 credit hours for ENGL 130, Introduction to Literature and 3 credit hours for HUM 137, Introduction to Russian Culture). This course is an interdisciplinary survey of Russian culture and literature from the ninth century to the present day. Students examine representative examples of Russian fiction, poetry, drama, art, architecture, music, and dance within their cultural, historical and political context. Russian poetry, drama, and fiction do not stand in isolation from the culture that produced them and are most fruitfully studied and understood within that context.

LCOM 155
Intro to Algebra/Learn Strat Math - You MUST enroll in both 80570-MATH 115 013 and 84158-LS 174 001 (4 CR)
Prerequisite: MATH 111 with a minimum grade of "C" or appropriate score on the math assessment test
Students earn 4-credit hours (3 credit hours for MATH 115, Intro to Algebra and 1 credit hour for LS 174, Learning Strategy for MATH). This course facilitates mathematics learning by integrating thinking skills, study skills and mathematical content. The student will acquire life-long learning skills along with the basic skills of algebra. Students in this learning community class will learn problem solving, test taking and cognitive skills. They will apply these skills to their math textbook, homework assignments, class discussions and lectures. This course will also
address emotions and attitudes which may block math learning, and will offer strategies and techniques designed to overcome these feelings. MATH 115 may fulfill some certificate requirements, but will not fulfill degree requirements.

LCOM 157  
Fund of Math/Learning Strat for Math-You MUST enroll in both 80560-MATH 111 011 and 84159-LS 174 002 (4 CR)  
Prerequisite: Appropriate score on the math assessment test  
Students earn 4-credit hours (3 credit hours for MATH 111 Fundamentals of Math and 1 credit hour for LS 174 Learning Strategies for Math). This course facilitates learning by integrating thinking skills, study skills and mathematical content. The student will acquire life-long learning skills along with fundamental math procedures and concepts. Students in this learning community class will learn problem solving, test taking and cognitive skills. They will apply these skills to their math textbook, homework assignments, class discussions and lectures. This course will also address emotions and attitudes which may block math learning, and will offer strategies and techniques designed to overcome these feelings. Active learning will be encouraged through activities such as pair and share, journal writing, group discussions, self-assessments and collaborative learning.

LCOM 159  
Intimate Relationships (6 CR)  
Students earn 6-credit hours (3-credit hours for PSYC 130, Introduction to Psychology and 3-credit hours for SOC 131, Marriage and the Family). Does media imitate life or does life imitate media? Experience this learning community that combines Psychology and Marriage and the Family. Explore intimate relationships by applying sociological and psychological principles to episodes of classic shows such as "The Brady Bunch," "Leave it to Beaver," as well as "Sex and the City," "Big Love," "Brokeback Mountain," and other popular shows. Find the keys to understanding the intimacies of contemporary relationships in this spicy course.

LCOM 161  
Environmental Science/Comp II - You MUST enroll in both 80170-ENGL 122 028 and 84228-BIOL 130 010 (6 CR)  
Prerequisite: ENGL 121  
Students earn 6-credit hours (3 for ENGL 122, Composition II and 3 for BIOL 130, Environmental Science). Most Americans are only dimly aware of their immediate environment, and they know even less about how that place fits into, impacts, and is impacted by the global environment. Through reading, writing, and discussion, this course will raise students' awareness of where they are and help them become more conscious of their own place in and responsibility to the earth's ecology. This is a Coordinated Studies Learning Community that includes six full hours of on-campus instruction.

LCOM 163  
Russia: Empire of East & West - You MUST enroll in both 84206-FL 246 002 and 81611-HIST 160 350 (5 CR)  
Prerequisites: FL 141 or two years of high school Russian  
Students earn 5-credit hours (2 for FL 246, Conversational Russian and 3 for HIST 160, Modern Russian History). This interdisciplinary Russian Conversation and Russian History course allows students to build their conversation skills with the vocabulary and grammar appropriate to describe and discuss the events, personalities and forces that shaped Russia as Eurasian empire. The course requires 2-credit-hours weekly time and 3-credit-hours of online work.
LCOM 165
American Histories/Family Hist - You MUST enroll in both 80815-HIST 141 006 and 84083-ENGL 121 059 (6 CR)
Prerequisite: ENGL 106 or appropriate placement score or EAP 113 and EAP 117
Students can earn 6-credit hours (3-credit hours for ENGL 121, Composition I and 3-credit hours for HIST 141, U.S. Since 1877). U.S. History comes alive and makes more sense to people when they can see the big and little events in light of their own family's stories and memories. Not only will students study the expected topics (World War II, Viet Nam, the Great Depression), they will also explore the history of private life: what people ate, wore, worked and played at in any given era. At the same time, students will work on writing their own family's history. Instead of approaching Composition I as a series of unrelated essays, students will learn to write by focusing on how class readings and discussions related directly to their own and their family's lives. Through narrative, analysis, and research, they will create a document that their family can rely on and refer to over the course of generations to come.

Learning Strategies (LS)

LS 174
Learning Strategies for Math (1 CR)
Corequisite: Concurrent enrollment in a math course
This course teaches thinking and study skills specifically geared toward the learning of math. Students practice these skills on their math textbooks and homework assignments as well as in their math class discussions and lectures. This course also addresses feelings and attitudes that may block math learning and offers strategies and techniques designed to overcome these feelings. 1 hr./wk. Learning Strategies courses offer students opportunities to acquire the thinking and learning skills needed to be a successful learner, including reading textbooks, taking notes, organizing information and preparing for tests. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

LS 176
Strategic Learning System (1 CR)
Corequisite: Concurrent enrollment in a college lecture course
In this course, students will learn a series of strategies for processing information from textbooks and lectures and strategies for studying for and taking tests. As the strategies are introduced, students apply them to the content of courses in which they are concurrently enrolled. Upon successful completion of the course, students will have developed a system for learning that can be adapted for use in any learning situation. 1 hr./wk. Learning Strategies courses offer students opportunities to acquire the thinking and learning skills needed to be a successful learner, including reading textbooks, taking notes, organizing information and preparing for tests.

LS 178
Memory Strategies (1 CR)
Corequisite: Concurrent enrollment in another college course
In this course, students learn a series of techniques to help them improve their retention and recall of information needed for success in college courses. These techniques provide a systematic approach to learning and remembering. Students immediately use the techniques to learn information from their other college courses. 1 hr./wk. Learning Strategies courses offer students opportunities to acquire the thinking and learning skills needed to be a successful learner, including reading textbooks, taking notes, organizing information and preparing for tests.
LS 186  
**Exam Strategies (1 CR)**

*Corequisite: Concurrent enrollment in at least one other college course in which exams are taken*

This course offers students an opportunity to explore their own learning styles and to develop appropriate strategies for improving test performance through improved learning procedures. Emphasis will be on practical application of the learned strategies to courses in which the students are concurrently enrolled. 1 hr./wk. Learning Strategies courses offer students opportunities to acquire the thinking and learning skills needed to be a successful learner, including reading textbooks, taking notes, organizing information and preparing for tests.

LS 200  
**College Learning Methods (3 CR)**

*Corequisite: Concurrent enrollment in at least one academic college course*

This course provides students with opportunities to develop skills and habits that will help them establish and maintain effective learning systems. Students first learn and practice the learning methods in class and then apply these methods to appropriate situations in their other college coursework. The methods, which are based on valid learning and thinking principles, will help students meet the higher-level demands of the subjects encountered in college courses. 3 hrs./wk. Learning Strategies courses offer students opportunities to acquire the thinking and learning skills needed to be a successful learner, including reading textbooks, taking notes, organizing information and preparing for tests.

Legal Studies (LAW)

LAW 121  
**Introduction to Law (3 CR)**

Upon successful completion of this course, the student should be able to explain the major substantive and procedural aspects of law. This course provides an overview of the legal system and knowledge of specific legal topics, including torts, criminal law, contracts, family law, business law, real estate and probate. This course is a requirement for applying to the paralegal program and for completion of the legal nurse consultant program. 3 hrs. lecture/wk.

LAW 123  
**Paralegal Professional Studies (1 CR)**

Upon successful completion of this course, the student should be able to explain the legal assistant profession. Topics will include paralegal licensing, certification, education, employment and professional ethics. The course is required for students seeking admission to the paralegal program. 1 hr. lecture/wk.

LAW 131  
**Legal Research (3 CR)**

*Prerequisite or corequisite: Legal nurse consultant students: LAW 225 and LAW 121 or BUS 122 Paralegal program students - Admission to the program or division administrator approval*

This course will familiarize the student with library organization and the types of informational resources used for performing legal research. The student will become acquainted with the major characteristics of these resources and usage techniques and will learn a systematic method for researching legal issues. Numerous opportunities will be provided for skill development in the use of these resources. 3 hrs. lecture/wk.
LAW 132
Civil Litigation (3 CR)
Prerequisite: Admission to the paralegal program or division administrator approval. Legal nurse consultant students - LAW 225 and LAW 121
This course will acquaint the student with the major characteristics of the civil litigation process. Students will become familiar with the various types of procedural rules regulating the civil litigation process and their application. Emphasis will be on the role of the legal assistant in a civil litigation practice and will include the drafting of pleadings. 3 hrs. lecture/wk.

LAW 140
Alternative Dispute Resolution (3 CR)
Prerequisites: Legal nurse consultant students and paralegal program students - LAW 132 and selective admission approval
This course examines the various methods used by our legal system for dispute resolution and the role of the legal assistant in those methods. Upon successful completion of this course, the students should be able to explore the nature of conflict and the principles of negotiation and review the traditional litigation system. The course will concentrate on the major alternatives to litigation, including mediation and arbitration. 3 hrs. lecture/wk.

LAW 142
Torts (3 CR)
Prerequisites: Legal nurse consultant students and paralegal program students - LAW 132 and selective admission approval
Upon successful completion of this course, the student should be able to explain the major principles of tort law and personal injury litigation. The student should be able to discuss and compare the elements of negligence torts, intentional torts and strict liability torts, as well as the types of damages available and defenses to each of these torts. 3 hrs. lecture/wk.

LAW 148
Criminal Litigation (3 CR)
Prerequisites: Legal nurse consultant students and paralegal program students - LAW 132
Upon successful completion of this course, the student should be able to explain the objectives, substantive principles and procedural rules of the criminal process. The student will be able to explain the role of the paralegal in criminal litigation practice and draft documents used in the criminal litigation process. 3 hrs. lecture/wk.

LAW 152
Real Estate Law (3 CR)
Prerequisite: Paralegal program students - Admission to the paralegal program or division administrator approval. Legal nurse consultant students - LAW 225 and LAW 121
Upon successful completion of this course, the student should be able to describe common types of real estate transactions and conveyances. The preparation of legal instruments, namely deeds, contracts, leases and mortgages will be studied. 3 hrs. lecture/wk.

LAW 162
Family Law (3 CR)
Prerequisite: Paralegal program students - admission to paralegal program or assistant dean's approval. Legal nurse consultant students - LAW 225 and LAW 121

Upon successful completion of this course, the student should be able to describe the substantive and procedural principles of family law, including issues related to adoption, divorce, custody, support and visitation. The student will also be able to draft pleadings including petition for divorce, petition for adoption, decrees, settlement agreements and motions for modification. 3 hrs. lecture/wk.

LAW 171
Law Office Management (3 CR)
Prerequisite: Paralegal program students - admission to the paralegal program or division administrator approval. Legal nurse consultant students - LAW 225 and LAW 121

This course will acquaint the student with the general principles of law office management and will emphasize the unique characteristics of organizing and managing the law office or legal department. Projects will provide students with opportunities for practical application of law office management concepts. 3 hrs. lecture/wk.

LAW 205
Legal Writing (3 CR)
Paralegal prerequisite: LAW 131 or division administrator approval. Legal nurse consultant prerequisite: LAW 131 or division administrator approval

Upon successful completion of this course, the student should be able to research complex legal problems, communicate the results of this research and other law-related information clearly and effectively and analyze legal problems using the skills of logic and reasoning. 3 hrs. lecture/wk.

LAW 212
Business Organizations (3 CR)
Prerequisite: Paralegal program students - admission to the paralegal program or division administrator approval. Legal nurse consultant students - LAW 225 and LAW 121

Upon successful completion of this course, the student should be able to describe the various forms of business ownership, including corporations, partnerships and sole proprietorships. The emphasis in the course is on the role of the legal assistant in a business law practice and on the preparation of related documents. 3 hrs. lecture/wk.

LAW 220
Computer-Assisted Legal Research (2 CR)
Prerequisites: Legal nurse consultant students - LAW 131, Paralegal program students - LAW 131

Upon successful completion of this course, the student should be able to access general and legal resources on the Internet and conduct electronic legal research using online and CD-ROM databases.

LAW 223
Computer Applications in the Law Office (3 CR)
Prerequisites: Paralegal program students - admission to the paralegal program and either CIS 124 or CPCA 128 or three hours of CPCA 108 and CPCA 110 and CPCA 114

Upon successful completion of this course, the student should be able to evaluate
and use legal software to perform customary law office procedures including computer litigation support, drafting and editing of specific legal documents, document and file management, time-keeping and billing, docket control, and forms generation. 3 hrs. lecture/wk.

LAW 225
Legal Nurse Consultant Profession (1 CR)
Prerequisite: Admission to the legal nurse consultant program or assistant dean’s approval
In this course, students will examine the functions of legal nurse consultants and available career opportunities, including relevant issues regarding employment and independent contracting. 1 hr. lecture/wk.

LAW 241
Wills, Trusts and Probate Administration (3 CR)
Prerequisite: Paralegal program students -- admission to the paralegal program or division administrator approval. Legal nurse consultant students -- LAW 225 and LAW 121
Upon successful completion of this course, the student should be able to draft a will with testamentary powers. The use of trusts, probate procedures, techniques for fact gathering and mastery of estate tax principles are emphasized in this course. 3 hrs. lecture/wk.

LAW 245
Elder Law (3 CR)
Prerequisite: Paralegal program students - admission to the paralegal program or division administrator approval. Legal nurse consultant students - LAW 225 and LAW 121
Upon successful completion of this course, the student should be able to explain the legal aspects of aging. Topics include financial and estate planning, health care, personal planning and protection, taxation, housing and other legal matters affecting the elderly and people with special legal needs. 3 hrs. lecture/wk.

LAW 247
Intellectual Property Law (3 CR)
Prerequisite: Paralegal program students - admission to the paralegal program or division administrator approval. Legal nurse consultant students - LAW 225 and LAW 121
In this course, students will learn the various forms of intellectual property. The emphasis in the course is on the functions of the paralegal in an intellectual law practice and on the preparation of related documents. 3 hrs. lecture/wk.

LAW 250
Medicolegal Research and Writing (3 CR)
Prerequisites: Admission to the legal nurse consultant program and LAW 131
This course emphasizes the role of the legal nurse consultant in the preparation of, and contribution to, various documents used in the context of a medicolegal-related law practice. Topics include the use of medical and science-related information resources and the preparation of such documents as legal memoranda; legal-related correspondence; summaries of medical/science literature; summaries of health-care records; summaries of health-care expenses and settlement brochures, particularly in the context of intentional torts, negligence, product liability, strict liability, and medical-malpractice litigation. 3 hrs. lecture/wk.
LAW 266
Employment Law (3 CR)
Prerequisite: Paralegal program students - admission to the paralegal program or division administrator approval. Legal nurse consultant students - LAW 121 and LAW 225
This course examines the relationship between employer and employee. Major federal and state employment laws will be examined, including Title VII of the Civil Rights Act of 1964, the Age Discrimination Employment Act and the Americans with Disabilities Act. 3 hrs. lecture/wk.

LAW 268
Bankruptcy (2 CR)
Prerequisite: Paralegal program students - admission to the paralegal program or division administrator approval. Legal nurse consultant students - LAW 121 or LAW 225
This course will familiarize the student with the purpose and application of the federal Bankruptcy Code. Topics will include Bankruptcy Court procedures and the preparation of bankruptcy forms and documents. Emphasis will be on the role of the legal assistant in a bankruptcy practice. 2 hrs. lecture/wk.

LAW 270
Administrative Law (3 CR)
Prerequisite: Admission to the legal nurse consultant program and LAW 225 and LAW 121 or admission to the paralegal program
Upon successful completion of the course, the student will be able to explain and apply substantive and procedural principles of administrative agencies. The course will concentrate on the basic principles of workers' compensation law, Social Security law, the Americans with Disabilities Act and the Occupational Safety Health Administration. 3 hrs. lecture/wk.

LAW 271
Legal Ethics, Interviewing and Investigation (3 CR)
Prerequisite paralegal: LAW 132 and Corequisite paralegal: LAW 205 Prerequisite legal nurse consultant: LAW 132 or LAW 260 Corequisite legal nurse consultant: LAW 205 or LAW 250
Upon successful completion of this course, the student should be able to explain ethical rules and standards governing the legal profession, interview clients and witnesses, and perform factual investigation pursuant to legal proceedings. The emphasis will be on recognition of ethical problems commonly encountered, as well as the development of interviewing and investigating skills. 3 hrs. lecture/wk.

LAW 275
Paralegal Internship I (1 CR)
Prerequisite or Corequisite: LAW 271 for paralegal students
This course provides the student with an opportunity to gain practical work experience under the supervision of an attorney in day-to-day, on-site office work. The student must complete 120 hours of work at the internship site. In addition to on-site work, the student will meet with the internship instructor during the internship period four times and complete all requirements; keep an eight-week log; interview a practicing paralegal; draft a cover letter and resume; and submit final evaluations by the employer and student. Obtaining an internship is the responsibility of the individual student. 120 internship hours.

LAW 276
**Paralegal Internship II (1 CR)**

*Prerequisite: LAW 275*

This course provides the student with an opportunity to gain practical work experience under the supervision of an attorney in day-to-day, on-site office work. The student must complete 120 hours of work at the internship site. In addition to on-site work, the student will meet with the internship instructor during the internship period four times and complete all requirements; keep an eight-week log; interview a practicing paralegal manager; participate in a mock job interview; and submit final evaluations by the employer and the student. Obtaining an internship is the responsibility of the individual student.

**Library (LIBR)**

**LIBR 125**

*Introduction to Library Research (1 CR)*

This course provides an introduction to the methods and technologies of library research. Included will be a study of the various information resources available for research and techniques for retrieving information from both print and electronic sources. The resources of Billington Library will be featured, although the emphasis will be on building information retrieval skills that will be useful in many settings.

**Marketing Management (MKT)**

**MKT 121**

*Retail Management (3 CR)*

Upon successful completion of this course, the student should be able to describe and analyze retail store organization and operation including customer markets, store location and design, human resource management, merchandise planning and control, and retail promotion. 3 hrs. lecture/wk.

**MKT 133**

*Salesmanship (3 CR)*

Upon successful completion of this course, the student should be able to define and contrast the three main areas of selling -- direct, wholesale and retail -- and explain the selling process. In addition, the student should be able to define the steps of selling and identify their appropriate application. The student should also be able to demonstrate selling skills through role play and presentations. Students who have received credit for MKT 134 may not receive credit for MKT 133. 3 hrs. lecture/wk.

**MKT 134**

*Professional Selling (3 CR)*

Upon successful completion of this course, the student should be able to describe the process of successful selling in the retail environment. In addition, the student should be able to define the steps of selling and identify appropriate application. The student should also be able to apply selling principles through role-play. Students who have received credit for MKT 133 may not receive credit for MKT 134. 3 hrs. lecture/wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

**MKT 140**

*Teleservice Communication Skills (3 CR)*
Upon successful completion of this course, the student should be able to describe the process of successful communication in the teleservice field. In addition, the student should be able to define the principles of teleservice and identify their appropriate application. The student should also be able to demonstrate effective telecommunication and client services skills through role-playing. Students who have received credit for MKT 133 or MKT 134 may not receive credit for MKT 140. 3 hrs. lecture/wk.

MKT 202  
Consumer Behavior (3 CR)  
Upon successful completion of this course, the student should be able to analyze the elements and influences that affect consumer behavior. In addition, the student should be able to apply the basic principles of consumer behavior and insight to the application of consumer-research findings used in the professional practice of marketing. 3 hrs. lecture/wk.

MKT 221  
Sales Management (3 CR)  
Prerequisite: MKT 134 or MKT 133  
Upon successful completion of this course, the student should be able to identify skills necessary to manage a sales force and develop a plan for recruitment selection, training, motivation and evaluation. In addition, the student should be able to describe and analyze techniques to forecast and plan sales and audit results. 3 hrs. lecture/wk.

MKT 234  
Services Marketing (3 CR)  
Corequisite: BUS 230  
Upon successful completion of this course, the student should be able to describe the functioning of a services economy. In addition, students should be able to describe and define the nature and characteristics of services and the way services are required to be marketed because of their intangible core. Additionally, students should be able to describe service quality, the foundation of services marketing and the success factors in services marketing. 3 hrs. lecture/wk.

MKT 240  
Advertising and Promotion (3 CR)  
In this course, the student will understand and recognize the importance of an integrated marketing communications planning model in order to coordinate all of the promotional mix elements for today's businesses. Topics of study include advertising, direct marketing, sales promotion, public relations and interactive media. The course integrates theory with planning, management and strategy. Upon completion, the student will be able to develop an effective marketing communications program. 3 hrs. lecture/wk.

MKT 284  
Marketing and Management Internship I (1 CR)  
Upon successful completion of this course, the student should be able to apply classroom knowledge to an actual work situation. This course offers work experience under instructional supervision in an approved training situation designed to provide practical experience in marketing and management. A minimum of 15 hrs./wk. on-the-job training is required.
MKT 286
Marketing and Management Internship II (1 CR)
Prerequisite: MKT 284
Upon successful completion of this course, the student should be able to apply classroom knowledge to an actual work situation. This course offers work experience under instructional supervision in an approved training situation designed to provide practical experience in marketing and management. A minimum of 15 hrs./wk. on-the-job training is required.

MKT 288
Marketing and Management Internship III (1 CR)
Prerequisite: MKT 286
Upon successful completion of this course, the student should be able to apply classroom knowledge to an actual work situation. This course offers work experience under instructional supervision in an approved training situation designed to provide practical experience in marketing and management. A minimum of 15 hrs./wk. on-the-job training is required.

MKT 289
Marketing and Management Internship IV (1 CR)
Prerequisite: MKT 288
Upon successful completion of this course, the student should be able to apply classroom knowledge to an actual work situation. This course offers work experience under instructional supervision in an approved training situation designed to provide practical experience in marketing and management. A minimum of 15 hrs./wk. on-the-job training is required.

MKT 290
Capstone: Marketing and Management Case Studies (3 CR)
Prerequisites: BUS 141 and BUS 230 and MKT 284 and MKT 286 or assistant dean's approval
Upon successful completion of this course, the student should be able to identify problems, develop and describe the situational analysis, formulate alternative solutions, and reach and explain a decision for each issue. In addition, the student should be able to apply the knowledge of marketing and management concepts and techniques in the analysis of cases and actual business situations. 3 hrs. lecture/wk.

Mathematics (MATH)

MATH 098
Fundamentals of Mathematics/Introduction to Algebra (6 CR)
Prerequisite: An appropriate score on an assessment test
This 16-week course is an integration of the content of both MATH 111 Fundamentals of Mathematics and MATH 115 Introduction to Algebra and graded as if taken as two separate courses. You will earn 3 credit hours in Fundamentals of Mathematics and 3 credit hours in Introduction to Algebra. Students will receive credit on their transcript for MATH 111 and MATH 115. NOTE: the prerequisite is an appropriate score on an assessment test. These courses do not fulfill degree requirements.

MATH 099
Introduction to Algebra and Intermediate Algebra (6 CR)
Prerequisite: MATH 111 with a grade of "C" or better or an appropriate score on an assessment test.

This 16-week course is an integration of the content of both Introduction to Algebra and Intermediate Algebra and graded as if taken as two separate courses. You will earn 3 credit hours in Introduction to Algebra and 3 credit hours in Intermediate Algebra that will transfer as if they were being taught in the traditional format. Students will receive credit on their transcript for MATH 115 and MATH 116. NOTE: the prerequisite of MATH 111 requires a grade of "C" or greater. MATH 115 may fulfill some certificate requirements, but will not fulfill degree requirements.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 111
Fundamentals of Mathematics (3 CR)

Prerequisite: Appropriate score on the math assessment test

Fundamentals of Mathematics is designed for the student who needs to improve or review basic math skills and concepts. This course includes computation using integers, fractions, decimals, proportions and percents along with an overview of percents, measurement, geometry, statistics and linear equations. Fundamentals of Math provides the mathematical foundation upon which subsequent studies in mathematics and other areas depend. 3 or 5 hrs. lecture / wk. This course does not fulfill degree requirements. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 115
Introduction to Algebra (3 CR)

Prerequisite: MATH 111 with a minimum grade of "C" or appropriate score on the math assessment test

This is a beginning course in algebra, designed to help students acquire a solid foundation in the basic skills of algebra. Students will learn to simplify arithmetic and algebraic expressions, including exponential expressions, polynomials, rational expressions and radical expressions; solve equations and inequalities, including linear equations and quadratic equations; graph linear equations; and analyze linear equations. 3 or 5 hrs. lecture/wk. MATH 115 may fulfill some certificate requirements, but will not fulfill degree requirements. NOTE: The prerequisite of MATH 111 requires a grade of "C" or higher. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 116
Intermediate Algebra (3 CR)

Prerequisite: MATH 115 with a minimum grade of "C" or appropriate score on the math assessment test

This course focuses on arithmetic and algebraic manipulation, equations and inequalities, graphs, and analysis of equations and graphs. Students will simplify arithmetic and algebraic expressions, including those containing rational expressions, rational exponents, radicals and complex numbers; solve equations and inequalities including linear, quadratic, quadratic in form, as well as those containing rational expressions, radicals or absolute value; graph linear inequalities and basic conics; and analyze functions and nonfunctions. 3 or 5 hrs. lecture/wk. NOTE: the prerequisite of MATH 115 requires a grade of "C" or higher. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 118
Geometry (3 CR)
Prerequisite: MATH 115 with a minimum grade of "C" or appropriate score on the math assessment test
This course is an informal approach to geometry. Topics will include lines, polygons, area, volume, circles, similarity, congruence and coordinate geometry. 3 hrs. lecture/wk. NOTE: the prerequisite of MATH 115 requires a grade of "C" or higher.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 120
Business Mathematics (3 CR)
Prerequisite: MATH 111 with a minimum grade of "C" or appropriate score on the math assessment test
This is a course for the student who needs specific skills in mathematics to address business problems and business applications. Students will learn the mathematics involved in retailing, payroll, financial analysis, interest, and money management. Students will use a calculator and computer to solve a variety of applications. 3 hrs./wk. NOTE: the prerequisite of MATH 111 requires a grade of "C" or higher.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 25.

MATH 122
Mathematics in Our Culture (3 CR)
Prerequisite: MATH 111 with a minimum grade of "C" or appropriate score on the math assessment test
This is a course about the extent, power and history of many interesting areas of mathematics. Topics will include mathematical reasoning and recreation, calculator activities, computer literacy, mathematics in art and music, probability, statistics and topology. 3 hrs./wk. NOTE: the prerequisite of MATH 111 requires a grade of "C" or higher.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 133
Technical Mathematics I (4 CR)
Prerequisite: MATH 111 with a minimum grade of "C" or appropriate score on the math assessment test
This course is the first of a two-semester sequence that will introduce the mathematical skills and concepts necessary in technical work. It will focus on the basics of algebra, geometry and trigonometry and their applications. Topics will include operations with polynomials, linear equations, systems of equations, right triangle trigonometry and basic statistical concepts. 4 hrs./wk. NOTE: the prerequisite of MATH 111 requires a grade of "C" or higher.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 134
Technical Mathematics II (5 CR)
Prerequisite: MATH 133 or an equivalent course with a minimum grade of "C"
This course is the second of a two-semester sequence on technical applications of algebra and trigonometry. Topics will include factoring, algebraic fractions, quadratic equations, exponents, radicals, an introduction to coordinate geometry, logarithmic and exponential functions, trigonometric graphs and identities. 5 hrs./wk. NOTE: the prerequisite of MATH 133 requires a grade of "C" or higher.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.
MATH 165
Finite Mathematics (3 CR)
Prerequisite: MATH 116 with a grade of "C" or better or appropriate score on the math assessment test

This course will emphasize the beauty, scope, practical applications and relevance of mathematics. It is designed to involve the students with the concepts as well as quantitative skills. Topics include inductive and deductive reasoning, mathematical patterns, sets, introduction to trigonometry, Euclidean geometry, probability, statistics and matrices. The common themes throughout the course are innovation in computers, related mathematical and cultural history and reasoning ability. 3 hrs./wk. MATH 165 is only offered during the spring term. NOTE: the prerequisite of MATH 116 requires a grade of "C" or higher.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 171
College Algebra (3 CR)
Prerequisite: MATH 116 with a minimum grade of "C" or MATH 134 with a minimum grade of "C" or appropriate score on the math assessment test Note: Not available to students with credit in MATH 173

This course focuses on the study of functions and their graphs, techniques of solving equations and the recognition and creation of patterns. Students will analyze and graph functions, including constant, linear, absolute value, square root, polynomial, rational, exponential and logarithmic functions and non-functions; solve equations and inequalities, including polynomial equations, exponential equations, logarithmic equations, systems of linear equations and systems of linear inequalities; and analyze and create algebraic and numerical patterns. 3 or 5 hrs./wk. Not available for credit for students with credit in MATH 173. NOTE: the prerequisites of MATH 116 or MATH 134 require a grade of "C" or higher. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 172
Trigonometry (3 CR)
Prerequisite: MATH 171 with a minimum grade of "C" or appropriate score on the math assessment test Note: Not available to students with credit in MATH 173

This is a course in trigonometric functions and graphs. Emphasis will be on understanding function notation, definitions, algebraic relations, real-world applications, graphing in the real and complex plane, inverse functions, polar functions and vectors. Students who take Math 172 and Math 173 will receive at most five hours of credit toward graduation. 3 hrs./wk. Not available for credit for students with credit in MATH 173. NOTE: the prerequisite of MATH 171 requires a grade of "C" or higher.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 173
Precalculus (5 CR)
Prerequisite: MATH 116 with a minimum grade of "C" or appropriate score on the math assessment test Note: Not available for credit for students with credit in MATH 171 and/or MATH 172

Note: MATH 173 is an accelerated course recommended for students with a strong high school math background (three to four years) who plan to take calculus. This course focuses on the study of functions and their graphs, trigonometry, techniques of solving equations and the recognition and creation of patterns. Students will analyze and graph functions, including constant, linear, absolute value, square root, polynomial, rational, exponential, logarithmic and trigonometric functions and nonfunctions; solve equations and inequalities, including polynomial equations, exponential equations, logarithmic equations, trigonometric equations, systems of linear and nonlinear equations and systems of linear and nonlinear inequalities; and analyze and create algebraic and
numerical patterns. 5 hrs./wk. Not available for credit for students with credit in MATH 171 and/or MATH 172. NOTE: the prerequisite of MATH 116 requires a grade of "C" or higher.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 175
Discrete Mathematics and its Applications (3 CR)
Prerequisite: MATH 171 or MATH 173 with a minimum grade of "C" or appropriate score on the math assessment test
This course is designed to present the beauty, scope, practical applications and relevance of mathematics. It will focus on applications of general interest drawn primarily from the social and biological sciences and business. Topics will be placed in a historical context, and mathematical reasoning will be stressed. Many of the applications will be computer-oriented. 3 hrs./wk. NOTE: the prerequisites of MATH 171 or MATH 173 require a grade of "C" or higher.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 181
Statistics (3 CR)
Prerequisite: MATH 171 or MATH 173 or an equivalent course with a minimum grade of "C" or appropriate score on the math assessment test
This is a beginning course in statistical analysis, the skill of making sense of raw data - constructing graphical representations of data, developing models for making predictions, performing tests to determine significant change and finding intervals for population values. Students will learn the basics of descriptive statistics, probability, sampling, confidence intervals, distributions, hypothesis testing, regression and correlation. Computer applications will be incorporated into course topics. 3 hrs./wk. A statistical package using the computer is a required part of instruction. No computer skills are necessary. NOTE: the prerequisites of MATH 171 or MATH 173 require a grade of "C" or higher.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 191
Math & Physics for Games I (4 CR)
Prerequisite: MATH 171 or MATH 173 with a grade of "C" or higher or appropriate score on math assessment test and CS 200
This introductory course focuses on the mathematics and physics concepts needed to program a variety of video game scenarios. Student will learn to use vectors and matrix transformations to model the motion of physical objects in two and three dimensions. Students will also learn various computer programming methods in order to model these mathematical and physical concepts. 3 hrs. lecture and 2 hrs. lab/wk. NOTE: the prerequisites of MATH 171 or MATH 173 require a grade of "C" or higher.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 210
Mathematics for Elementary Teachers I (3 CR)
Prerequisite: Minimum grade of "C" or higher in MATH 171 or MATH 173 or appropriate score on math assessment test
This is the first of a two-course sequence for prospective teachers of elementary and middle school mathematics. The focus of this course is an in-depth investigation of the mathematical principles and concepts encountered in grades K-8. Topics include set theory, numeration systems, number sense, critical thinking, and problem-solving strategies. The use of appropriate techniques and tools, such as calculators, computers and manipulatives, will be integrated throughout the course in order to enhance the depth of understanding. 3 hrs. lecture/wk. NOTE: the prerequisites of MATH 171 or MATH 173 require a grade of "C" or higher.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 212
Math for Elementary Teachers II (3 CR)
Prerequisite: MATH 210 with a grade of "C" or higher or consent of the assistant dean

This is the second of a two-course sequence for prospective teachers of elementary/middle school mathematics. The focus of this course is an in-depth investigation of the mathematical principles and concepts encountered in grades K-8. Topics include probability, statistics, measurement, and shapes including congruency, similarity, and transformations. The use of appropriate techniques and tools, such as calculators, computers, and manipulatives, will be integrated throughout the course in order to enhance the depth of understanding. 3 hrs. lecture/wk. NOTE: the prerequisite of MATH 210 requires a grade of "C" or higher.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 225
Mathematics as a Decision Making Tool (3 CR)
Prerequisite: MATH 171 or MATH 173 with a minimum grade of "C" or appropriate score on the math assessment test

The focus of this course is to develop the quantitative skills and reasoning ability necessary to help students read critically and make decisions in our technical information society. A project tying this course to the student's own interest is a course requirement. Major topics include collecting and describing data, inferential statistics and probability, geometric similarity, geometric growth, symmetry and patterns. 3 hrs. lecture/wk. NOTE: the prerequisites of MATH 171 or MATH 173 require a grade of "C" or higher.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 231
Business and Applied Calculus I (3 CR)
Prerequisite: MATH 171 or MATH 173 with a minimum grade of "C" or appropriate score on the math assessment test

This is the first course in calculus as it applies to business, psychology and the physical sciences. Concepts include measuring the slope of a curve, writing equations of tangent lines, finding maximum and minimum points, determining the rate of change of a function, and measuring the area under a curve. Algebraic skills and application problems are stressed. Specific calculus topics include finding limits, differentiation of algebraic, exponential and logarithmic functions, and integration of algebraic and exponential functions. Trigonometry (MATH 172) can be taken concurrently with MATH 231 for those students planning to enroll in MATH 232 in subsequent semesters. 3 hrs./wk. NOTE: the prerequisites of MATH 171 or MATH 173 require a grade of "C" or higher.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to $100.

MATH 232
Business and Applied Calculus II (3 CR)
Prerequisites: MATH 231 and either MATH 172 or MATH 173 or an equivalent course with a minimum grade of "C"

This is the second course in a two-semester series on calculus that covers five techniques of integration, differentiation and integration of trigonometric functions, differential equations, and functions of several variables as applied to business, statistics, biology and the social sciences. 3 hrs./wk. NOTE: the prerequisites of MATH 231, MATH 172 and MATH 173 require a grade of "C" or higher.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.
MATH 237
Calculus for Biology and Medicine (5 CR)
Prerequisite: MATH 172 or MATH 173 or an equivalent course with a minimum grade of "C"
This course focuses on the study and mathematical modeling of biological systems. Through a host of biological and medical applications, the rudiments of calculus are developed. Concepts include measuring the slope of a curve, writing equations of tangent lines, maximizing and minimizing a function, determining the rate of change of a function, and measuring the area under a curve. Solution techniques, both analytic and numeric, for difference and differential equations are used. Modeling activities are heavily emphasized. Qualitative analysis of solutions of differential equations is incorporated in modeling activities. Application areas include mathematical physiology, pharmacology, cell biology and populations biology. 5 hrs. lecture/wk. NOTE: the prerequisites of MATH 172 or MATH 173 require a grade of "C" or higher.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 241
Calculus I (5 CR)
Prerequisite: MATH 172 or MATH 173 or an equivalent course with a minimum grade of "C"
This is the first of a three-semester sequence on calculus designed for engineering, physics and math majors. Rates of change, areas and volumes will be studied. To accomplish this, the students will study and apply limits and continuity. Differentiation and integration of algebraic, trigonometric and transcendental functions will also be a major focus of this course. 5 hrs./wk. NOTE: the prerequisite of MATH 172 or MATH 173 require a grade of "C" or higher.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 242
Calculus II (5 CR)
Prerequisite: MATH 237 or MATH 241 or an equivalent course with a minimum grade of "C"
This is the second course of a three-semester sequence on calculus. The emphasis will be an analytic, numerical and graphical approach to techniques of integration, infinite series and vectors in the plane including scientific applications. 5 hrs./wk. NOTE: the prerequisites of MATH 237 and MATH 241 require a grade of "C" or higher.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 243
Calculus III (5 CR)
Prerequisite: MATH 242 or an equivalent course with a minimum grade of "C"
This is the third course in a three-semester sequence on analytic geometry and calculus. Topics include vector-valued functions, functions of several variables, multiple integration, vector analysis and linear algebra. 5 hrs./wk. NOTE: the prerequisite of MATH 242 requires a grade of "C" or higher.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 244
Differential Equations (3 CR)
Prerequisite: MATH 243 or an equivalent course with a minimum grade of "C"
This course will cover standard types of equations that involve rates of change. In particular, this is an introductory course in equations that involve ordinary derivatives. Both qualitative and quantitative approaches will be used. Standard
types and methods will be covered, including Laplace transforms and numerical methods. 3 hrs./wk. NOTE: the prerequisite of MATH 243 requires a grade of "C" or higher.  

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 246  
Elementary Linear Algebra (3 CR)  
Prerequisite: MATH 242 or an equivalent course with a minimum grade of "C"  
This sophomore-level introduction to linear algebra uses a matrix-oriented approach, with an emphasis on problem solving and applications. The course focus is on matrix arithmetic, systems of linear equations, properties of Euclidean n-space, eigenvalues and eigenvectors, orthogonality and vector spaces. The use of technology is a major feature of the course. 3 hrs. lecture/wk. MATH 246 is only offered during the spring term. NOTE: the prerequisite of MATH 242 requires a grade of "C" or higher.  

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

MATH 285  
Statistics for Business (4 CR)  
Prerequisite: MATH 232 or MATH 242 or an equivalent course with a grade of "C" or better. Note: Students transferring MATH 285 to the University of Kansas must have CIS 201 as a corequisite. Or corequisite CIS 201  
This is a beginning course in calculus-based statistical analysis, the skill of making sense of raw data -- constructing graphical representations of data, developing models for making predictions, performing tests to determine significant change and finding intervals for population values. Students must have an understanding of calculus concepts in order to successfully complete this course. Students will learn the basics of descriptive statistics, probability, sampling, confidence intervals, hypothesis testing and linear regression. The course will stress the applications to business with emphasis on quality control. 4 hrs./wk. Students transferring MATH 285 to KU must have CIS 201 as a corequisite. NOTE: the prerequisites of MATH 232 or MATH 242 require a grade of "C" or higher.  

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 100.

Metal Fabrication and Welding (MFAB)

MFAB 121  
Introduction to Welding (4 CR)  
Upon successful completion of this course, the student should be able to perform oxy-fuel cutting (OFC), oxy-fuel welding (OFW) and brazing, shielded metal arc welding (SMAW) and gas metal arc welding (GMAW) equipment. The SMAW portion of the course will cover positions but will be limited to fillet welds. All welds will be tested according to industry standards. The student will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 1 hr. lecture, 6 hrs. lab/wk.  

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30 to 150.

MFAB 125  
Advanced Gas and Arc Welding (4 CR)  
Prerequisite: MFAB 121  
This course is a continuation of Introduction to Welding. The course will cover more advanced projects in oxyacetylene welding, cutting, brazing, shielded metal arc welding (SMAW) and carbon arc cutting with air (CAC-A). The SMAW process will be used to weld v-groove butt joints in the flat, horizontal, vertical up and overhead positions, with root and face U-bend test being performed on the welds.
MFAB 127  
Welding Processes (2 CR)  
Upon successful completion of this course, the student should be able to identify various welding processes used by industries. Standard shop and maintenance welding processes will be taught and demonstrated. Welds will be tested and inspected according to industry standards. This course can be used by an individual company to train or upgrade train employees and can be customized to fit individual needs. 1 hr. lecture, 1.5 hrs. lab/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30 to 150.  

MFAB 130  
Gas Metal Arc Welding I (4 CR)  
Upon successful completion of this course, the student should be able to identify the theory of gas metal arc welding (GMAW) and flux-cored arc welding (FCAW). The welding of mild steel plate will occur in all positions on both fillet and groove welds with the GMAW process. The FCAW process will be used to weld some fillet and groove welds on mild steel in selected weld positions. The Plasma Arc Cutting (PAC) metal cutting process will be used to conserve material use and plant preparation. A root and face guide U-bend test will be performed on vertical up GMAW weld test coupons. The student will be required to provide ANSI Z87 safety glasses, and may be expected to provide other basic hand tools and/or equipment. 1 hr. lecture, 6 hrs. lab/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30 to 150.  

MFAB 140  
Maintenance Repair Welding (3 CR)  
Prerequisites: MFAB 121 or MFAB 130  
Upon successful completion of this course, the student should be able to perform oxyfuel cutting (OFC), shielded metal arc welding (SMAW), gas metal arc welding (GMAW) and plasma arc cutting (PAC). Basic blueprint and welding symbols will be introduced, and specific welds and assignments will be tested according to industry standards. The student will be required to provide ANSI Z-87.1 approved safety glasses and may be expected to provide other basic hand tools and/or equipment as required by employers. This course is designed for individuals who have welding experience or who are employed by a company that requires welding skills. This course can be customized for advanced training. 1 hr. lecture, 2 hrs. lab/wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30 to 150.  

MFAB 152  
Manufacturing Materials and Processes (3 CR)  
This is a beginning course in metal fabrication technology that is appropriate for the metal fabrication major and other interested students. Upon successful completion of this course, the student should be able to identify various manufacturing materials and processes currently used in industry. The capabilities and applications of machine tool, general fabrication, welding processes, robotics, cut-off equipment and other manufacturing processes and equipment will be studied. Lectures will be supplemented by demonstrations of various processes and equipment. Students are required to wear safety glasses during demonstrations. 3 hrs. lecture-demonstrations/wk.
MFAB 160
Gas Tungsten Arc Welding (4 CR)
Prerequisite: MFAB 121 or MFAB 130
This course will cover the basic theory of gas tungsten arc welding (GTAW). The student will weld on mild steel, stainless steel and aluminum in a variety of positions on both fillet and groove welds using the GTAW process, with guided U-bend test being performed on mild steel. Students will also use the plasma arc cutting system (PAC) on selected assignments. The students will be required to provide ANSI Z87 safety glasses and may be expected to provide other basic hand tools and/or equipment. 1 hrs. lecture, 6 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30 to 150.

MFAB 170
Basic Machine Tool Processes (4 CR)
Upon successful completion of this course, the student should be able to practice the basic principles of machining as well as the setup and operation of machines. Lab will include the use of lathes, mills, drills, cut-off and other types of equipment. 2 hrs. lecture, 4 hrs. lab/wk.

MFAB 180
Blueprint and Symbols Reading for Welders (2 CR)
Upon successful completion of this course, the student should be able to identify basic welding positions and explain, list, sketch, draw, use or describe current American Welding Society (AWS) welding symbols and weld joint configurations. The student will be introduced to several methods of producing welding blueprints, object representatives, and specific meanings of selected lines, surface features, sectional views and basic math formulas used in the welding industry. The student will be able to identify the symbols used for fillet welds and groove welds made with and without backing. Topics such as pipe welding representations, pipe welding connections, pipe welding classifications, welder certification, metallurgical effects of heat on metals and the importance of weld quality will be studied. 4 hrs. lecture/wk.

MFAB 230
Gas Metal Arc Welding II (4 CR)
Prerequisite: MFAB 130
Upon successful completion of this course, the student should be able to identify the theory of gas metal arc welding (GMAW) and flux-cored arc welding (FCAW). The student will weld with the GMAW and FCAW processes in the flat, horizontal, vertical up and overhead positions on both fillet and groove welds. The GMAW welds will be made on aluminum, and the FCAW welds will be on 1-inch mild steel with side bend test being made on the overhead and horizontal weldments. 1 hr. lecture, 6 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30 to 150.

MFAB 240
Metallurgy (2 CR)
Metallurgy is the study of the science and technology of metals. This course covers the extractive, mechanical and physical phases of metallurgy. Topics include the identification of metals, types and classification of metals, heat treatment procedures and common steel manufacturing processes. 2 hrs. lecture-demonstration/wk.

MFAB 271
Metal Fabrication Internship (3 CR)
Prerequisite: Program facilitator approval

Upon successful completion of this course, the student should be able to apply classroom knowledge to an actual work situation. The internship will provide advanced students with on-the-job experience under the supervision of professionals in the industry. The work will be developed cooperatively with area employers, college staff and each student to provide a variety of actual job experiences directly related to the student’s career goals. 1 hrs. lecture, 15 hrs. minimum on-the-job training/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30 to 150.

Music (MUS)

MUS 121
Introduction to Music Listening (3 CR)
This course is designed to enhance student music listening. Students will learn to identify changes in the elements of music through the different stylistic periods of classical music. Factual and historical information will be presented to broaden the student's cultural and music appreciation. Students will hear recorded examples of music from the Medieval, Renaissance, Baroque, Classical, Romantic and 20th-century eras, as well as popular American forms and music from non-Western cultures. 3 hrs./wk.

MUS 123
Introduction to Music Fundamentals (2 CR)
This course is designed to present the fundamentals of music theory to students who have no previous background or training in that subject. Students will receive detailed instruction in naming notes; scales and chords; building intervals; and correlating these skills to the keyboard. 2 hrs./wk.

MUS 125
Introduction to Jazz Listening (3 CR)
This is an entry-level course for the student with little or no prior knowledge of the American art form of jazz music. Through reading and listening, the student will learn the basic structure of the elements of music and how these are organized to create jazz. Topics to be covered will include rhythm, harmony, and form; Dixieland style; swing style; bop; and contemporary jazz. 3 hrs./wk.

MUS 126
Introduction to World Music (3 CR)
This course provides students with an introduction to the musical heritage of the world. Through an interdisciplinary approach targeting the arts, humanities and social sciences, the course fosters skills necessary to gain a deeper appreciation of both familiar and unfamiliar musical traditions. The course will survey a representative cross section of the major musical traditions of the world, which may include Native American, Black American, sub-Saharan African, Eastern European/Bosnian, Indian, Indonesian, Japanese and Latin American/Brazilian traditions. Note: The course does not require the ability to read music. 3 hrs. lecture/wk.

MUS 131
Sight-Singing and Ear Training I (2 CR)
This course is an introduction to sight singing and ear training. Basic methods of reading music are presented and practiced. Students are also trained to recognize aurally and notate the basic elements of music: intervals, diatonic
melodies, simple rhythms, chord qualities, and basic harmonic progressions. The content is designed to complement the Harmony I course, though it is not necessary they be taken in the same semester. 2 hrs./wk.

**MUS 132**  
**Sight-Singing and Ear Training II (2 CR)**  
**Prerequisite: MUS 131**  
This course is a continuation of the class Sight-singing and Ear Training I. The content is designed to complement the Harmony II course though it is not necessary they be taken in the same semester. 2 hrs./wk. This course is typically taught in the spring semester.

**MUS 133**  
**Sight-Singing and Ear Training III (2 CR)**  
**Prerequisite: MUS 132**  
This course is a continuation of the classes Sight-singing and Ear Training I and II. The content is designed to complement the Harmony III course, though it is not necessary they be taken in the same semester. 2 hrs./wk.

**MUS 134**  
**Sight-Singing and Ear Training IV (2 CR)**  
**Prerequisite: MUS 133**  
This course is a continuation of the first three courses in sight-singing and ear training. Students are trained to produce and hear the most complex aspects of music theory in the common practice era (1650-1920). The content is designed to complement the Harmony IV course, though it is not necessary they be taken in the same semester. 2 hrs./wk.

**MUS 141**  
**Music Theory: Harmony I (3 CR)**  
This course is a basic study of the harmonic system sited in Western music composed from 1650 to 1900 and still in use in areas of music composition. Students will learn the basic skills involved in writing and analyzing music of this nature as well as play simple chord progressions on the piano. 3 hrs./wk.

**MUS 142**  
**Music Theory: Harmony II (3 CR)**  
**Prerequisite: MUS 141 or passing equivalency test**  
Harmony II is a continuation of the study of the harmonic system used in music composed from 1650 to 1900 and still in use in certain areas of music composition. The course covers use of non-harmonic tones, supertonic and dominant sevenths, functions of the submediant and mediant triads, advanced melodic writing and secondary dominant chords. Student will learn to harmonize melodies at the keyboard and play simple chord progressions on the piano. Music of the period will be analyzed. Selected software programs will enhance student skills and understanding. 3 hrs./wk. This course is typically taught in the spring semester.

**MUS 143**  
**Music Theory: Harmony III (3 CR)**  
**Prerequisite: MUS 142 or passing equivalency test**
This is a continuation of the study of the harmonic system used in all music composed from 1650 to 1900 and still in use in many areas of music composition today. Important topics include devices of modulation, binary and ternary, and 12 bar blues musical forms and application of part writing procedures to instrumental music. Particular attention will be paid to the nature and functions of diatonic seventh chords, secondary dominants, borrowed chords and Neopolitan chords. Students will work with keyboard harmony exercises of increasing difficulty. Selected software programs will enhance student skills and understanding. 3 hrs./wk.

MUS 144
Music Theory: Harmony IV (3 CR)
Prerequisite: MUS 143 or passing equivalency test
Harmony IV is a continuation of the study of the harmonic practices of tonal music and introduction to 20th-century harmony. Topics include augmented sixth chords, enharmonic modulation, and advanced chromatic harmonies. An introduction to 20th-Century harmonic organization includes extended tertian harmony, modal harmony, parallelism, pandiatonicism, atonality, serialism, and aleatory music. Students will work with keyboard harmony exercises of increasing difficulty. Selected software programs will enhance student skills and understanding. 3 hrs./wk.

MUS 151
Mixed Vocal Ensemble I (1 CR)
Prerequisite: Audition required
Choral ensembles are open to participation by the student body. Choral experience or skill is desired in some ensembles but not in others. The ensemble will learn a varied body of choral materials from the choral traditions of both past and present, performing at student and community activities. The literature will be specific to the nature of the group and the skills of the students involved. 3 hrs./wk.

MUS 152
Mixed Vocal Ensemble II (1 CR)
Prerequisite: MUS 151 and audition required
Choral ensembles are open to participation by the student body. Choral experience or skill is desired in some ensembles but not in others. The ensemble will learn a varied body of choral materials from the choral traditions of both past and present, performing at student and community activities. The literature will be specific to the nature of the group and the skills of the students involved. 3 hrs./wk.

MUS 153
Mixed Vocal Ensemble III (1 CR)
Prerequisite: MUS 152 and audition required
Choral ensembles are open to participation by the student body. Choral experience or skill is desired in some ensembles but not in others. The ensemble will learn a varied body of choral materials from the choral traditions of both past and present, performing at student and community activities. The literature will be specific to the nature of the group and the skills of the students involved. 3 hrs./wk.

MUS 154
Mixed Vocal Ensemble IV (1 CR)
Prerequisite: MUS 153 and audition required
Choral ensembles are open to participation by the student body. Choral experience or skill is desired in some ensembles but not in others. The ensemble will learn a varied body of choral materials from the choral traditions of both past and present, performing at student and community activities. The literature will be specific to the nature of the group and the skills of the students involved. 3 hrs./wk.

MUS 156
MIDI Music Composition (3 CR)
MIDI Music Composition I is designed to create a technical and conceptual foundation for further studies in electronic music. Students will learn and demonstrate basic compositional techniques, including form, melody, rhythm and harmony. Also, the student will demonstrate the ability to use computers and software to create and perform music. Emphasis will be on developing skills appropriate to the beginning student for the purpose of creative and technical expression. 2 hrs. lecture, 2 hrs. lab/wk.

MUS 157
Introduction to Digital Audio (3 CR)
Prerequisite: MUS 156
Introduction to Digital Audio is designed to further develop skills acquired in MIDI Music Composition I. Students will practice using ProTools digital audio software, combined with a digital audio interface to record, edit and play back music. Students will be introduced to basic concepts of sound, and common audio effects, including reverb, delay and compression. Students will also further develop their compositional skills through demonstration and practice, and create audio recordings of their music. 2 hrs. lecture, 2 hrs. lab/wk.

MUS 158
Digital Audio Techniques I (4 CR)
Prerequisite or corequisite: MUS 156
This course is an introductory study of the modern multi-track recording studio. Emphasis is placed on understanding the audio signal path, use of the patch bay, recorder remote control operations, basics of microphone technique, and simple soldering and realization of schematic diagrams. Students will demonstrate an understanding of the skills necessary to conduct a simple recording session, from set-up to final mix. 3 hrs. lecture, 2 hrs. lab/wk.

MUS 159
Digital Audio Techniques II (4 CR)
Prerequisite: MUS 156 and MUS 158
This course is an in-depth study of the modern multi-track recording studio and a continuation of Intro to the Recording Studio. Emphasis is placed on developing increased competencies in a variety of recording studio skills. Students will demonstrate increased competencies in using the patch bay and tracing signal flow, properly selecting and using microphones, using the audio console in a utilitarian and creative manner, reading electronic schematic diagrams, using soldering skills to fabricate circuits, using multiple sets of audio monitors and headphones to analyze audio and mix audio, and record and mix audio sessions using industry-standard Digital Audio Workstations (DAW). 3 lecture, 2 hrs. lab/wk.

MUS 161
Chamber Choir I (1 CR)
Prerequisite: Audition required
This auditioned choral ensemble is open to participation by the student body. Prior choral experience or a reasonable level of music reading and vocal technique is necessary. The choir will learn a varied body of choral materials from the choral traditions of both past and present, performing at student and community activities. 3 hrs./wk.

MUS 162
Chamber Choir II (1 CR)

Prerequisite: MUS 161 and audition

This auditioned choral ensemble is open to participation by the student body. Prior choral experience or a reasonable level of music reading and vocal technique is necessary. The choir will learn a varied body of choral materials from the choral traditions of both past and present, performing at student and community activities. 3 hrs./wk.

MUS 163
Chamber Choir III (1 CR)

Prerequisite: MUS 162 and audition

This auditioned choral ensemble is open to participation by the student body. Prior choral experience or a reasonable level of music reading and vocal technique is necessary. The choir will learn a varied body of choral materials from the choral traditions of both past and present, performing at student and community activities. 3 hrs./wk.

MUS 164
Chamber Choir IV (1 CR)

Prerequisite: MUS 163 and audition

This auditioned choral ensemble is open to participation by the student body. Prior choral experience or a reasonable level of music reading and vocal technique is necessary. The choir will learn a varied body of choral materials from the choral traditions of both past and present, performing at student and community activities. 3 hrs./wk.

MUS 165
Music Composition I (1 CR)

Prerequisite: MUS 141 or consent of instructor

This entry-level course provides instruction in the craft of musical composition. Traditional compositional techniques and concepts will be studied through demonstration and practice. Students will learn correct notational procedures and compose melodies and short pieces for one or two live performers. 1 hr. lecture/wk.

MUS 166
Music Composition II (1 CR)

Prerequisite: MUS 165

This is an intermediate-level course for students seeking instruction in the craft of musical composition. Traditional compositional techniques and concepts will be studied through demonstration and practice. Students will learn to use a computer to notate their compositions, will begin to work with tonal harmony, will write music for a trio and/or quartet, and will have a piece performed during a music department recital. 1 hr. lecture/wk.
MUS 167
Music Composition III (1 CR)
Prerequisite: MUS 166
This class is an intermediate-level course for the student seeking instruction in the craft of musical composition. Traditional compositional techniques and concepts will be studied through demonstration and practice. Students will enhance their ability to use a computer to notate their compositions, will begin to work with nonfunctional tonal harmony, will write music for SATB choir or for vocal soloist, and will have a piece performed during a music department recital. 1 hr. lecture/wk.

MUS 168
Music Composition IV (1 CR)
Prerequisite: MUS 167
This course is an advanced-level class for students seeking further instruction in the craft of musical composition. Traditional compositional techniques and concepts will be studied through demonstration and practice. Students will refine their ability to use a computer to notate their compositions, will continue to work with nonfunctional tonal harmony, will write music for larger ensembles, will have a piece performed in a music department recital, and will compile a portfolio of their work. 1 hr. lecture/wk.

MUS 171
Voice Class I (1 CR)
This course is designed to introduce the student to beginning vocal technique, vocal vocabulary, performance experience and solo vocal repertoire. 1 hr./wk.

MUS 172
Voice Class II (1 CR)
Prerequisite: MUS 171
This course is designed to continue instruction in proper vocal technique, vocal vocabulary, performance experience and solo vocal repertoire.

MUS 173
Voice Class III (1 CR)
Prerequisite: MUS 172
This course is designed to continue instruction in proper vocal technique, vocal vocabulary, performance experience and solo vocal repertoire.

MUS 174
Voice Class IV (1 CR)
Prerequisite: MUS 173
This course is designed to continue instruction in proper vocal technique, vocal vocabulary, performance experience and solo vocal repertoire.

MUS 176
Jazz Band I (1 CR)
Prerequisite: Audition required
This is an entry-level course in the jazz band performing format for the student with little or no experience in this course of study. The student will learn, through
rehearsal and performance, the basic elements of music and how these are utilized in the jazz band. Topics will include simple rhythms, basic melodic construction and major scale construction. 3 hrs./wk.

MUS 177
Jazz Band II (1 CR)
Prerequisite: MUS 176 or audition required
This is a beginning-level course for the student with at least one semester of prior jazz band experience. Through rehearsal and performance, the student will learn beginning elements of music as applied to the jazz band performing format. Topics covered will include syncopated rhythm, Dorian minor scales and blues form. 3 hrs./wk.

MUS 178
Jazz Band III (1 CR)
Prerequisite: MUS 177 and audition required
This is an intermediate-level course for the student with at least two semesters of prior jazz band experience. Through rehearsal and performance, the intermediate levels of jazz band performance will be learned. Topics covered will include Latin style, Mixolydian scales and the 32-bar song form. 3 hrs./wk.

MUS 179
Jazz Band IV (1 CR)
Prerequisite: MUS 178 and audition required
This is an advanced-level course for the student with at least three semesters of prior jazz band experience. Advanced elements of jazz music will be learned through rehearsal and performance. Topics covered will include Lydian scales and ensemble performance techniques. 3 hrs./wk.

MUS 187
Jazz Improvisation I (2 CR)
Prerequisite: Audition
This is an entry-level course for the student with little or no jazz improvisation experience. Through written work and performance on the instrument of choice, the student will learn the basic elements of jazz improvisation. Topics to be covered will include identification and performance of basic intervals, major scales, Dorian modes, Mixolydian modes, major seventh chords, minor seventh chords, dominant seventh chords and the basic blues form. 2 hrs./wk.

MUS 188
Jazz Improvisation II (2 CR)
Prerequisite: MUS 187 and audition required
This is an advanced-level course for the student with at least one semester of jazz improvisation. Through performance on the chosen instrument and written studies, the student will learn advanced concepts of jazz improvisation. Topics to be covered include jazz performance style, construction of the improvised solo and 32-bar song form. 2 hrs./wk.

MUS 191
Concert Band I (1 CR)
Prerequisite: Audition required
This is an entry-level course in the concert band format for the student with little or no concert band experience. Students will learn the basic elements of music as related to the concert band through rehearsal and performance. Topics include counting and subdividing motifs into melodies; and differentiating between major and minor tonalities. 3 hrs./wk.

**MUS 192**  
**Concert Band II** (1 CR)  
*Prerequisite: MUS 191 and audition required*  
This is a beginning-level course in the concert band format for the student with at least one semester of prior concert band experience. Students will learn the beginning-level elements of music as related to the concert band through rehearsal and performance. Topics to be covered include odd meters, minor scales and homophonic texture. 3 hrs./wk.

**MUS 193**  
**Concert Band III** (1 CR)  
*Prerequisite: MUS 192 or audition required*  
This is an intermediate course for the student with at least two semesters of prior concert band experience. Through rehearsal and performance, the student will learn intermediate levels of the elements of music in the concert band format. Topics will include parade march style, concert march style and concert overture style. 3 hrs./wk.

**MUS 194**  
**Concert Band IV** (1 CR)  
*Prerequisite: MUS 193 or audition required*  
This is an advanced course for the student with at least three semesters of prior concert band performing experience. Through rehearsal and performance, the student will learn the advanced concepts of concert band performance. Topics will include polyphonic texture, concert suite style and medley style. 3 hrs./wk.

**MUS 195**  
**Vocal Jazz Ensemble I** (1 CR)  
*Prerequisite: Audition required*  
This is an entry-level course in the vocal jazz performing format. Through rehearsal and public performance, the student will learn the basic elements of music as applied to vocal jazz. Topics will include 8th note swing, jazz syncopation and 32-bar song form. 3 hrs./wk.

**MUS 196**  
**Vocal Jazz Ensemble II** (1 CR)  
*Prerequisite: MUS 195 and audition required*  
This is a beginning-level course in the vocal jazz performing format. Through rehearsal and public performance, the student will learn the basic elements of music as applied to vocal jazz. Topics will include Dorian minor scales, Mixolydian scales and 12-bar blues form. 3 hrs./wk.

**MUS 197**  
**Vocal Jazz Ensemble III** (1 CR)  
*Prerequisite: MUS 196 and audition required*
This is an intermediate-level course in the vocal jazz performing format. Through rehearsal and public performance, the student will learn the basic elements of music as applied to vocal jazz. Topics will include beginning improvisation, Latin rhythm and major scales. 3 hrs./wk.

MUS 198  
**Vocal Jazz Ensemble IV** (1 CR)  
*Prerequisite: MUS 197 and audition required*  
This is an advanced-level course in the vocal jazz performing format. Through rehearsal and public performance, the student will learn the basic elements of music as applied to vocal jazz. Topics will include scat, improvisation in 32-bar song form, Lydian scales and ballad style. 3 hrs./wk.

MUS 201  
**Chamber Ensemble I** (1 CR)  
*Prerequisite: Audition required*  
This is an entry-level course for the student with little or no experience in the chamber ensemble performing format. Through written work and performance on the chosen instrument, the student will learn the basic fundamentals of this performing medium. Topics to be covered will include tone quality, intervals and rhythmic patterns. 2 hrs./wk.

MUS 202  
**Chamber Ensemble II** (1 CR)  
*Prerequisite: MUS 201 or placement by instructor*  
This is a beginning-level course for the student with at least one semester of experience in the chamber ensemble performing format. Through written work and performance on the chosen instrument the student will learn the basic fundamental of this performing medium. Topics to be covered will include minor scales, chord construction and compound rhythms. 2 hrs./wk.

MUS 203  
**Chamber Ensemble III** (1 CR)  
*Prerequisite: MUS 202 or placement by instructor*  
This is an intermediate-level course for the student with at least two semesters of chamber ensemble experience. Through written work and performance on the chosen instrument, the student will learn intermediate-advanced concepts of chamber ensemble performance. Topics to be covered include sight reading, intonation and style. 2 hrs./wk.

MUS 204  
**Chamber Ensemble IV** (1 CR)  
*Prerequisite: MUS 203 or placement by instructor*  
This is an advanced-level course for the student with at least three semesters of prior ensemble experience. Through performance on the chosen instrument, the student will learn the advanced concepts of chamber ensemble performance. Topics to be covered will include balance and cooperative expression. 2 hrs./wk.

MUS 211  
**Orchestra I** (1 CR)  
*Prerequisite: Audition required*
This is an entry-level course in the orchestra format for the student with little or no orchestra experience. Students will learn the basic elements of music as related to the orchestra through rehearsal and performance. Topics include counting and subdividing duple, triple and quadruple rhythm; assembling melodic motifs into melodies; and differentiating between major and minor tonalities. Students will rehearse and perform with the Overland Park Civic Orchestra. 2 hrs. (1 evening)/wk.

**MUS 212**  
Orchestra II (1 CR)  
*Prerequisite: MUS 211 and audition required*  
This is a beginning-level course in the orchestra format for the student with at least one semester of prior orchestra experience. Students will learn the beginning-level elements of music as related to the orchestra through rehearsal and performance. Topics to be covered include odd meters, minor scales and homophonic texture. 2 hrs. (1 evening)/wk.

**MUS 213**  
Orchestra III (1 CR)  
*Prerequisite: MUS 212 and audition required*  
This is an intermediate course for the student with at least two semesters of prior orchestra experience. Through rehearsal and performance, the student will learn intermediate levels of the elements of music in the orchestra format. Topics will include parade march style, concert march style and concert overture style. (1 evening)/wk.

**MUS 214**  
Orchestra IV (1 CR)  
*Prerequisite: MUS 213 and audition required*  
This is an advanced course for the student with at least three semesters of prior orchestra performing experience. Through rehearsal and performance, the student will learn advanced concepts in orchestral performance. Topics will include polyphonic texture, concert suite style and medley style. 2 hrs. (1 evening)/wk.

**MUS 221**  
Piano Class I (2 CR)  
This course provides a basic knowledge of music and the essential techniques required to play the piano. Students will learn essential musical terminology, including musical notation and symbols, major and minor key signatures, and the harmonization of melodies using tonic and dominant triads. Specific piano-related terminology will include finger exercises, basic keyboard repertoire using major and minor five-finger patterns, major and minor scales, major and minor triads in root position, ensemble playing of two to four parts, and the formation of good practice habits. Group Piano II should follow the successful completion of this course. Private piano lessons are encouraged for students who successfully complete both courses. 2 hrs./wk.

**MUS 222**  
Piano Class II (2 CR)  
*Prerequisite: MUS 221 and instructor approval required*  
This is a beginning-level course that provides a basic knowledge of keyboard instruments. Students will learn and review musical terminology, musical notation and symbols, and specific piano-related terminology. Topics covered will include major and minor key signatures; exercises and repertoire using major and minor
scales; exercises and repertoire using major, minor, diminished and augmented triads in root position and inversions; chord progressions; ensemble playing of two to four parts; and use of the damper pedal. This course is the continuation of MUS 221. Completion of this course should precede Applied Piano I. This course is for beginners able to progress at a fast pace, students with minimal previous experience or students who have completed MUS 221. 2 hrs./wk.

MUS 223  
Piano Class III (2 CR)  
Prerequisite: MUS 222 or permission of the instructor
This is an intermediate course that provides a basic knowledge of keyboard instruments. Students will learn and review musical terminology, musical notation and symbols, and specific piano-related terminology. Topics covered will include major and minor key signatures; exercises and repertoire using major and minor scales and modes; exercises and repertoire using major, minor, diminished and augmented triads in root position and inversions; chord progressions; ensemble playing of two to four parts; and use of the damper pedal. This course is the continuation of MUS 222. Completion of this course should precede Applied Piano I. This course is designed for students who have completed one year of study or who have completed MUS 222. 2 hrs./wk.

MUS 224  
Piano Class IV (2 CR)  
Prerequisite: MUS 223 or permission of the instructor
This is an advanced-level course for the student with at least three semesters of prior piano class instruction. Students will learn the advanced concepts of piano playing. Topics to be covered will include basic music notation, major and minor key signatures, tempo indications, major and minor arpeggios, finger patterns, practice method chord progressions, and the use of the damper pedal. 2 hrs./wk.

MUS 226  
Applied Guitar I (Class) (1 CR)  
Students will be provided with a foundation in guitar technique upon which to base further study of the instrument. The course consists of an introduction to the use of the guitar as a solo, accompaniment and ensemble instrument. 1 hr./wk.

MUS 227  
Applied Guitar II (Class) (1 CR)  
Prerequisite: MUS 226 or instructor permission
This continuation of MUS 226 builds a foundation in guitar technique upon which to base further study of the instrument. The course continues to teach techniques that enable students to use the guitar as a solo, accompaniment and ensemble instrument. 1 hr./wk.

MUS 228  
Applied Guitar III (Class) (1 CR)  
Prerequisite: MUS 227 or instructor permission
This continuation of MUS 227 is designed to move students from the basic skill level to the intermediate skill level. The course continues to teach techniques that enable students to use the guitar as a solo, accompaniment and ensemble instrument. 1 hr./wk.
MUS 229
Applied Guitar IV (Class) (1 CR)
Prerequisite: MUS 228 or instructor permission
This is a continuation of MUS 228 at an intermediate level of guitar playing skills. The course continues to teach techniques that enable students to use the guitar as a solo, accompaniment and ensemble instrument. 1 hr./wk.

MUS 231
Applied Voice I (Private) (1 CR)
This course is designed to introduce the student to beginning vocal technique, vocal vocabulary, performance experience and solo vocal repertoire.

MUS 232
Applied Voice II (Private) (1 CR)
Prerequisite: MUS 231
This course uses private lessons to continue instruction in beginning vocal technique, vocal vocabulary, performance experience and solo vocal repertoire.

MUS 233
Applied Voice III (Private) (1 CR)
Prerequisite: MUS 232
This course uses private lessons to continue instruction in beginning intermediate vocal technique, vocal vocabulary, performance experience and solo vocal repertoire.

MUS 234
Applied Voice IV (Private) (1 CR)
Prerequisite: MUS 233
This course uses private lessons to continue instruction in intermediate vocal technique, vocal vocabulary, performance experience and solo vocal repertoire.

MUS 236
Applied Piano I (Private) (1 CR)
This is an entry-level course for the student with little or no prior piano training. This course provides a basic knowledge of keyboard instruments. Students will learn essential musical terminology, musical notation and symbols, and specific piano-related terminology. Topics covered will include major and minor key signatures; exercises and repertoire using major and minor five-finger patterns; and exercises and repertoire using major and minor scales.

MUS 237
Applied Piano II (Private) (1 CR)
Prerequisite: MUS 236
This is a beginning-level course for the student with at least one semester of prior applied piano study. Students will learn the intermediate-level concepts of piano performance. Topics to be covered will include major scales and the natural and harmonic forms of the minor scales, rhythmic patterns and subdivisions of duple and triple meter and the basic keyboard literature of the intermediate level.
MUS 238  
Applied Piano III (Private) (1 CR)  
Prerequisite: MUS 237  
This is an intermediate-level course for the student with at least two semesters of prior applied piano study. Students will learn the intermediate-level concepts of piano performance. Topics to be covered will include scale, the melodic form of the minor scale, rhythmic patterns and subdivisions of compound meter, and the basic keyboard literature of the intermediate level.

MUS 239  
Applied Piano IV (Private) (1 CR)  
Prerequisite: MUS 238  
This is an advanced-level course for the student with at least two semesters of prior applied piano study. Students will learn the intermediate level concepts of piano performance. Topics to be covered will include Dorian and Mixolydian modes, pentatonic scales and performance of a Chopin etude.

MUS 241  
Applied Guitar I (Private) (1 CR)  
In this private study in basic guitar technique, emphasis will be upon playing position, posture, tone production and basic music reading skills. Students will begin with studies and short pieces.

MUS 242  
Applied Guitar II (Private) (1 CR)  
Prerequisite: MUS 241 or instructor approval  
This is a continuation of private study in basic guitar technique. Emphasis will be upon playing position, posture, tone production and basic music-reading skills. Students will begin with studies and short pieces.

MUS 243  
Applied Guitar III (Private) (1 CR)  
Prerequisite: MUS 242 or instructor approval  
In this private study in intermediate guitar technique, emphasis will be on playing position, posture, tone production and intermediate music reading skills. Students will progress toward playing literature requiring intermediate skill levels.

MUS 244  
Applied Guitar IV (Private) (1 CR)  
Prerequisite: MUS 243 or instructor approval  
In this continuation of private study in intermediate guitar technique, emphasis will be on playing position, posture, tone production and intermediate music reading skills. Students will progress toward playing literature requiring intermediate skill levels.

MUS 246  
Applied Classical Guitar I (Private) (1 CR)  
Private study in basic classical guitar technique and repertoire. Emphasis will be upon classical left- and right-hand technique, playing position, posture, tone production and standard classical guitar literature. Students will begin with studies and short pieces.
MUS 247
Applied Classical Guitar II (Private) (1 CR)
Prerequisite: MUS 246 or instructor approval
This continuation of private study in basic classical guitar technique and repertoire will emphasize classical left- and right-hand technique, playing position, posture, tone production and standard classical guitar literature. Students will continue with studies and short pieces, then progress toward longer pieces with the intent of performing these in a recital situation.

MUS 248
Applied Classical Guitar III (Private) (1 CR)
Prerequisite: MUS 247 or instructor approval
In this private study in intermediate classical guitar technique and repertoire, emphasis will be on classical left- and right-hand technique, playing position, posture, tone production and standard classical guitar literature. Students will progress toward playing and performing more advanced pieces and guitar studies.

MUS 249
Applied Classical Guitar IV (Private) (1 CR)
Prerequisite: MUS 248 or instructor approval
This continuation of private study in intermediate classical guitar technique and repertoire will emphasize classical left- and right-hand technique, playing position, posture, tone production and standard classical guitar literature. Students will progress toward playing and performing more advanced pieces and guitar studies.

MUS 251
Applied Brass I (Private) (1 CR)
This is an entry-level course for the student with little or no experience in performing on a brass instrument. Through written exercises and performance on the instrument of choice, the student will learn the basic concepts of brass performance. Topics to be covered include tone production, basic musical intervals and major scales.

MUS 252
Applied Brass II (Private) (1 CR)
Prerequisite: MUS 251 or placement by instructor
This is a beginning-level course for the student with at least one semester of prior brass instrument study. Through written exercises and performance on the instrument of choice, the student will learn the beginning concepts of brass performance. Topics to be covered include embouchure development, minor scales and duple and triple rhythmic patterns.

MUS 253
Applied Brass III (Private) (1 CR)
Prerequisite: MUS 252 or placement by instructor
This is an intermediate-level course for the student with at least two semesters of prior brass instrument study. Through written exercises and performance on the instrument of choice, the student will learn the intermediate concepts of brass performance. Topics to be covered include the chromatic scale, quadruple rhythmic patterns and chord construction.
MUS 254
Applied Brass IV (Private) (1 CR)
Prerequisite: MUS 253 or placement by instructor
This is an advanced-level course for the student with at least three semesters of prior brass instrument study. Through written exercises and performance on the instrument of choice, the student will learn the advanced concepts of brass performance. Topics to be covered include the pentatonic scale, whole tone scale and melodic contours.

MUS 256
Applied Percussion I (Private) (1 CR)
This is an entry-level course for the student with little or no training in percussion instruments. The student will learn the beginning concepts of percussion performance. Topics to be covered include basic duple and triple rhythm, snare drum rudiments and basic snare drum performance patterns.

MUS 257
Applied Percussion II (Private) (1 CR)
Prerequisite: MUS 256 or placement by instructor
This is a beginning-level course for the student with at least one semester of prior instruction in percussion instruments. The student will learn beginning concepts of percussion performance. Topics to be covered include compound rhythm, snare drum rudiments and basic timpani skills.

MUS 258
Applied Percussion III (Private) (1 CR)
Prerequisite: MUS 257 or placement by instructor
This is an intermediate-level course for the student with at least two semesters of prior instruction in percussion instruments. The student will learn beginning concepts of percussion performance. Topics to be covered include snare drum rudiments, basic mallet percussion skills and suspended cymbal skills.

MUS 259
Applied Percussion IV (Private) (1 CR)
Prerequisite: MUS 258 or placement by instructor
This is an advanced-level course for the student with at least three semesters of prior instruction in percussion instruments. The student will learn advanced concepts of percussion performance. Topics to be covered include snare drum rudiments, crash cymbal techniques and drum set skills.

MUS 261
Applied Woodwind I (Private) (1 CR)
This is an entry-level course for the student with little or no experience performing on a woodwind instrument. Through written exercises and performance on the instrument of choice, the student will learn the basic elements of woodwind performance. Topics to be covered include tone production, basic intervals and major scales.

MUS 262
Applied Woodwind II (Private) (1 CR)
Prerequisite: MUS 261 or placement by instructor
This is a beginning-level course for the student with at least one semester of prior woodwind study. The student will learn beginning concepts of woodwind performance on the chosen instrument through written exercises and performance. Topics to be covered include embouchure development, minor scales and duple and triple meters.

**MUS 263**  
*Applied Woodwind III (Private)* (1 CR)  
*Prerequisite: MUS 262 or placement by instructor*  
This is an intermediate-level course for the student with at least two semesters of prior woodwind study. The student will learn the intermediate concepts of woodwind performance through written exercises and performance. Topics to be covered include chromatic scale, quadruple rhythmic patterns and chord construction.

**MUS 264**  
*Applied Woodwind IV (Private)* (1 CR)  
*Prerequisite: MUS 263 or placement by instructor*  
This is an advanced-level course for the student with at least three semesters of prior woodwind study. Through written exercises and performance, the student will learn the advanced concepts of woodwind performance. Topics to be covered include pentatonic scale, whole tone scale and melodic contour.

**MUS 266**  
*Applied Harp I (Private)* (1 CR)  
This course is the first college level course for harp students. The student will work in a studio setting with an instructor. Assignments will be based on the individual student’s readiness, but work will emphasize growth in areas of technical development, understanding musical styles, developing music vocabulary and building a performance repertoire. 1/2 hr./wk.

**MUS 267**  
*Applied Harp II (Private)* (1 CR)  
*Prerequisite: MUS 266*  
This course continues the work in Applied Harp I. The student will work in a studio setting with an instructor. Assignments will be based on the individual student’s readiness. Work will emphasize further growth in areas of technical development, understanding musical styles, developing music vocabulary and building a performance repertoire. 1/2 hr./wk.

**MUS 268**  
*Applied Harp III (Private)* (1 CR)  
*Prerequisite: MUS 267*  
This course continues the work in Applied Harp II. The student will work in a studio setting with an instructor. Assignments will be based on the individual student’s readiness. Work will emphasize further growth in areas of technical development, understanding musical styles, developing music vocabulary and building a performance repertoire. 1/2 hr/wk.

**MUS 269**  
*Applied Harp IV (Private)* (1 CR)  
*Prerequisite: MUS 268*
This course continues the work in Applied Harp III. The student will work in a studio setting with an instructor. Assignments will be based on the individual student’s readiness. Work will emphasize further growth in areas of technical development, understanding musical styles, developing music vocabulary and building a performance repertoire. 1/2 hr./wk.

Nursing (NURS)

NURS 124
Foundations of Nursing (9 CR)
Prerequisite: Admission to the Nursing Program and current certification in Kansas as Certified Nursing Assistant (CNA) and Cardiopulmonary Resuscitation Certification (CPR) for Health Care Providers and CHEM 122 and MATH 116 or higher level MATH course and corequisite: BIOL 144 and PSYC 130

This course is the first in a sequence of five nursing courses. Students will acquire nursing knowledge and skills necessary to care for patients across the health care continuum. Students will use a critical thinking approach to apply fundamental principles of nursing to patient care. In the clinical component, students will apply theoretical content and therapeutic interventions to patients with health alterations. Course instruction will occur in the classroom, online, in the health resource center and healthcare agencies. 4 hrs. lecture, 1 hr. lab, 15 hr. clinical/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $540 to 565.

NURS 126
Nursing Care of the Adult: Health Alterations (9 CR)
Prerequisite: BIOL 144 and PSYC 130 and NURS 124 and corequisite: PSYC 218

This course is the second in a sequence of five nursing courses. Students will build on fundamental nursing knowledge and skills acquired in the first nursing course to care for adult patients across the health care continuum. The content will emphasize nursing care of older adults experiencing complex multi-system conditions. The content will also include nursing care for young, middle-aged, and older adults experiencing alterations in mental health. The student will use a critical thinking approach to apply concepts of adaptation, nursing process, therapeutic interactions, communication, and teaching/learning in the care of the culturally diverse patient. In the critical component, students will apply theoretical content and therapeutic nursing interventions to patients with acute and chronic health alterations. Course instruction will occur in the classroom, online, in the health resource center and healthcare agencies. 4 hrs. lecture, 1 hr. lab, 15 hr. clinical/wk.

NURS 136
LPN-RN Transition Course (6 CR)
Prerequisite: Completion of LPN program, Current Cardiopulmonary Resuscitation Certificate (CPR) for Health Care Providers and CHEM 122 and MATH 116 or higher and either BIOL 144 or BIOL 140 and BIOL 225 and ENGL 121 and PSYC 130 and PSYC 218

This course is an introduction to the second year of the associate degree nurse (ADN) program for graduates of licensed practical nurse (LPN) programs. The content will emphasize nursing care for patients experiencing alterations in mental health and complex multi-system conditions. The student will use a critical thinking approach to apply concepts of adaptation, nursing process, therapeutic interactions, and teaching/learning in the care of the patient. An in-depth examination of physical assessment and psychomotor/communication skills will prepare the student for transition to the associate degree nursing program. Course instruction will occur in the classroom, online, in the health resource center, and health care agencies. 15 hrs. lecture, 1 hr. lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this
course has additional expense considerations that are estimated to be $320.

**NURS 228**
**Nursing Care of the Childbearing Family (5 CR)**  
*Prerequisite: ENGL 121 and PSYC 218 and NURS 126 and corequisite: BIOL 230 and either SOC 122 or SOC 125 and NURS 230*

This course is the third or fourth in a sequence of five nursing courses. Students will acquire nursing knowledge and skills necessary to care for the childbearing family. Common alterations, stressors in the family, cultural sensitivity and the art of nursing will be emphasized during the antepartum, intrapartum, postpartum and newborn periods. Students will use principles of therapeutic communication, critical thinking, and teaching/learning to apply nursing process to both normal and high-risk mothers and newborns. In the clinical component, students will apply theoretical content and therapeutic nursing interventions with a caring approach to a culturally diverse population. Course instruction will occur in the classroom, online, in the health resource center and health care agencies. This course will be taken in the same semester with NURS 230, Nursing Care of Children. 4 hrs. lecture, 1 hr. lab, 15 hrs. clinical/wk.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $160.

**NURS 230**
**Nursing Care of Children (5 CR)**  
*Prerequisite: ENGL 121 and PSYC 218 and NURS 126 and corequisite: BIOL 230 and SOC 122 or SOC 125 and NURS 228*

This course is the third or fourth in a sequence of five nursing courses. Students will acquire nursing knowledge skills necessary to care for infants through adolescents on a continuum of health and adaptation that may result in acute or chronic illness. Students will use principles of therapeutic communication, psychosocial concepts, growth and development, critical thinking, and organization to apply the nursing process to culturally diverse populations. In the clinical component, students will apply theoretical content and therapeutic nursing interventions to infants/children/adolescents with acute and/or chronic health alterations. Course instruction will occur in the classroom, online, in the health resource center and health care agencies. 4 hrs. lecture, 1 hr. lab, 15 hrs. clinical/wk.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $160.

**NURS 232**
**Complex Patient Care Management (9 CR)**  
*Prerequisite: NURS 228 and NURS 230*

This course is the last in a sequence of five nursing courses that will enable students to care for patients experiencing complex multi-system health alterations across the health care continuum. Students will use a critical thinking approach to apply concepts of management to a group of patients in a health care setting. This course integrates knowledge and skills acquired in the previous four courses and facilitates student transition to professional nursing practice. In the clinical component, students will apply theoretical content and therapeutic nursing interventions to a group of patients/families with complex, acute and chronic health alterations. Course instruction will occur in the classroom, online, in the health resource center and health care agencies. 4 hrs. lecture, 1 hr. lab, 15 hrs. clinical/wk.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $450 to 550.

**NURS 234**
**Registered Nurse Refresher (9 CR)**  
*Prerequisite: Previously licensed as a registered nurse. Corequisite: Current CPR certification for health care providers*

The course will prepare the Registered Nurse (RN) to reenter the acute health
NURS 236
Registered Nurse Perioperative Nursing (3 CR)
Prerequisite: Currently licensed as a Registered Nurse an Current CPR certification for health care providers Corequisite: Could possibly complete CPR while taking this course
This course will prepare the novice perioperative registered nurse (RN) or the RN desiring to enhance employment opportunities in the perioperative setting with basic didactic perioperative content. The course will provide the rationale and theory needed to provide safe patient care in the perioperative setting as an operating room nurse. The course is designed to supplement clinical practice. 2 hrs lecture 1 hr. lab/wk.

NURS 238
Registered Nurse Perioperative Clinical (2 CR)
Currently licensed as a Registered Nurse and current CPR certification for health care providers and Corequisite: NURS 236
This course will prepare the novice registered nurse (RN) desiring to enhance employment opportunities in the perioperative setting with basic perioperative skill competencies. The clinical practice will be in the perioperative setting to provide a realistic experience for the student. 192 clinical hours

Occupational Therapy Assistant (KOT)

KOT 100
Introduction to Occupational Therapy (2 CR)
Introduction to the history, philosophy and practice of occupational therapy. Exploration of diversity and the role it plays in health care. 2 hrs. lecture/wk.
Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KOT 102
Documentation Guidelines (2 CR)
Prerequisite: Formal admission into the occupational therapy assistant program
Guidelines for documentation of occupational therapy services. 2 hrs. lecture/wk.
Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KOT 103
Clinical Conditions (2 CR)
Prerequisite: Formal admission into the occupational therapy assistant program
Etiology, clinical process and prognosis of common diseases and illnesses. Effect of disease or illness on an individual's performance and the impact this has on the person, family and society. 2 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.
KOT 106

Therapeutic Interventions I (4 CR)
Prerequisite: Formal admission into the occupational therapy assistant program
Basic therapeutic interventions, techniques, applications and legislation pertinent to OT practice. Learn OT’s role in promoting health and wellness. 2.5 hrs. lecture, 3 hrs. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KOT 112

Basic Emergency Patient Care (1 CR)
This course introduces current cardiopulmonary resuscitation skills, including adult, child and infant resuscitation, according to American Heart Association standards. Medical and environmental emergencies are reviewed. 1 hr. lecture/wk. Course taught at Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KOT 116

Level I Fieldwork I (1 CR)
Prerequisite: Formal admission into the occupational therapy assistant program
Introduction to the role, policies and procedures of fieldwork. Directed experience in a specified community setting. 0.5 hr. lecture, 1 hr. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KOT 118

Assistive Technology (2 CR)
Prerequisites: BIOL 144 and BIOL 145, KOT 112, KOT 100 102, 103, 106 and 116
Hands-on introduction to high-tech assistive technology and augmentative communication. 1 hr. lecture, 2 hrs. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KOT 120

Pediatrics (3 CR)
Prerequisite: KOT 112, BIOL 144 and BIOL 145 and KOT 100 KOT 102, KOT 103, KOT 106 and KOT 116
Occupational therapy practice as it relates to individuals from birth to early adolescence. Study of normal growth and development. 3 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of occupational therapy assistant about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KOT 121

Level I Fieldwork II
Prerequisite: BIOL 144 and BIOL 145, KOT 112, and KOT 100, KOT 102, KOT 103, KOT 106 and KOT 116 and concurrent enrollment in KOT 120
Directed experience in a specified community setting. Course is .5 credit hour. 1 hr. clinical/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant
program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KOT 130

Analysis of Physical Performance (3 CR)
Prerequisites: KOT 112, BIOL 144 and BIOL 145, KOT 100, KOT 102 KOT 103 KOT 106 and KOT 116

Analysis and evaluation of the components of physical performance and their relationship to functional activities. 2 hrs. lecture. 2 hrs. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KOT 154

Applied Neurology (2 CR)
Prerequisites: KOT 112, BIOL 144 and BIOL 145, KOT 100, KOT 102, KOT 103, KOT 106 and KOT 116

Foundations of neuroscience necessary for practice as a rehabilitation professional. Correlation of Clinical problems with pathology of the nervous system. 2 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KOT 173

Special Topics (2 CR)
Prerequisites: Concurrent enrollment in physical therapy assistant or occupational therapy assistant programs or completion of an associate or advanced degree in physical therapy or occupational therapy

A study of advanced topics relevant to the current practice of rehabilitation. Cross listed as KPT 173. 2 hrs. lecture/wk. Course taught at Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KOT 201

Mental Health (2.5 CR)
Prerequisites: KOT 118 and KOT 120 and KOT 121 and KOT 130 and KOT 154

Occupational therapy assessment and treatment techniques in the mental health setting. 2 hrs. lecture. 1 hr. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KOT 202

Physical Dysfunction (3 CR)
Prerequisites: KOT 118 and KOT 120 and KOT 121 and KOT 130 and KOT 154

Occupational therapy assessment and treatment used with the physically and cognitively challenged population. 3 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KOT 203

Gerontology (3 CR)
Prerequisites: KOT 118 and KOT 120 and KOT 121 and KOT 130 and KOT 154
Concepts and processing of aging. The role of occupational therapy with the elderly. 3 hr. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

**KOT 208**

**Therapeutic Interventions II** (2 CR)

*Prerequisite: KOT 118 and KOT 120 and KOT 121 and KOT 130 and KOT 154*

Advanced therapeutic interventions and techniques used to enhance functional ability and independence in daily life tasks and occupations. 1 hr. lecture, 2 hrs. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

**KOT 212**

**Level I Fieldwork III** (2 CR)

*Prerequisite: KOT 118 and KOT 120 and KOT 121 and KOT 130 and KOT 154*

Directed experience in specified community settings. 4 hrs. clinical/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

**KOT 217**

**Fieldwork Seminar** (3 CR)

*Prerequisite: KOT 118 and KOT 120 and KOT 121 and KOT 130 and KOT 154*

Preparation for full-time clinical practice, the national certification process, state licensure, and future employment. 3 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

**KOT 222**

**Level II Fieldwork** (12 CR)

*Prerequisite: KOT 201, KOT 202, KOT 203, KOT 208 and KOT 212 and KOT 217*

Directed clinical experience in different practice areas of occupational therapy. 40 hrs. field studies/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the occupational therapy assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

**Philosophy (PHIL)**

**PHIL 121**

**Introduction to Philosophy** (3 CR)

Students will examine the basic questions of philosophical inquiry, such as the nature of being, and the ways humans acquire knowledge and moral, social, religious and political values. Emphasis is on the application of the study of traditional problems of philosophy to the study of contemporary society. 3 hrs./wk.

**PHIL 124**

**Logic and Critical Thinking** (3 CR)
This course is an inquiry into techniques of persuasion and the standards for interpretation and assessment that are the basis for critical thinking. Argumentative and non-argumentative forms of persuasion are examined, including propaganda, exaggeration, stereotyping, slanted news and common fallacies. In addition, the course offers standards for evidential warrants based on samples, probabilities and causal claims. Relations between categorical propositions and Venn diagrams are examined and, finally, the course suggests strategies for fresh attacks on conceptual problems. 3 hrs./wk.

PHIL 138
Business Ethics (1 CR)
This course applies classical and contemporary theories of morality to problems, questions and dilemmas arising in business. Using the major concepts and principles of deontological, consequentialist and perfectionist theories, it examines and analyzes cases involving such areas as employer/employee relations, corporate responsibility, truth telling in business and workplace diversity. Emphasis is on the development of moral reasoning skills that allow for meaningful analysis and evaluation of moral situations. 1 hr./wk.

PHIL 143
Ethics (3 CR)
This course provides a systematic and critical study of values related to human conduct. It focuses on both traditional standards of ethical conduct and qualities of personal character. What we hold to be right or wrong, the basis for believing so, and what we consider to be virtues or vices are examined with an eye to understanding our current ethical situation. 3 hrs./wk.

PHIL 154
History of Ancient Philosophy (3 CR)
This course provides a thorough exploration of ancient Greek and Roman philosophical thought from the original efforts of the Pre-Socratics to understand the fundamental operations of the natural world to concerns about the way a person might live successfully in nature and society. Also explored are the notable Athenians of the classical period, Protagoras, Socrates, Plato and Aristotle, and the later schools of thought such as cynicism, skepticism, hedonism and stoicism. In the process, it provides a comprehensive understanding of the philosophical foundations of the Western world view. 3 hrs./wk.

PHIL 161
Elementary Symbolic Logic (3 CR)
This course is a beginning course in symbolic logic and should be of particular benefit to those students who will pursue more advanced studies in linguistics, philosophy of language, mathematics or computer science. Students will be introduced to modern analytical techniques of formal deductive logic. Students should gain the ability to use a formal language to translate English language arguments and the ability to demonstrate the validity or invalidity of symbolic arguments using the techniques of truth-table analysis and formal proof. Some attention will also be given to the historical development of symbolic logic. 3 hrs./wk.

PHIL 176
Philosophy of Religion (3 CR)
This course is an inquiry into the nature of religion, religious thought and religious language. It addresses philosophical topics such as the nature of religious belief, the apparent need of some people for religion, the arguments offered as proof for and against the existence of God, apparent contradictions between scientific and
PHIL 210
History of Modern Philosophy (3 CR)
Prerequisite: PHIL 121 or PHIL 143 or HIST 125 or HIST 126
This course takes a historical approach to the development of modern philosophy and covers the period from the Renaissance to the 20th-century. The course will cover the epistemological, metaphysical and relevant axiological issues of the major philosophers and philosophical movements of this period. The course will also examine the influence of modern philosophy on contemporary thought. 3 hrs. lecture/wk.

Photography (PHOT)

PHOT 121
Fundamentals of Photography (3 CR)
This course provides an introduction to the tools, procedures, concepts and application of photographic imaging. Students will use cameras, light meters and darkroom equipment for film developing and printing to make images to meet the requirements of a series of assignments designed to develop specific skills, competencies and points of view and to stimulate the students' creative capacities for personal expression, communication and self-understanding. Students must provide their own camera with adjustable focus, shutter speeds and aperture. 6 hrs. lecture, lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 150.

PHOT 122
Advanced Photography (3 CR)
Prerequisite: PHOT 121
This course provides an introduction to advanced techniques, tools, procedures and concepts of photographic imaging, with an emphasis on black-and-white photography as a fine art. Students will use Zone System tests and procedures to produce prints of maximum quality. Students will use advanced techniques, such as split-developers for contrast control, multiple-imaging and archival processing, and print presentation. Several "alternative" printing processes will be discussed and demonstrated. This course also includes a basic introduction to medium format (2 1/4) and large format (4 x 5) camera equipment and technique. Students will apply the above to make images for a series of conceptually advanced, project/series-oriented assignments to stimulate the student's creative capacities for personal expression, communication and self-understanding. 6 hrs. lecture, lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 150.

PHOT 123
Studio Photography (3 CR)
Prerequisite: PHOT 121
This course provides an introduction to advanced techniques, tools, procedures and concepts of studio and commercial photography. Students will use professional camera and studio equipment, including studio electronic flash and hand-held light/flash meters. This course also includes an introduction to professional medium format (2 1/4) and large format (4"x5") equipment and advanced camera techniques for total image control. Students will use studio
lighting for various portraiture styles and for small-product, table-top photography. Applications of digital photography as they apply to studio photographic processes will be introduced. Students will apply the above to make images for a series of advanced studio assignments. 6 hrs. lecture, lab/wk.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $75 to $150.

PHOT 125
Photography for Publication (3 CR)
Prerequisite: PHOT 121
This course provides an introduction to the concepts and application of photographic imaging for media publication. Students will use cameras, computers, software, scanners and image-output devices to master the issues, concepts and constraints involved in creating images for a broad range of publication needs. They will prepare and format digitized image files for storage, transmission and print-based and Web-based reproduction. This course is designed to meet the photographic imaging needs of journalism students. 6 hrs. lecture, lab/wk.

PHOT 127
Color Photography (3 CR)
Prerequisite: PHOT 121
This course provides an introduction to the materials, techniques, tools, processes and theories of color photography. Students will use various color film emulsions, chemicals, filters for color-balance corrections, enlargers with integral color-heads with dial filtration, a pro-lab quality processor, color printing papers, and quality controls and manipulations to produce professional-quality color enlargements and transparencies. Students will use the above to make color images to meet the requirements of a series of assignments designed to develop specific skills, competencies and points of view and to stimulate the students' creative capacities. 6 hrs. lecture, lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $75 to 150.

PHOT 128
Digital Photography (3 CR)
This course is an introduction to the concepts, tools and technology of digital imaging for photographers. Students will develop competence in the use of digital photographic equipment, software, storage devices and printers to produce digital photographic images satisfying the requirements of a series of assignments designed to develop specific skills and competencies. Students will "capture," manipulate, correct, transmit, store and output images. They will use digital technology to produce images for commercial and/or artistic applications. Ethics and cultural implications of the technology will be discussed. 6 hrs. lecture, lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $75 to 150.

PHOT 140
History of Photography (3 CR)
This course will acquaint students with the arts and ideas that arose in India, China and Japan from the prehistoric to the early modern periods. The course will examine the aesthetic elements that mark the styles of major periods in two-dimensional, three-dimensional and architectural works. Particular attention will be paid to the relationship between artistic elements and their various cultural and historical contexts. 3 hrs. lecture/wk.

Physical Ed, Health & Rec (HPER)
HPER 100
Basketball (Beginning) (1 CR)
Students will have an opportunity to learn fundamental basketball skills through demonstration and discussion of strategies for team play. Emphasis is on individual participation. 2 hrs./wk.

HPER 101
Basketball (Intermediate) (1 CR)
Prerequisite: HPER 100
Students will have an opportunity to learn intermediate basketball skills through demonstration and discussion of strategies for team play. This course will advance the skills of the student who successfully completed the beginning basketball course. Emphasis is on individual participation and competition team play. 2 hrs./wk

HPER 102
Navigation 102: Orientation at JCCC (1 CR)
This course is designed to help students transition from past experiences to college life. The topics will focus on four key areas, including practical life skills, wellness-related presentations, working with diverse individuals and groups, and academic skills enhancement. Thus, the goal of this course is to provide students with a valuable living and learning experience that equips them with the tools necessary to be academically successful and remain in school. This course will help students “navigate” through their first semester at JCCC. 2 hrs. lecture/wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

HPER 103
Touch/Flag Football (1 CR)
The fundamentals of touch and flag recreational football will be introduced as well as strategies necessary for team play. 2 hrs./wk.

HPER 104
Yoga (1 CR)
This class will utilize techniques from yoga which aim to provide mind/body benefits including better posture and increased body awareness. Muscular strength and flexibility will be developed through poses and positions. This class will be geared towards all students, both beginners as well as those who have previous training. 3 hrs. activity/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $12 to 15.

HPER 105
Bowling (Beginning) (1 CR)
The student will have the opportunity to learn and practice the fundamentals of bowling. The student will be introduced to the history of the game, rules, equipment and lane specifications, scoring, handicap calculations, and operation of automatic scoring equipment. 2 hrs./wk. HPER mini-courses meet an additional 16 hours on a modular schedule.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 34.

HPER 107
Bowling (Intermediate) (1 CR)
**Prerequisite: HPER 105**

Students will demonstrate advanced fundamentals of bowling. The student will acquire advanced knowledge of the history of the game, rules, equipment and lane specifications. Intermediate to advanced bowling competition will be explored. 2 hrs./wk. HPER mini-courses meet an additional 16 hours on a modular schedule.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $0 to 34.

**HPER 110**

**Racquetball (Beginning) (1 CR)**

A brief history of rules and terminology of racquetball will be followed by instruction and actual practice and application of the fundamentals. 2 hrs./wk.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $45 to 200.

**HPER 112**

**Racquetball (Intermediate) (1 CR)**

**Prerequisite: HPER 110**

Students will review the rules and terminology of racquetball, as well as demonstrate the basic skills. The student will demonstrate skills and strategies in a competitive format and use the mental preparation and conditioning aspects of the game of racquetball. The intermediate racquetball student will apply skills in a competitive format. 2 hrs./wk.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $45 to 200.

**HPER 115**

**Soccer (1 CR)**

The fundamentals of soccer will be introduced as well as strategies necessary for team play. 2 hrs./wk.

**HPER 117**

**Power Volleyball (Beginning) (1 CR)**

The basic skills of volleyball taught in this class include the forearm pass, overhead set, serve, block and spike (attacking). Elementary offense and defense along with volleyball rules, scoring and officiating will be covered. 2 hrs./wk.

**HPER 118**

**Power Volleyball (Intermediate) (1 CR)**

**Prerequisite: HPER 117**

Students will have the opportunity to build upon the basic fundamentals of the Power Volleyball (Beginning) class. Intermediate skills, strategies, offensive and defensive systems and rules will be covered for six-player, four-player, three-player, and two-player volleyball. 2 hrs./wk.

**HPER 130**

**Running Awareness and Exercise (1 CR)**

The course will introduce the student to aerobic fitness through the activity of running. The training principles for running and competitive racing will be covered, and the individual will complete a personal running and/or racing training program. 2 hrs./wk.
HPER 134  
Weight Training (Beginning) (1 CR)  
In this class, muscular strength and endurance will be developed through weight training activity. A workout program will be implemented for each student. The muscular system, basic terminology of weight training and weight training theory will be discussed. 2 hrs./wk.

HPER 135  
Weight Training (Intermediate) (1 CR)  
Prerequisite: HPER 134  
In this class, muscular strength and endurance will be developed. A self-designed and directed resistance workout program will be implemented. The proper use of a training log and personal fitness evaluation techniques will be discussed. 2 hrs./wk.

HPER 137  
Tennis (Beginning) (1 CR)  
Students will get individualized instruction in this course on the rules, terminology and history of tennis. The student will receive instruction on the basic strokes of tennis, as well as the strategies of singles and doubles play. 2 hrs./wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30 to 40.

HPER 138  
Tennis (Intermediate) (1 CR)  
Prerequisite: HPER 137  
Students will review the rules, terminology and history of tennis. The student will receive instruction on the strokes of tennis, as well as the strategies of singles and doubles play in a competitive format. Emphasis will be on the mental and physical conditioning of the game. 2 hrs./wk.  HPER mini-courses meet an additional 16 hours on a modular schedule.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30 to 40.

HPER 140  
Modern Dance (Beginning) (1 CR)  
This course emphasizes the movement between positions rather than the picture-perfect poses of ballet and other dance styles. Moving through space off of and onto the floor, breathing and moving improvisationally will be explored. 2 hrs./wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $12 to 40.

HPER 142  
Modern Dance (Intermediate) (1 CR)  
Prerequisite: HPER 140  
A continuation of Modern Dance (Beginning), this course presents more difficult and longer movement combinations. Students further explore their creativity through elements of improvisations, choreography and performance while gaining greater muscular flexibility and strength. 2 hrs./wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $12 to 40.

HPER 150  
Aerobics (Beginning) (1 CR)

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30 to 40.
Motor skills, jogging and dance steps are combined in this exercise program to improve muscle tone and cardiovascular fitness. 2 hrs. wk. HPER mini-courses meet an additional 16 hours on a modular schedule.

**HPER 152**
**Aerobics (Intermediate)** (1 CR)
*Prerequisite: HPER 150*
The motor skills, jogging and dance steps are performed at faster pace for a longer period of time than in Aerobics (Beginning). The course will introduce the student to the fitness benefits from increased duration and intensity of aerobic activities. 2 hrs./wk. HPER mini-courses meet an additional 16 hours on a modular schedule.

**HPER 155**
**Ballet (Beginning)** (1 CR)
This progressive ballet system is designed to produce muscular strength and flexibility and a working knowledge of anatomy, plus the aesthetic satisfaction of expressing yourself through a classical art form. Offered to students of all ages and experience, both beginners as well as those who have had some training. 2 hrs./wk.
*Associated Costs:* In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $17 to 30.

**HPER 157**
**Ballet (Intermediate)** (1 CR)
*Prerequisite: HPER 155*
A continuation of Beginning Ballet, this progressive ballet system explores multilayered ballet movement in simple dance combinations. 2 hrs./wk.
*Associated Costs:* In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $17 to 30.

**HPER 158**
**Jazz Dance (Beginning)** (1 CR)
An introduction to the concepts and motor skills involved with jazz dance. Basic body position will be introduced as well as basic terminology, jazz history, various jazz styles and the basic techniques involved, isolations, combinations, choreography and rhythmic influences. 2 hrs./wk.
*Associated Costs:* In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $7 to 30.

**HPER 159**
**Jazz Dance (Intermediate)** (1 CR)
*Prerequisite: HPER 158 or equivalent*
A continuation of Beginning Jazz Dance, this course will require students to assimilate and execute more difficult isolated dance moves as well as use the basic skills acquired in Beginning Jazz Dance to perform complex dance sequences to a variety of music. 2 hrs./wk.
*Associated Costs:* In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $7 to 30.

**HPER 163**
**Ballroom Dance (Beginning)** (1 CR)
This is an introduction to ballroom dance with emphasis on basic patterns and fundamental steps of the waltz, fox trot, swing, polka and cha-cha. Common rules of dance courtesy and a brief overview of ballroom dance history will be included. Music or dance background is not necessary. 2 hrs./wk.
**HPER 165**

**Karate I (1 CR)**

The student will receive instruction in the basic fundamentals of karate, including stances, blocks, kicks, strikes, and self-defense techniques. 2 hrs./wk.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 40.

**HPER 166**

**Karate II (1 CR)**

*Prerequisite: HPER 165*

The student will review the skills from the prerequisite course of Karate I. Students will demonstrate techniques that include the moving block, kicks and positions for karate. The course will also cover combination moves as well as the defensive technique.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 30.

**HPER 167**

**Karate III (1 CR)**

*Prerequisite: HPER 166*

Students will have the opportunity to achieve higher levels of proficiency, routines, kumite (sport/free fighting) and self-defense. 2 hrs./wk.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 30.

**HPER 168**

**Karate IV (1 CR)**

*Prerequisite: HPER 167*  
*Note: Beginning Japanese is a suggested prerequisite*

Students in this course will have the opportunity to achieve the advanced level of karate in the following: taiso (exercise), kata (forms), kumite (sport/free fighting) and self-defense application. 2 hrs./wk.

**Associated Costs:** In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $20 to 30.

**HPER 172**

**Track and Field (Beginning) (1 CR)**

This course will introduce the student to the sport of track and field. Through activity and discussion the student will improve his or her motor ability to perform track and field events. 2 hrs./wk.

**HPER 174**

**Coaching and Officiating of Track and Field (2 CR)**

Students will have the opportunity to learn the fundamentals of coaching and officiating track and field events. Upon successful completion of the course, students will be prepared for USATF Level 1 certification. 2 hrs./wk.

**HPER 175**

**Fencing (1 CR)**

Beginning foil fencing will provide the student with the fundamental rules and techniques of foil fencing. The student will utilize these skills in a fencing bout. The student will also be instructed in the rules and procedures of officiating foil fencing. 2 hrs./wk.
**HPER 180**  
**Fencing (Intermediate) (1 CR)**  
*Prerequisite: HPER 175*  
Intermediate fencing will provide the student with advanced techniques and rules of foil fencing and with fundamental techniques and rules of epee fencing. The student will utilize these skills in a fencing competition. The student will also be instructed in the rules and procedures of refereeing foil fencing and organization of fencing competitions. 2 activity hrs./wk.

**HPER 182**  
**Swimming (Beginning) (1 CR)**  
Students in beginning swimming will learn basic swimming skills and safety information that are fundamental to safe swimming performance. 1 hr./wk.  
*Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $25 to 70.*

**HPER 183**  
**Swimming (Intermediate) (1 CR)**  
*Prerequisite: HPER 182 or the equivalent*  
Students in intermediate swimming will learn more advanced swimming strokes, skills and safety information along with increasing personal fitness levels through continuous endurance swimming. 1 hr./wk.  
*Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $25 to 70.*

**HPER 185**  
**Archery (1 CR)**  
Students will receive individualized instruction in the basic skills of archery as a recreational sport lending itself as a lifetime leisure interest. Safety, fundamental care and usage of archery tackle and beginning archery skills will be taught along with a survey of the history of archery. 2 hrs./wk.  
HPER 185 Archery classes will meet in the lobby in the gym building by room 116.  
*Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $10 to 20.*

**HPER 190**  
**Golf (1 CR)**  
The beginning golfer will be given instruction in the rules of and basic swing fundamentals for the game of golf. Proper golf equipment, proper use of this equipment and golf etiquette will be reviewed. 2 hrs./wk.  
HPER mini-courses meet an additional 16 hours on a modular schedule.  
*Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $80 to 400.*

**HPER 192**  
**Wellness for Life (1 CR)**  
This course introduces students to the theory and principles upon which the concepts of lifetime fitness and wellness are based. Students will examine the relationship that exists between wellness and lifestyle behaviors. Individual self-assessments will be used to establish current health and fitness levels. 1 hr./wk.

**HPER 194**  
**Sports Conditioning (Beginning) (1 CR)**  
Students will have the opportunity to learn the fundamentals of general and sports specific conditioning. All aspects of physical and psychological development are
incorporated in this class. Strength, power, speed, acceleration, muscular hypertrophy and endurance, cardiovascular endurance, motor skills and agility drills are taught and practiced. The class will include general physical preparation sport fitness, plyometrics, agility drills and sport-related specific conditioning. The students will learn about the principle of year-round conditioning, including conditioning appropriate to the off-season, preparatory period, pre-competition period and competition period. 2 hrs./wk.

**HPER 195**
**Introduction to Sports Medicine** (3 CR)
The purpose of this class is to introduce the basic concepts of sports medicine, specifically Athletic Training. It will address the fundamentals of the human musculoskeletal system, sports related injuries, injury treatment, and other sports medicine related topics. This class is designed for beginning athletic training students and other students interested in the subject. 3 hrs. lecture/wk.

**HPER 197**
**Sports Conditioning (Intermediate)** (1 CR)
Prerequisite: HPER 194
Students will have the opportunity to build upon principles and practices of general and sports-specific conditioning learned in Beginning Sports Conditioning. All aspects of physical and psychological development are incorporated in this class. Strength, power, speed, acceleration, muscular hypertrophy and endurance, cardiovascular endurance, motor skills and agility drills are taught and practiced. The class will include general physical preparation, sport fitness and conditioning. Students will continue to learn about the principle of year-round conditioning, including conditioning appropriate to the off-season, preparatory period, pre-competition period and competition period. 2 hrs. lecture/wk.

**HPER 198**
**Athletic Training Practicum I** (1 CR)
Corequisite: HPER 195
At the conclusion of this practicum, the student will be able to explain and demonstrate a variety of basic principles and practices in athletic training, including the essentials of record keeping, athletic injury taping and strapping techniques, an introduction to the supervised use of and safety procedures for therapeutic modalities and therapeutic exercise equipment. Major anatomical landmarks and basic anatomy of the major joints of the human body will be identified and palpated. This practicum, intended for athletic training and other allied health students, will be hands-on and conducted under the direct supervision of a certified/licensed athletic trainer. 16 hrs. lecture, 112 hrs. practicum

**HPER 200**
**First Aid and CPR** (2 CR)
After completing this course, students should be able to perform the basic skills of first aid. The course will cover cause, prevention and first aid care of common emergencies. Certification may be earned in first aid and cardiopulmonary resuscitation. 2 hrs./wk.

**HPER 202**
**Personal Community Health** (3 CR)
This course is designed to provide the student with the knowledge and understanding to make positive, healthy lifestyle choices. In addition, students will learn about issues within the community that affect their daily health both directly and indirectly. 3 hrs./wk.
HPER 204  
Care and Prevention of Athletic Injury (3 CR)  
Corequisite: HPER 200 or BIOL 140  
Care and Prevention of Athletic Injuries will focus on recognition, evaluation, treatment, and recording of common athletic injuries. Human anatomy will be emphasized through the understanding of athletic movements and physical testing. Additional topics include legal and ethical practices for the athletic trainer and the psychology of today's competitive athlete. Care and Prevention of athletic injuries is the basic sports medicine class required by most exercise science and coaching degree programs. 3 hrs./wk.

HPER 205  
Individual Lifetime Sports (2 CR)  
This course provides a basic knowledge of several individual lifetime sports including badminton, bowling, golf, racquetball and tennis. Students will learn fundamental skills for each sport as well as history, benefits, equipment, rules, etiquette, safety, scoring and strategy. 3 hrs./wk. Fall.

HPER 207  
Athletic Training Practicum 2 (2 CR)  
Prerequisite: HPER 195 and HPER 198 and BIOL 140 and BIOL 225 and Corequisite: HPER 204  
At the conclusion of this practicum, the student will be able to explain and demonstrate the basic theories supporting the uses of therapeutic modalities and therapeutic exercise, and the evaluation/assessment of injuries to athletes. The student will demonstrate a functional understanding of the major muscle groups of the human body. The student will be able to discuss and explain the duties and responsibilities of a certified athletic trainer (ATC). Direct work with specific athletic teams will facilitate the practicum. This practicum will be hands-on, and conducted under the direct supervision of a certified/licensed athletic trainer. This class is intended for athletic training and other allied health students. 16 lecture 304 practicum hrs.

HPER 208  
Introduction to Exercise Physiology (3 CR)  
This introduction to exercise physiology will introduce the effects of exercise on the muscular system, the cardiovascular system and the metabolic system. The course will prepare the student in the design of and principles for an individual exercise program. 3 hrs./wk.

HPER 217  
Coaching and Officiating Basketball (2 CR)  
This course introduces students to the theory and principles of coaching basketball and the rules and mechanics of officiating. Students will have the opportunity to learn how to organize, coach and plan daily practice sessions. 2 hrs./wk.

HPER 220  
Sports Officiating (3 CR)  
The rules and practical application of officiating will be covered for the following sports: volleyball, football, basketball, baseball and softball. 3 hrs./wk.
HPER 224
Outdoor Recreation (3 CR)
This course introduces the student to activities that create interaction between the individual and/or individuals and elements of the outdoor recreational setting. This outdoor recreation class will plan activity projects such as camping, hiking, nature observation, alpine skiing, Nordic skiing and biking. 3 hrs./wk. Or, may be taught online for 16 weeks.

HPER 240
Lifetime Fitness I (1 CR)
This course is designed to provide an effective exercise circuit system to help the student develop overall muscle tone and cardiovascular conditioning. Handouts emphasizing the value of developing a total lifetime fitness attitude and optional lectures are available to enhance the student's knowledge of the benefits of a lifetime fitness program. This course requires an initial orientation/assessment. After the assessment, the class becomes an open-lab format by arrangement. 2 hrs./wk.

HPER 241
Lifetime Fitness II (1 CR)
Prerequisite: HPER 240
This course is a continuation and expansion of Lifetime Fitness I. 2 hrs./wk., open-lab format by arrangement.

HPER 242
Lifetime Fitness III (1 CR)
Prerequisite: HPER 241
This course is a continuation and expansion of Lifetime Fitness II. 2 hrs./wk., open-lab format by arrangement.

HPER 243
Lifetime Fitness IV (1 CR)
Prerequisite: HPER 242
This course is a continuation and expansion of Lifetime Fitness III. 2 hrs./wk., open-lab format by arrangement.

HPER 245
Elementary Physical Education (3 CR)
This course is designed to meet the needs of students who wish to teach in the area of elementary physical education and/or elementary education. This course will provide the students with knowledge and background in planning, classroom management techniques, teaching methodology, legal liability, evaluation, wellness, special students, sports, and games related to elementary physical education. The course will include observation and teaching. 3 hrs./wk. Spring

HPER 255
Introduction to Physical Education (3 CR)
This course will introduce the student to the field of physical education and sport. This course will discuss the historical, biomechanical, physiological and psychological foundations of physical education and sport. It will examine the role of physical activity as a means to help individuals acquire the skills, fitness levels
and knowledge that contribute to the arena of physical development and organized competition. It will also discuss the role physical education and sports play in our society. Each individual will develop a personal philosophy for physical education and sports. 3 hrs./wk. Spring.

**Physical Science (PSCI)**

**PSCI 120**  
**Physical Science (4 CR)**  
This course is an introduction to the fundamental concepts and principles of physics, chemistry, geology and astronomy. Topics include energy, electricity, magnetism, modern physics and chemical bonding. It is counted toward laboratory science requirements and is intended for non-science majors. It includes presentation of material using audiovisual, computer and other multimedia aids. Three hours of class and three hours of work in a scheduled lab are required each week. 3 hrs. lecture, 3 hrs. lab/wk.

**Physical Therapist Assistant (KPT)**

**KPT 102**  
**Basic Emergency Patient Care (1 CR)**  
Current cardiopulmonary resuscitation skills, including adult, child and infant resuscitation according to American Heart Association standards. Medical and environmental emergencies review. (Successful completion of the course qualifies the student for the Basic Life Support Course Certification.) 1 hr. lecture/wk. Course taught at Penn Valley Community College. Students should contact the Penn Valley coordinator of the physical therapist assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

**KPT 151**  
**Introduction to Physical Therapy (2 CR)**  
Introduction to the basic concepts of the function of a physical therapist and physical therapist assistant as members of the health team and interaction of health care disciplines in the care of the patient. Medical terminology related to the specific discipline. 2 hrs. lecture/wk. Course taught at Penn Valley Community College. Students should contact the Penn Valley coordinator of the physical therapist assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

**KPT 152**  
**Physical Therapy Fundamentals I (4 CR)**  
Prerequisite: Formal acceptance into the program. Theory and application of treatment modalities used in physical therapy. Therapeutic measures and patient handling skills used in the physical treatment of various injuries and diseases. Field trips to observe the clinic and its modalities. 2.5 hrs. lecture, 3 hrs. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the physical therapist assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

**KPT 153**  
**Kinesiology (4 CR)**  
Prerequisites: BIOL 144, BIOL 145, KPT 152 and KPT 160  
Anatomy and function of the musculoskeletal system. Analysis of various daily
activities. Application of physical therapy assessment procedures related to clinical kinesiology. 2 hrs. lecture, 4 hrs. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the physical therapist assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KPT 154

**Applied Neurology (2 CR)**

*Prerequisites: BIOL 144, BIOL 145, KPT 152, and KPT 160.*

Foundations of neuroscience necessary for practice as a rehabilitation professional. Anatomy and function of the nervous system. Correlation of clinical problems with pathology of the nervous system. 2 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the physical therapist assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KPT 155

**Rehabilitation (4 CR)**

*Prerequisite: KPT 162*

Introduction to the philosophy underlying rehabilitation theory and principles of treatment involved in normal and abnormal ambulation and mobility. Application of external supports and assistive devices, and teaching activities of daily living with attention to description, demonstration and practice. Field trips are required. 3 hrs. lecture, 2 hrs. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the physical therapist assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KPT 158

**Therapeutic Exercise (4 CR)**

*Prerequisite: KPT 162*

Introduction to the theory and principles of application of therapeutic exercise, including patient instruction, manual techniques and equipment commonly used by the physical therapist assistant. Field trips to learn various specialized techniques. 2 hrs. lecture, 4 hrs. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the physical therapist assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KPT 159

**Orthopedic Pathology (2 CR)**

*Prerequisite: BIOL 144, BIOL 145, KPT 152 and KPT 160*

Orthopedic pathologies commonly seen in physical therapy practice, diagnosis, signs and symptoms, physiological factors and treatment. 2 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the physical therapist assistant program about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KPT 160

**Medical Diseases (2 CR)**

*Prerequisites: BIOL 122, BIOL 140, AAC 130 and KPT 151 and formal acceptance into the program*  

Medical diseases commonly seen in physical therapy practice; diagnosis, signs and symptoms, physiologic factors and treatment. 2 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of the physical therapist assistant program about the class meeting times and beginning and ending dates of classes. Call
KPT 161
Physical Therapy Fundamentals II (4 CR)
Prerequisites: BIOL 144, BIOL 145, KPT 152, and KPT 160
Introduction to the theory and practical application of electrotherapy, patient
documentation, patient care skills, and selected modalities, including indications
and contraindications for use. 2.5 hrs. lecture, 3 hrs. lab/wk. Course taught at
MCC-Penn Valley Community College. Students should contact the Penn Valley
coordinator of the physical therapist assistant program about the class meeting
times and beginning and ending dates of classes. Call 816-759-4000.

KPT 162
Clinical Experience I (2 CR)
Prerequisites: KPT 153, KPT 154, KPT 159, KPT 161, and KPT 102 Completion
of pre-clinical examination with a score of 80 percent or better. Demonstrated
competency in pre-clinical checkouts.
Supervised clinical experience in the practical application of techniques and
procedures covered in all previous physical therapist assistant courses. Assisting
physical therapists and physical therapist assistants in treatment of patients in a
variety of clinical settings. 5 hrs. clinical/wk. Course taught at MCC-Penn Valley
Community College. Students should contact the Penn Valley coordinator of the
physical therapist assistant program about the class meeting times and beginning
and ending dates of classes. Call 816-759-4000.

KPT 164
Pediatrics and Gerontology (2 CR)
Prerequisite: KPT 162
Specialized information related to the treatment of pediatric and older adult
populations. 2 hrs. lecture/ wk. Course taught at MCC-Penn Valley Community
College. Students should contact the Penn Valley coordinator of the physical
therapist assistant program about the class meeting times and beginning and
ending dates of classes. Call 816-759-4000.

KPT 170
Clinical Experience II (2 CR)
Prerequisites: KPT 162 with a minimum grade of "C". Concurrent enrollment in
KPT 155, KPT 158, KPT 164 and KPT 171
Supervised clinical experience in the practical application of techniques and
procedures covered in all previous KPT courses. Assisting physical therapists and
physical therapist assistants in the treatment of patients in a variety of clinical
settings. 5 hrs. clinical/wk. Course taught at MCC-Penn Valley Community
College. Students should contact the Penn Valley coordinator of the physical
therapist assistant program about the class meeting times and beginning and
ending dates of classes. Call 816-759-4000.

KPT 171
Clinical Seminar (2 CR)
Prerequisites: KPT 162
This course contains current professional and patient patient-care issues
regarding the practice of physical therapy, such as ethics, departmental
organization, reimbursement, safety and research. 2 hrs. lecture/wk. Course
taught at MCC-Penn Valley Community College. Students should contact the
Penn Valley coordinator of the physical therapist assistant program about the
class meeting times and beginning and ending dates of classes. Call
816-759-4000.
KPT 172
Clinical Experience III (12 CR)
Prerequisites: Completion of all other required courses in the KPT program
Practical application of principles learned in prior coursework. Experience rotation
internships in selected hospitals and other clinical sites throughout the United
States under the guidance of a physical therapist. 40 hrs. field studies/wk. Course
taught at MCC-Penn Valley Community College. Students should contact the
Penn Valley coordinator of the physical therapist assistant program about the
class meeting times and beginning and ending dates of classes. Call
816-759-4000.

KPT 173
Special Topics (2 CR)
Prerequisite: Completion of all previous semesters of physical therapy and
biology coursework with a minimum grade of "C"
This course presents specialized topics in physical therapy and the administration
of health care. 1 hr. lecture/wk.

Physics (PHYS)

PHYS 130
General Physics I (5 CR)
Prerequisite: MATH 171 or assessment scores
In this introductory course for pre-professional and general education, students
will learn the fundamentals of selected areas of classical physics. Using the tools
of algebra and trigonometry, the course develops the topics of mechanics, heat
and thermodynamics, and concludes with waves. The two-semester PHYS
130/131 sequence is designed to meet the requirements of area pre-professional
programs. This is a transfer course that meets the college's requirements for
associate's degree programs and also meets transfer requirements of area
colleges and universities. The course includes an integrated laboratory
component the completion of which is a necessary part of the total instructional
package. 4 hrs. lecture, 3 hrs. lab/wk.

PHYS 131
General Physics II (5 CR)
Prerequisite: PHYS 130
In this introductory course for pre-professional and general education, students
will learn the fundamentals of selected areas of classical physics. Using the tools
of algebra and trigonometry, the course develops the topics of electricity and
magnetism, light and optics and some elements of modern physics, such as
relativity and quantum physics. The two-semester PHYS 130/131 sequence is
designed to meet the requirements of area pre-professional programs. This is a
transfer course that meets the college's requirements for associate's degree
programs and also meets transfer requirements of area colleges and universities.
The course includes an integrated laboratory component the completion of which
is a necessary part of the total instructional package. 4 hrs. lecture, 3 hrs. lab/wk.

PHYS 133
Applied Physics (5 CR)
Prerequisite: MATH 133 or higher
This is a one-semester, comprehensive physics course intended for students
enrolled in the biotechnology certificate program or an associate of applied
science degree program. The course will cover all areas of applied physics,
including mechanics, heat, thermodynamics, waves, electricity, magnetism, light,
optics and some elements of modern physics. Emphasis will be placed on concepts and applications to real-life problems. This course includes an integrated laboratory component the completion of which is a necessary part of the total instructional package. 4 hrs. lecture, 3 hrs. lab/wk.

**PHYS 191**  
Math & Physics for Games I (4 CR)  
*Prerequisite: MATH 171 or MATH 173 with grade of "C" or higher or appropriate score on math assessment test and CS 200*

This introductory course focuses on the mathematics and physics concepts needed to program a variety of video game scenarios. Students will learn to use vectors and matrix transformations to model the motion of physical objects in two and three dimensions. Students will also learn various computer programming methods in order to model these mathematical and physical concepts. 3 hrs. lecture and 2 hrs. lab/wk.

**PHYS 220**  
Engineering Physics I (5 CR)  
*Prerequisite or corequisite: MATH 242*

This is an introduction to physics for engineering and science students. Included will be mathematical approaches to the study of mechanics, wave motion and thermodynamics. 4 hrs. lecture, 3 hrs. lab/wk.

**PHYS 221**  
Engineering Physics II (5 CR)  
*Prerequisites: PHYS 220 and MATH 242*

This is an introduction to physics for engineering and science students. Included are mathematical approaches to the study of electricity, magnetism, sound, optics and modern physics. 4 hrs. lecture, 3 hrs. lab/wk.

**Political Science (POLS)**

**POLS 122**  
Political Science (3 CR)  
This course provides students the opportunity to explore the discipline of political science and to discover how political scientists study politics in the contemporary world. 3 hrs. lecture/wk. and online

**POLS 124**  
American National Government (3 CR)  
This course examines the components of the public policy-making process. Topics of study include American political culture, constitutional principles, intergovernmental relations, public opinion, political parties, interest groups, media, the influence of the constant campaign of candidate-centered politics, budget construction, bureaucracy, and decision-making institutions. 3 hrs./wk. and online. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

**POLS 126**  
State and Local Government (3 CR)  
This course examines the executive, legislative, judicial and service functions of
state and local government in the United States in general and in Kansas in particular. The course includes guest lectures by elected officials, government personnel and community activists. 3 hrs./wk. This course is typically offered only once each academic year.

**POLS 132**  
**Introduction to Comparative Government** (3 CR)  
This course compares the different political structures of many of the world's most important countries, including economic development, patterns of government and administration, party structures and policy formation. 3 hrs. wk. This course is typically offered only once each academic year.

**POLS 135**  
**International Relations** (3 CR)  
This course analyzes the conflict and cooperation among nation-states. Students will study contemporary problems and how they relate to power, war, terrorism, diplomacy, international organizations and the future of the nation-state system. 3 hrs./wk. and online

**POLS 200**  
**Model United Nations** (3 CR)  
This course is designed for students who are interested in learning and understanding international organizations and participating in competitive intercollegiate Model United Nations. This course orients students with the history, structure and function of the United Nations and those facets of an assigned country. This orientation will assist students in their preparation for the Model United Nations (MUN) conference during the spring semester. 3 hrs lecture/wk.

**POLS 245**  
**Introduction to Public Administration** (3 CR)  
This course provides students the opportunity to explore public administration and public policy including institutional arrangements for the provision of public services and the study of those arrangements. 3 hrs. lecture/wk.

**POLS 270**  
**Political Science Internship** (3 CR)  
Prerequisite and/or corequisite: By permission of the political science internship coordinator, completion of 6 credit hours in political science courses at JCCC or another college within the last two years, earning a minimum of a 3.0 on a 4.0 scale in those political science courses, and a written recommendation from your political science classroom instructor

Students augment their academic course work with an internship in an appropriate setting under instructional supervision. Internship projects are cooperative efforts between appropriate supervisors in state, local or national government settings or not-for-profit organizations and college staff and students. Internships give students the opportunity to participate in the real-world application of their academic studies. In addition, this synthesis of classroom study with practical experience provides students with skills and insights useful in selecting a career or avocation in community service. The student spends the equivalent of 10 hours per week performing internship duties over the course of the semester or a total of 150 hours.

**Polysomnography/Sleep Tech (PSG)**
PPT 130
Basic Hydraulics, Mechanics and Pneumatics (3 CR)
This introductory course is designed to give a general overview of hydraulic, mechanical and pneumatic principles. Upon successful completion of this course, the student will be able to describe the concepts involved in industrial maintenance of hydraulic, mechanical and pneumatic equipment and identify the major components and their functions. Topics will include hydraulics, pneumatics, rigging, ladders, scaffolds, lubrication, drive belts, vibrations, mechanical drives, alignments, bearings and electricity. This course is appropriate for power plant technology majors or other interested students. 3 hrs. lecture/wk.

PPT 140
Generating Plant Fundamentals (3 CR)
This is an introductory course designed to give a general overview of power plant operations and functions. Upon successful completion of this course, the student will be able to describe the concepts involved in converting energy to electricity through a stream generation power plant and identify the major components and their functions. Topics will include fossil fuels, boilers, turbines, feedwater heaters, ash removal, condensate, power plant controls, and temperature and pressure relationships. This course is appropriate for power plant technology majors or other interested students. 3 hrs. lecture/wk.

PPT 150
Station Power Fundamentals (3 CR)
This course will give students the ability to describe the concepts involved in providing electricity to a power plant. Topics will include electrical concepts, the power grid, switchyards, transformers, critical services, essential services and black-out conditions. This course is appropriate for power plant technology majors or other interested students. 3 hrs. lecture/wk.

PPT 210
Reading Piping & Instrument Diagrams (3 CR)
This course will enable the student to be able to read a set of piping and instrument diagrams (P&IDs) and trace the flow paths of the major systems in a power plant. Topics will include symbols and terminology, the condensate system, the feedwater system, high pressure steam, extraction steam, fuel flow, auxiliary cooling, and lubrication systems. This course is appropriate for power plant technology (PPT) majors or other interested students. 3 hrs. lecture/wk.

PPT 230
Introduction to Water Chemistry & Water Treatment (3 CR)
Prerequisite or corequisite: MATH 171
This introductory course is designed to give a general overview of water chemistry and water treatment in power plants. Upon successful completion of this course, the student should be able to describe the concepts and solve the problems associated with water treatment in boiler operations. Topics will include hydrology, specific gravity of liquids, acids, bases, measurements, cooling towers, clarification, ion exchange and filtration. This course is appropriate for power plant technology majors and other interested students. 3 hrs. lecture/wk.

PPT 250
Intro to Power Plant Combustion and Exhaust (3 CR)
Prerequisite: PPT 140
Upon successful completion of this course, the student should be able to describe the concepts involved in the combustion of fuel for energy generation. Topics will include fuel handling, combustion requirements, combustion control and by-products of combustion. This course is appropriate for power plant technology majors and other interested students, with the permission of the instructor. 3 hrs. lecture/wk.

PPT 251
Introduction to Power Plant Steam and Water Cycle (3 CR)
Prerequisite: PPT 140
Upon successful completion of this course, the student will be able to describe the steam water cycle in a steam generation plant. Topics will include boilers, turbines, feedwater heaters, condensers, cooling towers and auxiliary equipment. Enrollment in the course is limited to power plant technology majors or by permission of the instructor. 3 hrs. lecture/wk.

PPT 271
Power Plant Technology Internship (3 CR)
Prerequisite: Career program facilitator approval required
The internship will provide advanced students with on-the-job experience under the supervision of professionals in the industry. The work will be developed cooperatively with area employees, college staff and each student to provide a variety of actual job experience directly related to the student's career goals. This course is only available to students who have declared a power plant technology major. 20 hrs. on-the-job training/wk., or a minimum of 40 hrs./wk. on the job for summer semester

PPT 280
Power Plant Operations and Process Controls (3 CR)
Prerequisites or corequisites: PPT 250 and PPT 251
Upon successful completion of this course, the student should be able to describe the concepts involved in operating a steam generation power plant and identify the major components and their functions. Topics will include cold start-up, warm start-up, shutdown, normal operations, load changes, safety checks, and power plant controls. This course is designed to integrate and build on previous power plant technology course work. This course is appropriate for power plant technology majors and other interested students with the permission of the instructor. 3 hrs. lecture/wk.

Practical Nursing (AVPN)

AVPN 115
Nursing I (22 CR)
Prerequisites: CNA certification and BIOL 144 and PSYC 130 and MATH 111 and admission to the practical nursing program
Using the nursing process, the student will promote adaptive responses in the client during health and illness. The student will develop a basic understanding of the role of the practical nurse in the health care system and demonstrate the fundamental skills essential to the nursing care of the client. The nursing process will be applied to the care of clients in long-term care, the medical office and the acute-care settings. Basic concepts of gerontology, professional vocational relationships, pharmacology, medical terminology and nutrition will be used in the care of the clients. In-state tuition and fees $1,040 total. Out-of-state tuition and fees $4,450 total. 550 contact hrs. The credit reflected in this course is for transcript reporting, recording and transfer only.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $250 to 550.

**AVPN 117**  
**Nursing II (22 CR)**  
**Prerequisite: AVPN 115**

In Nursing II, the student will continue to explore the practical nurse’s role in assisting clients to meet basic and more complex physiological needs using the nursing process in a variety of health care settings, including acute care, long-term care and mental health facilities. The student will apply concepts of leadership and change and demonstrate the roles of charge nurse, medication nurse, treatment nurse and patient-care nurse in long-term care. The student will promote adaptive responses in the child and family during the child’s illness, pregnancy, labor and delivery, and postpartum and neonatal phases of reproductive processes. The student will explore the adaptive capacity of individuals with emotional stresses and diagnosed mental disorders across the life span. Basic concepts of gerontology, professional vocational relationships, pharmacology, medical terminology and nutrition will be applied in the care delivered. In-state tuition and fees $1075 total. Out-of-state tuition and fees $4,485 total. 550 contact hrs. The credit reflected in this course is for transcript reporting, recording and transfer only.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $250 to 550.

**Psychology (PSYC)**

**PSYC 121**  
**Applied Psychology (3 CR)**

The course will focus on learning how to apply psychological principles in order to better understand one’s own experience (cognitive, behavioral and emotional) and that of other people. This course is not a substitute for Introduction to Psychology and will not meet the prerequisite requirement for advanced psychology courses. 3 hrs./wk.

**PSYC 130**  
**Introduction to Psychology (3 CR)**

This basic introduction to psychology includes the study of biological aspects of behavior, the brain, consciousness, sensation and perception, motivation and emotion, stress, maturation and development, learning and memory, normal and abnormal personality, and social psychology. This course is the prerequisite for all advanced-level psychology courses. PSYC 130 students may enroll in Learning Strategies LS 176, PSYC sections as an optional course. 3 hrs./wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

**PSYC 200**  
**Industrial and Organizational Psychology (3 CR)**  
**Prerequisite: PSYC 130**

The course will examine human behavior and psychological principles in an industrial/personnel context. It will also focus on how organizational factors contribute to individual behavior and how individuals affect groups and organizational functioning. Topics include recruiting, selecting and training personnel; evaluating job performance, work motivation, job satisfaction and other attitudes; leadership; and organization and job design. This course may not be offered every semester. 3 hrs./wk.
PSYC 205
Human Sexuality (3 CR)
Prerequisite: PSYC 130
PSYC 205, Human Sexuality, is a balanced and thoughtful account of what is known about sexuality from various perspectives. A broad and representative survey of research is presented in a number of topical areas. Psychobiology, sexual development during childhood and adolescence, sexual interactions, love relationships and behavior, gender issues, sexual orientation, health issues and diseases, and sexual problems and solutions will be studied. Primary emphasis will be placed on the individual and the couple as a unit of analysis. Class discussions of issues relating to human sexuality will be encouraged. 3 hrs. lecture/wk.

PSYC 210
Methodology in Social Sciences (3 CR)
Prerequisite: PSYC 130 or SOC 122 or ECON 230
This course deals with scientific research methods utilized in the social sciences, especially psychology, sociology, political science and anthropology. The course examines a wide range of data collection methodologies including observation, questionnaire construction, and controlled experimentation. The course will be beneficial for analyzing and evaluating the quality of research findings reported in both the popular and academic press. It will also be useful to those who plan to engage in occupations requiring the use of research methodology. This course may not be offered every semester. PSYC 210 and SOC 210 are the same course. Do not enroll in both. 3 hrs./wk.

PSYC 215
Child Development (3 CR)
Prerequisite: PSYC 130
This course is a comprehensive account of human development from conception through adolescence. The course integrates genetic, biological, physical and anthropological influences with psychological processes and explores determinants of behavior from a genetic and environmental perspective. 3 hrs./wk.

PSYC 218
Human Development (3 CR)
Prerequisite: PSYC 130
This course is a comprehensive account of human psychological and physical development from conception through infancy, childhood, adolescence, adulthood and death. The course integrates genetic, biological, physiological and anthropological influences with the psychological process and explores determinants of development from both hereditary and environmental perspectives. 3 hrs./wk.

PSYC 220
Social Psychology (3 CR)
Prerequisite: PSYC 130
This course is designed to be an undergraduate-level introduction to the psychology of social behavior. It will provide a systematic attempt to understand how the “thought, feeling and behavior of individuals are influenced by the actual, imagined or implied presence of others.” Consideration will be given to such concepts as methodology, attitude and attitude change, aggression, leadership, affiliation and obedience and will introduce conformity. The course is intended to introduce students to critical analysis, application and the mechanical and intellectual challenges of college work. 3 hrs./wk.
PSYC 225
Educational Psychology (3 CR)
Prerequisite: PSYC 130
This course addresses various issues that apply theories of psychology to the educational environment. Topics included in the study of educational psychology include research methodology, theories of human development, principles of learning, the psychology of motivation, theories of intelligence, testing and assessment techniques, and career development. A 20-hour observation in an educational setting is required. This course may not be offered every semester. 3 hrs./wk.

PSYC 230
Personality Theory (3 CR)
Prerequisite: PSYC 130
The general viewpoints of paradigms in psychology will be studied, with emphasis on each system’s contribution to understanding human personality. The assumptions of each system will be critically analyzed using evidence from research and criticisms from philosophy. Usefulness of theories will be presented, and the systems will be compared and contrasted. General theories covered will include psychoanalysis, trait, biological, humanistic, behavioral/social and cognitive. This course is typically offered in the spring semester. 3 hrs./wk.

PSYC 250
Health Psychology (3 CR)
Prerequisite: PSYC 130
This course covers content, methods and theory regarding the interplay between psychological and biological determinants of health and illness and examines how these factors relate to health status. The course focus is on the application of psychological methods, principles of maintenance of health, prevention of disease, treatment of illness, and rehabilitation and recovery from impaired health. It follows an interdisciplinary approach to content and instruction. 3 hrs. lecture/wk.

Radiologic Technology (KRAD)
KRAD 150
Introduction to Radiologic Technology (2 CR)
Introduction to the profession of radiologic technology, including the duties of the radiologic technologist in the health care environment. 1 hr. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KRAD 160
Survey of Radiologic Technology (6 CR)
Prerequisite: Admission to the radiologic technology program
Orientation to the program and clinical responsibilities. Topics related to basic patient interactions, body mechanics, patient transportation, radiographic terminology, radiographic examinations of the chest and abdomen, methods of radiation protection and types of radiographic equipment will be explored. 4.2 hrs. lecture, 6 hrs. clinical/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KRAD 162
Image Processing (2 CR)
Prerequisite: KRAD 160, KRAD 172 and KRAD 173
Materials and factors relating to acquisition, processing, viewing, and storage of radiographs. 1.5 hrs. lecture, 1 hr. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KRAD 165
Patient Care (2 CR)
Prerequisite: KRAD 160
This course will explore patient-health professional interactions, basic patient care and management, medico-legal issues, and medical ethics. 2 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KRAD 170
Radiation Biology and Protection (3 CR)
Prerequisite: KRAD 160 with concurrent enrollment in corresponding semester of clinical training
The principles of radiation biology and techniques used to protect the patient and personnel from the effects of exposure to ionizing radiation. 3 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KRAD 171
Radiographic Exposures I (3 CR)
Prerequisite: Admission to the program
Factors that affect radiographic image formation and determine image quality. 2.5 hrs. lecture, 1 hr. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KRAD 172
Radiographic Positioning I (3 CR)
Prerequisite: KRAD 160 and concurrent enrollment in KRAD 165 and KRAD 173
Anatomy and positioning of the alimentary canal, urinary system, and upper and lower extremities. 2.5 hrs. lecture, 1 hr. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KRAD 173
Clinical Practice I (3 CR)
Prerequisite: KRAD 160 and concurrent enrollment in KRAD 165 and KRAD 172
Performance of patient examination in a clinical setting under the supervision of a radiologic technologist. 16 hrs. clinical/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KRAD 174
Radiographic Exposures II (3 CR)
Prerequisites: KRAD 160, KRAD 171, KRAD 172 and KRAD 173
Quality control of radiographic images. Technic charts, calibration of equipment, standard exposure systems, and factors used for conversion of technics for variables in the exposure system. Special techniques used in producing radiographic images. 2.5 hrs. lecture, 1 hr. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KRAD 175

Clinical Practice II (4 CR)
Prerequisites: KRAD 165, KRAD 172 and KRAD 173 and concurrent enrollment in KRAD 176
Performance of patient examinations in a clinical setting under the supervision of a radiologic technologist. 24 hrs. field study/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KRAD 176

Radiographic Positioning II (3 CR)
Prerequisite: BIOL 140 and KRAD 165, KRAD 172 and KRAD 173 and concurrent enrollment in KRAD 162 and KRAD 175
Anatomy, radiographic positioning, and film critique of pelvis, bony thorax, vertebral column, cranium, and facial bones. 2.5 hrs. lecture, 1 hr. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KRAD 178

Clinical Practice III (4 CR)
Prerequisites: KRAD 175 and KRAD 176
Performance of patient examinations in a clinical setting under the supervision of a radiologic technologist. 20 hrs. clinical/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KRAD 278

Imaging Modalities and Pathology (3 CR)
Prerequisites: KRAD 279, KRAD 280, KRAD 281 and KRAD 285, and concurrent enrollment in KRAD 282
Human disease processes and their relationship to patient examination in the radiology department. Radiographic pathology and imaging modalities. 3 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KRAD 279

Radiographic Positioning III (2 CR)
Prerequisites: KRAD 176 and KRAD 178 and concurrent enrollment in KRAD 280, KRAD 281 and KRAD 285
Anatomy and positioning of the biliary system, mammary glands and temporal bone. Advanced film critique of radiographs of all routine radiographic examinations. 2 hrs. lecture. Course taught at MCC-Penn Valley Community
College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

**KRAD 280**

**Clinical Practice IV (4 CR)**

Prerequisite: KRAD 162, KRAD 176 and KRAD 178, and concurrent enrollment in KRAD 279, KRAD 281 and KRAD 285

Performance of patient examinations in a clinical setting under the supervision of a radiological technologist. 24 hrs. clinical/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

**KRAD 281**

**Radiation Physics (3 CR)**

Prerequisite: PHYS 162 and KRAD 171 each with a minimum grade of "C"

Application of fundamental physics principles relating to energy, electricity, and magnetism and their relevance to the study of x-rays and x-ray equipment. 2.5 hrs. lecture, 1 hr. lab/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

**KRAD 282**

**Clinical Practice V (4 CR)**

Prerequisites: KRAD 279, KRAD 280, KRAD 281 and KRAD 285, each with a minimum grade of "C", and concurrent enrollment in KRAD 278

Performance of patient examinations in a clinical setting under the supervision of a radiological technologist. 24 hrs. clinical/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

**KRAD 283**

**Final Seminar (2 CR)**

Prerequisites: KRAD 174 and KRAD 278 and KRAD 280

Preparation for the National Registry examination. Simulation of American Registry of Radiologic Technologists examination. 2 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

**KRAD 285**

**Special Procedures (2 CR)**

Prerequisites: KRAD 170 and KRAD 171 and KRAD 178, and concurrent enrollment in KRAD 279 and KRAD 280 and KRAD 281

Anatomy, positioning, equipment and special tasks related to performance of special contrast media studies. Vascular, neurological, lymphatic, skeletal, and pulmonary systems. 2 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of radiologic technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.
RRTC 123
Introduction to Conductor Service (4 CR)
Prerequisite: Admission to the JCCC railroad operations program, conductor option

This is an introductory course for the conductor service option within the railroad operations program. Upon successful completion of this course, the student should be able to describe railroad organization and general operations, policies and practices to ensure railroad safety, and the basic responsibilities of conductors. 5 hrs. lecture, demonstration/wk. Selective admission program - see a counselor about special requirements.

RRTC 175
Conductor Mechanical Operation (2 CR)
Prerequisite: Admission to the JCCC's railroad operations program, conductor option, and successful completion of RRTC 123 with a grade of "C" or better

This course covers mechanical operations that relate to conductor service. This is the second course in the conductor option of the railroad operations degree program. Upon successful completion of this course, the student should be able to describe the importance and application of freight care mechanical policies and practices to ensure safe railroad operations. 2.5 hrs. lecture/wk. Selective admission program - see a counselor about special requirements.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $36.

RRTC 261
Conductor Service (2 CR)
Prerequisite: Admission to the JCCC railroad operations program, conductor option, and successful completion of RRTC 175 with a minimum grade of "C"

Upon successful completion of this course, the student should be able to describe and apply railroad organization and general operations, policies and practices to ensure railroad safety and basic responsibilities of conductors. This course includes safety and the general rules with which conductors must comply and teaches the techniques and administrative procedures conductors use on the job to perform safely and effectively. 2.5 hrs. lecture/wk. Selective admission program - see a counselor about special requirements.

RRTC 263
General Code of Operating Rules (4 CR)
Prerequisite: Admission to the JCCC railroad operations program, conductor option, and successful completion of RRTC 261 with a minimum grade of "C"

This is the fourth course in the conductor option for the railroad operations degree program. Conductors must maintain a thorough understanding of the General Code of Operating Rules (GCOR). This course provides an in-depth study of the GCOR. Upon completion of this course, the student should be able to demonstrate abilities to apply the General Code of Operating Rules to safe and efficient train movement and operations. 5 hrs. lecture/wk. Selective admission program - see a counselor about special requirements.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $25.

RRTC 267
Conductor Field Application (4 CR)
Prerequisite: Admission to the JCCC railroad operations program, conductor option, and successful completion of RRTC 263 with a minimum grade of "C"

Upon successful completion of this course, the student will have observed actual operations and be able to apply skills learned in classroom-based instruction to those operations. The student will observe and perform operations under the supervision of experienced conductor mentors in an actual field location. The
student prepares a daily reflective journal of the hands-on (OJT) railyard experience. 1 hr. lecture, 8 hrs on-the-job training/day for 7 days.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100.

**Railroad Dispatcher (RRTD)**

**RRTD 122**
Introduction to Railroad Dispatching (2 CR)
*Prerequisite: Admission to the JCCC railroad operations program, dispatcher option*

Upon successful completion of this course, the student should be able to describe railroad organization and general operations, policies and practices to ensure railroad safety and basic dispatching functions. 2.5 hrs. lecture/wk. Class currently held at Tarrant County Junior College, Ft. Worth, Texas.

**RRTD 271**
Apprentice Railroad Dispatching Training I (6 CR)
*Prerequisite: Admission to the JCCC’s railroad operations program, dispatcher option, and successful completion of RRTD 275 with a minimum grade of “C”*

Upon successful completion of this course, the student should demonstrate abilities to apply the General Code of Operating Rules, maintenance of way operating rules and the train dispatcher’s manual of policies and practices to safe and effective train movement and maintenance operations. This is an intensive course that prepares students to observe actual dispatching operations. 7.5 hrs. lecture/wk. Class currently held at Tarrant County Junior College, Ft. Worth, Texas.

**RRTD 272**
Apprentice Railroad Dispatching Training II (6 CR)
*Prerequisite: Admission to the JCCC railroad operations program, dispatcher option, and successful completion of RRTD 271 with a minimum grade of “C”*

Upon successful completion of this course, students should demonstrate their ability to use centralized traffic control equipment, computerized track warrant control equipment, and management information systems that record and report train movement. Students will also identify and resolve traffic conflicts safely and effectively. This is an intensive course in which students observe, practice and demonstrate rail traffic dispatching functions in a laboratory setting. In addition, the student will spend an additional week observing dispatching-related activities in the field in conjunction with this course. 4.5 hrs. lecture, 3 hrs. lab/wk. Class currently held at Tarrant County Junior College, Ft. Worth, Texas.

**RRTD 275**
Railroad Dispatching Field Observation (3 CR)
*Prerequisite: Admission to the JCCC railroad operations program, dispatcher option, and RRTD 122 with a minimum grade of “C”*

Upon successful completion of this course, the student will have observed actual dispatching operations and should be able to identify major responsibilities. Students will observe operations under the supervision of experienced dispatcher mentors in actual dispatching offices. 1 hr. lecture, minimum 15 hrs. on-the-job training/wk. Class currently held at Tarrant County Junior College, Ft. Worth, Texas.

**RRTD 276**
Railroad Dispatching Field Applications (5 CR)
Prerequisite: Admission to the JCCC’s railroad operations program, dispatcher option, and RRTD 272 with a minimum grade of “C”

Railroad Dispatching Field Applications is a 10-week period in which students will observe and practice operations under the supervision of experienced dispatcher mentors in actual dispatching offices. Upon successful completion of this course, students will be able to apply skills learned in classroom-based dispatching instruction to those operations. Minimum 15 hrs. on-the-job training/wk. Class currently held at Tarrant County Junior College, Ft. Worth, Texas.

**Railroad Electronics (RREL)**

**RREL 144**  
**Introduction to Programmable Logic Controllers (2 CR)**  
*Prerequisite: Approval of the railroad training director and the JCCC program assistant dean*  
This course is an introduction to programmable logic controllers using Allen Bradley PLC-5 processors and is designed for electricians and maintenance personnel. Upon successful completion of this course, the student should be able to identify the components of programmable controllers, configure and set up the controllers for specific operations, write and test basic programs, and apply troubleshooting procedures to locate problems. 1 hr. lecture, 1.5 hrs. lab/wk.

**RREL 172**  
**Programmable Logic Controllers Applications (2 CR)**  
*Prerequisite: Approval of the railroad training director and the JCCC program assistant dean*  
This course is designed for electricians and maintenance personnel. It is intended as an advanced course for people with basic knowledge in programmable logic controllers operation. Allen Bradley PLC-5 family of processors is used for hands-on-training. Upon successful completion of this course, the student should be able to use advanced PLC instructions such as file, block transfer, stack concepts/operations and sequences, and configure and operate a network of processors. 1 hr. lecture, 1.5 hrs. lab/wk.

**RREL 180**  
**Introduction to Railroad Electronics (1 CR)**  
*Prerequisite: Approval of the railroad training administrator and the JCCC program assistant dean*  
This course is designed to meet the needs of railroad electronic maintainers. Upon successful completion of this course, the student should be able to state basic safety procedures in electronics, explain basic principles of electronics, perform basic electronic calculations and use basic electronic tools. 2.5 hrs. lecture, 2.5 hrs. lab/wk.

**RREL 181**  
**Circuit Analysis DC/AC (6 CR)**  
*Prerequisite: RREL 180 and the approval of the railroad training administrator and the JCCC program assistant dean*  
This course is designed to meet the needs of the railroad electronic maintainers. Upon successful completion of this course, the student should be able to identify and use fundamental DC circuit concepts such as Kirchhoff's laws, power and energy formulas, Ohm's Law, Thevenin's Theorem and Norton's Theorem as they apply to resistive circuits. Also upon successful completion of this course, the student should be able to analyze circuits involving resistors, capacitors and inductors driven by time-variant sources. This analysis will involve both time and frequency responses. 3 hrs. lecture, 2 hrs. lab, 3 hrs. alternate deliver/wk.
RREL 182
Semiconductor Devices and Circuits (6 CR)
Prerequisites: RREL 181 and the approval of the railroad training administrator and the JCCC program assistant dean
This course is designed to meet the needs of railroad electronic maintainers. Upon successful completion of this course, the student should be able to describe the characteristics of basic semiconductor devices, explain practical circuits using semiconductor devices and analyze these circuits for DC and AC quantities. 3 hrs. lecture, 2 hrs. lab., 3 hrs. alternate delivery/wk.

RREL 183
Digital Techniques (6 CR)
Prerequisites: RREL 182 and approval of the railroad training administrator and the JCCC program assistant dean
This course is designed to meet the needs of railroad electronic maintainers. Upon successful completion of this course, the student should be able to analyze basic digital circuitry consisting of arrangements of gates and flip-flops using TTL and CMOS integrated circuits, as well as relay logic. This analysis will include the application of elementary Boolean algebra, truth tables and timing diagrams. 3 hrs. lecture, 2 hrs. lab., 3 hrs. alternate delivery/wk.

RREL 284
Electronic Communications (6 CR)
Prerequisites: RREL 183 and approval of the railroad training director and the JCCC program assistant dean
This course is designed to meet the needs of railroad electronic maintainers. Upon successful completion of this course, the student should be able to state the principles of amplitude, frequency, phase and pulse modulation and describe the technologies of transmitters, receivers, antennas, local area networks, wide-area networks and telephone systems. 3 hrs. lecture, 2 hrs. lab, 3 hrs. activity/wk.

RREL 285
Microprocessor Techniques (6 CR)
Prerequisites: RREL 183 and approval of the railroad training director and the JCCC program assistant dean
This course is designed to meet the needs of railroad electronic maintainers. Upon successful completion of this course, the student should be able to analyze and troubleshoot 6800 family microprocessor circuitry as well as microprocessor interface circuitry. 3 hrs. lecture, 2 hrs. lab, 3 hrs. activity/wk.

RREL 286
Applied Microprocessors (2 CR)
Prerequisites: RREL 285 and approval of the railroad training director and the JCCC program assistant dean
This course is designed to provide an introduction to advanced microcomputer concepts and applications. This course is a continuation of topics introduced in the microprocessor course, with specific applications in general-purpose microcomputers (PCs) and dedicated microprocessor-based control systems. Included are hardware and software training in operating systems, peripherals, monitors, processors, storage media, maintenance, diagnostics and troubleshooting. Analog and digital data acquisition and processing, as well as voice digitization and playback, will be demonstrated. Presentations and labs will include incorporation of these functions into a PC, Harmon HLC and the Servo 9000 hot box detector. 1 hr. lecture, 2 hrs. lab/wk.
RRIT 122
Elements of Welding (3 CR)
Prerequisites: Approval of the BNSF manager of engineering and maintenance training and the JCCC program assistant dean
Upon successful completion of this course, the student should be able to cut and weld using oxyacetylene welding (OAW) and oxyfuel (OFC) and shielded metal arc welding (SMAW). The OAW portion will cover puddling with and without filler metal; OFC will cover straight-line cutting, beveling, piercing and gouging. The SMAW portion will cover flat position and will be limited to fillet welds. The student should be able to discuss electrical safety in shielded metal arc welding (SMAW), handle welding cables properly, understand eye hazards, list safe clothing requirements and discuss environmental safety. This knowledge will be evidenced by achieving the specified score on the unit test. 2 hrs. lecture, 3 hrs. lab/wk.

RRIT 123
Basic Welding (3 CR)
Prerequisites: RRIT 122 or approval of the BNSF manager of engineering and maintenance training and the JCCC program assistant dean
Upon successful completion of this course, the student should be able to properly use oxy-fuel cutting (OFC), shielded metal arc welding (SMAW) and air carbon arc cutting (CAC-A) equipment. The SMAW portion of the course will concentrate on 1G and 2F welds with bend tests being performed on selected weldments. 1 hr. lecture, 4 hrs. lab/wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $180 to 400.

RRIT 127
Welding Processes (2 CR)
Prerequisites: Approval of the BNSF training director and the JCCC program assistant dean
Upon successful completion of this course, the student should be able to identify various welding processes used by the railroad and other industries. Standard shop and maintenance welding processes will be taught and demonstrated. Welds will be tested and inspected according to industry standards. 1 hr. lecture, 1.5 hrs. lab/wk.

RRIT 132
Thermite Welding (3 CR)
Prerequisites: Approval of the BNSF manager of engineering and maintenance training and the JCCC program assistant dean
Upon successful completion of this course, the student should be able to produce in a safe manner high-quality, sound thermite welds on standard rail and mismatched rail. This course is intended for people who are employed in the railroad industry. It will include specific in-depth industrial training. Students will be required to make various rail alignments and to grind various new and worn rails. 1 hr. lecture, 4 hrs. lab/wk.

RRIT 136
Rail and Switch Point Repair Welding (3 CR)
Prerequisites: RRIT 123 and approval of the BNSF manager of engineering and maintenance training and the JCCC program assistant dean
Upon successful completion of this course, the student should be able to identify and/or produce in a safe manner high-quality welding repairs and correct welding
techniques to railroad track components to include maintenance, grinding, welding and repairs of switches, track rail ends, track wheel burns, battered welds, rail transition ramp building methods, Pandrol weld on shoulders, proper placement of work piece connections, and approved switch point welding procedures, as specified by the Burlington Northern Santa Fe Railway. This course will involve the study of different welding processes, welding safety, proper grounding techniques, rail heater and metallurgy. The effects of heat in relationship to specific rail steel components will be discussed. Students will be required to experience all appropriate methods and processes including welding, cutting, grinding, straight edging rail steel and preparing switch points for proper mating surface according to current industry standards. Evaluation will be a classroom and laboratory setting. 1 hr. lecture, 4 hrs. lab/wk.

RRIT 137
Structural Welding SMAW (3 CR)
Prerequisites: RRIT 123 and approval of the BNSF manager of engineering and maintenance training and the JCCC program assistant dean
Upon successful completion of this course, the student should be qualified to weld with SMAW according to AWS D1.1.96 code. All welds will be made in the vertical (3G) and overhead (4G) positions. Passing or failing will be determined by the student’s ability to successfully produce welds according to prescribed standards in AWS D1.1.96. 1 hr. lecture, 4 hrs. lab/wk.

RRIT 138
Structural Welding FCAW (3 CR)
Prerequisites: RRIT 137 and approval of the BNSF manager of engineering and maintenance training and the JCCC program assistant dean
Upon successful completion of this course, the student should be qualified to weld with FCAW according to AWS D1.1.96 code. All welding will be made in the vertical (3G and 3F) and overhead (4G and 4F) positions. Passing or failing will be determined by the student’s ability to successfully produce welds according to prescribed standards in AWS D1.1.96. 1 hr. lecture, 4 hrs. lab/wk.

RRIT 139
Structural Welding Pipe (3 CR)
Prerequisites: RRIT 137 and approval of the BNSF manager of engineering and maintenance training and the JCCC program assistant dean
Upon successful completion of this course, the student should be qualified to weld on pipe using the SMAW process. All welding will be made in the vertical uphill fixed position (5G). Passing or failing will be determined by the student’s ability to successfully produce test welds. 1 hr. lecture, 4 hrs. lab/wk.

RRIT 140
Structural Quality SMAW (3 CR)
Prerequisites: RRIT 127 or approval of the BNSF training director and the JCCC program assistant dean
Upon successful completion of this course, the student should be qualified to weld with shielded metal arc welding (SMAW) according to industrial standards. Test welds will be made in the vertical up (3G) positions; limited thickness. Passing or failing will be determined by the student’s ability to successfully produce welds according to prescribed American Welding Society (AWS) standards. The oxyfuel cutting (OFC) portion will include cutting metal to specific sizes and shapes. 1 hr. lecture, 4 hrs. lab/wk.

RRIT 141
Structural Quality GMAW (3 CR)
Prerequisites: RRIT 127 or approval of the BNSF training director and the JCCC program assistant dean

Upon successful completion of this course, the student should be able explain the theory of gas metal arc (GMAW) identify materials and use equipment related to the processes. The student will weld on mild steel plate in all positions producing both fillet and groove welds with the GMAW process with a U-bend test being performed in selected positions according to industry standards. Selected welding codes and specifications will be used as a reference for this class. The oxy-fuel (OFC) will be used to prepare mild steel for welding. 1 hr. lecture, 4 hrs. lab/wk.

RRIT 142
Structural Pile Welding (3 CR)
Prerequisites: RRIT 137 and RRIT 138 and approval of the BNSF manager of engineering and maintenance training and the JCCC program assistant dean

Upon successful completion of this course, the student should be able to splice pipe and H-beam piling and install cap plate gussets according to Burlington Northern Santa Fe (BNSF) standard blueprints. This course shall make use of oxy-fuel cutting (OFC), grinding, shielded metal arc welding (SMAW), and flux cored arc welding (FCAW) to prepare, fit and weld piling. Selected welds will have test strips bent to check for soundness of welds. These strips should meet basic American Welding Society (AWS) test standards. Basic metallurgy will be discussed as it applies to the need for preheat and post heat in the building of railroad bridges. 1 hr. lecture, 4 hrs. lab/wk.

RRIT 143
Thermite Welding for Supervisors (2 CR)
Prerequisites: Approval of the BNSF manager of engineering and maintenance training and the JCCC program assistant dean

Upon successful completion of this course, the student should be able to produce in a safe manner high-quality, sound thermite welds on standard rail and mismatched rail. This course is intended for people who are employed in the railroad industry. This will be specific, in-depth, industrial training. Students will be required to make various rail alignments and grind various new and worn rails. The students should also be able to clean a used crucible, assemble a crucible and temper new and used crucibles. 1.5 hrs. lecture, 1 hr. lab/wk.

RRIT 145
Frog Welding (3 CR)
Prerequisite: RRIT 123 and approval of the BNSF manager of engineering and maintenance training and the JCCC program assistant dean

Upon successful completion of this course, the student should be able to repair by welding a manganese frog casting according to Burlington Northern Santa Fe Railway standards. This course will involve the study of different welding and cutting processes, with emphasis on the FCAW process. Metallurgy and the effects of heat in relationship to austenitic manganese steel will be discussed. Students will be required to cut, grind, straight edge, dye penetrant test, weld and monitor heat input during the repair process on austenitic steel frog casting for evaluation in an actual laboratory setting. 1 hr. lecture, 4 hrs. lab/wk.

RRIT 147
Component Welding for Supervisors (2 CR)
Prerequisites: Approval of the BNSF manager of engineering and maintenance training and the JCCC program assistant dean

Upon successful completion of this course, the student should be able to describe methods and processes used to weld railroad track components. This course will
introduce the student to various types of welding and cutting processes. Metallurgy and the effects of heat on rail steel and manganese frog castings will be discussed. Instructor demonstration and student hands-on experience will be provided regarding welding, cutting and grinding on rail steel, frog castings, carbon arc cutting with air (CAC-A), straight edging, temperature monitoring and dye penetrants on both rail steel and frog castings in an actual laboratory setting. 1.5 hrs. lecture, 1 hr. lab/wk.

RRIT 155
Railroad Welding Review (2 CR)
Prerequisites: Approval of the BNSF manager of engineering and maintenance training and the JCCC program assistant dean
Upon successful completion of this course, the student should be able to identify currently used rail, frogs, switch points, crossings, Conley’s and insulated joint plugs. The student should be able to locate operating procedures in an approved manual and apply them to the appropriate component. In addition, the student should be able to describe the proper application of OFC, OFW, heating, SMAW, FCAW, CAC-A and thermite welding procedures. 1.5 hrs. lecture, 1 hr. lab/wk.

RRIT 156
Rail and Frog Welding Review (3 CR)
Prerequisite: Approval of BNSF manager of engineering maintenance training and the JCCC program assistant dean
Upon successful completion of this course, the student should be able to identify currently used types and sizes of rail, frogs, switch points and insulated joints. The student should be able to locate operation procedures in an approved manual and apply them to the appropriate component. In addition, the student should be able to describe the proper application of oxygen fuel cutting (OFC), oxy-fuel heating, shielded metal arc welding (SMAW), flux core arch welding (FCAW), carbon arc cutting with air (CAC-A), thermite welding (TW) and grinding procedures. 3 hrs. lecture/wk.

RRIT 271
Railroad Welding Internship (6 CR)
Prerequisites: Admission to the JCCC railroad program, welding option, and successful completion of RRIT 122 and RRIT 123 and RRIT 136 and RRIT 145 and RRIT 132 with a minimum grade of "C"
Upon successful completion of this course, the student should be able to apply classroom knowledge to an actual work situation. The internship will provide advanced students with on-the-job experience under the supervision of professionals in the railroad industry. The work will be developed cooperatively with railroads, college staff and each student to provide a variety of actual job experiences directly related to the student’s career goals. Minimum of 120 workdays required.

Railroad Maintenance of Way (RRMW)

RRMW 132
Railroad Structures Layout (3 CR)
Prerequisite: Approval of the railroad training administrator and the JCCC program assistant dean
This is a beginning course for railroad maintenance-of-way personnel working with bridge and building personnel working with bridge and building construction. Students will learn to read construction blueprints used in railroad projects and perform layout work for railroad construction. Also, students will learn how to use basic surveying principles and equipment typically used at railroad construction
RRMW 135
Concrete Technology (2 CR)
Prerequisite: Approval of the railroad training administrator and the JCCC program assistant dean
This course contains information that will help experienced and inexperienced students understand the principles of quality concrete. The emphasis will be on allowing concrete to reach its highest level of durability through proper mix design, placing and finishing techniques, and curing methods. 1.5 hrs. lecture, 1 hr. lab/wk.

Railroad Operations (RRT)

RRT 120
History of Railroading (3 CR)
This course covers the history and traditions of railroading and the industry's role in North American economic development. Upon successful completion of this course, students will be able to list and explain the significance of major events in North American railroading. 3 hrs. lecture/wk.

RRT 121
Railroad Technical Careers (3 CR)
This course includes information about technical careers in railroading, enabling students to choose suitable career paths. This course includes field trips that will demonstrate the relationships among technical work groups in day-to-day railroad operations. Upon successful completion of this course, students should be able to describe basic technical job functions, requirements and characteristics. 3 hrs. lecture/wk.

RRT 150
Railroad Operations (3 CR)
This course includes information about the industry, its major assets, structure and typical operations. Upon successful completion of this course, students will be able to define the current North American railroading industry characteristics, basic operations components and processes, and industry structure and administrative processes. 3 hrs. lecture/wk.

RRT 165
Railroad Safety, Quality and Environment (3 CR)
This course covers the importance of safety, quality, personal health and environmental awareness to the railroad industry and emphasizes the basic tools and techniques for improving these conditions on the job. Upon successful completion of this course, students should be able to define and explain the need for improved safety, quality, health and environmental awareness; describe their basic principles; explain the elements of successful programs; and apply these elements to typical tasks on the job. 3 hrs. lecture/wk.

Railroad Operations-Mechanical (RRTM)
RRTM 124  
Orientation to the Railroad Mechanical Craft (2 CR)  
Prerequisite: Admission to the JCCC railroad operations program, mechanical option  
This course is designed to familiarize the student with work in railroad mechanical crafts. Upon successful completion of the course, students should be able to describe apprenticeship program structures, benefits, organizational goals, basic safety and quality principles, and other aspects of mechanical craftwork. 2.5 hrs. lecture/wk.

RRTM 170  
Railroad Mechanical Safety and Health (2 CR)  
Prerequisite: Admission to the JCCC's railroad operations program, mechanical option, and completion of RRTM 124 with a minimum grade of "C".  
This course is designed to teach the principles and policies governing railroad safety and health. Upon successful completion of this course, the student should be able to describe safety and health rules and policies, including applying a team process to improving safety and health, use and care of personal protective equipment, back injury prevention, hazard communications, lockout/tagout procedures, and hearing conservation. Students will be qualified to perform first aid and CPR and will be able to conduct a job safety analysis. 2.5 hrs. lecture/wk.

RRTM 251  
Locomotive Diesel Engine Fundamentals (2 CR)  
Prerequisite: Admission to the JCCC railroad operations program, mechanical option, and completion of RRTM 124 and RRTM 170 with a minimum grade of "C"  
This course teaches the principles of diesel engine operation. Upon successful completion of this course, students will be able to identify 2-cycle and 4-cycle diesel engine parts and describe how diesel engine lubricating, cooling and fuel systems operate. 1.5 hrs. lecture, 1 hr. lab/wk.

RRTM 253  
Freight Car Fundamentals (2 CR)  
Prerequisite: Admission to the JCCC's railroad operations program, mechanical option, and completion of RRTM 124 and RRTM 170 with a minimum grade of "C"  
This course teaches the basic types and purposes of railroad freight cars. Upon successful completion of this course, students will be able to identify five types of railroad freight cars, explain their functions, describe their basic construction and explain purposes and references for AAR rules and regulations governing freight cars. 1.5 hrs. lecture, 1 hr. lab/wk.

RRTM 254  
Basic Locomotive Electricity and Electronics (2 CR)  
Prerequisite: Admission to the JCCC's railroad operations program, mechanical option and completion of RRTM 124 and RRTM 170 with a minimum grade of "C"  
This course teaches the theory and operation of electrical and electronic circuitry on board modern locomotives and complements EMD and GE electrical systems classes. Upon successful completion of this course, students will be able to describe the theory and purpose of the processes and operation of locomotive electrical system components and maintenance techniques. 1.5 hrs. lecture, 1 hr. lab/wk.

Railroad Work Equipment (RRWE)
RRWE 136
Basic Electronics (2 CR)
Prerequisite: Approval of the railroad training director and the JCCC program assistant dean

This course is an introduction to electronics with a review of basic electrical concepts. Instruction is provided on the operation and use of an oscilloscope, function generator, DC power supply, digital multi-meter and watt-meter. The course also includes an introduction to electronic devices, schematics, basic electronic formulas and programmable logic controllers. 1 hr. lecture, 1.5 hrs. lab/wk.

RRWE 138
Work Equipment Symbols (2 CR)
Prerequisite: Approval of the railroad training administrator and the JCCC program assistant dean

This course is designed to introduce the mechanic to the different types of symbols found on railroad track equipment. Major symbols families that will be discussed include mechanical, hydraulic, pneumatic, ladder and logic devices. At the end of each major topic, several small projects will be assigned to ensure that understanding has been achieved. As a final project, students will be assigned a project that will test their ability to use correctly several different families of symbols in one complete working drawing. 1 1/2 hrs. lecture, 1 hr. lab/wk.

RRWE 146
Hydraulic Principles (2 CR)
Prerequisite: Approval of the railroad training administrator and the JCCC program assistant dean

This course is designed for operators and maintenance personnel who use hydraulic systems in their work. Upon successful completion of this course, the student should be able to apply hydraulic principles to improve operational availability of equipment. Students will learn to read hydraulic diagrams and perform preventive maintenance and troubleshooting. In order to explain component operation, there will be extensive use of cut-away components. 1 hr. lecture, 1.5 hrs. lab/wk.

RRWE 148
Electronic Principles (2 CR)
Prerequisites: Approval of the railroad training administrator and the JCCC program assistant dean

This introductory course is designed to familiarize the student with the basic principles of electricity/electronics, the proper usage of a VOM or DMM, the reading of electrical prints in performing basic troubleshooting and the ability to identify basic hardware found in electrical circuits on maintenance-of-way equipment. 1 hr. lecture, 1.5 hrs. lab/wk.

RRWE 157
Fluid Power Systems (2 CR)
Prerequisite: Approval of the railroad training administrator and the JCCC program assistant dean

This course is designed to introduce the field of fluid power. Major topics that will be discussed include the two types of fluid power systems, major parts in a fluid power system and their purpose, the calculations needed to size motors and cylinders, the proper preventive maintenance procedures needed to keep the system operating at peak efficiency, and the troubleshooting methods used to isolate the problem in a system that is not working correctly. 2 hrs. lecture/wk.
RRWE 190  
Advanced Hydraulic Principles (2 CR)  
Prerequisites: RRWE 146 and the approval of the railroad training administrator and the JCCC program assistant dean  
This advanced course contains information on hydraulic components found on the more complex maintenance-of-way equipment. Upon successful completion of this course, the student should be able to understand symbols, describe the theory of operation of and perform basic troubleshooting tasks on these components. 1 hr. lecture, 1.5 hrs. lab/wk.

RRWE 192  
Advanced Electronic Principles (2 CR)  
Prerequisites: RRWE 146 and the approval of the railroad training administrator and the JCCC program assistant dean  
This advanced course contains information on electronic components and circuits found on the more complex maintenance-of-way equipment. Upon successful completion of this course, the student should be able to understand symbols, describe the theory of operation of and perform basic troubleshooting tasks on these components. 1 hr. lecture, 1.5 hrs. lab/wk.

Reading (RDG)

RDG 125  
Fundamentals of Reading (3 CR)  
Prerequisite: Appropriate assessment score  
This is a mandatory reading course based on JCCC assessment results. It is designed for students who need to improve their understanding of written expression. The focus is on the development of vocabulary, dictionary usage, comprehension and written communication. The next course, RDG 126: Reading Skills Improvement, is also required to complete the mandatory reading program. This course does not fulfill degree requirements. 3 hrs./wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $2 to 5.

RDG 126  
Reading Skills Improvement (3 CR)  
Prerequisite: Appropriate test score or either RDG 125 or EAP 093 and EAP 115  
This is the final mandatory reading course based on JCCC assessment scores. It is designed for students who need to improve their understanding of written expression. The focus of the course is on higher-level comprehension and vocabulary skills. Students use a weekly news magazine to apply and practice skills learned in the class and to provide a background for written assignments. 3 hrs./wk. This course does not fulfill degree requirements.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $2 to 5.

RDG 127  
College Reading Skills (3 CR)  
Prerequisite: RDG 126 or appropriate assessment score  
In this advanced course, designed for students who wish to further improve their reading, students will develop critical reading skills, expand background knowledge through reading, increase vocabulary, develop flexible reading techniques, and improve study and writing skills. Students use selected periodicals to apply and practice skills learned in the class and to provide a background for written assignments and class discussions. 3 hrs./wk.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $2 to 5.
Religion (REL)

REL 120
Exploring World Religions (3 CR)
This course is a comparative study of the world's major religious traditions. The basic beliefs of Hinduism, Buddhism, Confucianism, Daoism, Judaism, Christianity and Islam will be explored. A comparative framework for religious studies will be provided, and essential differences between Eastern and Western religions will be noted. Literary texts and iconographic images will be studied as appropriate. 3 hrs. lecture/wk.

REL 125
Religions of the East (3 CR)
Religions of the East is a detailed examination of the rich and diverse religious traditions of India, Tibet, China and Japan. Students will explore the histories, mutual influences, beliefs, and practices of Hinduism, Buddhism, the Jain religion, the Sikh religion, Confucianism, Daoism, the Tibetan religions, and Shinto, stressing the characteristics they share, as well as those that differentiate them from each other and from Western religions. Primary and secondary texts, as well as the iconographic and artistic traditions of these religions, will be examined as appropriate. 3 hrs. lecture/wk.

REL 126
Religions of the West (3 CR)
Religions of the West is a detailed examination of the rich and diverse religious traditions that originated in the ancient Near East (Judaism, Christianity, Islam), examples of indigenous traditions of Africa and North America, and examples of "alternative religions" of modern/contemporary Western culture. The student will explore the histories, cultural influences, beliefs and practices of these religions, stressing the characteristics that they share and those that differentiate them, both from one another and from the religious traditions of South and East Asian cultures. The primary texts, as well as the iconographic and artistic traditions of these religions, will be examined as appropriate. 3 hrs. lecture/wk.

Respiratory Care (RC)

RC 125
Beginning Principles of Respiratory Care (4 CR)
Prerequisite: Admission to the respiratory care program
This is an introduction to the basic therapeutic modalities used in respiratory care, including patient safety and comfort considerations, infection control and standard precautions, medical gas delivery, humidity and aerosol therapy, basic respiratory pharmacology, secretion clearance techniques and lung expansion therapy. Emphasis is on patient assessment, clinical application of therapies, therapy evaluation and communication techniques. The roles of respiratory care in the health care system and basic respiratory care service scope, organization and operation are also introduced. Students will have the opportunity to work with patients after two to three weeks of introductory lecture and lab demonstration and practice. 6 hrs. lecture, 16 hrs. lab/wk. Summer.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $150 to 250.

RC 130
Respiratory Care Equipment (4 CR)
Prerequisite: Admission to the respiratory care program
This course is an introduction to basic respiratory care equipment. The operation, function, calibration, troubleshooting and maintenance for oxygen administration devices, aerosol generators, humidifiers and hyperinflation devices will be addressed. Medical gas production and storage will also be addressed. 6 hrs. lecture, 8 hrs. lab/wk. Summer

**RC 135**  
**Cardiopulmonary Medicine I (1 CR)**  
*Prerequisite: Admission to the respiratory care program*  
This is the first of three courses that provide a detailed review of the respiratory and cardiac system anatomy and physiology and the clinical implications of normal and abnormal function. 2 hrs./wk. Summer.

**RC 220**  
**Cardiopulmonary Physiology (2 CR)**  
*Prerequisite: Successful completion of the summer sequence of respiratory care courses*  
This is a comprehensive study of the physiology and pathophysiology of the pulmonary, cardiovascular and renal systems as they relate to respiratory care. 2 hrs./wk. Fall.

**RC 230**  
**Clinical Topics and Procedures I (4 CR)**  
*Prerequisite: Successful completion of the summer sequence of respiratory care courses*  
This course supplements the fall clinical experiences. Concepts, techniques and procedures learned in the summer semester are reinforced. The student will develop new understandings and skills in the acute care, basic emergency care and introductory-level critical care settings. Emphasis will be on arterial blood gas procurement and analysis, cardiac rhythm assessment and management, airway equipment and management procedures, patient management of obstructive lung disorders, perioperative care and chest trauma. In addition, basic mechanical ventilation concepts and techniques will be addressed as they relate to physiologic effects, ventilator commitment, management and basic troubleshooting. 3 hrs. lecture, 3 hrs. lab/wk. Fall.

**RC 231**  
**Clinical Topics and Procedures II (4 CR)**  
*Prerequisite: Successful completion of the fall sequence of respiratory care courses*  
This course supplements the spring clinical experiences. Concepts, techniques and procedures learned in the fall semester are reinforced. The student will refine understandings of and skills in the acute care, basic emergency care and critical care settings. Emphasis will be on ventilator management of patients with specific lung insults, neurological compromise and cardiac problems. Advanced mechanical ventilation concepts and techniques will be addressed as they relate to physiologic effects, management and troubleshooting. Home care, pulmonary rehabilitation, physician-assisted procedures, cardiopulmonary stress testing, patient case management and department management will be addressed. 3 hrs. lecture, 3 hrs. lab/wk. Spring.  
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $200 to 600.

**RC 233**  
**Respiratory Care of Children (2 CR)**
Prerequisite: RC 230
The focus will be on the respiratory care of neonatal and pediatric patients, with emphasis on the management of cardiopulmonary disease states unique to children. Information will be based on developmental anatomy and physiology, pathology, diagnostic/laboratory assessments, and associated patient management in the acute, critical, emergency care, transport and home care settings. 2 hrs./wk. Spring.

RC 235
Cardiopulmonary Medicine II (2 CR)
Prerequisite: Successful completion of the summer sequence of respiratory care courses
This is the second in a series of three courses that provide a detailed review of the physical and diagnostic assessments of the cardiopulmonary patient and the related clinical implications of the assessment finding. 2 hrs. lecture/wk. Fall

RC 236
Cardiopulmonary Medicine III (2 CR)
Prerequisite: Successful completion of the fall sequence of respiratory care courses
This is the third in a series of three courses that provide a detailed review of pulmonary disorders, their pathology and their management. 2 hrs. lecture/wk. Spring

RC 240
Cardiopulmonary Pharmacology (2 CR)
Prerequisite: Successful completion of the summer sequence of respiratory care courses
This course acquaints the student with general principles of pharmacology and provides a comprehensive review of all drugs and drug groups that are either administered by respiratory-care practitioners or play an integral part in the management of patients they may encounter. Emphasis is on the clinical application of pharmacological agents, their therapeutic effects, mechanism of action and adverse effects, rather than the biochemistry involved. 2 hrs. lecture/wk. Fall.

RC 271
Clinical Practice I (6 CR)
Prerequisite: Successful completion of the summer sequence of respiratory care courses
This course is the clinical application of respiratory care therapeutic and diagnostic procedures. Students will have the opportunity to work with patients under close supervision to further develop their skill and understanding of basic respiratory care procedures for adults and children. The course objectives progress throughout the semester to involve the student initially in basic care of the less critically ill patient. As their comfort level and exposures progress, students are allowed to work with the more critically ill patients. 24 hrs./wk. Fall.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $100 to 200.

RC 272
Clinical Practice II (6 CR)
Prerequisite: Successful completion of the fall sequence of respiratory care courses
This course is the clinical application of respiratory care therapeutic and diagnostic procedures. Students will have the opportunity to work with patients under close supervision to further develop their skill and understanding of critical respiratory care procedures for adults and children. Students will also be involved in specialty activities to include physician rounds, pulmonary rehabilitation, home care, pulmonary function and cardiopulmonary stress testing. 24 hrs./wk. Spring.

Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $200 to 600.

**Sociology (SOC)**

**SOC 122**
Introduction to Sociology (3 CR)
Introduction to Sociology introduces students to sociology, the "science of society," and its approach to human social life. The course shows students how sociologists conduct research, and it describes the basic concepts and theories sociologists use to explain the social world. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

**SOC 125**
Social Problems (3 CR)
Selected social problems will be analyzed. Problems associated with race, gender, class, deviance, crime and ecology will be examined as perennial issues in contemporary society. In addition, other topics will be analyzed as they arise or as the instructor and students determine them to be significant. The history and development of each problem, as well as possible solutions, will be examined from a variety of perspectives. 3 hrs. lecture/wk.

**SOC 131**
Marriage and the Family (3 CR)
This is a sociological examination of marriage and the family as a social institution. It will emphasize changing roles, family formation, socialization, domestic conflict, interaction among family members and marriage partners, and the role of marriage and the family in society. 3 hrs./wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.

**SOC 146**
Introduction to Social Work and Social Welfare (3 CR)
This course will introduce the student to the profession of social work and to the history and development of social welfare and social service systems in the United States. This is a required introductory course in the sequence of study leading to a professional degree (BSW, MSW or DSW) in social work. 3 hrs./wk.

**SOC 147**
Social Work and Social Justice (3 CR)
The history of social movements in the United States will be integrated into exploration of current economic, political, religious and psychosocial issues, at micro and macro practice levels, relevant to the professional practice of social work at the BSW or MSW level of practice. This course is designed to support the National Association of Social Workers (NASW) Code of Ethics and Council of Social Work Education (CSWE) requirements for culturally competent practice. 3 hrs./wk.
SOC 152  
**Perspectives on Aging** (3 CR)  
Social aspects of aging will be identified. Areas of special interest will include research themes and demographic trends; aging and its relationship to family, the economy, politics, religion and education; the effect of cultural values on behavior; and the future of the elderly. 3 hrs./wk.

SOC 165  
**Chinese Society: Past and Present** (3 CR)  
An introduction to Chinese society since 1949, this course examines Chinese society and culture and focuses on contemporary social change while tracing the historical roots of Chinese culture and institutions. Social processes such as social movements, institutional development, political change, social organization and conflict are examined and analyzed. 3 hrs. lecture/wk. This course is typically offered in the spring semester.

SOC 200  
**Intercultural Applications** (3 CR)  
*Prerequisite or corequisite: SPD 180*  
This course will provide students with direct experience with people from other cultures and in community organizations. Through their work with international representatives and service agencies, students will gain experiential and reflective knowledge of various cultures, social institutions and social issues and will develop skills needed to successfully negotiate intercultural settings. Enrollment in the course requires participation in a weekend retreat and some additional hours in activities outside the classroom. 3 hrs. lecture/wk. This course is typically offered in the spring semester.

SOC 210  
**Methodology in Social Sciences** (3 CR)  
*Prerequisite: PSYC 130 or SOC 122 or ECON 230*  
This course deals with scientific research methods utilized in the social sciences, especially psychology, sociology, political science, and anthropology. The course examines a wide range of data collection methodologies including observation, questionnaire construction, and controlled experimentation. The course will be beneficial for analyzing and evaluating the quality of research findings reported in both the popular and academic press. It will also be useful to those who plan to engage in occupations requiring the use of research methodology. 3 hrs. lecture/wk. SOC 210 and PSYC 210 are the same course. Do not enroll in both.

**Speech/Debate (SPD)**

SPD 120  
**Interpersonal Communication** (3 CR)  
This course focuses on the principles of effective speech communication in small group and one-to-one relationships. Theory and practice of interpersonal communication are studied and applied to a variety of life situations. The course focuses on perception, self-concept, listening, conflict, language, nonverbal communication and culture as they relate to interpersonal relationships. 3 hrs./wk. This course may be offered as a Learning Communities (LCOM) section, see current credit schedule for LCOM details.  
*Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $1 to 5.*

SPD 121
Public Speaking (3 CR)
This course is designed to meet the needs of people who wish to improve their ability to prepare and deliver effective oral presentations before an audience. This fundamental speech course emphasizes creation of ideas, research techniques, outlining, audience analysis, organization and delivery techniques. Students will deliver a variety of speech types including informative and persuasive. 3 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $1 to 5.

SPD 125
Personal Communication (3 CR)
This course is concerned with the most frequently used human communication skills, interpersonal communication and public speaking. The course demonstrates the natural relationships between communicating one-to-one and in public, showing that skills in one can be employed in the other and giving practice in both. Focus is on communication theory, listening, concepts of self, language, research techniques, perception and various types of public speaking, such as impromptu, group panel, informative and persuasive. 3 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $1 to 5.

SPD 128
Business and Professional Speech (3 CR)
Students will improve their verbal communication skills both formally and informally by studying interviewing, delivering effective presentations, working in groups, negotiating, practicing listening, and recognizing verbal and nonverbal messages. The course is designed for the student presently working in business or planning to pursue a business degree. 3 hrs./wk.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $1 to 5.

SPD 130
Elementary Debate (3 CR)
This course is designed for those students interested in participating in competitive intercollegiate debate. Through the course, students will learn debate theory, debate skills and techniques, and methods of becoming successful intercollegiate competitors. Students are expected to travel to tournaments in order to develop skills in research, argument construction, debate format, intercollegiate debate speaking style and refutation. Students enrolling in this course will be required to participate as members of the intercollegiate debate team and will attend an appropriate number of weekend intercollegiate debate tournaments a semester. 3 hrs./wk.

SPD 132
Intermediate Debate I (3 CR)
Prerequisite: SPD 130 or the equivalent
This course is designed for those students interested in participating in competitive intercollegiate debate. Through the course, students will learn debate theory, debate skills and techniques, and methods of becoming successful intercollegiate competitors. Students are expected to travel to tournaments in order to develop skills in research, argument construction, debate format, intercollegiate debate speaking style and refutation. Students enrolling in this course will be required to participate as members of the intercollegiate debate team and will attend an appropriate number of weekend intercollegiate debate tournaments a semester. 3 hrs./wk.

SPD 140
Oral Interpretation of Literature (3 CR)
The student will develop techniques for effective spoken performance of literature.
Using poetry, fiction and nonfiction, students will create literary interpretations and then master both the verbal and nonverbal methods necessary for effective spoken expression of those interpretations. This course includes topics such as selecting literary works for performance, interpretation of literary works, audience analysis and performance. Skills acquired in this course will be essential to actors, broadcast journalists, educators and other public speakers. 3 hrs/wk.

**SPD 141**

**Voice and Speech (3 CR)**

The student will develop techniques to expand breath support, vocal range and dynamics; develop precise articulation; and strengthen the connection between thought and sound. Through the use of exercises to free, develop and strengthen the voice, the student will be better able to communicate the full range of human emotion and all the nuances of thought. Skills acquired in this course are essential for actors, broadcast journalists, educators and other public speakers. 3 hrs/wk.

**SPD 180**

**Intercultural Communication (3 CR)**

The intercultural communication course is concerned with communication theory as it relates to cross-culture interactions. This course utilizes concepts drawn from sociology, psychology, anthropology and communication. Focus is on identifying the cultural bases of beliefs, attitudes, values and behaviors. Objectives include recognizing commonalities across cultures, tolerating ambiguity in a variety of situations, developing a more global multicultural perspective, identifying and appreciating other cultural orientations, and recognizing and assigning cultural explanations to specific behaviors. 3 hrs/wk.

**SPD 230**

**Intermediate Debate II (3 CR)**

*Prerequisite: SPD 132 or the equivalent*

This course is designed for students interested in participating in competitive intercollegiate debate. Through the course, students will learn debate theory, debate skills and techniques, and methods of becoming successful intercollegiate competitors. Students are expected to travel to tournaments in order to develop skills in research, argument construction, debate format, intercollegiate debate speaking style and refutation. Students enrolling in this course will be required to participate as members of the intercollegiate debate team and will attend an appropriate number of weekend intercollegiate debate tournaments a semester. 3 hrs./wk.

**SPD 235**

**Advanced Debate (3 CR)**

*Prerequisite: SPD 230 or the equivalent*

This course is designed for students interested in participating in competitive intercollegiate debate. Through the course, students will learn debate theory, debate skills and techniques, and methods of becoming successful intercollegiate competitors. Students are expected to travel to tournaments in order to develop skills in research, argument construction, debate format, intercollegiate debate speaking style and refutation. Students enrolling in this course will be required to participate as members of the intercollegiate debate team and will attend an appropriate number of weekend intercollegiate debate tournaments a semester. 3 hrs./wk.

**Surgical Technology (KST)**

**KST 100**
Introduction to Surgical Technology (2 CR)
Explores historical aspects of surgery, health care facilities, and organizations. Includes the roles, duties, and responsibilities of the surgical team members. Ethical, legal and moral issues in health care and surgery are addressed. Focuses on effective communication skills, accurate medical terminology, and the impact of transcultural psychosocial outcomes for clients in the surgical setting. 4 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of surgical technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KST 102
Introduction to Fundamentals I (5 CR)
Prerequisite: The student must meet the entrance requirements and be accepted into the surgical technology program.
Applies principles of medical and surgical asepsis. Focuses on preparation of the sterile field, identification of instruments, sutures, supplies and equipment. Emphasis is on basic skills of the surgical technologist in preparation for and during the operative procedure. 6 hrs. lecture, 15 hrs. clinical/wk. Practices maintaining a safe client environment and includes the responsibilities and duties of surgery personnel. Common surgical techniques and procedures. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of surgical technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KST 103
Introduction to Fundamentals II (6 CR)
A description is not available for this course.

KST 104
Body Structure and Function (2 CR)
Prerequisite: Students must meet entrance requirements and must be accepted into the surgical technology program.
Introduces students to the major structures and functions of the human body. Is taught according to body systems. Laboratory time is used to introduce and reinforce classroom instruction. 1 hr. lecture, 1 hr. lab/wk. Course taught at Penn Valley Community College. Students should contact the Penn Valley coordinator of surgical technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KST 105
Pharmacology for the Surgical Technologist (2 CR)
Development of knowledge and understanding of the metric, apothecary, household, and linear systems of measurement. The conversion of equivalents from one system to another. Focus is on terminology associated with pharmacology and procedures for safe and accurate handling of medications and solutions. Included is discussion of principles of anesthesia administration, post-anesthesia client care, and care in emergencies. 2 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of surgical technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KST 106
Microbiology for the Surgical Technologist (3 CR)
Study of structure, function and pathogenicity of micro-organisms, immune and infectious responses. An emphasis is placed on principles of sterilization, disinfecting, environmental sanitation, and practices that promote optimal healing. 3 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of surgical technology about
the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KST 109
Surgical Procedures I (8 CR)
Focus is on the diagnosis, pathology and surgical sequence of general surgery, gynecological surgery, genitourinary surgery and laparoscopic surgery. Included is discussion of postoperative care and complications. 4 hrs. lecture, 12 hrs clinical/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of surgical technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KST 110
Surgical Procedures II (8 CR)
Focus is on diagnosis, pathology and surgical sequence of general surgery, gynecological surgery, genitourinary surgery and laparoscopic surgery. Included is a discussion of postoperative care and complications. 3 hrs. lecture, 12 hrs. clinical/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of surgical technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KST 111
Career Development for the Surgical Technologist (2 CR)
Resume development, interviewing techniques and introduction to the current health care market. Emphasis is on self-evaluation of professional skills and their application to the health care market. 2 hrs. lecture/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of surgical technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

KST 114
Surgical Procedures III (8 CR)
Focus is on diagnosis, pathology and surgical sequence with complex surgical specialties: neurosurgery, cardiovascular and peripheral vascular, thoracic, pediatric, geriatric, trauma and surgery. Included is discussion of postoperative care and complications. 4 hrs. lecture, 9 hrs. clinical/wk. Course taught at MCC-Penn Valley Community College. Students should contact the Penn Valley coordinator of surgical technology about the class meeting times and beginning and ending dates of classes. Call 816-759-4000.

Theater (THEA)

THEA 120
Introduction to Theater (3 CR)
Students will be introduced to a variety of theatrical experiences, read great plays and see live theater presentations. They also will discuss theater practices, dramatic literature and the history of the theater. Includes 12 required shop hours. 3 hrs./wk.

THEA 123
Improvisation for the Theater (2 CR)
Prerequisite: THEA 130
The student will be introduced to theater improvisation, which will emphasize creative stage activities not requiring a written script. Participation in activities of
this course will release and enhance the work of serious acting students and show the students how to approach characterization viscerally rather than intellectually, spontaneously rather than intentionally. 2 hrs. lecture/wk.

THEA 130
Acting I (3 CR)
The fundamentals of acting will be studied in this class. Emphasis will be on discovering and expanding creative potential through exercises in self-awareness, posture, movement, voice and personality projection. Students will complete a minimum of three in-class performances. 3 hrs./wk. plus rehearsals and performances.

THEA 131
Voice and Speech (3 CR)
The student will develop techniques to expand breath support, vocal range and dynamics; learn precise articulation; and strengthen the connection between thought and sound. Through the use of exercises to free, develop and strengthen the voice, the student will be better able to communicate the full range of human emotion and all the nuances of thought. Skills acquired in this course are essential for actors, broadcast journalists, educators and other public speakers. 3 hrs. lecture/wk. This course is typically taught in the fall semester.

THEA 133
Technical Practicum I (1 CR)
Students gain practical experience in technical theater in this course. The student completes the course objectives by working in the theatre department’s productions and/or working in the scene/costume shop during the semester. 2 hrs. lab/wk.

THEA 134
Performance Practicum I (1 CR)
This course will enable students to gain practical experience in performance-related aspects of college theater productions. Admission may be granted upon being cast in a JCCC production. 2 hrs. lab/wk.

THEA 135
Stage Makeup (2 CR)
An introductory course designed to provide an understanding of, and practical skill in, the design and application of makeup for theatrical performance. 1 hr. lecture, 1 hr. lab/wk. This course is typically taught in the spring semester.
Associated Costs: In addition to the course tuition, fees, and textbooks, this course has additional expense considerations that are estimated to be $30 to 60.

THEA 136
Basic Costuming (3 CR)
This is a survey of the theory, techniques and skills used in costume creation for the theater and film. Areas of study and practice include basic construction, patterning and cutting; fabrics, design and realization; millinery; craftwork; and organization. 2 hrs. lecture, 2 hrs. lab/wk. This course is typically taught in the fall semester.
Movement for the Stage (3 CR)
The student will develop techniques to expand kinesthetic awareness, flexibility, physical freedom and the language of movement. Through the use of exercises to free, develop and strengthen physical vocabulary, the student will be better able to communicate the physical life of a character. Skills acquired in this course will include mime, stage combat, commedia, improvisation and circus techniques. 3 hrs. lecture/wk. This course is typically taught in the spring semester.

THEA 138
Oral Interpretation of Literature (3 CR)
The student will develop techniques for effective spoken performance of literature. Using poetry, fiction and nonfiction, students will create literary interpretations and then master both the verbal and nonverbal methods necessary for effective spoken expression of those interpretations. This course includes topics such as selecting literary works for performance, interpretation of literary works, audience analysis and performance. Skills acquired in this course will be essential to actors, broadcast journalists, educators and other public speakers. 3 hrs. lecture/wk. This course is typically taught in the fall semester.

THEA 140
Basic Stagecraft (3 CR)
This course introduces the general student and theater major to basic stagecraft. Through lectures, in-class demonstrations and hands-on experiences, the student will gain a working and appreciative knowledge of technical theater. The course includes 15 lab hours and attendance at two live theatrical productions. 2 hrs. lecture, 2 hrs. lab/wk. This course is typically offered in the fall semester.

THEA 145
Introduction to Theater Design (3 CR)
This lecture and studio class introduces the theory and practice of theater design and the graphics and standards of entertainment technology. Emphasis will be on the processes and practices used in designing for the performing arts. Using course-taught computer and hand-based drawing techniques, the student will create a portfolio of his or her work through in-class projects. 2 hrs. lecture, 2 hrs. lab/wk. This course is typically offered in the spring semester.

THEA 209
Script Analysis (3 CR)
Script Analysis introduces students to those methods used in the theater for the study and/or analysis of plays. Directors, actors and designers use script analysis during their preparatory work and then continue to use it through the rehearsal process until, and sometimes even after, the production has finished. This course is of value to the student because it focuses on the crucial elements of a play encountered during the production process including dramatic structure, content and meaning. 3 hrs. lecture/wk. This course is typically offered in the fall semester only.

THEA 225
Reader’s Theater (3 CR)
Students will combine acting, interpretation and rhetoric as they analyze and perform poetry, prose and dramatic literature and present public performances. Through the process of reading, studying, investing, rehearsing and performing literary and nonliterary works, the student will learn to pay particular attention to the voice embodied in a given text and the cultural and social context within which that voice speaks. 3 hrs./wk. plus rehearsals. This course is typically taught in the
THEA 230
Acting II (3 CR)
Prerequisite: THEA 130
This continuation of Acting I will focus on more in-depth character analysis and development, emphasizing the actor’s responsibility in creating the character. 3 hrs./wk. plus rehearsals and performances.

THEA 233
Technical Practicum II (1 CR)
Prerequisite: THEA 133
Students gain practical experience in technical theater in this course. The student completes the course objectives by working on the theatre department’s productions and/or working in the scene/costume shop during the semester. 4 hrs.lab/wk.

THEA 234
Performance Practicum II (1 CR)
Prerequisite: THEA 134
This course will enable students to gain further practical experience in the performance-related aspects of college theater productions. Admission may be granted upon being cast in a JCCC production. 2 hrs.lab/wk.

THEA 235
Technical Practicum III (2 CR)
Prerequisite: Permission of the instructor
Students will gain professional technical theater experience in this course by working as an apprentice for the theater department and an outside professional performing arts agency. While on campus and/or on location, students will build and install a stage and/or scenery as they work alongside theater professionals to execute theatrical productions. 4 hrs. lab/wk. This course is offered in summer only; permission from instructor is required to enroll.

THEA 240
Costuming (1 CR)
A 16-week course designed to introduce basic techniques in costume design and research and to provide an overview of the scope and impact of costume as a technical and artistic aspect of theater and film. 1 hr. lecture, 1 hr. lab/wk. This course is typically taught in the spring semester.

THEA 275
Selected Topics in Theatre I (3 CR)
Prerequisite: Permission of instructor
This course periodically offers specialized or advanced discipline-specific content related to performance, not normally taught in the curriculum, to interested and qualified students within the program. 3 hrs. lecture/wk.

Veterinary Technology (KSAH)
KSAH 100

Introduction to Veterinary Technology (2 CR)
Orientation to career opportunities available in veterinary technology. Professional ethics, public relations and the psychological adjustment of the student in terms of understanding the need for physical treatment and care of animals. Client relations, vaccination programs, regulatory organizations, receptionist duties, breeds and breed characteristics neutering, puppy care, diets and hospital management. 2 hrs. lecture/wk. Course taught at MCC-Maple Woods Community College. Students should contact the Maple Woods coordinator of veterinary technology about the class meeting times and beginning and ending dates of classes. Call 816-437-3000.

KSAH 101

Principles of Animal Science I (3 CR)
Principles of handling, housing and management of animals. Basic dietary and sanitation requirements. Restraint and handling, administration of medications, bathing, skin scraping, and basic laboratory tests. Emphasis on animal physiology including the cell, muscle, nervous, respiratory and cardiovascular systems. Introduction to anesthesia and general animal nursing. 2 hrs. lecture, 2 hrs. lab/wk. Course taught at MCC-Maple Woods Community College. Students should contact the Maple Woods coordinator of veterinary technology about the class meeting times and beginning and ending dates of classes. Call 816-437-3000.

KSAH 108

Clinical Mathematics for Veterinary Technicians (1 CR)
The metric system and conversion of units; apothecaries' equivalents and vocabulary; preparation of solutions -- strengths, procedures and computations; and drug administration -- calculating and measuring dosages -- will be covered. 1 hr./wk. Course taught at Maple Woods Community College. Students should contact the Maple Woods coordinator of veterinary technology about the class meeting times and beginning and ending dates of classes. Call 816-437-3000.

KSAH 110

Principles of Animal Science II (3 CR)
Prerequisite: KSAH 101
Anesthesia and the physiology of the digestive, urinary, endocrine and reproductive systems. Blood and specimen collection, basic bandaging and introduction to surgical preparation and radiographic processing. 2 hrs. lecture, 2 hrs. lab/wk. Course taught at MCC-Maple Woods Community College. Students should contact the Maple Woods coordinator of veterinary technology about the class meeting times and beginning and ending dates of classes. Call 816-437-3000.

KSAH 111

Sanitation and Animal Care (2 CR)
Introduction to microorganisms, sanitation, disinfectants, sterilization and Zoonotic diseases and public health problems. Introduction to parasitology, vermin control, specimen preservation, instrument identification, cleaning and sterilization, and sanitary procedures in patient care. 1 hr. lecture, 2 hrs. lab/wk. Course taught at MCC-Maple Woods Community College. Students should contact the Maple Woods coordinator of veterinary technology about the class meeting times and beginning and ending dates of classes. Call 816-437-3000.

KSAH 200

Veterinary Hospital Technology I (3 CR)
Prerequisite: KSAH 101 and KSAH 110
Administration of anesthetics and surgical assisting, bandaging, casting, blood
KSAH 201
Clinical Pathology Techniques I (4 CR)
Introduction to laboratory procedures including preparation of blood smears, cell identification, fecal analysis and parasitology. Urinalysis and urine sediment valuation, 1 hr. lecture, 6 hrs. lab. Course taught at MCC-Maple Woods Community College. Students should contact the Maple Woods coordinator of veterinary technology about the class meeting times and beginning and ending dates of classes. Call 816-437-3000.

KSAH 202
Veterinary Anatomy (5 CR)
Prerequisite: BIOL 101 (Maple Woods) or BIOL 127 and KSAH 101 and 110
Basic principles of anatomy using a systemic approach. Physiology as it relates to anatomy and applicable pathology involving the animal body systems. Comparison of the animal species using the cat for dissection. 3 hrs. lecture, 4 hrs. lab/wk. Course taught at MCC-Maple Woods Community College. Students should contact the Maple Woods coordinator of veterinary technology about the class meeting times and beginning and ending dates of classes. Call 816-437-3000.

KSAH 203
Laboratory Animal Technology (2 CR)
Prerequisites: KSAH 101, KSAH 110 and KSAH 201
Restraint and handling of laboratory animals and birds. Blood collection, restraint, identification, medicating, anesthesia and specimen collection. Technical skills for laboratory animal research. 1 hr. lecture, 2 hrs. lab/wk. Course taught at MCC-Maple Woods Community College. Students should contact the Maple Woods coordinator of veterinary technology about the class meeting times and beginning and ending dates of classes. Call 816-437-3000.

KSAH 209
Equine Medicine and Management (3 CR)
Prerequisite: KSAH 212
Breeds and types of horses and their use. A study of conformation as it relates to soundness, horse psychology, fitting, conditioning, first aid and restraint. Parasites and their control, farm management for safety, nutrition, mare care, breeding, foaling, hoof soundness, equine diseases and their prevention. Laboratory procedures. 2 hrs. lecture, 2 hrs. lab/wk. Course taught at MCC-Maple Woods Community College. Students should contact the Maple Woods coordinator of veterinary technology about the class meeting times and beginning and ending dates of classes. Call 816-437-3000.

KSAH 210
Veterinary Hospital Technology II (3 CR)
Prerequisite: KSAH 200
Introduction of anesthetics, surgical assisting, bandaging, casting, blood transfusions, surgical preparations and postoperative care. Administration of parenteral fluid and emergency treatments. Introduction to ophthalmology and dermatology, 1 hrs. lecture, 4 hrs. lab/wk. Course taught at MCC-Maple Woods Community College. Students should contact the Maple Woods coordinator of
veterinary technology about the class meeting times and beginning and ending dates of classes. Call 816-437-3000.

KSAH 211

Clinical Pathology Techniques II (5 CR)

Prerequisite: KSAH 201

Theory and performance in hematologic, urinalysis, clinical chemistry and parasitology. Introduction to simple immunologic tests, blood coagulation tests, and bone marrow evaluation. Emphasis on hematology and hemoparasites. 2 hrs. lecture, 6 hrs. lab/wk. Course taught at MCC-Maple Woods Community College. Students should contact the Maple Woods coordinator of veterinary technology about the class meeting times and beginning and ending dates of classes. Call 816-437-3000.

KSAH 212

Large Animal Technology (4 CR)

Prerequisites: KSAH 101 and KSAH 110

Techniques necessary to assist the veterinarian in a large animal or mixed practice and in research facilities. Bovine, porcine, ovine and caprine medicine and management, including restraint, blood collection, medicating and nursing techniques. 2 hrs. lecture, 4 hrs. lab/wk. Course taught at MCC-Maple Woods Community College. Students should contact the Maple Woods coordinator of veterinary technology about the class meeting times and beginning and ending dates of classes. Call 816-437-3000.

KSAH 213

Radiology and Electronic Procedures (2 CR)

Intensive study and practice in radiological techniques, radiographic exposure techniques, film processing, contrast radiography and machine electronics. 1 hr. lecture, 2 hrs. lab/wk. Course taught at MCC-Maple Woods Community College. Students should contact the Maple Woods coordinator of veterinary technology about the class meeting times and beginning and ending dates of classes. Call 816-437-3000.

KSAH 214

Veterinary Technician Internship (6 CR)

Prerequisite: Two semesters of first-year veterinary technology courses

Supervised intensive clinical study under the direction of a cooperating veterinarian to provide 420 hours of actual work experience. 40 hrs. field study/wk. Course taught at MCC-Maple Woods Community College. Students should contact the Maple Woods coordinator of veterinary technology about the class meeting times and beginning and ending dates of classes. Call 816-437-3000.

Women and Gender Studies (WGS)

Continuing Education Certificate Programs

Continuing education class schedules are available from the continuing education class search open and closed class list.

A+, Certificate in

Access Specialist Certificate
Adobe Graphics and Design

Audio Recording Engineering, Certificate in

Complementary and Alternative Medicine, Certificate in

End of Life Care, Certificate

Excel Specialist Certificate

Gerontology, Certificate in

Intensive English Program

Macromedia Web Design, Certificate in

Therapeutic Massage Certificate
A+, Certificate in

Start your IT training off in the right direction. Build a solid foundation with our A+ Essentials and A+ IT Technician classes as you start your IT career. Mapped toward both of CompTIA’s A+ exams, this series will help prepare you for the industry recognized A+ certification. The exam vouchers alone have a $290 value. Prerequisite: Knowledge of Windows operating system and basic computer hardware.
See individual classes for detailed descriptions and outlines.

Required Courses

XCM 8252  A+ IT Technician: 220-602
XCM 8255  A+ Essentials: 220-601
XCM 8251  A+ Certificate Series

Access Specialist Certificate

Receive instruction in our complete lineup of Access classes. Build a solid foundation with Access Fundamentals and Access Intermediate before moving on to more advanced topics in Access Advanced. Once completed, either take the MOS exam at participating Prometric testing centers or use your center for Business Access Specialist Certificate to verify your competency. 21 classroom hours.
Prerequisite: Knowledge of Windows OS, ability to use keyboard and mouse with proficiency and a basic knowledge of database use.
See individual classes for detailed descriptions and outlines.

Required Courses:

XCM 4220  Access Fundamentals
XCM 4225  Access Intermediate
XCM 4230  Access Advanced
XCM 4219  Access Certificate Series

Adobe Graphics and Design

See individual classes for detailed descriptions and outlines.

Required Courses:

XCM 1584  Adobe Graphics and Design Series
XCM 4000  Adobe PhotoShop Fundamentals
XCM 4002  Adobe PhotoShop Advanced
XCM 1586  Adobe GoLive Fundamentals
XCM 1587  Adobe GoLive Advanced
XCM 1588  Adobe InDesign Fundamentals
XCM 1589  Adobe InDesign Advanced
XCM 1585  Adobe Acrobat Fundamentals
XCM 4100  Adobe Illustrator Fundamentals
XCM 4102  Adobe Illustrator Advanced
XCM 1583  Adobe Acrobat Advanced

Audio Recording Engineering, Certificate in
If you are interested in a studio career, JCCC’s Audio Recording Engineering Certificate Program provides a focused two-year education. All recording classes are taught by experienced, working audio professionals. A superior audio teaching environment includes a professional recording studio, and state-of-the-art facilities on the JCCC campus.

The certificate program encompasses a two-year sequence with 1,376 contact hours of required work in recording and music. Curriculum is designed to prepare you for jobs in the field of commercial music, particularly in the areas of audio recording; computerized music systems; sound reinforcement; audio and audio/video production. After completing the program, you will be prepared for audio work in recording and/or video studios, radio/TV stations, corporate audio/video departments, and sound reinforcement/recording for theater, conventions, music concerts, and other live performance situations.

Semester 1

XRE 1008 Introduction to the Recording Studio........128*
XRE 1015 MIDI in the Recording Studio....................64*
XRE 1010 Music Fundamentals & the Keyboard I........64*
XRE 1016 Music Styles & Recording Analysis I........64* 
or
XRE 1017 Music Styles & Recording Analysis II.......64*

Semester 2

XRE 1003 Recording Studio Skills II......................128*

Complementary and Alternative Medicine, Certificate in

The certificate in complementary and alternative medicine is designed to provide a multidisciplinary educational experience. Those wishing to become knowledgeable, skilled and committed health care professionals in the field of complementary and alternative medicine should achieve certification.

- The program requires 27 contact hours.
- Students must register with JCCC and then complete the online orientation at www.ed2go.com/jccc.
- ALLEGRA Learning Solutions, LLC, is accredited as a provider of continuing education in nursing by the American Nurses Credentialing Center’s Commission on Accreditation.
- The program meets the qualifications for the stated hours of continuing education credit for MFTs and/or LCSWs as required by the California Board of Behavioral Sciences.
- The program is provider approved by the California Board of Registered Nursing, Provider #CEP12385, for the stated number of contact hours.
- The certificate program must be completed within six weeks of the start date.

Required Courses:

XNH 1650  Certificate in Complementary and Alternative Medicine

End of Life Care, Certificate

The U.S. population is aging at a rapid rate, and the number of individuals, young and old, who are living with debilitating, chronic or terminal illnesses, is also increasing. The demand for knowledgeable providers to meet the needs of this population is dramatically increasing, new jobs are being developed, and new services created. If you are a health professional who works with this population, this program will provide you with continuing professional education to help you gain a broad understanding of this special area of care and stay current with emerging trends. 26 contact hours

Note: Students must register with JCCC then complete the online orientation at www.ed2go.com/jccc. This program is accredited through ALLEGRA Learning Solutions, LLC, and accredited provider of continuing education in nursing by the American Nurses Credentialing Center’s Commission on Accreditation.

Required Courses:

XNH 1770  Certificate in End of Life Care

Excel Specialist Certificate

Receive instruction in our complete lineup of Excel classes. Build a solid foundation with Excel Fundamentals and Excel Intermediate before moving on to more advanced topics in Excel Advanced. Once completed, either take the MOS exam at our Prometric testing center or use your Center for Business Excel Specialist Certificate to verify your competency. Prerequisite: Knowledge of Windows, keyboard and mouse.

See individual classes for detailed descriptions and outlines.
Required Courses:
XCM 3405 Excel Fundamentals
XCM 3406 Excel Intermediate
XCM 3407 Excel Advanced
XCM 3404 Excel Specialist Certificate – 2003

Gerontology, Certificate in

Offered completely online, the certificate in gerontology represents a specialization in the field of gerontology. Divided into individual courses, the program provides 26 hours of instruction designed to enhance the knowledge and skills of individuals who work with adults by providing an educational experience that is multidisciplinary in nature.

- Students must register with JCCC and then complete the online orientation at www.ed2go.com/jccc.
- The program is accredited through ALLEGRA Learning Solutions, LLC, an accredited provider of continuing education in nursing by the American Nurses Credentialing Center’s Commission on Accreditation.
- This program also meets the qualifications for the stated hours of continuing education credit for MFTs and/or LCSWs as required by the California Board of Behavioral Sciences.
- The program is provider approved by the California Board of Registered Nursing, Provider #CEP 12385, for the stated number of contact hours.
- The certificate program must be completed within six weeks of the start date.

The four core courses:
Introduction to Gerontology
Physiology of Aging
Mental Health and Aging
Healthy Aging

Elective Courses (complete any four):
Spirituality and Aging
Pain Assessment and Management in the Older Adult
Death and Dying
Sleep and Aging
The Older Woman
Elder Abuse

Required Courses:
XNH 1560 Certificate in Gerontology

Intensive English Program

Since 1997, the IEP has served English language (ESL) learners who want to improve and strengthen their English proficiency and cultural understanding for academic, career-enhancing, or personal reasons.

Curriculum and activities include:

- Beginning, intermediate and advanced-level oral communication, pronunciation, reading, writing, structure and vocabulary skills courses.
- A minimum of 18 hours of instruction a week for full-time students during the fall and spring.
Macromedia Web Design, Certificate in

Combine the following classes: HTML and Web Page Design, Cascading Style Sheets, Dreamweaver: Designing Websites, Dreamweaver: Database Connections, Fireworks: Web Graphics and Interactivity, Flash Fundamentals, Flash: Interactive Movies and Flash: Advanced Techniques in one easy-to-follow schedule at a special, reduced price. Everything you need to know to become Web-design proficient. This course series is eligible for a payment plan.

Prerequisite: Knowledge and experience with Windows OS and the internet.

See individual classes for detailed descriptions and outlines.

Required Courses:

- XCM 9540 HTML and Web Page Design
- XCM 9525 Cascading Style Sheets
- XCM 9463 Dreamweaver: Designing and Developing Websites
- XCM 4152 Fireworks: Web graphics and Interactivity
- XCM 9470 Flash Fundamentals
- XCM 9477 Flash, Interactive Movies
- XCM 9469 Dreamweaver: Database Connections
- XCM 9478 Flash: Advanced Techniques
- XCM 1605 Macromedia Web Design Certificate Series

Medical Coding Certification

Medical coding certification is

- designed for medical office professionals.
- a 16-week program offered each fall and spring.

Individuals who complete the course may choose to apply to sit for the national certification examination offered by the American Academy of Professional Coders. The exam application is made individually. Course completion does not guarantee you will pass the examination.

This comprehensive course is based on the Professional Medical Coding Student Workbook with information on medical terminology, anatomy and coding issues.
related to CPT and ICD-9-CM coding. Copies of the current CPT, ICD-9-CM and HCPCS are the required textbooks.

Required Courses:
Prerequisite Courses (must take one or have equivalent):

- XNH 1550 Medical Terminology
- XNC 2413 Demystifying Medical Terminology

Additional Required Course:
- XNC 2430 Medical Coding Certification

Microsoft Certified Desktop Support Technician

Combine both parts of the MCDST certification into one affordable price. If you are looking to gain entry into the IT arena, this is the perfect follow-up to your A+ Certification. Exam vouchers included. Prerequisite: A+ Certification, detailed knowledge of the MS Office application suite, MOS Certification highly recommended.

See individual classes for detailed descriptions and outlines.

Required Courses

- XCM 8372 MS Certified Desktop Support: Windows OS
- XCM 8373 MC70-272 Certified Desktop Support: Applications

Microsoft Certified Systems Administrator

Combine 70-290: Managing and Maintaining a Microsoft Windows Server 2003 Environment, 70-291: Implementing, Managing, and Maintaining a Microsoft Windows Server 2003 Network Infrastructure, 70-270: Installing, Configuring, and Administering Microsoft Windows XP Professional, and our Security+ Certification Series class at one low cost. One week a month for four months to your MCSA. Prerequisite: A+ Certification, Network+ Certification, or equivalent knowledge.

See individual classes for detailed descriptions and outlines.

Required Courses

- XCM 8291 Security + Certification Series
- XCM 8315 Install, Configure & Administer Win XP Professional
- XCM 8395 Manage & Maintain Win Server 2003 Environment
- XCM 8375 Implement, Manage & Maintain Win Network Server
- XCM 8275 MCSA Certification Series

Microsoft Certified Technical Specialist: SQL 2005

Combine our Implementing and Maintaining SQL Server 2005 classes as you work toward one of Microsoft’s newest certifications: 70-431 MCTS: SQL Server 2005 Implementation and Maintenance. Prerequisite: Knowledge of relational databases and database design.

See individual classes for detailed descriptions and outlines.
Required Courses

XCM 8832 SQL: Implementing SQL Server 2005
XCM 8833 SQL: Maintaining SQL Server 2005
XCM 8831 MCSA:Implementing and Maintaining SQL Server 2005

Network+, Certificate in

Combine our Networking Fundamentals class with our Network+ Test Prep CD in a package which will prepare you for CompTIA's Network+ certification. We will include an exam voucher, a $207 value. Prerequisites: A+ Certification or comparable knowledge.
See individual classes for detailed descriptions and outlines.

Required Courses:
XCM 8305 Networking Fundamentals
XCM 8262 Network+ Certification Series

Oracle DBA Associate, Certificate in

Receive the Oracle PL/SQL Fundamentals and Advanced courses with the Oracle DBA I Fundamentals and Advanced courses at a significant discount. For the student who wants a complete package of Oracle Database instruction. 56 classroom hours.
See individual classes for detailed descriptions and outlines.

Required Courses
XCM 8501 Oracle PL/SQL Fundamentals
XCM 8502 Oracle PL/SQL Advanced
XCM 8512 Oracle DBA I Fundamentals
XCM 8514 Oracle DBA I Advanced

Oracle DBA Professional, Certificate in

Receive instruction in Oracle DBA II Fundamentals and Advanced, mapped toward Oracle exam #1Z0-032, and Oracle DBA Performance Tuning Fundamentals and Advanced, mapped toward Oracle exam #1Z0-033 at a significant discount. For the student looking to delve deeper into Oracle or seeking the Oracle DBA Professional certification. 56 classroom hours.
See individual classes for detailed descriptions and outlines.

Required Courses
XCM 8515 Oracle Performance Tuning Fundamentals
XCM 8516 Oracle Performance Tuning Advanced
XCM 8517 Oracle DBA II Fundamentals
XCM 8518 Oracle DBA II Advanced

Powerpoint Specialist Certificate

Receive instruction in our complete lineup of PowerPoint classes. Build a solid foundation with PowerPoint Fundamentals before moving on to more advanced topics in PowerPoint Advanced and PowerPoint with Producer. Once completed, either take the MOS exam at our Prometric testing center or use your Center for Business PowerPoint Certificate to verify your competency. Prerequisite: Proficiency with Windows, keyboard and mouse.
See individual classes for detailed descriptions and outlines.

Required Courses
- XCM 5505 Powerpoint Fundamentals
- XCM 5510 Powerpoint Advanced
- XCM 5507 Powerpoint with Producer
- XCM 5508 Powerpoint Certification Series

Project Management Certificate
The Center’s Project Management Certificate program can help you generate real results and provide the most reliable and respected path to maintaining an understanding about that ever-shifting professional landscape.

Required Courses:
- XCM 8927 Project Management Essentials
- XCM 8928 Estimating and Managing Project Costs
- XCM 8931 Effective Project Scheduling and Control
- XCM 8929 Project Risk Management
- XCM 8934 Project Quality Management
- XCM 8933 Project Leadership and Team Motivation
- XCM 8935 Project Management Workshop

Electives:
- XCM 8932 Effective Communication for Project Managers
- XCM 8937 Performance Management
- XCM 8938 Software Testing

Security+ Certificate
Combine our Security+ class with our Security+ Test Prep CD in a package which will prepare you for CompTIA’s Security+ certification. We will include an exam voucher, a $207 value, to make this an even greater deal. Prerequisite: A+ certification, Network+ certification or equivalent knowledge.

See individual classes for detailed descriptions and outlines.

Required Courses:
- XCM 8291 Security+ Certification Series

Spirituality, Health, Healing
The certificate in spirituality, health and healing presents a broad understanding of spirituality, health and healing. Health care professionals will stay current with emerging trends.
- The program requires 21 contact hours.
- Students must register with JCCC and then complete the online orientation at www.ed2go.com/jccc.
- ALLEGRA Learning Solutions, LLC, is accredited as a provider of continuing education in nursing by the American Nurses Credentialing Center’s Commission on Accreditation.
- This course meets the qualifications for the stated hours of continuing education credit for MFTs and/or LCSWs as required by the California Board of Behavioral Sciences.
- The program is provider approved by the California Board of Registered Nursing, Provider #CEP 12385, for the stated number of contact hours.
The certificate program must be completed within six weeks of the start date.

Required Courses:
XNH 1645  Certificate in Spirituality, Health and Healing

Therapeutic Massage Certificate

The Therapeutic Massage Certification Program offers quality instruction and clinical experiences to prepare students to become skilled and ethical massage practitioners.

This program was developed to meet the 500-hour Massage Therapist II licensure requirement set by the City of Overland Park, Kansas ordinances. It is administered through the Center for Business and Technology, a division of the Continuing Education/Community Services branch of Johnson County Community College.

Clinics and most classes are held at West Park Center, one of JCCC’s satellite locations, at 9780 West 87th Street (87th and Farley) in Overland Park, Kansas.

Required Courses:

Prerequisite Course:
BIOL 144  Anatomy and Physiology.................................5

Courses:
XNM 5000  Introduction to Bodywork (Module I)
XNM 5010  Kinesiology
XNM 5050  Pathology
XNM 5021  First Aid/CPR
XNM 5075  Professional Business Practices I
XNM 5030  Communicable Diseases
XNM 5040  Clinical Bodywork (Module II)
XNM 5060  Hydrotherapy
XNM 5091  Bodywork Clinics I
XNM 5070  Clinical Bodywork (Module II)
XNM 5080  Professional Business Practices II
XNM 5092  Bodywork Clinics II

Orientation to Literacy Volunteering
If you’re interested in working as a literacy volunteer or as a General Educational Development (GED) or English as a Second Language tutor in the Project Finish Program, this orientation session is for you. Handout material will be provided. No fee. (1 session)

XGE 5001
GED Test Preparation
This online course will help refine your reading and thinking skills necessary to be successful in five areas tested on the GED exam: Language Arts/Reading, Language Arts/Writing, Social Studies, Science, and Mathematics. After completion of this course, you should be well-equipped to pass the GED practice test followed by the GED examination.

XGE 5002
GED Language Arts and Writing Test Preparation
This in-depth online course will give you the skills and knowledge you need to successfully prepare for the GED Language Arts, Writing test. Learn the basics of
usage and mechanics so you can edit the passages on the multiple-choice part of the exam. Then, you'll learn a step-by-step approach to writing that will give you the confidence you need to write a winning GED essay!

XGE 5003

GED Math Test Preparation
This online course will help you master the skills required to successfully pass Test 5 in the GED test series. Give yourself the strong foundation you'll need to solve the types of math problems commonly found on the test. Gain comfort with your math skills, and be able to recognize how, when and why to apply each math concept you learn.

Academic Achievement Center (XGH)

XGH 1100

Study Skills
Spelling, reading, study skills, math and preparatory chemistry are among the areas of study offered in the center. Students who enroll in the center are given a diagnostic pre-test that places them at the appropriate level in their individualized program. Students progress at their own rate to meet their goals. Instructors are available for assistance. Free tutoring in specified areas is available. For more information, call 469-8500, ext. 3320. Center hours: 8 a.m.-8 p.m., M-R 8 a.m.-2 p.m., F 9 a.m.-1 p.m., Sa

$63.00

XGH 1102

Basic Spelling
This is a self-instructional course for students who wish to improve their spelling ability but who have not been successful in the traditional spelling program. An Academic Achievement Center instructor is available to work with students to establish specific goals, administer test, and provide individualized instruction as needed.

Arts and Crafts (XPA)
XPA 1003
Adventures in Color
Learn to improve your color choices by using the color wheel. Anyone who wishes to improve their color knowledge for artwork, design, fashion, decorating and more will benefit. In sessions one and two, we will examine color usage with a series of painting exercises. We will learn about harmonious color groups, values and color mixing. During the third session we will create beautiful handmade hard cover accordion-fold reference books into which we will compile
our color studies. No prior painting or drawing skills are needed. Supply list will be mailed before class.

$29.00

XPA 1004

Precious Metal Clay Pendant
Precious Metal Clay Pendant is silver in a clay-like form. Learn how to shape, form and fire it while making a personalized three-layer silver pendant. After finishing the piece, you will leave the class with a completed fine silver necklace. Class kit and all supplies: $40.00, available from instructor.

$16.00

XPA 1006

Soldered Glass Charms
Soldered Glass charms are the latest trend in jewelry making. In this class you will create several two-sided glass charms that can be hung on a bracelet or necklace. Students can bring their own art images/photos reduced down to 1 inch square or use the instructor’s images. Class kit is $15.00, available from instructor.

$16.00

XPA 1007

Stained Glass, Intermediate
Add to your stained glass skills, with stained glass lead construction. Students will complete an 18” x 24” project. Patterns and glass should be selected by the first class. Material fees of $75 will cover materials provided by the instructor. Prerequisite: Beginning Stained Glass.

$45.00

XPA 1008

Soldered Glass Shrine Necklace
Students will construct and create a mini glass box shrine diarama to showcase a small treasure or charm. Students will use collage and ageing techniques to make their shrine look vintage. Students will leave with a completed project. Students should bring favorite scrapbook papers and or collage materials to be used in the shrine construction. Students should also bring trinkets, charms, flea market jewelry to be the centerpiece of their shrine and a length of chain. Class kit fee: $20 to be purchased from the instructor.

$16.00

XPA 1009

Snowman Coasters
This is an adorable project to paint and a great gift for a snowman collector. Four ceramic tile coasters and acrylic paints furnished by the instructor. Bring a #3/0 liner brush #2 flat brush and a stencil brush to class.

$25.00

XPA 1010

Hand Woven Baskets by Robbie
Robbie Wisdom is a real pro, she shows her baskets at all of the regional arts and crafts fairs. She’ll show you how to weave a very useful utility, 5 X 8 1/2 basket. This project can be completed in one class session and will start you on a new craft path. Bring $17 to class for basket supplies.

$20.00
XPA 1011

Market Basket
Robbie Wisdom is a real pro, she shows her baskets at all of the regional arts and crafts fairs. Join Robbie and learn how to weave a classic 10x14" market basket. In this wonderful design, you'll have the option of adding color. You'll finish your market basket in one class meeting. This class lasts 5 hours, bring a sandwich for the break. Bring $35 to class for market basket supplies.

$25.00

XPA 1012

Hearth Basket
Make an 8" x 14" hearth basket with color, including braided border inside and out. Various sizes of reed will be used. Supplies, $38, available from instructor. Bring a sandwich for the lunch break.

$25.00

XPA 1013

Basket Tote with Leather Handle
Create a basket tote, 12" x 11." You can add color and use five sizes of reed. Supplies, $38, available from instructor. Bring a sandwich for the lunch break.

$25.00

XPA 1014

Acrylic Techniques
Learn the various techniques that acrylic reveals to the painter. We will discuss the similarities and differences in styles and compare this medium with oil, watercolor and pastel media. Bring to class small tubes of acrylic paint in Cadmium Red, Cadmium Yellow, Ultramarine Blue, Hooker Green and a large tube of white. One stretched canvas tablet, synthetic brushes; 3/4" flat, #8 round and #3 round; pallet knife and pallet, (large styrofoam picnic plate) water container and rags or tissues.

$79.00

XPA 1016

Knitting, Beginning
Learn to knit in a 4 session class. You will start off by making a pot holder, then move on to making a scarf, as well as checking guage and correcting mistakes. Bring to first class: size US 8 - 10 1/2 knitting needles and worsted weight wool (at least 100 yards), approximate cost $15.00. Class limited to 12 students.

$25.00

XPA 1017

Stained Glass, Beginning
Learn the basic techniques of stained glass: cutting, soldering and pattern-making for the copper foil method. Project design and construction will also be discussed. Students will complete a 10"x15" decorative stained glass panel. Material fees of $55 will cover material provided by the instructor.

$45.00

XPA 1018

Felted Purses
Make a simple but stylish felted purse by felting (boiling) your knitting to make any mistake vanish! Students can choose from 3 styles ranging from beginning to advanced. Must know how to cast on and knit. Bring to class US 10 1/2 24"
circular knitting needle and 3 skeins of wool, approximate cost $30.00. Class limited to 12 students.

$25.00
XPA 1019
Retablo Painting
Students will examine the form and function of Hispanic Retablos (devotional paintings on metal or wood that pay tribute to a prayer or wish that’s been answered). You will then create your own unique individual Retablo. For experienced painters. Bring to class various acrylic paints in colors you would prefer to work with, various brushes, cloth and pencil/paper

$19.00
XPA 1020
Start Your Family Photo Album I
This course is designed for those who have unorganized photos. You will get tips on how to organize them in a time-efficient, systematic manner using tools that are reusable for all your album needs. You may bring up to 700 photos and memorabilia to organize and prepare for your page layouts. Supplies cost approximately $10 and are available from the instructor.

$12.00
XPA 1021
Start Your Family Photo Album II
This follow up class to Start Your Family Photo Album I will help you begin the process of laying out your album pages. Do you have boxes of pictures that you want to get into an album ... someday? Are you too busy to do more than a page or two in your album at a time? Many boxes of photos can be overwhelming, but you can complete your albums using the Power Layout method. This method will save you time by helping you organize each page in advance, allowing you to store them neatly, until you can mount and journal your pages later. Supplies cost approximately $25 and are available from the instructor.

$12.00
XPA 1022
Contemporary Painting Techniques
For beginning and intermediate students. Use time tested painting techniques including wet into wet, palette knife, glazing, and under painting, using contemporary materials, water soluble oil paints or acrylic paints. Compositional sketches and value oriented thumbnail sketches are emphasized along with the hands-on painting. Using your choice of subject and techniques you will complete a 16 x 20 inch original work. A supply list will be distributed before the first class.

$99.00
XPA 1024
Drawing, Beginning to Intermediate
Explore using basic shapes, shading, perspective and measuring methods while using various techniques, tools and mediums. A supply list will be mailed before the first class. Supply costs, approximately $25-$30.

$85.00
XPA 1027
Handstamped Cards - Level I
Rubber stamping is a fun way to create greeting cards. Make 10 different cards and learn exciting techniques like using shaving cream and baby wipes to create
incredible cards. Cards cost $1.00 per card and are available from the instructor.

$18.00
XPA 1028

Handstamped Gift Workshop
Need a gift for a teacher, coach, boss, or friend? Hand stamp 10 small gifts including a candle, a checkbook cover, a CD cover and a gift card holder. Get great ideas for those people on your gift list. Supplies available from instructor for $20.

$15.00
XPA 1029

Handstamped Occasional Card Workshop
Rubber stamp your own cards using the latest innovation in stamping-acrylic stamps. Use see-through clear stamps and blocks for accurate placement as you create thank-you cards, thinking-of-you cards and more. Learn new techniques and decorate with the latest embellishments. Supplies are available from the instructor for $10.

$12.00
XPA 1030

Opaque Painting Beginning
Learn different methods of painting (toned grounds, value painting, base colors, wet-in-wet and textural grounds. Course will include choosing paints, brushes, supports, and equipment. Each week should result in a small sample painting or reference chart. A supply list will be mailed before first class meeting. Supplies approximately $80 - $120.

$89.00
XPA 1031

Red Hat Coasters
Get together with your Red Hat sisters and paint flouncy red hats with purple flowers on coasters. Four ceramic tile coasters and acrylic paints furnished by the instructor. Bring a #3/0 liner brush, #2 flat brush and a stencil brush to class.

$25.00
XPA 1032

Portrait Art
Learn about form, perspective and structure of the head in the first two classes. Eight classes will have a live model. The goal is for you to portray a three-dimensional, live person. We will work in one color, 2-3 colors and in full color, with one color work emphasized in the first few classes. Bring to class compressed soft charcoal sticks (4), charcoal soft pencils (2), kneaded eraser, white soft pastel or white Nupastel (1), paper stump (1), pencils (HB-6B, 2 total), pastel pencils-sepia (1), set of pastel colors (optional), drawing paper (11" x 14" or 17"), drawing pad of Canson colored pastel paper.

$109.00
XPA 1033

Learn to Purl
Begin the next level of your knitting: learn to purl stitch! We will focus on stitch patterns and dive deeper into the structure of your new skill. You must know how to knit. Bring to first class: size US 8-10 1/2" knitting needles and at least 100 yards of worsted weight wool (approximate cost $15). Class limited to 12 students.
XPA 1034
Sweater Workshop
Move beyond scarves and purses in this advanced beginner’s garment workshop. Learn simple applications of knitted structures and have 2 handmade sweaters ready for cold weather! Must know how to knit and purl.

XPA 1036
Holiday Card Workshop
Rubber stamp you own holiday cards using the latest innovation - acrylic stamps. See through clear blocks for accurate placement. Use 5+ different techniques on these 10 cards. Decorate with a variety of embellishments such as eyelets, ribbon, and brads. Cards, $1.00, available from instructor.

XPA 1037
Hand Stamped Event Calendar
Create a holiday gift anyone would love in this perpetual calendar. Hand stamp each month using acrylic stamps and color coordinated paper. List birthdays, anniversaries and other dates which remain the same each year. Calendar, $15.00, available from instructor.

XPA 1038
Art of Pastel
Some of the most lively and fresh works of the French Impressionists were painted with pastel. Contemporary artists enjoy pastel because of its unique qualities of line, color and texture. This class will familiarize you with soft pastel, a variety of techniques and painting surfaces with a "hands on" approach. Bring to class 24 soft pastels, sketchbook, charcoal or pencils, plastic eraser, pastel paper tones of grey, photos to work from (optional), table easel, approx cost $40-$60. Having had beginning drawing and painting would be helpful.

XPA 1053
Holiday Scrapbook Pages
Create four winter holiday 12" x 12" pages using the latest embellishments and techniques. Get ready for your holiday pictures with these beautiful scrapbook layouts. Bring to class a paper cutter and scissors, you do not need to bring pictures. Supplies cost $10 and are available from the instructor.

XPA 1054
Handstamped Mini Scrapbook
Create a unique 6" x 6" album with 10 coordinating pages. With a single sheet of random stamped cardstock and 3 12" x 12" sheets of paper, you will make an adorable mini scrapbook. Use it for a special occasions like a baby shower, graduation, wedding or anything you would like to brag about! Supplies cost $15 and are available from the instructor.

XPA 1056
Creative Cloth I
An information-filled demonstration series for anyone who quilts, sews, designs or just enjoys working with cloth and wants to take their creativity to a higher level! You will take a close look at how contemporary textile artists use innovative techniques to create original cloth. Observe and interact with the teacher as she completes hands-on demonstrations of cloth design techniques. Informative handouts detailing the process and materials and will examine cloth printing, painting and hand-dyeing techniques will be available.

$29.00
XPA 1057
Creative Cloth II
This class is a continuation of Creative Cloth I. Also, examine silk screening on cloth, collage process and fusing, and free form machine quilting techniques. Note: Creative Cloth I is not a prerequisite.

$29.00
XPA 1060
Metal Casting
Learn about the lost wax bronze-casting process. On the first day, work in wax to create your sculpture; on the second, we prepare it for casting; and the third day, we prepare the bronze. Wear non-flammable clothing, close-toed shoes, and prepare to get dirty. No prior experience necessary. Students must purchase the bronze for their project.

$136.00
XPA 1061
Jewelry Enameling, Introduction to
This class will introduce you to the basic tools, materials, and techniques of enameling in jewelry form. The types of enameling covered will be basic enameling, cloisonne and, time permitting, champleve. The piece that you create can either be a brooch, pin or pendant. No previous experience is necessary. A supplies list will be sent to you before the first session. (Supplies will cost approximately $60).

$90.00
XPA 1062
Sculptural Welding Workshop
Design an art piece by welding and cutting steel using electric and gas-welding equipment. We will also use a metal bender, sheer, grinders, saws, drills, and the forge. Wear shoes that cover your feet and wear clothes that you don't mind getting dirty. No prior experience necessary.

$125.00
XPA 1065
Advanced Sculpture Workshop
If you've taken one of Graham Lane's other classes and need to put final touches on a project or want to see what others have learned so you can pick up some ideas, then this is the class for you. Bring a project to class. The instructor will be doing quick demonstrations to help those that need brushing up. Wear appropriate clothing.

$99.00
XPA 1067
Jewelry Casting, Introduction to
In this hands-on class, you will design a piece of jewelry using the tools, materials
and techniques of cuttlefish bone casting and lost wax investment casting. The jewelry you make can be a brooch, pendant, pin or bracelet. No previous experience is necessary. A supplies list will be sent to you in advance of the first session. (Supplies will cost approximately $50.)

$95.00
XPA 1077
Summer Sweater Workshop
Get ready for summer with short sleeves and tank tops! Choose two patterns to complete in the class for the warmer weather. Learn more knitting techniques and basic crochet. Prerequisite: must know how to knit and purl.

$39.00
XPA 1080
Calligraphy, Beginning
Have fun learning the chancery cursive alphabet (italics) in this course. These skills may be used for personalized gifts, invitations, cards, envelopes, weddings, etc. Bring a medium point calligraphy pen or purchase one at the first class. Practice sheets and paper will be provided.

$35.00
XPA 1081
Calligraphy, Intermediate
Improve your basic italic script penmanship and experiment with various pens and size writing. Practice centering techniques and envelopes and produce a project of your choice. Prerequisite: Beginning Calligraphy.

$35.00
XPA 1085
Calligraphy, Intermediate II (Expressive Calligraphy)
You will learn varieties of calligraphy that are casual, contemporary, spontaneous and ideally suited for handmade books and other personalized projects. Supplies will cost approximately $15 to $20. Bring calligraphy pens, paper, a notebook and pencil to the first class. (B&G $35)

$42.00
XPA 1086
Handstamped Birthday Card Workshop

$35.00

XPA 1130
Watercolor
Express your creativity and gain valuable technical knowledge through learning the art of watercolor. Using photographs or paintings by recognized artists, you will explore subjects such as floral arrangement, texture (using ordinary household and garden items), landscape and portraiture. Bring only a pen and notebook to the first class, which will meet from 6:30-8:30 p.m. A list of supplies (approximately $70 to $100) will be provided at that time.
$66.00

XPA 1145
Stone Carving Workshop
In this two-session introduction to stone carving, you will learn to chip, tear and shear stone. Each student in the class will receive a piece of limestone from a local quarry. Traditional and contemporary carving methods, as well as the history of stone carving, will be addressed and applied to the work at hand. This workshop is open to everyone; prior experience is not necessary. Wear shoes that cover your feet and clothes that you don’t mind getting dirty. There will be a one-hour break for lunch (on your own).
$125.00

XPA 1162
Painting on Silk
Learn to paint silk fabric and scarves with Fiber artist Valerie Doran Bashaw. We will work with luminous French dyes and explore pattern, design, drawing and color. Beginners are welcome to explore this unusual art form. Bring to class 2 fine point watercolor brushes, one large, one small, four 26" wooden canvas stretcher bars, plastic palette, cup for water, pencil, black marker-fine point, stainless steel pins with heads, masking tape, thin latex gloves, paint shirt, small sketchbook approximate cost $25. Fee includes cost of two silk scarves, dye and resist.
$89.00

XPA 1172
Santa Workshop
Learn the art of painting resin Santas for gifts or your own collection. The Santa, as well as acrylic paints, will be furnished by the instructor. Bring to class a #3/0
liner brush, #2 flat brush, paper towels, Krylon Spray Varnish Matte Finish and disposable gloves (available at craft stores for approximate total cost of $10).

$19.00
XPA 1173
Herbal Wreaths and Swags
Using fragrant herbs and flowers on different bases, in this workshop you will make a wreath or swag of your choice. Materials will be available, including decorative holiday items; in addition, please bring a glue, gun, scissors, ribbon and twine.

$25.00
XPA 1185
Floral Arrangements
Custom-design silk and dried floral arrangements for your home. A wide variety of materials will be studied. You may complete two projects from the following styles: traditional, contemporary, country or Southwest. Students will need a glue gun and wire cutters. Additional supplies will cost $30 to $60 and will be discussed at the first session.

$36.00
XPA 1186
Floral Arrangements, Advanced
This class is a continuation of “Floral Arrangements”. Become more proficient in floral design, and better understand the principles and elements of design as you complete three projects: a centerpiece, tall floral and topiary arrangement. Bring your floral supplies to the first session, along with your glue gun and wire cutters. Note: supplies will cost $30-$60 per project. Prerequisite: Floral Arrangements or Wreaths and Swags

$36.00
XPA 1193
Butterfly Stepping Stone
This painted fluttering beauty looks as if it is resting in your garden waiting for a gentle breeze. The 12” stepping stone and patio paints will be furnished by the instructor. Bring an old toothbrush, 1/2” angular brush, #4 flat brush, #1 liner brush, ruler and pencil to class.

$29.00
XPA 1194
Ladybug Stepping Stone
These flying friends of the garden will bring a feeling of loveliness and delight to all that see them. The 12” stepping stone and patio paints will be furnished by the instructor. Bring an old toothbrush, 1/2” angular brush, #6 stencil brush, #4 flat brush, 5/0 liner brush, ruler and pencil to class.

$20.00
XPA 1195
Snowman Tray
Winter is definitely coming. Paint a snowman and all the things that go with him on a wooden tray. Snowman tray and acrylic paints furnished by the instructor. Bring a 3/4” angular brush and 5/0 liner brush to class.

$21.00
XPA 1196

Old World Santa Workshop
Celebrate the season by painting and antiquing your own Santa with the instructor who has painted over 1000 Santas. The resin old-world Santa and acrylic paints will be furnished by the instructor. Bring #3/0 liner B brush, #2 and #4 flat brush, and disposable gloves. (2 sessions)

$29.00

XPA 1197

Moon Santa Stepping Stone Workshop
Paint your own holiday gifts. Learn how to paint a wonderful Moon Santa on a 12” stepping stone for your yard or garden using patio paints. The stepping stone and patio paints will be furnished by the instructor (supplies included in fee). Bring an assortment of brushes to class.

$19.00

XPA 1198

Country Snowman Stepping Stone
Let the beauty of the outdoors inspire your next painting project. Paint a country snowman on a 12” stepping stone using patio paints. The stepping stone and patio paint will be furnished by the instructor. Bring an assortment of brushes to class.

$25.00

XPA 1199

Frog Stepping Stone
What a fun design for your yard or garden! This plump frog fills a 12” stepping stone with charm. The stepping stone and patio paints will be furnished by the instructor. Bring a stencil brush, a #2 round brush and a 1/2” regular brush to class.

$20.00

XPA 1205

Wreaths and Swags
Custom-design a wreath and swag for your home. A wide variety of materials will be studied. You may complete two projects from the following styles: traditional, contemporary, country, or Southwest. Students will need a glue gun and wire cutters. Additional supplies will cost $30 to $60 and will be discussed at the first session.

$36.00

XPA 1224

Bangles & Beads (Jewelry)
You’ll be the envy of your friends when you wear the funky bangle bracelet and rings that you made in this class. The jewelry will be made from wire and beads. Class supplies cost $20 and may be purchased directly from the instructor.

$11.00

XPA 1225

Basic Beading Techniques (Jewelry)
Learn to use jewelry wire, beads, simple crimp beads and clasps to make and repair bracelets and necklaces. This class is for beginners. A supply kit is available from instructor for $20.
Basic Wire Wrap Techniques (Jewelry)
Like the look of those stunning pendants hanging from gold or silver collars? Join this class and make your own pendant (collar not included) with a 40 x 30 mm gemstone cabochon. Supplies for class will cost $20 and may be purchased directly from the instructor.

Crystal Choker (Jewelry)
In this workshop, you will make an elegant crystal choker necklace with matching earrings. These make great gifts for yourself or friends. Supplies for this class will cost $20 and may be purchased directly from the instructor.

Intermediate Wire Wrap Techniques (Jewelry)
Like the look of those stunning pendants hanging from gold or silver collars? Join this class and make your own pendant using wire-wrap technique (collar not included) with a donut-shaped gemstone. Supplies for this class will cost $20 and may be purchased directly from the instructor.

Introduction to Fused Glass
Learn about different kinds of glass, tools, compatibility, cutting and finishing. You will complete one project by designing and fusing the piece in the kiln. This piece can be used as jewelry or as a sun-catcher. Bring $35 to class for your project materials, supplied by the instructor.

Faux Finishes I
Now you can learn how the professionals do it. Learn basic faux finishing techniques for those who are new to this style of painting. This is an introduction to the method of color selection, mixing of paint and glazes, and the various application processes. Supplies for this class ($25) may be purchased directly from the instructor.

Faux Finishes II
More materials will be added to create unique faux treatment such as, stripping, metallics and sponging. Note: Faux Finishes I is a prerequisite to this class or permission to enroll from the instructor. Supplies for this class ($25) may be purchased directly from the instructor.

Acrylic and Oil Painting
Explore traditional techniques for using oil paints established during the Renaissance, and now translated into the use of modern materials of acrylic
and/or water soluble oil paints as well as the traditional oils. No toxic fumes will be found in the classroom. The student will use their own pictures and ideas in a supportive environment. Supply list will be mailed one week before the beginning class date.

$99.00
XPA 1250
Watercolor, Beginning
For beginning to intermediate students. Learn the basic techniques of watercolor painting in this fun and relaxed beginner’s class. You'll learn about color, composition, layout, perspective and more as you first draw, then paint your own still life and landscape projects from photographs. Supply list to be mailed to participants before the first class.

$99.00
XPA 1260
Watercolor, Intermediate
This class is for those who already have watercolor supplies and are ready to "loosen up" and enjoy a painting adventure. Tracings will be provided for those who wish to use them. More experienced students are encouraged to design their own "similar" drawings. Bring your supplies to the first class, which will meet for two hours. Note to those who have taken this class previously: each term contains new and interesting material!

$99.00
XPA 1270
Oil Painting I, Classical
This is a beginning class for students interested in Classical Realism. You will be introduced to the materials used in oil painting, and some of the techniques of using these materials. You will learn to prepare a canvass for painting, transfer a drawing to canvass, and to paint a picture of your choosing. Individual attention will be given for completion of your painting. Supplies will be discussed at the first meeting. This class is a prerequisite for Classical Oil Painting II.

$129.00
XPA 1271
Oil Painting II, Classical
This class is open to returning students and those who have previously taken Classical Oil Painting I. You'll be encouraged to develop your own style using the skills and methods you acquired in the first course, and to develop new techniques.

$129.00
XPA 1275
Oil Painting III, Classical
Classical Oil Painting I and II are prerequisites for this class. Lectures will cover composition, color harmony, and art history. Demonstrations will include landscapes, still life and portraits. You will complete your own original paintings.

$129.00
XPA 1298
Jewelry Making, Beginning
Use a variety of tools, materials (silver, gold, copper), chemicals and stones to make a project of your choice such as a ring, pendant or bracelet. Bring your ideas to the first session and the instructor will discuss your project ideas with
you. Then, choose your project, materials and tools. Additional material costs will
be necessary but will vary depending on the project selected, i.e. silver, stones,
etc. An optional kit costs approximately $180 includes tools and supplies, but not
materials. Items may be purchased through the instructor but must be ordered
and paid for at the first session.

$39.00  
XPA 5001  
**Drawing for the Absolute Beginner**  
Have you always been interested in drawing, but never really knew how to get
started? If so, then this is definitely the course for you! Gain a solid foundation
and understanding of the basics to drawing and become the artist you've always
dreamed you could be!

$82.00  
**Aviation (XPV)**  
**XPV 1000**  
**Private Pilot Ground School**  
Share the synergy of learning to fly with other student pilots as you prepare for the
F.A.A. private pilot computer exam. Experience colorful PowerPoint presentations
on airplane systems, instruments, aerodynamics, weather, flight safety, air traffic
control procedures, navigation and federal aviation regulations. Bring the textbook
and flight planning materials (JCCC bookstore), to the first class. Note:
ATTENDANCE IS REQUIRED FOR THE FIRST CLASS and does not include an
exam.

$249.00  
**XPV 1010**  
**Instrument Pilot Ground School**  
Are low clouds keeping you on the ground? If so, then increase your freedom to
fly by adding an Instrument rating to your private pilot certificate! While you
prepare for the FAA Knowledge exam, dynamic PowerPoint visuals guide you
through "real world" IFR operations -- from chart interpretation and ATC
procedures to weather and physiological factors related to the IMC enviroment.
Note: Class sessions do not run continuous in order to accommodate a weekend
study break.

$299.00  
**XPV 1035**  
**Flight Review Refresher**  
This course prepares the private pilot for the FAA required flight review needed in
order to continue exercising pilot-in-command privileges. Refresh updated
regulations, chart symbology, weather interpretation, airspace, communications
phraseology, traffic pattern protocol and emergency procedures before you
schedule your next flight review and breeze through it with confidence. This class
satisfies the ground requirement for your next flight review. Note: An optional
logbook endorsement is offered, fee to be paid on day of class; bring your
logbooks.

$49.00  
**XPV 1040**  
**Partners of Pilots "Pinch Hitter"**  
Would your spouse, child, parent or friend enjoy flying with you more if the cockpit
and flight environment weren't so intimidating? Maybe he or she is concerned
about their own safety and that of your family if during the flight something should
happen to you? This "pinch hitter" course is designed to educate the non-pilot on essential information and make flying more enjoyable for both pilot and guests.

$49.00

Business Skills (XBD)

XBD 0101

Business Etiquette: Gaining That Extra Edge
In today's world, business demands more than keeping your nose to the grindstone and your ear to the ground. You need business savvy and the ability to establish yourself in a credible manner. A faux pas at the wrong time can damage your career. If you are newly appointed to a management position, or if you interact with people you don't know on a regular basis, this workshop can help you succeed. If you want to enhance and polish your business image, or if you just want to avoid feeling uncomfortable in the corporate world, this workshop will allow you to take a quantum leap forward in skill, sophistication, and confidence.

$159.00

XBD 0102

Communication Strategies
Have you ever wondered why it seems so difficult to talk with some people and so easy to talk with others? Can you recall an occasion where you met someone for the first time and immediately liked that person? Something about the individual made you feel comfortable. A major goal of this two-day workshop is to help you understand the impact your communication skills have on other people, and how improving these skills can make it easier for you to get along in the workplace.

$159.00

XBD 0103

Accounting Basics
In this seminar, you will learn the essential language, concepts and processes of accounting, presented in a practical, non-technical fashion. You'll cover accounting concepts, the nature of accounting and generally accepted accounting principles, as well as the process of accounting, accounting equations, debits and credits, and accounting cycles. You will also explore how to create financial statements, balance sheets, statements of income and retained earnings, statements of changes in financial position, and more.

$249.00

XBD 0104

Managerial Accounting
This course focuses on providing you with the necessary accounting information to make better business decisions. After a brief review of basic accounting concepts, you will cover financial statements, the analysis of financial statements, cost patterns/behavior, cost-volume-profit analysis and budgeting. This course is presented in a practical, hands-on, non-technical fashion.

$169.00

XBD 0105

Time Management: Get Organized for Peak Performance
Time is money, the adage goes, and lots of it gets lost in disorganization and disruption. This one-day workshop helps you organize and prioritize for greater workplace efficiency. You'll learn to get a grip on your office space, organize your work flow, learn how use your planner effectively, say no without guilt, and delegate some of your work to other people. This workshop is full of ideas for organizing your work area and your paperwork and working on the "right" things.
Public Speaking: Presentation Survival School
A great presenter has two unique qualities, appropriate skills and personal confidence. This confidence comes from knowing what you want to say, and being comfortable with your communication skills. In this two-day workshop, you will master the skills that will make you a better speaker and presenter.

Effective Business Writing for Results
Our two goals in business writing are to write so the reader can understand immediately and to get the response or results we want in a timely way. This course emphasizes concise, clear correspondence, including e-mail, letters, summaries, and meeting minutes. Relaying executive-level and customer-focused information are primary concerns.

Grammar, Punctuation and Word Usage
The tools, tips and techniques presented in this program will help the you to develop the competence and confidence you need in written communication. This class will concentrate on grammar concerns: effective sentence structure, proper punctuation and correct word usage. You will be able to compose appropriate written correspondence with clarity and conciseness by the end of the program and through continued use of the manual as a reference text.

Stress Management
This one-day workshop will explore the harmful long-term effects of stress on our mental and physical health and provide suggestions for managing our individual stresses more effectively. Strategies may include changes in lifestyle, stress management techniques such as relaxation and exercise, and the use of music or humor as coping strategies.

Legendary Customer Service
When you treat your customers like VIPs, they return to purchase your goods and use your services. In this seminar, you'll examine the link between the customer and your business and the importance of first impressions in customer relations.

Budgeting Fundamentals
There's no doubt -- budgeting is critical to bottom-line performance. This seminar covers the basics of budgeting in simple, nontechnical language. Topics begin with budget concepts and terms; move on to planning, building and implementing a budget; and end with budgetary management and control.
The recipe for effective interpersonal communication is really quite simple: two or more people who trust each other’s motives, speak honestly and listen attentively as they discuss the subject in question. In this seminar, participants will develop specific communication strategies that build a culture of alliance and collaboration and increase their effectiveness by achieving breakthrough performance as communicators. Topics include the DiSC model of human nature, Powerful Listening, Assertiveness and Conflict Management.

$299.00
XBD 0116

The Critical Elements of Customer Service
This one day workshop is for any employee who deals with the public or who serves those who do deal with the public. Customer service skills can increase your value to your company and advance your career at the same time.

$159.00
XBD 0118

Managing Customer Service
The need for leading, promoting, and enhancing a customer focused culture, are essential within every organization. Leading, creating, and enhancing a customer focused culture are essential within government departments. This one-day workshop will provide you with an opportunity to explore your responsibilities within your role as a customer service agent. As we discuss the various skills and techniques, draw from your own personal and varied experiences to share elements of reward and challenge. Consider this workshop as a "re-energizing time" to build and expand from where you are now.

$159.00
XBD 0122

Analyzing Financial Statements
Learn the accounting terms and concepts that will help you interpret a firm’s true financial performance by taking an in-depth look at what statements can tell you. You will cover the information required for accurate financial statements, what such statements reveal, and the ratios used in their analysis.

$169.00
XBD 0134

Basic Government Accounting
This course focuses on providing you the basics of state and local government accounting. You will learn the concepts of government accounting, definitions of terms, types and components of governmental, proprietary and fiduciary funds, and financial reporting. This course is presented in a non-technical, practical, hands-on approach and integrates the GASB 34 implementation changes.

$249.00
XBD 0135

Proofreading: Finding Errors Before They Embarrass You
Employers make the error in thinking if a person can read and write, that person can also proofread. Researchers tell us there are two kinds of published errors: those we do not know are wrong and those we know are wrong but we do not see. This course complements "Grammar, Punctuation & Word Usage" for the former issue and presents techniques to use for the latter issue.

$109.00
XBD 0136

Technical Writing Made Easy
Although technical writing is a part of business writing, special considerations are necessary to accommodate the need for details and specifications. Reports, abstracts, proposals, protocols, and standardized operating procedures are the targets for this course.

$159.00
XBD 0141

E-mail Professionalism: What, How, To Whom and How Long?
This program will give you an overview of the background of electronic mail. The conventional manners and cultural expectations of netiquette will be discussed. The participants will be given suggested guidelines for writing professional messages.

$114.00
XBD 0153

Customer Service: You ARE the Organization
When building working relationships, teams, or a loyal customer base, bosses, co-workers, visitors, vendors and clients become your customers during a day’s activity. Learn how to juggle responsibilities to each while maintaining a sincere smile and positive attitude.

$169.00
XBD 0155

Overcoming Presentation Anxiety
This workshop will focus on both the psychological and vocal production aspects of public speaking. Various factors that play a role in anxiety related to public speaking will be examined as well as ways to cope with this anxiety, including the understanding and execution of efficient vocal function. Techniques in both of these areas will be discussed and then demonstrated during the afternoon session when the instructors will work with participants as they present a five minute informal presentation prepared beforehand.

$169.00
XBD 0158

Business Fundamentals: How It Really Works!
In this one-day workshop, you will learn the language of finance and accounting, how to read balance sheets and income statements, how to analyze retained earnings and cash flow statements, how to calculate key financial ratios, and more. This program is for all participants in all types of business and industries who need a quick overview of the key elements financial managers address in order to achieve the business goals of their department or company.

$189.00
XBD 0159

Delivering Presentations That Deliver Results
This interactive workshop will help you learn and practice skills that will dramatically improve your presentations. You will learn how to select and organize your content so your audience stays engaged and interested. You will also discover techniques that will reduce your nervousness and help you identify any distracting nonverbal behaviors.

$169.00
XBD 0168

Public Speaking: Conquering the Ultimate "Fear Factor"
You have been asked to give a presentation to a group of people. Just thinking
about it makes your heart pound. In this course, you will learn techniques that will significantly reduce your speech apprehension. A calm, relaxed speaker is much more capable of delivering outstanding results.

$169.00
XBD 0179
Delivering Presentations That Deliver Results 2: The Next Step
Learn how to improve your effectiveness as a speaker/presenter. Class size is limited to six, to ensure that each person receives extensive individual feedback and support. There is no pre-requisite for this course. Prepare a 10 to 12 minute presentation and bring it to the first class.

$269.00
XBD 0181
Reaching for Stellar Service-Coaches
In this class, service coaches define stellar service based on their own experience as customers, and discuss the goal of stellar service?customer loyalty?and its benefits. They also explore the concept of defining moments, which are the point in time when customers judge the service they receive. Participants explore the three dimensions of service and consider four qualities that customers expect in service they receive.

$89.00
XBD 0182
Dazzling Your Customers
One of the most effective ways a service provider can delight customers and create long-term customer loyalty is to pleasantly surprise the customer, that is, do something above and beyond customers’ expectations that makes them feel special. Participants will explore what it means to provide dazzling service and learn three steps that will help them consistently give customers more than they expect.

$89.00
XBD 0183
Developing Others for Stellar Service
In this class, service coaches learn to recognize daily opportunities to develop confident service providers who can find answers for themselves and make decisions on their own. During the session service coaches explore six key actions that provide an approach to developing others that emphasizes listening and asking effective questions, rather than telling someone what to do.

$89.00
XBD 0184
Giving Constructive Feedback for Stellar Service
In order to know how well they are doing, service providers need to receive regular feedback from their service coach. Giving constructive feedback not only helps to solve service problems, but can also work to prevent potential problems from growing to the point where they negatively impact the customer. Service coaches explore five key actions for giving constructive feedback and are also introduced to techniques for handling challenging responses.

$89.00
XBD 0185
Reaching for Stellar Service
To provide the kind of service that creates customer loyalty, organizations need
people with strong interpersonal skills, a "can-do" attitude, awareness of the wider organizational context in which they work, and daily commitment to delivering exceptional service. In this class, participants define "stellar service" based on their own experience as customers and discuss the goal of stellar service-customer loyalty-and its benefits.

$89.00
XBD 0186
Recognizing Others for Stellar Service
Over the long term, stellar service is eventually rewarded with improved customer loyalty. But in the short term, service providers want to hear from others around them that they are doing something right. In this class, service coaches explore three key actions for recognizing others. Participants are introduced to various forms of recognition and opportunities to tailor recognition to the needs of each individual recipient.

$89.00
XBD 0187
Caring for Customers
Even the most timely, accurate, and thorough service won't win customer loyalty unless customers feel recognized and valued as individuals. In this class, participants learn two principles of caring service and practice using skills and techniques for doing so. By treating customers as unique and valued individuals, participants are able to deliver authentic, individualized service that creates loyal customers.

$89.00
XBD 0188
Healing Customer Relationships
Serving customers who are upset is a challenge for both new and experienced service providers. Working with a customer who has had a bad experience with the organization demands extraordinary patience and tact. The skills and techniques presented in the module can help service providers manage personal reactions to customer behaviors, effectively defuse negative emotions, quickly address the customer's concerns, and demonstrate commitment to the customer relationship.

$89.00
XBD 0190
Powerful Presentations
Want to add zip and pizzazz to your presentation? Want to have your participants leave feeling pumped about applying what they learned? Want to get creative? Then this session is for you! You will learn ways to set the stage and create dynamic openers. Learn exciting ways to present key points, learn techniques for adding humor, and find ways to get participants involved.

$199.00
XBD 0191
Power Up Your Telephone Skills for Excellent Customer Service
Find out why telephone skills are the heart of organization communications while you learn about different communication styles, and how to handle difficult customers and prospects on the telephone. Participate in group discussions to discover how specific issues can be resolved and apply the lessons learned by studying real situations which achieved success.

$89.00
XBD 0192

Train-the-Trainer
Often subject matter experts are asked to become trainers. This 3-day program covers everything you ever needed to develop dynamic content, present powerful presentations and deliver results. Video-taping is done for enhanced learning. Leave with techniques for handling an unruly audience, keeping an audience’s interest and strategies for maximizing the learning experience.

$349.00

XBD 0193

Developing a Mentoring Program
Organizations have long acknowledged the value of mentoring as a tool for developing and retaining talented employees. In this seminar, you will learn how to design and implement an effective facilitated mentoring program for bright but inexperienced entry-level people to mature employees who need to expand or refocus their skills.

$189.00

XBD 0200

Managing Diversity
Without effective diversity management capability, the strength of your organization is in jeopardy. This course will help you build diversity management skills to create a high-performing work environment. It will reinforce diversity concepts and knowledge and provide tools, processes and techniques to use with a diverse workforce to improve organizational performance.

$109.00

XBD 0205

Managing Generations
You cannot productively manage today's workers without understanding the social, political, economic, and cultural world in which they grew up. The four generations in today's workforce were each shaped by different values, cultural icons, and defining events. In this class you will analyze these differences in detail and review managing skills that will make you a better leader.

$99.00

XBD 0215

From Difficulty to Dignity: How to Communicate with Diverse Customers and Coworkers
Discover communication techniques and tools to help you achieve and maintain dignity and productivity for all those involved in difficult circumstances. When someone becomes confused, angry, offended, or frustrated, know how to talk and walk your way through the moment with confidence. Find ways to increase performance, collaboration, decision agreement, and problem resolutions for on-the-job scenarios.

$159.00

XBD 0220

Conducting Critical Conversations
You will gain confidence conducting conversations when potential for conflict or disagreement is likely...whether it is an employee performance review, customer conflict, bad news for the boss or a nosy-neighbor. You will learn how to control your reactions to hostile responses and prepare for a productive outcome.

Recharging Your Career Resiliency
Autumn is a natural time for nurturing the earth after harvest. Autumn is also a time for self-reflection. This intensive weekend career development program is designed to reclaim one’s self and to redefine a more conscious career path. Participants will be given a batter of career assessments to rediscover their strengths, gifts, aptitudes, interests, and skills. (Boxed lunch will be provided on Saturday.)

$395.00
XVR 1125

Exploring A Mid-Life Career Change

Are you an adult who is still trying to figure out what you want to do when you grow up? If this is the case, this workshop is for you! Participants will take the newly revised Strong Interest Inventory and Meyers Briggs Type Indicator (Q) assessment online (completed 48 hours prior to the workshop), as well as additional career related inventories. The assessments, along with workshop activities, will lay the foundation in which to identify potential career options. In addition, external and internal barriers that may sabotage your ability to identify a career path or to take the necessary steps to make it reality will be addressed. Participants will schedule a one hour follow-up session for individualized career counseling. (Session to be scheduled within 60 days of workshop completion.) Note: Lunch is on your own.

$179.00

$104.00
XCM 2532

Web-Based Introduction to Visual Basic 2005
Visual Basic is the most widely used programming language and development tool for creating Windows applications. The Visual Basic programming language is very easy to learn, and the Visual Basic 2005 development environment enables you to rapidly build Windows applications. In six short weeks, you'll learn how to write Windows applications using the Visual Basic programming language and the Visual Basic 2005 development environment. You'll also learn principles of object-oriented and event-driven programming that you can use, not only with Visual Basic, but also with other programming languages you may want to learn. Note: Please confirm computer requirements before registering for this course. Web registration is not available. After registration, complete the required on-line orientation at www.ed2go.com/jccc.

$150.00
XCM 2545

Web-Based Computer Skills for the Workplace
Learn the fundamental computer skills you need to succeed in today's workplace. You'll discover practical applications for e-mail, word processors, spreadsheets and databases, gaining a working foundation for the critical computer skills you
need to survive in the modern job market. Note: Please confirm computer requirements before registering for this course and Web registration is not available. After registering, complete the required on-line orientation at www.ed2go.com/jccc.

$104.00

XCM 2573

Web-Based Introduction to Flash MX 2004
In this six-week on-line course, you'll learn how to use Flash MX 2004 to create dynamic, entertaining, and interactive Web sites and other projects. You'll discover the basic tools and techniques for making a Flash movie. You'll use Flash to create and modify graphics and text, build simple animations, and design Web site navigation buttons. Before you know it, you'll have a solid understanding of Flash and how best to make it work for you. Note: Please confirm computer requirements before registering for this course. Web registration is not available. After registration, complete the required on-line orientation at www.ed2go.com/jccc.

$104.00

XCM 2577

Web-Based Introduction to Gaming Industry
Learn about game development, game design, and production and the current challenges facing the gaming industry. Learn how to prepare for a dynamic career and succeed on the technical, artistic, or business side of game development. Note: Please confirm computer requirements before registering for this course and Web registration is not available. XCM 2585

Web-Based PowerPoint Intermediate
Learn to create exciting presentations from an expert in PowerPoint and digital media. Work smarter in PowerPoint and use graphics, animation, digital photography and video to hold your audience's attention and create memorable presentations for public speaking, teaching, video, or the Web. Note: Please confirm computer requirements before registering for this course and Web registration is not available. After registration, complete the required on-line orientation at www.ed2go.com/jccc.

$104.00

XCM 2596

Web-Based Introduction to Windows XP
This course covers all the basic skills and concepts needed to use a computer. This course will teach you how to work with text, pictures, photos, sound, music, DVD, Interactive TV, and video. Note: Confirm computer requirements before registering for this course. Web registration is not available. After registration, complete the required on-line orientation at www.ed2go.com/jccc.

$104.00

XCM 2597

WB: Introduction to the Internet
Master the ins and outs of the Internet with this informative, behind-the-scenes look at the World Wide Web, e-mail, Gopherspace, Newsgroups, FTP, chat, telephony, Telnet, and more. Note: Confirm computer requirements before registering for this course. Web registration is not available. After you register, complete the required on-line orientation at www.ed2go.com/jccc.
Web-Based Using the Internet in the Classroom
Find out how you can use the Internet to make your textbooks and lessons come alive. Teach your students how to locate and evaluate Internet resources. Improve the caliber and amount of discussion through the use of e-mail and discussion boards. The Internet can make teaching easier—this course will show you how.

Web-Based PowerPoint in the Classroom
This course will help you discover the exciting possibilities of using PowerPoint with your students. You will master a variety of uses for PowerPoint in the classroom, by creating compelling lessons and presentations. Note: Please confirm computer requirements before registering for this course and Web registration is not available. After registering please complete the required online orientation at www.jccc.ed2go/jccc.com

Web-Based Introduction to PrintShop Deluxe
Work with an expert designer and learn how you can get the most out of the friendliest and most popular design programs on the market. In this fun and practical course you will learn how to quickly and effortlessly create a variety of projects that you can put to immediate use, including greeting cards, envelopes, labels, postcards, signs and banners. By the end of this course, you will be fully prepared to create your own design projects from scratch. Note: Please confirm all computer requirements before registering for this course and Web registration is not available. After registering, complete the required online orientation at www.ed2go.com/jccc.

Introduction to Crystal Reports 10
Learn how to use Crystal Reports to convert raw database or accounting data into meaningful and readable reports. You will be able to create a wide variety of reports that communicate more than mere facts. You will be able to use charts and maps to present information visually, and cross-tabs, to show correlations between loosely related data items. Note: Please confirm computer requirements before registering for this course and Web registration is not available. After registration, complete the required online orientation at www.ed2go.com/jccc.

WB: Intro to Outlook Express
Learn to create, send receive, and organize e-mail and newsgroup messages using the popular Outlook Express e-mail program. Note: Please confirm computer requirements before registering for this course and Web registration is not available. After registration, complete the required online orientation at www.ed2go.com/jccc.

$104.00

XCM 3400

Excel Fundmentals - 2007

After an introduction to spreadsheet terminology and Excel's window components, you will explore how to use the Help system and navigate worksheets and workbooks. Then you will enter and edit text, values, formulas, and pictures, and save workbooks in various formats. Explore how to move and copy data, learn about absolute and relative references, and work with ranges, rows, and columns. This course also covers simple functions, basic formatting techniques, and printing. Finally, create and modify charts, and discover how to manage large workbooks. Prerequisite: Strong competence with Windows OS, keyboard and mouse. Familiarity with spreadsheet concepts.
Excel Intermediate - 2007
Explore how to use multiple worksheets and workbooks efficiently, and work with more advanced formatting options including styles, themes, backgrounds, and watermarks. Discover how to create outlines and subtotals, how to create and apply cell names, and how to work with lists and tables. Save workbooks as Web pages, insert and edit hyperlinks, and save a workbook as a PDF file. This course also covers advanced charting techniques, worksheet auditing and protection, file sharing and merging, and workbook templates. Prerequisite: Excel 2007 Fundamentals.

Excel Advanced - 2007
Work with advanced formulas, as well as lookup functions such as VLOOKUP, MATCH, and INDEX. In addition, explore data validation and database functions such as DSUM. Discover how to work with PivotTables and PivotCharts, how to import and export data, and how to query external databases. Finally, learn about the analytical features of Excel (such as Goal Seek and Solver), running and recording macros, and sharing Excel data via the Web. Prerequisite: Excel 2007 Intermediate.

Excel Specialist Certificate - 2003
Receive instruction in our complete lineup of Excel classes. Build a solid foundation with Excel Fundamentals 2003 and Excel Intermediate 2003 before moving on to more advanced topics in Excel Advanced 2003. Once completed, either take the MOS exam at our Prometric testing center or use your Center for Business Excel Specialist Certificate to verify your competency. Prerequisite: Knowledge of Windows, keyboard and mouse.

Excel Fundamentals - 2003
Designed for students with limited Excel experience. Gain proficiency with entering and editing data, modifying a worksheet, using functions, printing, creating charts and basic web features. Prerequisite: Knowledge of Windows, keyboard and mouse.

Excel Intermediate - 2003
Create simple worksheets and charts that will be used for internal reports and data tracking. Work with large worksheets, multiple worksheets and multiple workbooks as you use 3-D formulas for linking and consolidating data. Customize menus and toolbars and use advanced formatting to make Excel work for you. Explore list management, advanced charting, auditing features, and templates. Prerequisite: Excel Fundamentals 2003 or comparable knowledge.

Excel Advanced - 2003
Perform advanced tasks, such as creating nested functions and using advanced formulas. Work with data tables, PivotTables and PivotCharts. Export/Import data,
perform what-if analyses, record macros, and publish worksheets as Web pages. Prerequisite: Excel Intermediate 2003 or comparable knowledge.

$179.00
XCM 3408
Excel Power User - 2003
Designed for the experienced Excel user who wants to gain proficiency in how to use formulas, functions, arrays, and add-ins for manipulating and analyzing data. Prerequisite: Excel Advanced 2003.

$99.00
XCM 3409
Excel Specialist Certificate - 2007
Receive instruction in our complete lineup of Excel 2007 classes. Build a solid foundation with Excel Fundamentals 2007 and Excel Intermediate 2007 before moving on to more advanced topics in Excel Advanced 2007. Once completed, either take the MOS exam at our Prometric testing center or use your Center for Business Excel Specialist Certificate to verify your competency. Prerequisite: Knowledge of Windows, keyboard and mouse.

$479.00
XCM 3411
Excel VBA Programming - 2003
Create procedures that run in response to specific events, create user forms to accept or display data, validate the data entry in user forms, and debug and handle errors in code. Explore the Visual Basic Editor (VBE) as you begin programming basics and application development. Prerequisite: Excel Advanced 2003 or comparable knowledge.

$179.00
XCM 3415
Excel Customization and Data Analysis
Use formulas, functions, arrays, and add-ins for manipulating and analyzing data. Explore advanced editing and formatting features, advanced graphics and chart customization, analyzing and sharing data, and advanced customization. Prerequisite: Excel Intermediate or comparable knowledge.

$169.00
XCM 4000
Adobe Photoshop Fundamentals
Familiarize yourself with image editing using Photoshop. Examine the tools and features available to you as you edit images using Photoshop CS2. Work with tools for painting, retouching, and enhancing images. In addition, you will work with layers and layer selections. Maps to the ACE. Prerequisite: Familiarity with Windows, keyboard and mouse.

$299.00
XCM 4001
Adobe Photoshop Web Production
This course will familiarize you with concepts and techniques important for optimizing images for display on the Internet, including image animation. Prerequisite: Adobe Photoshop Fundamentals, Adobe Photoshop Advanced.

$189.00
XCM 4002
Adobe Photoshop Advanced
Learn to manage images for optimal web and print display. Work with advanced image handling tools and features available in Photoshop CS2. Create images for use on the web, prepare images for viewing across different platforms, and manage color in images. Use advanced image and video support features and automate PhotoShop tasks. Maps to ACE. Prerequisite: PhotoShop Fundamentals or comparable knowledge

$299.00

XCM 4003
QuarkXpress Fundamentals
Create high-quality single- and multiple-page documents for professional publication. Use QuarkXPress to lay out professional quality documents that include text and graphics, and are designed for professional printing and publication. Prerequisite: Familiarity with Windows and basic word processing functions.

$299.00

XCM 4004
QuarkXpress Advanced
Build on your existing skills to learn some of the more advanced features of QuarkXPress. Explore some techniques that will allow you to improve your workflow and take existing layouts and use efficient techniques to make them more professional-looking. Prerequisite: QuarkXPress Fundamentals.

$299.00

XCM 4005
Adobe Photoshop Elements: Working with Photos
Photoshop Elements opens the door for amateur photographers, business users, students, and home users who want professional-looking images for their print and Web projects. Capture photos from traditional or digital cameras, reduce red eye, correct color, work with layers, erase backgrounds, create photo-illustrations and Web graphics, simulate painting and drawing techniques, apply artistic effects, and more. Prerequisite: Familiarity with Windows, keyboard and mouse.

$199.00

XCM 4006
Adobe Premiere Elements: Video & DVD Creation
Learn how to make impressive home videos using Adobe Premiere Elements. Use either still photos or video to create high quality movies and DVD’s.

$199.00

XCM 4100
Adobe Illustrator Fundamentals
Adobe Illustrator is a sophisticated graphics program capable of creating complex and attractive illustrations and type effects for use in logos, advertisments, and other illustrations. In this course you will start by drawing and manipulating simple shapes to create logos, then combine text and graphics to create advertisments. Prerequisites: Knowledge of Windows, keyboard and mouse.

$199.00

XCM 4102
Adobe Illustrator Advanced
Expand on your skills to create more complex illustrations. Receive a better understanding of how to print documents without any errors or color mismatches. Discover how to prepare illustrations for the Web. Create complex, robust illustrations that go beyond those created using Illustrator's basic tools. Prerequisite: Illustrator Fundamentals or equivalent knowledge.

$199.00
XCM 4152

**Fireworks: Web Graphics and Interactivity**

Work with Fireworks to gain better control over editing vector and bitmap graphics and also make web graphics appear the way you had intended. Explore the tools and features of Fireworks to create and edit vector and bitmap graphics, apply interesting effects, as well as add graphical text to web pages. Prerequisite: Proficiency with Windows, keyboard and mouse.

$299.00
XCM 4200

**Access Fundamentals - 2007**

Discover how to design and create databases; work with tables, fields, and records; sort and filter data; and create queries, forms, and reports in Access 2007. Prerequisite: Strong competence in Windows OS, keyboard and mouse; familiarity with database concepts.

$189.00
XCM 4201

**Access Intermediate - 2007**

Explore how to normalize data; work with Lookup fields and subdatasheets; create join queries; add objects to forms, print reports and labels; create charts; and use PivotTables and PivotCharts. Prerequisite: Access 2007 Fundamentals.

$189.00
XCM 4202

**Access Advanced - 2007**

Discover how to query with SQL; create crosstab, parameter, and action queries; create macros; import, export, and link database objects; work with XML documents; work with Windows SharePoint Services; optimize databases; password-protect and encrypt databases; set Access options and properties; create hyperlink fields; and use Outlook 2007 to update data. Prerequisite: Access 2007 Intermediate.

$189.00
XCM 4203

**Access Specialist Certificate - 2007**

Receive instruction in our complete lineup of Access 2007 classes. Build a solid foundation with Access Fundamentals 2007 and Access Intermediate 2007 before moving on to more advanced topics in Access Advanced 2007. Once completed, either take the MOS exam at our Prometric testing center or use your Center for Business Access Specialist Certificate to verify your competency. Prerequisite: Knowledge of Windows OS, ability to use keyboard and mouse with proficiency and a basic knowledge of database use.

$499.00
XCM 4219

**Access Specialist Certificate - 2003**

Receive instruction in our complete lineup of Access 2003 classes. Build a solid
foundation with Access Fundamentals 2003 and Access Intermediate 2003 before moving on to more advanced topics in Access Advanced 2003. Once completed, either take the MOS exam at our Prometric testing center or use your Center for Business Access Specialist Certificate to verify your competency. Prerequisite: Knowledge of Windows OS, ability to use keyboard and mouse with proficiency and a basic knowledge of database use.

$499.00

XCM 4220

Access Fundamentals - 2003
Designed for students with limited Access experience. Explore how to use the Table Wizard, AutoForm, the Report Wizard, and filtering. Discuss database concepts, database planning and design, data entry rules and simple queries. Create forms and reports. Prerequisite: Knowledge of Windows, keyboard and mouse.

$189.00

XCM 4225

Access Intermediate - 2003
Work with concepts such as relating tables, referential integrity, joins, complex queries, advanced form design, advanced reports, charts, PivotTables, PivotCharts, and Internet integration. Prerequisite: Access Fundamentals 2003 or comparable knowledge.

$189.00

XCM 4230

Access Advanced - 2003
Explore advanced techniques such as: querying with SQL; using crosstab, parameter, and action queries; creating and running macros; importing, exporting, and linking database objects; optimizing, replicating and synchronizing databases; and basic database security. Prerequisite: Access Intermediate 2003 or comparable knowledge.

$189.00

XCM 4232

Access Developer Certificate - 2003
Finish off your Access education as you explore the most advanced features of Access and work with SQL. Prerequisite: Access Advanced - 2003 or comparable knowledge.

$599.00

XCM 4233

Access VBA Programming - 2003
Learn about ActiveX data objects, control structures, and the basics of VBA programming. No programming knowledge required. Prerequisite: Access Advanced 2003, Access Application Development 2003 strongly recommended.

$189.00

XCM 4236

Access Application Development - 2003
Create complex queries, create advanced forms and reports, create and use macros, and create and use data access pages. Prerequisite: Access Advanced 2003.

$189.00
XCM 5102

Publisher Fundamentals
Discover Microsoft Publisher, a flexible, easy-to-use program for creating newsletters, brochures, business cards, postcards, fliers, and more, for print, e-mail, and the Web. Explore how to create a publication from scratch or use one of the hundreds of business and personal designs available in Publisher. Prerequisite: Experience with Windows and Word Fundamentals or equivalent knowledge.

$189.00

XCM 5500

PowerPoint Fundamentals - 2007
Create new presentations that include text, graphics, WordArt, tables, charts, and diagrams. Edit and format slide content, and apply transition effects. Prerequisite: Competent with Windows, keyboard and mouse.

$169.00

XCM 5501

PowerPoint Advanced - 2007
Customize PowerPoint by modifying the Quick Access Toolbar and create macros. Apply themes and templates, and work with SmartArt graphics and tables. Add multimedia content and interactive elements to slides, and learn about presentation distribution options including PDF and HTML. Explore how to Integrate PowerPoint with Word and Excel. Prerequisites: PowerPoint 2007 Fundamentals.

$169.00

XCM 5505

PowerPoint Fundamentals - 2003
Designed for students with little or no PowerPoint experience. Build new presentations while formatting slides, using drawing tools, working with graphics, tables and charts. Work with the slide master, add transitions and timings, create speaker notes and footers, and set up slide shows. Prerequisite: Knowledge of Windows, keyboard and mouse.

$169.00

XCM 5507

PowerPoint with Producer - 2003
Work with Microsoft Producer for PowerPoint 2003, the ideal tool for creating engaging presentations, training, and business communications. Explore how to synchronize audio, video, slides, and images to create engaging and effective rich media presentations. Bring your communications to life. Prerequisite: PowerPoint Advanced - 2003.

$169.00

XCM 5508

PowerPoint Specialist Certificate - 2003
Receive instruction in our complete lineup of PowerPoint classes. Build a solid foundation with PowerPoint Fundamentals - 2003 before moving on to more advanced topics in PowerPoint Advanced - 2003 and PowerPoint with Producer - 2003. Once completed, either take the MOS exam at our Prometric testing center or use your Center for Business PowerPoint Certificate to verify your competency. Prerequisite: Proficiency with Windows, keyboard and mouse.

$429.00
XCM 5510

PowerPoint Advanced - 2003
Use PowerPoint's advanced features to create enhanced presentations. Build custom presentations by modifying templates, using multimedia, using organization charts and tables, and adding special effects. Even add Office integration with Word and Excel. Prerequisite: PowerPoint Fundamentals - 2003 or comparable knowledge.

$169.00

XCM 6000

Programming Fundamentals
Ready to become a programmer, or just want an introduction to object oriented skills? Receive an introduction to Classes, Objects, Behaviors, Attributes and other object-oriented topics such as inheritance and exception handling. This is a language-independent class using an object-oriented approach to programming logic, the solid foundation needed to build 21st-century business applications and successful Web sites. Prerequisite: Proficiency with Windows, keyboard and mouse.

$449.00

XCM 6139

Visual Basic 2005 Jump Start
Focus on the new version of Visual Studio, Visual Studio 2005, and on the changes and enhancements to Visual Basic 2005. Discover key features such as enhancements to Visual Studio, the Visual Basic language, building Visual Basic desktop, mobile and web applications, and data access with ADO.NET 2.0. Prerequisite: Working knowledge of Visual Basic.NET or another .NET programming language.

$349.00

XCM 6141

Visual Basic 2005
Create programs in Visual Basic 2005 using a clean, conceptual approach. Whether new to programming or just wanting to upgrade your programming skills, you’ll receive comprehensive instruction in the Visual Basic 2005 programming language.

$999.00

XCM 6143

Programming Visual Basic .NET with ADO
ADO.NET—the data-access component of the Microsoft .NET Framework—works with any component on any platform that understands XML. Get a solid handle on ADO.NET and learn how to exploit the database functionality of Microsoft Visual Basic.NET. Work with ADO.NET object model and how to use it to develop data-bound Windows forms and Web forms. See how ADO.NET interacts with XML and how to access older versions of ADO from the .NET environment. Prerequisites: Visual Basic.NET Fundamentals.

$799.00

XCM 6168

ASP.NET Fundamentals
This is the next generation of Active Server Pages! Revolutionizing the way Web applications are developed, ASP.NET is built on Microsoft's .NET framework with new functionality to ASP to make Web application development easier and more tool friendly. In this introductory course, receive an introduction to ASP.NET and Visual Studio.NET, the use of Server Controls and ASP.NET Rich Controls.
Prerequisite: Programming knowledge or background, and a familiarity with HTML.

$579.00
XCM 6171
ASP.NET Advanced
Develop and deploy your ASP.NET applications. In this advanced-level class, work on configuring an ASP.NET application, troubleshooting and deploying an ASP.NET application, creating XML Web Services, and extending ASP.NET applications. Prerequisite: ASP.NET Fundamentals.

$459.00
XCM 6201
C#: Introduction for Developers
The software development industry has gone through several revolutions over the last 50 years, the most recent of which is the introduction of Microsoft’s .NET platform. As a programmer, you will want your skills on the leading edge of this revolution. Of all the languages targeting the .NET platform, C# has been tailor-made for future .NET developers. Prerequisite: Knowledge of programming principals.

$999.00
XCM 7200
MS Project Fundamentals
The smart way to learn Microsoft Project! Develop a project plan with tasks, resources and assignments, master the tools for presenting your plan and creating reports. Track progress and costs, and make real-time adjustments. Learn techniques for managing multiple projects and dependencies. Collaborate using Microsoft Project Server and Microsoft Project Web Access. Prerequisite: Knowledge of project management terms and functions, experience working with Windows, keyboard and mouse.

$359.00
XCM 7201
MS Project Server 2003
Receive instruction on the implementation and use of MS Project Server 2003. Prerequisite: MS Project Fundamentals or comparable knowledge.

$549.00
XCM 7250
Visio Fundamentals
Discover the key functions and features of Visio Professional. Explore basic drawing techniques, create basic diagrams, develop document layouts and use custom features. Prerequisite: Experience with Windows, keyboard and mouse.

$189.00
XCM 7251
Visio Advanced
Work with the more advanced features of Visio. Advanced flowcharts, use formulas, control shape behavior, use layers and work with linked objects. Prerequisite: Visio Fundamentals.
Introduction to the Internet
Explore the basic concepts, technologies and resources of the Internet and World Wide Web. Learn how the Internet works, how to search the Internet and how to use other Internet resources such as e-mail and newsgroups. Prerequisite: Experience with Windows, keyboard and mouse.

$159.00
XCM 8251

A+ Certification Series
Start your IT training off in the right direction. Build a solid foundation with our A+ Essentials and A+ IT Technician classes as you start your IT career. Mapped toward both of CompTIA's A+ exams, this series will help prepare you for the industry recognized A+ certification. The exam vouchers alone have a $290 value. Prerequisite: Knowledge of Windows operating system and basic computer hardware.

$1,299.00
XCM 8252

A+ IT Technician: 220-602
Learn how to support PC hardware in a business setting, including installation, troubleshooting, and component replacement. The target student for this course is responsible for maintaining PCs in their workplace. Prerequisite: CompTIA A+ Essentials course or equivalent experience.

$699.00
XCM 8253

Test Prep: A+ Operating Systems
Take as much time as you need to prepare for the A+ OS exam. In this self-paced, non-instructor led class you will receive an A+ OS LabSim CD and the A+ OS Exam Voucher, a $145 value. Study at home or use one of our computer labs to get yourself ready to pass the A+ OS exam. Match this with our A+ Operating Systems class and you will receive the best of instructor led training to supplement your CD based instruction. When enrolling on-line, please call 913-469-2323 to inform us of your enrollment so that we can mail the materials to you.

$199.00
XCM 8254

Test Prep: A+ Hardware
Take as much time as you need to prepare for the A+ Hardware exam. In this self-paced, non-instructor led class you will receive an A+ Hardware LabSim CD and the A+ Hardware Exam Voucher, a $145 value. Study at home or use one of our computer labs to get yourself ready to pass the A+ Hardware exam. Match this with our A+ Hardware class and you will receive the best of instructor led training to supplement your CD based instruction. When enrolling on-line, please call 913-469-2323 to inform us of your enrollment so that we can mail the materials to you.

$199.00
XCM 8255

A+ Essentials: 220-601
Mapped to the new A+ 2006 exam objectives. Obtain the skills and knowledge necessary to install, build, upgrade, repair, configure, troubleshoot, and perform preventative maintenance on personal computer hardware and operating systems. Prerequisite: Experience with desktop computers and Windows OS.

$699.00
XCM 8261

Test Prep: Network+
Take as much time as you need to prepare for the Network+ exam. In this self-paced, non-instructor led class you will receive a Network+ Lab Sim CD and the Network+ Exam Voucher, a $199 value. Study at home or use one of our computer labs to get yourself ready to pass the Network+ exam. Match this with our Networking Fundamentals and Networking Advanced classes and you will receive the best of instructor led training to supplement your CD based instruction. When enrolling on-line, please call 913-469-2323 to inform us of your enrollment so that we can mail the materials to you.

$199.00

XCM 8262

Network+ Certification Series
Combine our Networking Fundamentals class with our Network+ Test Prep CD in a package which will prepare you for CompTIA’s Network+ certification. We will include an exam voucher, a $207 value, to make this an even greater deal. Prerequisite: A+ Certification or comparable knowledge.

$809.00

XCM 8263

Network Specialist Certificate Series
Prepare for your IT career as you learn about computers and networks. This foundation level certificate maps to the A+ and Network+ certifications. Exam vouchers included. Prerequisite: Basic knowledge of computer hardware and operating systems.

$1,799.00

XCM 8275

MCSA Certification Series
Take our three Microsoft classes and combine them with your A+ and Net+ certifications or your Security+ certification to achieve your MCSA. If you do not have your Security+ Certification, we will be offering it again next Spring. Prerequisite: A+ and Network+ certifications or equivalent knowledge.

$2,499.00

XCM 8279

Internet Marketing
Learn to use the internet as a marketing tool for your business or website.

$299.00

XCM 8280

Internet and PSecurity
Make your personal computer secure by protecting the equipment and data stored on it as well as preventing viruses and spyware. Discover how attacks through the Internet can occur and what steps can be taken to reduce the risk of Internet attacks and e-mail vulnerability. Prerequisite: Windows Introduction or comparable knowledge.

$189.00

XCM 8281

Computer Forensics and Investigation
Explore the skills necessary to launch and complete a successful computer investigation. Discover how to conduct a high-tech investigation, from acquiring
digital evidence to reporting its findings. Coverage includes how to set up a
forensics lab, how to acquire the proper and necessary tools, and how to conduct
the investigation and subsequent digital analysis. Prerequisite: Competent skills
with Windows, keyboard and mouse. Knowledge of Windows XP, Linux, and DOS
helpful.

$799.00
XCM 8291
Security+ Certification Series
Combine our Security+ class with our Security+ Test Prep CD in a package
which will prepare you for CompTIA's Security+ certification. We will include an
exam voucher, a $207 value, to make this an even greater deal. Prerequisite: A+
certification, Network+ certification or equivalent knowledge.

$999.00
XCM 8294
Test Prep: Security+
Take as much time as you need to prepare for the Security+ exam. In this
self-paced, non-instructor led class you will receive a Security+ Lab Sim CD and
the Security+ Exam voucher, a $225 value. Study at home or use one of our
computer labs to get yourself ready to pass the Security+ exam.

$199.00
XCM 8305
Networking Fundamentals
Mapped to CompTia's Network+ certification. This course introduces networking
topics and terminology including topologies, protocols, media and connectors,
signaling, and access methods. You'll also receive an introduction to networking
hardware and the OSI model and explore TCP/IP and IP addressing. Additional
topics include an introduction to IP subnetting, WAN technologies, and security
and remote access protocols.

$659.00
XCM 8309
Word 2003--MOS Certification Test
This CRN is to be used when calling Continuing Education Registration to pay to
take the Word 2003 MOS Certification Exam. The cost for the exam is $60. The
Registration phone number is 913-469-2323. After payment has been made,
students will need to call the Prometric Testing Center at 913-469-2388 to
schedule a time to take the exam.

$60.00
XCM 8310
MOS Certification Test
This CRN is to be used when calling Continuing Education Registration to pay to
take the MOS Certification Exams. The cost is $60 per exam. The Registration
phone number is 913-469-2323. After payment has been made, students will
need to call the Prometric Testing Center at 913-469-2388 to schedule a time to
take the exam.

$60.00
XCM 8311
Excel 2003--MOS Certification Test
This CRN is to be used when calling Continuing Education Registration to pay to
take the Excel 2003 MOS Certification Exam. The cost for the exam is $60. The
Registration phone number is 913-469-2323. After payment has been made, students will need to call the Prometric Testing Center at 913-469-2388 to schedule a time to take the exam.

$60.00
XCM 8312
Access 2003–MOS Certification Test
This CRN is to be used when calling Continuing Education Registration to pay to take the Access 2003 MOS Certification Exam. The cost for the exam is $60. The Registration phone number is 913-469-2323. After payment has been made, students will need to call the Prometric Testing Center at 913-469-2388 to schedule a time to take the exam.

$60.00
XCM 8313
PowerPoint 2003–MOS Certification Test
This CRN is to be used when calling Continuing Education Registration to pay to take the PowerPoint 2003 MOS Certification Exam. The cost for the exam is $60. The Registration phone number is 913-469-2323. After payment has been made, students will need to call the Prometric Testing Center at 913-469-2388 to schedule a time to take the exam.

$60.00
XCM 8315
70-270: Installing, Configuring & Administering MS Windows XP Professional
Mapped toward MS exam 70-270, this class will help you gain the knowledge and skills needed to implement, administer, and troubleshoot information systems that incorporate Microsoft Windows XP Professional. Part of MCSA and MCSE core exam requirement. Prerequisite: A+ Certification and Network+ Certification or equivalent knowledge.

$999.00
XCM 8317
Test Prep: 70-215 Windows 2000 Server
Take as much time as you need to prepare for the Windows 2000 Server exam 70-215. In this self-paced, non-instructor led class you will receive a Windows 2000 Server LabSim CD and the Windows 2000 Server Exam Voucher, a $60 value. Study at home or use one of our computer labs to get yourself ready to pass the Microsoft exam 70-215. When enrolling on-line, please call 913-469-2323 to inform us of your enrollment so that we can mail the materials to you.

$179.00
XCM 8318
Test Prep: 70-217 Implementing and Administering Windows 2000 Active Directory Server
Take as much time as you need to prepare for the Windows Active Directory exam 70-217. In this self-paced, non-instructor led class you will receive a Windows Active Directory LabSim CD and the Windows Active Directory exam voucher, a $125 value. Study at home or use one of our computer labs to get yourself ready to pass the Microsoft exam 70-217. When enrolling on-line, please call 913-469-2323 to inform us of your enrollment so that we can mail the materials to you.

$229.00
XCM 8319
Test Prep: 70-290 Windows Server 2003
Take as much time as you need to prepare for the Windows Server 2003 exam 70-290. In this self-paced, non-instructor led class you will receive a Windows Server 2003 LabSim CD and the Windows Server 2003 exam voucher, a $125 value. Study at home or use one of our computer labs to get yourself ready to pass the Microsoft exam 70-290. When enrolling on-line, please call 913-469-2323 to inform us of your enrollment so that we can mail the materials to you.

$229.00
XCM 8323

Test Prep: 70-210 Windows 2000 Professional
Take as much time as you need to prepare for the Windows 2000 Professional exam 70-210. In this self-paced, non-instructor led class you will receive a Windows 2000 Professional LabSim CD and the Windows 2000 Professional Exam Voucher, a $60 value. Study at home or use one of our computer labs to get yourself ready to pass the Microsoft exam 70-210. When enrolling on-line, please call 913-469-2323 to inform us of your enrollment so that we can mail the materials to you.

$179.00
XCM 8375

70-291: Implementing, Managing & Maintaining MS Windows Server 2003 Network Infrastructure
Mapped toward exam 70-291, in this class you will explore the skills needed to implement, manage, and maintain a Microsoft Windows Server 2003 network infrastructure. Part of MCSA, MCSE and can be used for an MCDBA core exam requirement. Prerequisite: A+ Certification and Network+ Certification or equivalent knowledge.

$999.00
XCM 8376

Test Prep: 70-216 Implementing and Administering Windows 2000 Network Infrastructure
Take as much time as you need to prepare for the Implementing and Administering Windows 2000 Network Infrastructure exam 70-216. In this self-paced, non-instructor led class you will receive an Implementing and Administering Windows 2000 Network Infrastructure LabSim CD and the Implementing and Administering Windows 2000 Network Infrastructure exam voucher, a $125 value. Study at home or use one of our computer labs to get yourself ready to pass the Microsoft exam 70-216. When enrolling on-line, please call 913-469-2323 to inform us of your enrollment so that we can mail the materials to you.

$229.00
XCM 8377

70-293: Planning and Maintaining a Microsoft Windows Server 2003 Network Infrastructure
Mapped toward MS exam 70-293, this class will help you gain knowledge and skills necessary to plan and maintain a Windows Server 2003 network infrastructure. Part of the MCSE core exam and MCDBA elective exam requirement. Prerequisite: 70-291: Implementing, Managing, and Maintaining a Microsoft Windows Server 2003 Network Infrastructure.

$1,199.00
XCM 8378

70-294: Planning, Implementing, Maintaining a MS Windows Server 2003 Active Directory Infrastructure
Mapped toward MS exam 70-294, this class will help you gain the knowledge and skills to successfully plan, implement, and troubleshoot a Microsoft Windows Server 2003 Active Directory directory service infrastructure. The course focuses on a Windows Server 2003 directory service environment, including forest and domain structure, Domain Name System (DNS), site topology and replication, organizational unit structure and delegation of administration, Group Policy, and user, group, and computer account strategies. Part of the MCSE core exam requirement. Prerequisite: 70-293: Planning and Maintaining a MS Windows Server 2003 Network Infrastructure.

$1,199.00  
XCM 8379

**70-297: Designing a Microsoft Windows Server 2003 Active Directory & Network Infrastructure**  
Mapped toward MS exam 70-297, this class will help you gain the knowledge and skills to design a Microsoft Active Directory directory service and network infrastructure for a Microsoft Windows Server 2003 environment. Part of MCSE core exam requirement. Prerequisite: 70-293: Planning and Maintaining a MS Windows Server 2003 Network Infrastructure AND 70-294: Planning, Implementing, and Maintaining a Microsoft Windows Server 2003 Active Directory Infrastructure.

$1,199.00  
XCM 8392

**Test Prep: 70-270 Microsoft Windows XP Professional**  
Take as much time as you need to prepare for the Windows XP Professional exam 70-270. In this self-paced, non-instructor led class you will receive a Managing a Windows XP Professional LabSim CD and the Windows XP Professional exam voucher, a $125 value. Study at home or use one of our computer labs to get yourself ready to pass the Microsoft exam 70-270. When enrolling on-line, please call 913-469-2323 to inform us of your enrollment so that we can mail the materials to you.

$229.00  
XCM 8395

**70-290: Managing and Maintaining a MS Windows Server 2003 Environment**  
Explore the Windows Server 2003 Editions and the concepts and practices of networked systems. Management of hardware, user groups, computer accounts, file access and disk storage are thoroughly explored. Server administration is also covered, including important concepts such as Group Policy, performance monitoring, backups, disaster recovery, and Windows Server 2003 security features. Part of MCSA, MCSE and can be used for an MCDBA core exam requirement. Prerequisite: A+ Certification and Network+ Certification or equivalent knowledge.

$999.00  
XCM 8396

**Test Prep: 70-218 Managing a Microsoft Windows 2000 Network Environment**  
Take as much time as you need to prepare for the Managing a Windows 2000 Network Environment exam 70-218. In this self-paced, non-instructor led class you will receive a Managing a Microsoft Windows 2000 Network Environment LabSim CD and the Managing a Microsoft Windows 2000 Network Environment exam voucher, a $125 value. Study at home or use one of our computer labs to get yourself ready to pass the Microsoft exam 70-218. When enrolling on-line, please call 913-469-2323 to inform us of your enrollment so that we can mail the materials to you.

$229.00
XCM 8397
Test Prep: 70-291 Managing a Windows 2003 Network Environment
Take as much time as you need to prepare for the Managing a Windows 2003 Network Environment exam 70-291. In this self-paced, non-instructor led class you will receive a Managing a Windows 2003 Network Environment LabSim CD and the Managing a Windows 2003 Network Environment exam voucher, a $125 value. Study at home or use one of our computer labs to get yourself ready to pass the Microsoft exam 70-291. When enrolling on-line, please call 913-469-2323 to inform us of your enrollment so that we can mail the materials to you.

$229.00

XCM 8398
Test Prep: 70-293 Planning a Windows Server 2003 Network
Take as much time as you need to prepare for the Planning a Windows Server 2003 Network exam 70-293. In this self-paced, non-instructor led class you will receive a Planning a Windows Server 2003 Network LabSim CD and the Planning a Windows Server 2003 Network exam voucher, a $125 value. Study at home or use one of our computer labs to get yourself ready to pass the Microsoft exam 70-293. When enrolling on-line, please call 913-469-2323 to inform us of your enrollment so that we can mail the materials to you.

$229.00

XCM 8399
Test Prep: 70-294 Windows Server 2003 Active Directory
Take as much time as you need to prepare for the Windows Server 2003 Active Directory exam 70-294. In this self-paced, non-instructor led class you will receive a Windows Server 2003 Active Directory LabSim CD and the Windows Server 2003 Active Directory exam voucher, a $125 value. Study at home or use one of our computer labs to get yourself ready to pass the Microsoft exam 70-294. When enrolling on-line, please call 913-469-2323 to inform us of your enrollment so that we can mail the materials to you.

$229.00

XCM 8400
Telecommunications Fundamentals
Explore a wide range of topics that are fundamental to telecommunications. Review the historical background, organizations and institutions that regulate the standards of the industry. Discuss telecommunications both from the perspectives of voice and data communications. The course follows a flow of services, networks, and applications. With this flow, you will study in detail the fundamental concepts of basic telephony, data transmission, and data connectivity. Prerequisite: none

$359.00

XCM 8410
VoIP Fundamentals
Designed to provide students with the fundamentals of Voice over IP (VoIP) networking technology. Concepts covered include an explanation of the national voice and data network, telephony terminology, VoIP protocol analysis and telephony survey techniques. Prerequisite: CCNA or comparable network experience.

$999.00

XCM 8411
Deploying VoIP Solutions
Work with Cisco Call Manager as you cover the basics of Call Manager from installation to configuration to deployment. Prerequisite: VoIP Fundamentals.

$999.00
XCM 8426

.NET Programming for Wireless Devices
The Microsoft .NET Compaq Framework allows developers to use the power of the .NET Framework to build mobile applications. In this 2-day lecture course students learn to utilize Smart Device Extensions and the Microsoft .NET Compact Framework to build mobile applications for a variety of devices as well as applications that connect and disconnect across wireless networks. Prerequisites: C# Fundamentals or Visual Basic.NET.

$999.00
XCM 8501

Oracle 10g SQL
Students receive a solid foundation for creating databases and strengthen their knowledge in creating queries. To assist students in bridging SQL topics to further studies, students are introduced to SQL tuning, compare Oracle's SQL syntax to other databases, and describe how SQL can be embedded in applications. This is an entry-level course to help students develop SQL, DDL, & DML knowledge and experience specific to Oracle. Prerequisite: Efficient with MS Windows OS and basic knowledge of database functions.

$729.00
XCM 8502

Oracle PL/SQL Advanced
Part of Oracle's 9i SQL exam. As a continuation of the Oracle PL/SQL Fundamentals course, you will create Oracle database objects, manipulate Oracle data, create other database objects, and work with User Access Control. Practice exams are available for self-study. Prerequisite: Oracle PL/SQL Fundamentals.

$349.00
XCM 8503

Oracle 10g Developer Certified Associate Series
Combine your SQL and PL/SQL skills to work toward your Oracle 10g Developer Associate Certification. Prerequisite: Understanding of databases and database concepts. Familiarity with SQL.

$1,349.00
XCM 8504

Oracle 10g PL/SQL
Create dynamic client/server applications using PL/SQL. Explore scripting semantics and syntax, and fully detail the PL/SQL functionality of Oracle Database 10g. Learn how to write powerful PL/SQL programs, interact with Oracle databases, perform complex calculations, and handle error conditions.

$729.00
XCM 8506

Oracle 10g Administrator Certified Associate Series
Combine our Oracle 10g: SQL and Oracle 10g: Database Administrator I classes to receive instruction as you prepare for the Oracle 10g DBA Certified Associate certification. Prerequisite: Access VBA and Access Application Development, or Oracle 9i DBA certification or comparable Microsoft certification.
$1,349.00
XCM 8507
Oracle SQL Fundamentals
Receive a solid understanding of Oracle9i SQL and how to use it effectively. Hands-on activities at the end of each chapter, such as review questions, assignments, and a case project, help to reinforce Oracle9i SQL skills. In association with Oracle SQL Advanced, this class maps to exam 1Z0-007. Prerequisite: Basic understanding of databases, familiarity with MS Access or another database highly recommended.

$349.00
XCM 8508
Oracle 10g New Features
Receive an introduction to the new features in Oracle Database 10g Release 2 - the database for Grid computing. Learn how to use Oracle Database 10g new features to increase database availability, to simplify database performance monitoring and tuning through the use of Oracle Database 10g Advisors, and to offer simplified database manageability. The course also covers security changes that students need to understand. This course counts towards the hands-on course requirement for the Oracle 9i Database Administrator and Oracle Database 10g Administrator Certification.

$899.00
XCM 8509
Oracle SQL Advanced
Receive a solid understanding of Oracle9i SQL and how to use it effectively. Hands-on activities at the end of each chapter, such as review questions, assignments, and a case project, help to reinforce Oracle9i SQL skills. In association with Oracle SQL Fundamentals, this class maps to exam 1Z0-007. Prerequisite: Oracle SQL Fundamentals.

$349.00
XCM 8512
Oracle 10g Database Administrator I: Implementation & Administration
Receive instruction using a real-world approach, combined with topics ranging from initialization parameters and table space storage to data integrity, constraints, and user profiles. Prep for the updated Oracle certification exam, #1Z0-042. Prerequisite: Oracle SQL and Oracle Guide to 10g or comparable knowledge.

$729.00
XCM 8514
Oracle DBA I Advanced
Part of Oracle's Database Administrator Certified Associate program. As a continuation of the Oracle DBA I Fundamentals course, you will work with managing database objects and database users, then complete three practice exams. Prerequisite: Oracle DBA I Fundamentals.

$349.00
XCM 8515
Oracle 10g Database Administrator II: Backup/Recovery & Network Administration
Receive real-world instruction on the use of key tools and techniques for Oracle database backup, recovery and network administration. Prep for the updated Oracle certification exam, #1Z0-043. Prerequisite: Oracle 10g Administrator Certified Associate certification or comparable knowledge.
$729.00  
XCM 8516  
Oracle DBA Performance Tuning Advanced  
Take the second half of the Oracle Database Performance Tuning certification path. Receive instruction in advanced tuning, tuning tools and application tuning. In conjunction with Oracle DBA Performance Tuning Fundamentals, this class prepares students for the Oracle9i Database Performance Tuning certification exam #1Z0-033. Prerequisite: Oracle PL/SQL, Oracle DBA I Fundamentals and Advanced or current Oracle DBA Associates certification.

$349.00  
XCM 8517  
Oracle 10g Performance Tuning  
Get the most out of your 10g Database by learning performance tuning methods that maximize the utility of the database. Students learn how to benefit from Oracle Database 10g automatic tuning features, as well as practicing the manual tuning methods using the statspack tool. After clearly defining the various methodologies one can use to tune an Oracle Database, the course covers the various tunable components of an Oracle Database. Throughout the course, students experience hands-on the tuning of an Oracle Database by practicing through a series of workshops. This course counts towards the Hands-on course requirement for the Oracle Database 10g Administrator Professional Certification. Prerequisite: Oracle 10g Administrator Certified Associate certification or comparable knowledge.

$899.00  
XCM 8518  
Oracle DBA II Advanced  
Take the second half of the Oracle DBA II certification path. Receive instruction in complete and incomplete recovery with Recovery Manager, recovery catalog, Recovery Manager maintenance, loading and transporting data, network administrations and server-side configuration. In conjunction with Oracle DBA II Fundamentals, this class prepares students for the Oracle certification exam #1Z0-032. Prerequisite: Oracle PL/SQL, Oracle DBA I Fundamentals and Advanced or current Oracle DBA Associates certification.

$349.00  
XCM 8540  
Oracle 10g Administrator Certified Professional Series  
Combine our Oracle 10g: Database Administrator II class and Oracle: 10g Performance Tuning classes to receive instruction as you prepare for the Oracle 10g DBA Certified Professional certification. Prerequisite: Oracle 10g Administrator Certified Associate certification or comparable knowledge.

$1,409.00  
XCM 8570  
Crystal Reports Fundamentals  
You will learn the basics of creating reports using Crystal Reports, including sorting, selecting records, grouping, linking, creating formulas, using Report Expert, and distributing data to other users. Prerequisite: Experience with Windows operating systems. Preferred knowledge: Experience with database applications such as Microsoft Access.

$359.00  
XCM 8575  
Crystal Reports Advanced
This course is designed for users with a basic knowledge of Crystal Reports. You’ll learn to use advanced formulas, formatting and cross-tabs, and how to create and modify dictionary files. Topics include conditional formatting, subreports, parameter fields and Crystal SQL Designer. Prerequisite: Crystal Reports Fundamentals course or equivalent knowledge.

$359.00  
XCM 8576  
Introduction to Data Mining Techniques  
Make the most of your data and gain an understanding of the latest data mining techniques. These tools and techniques can assist with customer relationship management, strategic planning, and the development of more effective marketing campaigns. Prerequisite: None.

$399.00  
XCM 8600  
Java Programming  
This course teaches you the syntax of the Java programming language, object-oriented programming with Java, including graphical-user interfaces, exceptions, file input/output, and developing Java applications and applets. This course uses the Sun curriculum and supports the Sun Java certification. Prerequisite: Knowledge of programming principals.

$999.00  
XCM 8616  
Java Server Pages (JSP)  
Java Server Pages (JSP) builds on the popular Java servlet technology and makes it easier to develop dynamic web applications. This class is for you, even if you’re not a hard-core programmer. Java Server Pages is loaded with clean, portable, well-documented code, providing experts with invaluable tips and insights while giving newcomers all they need to assess and implement their first JSP applications. Prerequisite: Java Programming or equivalent experience.

$999.00  
XCM 8617  
Java Servlets  
Begin with an overview of servlets, including architecture and comparisons to programming alternatives (i.e., .NET). You will explore how to configure the development environment, build and run basic servlets, chain servlets, and create beans and Java Server Pages. Prerequisite: Java Programming and HTML or equivalent knowledge.

$599.00  
XCM 8620  
JavaScript  
Following a review of HTML, you’ll cover JavaScript scripting basics, using variables and functions, validating user-entered data, working with windows and frames, and adding advanced elements to the Web page, including animation, cascading style sheets and cookies. Prerequisite: HTML & Web Page Design, Programming Fundamentals.

$649.00  
XCM 8632  
SQL: SQL Fundamentals  
This course introduces the fundamental concepts of SQL. Work with tables, keys,
viewing data and functions. Prerequisite: Access Fundamentals and Access Intermediate.

$359.00

XCM 8654

PHP and MySQL for Dynamic Web Sites
When static HTML pages no longer cut it, you need to step up to dynamic, database-driven sites that represent the future of the Web. Explore the way users work with PHP and MySQL to build dynamic sites using Open Source tools. Work with PHP and MySQL separately before going on to cover security, sessions and cookies, and using additional Web tools. Finish the class by creating sample applications. Prerequisite: HTML and Web Page Design, Access Intermediate or working knowledge of database design.

$559.00

XCM 8765

CCNA Certification Series
Ramp up for your CCNA certification as you learn about Cisco routers, switches and other networking devices. Prerequisite: Network+ certification or comparable knowledge. Work in a Cisco environment also helpful.

$1,599.00

XCM 8831

MCTS: Implementing and Maintaining SQL Server 2005 Certification Series
Combine our Implementing and Maintaining SQL Server 2005 classes as you work toward one of Microsoft's newest certifications, 70-431 MCTS: SQL Server 2005 Implementation and Maintenance. Prerequisite: Knowledge of relational databases and database design.

$1,309.00

XCM 8832

SQL: Implementing SQL Server 2005
Receive the product knowledge and skills needed to implement a Microsoft SQL Server 2005 database. Focus on how to use SQL Server 2005 product features and tools related to implementing a database. Part one of the Microsoft Certified Technology Specialist (MCTS) coursework. Prerequisite: Knowledge of relational databases and database design.

$709.00

XCM 8833

SQL: Maintaining SQL Server 2005
Receive the product knowledge and skills needed to maintain a Microsoft SQL Server 2005 database. Focus on how to use SQL Server 2005 product features and tools related to maintaining a database. Part two of the Microsoft Certified Technology Specialist (MCTS) coursework. Prerequisite: Knowledge of relational databases and database design.

$709.00

XCM 8834

SQL Server 2005 New Features
Get full details on all the innovative features and benefits available in SQL Server 2005. Discuss the improved enterprise data management capabilities, developer functions, and business intelligence tools.

$549.00
XCM 8835

70-228: Administering Microsoft SQL Server 2000
Mapped to exam 70-228, this course covers how to install Microsoft SQL Server, understand the system architecture and manage services. You'll also learn to develop Transact-SQL queries, plan database integrity, manage security, back up and restore databases, schedule alerts, monitor and tune database performance, implement replication, and employ ODBC extensibility. Meets MCDBA core and MCSE elective exam requirements. Prerequisite: Networking Fundamentals or Network+ certification, or Windows 2000 Server and Professional experience.

$799.00

XCM 8836

SQL Reporting Services
To be successful in the marketplace, businesses need to extend information beyond the walls of their organization and seamlessly interact with customers, partners, and suppliers in real time. Microsoft SQL Server Reporting Services enables you to do just that. 28 contact hours. Prerequisite: Knowledge of SQL 2005 or previous SQL experience.

$899.00

XCM 8837

Transact SQL
Transact-SQL is central to the use of Microsoft SQL Server. Learn about Transact-SQL statements and how to use them to communicate with SQL Server. Prerequisite: Knowledge of SQL Server 2000 or SQL Server 2005.

$709.00

XCM 8880

70-229: SQL Server 2000 Database Development
Mapped to exam 70-229, this course covers how to develop applications in a Microsoft SQL Server environment, including data modeling and Microsoft's SQL language. You will learn how to create tables, modify data, use indexes, define views, create triggers and interface with other application tools such as Microsoft Access. Meets MCDBA core and MCSE elective exam requirements. Prerequisite: Knowledge of relational databases and database design.

$799.00

XCM 8925

PMP Test Prep
This course contains topics required for Project Management Institute's (PMI) Project Management Professional (PMP) certification exam. You will cover the application and testing process for PMP as well as key test topics, such as project integration, time, cost, quality, communication and risk. The course will be taught by certified instructors. Prerequisite: industry experience with project management.

$999.00

XCM 8927

Project Management Essentials
Project Management is defined as the process of planning, organizing, staffing, directing and controlling the production of a system. This 3-day course uses lecture, discussion and case studies to provide an overview of project management concepts and principles. Topics include the Project Management Framework, Standards, Process Groups, and Knowledge Areas. Specific issues such as project authority, leadership, people skills, and stakeholder communication strategies will also be covered.
Estimating and Managing Project Costs
The successful management of project cost is essential for the success of an organization. Realistic estimates are required to make informed decisions about funding projects. During project execution, the estimate provides a basis for tracking and controlling project costs. This one-day course ensures that a comprehensive process is used to estimate project costs with an appropriate level of detail. Technical professionals are presented with financial concepts that will improve communication and teamwork with business and financial managers. Practice in developing estimates, creating estimate forms, and analyzing cost reports ensures participants leave the course ready to apply what they have learned. Prerequisite: Project Management Essentials or equivalent experience.

Project Risk Management
Identifying, analyzing, and responding to risk are crucial elements for the successful management of projects. In this one-day course, students will gain an understanding of risk management and the role and elements of a risk management plan (RMP). Other topics include identifying risks, methods and tools for analyzing risks and determining risk impacts, risk prioritization and mitigation techniques, and methods to track, control, and communicate risks throughout the project life cycle. Prerequisite: Project Management Essentials or equivalent knowledge.

Effective Project Scheduling and Control
Project managers are charged with developing and managing project schedules. On-time delivery is often critical to project success, and also contributes to controlling project cost. This 2-day course ensures students have a foundation of critical path method (CPM) scheduling concepts, and the ability to build a workable project plan. Participants practice developing and analyzing schedules using Microsoft Project as a software tool. Prerequisite: Project Management Essentials or equivalent experience.

Effective Communication for Project Managers
Internal and external client communication skills are the trademark of successful project personnel. Managing project communications is one of the most important duties of a project manager. This two-day workshop emphasizes the importance of communication skills in building strong partnerships between technical professionals, project managers, and their customers. Along with providing models for diagnosing and reducing existing barriers to effective communication, enrollees learn how to match the mode of communication to the message. Through case studies and role-plays, this course builds specific skills for active listening, one-on-one and group meetings, telephone calls, and written communications. This course also helps project managers assess their project communication needs, plan for meeting those needs, and discusses effectively communicating project status and forecasts. Prerequisite: Project Management Essentials or equivalent experience.

Project Leadership and Team Motivation
Effective leadership and team motivation are critical for the success of any
In this two-day seminar students are introduced to the elements and methods of leadership in a technical environment as well as the tools and techniques for team development and motivation. Other topics include resolving conflict and managing personnel issues, analyzing stages of team development and maximizing team effectiveness. Prerequisite: Project Management Essentials or equivalent experience.

$559.00

XCM 8934

Project Quality Management
Project Quality Management focuses on overseeing product quality and ensuring process quality when creating project deliverables. In this one-day course, students master the quality planning process, quality planning tools and metrics, and quality assurance. Prerequisite: Project Management Essentials or equivalent experience.

$279.00

XCM 8935

Project Management Workshop
This course is designed, but not limited to, as a capstone for the Certificate of Project Management. In this 3-day workshop students gain experience and reinforce concepts learned in previous project management seminars by putting their knowledge into practice by simulating managing a real-world project. Prerequisite: Completion or equivalent experience of all other requirements for the Certificate of Project Management.

$829.00

XCM 8936

CAPM Test Prep
The CAPM is designed for project team members and entry-level project managers who want a credential to recognize their value to project team performance. The CAPM Credential can benefit professionals from all disciplines by demonstrating clear direction to their work and by gaining knowledge of project management processes and terminology.

$899.00

XCM 8937

Performance Management
Performance Management is an integral part of Project Quality and Project Human Resources Management. This 1-day course focuses on effective performance management. Topics include performance diagnosis, evaluation, communication, and reporting. Prerequisite: Project Management Essentials or equivalent experience.

$279.00

XCM 8938

Software Testing
This 2-day workshop defines a process to implement a structured testing environment for all phases of the Systems Development Life Cycle (SDLC). It covers the four techniques of structured testing and the application of those techniques during the phases of the SDLC. Topics include risk assessment, creating functional and structural test plans, test scripts, and test cases. Break-it testing, complexity testing, and basis path testing are also introduced. Prerequisite: Project Management Essentials or equivalent experience.

$559.00
XCM 8939
Project Quality Management
A description is not available for this course.

$299.00
XCM 9001
Web-Based Introduction to Networking
This class explains computer networking basics in terms that you can easily understand, using concepts common to everyday, non-computer experience. A brief introduction to networking history provides context, explaining how networks have become so important to businesses and individuals. The course emphasizes networking fundamentals, explaining the software and hardware that makes networking possible. The course stresses understanding how and why networks work, rather than focusing on memorization of terms and numbers. Note: Please confirm computer requirements before registering for this course and Web registration is not available. After you register, complete the required on-line orientation at www.ed2go.com/jccc.

$104.00
XCM 9004
Web-Based Java for the Absolute Beginner
If you want to learn Java, but don't have any prior programming knowledge, you'll enjoy this course. A Java programmer with more than nine years of real-world corporate programming experience teaches you almost every important Java topic at a leisurely pace, using clear and easy-to-understand language. Practical exercises and examples will help you feel comfortable with the most important Java concepts, including databases and Java Server Pages. Note: Please confirm computer requirements before registering for this course and Web registration is not available. After you register for this course complete the required on-line orientation at www.ed2go.com.

$104.00
XCM 9005
Web-Based Intermediate Networking
Learn real-world applications for the concepts you learned in "Introduction to Networking." You'll gain a full understanding of almost every aspect of networking technology, including hot topics such as virtual private networks, security, and Internet connectivity. Completion of this course and its prerequisite should serve as a springboard for a career in computer networking or training for CCNA certification. Note: Please confirm computer requirements before registering for this course and Web registration is not available. After you register, complete the on-line orientation at www.ed2go.com/jccc.

$104.00
XCM 9006
Web-Based Introduction to PC Troubleshooting
This course takes you through the typical hardware and operating system problems encountered by technicians and teaches you troubleshooting techniques to decipher any problem and gives you the skills to solve them. Note: Please confirm computer requirements before registering for this course and Web registration is not available. After you register, complete the required on-line orientation at www.ed2go.com/jccc.

$104.00
XCM 9008
Web-Based Introduction to Oracle
This course will introduce you to the Structured Query Language (SQL), Oracle's SQL *Plus, and other valuable tools used to develop, manage, and reference an Oracle database. Note: Please check computer requirements before registering for this course and Web registration is not available. After you register, complete the required on-line orientation at www.ed2go.com/jccc.

$104.00
XCM 9009
Web-Based Introduction to Database Development
This course will guide you step-by-step through all the phases of a system development project to guarantee that the resulting project will not only work as it was designed, but also that the design truly responds to user needs. Note: Please confirm computer requirements before registering for this course and Web registration is not available. After you register, complete the required on-line orientation at www.ed2go.com/jccc.

$104.00
XCM 9010
Web-Based Introduction to SQL
Learn the key concepts of Structured Query Language (SQL) and gain a solid working knowledge of this powerful and universal database programming language. You will learn the basic structure of relational databases, how to read and write simple and complex SQL statements, and advanced data manipulation techniques. Note: Please confirm computer requirements before registering for this course and Web registration is not available. After you register, complete the required on-line orientation at www.ed2go.com/jccc.

$104.00
XCM 9011
Web-Based Introduction to Perl Programming
Learn Perl, a powerful and easy to use scripting language used on PCs, servers, and on the Internet for a wide range of programming problems. Perl is a capable as C, C++, and Java, but is easier to learn and does not require the software development tools and environments required by those languages. Note: Please confirm computer requirements before registering for this course and Web registration is not available. After you register, complete the required on-line orientation at www.ed2go.com/jccc.

$104.00
XCM 9012
Web-Based Creating User Requirements Documents
Your success as a developer depends almost entirely on your ability to meet or exceed your customer's every expectation. This course will show you, step by step, how to discover and document precisely what your customer wants. You will learn how to gather, manage and document user requirements for any type of project in any industry. Note: Please confirm computer requirements before registering for this course and Web registration is not available. After you register, complete the required on-line orientation at www.ed2go.com/jccc.

$104.00
XCM 9013
Web-Based JavaScript Programming for the Web
Learn how to spiff up your pages with cool effects like mouseOvers, popUps, and alerts and hot links, scrolling messages, navigation enhancements, basic forms, and more, with JavaScript! Note: Please confirm computer requirements before registering for this course and Web registration is not available. After you register, complete the required on-line orientation at www.ed2go.com/jccc.
Web-Based C++ for the Absolute Beginner
Create programs for Microsoft Windows using Borland C++ Builder. Learn Object-Oriented techniques, how to create windows and forms, and how to program in a step-by-step nature. This course is ideal whether you are an enthusiast, business person hoping to advance your career, or someone who already knows how to program but wants to move ahead to C++ and Object-Oriented Programming. Note: Confirm computer requirements before registering for this course. Web registration is not available. After you register, complete the required on-line orientation at www.ed2go.com/jccc. C++ Borland software is available through amazon.com for $72.99.

Web-Based Creating a Small Office Network
Create your own home office or small office network using Windows XP. Slash expenses and improve efficiency by learning how to share printers, Internet connections, drives and documents. You will learn what hardware you will need, how to configure Windows XP to run your small network, how to configure your printers and other peripherals and how to manage and maintain your network and keep it secure. Note: Confirm computer requirements before registering for this course. Web registration is not available. After you register, complete the required on-line orientation at www.ed2go.com/jccc.

Web-Based Introduction to Visual Basic .Net
Visual Basic .Net is the most widely used programming language and development tool for creating Windows applications. The Visual Basic .Net programming language is easy to learn, and the Visual Basic .Net development environment enables you to rapidly build Windows applications with little more than a few clicks of your mouse. Note: Please confirm computer requirements before registering for this course. Web registration is not available. After you register, complete the required on-line orientation at www.ed2go.com/jccc.

Web-Based Introduction to VBA
Discover the time saving power of document automation. Cut through the mystery of object-oriented programming, the Word object model and the logical structure of the Visual Basic for Applications language by developing a customized document automation program one lesson at a time. Note: Please confirm computer requirements before registering for this course and web registration is not available. After registering, please complete the on-line orientation at www.ed2go/jccc.com.

Gain in-demand skills writing sophisticated Windows programs that access and modify business databases and implement SQL. This course will be ideal if you are a Visual Basic .NET programmer and you want to upgrade your programming skills or prepare yourself for a new and exciting line of work. Note: Please confirm computer requirements before registering for this course and Web registration is not available. After registration, complete the required on-line orientation at www.ed2go.com/jccc.
$104.00
XCM 9020

WB: Intermediate Oracle
This course will give you the skills you need to write powerful and flexible programs using SQL. Learn the building blocks and core features of PL/SQL and begin building fully functional PL/SQL programs with procedures, packages, debugging routines, database structures, triggers and cursor processing. Note: Please confirm computer requirements before registering for this course and Web registration is not available. After registration, complete the required on-line orientation at www.ed2go.com/jccc.

$104.00
XCM 9021

Web-Based C# Programming for the Absolute Beginner
Learn the fundamentals of computer programming with the hot new C# programming language. Note: Please confirm computer requirements before registering for this course and Web registration is not available. After registration, complete the required on-line orientation at www.ed2go.com/jccc.

$104.00
XCM 9022

WB: Wireless Networking
Industry experts show you how wireless networking works, as well as how to plan, deploy and connect to wireless networks.

$104.00
XCM 9023

WB: Intro to PC Security
Security expert teaches the fundamentals of PC and network security.

$104.00
XCM 9024

Web-Based Introduction to PHP & MySQL
Gain skills that are highly in demand by learning to build dynamic, data-driven Web sites using two of the most popular open source technologies available: PHP and MySQL. In this result -oriented, hands-on class, you'll master essential programming concepts by designing and building a full-featured Web site powered by PHP and MySQL. Note: Please confirm computer requirements before registering for this course. Web registration is not available. After registration, complete the required on-line orientation at www.ed2go.com/jccc.

$104.00
XCM 9025

Web-Based Introduction to FreeHand MX
Harness the power of Freehand MX to create stunning logos, brochures, book covers, flyers, Web graphics, and more! Gain an understanding of the dramatic differences between creating designs for onscreen viewing and creating images for printing. Quickly convert your printable artwork into Web-compatible designs. Integrate Freehand with Fireworks, Flash, and Dreamweaver for a total Web development solution. Learn how to publish your illustrations in a variety of formats, including print, Web, Adobe PDF, and Macromedia Flash. Note: Please confirm computer requirements before registering for this course. Web registration is not available. After registration, complete the required on-line orientation at www.ed2go.com/jccc.
Web-Based Introduction to Photoshop CS2
If you want to work with graphics, Photoshop is the program you will most need to learn. This hands-on, project-oriented course is filled with detailed step-by-step instructions you'll have no trouble following as you learn how to edit photos, create basic paintings, and prepare your images for printing. Discover how to improve photographs by removing flaws, correcting for poor exposure, or adding new elements. You'll even learn how much fun it can be to paint again without the mess to clean up. And, best of all, no prior artistic ability is required to take this course. Note: Please confirm computer requirements before registering for this course. Web registration is not available. After registration, complete the required on-line orientation at www.ed2go.com/jccc.

Web-Based Creating a Home Network
Create your own home network so that your computers can easily share printers, Internet connections, drives, documents, photos, and other resources. You'll learn what hardware you need, how to configure Windows XP to run your small network, and how to configure printers and other peripherals. By the end of the course, you'll know how to manage and maintain your network, and how to keep it secure. Note: Please confirm computer requirements before registering for this course. Web registration is not available. After registration, complete the required on-line orientation at www.ed2go.com/jccc.

Web-Based Making Movies with Windows XP
If you have Windows XP, you already have Microsoft Movie Maker, the program that makes creating professional-quality movies fun and easy. You can edit your existing video to show only the best parts, and leave out the not-so-good parts. Add special effects, titles, credits, photos, background music, sound effects, and more to turn your home video into truly entertaining digital movies. Note: Please confirm computer requirements before registering for this course. Web registration is not available. After registration, complete the required on-line orientation at www.ed2go.com/jccc.

Web-Based Introduction to Linux
Learn how to navigate through the world of Linux, and use the free office productivity, multimedia, and Internet software packages provided by Linux. Also learn how to use your Linux desktop to access the Internet to browse web sites, download files, chat with friends, and work with e-mail. Note: Please confirm computer requirements before registering for this course. Web registration is not available. After registration, complete the required on-line orientation at www.ed2go.com/jccc.

Web-Based Intermediate C# Programming
Build upon your current knowledge of programming logic by writing Graphical User Interface applications in the C# programming language. Learn how to write applications with menus, toolbars, and files, and find out how to interact with databases and write SQL queries. Note: Please confirm computer requirements before registering for this course. Web registration is not available. After registration, complete the on-line orientation at www.ed2go.com/jccc.
$104.00  
XCM 9031  
**WB: Advanced PC Security**  
When is hacking legal? When you use it to secure your own network. This new method of hacking, called ethical hacking or white-hat hacking, uses common and readily available hacking tools and techniques to audit your network so you can locate and close security holes. Note: Please confirm computer requirements before registering for this course, web registration is not available. After registration, complete the required on-line orientation at www.ed2go.com/jccc.

$104.00  
XCM 9032  
**Web-Based Introduction to Alice 2.0 Programming**  
Learn how to write three-dimensional animation and game programs while learning object-oriented programming principles at the same time. If you're a novice programmer who wants to master programming concepts like decisions, loops, methods, and arrays, this course is for you! While building fun interactive worlds (including a flight simulator), you'll also learn more advanced programming concepts like arrays and event-driven programming. When you're finished, you'll be able to apply these concepts to other programming languages, like Java, C++, C#, or Visual Basic. Note: Please confirm computer requirements before registering for this course. Web registration is not available. After registration, complete the required on-line orientation at www.ed2go.com/jccc.

$104.00  
XCM 9400  
**Outlook Fundamentals - 2003**  
Outlook is much more than just an e-mail application. Create and use messages, contacts, appointments, tasks, and other Outlook items as you explore many of Outlook's rich features. Prerequisite: Knowledge of Windows, keyboard and mouse.

$169.00  
XCM 9401  
**Outlook Advanced - 2003**  
Explore activities such as customizing Outlook and managing the mailbox. Search and filter messages while setting rules. Work with folders, templates and forms, importing and exporting data, public, shared, and offline folders. Prerequisite: Outlook Fundamentals - 2003 or comparable knowledge.

$169.00  
XCM 9402  
**SharePoint Services: Collaborative Solutions**  
Work with SharePoint to share information and collaborate on projects in an efficient and cost-effective manner. Use Windows SharePoint Services to create virtual team Web sites to enable information sharing and collaboration between project team or department members. Work with InfoPath to create and implement forms to gather and share information. Prerequisite: Proficiency with Windows, keyboard and mouse.

$359.00  
XCM 9403  
**SharePoint Services: Installation and Implementation**  
Expand your SharePoint solution to include a variety of teams with different needs and manage the sites and servers. Create virtual Web-based meeting and document workspaces, as well as administer, maintain, and extend the
functionality of a team Web site. Prerequisite: SharePoint Services: Collaborative Solutions.

$359.00
XCM 9404

InfoPath: Creating InfoPath Forms
You're a person who has information that needs to be gathered and shared. InfoPath is a product that does just that. Discover how to use InfoPath to gather and share information by creating and implementing XML-based forms. Prerequisite: Advanced Microsoft Office experience, HTML and Web Page Design.

$179.00
XCM 9405

OneNote
Capture, organize, and reuse your notes on laptop computer, desktop computers, or Tablet PCs. OneNote gives you one place to store all your notes and the freedom to work with them however you want. It helps you capture information in multiple ways and then organize and use it according to your needs. OneNote combines the freedom and flexibility of paper notes with the efficiency and power of digital organizational tools. Prerequisite: Familiarity with Windows and Microsoft Office applications.

$149.00
XCM 9406

Business Skills for the IT Professional
Developing as a Professional is key to your success in business and social situations. Explore what qualities define a professional and what you can do to gain recognition as a true professional in your workplace. Discuss everything from developing good work habits to minding your cubicle manners, as well as networking and scheduling your time effectively. Finally discover new ways to cope with workplace challenges such as defusing conflict and managing pressure and stress.

$169.00
XCM 9407

Communications Skills for the IT Professional
Communication is a basic skill that affects all aspects of business life. Our words, gestures, appearance, and body language all "speak" volumes as to our intent, state of mind, and attitude. Learning to recognize these conscious and unconscious cues, as well as paying attention to others' signals, make us better communicators and leaders.

$169.00
XCM 9408

Outlook Fundamentals - 2007
Create e-mail accounts and send e-mail messages using several techniques. Explore how to manage e-mail messages, contacts, tasks, and meeting requests. Discover how to customize Outlook for maximum efficiency. Prerequisite: Competent with Windows, keyboard and mouse.

$169.00
XCM 9409

Outlook Advanced - 2007
Customize Outlook and work with address books, search and filter mail folders,
and apply and customize categories. Work with personal, public, and offline folders, organize folders and set rules. Learn about advanced techniques for managing stored e-mail messages, create and work with notes and Journal entries, schedule and manage meetings, share Outlook content, and customize templates and forms. Prerequisite: Outlook 2007 Fundamentals.

$169.00  
XCM 9450  
SharePoint Designer Fundamentals  
Explore the fundamentals of Web site planning and design. Discover how to work with templates, apply structural formatting, and work with style sheets. Create layouts, and work with images, links, and tables. Prepare a site for publication, and publish a Web site. Prerequisites: HTML and Web Page Design.

$299.00  
XCM 9460  
SharePoint Designer Advanced  
Work with more advanced techniques for designing and managing Web sites. Create dynamic components, work with multimedia files, design with layers, and create tables and forms. Explore how to use XML content as a data source, apply basic search engine optimization, and fix typical site problems. Prerequisites: SharePoint Designer Fundamentals

$299.00  
XCM 9463  
Dreamweaver: Designing Websites  
Discover how to design and build a website as you explore the features and functions in Dreamweaver. From novice to advanced, there is something for everyone in this class. In two days you will move from basic web design to professional-looking websites ready for upload. Prerequisite: HTML and Web Page Design and Cascading Style Sheets, or comparable knowledge.

$299.00  
XCM 9469  
Dreamweaver: Database Connections  
Learn to create web applications that change dynamically. Use Dreamweaver to create and administer database-driven sites, establish server connectivity, and create and manage database records. Receive an in-depth understanding of techniques used to create dynamic web applications. Prerequisite: Dreamweaver: Designing Websites.

$199.00  
XCM 9470  
Flash Fundamentals  
A website can be made to look more inviting with interactive graphics and animations. Discover the basic features and functions of Flash as you create different types of animations and publish them on the web. Prerequisite: Proficiency with Windows, keyboard and mouse.

$299.00  
XCM 9477  
Flash: Interactive Movies  
Discover the advanced features of flash to help you create custom animations. Create simple and complex interactive movies using ActionScript as you explore the advanced features of Flash. Prerequisite: Flash Fundamentals.
**Flash: Advanced Techniques**
Discover advanced techniques for the creation and manipulation of Flash-based content as you explore in-depth the techniques used to create dynamic web applications using Flash. Prerequisite: Flash: Interactive Movies.

**Cascading Style Sheets**
Cascading Style Sheets (CSS) is an important component of successful Web design. To create valid HTML 4.0 pages, you should use CSS to control your colors, typography, and layout schemes, rather than the HTML style-oriented tags and attributes. Receive an introduction to the concepts, techniques, properties, and values of CSS in a sequence that reflects a typical “building up” of the design rules. Prerequisite: HTML and Web Page Design.

**Ajax Web Applications**
Ajax offers highly interactive, desktop-like Web applications that can be deployed through any modern Web browser without the need for special plug-ins. Ajax is built on existing Web technologies such as JavaScript, HTML, and CSS, and it is used in conjunction with your favorite server-side language. Foundations of Ajax explains how to combine these technologies effectively to implement Ajax into your new or existing Web applications. Prerequisite: CSS and JavaScript or equivalent experience.

**HTML & Web Page Design**
Examine the basic concepts of Hypertext Markup Language (HTML), write source code, place text on the page, format text, and create headings and horizontal rule lines. Display lists, color Web pages, use graphics, add hypertext links and create graphic hyperlinks. Prerequisite: Introduction to the Internet and Introduction to Windows; experience with Windows, keyboard and mouse; or equivalent knowledge.

**XML**
Put the latest XML technology and standards to work--one step at a time. Discover how to write well-formed and valid XML documents based on W3C specifications. Work with DTDs, Schemas, and Document Object Model. Prerequisite: HTML & Web Page Design or comparable experience.

Dance and Exercise (XYD)

XYD 1000
Ballroom Dancing, Beginning
Have fun learning the steps to traditional ballroom dances, including the foxtrot, waltz, swing and rumba. Shoes worn for class must be non-scuffing, soft-soled shoes. Leather soled shoes preferred. This class is for couples only. Couples must register together/concurrently; however listed fee is for per person.

$49.00
XYD 1005
Basic Self-Defense

You will learn the most simple and basic self-defense techniques and moves that are easy to learn: body positioning, blocking, hand strikes, kneeing and kicking. By practicing these moves in repetition during class, you will develop better confidence and awareness while learning self-protection techniques.

$45.00

XYD 1010

Ballroom Dancing, Intermediate

If you've taken "Beginning Ballroom Dancing" at JCCC you are ready to learn the more advanced steps, including the rumba and the cha-cha. Shoes worn for class must be non-scuffing, soft-soled shoes. Leather soled shoes preferred. This class is for couples only; must register together concurrently. The listed fee is per person.

$49.00

XYD 1015

Salsa Dance

Enjoy Salsa dancing which combines exercise with ballroom-dance elegance. Learn different Cuban rhythms as tools for interpreting Salsa, it's footwork and performance. The dances covered include Rumba, Mambo and Cha Cha. Wear comfortable, leather sole shoes, no tennis shoes. You can enroll with a partner or as an individual dancer. Class fees are per person.

$49.00

XYD 1030

International Folk Dance

Learn to dance at Greek weddings, Jewish Bar Mitzvahs or step into one of several local folk dance circles that gather weekly to dance, sing, laugh, and burn calories. No partners needed for these circle/line dances that are easy to learn regardless of dance background or ability. Wear comfortable clothing and shoes.

$15.00

XYD 1040

Latin American Dancing

Learn Latin American dances including merengue, rumba, samba, cha cha, and mambo/salsa. Practice dance etiquette and lead/follow techniques, perfect dance positions and gain confidence on the dance floor. Please enroll with a partner. Wear non-scuffing, soft-soled shoes, leather-soled shoes are preferred. Fee is per person.

$55.00

XYD 1100

Lifetime Fitness Center

JCCC's Lifetime Fitness and Wellness Center is designed to improve fitness levels through physical activity. For this program, all participants must have a fitness assessment. Workout clothes must be worn for your assessment and for center activities. Individuals taking Lifetime Fitness will be required to purchase the Lifetime Fitness and Wellness Manual that is available at the JCCC Bookstore and will need to bring this with them to the initial assessment. (The full assessment will take 1 1/2 hours to complete). The center has a cardiovascular circuit, consisting of stationary bicycles, stair climber and hydraulic resistance equipment. Strength training equipment is also available. A professional physical educator is on duty at all times to answer questions. After you enroll, call 913-469-4432 to schedule an assessment with other enrollees. You may complete the first portion of the assessment online through Blackboard (http://webct.jccc.net) with access to the assessment one week prior to the start of
the semester. After the assessment is completed, you may then attend the center at your own pace during any of our open hours. Note: Hours of operation change somewhat when credit classes are not in session.

$85.00

**EMT Training (XNT)**

**XNT 1000**

**Streetsense**

Every health care professional needs to know much more than clinical medicine. Go beyond what you learned in school! Topics of great concern to savvy medical providers, education and administration of field providers include: effective interpersonal communication, safety on the streets, weaponry and harmful intention, self-awareness, stress and wellness and much more. This class is taught by the author of "Streetsense", covers material pertinent to all medical and emergency providers.

$80.00

This course is designed for those currently certified.

$39.00

ESL Adv. and Prof. Courses (XGF)

XGF 1650
Conversational English A
This class is for individuals who have mastered the essentials of English and are striving for fluency in the language. Students will receive advanced practice in conversational and idiomatic usage of English. Emphasis is on conversing in small and large groups about American everyday life and how it compares/differs from other countries and their cultures. Prerequisite: intermediate or advanced knowledge of English. Curriculum changes each session so students are welcome to repeat this course. The textbook, Conversation: English in Everyday Life Volume 2, can be purchased at the JCCC bookstore. Note: This book is also used for Conversational English B.

$99.00
XGF 1651
Conversational English B
This class is for individuals who have mastered the essentials of English and are striving for fluency in the language. Students will receive advanced practice in conversational and idiomatic usage of English. Emphasis is on conversing in small and large groups about American everyday life and how it compares/differs from other countries and their cultures. Prerequisite: intermediate or advanced knowledge of English. Conversational English A or B can be taken in any order since the topics covered will not be repetitious. The textbook, Conversation: English in Everyday Life, Volume 2, can be purchased at the JCCC bookstore. Note: This book is also used for Conversational English A.

$99.00
XGF 1660
Pronunciation Improvement I
This class is for individuals who are interested in improving their pronunciation. Increase your self-confidence on the job and in social situations by improving your pronunciation, clarity of speech, use of idioms, slang, quick speech and fluency. The textbook, Pronouncing American English, can be purchased at the JCCC bookstore. Prerequisite: Intermediate or advanced knowledge of English.

$165.00
XGF 1661
Pronunciation Improvement II
This class is for advanced individuals who are interested in continuing improvements of their pronunciation skills to gain increased self-confidence on the job, in business and in social settings. The class provides additional training in improving pronunciation, clarity of speech, use of idioms, slang, quick speech and fluency. More opportunities are given for presentations and social interactions. The textbook, Pronouncing American English, can be purchased at the JCCC bookstore.
bookstore. Prerequisite: Pronunciation Improvement I or advanced knowledge of English approved by the instructor.

$165.00
XGF 1665

Personalized Pronunciation Program
This program provides an individualized pronunciation (correction) refinement method designed especially to assist non-native English speakers to improve their business, professional and social speaking skills. Following an individualized speech analysis, each participant is placed on an individualized learning track, which will be followed throughout this 13-week period. The Compton P-ESL instructional method will be used. Class enrollment is limited to 5 students who have a conversational command of English and a "newspaper" reading level. A serious commitment of daily practice is required. You will be contacted 2 weeks prior to the beginning of class to schedule your individual speech analysis. Instructional materials are included.

ESL Grammar Development I
This course is for non-native English speaking individuals who have a basic working knowledge of English grammar and wish to improve their grammar skills. Topics will include past, present, and future verb tenses and aspects; modals; count and non-count nouns; pronouns; comparisons; and clauses. Students will practice written grammar by doing exercises and short writing assignments; they will practice spoken grammar through oral exercises and partner and group interaction. The textbook, "Fundamentals of English Grammar", can be purchased at the JCCC bookstore.

$93.00
XGF 1691

ESL Grammar Development II
This course is for high intermediate to advanced non-native speaking students who are interested in refining their grammar. Verb tenses and aspects, modals, passive voice, gerunds and infinitives, connectives, as well as adjective, adverb and noun clauses will be explored in depth. Students will concentrate on improving both written and spoken grammar. The textbook, Understanding and Using English Grammar, and answer key can be purchased at the JCCC bookstore.

$93.00
XGF 2000

Individual Grammar Writing Rev
Individual Grammar Writing Review tutoring.
Individual Grammar Review
Individual Grammar Review Tutoring

Grammar for ESL - Web Based
This 6-week online course includes in-depth review of English grammar to prepare the ESL student for regular mainstream English classes. Topics include a review of all tenses, the use of modals, the adjective clause, the noun clause, the adverb clause, phrases, count and non-count nouns and some English terms.

Writing for ESL
Would you like to learn how to write more effectively? Many ESL learners have excellent training and skills in their native languages but find their academic or career progress slowed by the challenges of writing in English. This course will take you through each step of the writing process, showing you how to generate, focus, and develop your ideas.

Education (XNE)
XNE 1096
Divorce-The Impact on Children
Divorce has a tremendous impact on children. You will learn about the consequences of divorce on the children by examining the different developmental stages of children. You will also discuss the role parents play in helping children cope with divorce or conversely how parents can complicate and undermine the children's coping skills.

XNE 1104
Early Childhood Mentoring I
You will be provided with the basic foundation needed for developing mentoring relationships, which includes the opportunity to develop communication skills, leadership skills and the application of adult education theory. This course will provide practical and supportive ways to learn and grow on the job and is designed to help managers and supervisors plan, implement and evaluate mentoring techniques. This course has been approved for one undergraduate credit through St. Mary’s College's Child Development Education. This requires an additional registration fee of $60 payable to St. Mary’s College the 1st night of class.

XNE 1105
Early Childhood Mentoring II
You will learn the foundation needed for developing mentoring relationships. This course provides practical and supportive ways to learn and grow on the job and is designed to help managers and supervisors plan, implement and evaluate mentoring techniques. This class is available for any experienced early education teacher or director who is designing better methods to encourage less
experienced teachers. Note: This course has been approved by St. Mary's College for one undergraduate credit in Child Development Education. This requires an additional registration fee of $60 payable to St. Mary's College the 1st night of class.

$99.00
XNE 1115
Baby/Toddler Sign Language
Infants are capable of communicating long before they are able to speak. You will learn why research supports the use of sign language with hearing children, the do's and don'ts of using sign language, the American Sign Language alphabet, basic signs and hand shapes, and common signs that children will be interested in leaning and using. You will engage in various hands on activities to learn and practice signing, as well as receive a packet of information containing pictures of the signs for future reference.

$24.00
XNE 1130
Use Art to Help a Child's Development
You will learn how to feed the child's brain and develop their senses through art activities with summer themes. You will discuss how children learn problem solving through art and how manipulative experiences improve the brain. Art supplies are included in the class fee and the class is approved for .2 CEU's.

$45.00
XNE 1135
Cooking with Children
You will learn cooking tips on how to help kids be comfortable in the kitchen. This includes how to combine children's literature and cooking because children learn from hands on activities. You will discuss how cooking can enhance a child's memory, math skills, knowledge of science, language skills and fine motor skills. The course handouts will include a list of children's literature and appropriate recipes. This course is approved for .2 CEUs.

$45.00
XNE 1136
Signs of Illness in Children
You will learn how to identify the signs of illness in children. This course helps you recognize the tell tale signs of illness such as changes in behavior, appearance, fevers, and skin rashes. You will discuss health policies for a classroom or center, checking for injuries, when to get immediate medical help, care for sudden illness, seizures, first aid tips and indicators of child abuse and neglect. This course is approved for .2 CEUs.

$45.00
XNE 1137
Standard First Aid and Safety
You will learn how to respond to a breathing or cardiac emergency in infants and children. A short demo of CPR for infants and children will be shown. You will discuss how to prevent childhood injuries as well as the four leading causes of childhood deaths and the first aid basics. You will recognize how to care for victims of sudden illness and injuries. After completing this course participants will be able to: recognize injuries, demonstrate how to control bleeding, list general care steps for burns, demonstrate how to care for muscle, joint and bone injuries, and recognize how to care for sudden illnesses. Students will receive an authorization card from The Greater Kansas City Chapter of American Red Cross. This course is approved for .3 CEU's.
Begin With the Brain
Experiences and interactions with the outside world literally shape how the brain develops. You will learn how early experiences have a decisive and long lasting impact on the growing brain. Furthermore, you will gain in sight into how you can contribute to providing children with a healthy start.

Summer Fun With Art
Young children's artwork reflects their own unique response to the world. This informative workshop will focus on the child's process of art rather than the final product. You will have the opportunity to explore processing-oriented art materials throughout the store!

Sand & Water Play for Infants/Toddlers
When warm weather arrives, children want to play outside. Come to this fun-filled class to explore ways to incorporate sand and water play into your early learning environments. You will have the opportunity to explore sand and water materials throughout the store.

Redirecting Children's Behavior
Do you need to review your discipline techniques? You will learn a developmental approach to discipline that promotes positive guidance techniques that emphasize the adult's responsibility for guiding children. You will learn how to use modeling, inductive reasoning and reinforcing desired behaviors.

Designing Preschool Environments That Facilitate Learning
Come and learn how to set up environments that support active learning, including the keys to managing learning centers, organization methods for supporting independent learning, and the principles for developing classrooms that eliminate common negative behaviors. You will learn how daily schedules and routines support independent learning.

Every Child Ready to Read @ Your Library
Current research has proven the critical role of parents and caregivers in developing language and early literacy skills. Come learn appropriate and enjoyable activities to promote the varying stages of development and strategies for getting the most out of the time spent sharing books and stories.

The Creative Curriculum - Blocks
Do you have a Block Area? Come to this informative class based upon "The
Creative Curriculum" to discover first-hand the value of block play and how to support children's development and learning while they are constructing and creating.

$19.00  
XNE 1190  
**Holiday Art**
In this course you will focus on the child's process of art rather than the final product. Holiday "process oriented" hands-on art projects will be presented. Come ready to dig in and have some fun! You will also have the opportunity to explore process-oriented art materials throughout the store!

$19.00  
XNE 1195  
**An Introduction to Room Arrangements**
Since your children learn best through their interactions with objects, materials, and people, the physical environment serves as the setting for learning. This course will show you how to create a developmentally appropriate room arrangement.

$19.00  
XNE 1200  
**Building Classroom Community**
One of the hallmarks of a quality early childhood program is that it gives children and families a sense of belonging. In this course you will learn techniques that encourage children to care for one another. You will discover ways to create a peaceful community of learners and learn activities that help each child feel like an important member of the class.

$19.00  
XNE 1205  
**Learning to Read and Write: DAP for 3-5 year olds**
You will learn how three to five-year-old children view literacy, hear about the stages of literacy development, and discover ways to go beyond the ABC's to promote literacy development in the preschool classroom.

$19.00  
XNE 1210  
**1, 2, 3 - It is More Than Counting**
The class will focus on how young children learn basic mathematical knowledge and problem-solving skills. Come discover what kinds of materials to include in the classroom environment, as well as what kinds of games challenge children's thinking. You will learn how to respond to children's mistakes and turn them into opportunities for children to construct their own knowledge.

$19.00  
XNE 1215  
**How Young Children Think and Learn**
Come explore how children's ways of thinking and learning are different from adults. You will have the opportunity to analyze the kinds of activities you do with young children and evaluate sample activities according to ways young children learn and think.

$19.00
XNE 1220

Anger Management and the Effective Use of Power
Anger is a normal emotion. Anger management techniques, including "REACH" and "RETHINK", will be discussed to help you understand anger and ways to help children deal with their feelings.

$19.00

XNE 1225

Managing Stress
Come to this class to learn how to recognize factors that contribute to stress. You will practice relaxation activities and set personal goals for well-being. You will also discover ways to help children cope with stress.

$19.00

XNE 1230

Communicating Effectively with Parents
Communication is critical to the parent-child-caregiver/teacher relationship. During this course you will learn strategies for communicating with parents to exchange information, share messages, and deal with problems.

$19.00

XNE 1235

Caring for Children of Non-Traditional Families
Children may come from families consisting of biological parents, step parents, adopted parents, or a combination. You will discuss various family structures and their effects on child care. You will also learn strategies for keeping communication consistent with all parties.

$19.00

XNE 1240

A Teacher's Most Powerful Tool
The relationship you develop with the families of the children in your care is your most powerful tool. You will have the opportunity to look at your philosophy of teaching as it relates to parent-teacher relationships. Come to this class to learn practical ways to develop good relationships and create shared power and mutual respect with families.

$19.00

XNE 1245

The Creative Curriculum - Dramatic Play
Dramatic play is central to children's healthy development and learning. You will discover ways to set up and equip the Dramatic Play area so that it becomes a stage where children can enter and immediately take on a role and pretend. You will have a hands-on experience investigating props throughout the store.

$19.00

XNE 1250

Setting the Stage...Creative Learning Centers
Children learn through active exploration of their environment. By "setting the stage" with learning centers filled with developmentally appropriate materials, you create a role in which children explore opportunities within their environment. Come learn how to make your environment inviting and engaging. You will have a hands-on opportunity to investigate props throughout the store.
Spring Art: Process vs. Product
In this course, you will focus on the child's process of art rather than the final product. Spring time "process-oriented" hands-on art projects will be presented. Come ready to dig in and have some fun! You will also have the opportunity to explore process-oriented art materials throughout the store.

Let's Play Outdoors
Outdoors allows children to become aware of important sensory aspects - to play without rigid direction. If set-up correctly, the outdoor environment leads children to be risk-takers and confident in their abilities. Come explore ways to add richness and imagination to your outdoor play experiences. You will have a hand-on experience investigating props throughout the store.

Social and Emotional Stages in Lesson Planning
This class will focus on the tangible relationship between Piaget's cognitive learning theory and Erickson's 8 stages of emotional intelligence. How do children learn? What materials do they need to learn? Why do they do what they do at certain ages? Do not be afraid of a class on theory, this will be very hands on. Learn what materials to have in the classroom and how to create lesson plans that truly reflect the needs of children. You will also focus on age appropriate behaviors and how to help children through "challenging behaviors."

Documentation and Assessment - How to Effectively Use Them
What does documentation really mean? Why do we create lesson plans? Why do we collect samples of children's work and how do we decide what to collect? Yes, there really is a method to our "madness." This class will guide you in the four domains of learning, the milestones that occur, what you should collect and what these samples might look like.

Communication Techniques for Adults
Communication techniques for all people can be challenging, but it is especially so when you work with someone for 8-10 hours a day. You will focus on how to talk to be heard, how to listen, how to problem solve and how to create a work environment that works for everyone. Creating a team is not easy but through reflective listening and problem solving solid teaching teams can emerge. You will have the opportunity to role play and problem solve real situations.

Observation, Documentation and Child Portfolios
Do you need help developing or organizing a system to complete child observations, documentations and portfolios? Come to this class to learn different ways to accomplish all of this as well as find a way that works best for you in your classroom. You will also learn ways to communicate observations through Family/Teacher Conferences.
Early Childhood Programs and Family Relations
Where are the parents, grandparents, aunts or uncles? In this class you will learn techniques to better incorporate families into your early learning program. Research supports the fact that if a family is involved in a child’s education, the child will be more successful. You will also learn ways to keep lines of communication open.

What is Professionalism in the Early Childhood Environment?
As the field of Early Learning is striving to become recognized as a profession in the general community, we as educators must look at what we are doing and how we are presenting ourselves to children, parents and families, and community members. Come to this class to create or further develop your own personal philosophy of early learning based on Child Development and Developmentally Appropriate Practices. Additionally, we will discuss the implementation of the NAEYC Code of Ethics to decision making in the classroom as well as in everyday life.

Types of Attachment and Implications for the Classroom Teacher
Knowing and understanding the different types of child/guardian attachments is essential for creating a safe and secure environment. You will learn the different types of attachment and how to adapt and adjust to meet the different needs of your children.

Making Brain Connections with Music
Come learn how singing, dancing, laughing and learning go “hand in hand” in the early learning environment. You will learn information on brain research and the importance of music in a young child’s life. Come prepared to have fun!

The Learning Power of Laughter
You will experience joyous activities to develop important skills in young children through humor, laughter and fun. Come explore creative and fun activities that will enrich any classroom experience.

Portfolio: A Picture of a Child’s Development
Learn how to give parents a graphic look at their child’s development. Learn how to develop portfolios that give parents a picture of their child’s development over an entire year. Develop procedures for developing children’s portfolios that help you manage your time. See samples of preschool portfolio entries and design ways to begin this process. Learn the skills you will need to make this process important and interesting to preschool children.
XNE 1315

Listen to the Children: Strategies for Dealing with Superhero Play
Learn why super-hero play fascinates and motivates children. Discover appropriate strategies for respecting and supporting children’s make-believe play. Explore ways to extend this play beyond mere imitation of current super heroes.

$19.00

XNE 1320

Literacy Begins at Birth
Literacy, like all language, begins in infancy when adults speak, sing and read to their newborn babies. These early experiences build a foundation for a child’s ability to read and write. This class will offer you ideas on how to enhance the early childhood classroom to promote language and literacy development.

$19.00

XNE 1325

Emotional Intelligence and Its Impact on Learning
Providing environments that strengthen relationships of mutual trust and respect between children, teachers and families has a powerful impact on learning and problem solving. You will outline what Emotional Intelligence is, how it affects learning, and what you can do to support children’s development in this area.

$19.00

XNE 1330

Academics or Not? Teaching that Promotes School Readiness
"They are just playing" is the age-old rhetoric that leads many preschool teachers and parents to believe that an emphasis on academics (getting kids ready for school) is essential for older preschoolers. You will learn how to incorporate "academic" learning into everyday routines and discover how to help children become successful in school.

$19.00

XNE 1335

Play with Me: Interactions that Help Children Learn
You will discover that children really do learn best through play. Come learn how to design intentional situations for children to solve problems as they explore math, science, literacy and everyday relationships in meaningful ways.

$19.00

XNE 1340

Positive Guidance as a Teaching Strategy
Do you spend more time trying to control children’s behavior than you do supporting their learning? Come learn six techniques that are proven to help children learn to control their own behavior. You will learn how to implement these techniques and use behavior problems as opportunities for learning.

$19.00

XNE 1345

Teachers as Decision Makers
Do you know "why" you teach as you do? Where did you learn the teaching practices that you use? You will learn the definition of developmentally appropriate practice and decide how this can enhance your teaching. You will analyze various teaching practices according to the principles of child development.
Math, Science and Nutrition for Young Children
Teachers support children's innate sense of wonder within science, math and nutrition by introducing experiments, exploring items from nature and through cooking activities. Come learn new ways to present materials that will extend the discoveries that children make. In addition, you will have the opportunity to explore materials and ideas that help support this process.

Working with Children With Special Needs
You will participate in a variety of scenarios that cover several disabilities. In addition, you will learn simple ways to integrate even the most challenging children into your everyday activities.

Fostering Language in the Early Childhood Classroom
Language is a child's ability to communicate with the world around him. You will visit what is developmentally appropriate for the preschool aged child. You will also look at strategies to foster good language skills in a variety of activities throughout your typical routine. Alternative communication systems will be introduced.

Managing Time
This course will help you identify ways to maximize your productivity while reducing stress projected on children and staff. You will identify your "prime" time and learn productivity tips to increase the time you can spend on educational goals and relaxation.

Supporting and Engaging Families in Early Learning
When programs are designed with parents rather than to parents, the results are more successful and have a greater impact. You will identify practical strategies that can be used to create an environment that supports and engages families both in the classroom and throughout the program.

Is it Safe?
Child care programs are faced with serious concerns regarding the safety of children. In this course you will learn and discuss classroom safety. In addition, you will explore ways to support and enhance safety within your respective classrooms by investigating materials throughout the store.

Creative Thinking During Childhood
Teachers are often advised to “work to children's strengths.” In this class you will
explore how an understanding of children's creativity enables you to do this. You will also examine the characteristics of schools that nurture creativity and the role of the teacher in fostering creativity. Come learn how to provide an environment that helps all children develop their creative potential to the fullest extent.

$19.00
XNE 1382
**Leadership or Management: Which Should it Be?**
If you direct a program or have management responsibilities, this workshop is for you. You will learn the difference between leadership and management, discover when to use one style over another, and become familiar with the skills and competencies required for effective leadership. Learn what kind of power effective directors use. Discover ways to get your staff to do their jobs effectively. Learn the values and beliefs that shape your leadership behavior and begin a plan of action that leads your program to realize their dreams for young children.

$19.00
XNE 1384
**You Can Make a Difference**
Come experience a combination of child development information and philosophy mixed with a liberal dose of singing, laughing and fun. You will return to your classroom with a new appreciation of yourself and the children that you teach.

$19.00
XNE 1386
**Laughing and Singing Make Way for Good Reading**
Come to this class to learn games, rhymes, and songs that develop alphabet recognition, alliteration, story telling, phonemic awareness and the necessary skills for learning to read. Participants will explore the importance of listening skills, order, sequence, memory, vocabulary and all the necessary language skills for creating readers.

$19.00
XNE 1388
**Normal Sexual Development in Children**
Children exhibit a host of behaviors that leave many adults stumped at how to respond. When children act out sexually or have questions about bodies, babies and more, again, adults aren't typically equipped to respond. This interactive and entertaining workshop addresses normal sexual development in children, how to talk with children and assist them in safety and esteem around their growing bodies. Both sessions must be attended to receive credit.

$38.00
XNE 1390
**Shared Power? You Must Be Kidding!**
If you direct a program or have management responsibilities, this workshop is for you. Learn how to analyze different kinds of decisions that are made in child care programs and discover ways that you can move toward a more participative process for solving problems and achieving program goals. Learn how to create a climate where individuals can openly discuss highly charged topics, how issues are decided, and how work in your program is carried out. Discover your leadership style and learn how to use it to benefit your entire program.

$19.00
XNE 1392
**Winter Holidays/Family Traditions**
When you think of your favorite winter holiday, what comes to mind? Thoughtfully planned, holiday activities, if used sparingly, can contribute to anti-bias curriculum and broaden children’s awareness of their own and other culture’s experiences. Participating in celebrations and rituals enhances children’s feelings of being part of a close-knit group. Through music, art, literature, and cooking activities, we will explore ways to bring a part of the children’s lives at home into the child care setting and introduce children to their classmates’ family holiday traditions.

$19.00
XNE 1394
The Influence of Culture on Caregiving
As the early care and education field becomes increasingly diverse, the ability to collaborate effectively with parents and children from different backgrounds is increasingly critical to providing quality service to families and care to infants and toddlers. Participants who attend this training will have the opportunity to explore how one’s own culture influences routines, caregiving style, and parenting choices.

$19.00
XNE 1396
Understanding Temperament and Attachment
Understanding Temperament and Attachment in a child is a key to understanding the whole child. A child’s temperament influences not only their style of interactions, but the very way they understand and experience the world and the people in it. Come to this class to learn the importance of temperament and attachment with children birth to three.

$19.00
XNE 1500
Child Development Associate (CDA) Credential
You will acquire the knowledge and skills to become a professional teacher of young children in an early education center or as a family care provider. This course is designed as an intensive integration of study and professional preparation experience that emphasizes the application of knowledge to practice. At the end of the course you will be prepared for your assessment to earn a professional CDA credential that is recognized by early childhood educators nationwide.

$199.00

Fire Science (XNF)
XNF 1000
Essentials of Firefighting
This course fulfills the requirements of the National Fire Protection Association competencies identified in NFPA 1001 at the Firefighting I level and follows the IFSTA manual. Successful completion of the course results in eligibility for the KU/FST Firefighter examination. Firefighter I exam fee is an additional $60 paid directly to K.U. Evidence of completion of EMS First Responder or equivalent EMS training is also required to take the KU/FST Firefighter I exam. The fee for the Firefighter I exam is paid directly to the University of Kansas. The exam is administered at the college as a final exam. (6 Saturday labs) Instructor: Benjamin

$239.00
XNF 1010
Hazardous Materials Awareness Level
This course is intended for those persons who, in the course of their normal
duties, are likely to witness or discover the release or potential release of a
hazardous substance. It fulfills the requirements identified in (OSHA) 29 CFR Part
1910.120 and (EPA) 40 CFR Part 311, for hazardous materials responders at the
awareness level. Instructor: Benjamin

$49.00
XNF 1020

Hazardous Materials Operations Level
This course is intended for those persons who are part of the initial response to
releases or potential releases of hazardous substances for the purpose of
protecting people, property and the environment from the effects of (OSHA) 29
CFR Part 1910.120 and (EPA) 40 CFR Part 311, for hazardous materials
responders at the operations level. Persons enrolling in this course shall have
successfully completed the Hazardous Materials Awareness Level course or
equivalent, documented, training. Instructor: Benjamin

$149.00
XNF 1025

Building Construction: Noncombustible, Fire Resistive Construction
This course describes the characteristics of noncombustible and fire-resistant
construction as they pertain to the fire service. The primary emphasis is on
improving the fire officer’s knowledge of building construction to ensure fire fighter
safety. The course will improve the fire officer’s ability to predict the reaction of a
building to fire. Participants completing this course will receive a National Fire
Academy certificate. This course is part of a three course series that addresses
building construction for fire suppression. Students successfully completing all
three courses may be eligible to receive college credit. Students interested in
acquiring college credit should contact the Humanities and Social Sciences
Division at JCCC.

$33.00
XNF 1040

Building Construction: Principles of Wood and Ordinary Construction
This course describes the characteristics of wood and ordinary construction as
they pertain to the fire service. The primary emphasis is on improving the fire
officer's knowledge of building construction to ensure fire fighter safety. The
course will improve the fire officer's ability to predict the reaction of a building to
fire. Participants completing this course will receive a National Fire Academy
certificate. This course is part of a three course series that addresses building
construction for fire suppression. Students successfully completing all three
courses may be eligible to receive college credit. Students interested in acquiring
college credit should contact the Humanities and Social Sciences Division at
JCCC.

$33.00
XNF 1050

Building Construction: Principles of Construction for Garden and High Rise
Buildings
This course describes the characteristics of garden apartments and high rise
buildings as they pertain to the fire service. The primary emphasis is on improving
the fire officer's knowledge of building construction to ensure fire fighter safety.
The course will improve the fire officer’s ability to predict the reaction of a building to fire. This course is part of a three course series that addresses building construction for fire suppression. Students successfully completing all three courses may be eligible to receive college credit. Students interested in acquiring college credit should contact the Humanities and Social Sciences Division at JCCC.

**Marriage: Theory and Therapy (An In-depth Seminar for Clinicians)**
What contributes to a well-functioning marriage? How professionals answer this question influences their clinical work with a marital problem. Most theories about marriage focus on the individuals or the couple. Bowen family systems theory broadens the lens by seeing marriage embedded in the interlocking triangles of the family emotional unit. This seminar presents how marital functioning is
influenced by anxiety, differentiation of self, emotional cutoff, and nuclear and multigenerational processes. The seminar explores the clinician's challenge to translate theory into therapy. Common marital issues addressed include distance, conflict, polarization, affairs, focusing on the other, and reciprocal functioning. Social workers, psychologists, counselors and mental health clinical nurse specialists will earn 7 contact hours for completing this course.

Family Issues in the New Millennium
In recent years, health care professionals have become increasingly aware of the importance of families to individual and societal well being. This seminar is designed to assist mental health and other health care professionals in understanding significant issues affecting today's families. Four separate, yet interrelated, topics will be explored--couple survival, dilemmas of the blended family, facing America's anti-child sentiment as a family unit and maintaining relationships when applying discipline. Meaningful interventions for each of these problematic family components will be provided. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Approval is pending for other health care professionals.

Understanding Your Myers-Briggs Type: Enhancing  
Self-Awareness and Relationships This informative workshop provides an opportunity for you to use the Myers-Briggs Indicator, the most widely used personality instrument in the world, to clarify your individual personality style and understand how it expresses itself in your behavior and relationships. The Myers-Briggs is nonjudgmental, affirming of individual strengths and differences, practical, results-oriented and growth producing. In this workshop, you will take the indicator, learn the basic concepts of this personality theory and enjoy the fun and insights gained from seeing your own and other styles in "action." RNs, LPNs, and LMHTs will earn 6 contact hours for attending this workshop. Approval is pending for other health care professionals.

Business Skills Every Nurse Should Know
In the ever-changing health care marketplace, nurses have more opportunities than ever to lead the pack in health care matters. You must arm yourself with knowledge about communications, negotiations, marketing, networking, managed care terminology, outcomes reporting, finance, computer systems, and resume and publication writing. Influencing health care requires understanding why and how systems are formed, what financially drives those systems and what you as an individual can do to assure your own career path success. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop.

Successful Aging
"Baby boomers," the 76 million babies born between 1946 and 1964, have become the dominant social, market and political force in our society. Who are they? What are they like? This workshop will provide you with a demographic profile of the "boomers," their relationship to other populations, their impact as babies, children, teens, young and middle-age adults and their future impact on
health care providers. You will learn how to work effectively with this population in preparation for the aging boom of tomorrow. RNs, LPNs, LMHTs, social workers and counselors will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTS.

$36.00
XNC 2251
Asthma: Update 2001
An estimated 17 million Americans, five million under age 18, have asthma. One adult out of three suffers from gastroesophageal reflux disease (GERD), a common trigger for asthma. Asthma, GERD and related conditions are becoming more prevalent across all age, sex and racial groups and the magnitude of these conditions alone compels nurses and other health professionals to be knowledgeable about recent innovations in successful management. This program will help update your knowledge and familiarize you with strategies to effectively assist the asthma patient to maintain better control of his/her disease. The morning session of this workshop will utilize a didactic format to present an overview of these conditions focusing on presentation, triggers, management strategies and pharmacotherapy. The afternoon session will utilize problem based learning to develop an action plan for both an adult and pediatric patient, giving you an opportunity to put theory into action. RNs and LPNs will earn 6 contact hours for attending this workshop.

Introduction to Chinese Medicine and Acupuncture
Traditional Chinese medicine, much of which is based in Taoism, teaches that when your body, mind and spirit are in harmony with one another, you will achieve internal balance. When any of these factors is stressed, internal Qi imbalances arise and disease and dysfunction result. In this workshop, you will explore the basic tenets of Chinese medicine, including "Yin and Yang" and "Qi," as well as discuss how Meridian Therapy (acupuncture) and other therapies assist in maintaining health and treating illness. RNs, LPNs, LMHTs, dentists and dental hygienists will earn 6 contact hours for attending this workshop. Approval is pending for other health disciplines.

Healing the Past, Living the Present
Do you ever feel that no matter how hard you try you keep dealing with feelings
and relationships in ways that make you feel worse instead of better? Unhealed wounds from childhood can have a profound impact on your life and keep you from finding the fulfillment you deserve. Explore the reasons you have difficulty breaking out of old patterns as well as how your relationships can be more rewarding. RNs, LPNs, LMHTs and social workers will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (A) hours.

$54.00
XNC 2257

Delegation and Supervision: Yours, Mine or Ours?
Health care reorganization, downsizing and increasing penetration of managed care have yielded major adjustments in skill mix. Consolidation of care functions as well as cross training of both licensed and unlicensed personnel underscores the need for you to clearly understand the underlying principles and issues involved in delegation and supervision. This session will provide you with information on legal, regulatory, professional standards and competency, and organizational leadership issues involved in safe and effective delegation and supervision. It will also include recommendations for action. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop.

$54.00

Understanding and Dealing with Difficult Children
Irritability, agitation and/or distractability, running away, frequent arguing or anger---normal developmental struggles or behavioral problems that trigger concern? Children and adolescents can display a wide array of behaviors, including some that may not always "make sense" or seem appropriate to the situation at hand. In this workshop, you will identify qualities, characteristics and behaviors associated with normal and abnormal development, distinguish common diagnostic categories related to behavior problems and explore strategies for managing problem behavior in children and adolescents. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Approval is pending for other health professionals.

Introduction to Office Dermatology
Yoga and Meditation: An Introduction and Experience
Given our frantic schedules and high levels of fatigue, is it any wonder that people are seeking ways to feed their mind, body and soul with original energy? The practice of yoga and meditation have been shown to be very effective life skills for health professionals and their patients. This seminar will focus on practices that calm the "inner well-being", and help one know their purpose in life, while avoiding the propensity to be robotic. Dress in casual, comfortable, loose fitting clothes (no dresses or skirts). RNs, LPNs, LMHTs, social workers, counselors, dentist and dental hygienists will earn 3 contact hours for attending this workshop. ACHAs will earn 3 (E) hours. Approval is pending for OTs and PTs..

XNC 2291
Stress Management for the Superachiever
Extraordinarily high standards combined with the need to balance multiple roles are the hallmarks of the superachieving personality. Driven to succeed, superachievers push themselves to perform with perfection and often ignore signs and symptoms of distress. This scenario places them at risk for mental and physical exhaustion. As the healthcare environment grows increasingly demanding, superachievers are vulnerable to developing serious complications from the stress in their lives. If you are experiencing stress-related symptoms, suspect you might be a superachiever or have been told you hold very high standards, join us to learn stress management skills for the superachiever. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (A) hours for attending. Approval is pending for other health care professionals.

$27.00

XNC 2292
Understanding the Effects of Sibling Relationships
Are you the oldest, youngest, middle, only child? Or maybe a twin? Understanding the effects of your sibling relationships and position is useful in knowing yourself better and navigating relationships at home and work. In this class, you will explore common characteristics of various sibling positions and examine how sibling relationships affect your personality, adaptability to stress and relationship style. You will also take a look at how sibling relationships are affected by family maturity and anxiety. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Approval is pending for other health professionals.

$27.00

XNC 2293
Antibiotics: What's New?
Need an update on the newer antibiotics being used? This workshop will examine new antibiotics for bacterial infections as well as review newer drugs for viral and fungal infections. A systems approach will be used and discussion will focus on mechanisms of action, principles of therapy and nursing implications. Nurses practicing in both inpatient and outpatient settings will find the information beneficial. The course will not cover treatment of HIV/AIDS. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Approval is pending for other health professionals.

$27.00
XNC 2294

Breastfeeding: Clinical Management for the Early Days

This course will offer basic and advanced level information about lactation physiology, interventions that work in promoting and facilitating successful breastfeeding, and problem diagnosis and management. Strategies for use with fullterm and preterm babies and their mothers will be presented. RNs and LPNs will earn 9 contact hours for attending this workshop. Approval is pending for other health professionals.

$89.00

XNC 2295

Awakening the Spirit Within: Daring to Be Yourself

Think about creating the kind of life that reflects who you really are—your talents, your values, your serenity, your joy? There are so many ways in which you can express your true self every day of your life. And, there are so many ways to keep that from happening! In this experiential workshop, you will explore who you really are—your dreams, fears, passions, blocks, spirituality, creativity, laughter, gratitude—your SPIRIT. You will discover ways in which you are already expressing your authentic self as well as tools for deepening your understanding of what makes you YOU. RNs, LPNs, LMHTs, social workers, counselors, dentist and dental hygienists will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (A) hours. Approval is pending for other health professionals.

$54.00

XNC 2296

Right Choice: Values and Ethics for Changing Times

Social critics say that Americans are losing “moral fiber”. The nightly news is filled with stories of people’s inhumanity to others. Are values and ethics following the path of extinction? Are the values and ethics of health professionals immune to such a fate? Re-engineering, financial constraints and the continuous call to “do more with less” challenge each of us to examine the ethical foundation of our practice. This course will explore ethical issues related to professional conduct rather than biomedical ethics. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (RC) hours. Approval pending for other health professionals.

$54.00

XNC 2297

Power of Light: From Harming Light to Healing Light

Traditionally, sunlight has been associated with health and well being. Now, however, we are being warned of damaging light rays from the sun and other environmental sources. We hear that sunlight increases risk of skin cancer and that certain foods, medicines and topical applications can react with light to cause unpleasant or damaging results. Conversely, laser light, infrared light and ultraviolet light are sometimes employed to improve and heal our bodies. In this workshop, you will explore the spectrum of light and its qualities and learn more about its possibilities and dangers. RNs and LPNs will earn 3 contact hours for attending this workshop.

$27.00

XNC 2298

Exploring Issues of Diversity in Patient Care

As a health care provider, you are mandated to increase your understanding and sensitivity to the varied people you meet and care for as part of your job. In this workshop, you will explore the dimensions of diversity, learn how your own background influences your personal paradigms and how these paradigms influence your professional practice. You will explore the concept of “privilege” and its effects on those that receive it and those that do not. You will examine
organizational culture and its impact on professional practice and gain practical information that will allow you to more effectively meet the diversity needs of your patients. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Approval is pending for other health professionals.

$54.00
XNC 2300
Promoting Oral Health for the Elderly: A Course for Dental Professionals
Our elderly population is rapidly growing and dental professionals must respond to the evolving oral care needs of this group. This program will assist you with identifying access to care challenges for today's elderly population and learn how to become actively involved with identifying solutions. You will examine the current structure of the oral health delivery system and discuss ways to develop promotional and educational oral care programs through partnering with community organizations. Dentists and dental hygienists will earn 3 contact hours for attending this program. (Dentist Fee $59) (Dental Hygienist Fee $29)

$59.00
XNC 2301
Assessment and Care of the Patient With a Failing Heart
Heart failure is the most common reason for hospital admission in Medicare patients. Equip yourself to perform a thorough nursing assessment of your next heart failure patient. Gain a current understanding of heart failure and the modern array of therapy for management of this complex problem. RNs and LPNs will earn 4 contact hours for attending this workshop. ACHAs will earn 4 (RC) hours.

$48.00
XNC 2302
Obstetrical Emergencies
Fortunately, obstetrical emergencies are rare, but when they occur, the results may be devastating, possibly compromising or ending two lives. In this workshop, you will explore selected obstetrical emergencies which may occur in the antepartum, intrapartum and/or postpartum period, including hemorrhagic complications, hypertensive disorders, shoulder dystocia and others. You will discuss pathophysiology as well as focus on early detection and nursing intervention to maximize outcomes. RNs and LPNs will earn 6 contact hours for attending this workshop.

$54.00
XNC 2303
Understanding Substance Abuse
Alcoholism and drug abuse present major problems and crisis situations for individuals and families. Understanding "drugs of choice" and learning how to most effectively deal with the effects of substance abuse can be complicated. This presentation will include an overview of alcohol, cocaine, and marijuana abuse and treatment models. The special populations of women, children and adolescents who abuse these substances will also be explored. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Approval is pending for other health professionals.

XNC 2307

Introduction to ICD-9-CM Coding

A basic understanding of coding has become an important part of effective health care delivery. If you need an introduction to coding and want to focus on basic how to’s, plan to attend this practical course. The course will begin with an overview of the coding system and its conventions and will include in-class exercises from real-life situations to help you correctly apply the concepts learned. While the basic concepts are applicable to a variety of health care settings, the content is hospital focused. A working knowledge of medical terminology is recommended. You will need to bring an ICD-9-CM coding book to each class. You may use any recent edition you have available or purchase the latest edition in the JCCC bookstore. Certificates of attendance will be awarded upon completion of the course.

$79.00
XNC 2308

Sharpening Your Skills in Dealing with Ethical Issues

Ethical issues confronting health care providers in our society have become more complex and challenging. Consumers are generally well-informed and demand more and better health care services, yet contradictory value systems are prevalent throughout both health care and society. In this seminar, you will explore critical content to assist you to strengthen decision-making and problem-solving skills in dealing with ethical issues in both your professional career and your personal life. Dental professionals, RNs, LPNs, and LMHTs will earn 6 contact hours for attending this workshop. Approval is pending for other health professionals.

$54.00
XNC 2309
Women and Heart Disease: Decreasing Risk and Promoting Health

This three-hour workshop will focus on heart disease and its occurrence in women. You will review the general risk factors for the development of atherosclerotic disease and give special attention to those risk factors unique to the female population. You will explore ideas to modify those risk factors as well as discover ways to promote a healthy lifestyle. Special emphasis will be given to cholesterol management in women. Exercise and activities for older women will be discussed also. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Approval is pending for other health professionals.

$27.00
XNC 2310
Assuring a Safe Workplace: Annual OSHA Update Course

This course provides participants with an overview and update of the mandatory OSHA Bloodborne Pathogen Standard, Hazard Communication Standard and the General Industry Standard. Although the standards are reviewed, participants attending this course should have knowledge and previous training in the OSHA standards. The course is presented as a review and current update and will satisfy the required annual training for the Bloodborne Pathogen Standard. Future standards being considered by OSHA will be discussed as well. RNs, LPNs, dentists and dental hygienists will earn 3 contact hours for attending this program. Kansas ACHAs will earn 3 (A) hours. Approval is pending for other health care professionals.

$27.00
XNC 2311
An Update on AIDS

Through the rapid evolution of treatment options and our scientific understanding of the HIV disease, today’s clinician faces the challenge of staying abreast of the state-of-the-art treatment modalities and newest research discoveries. A patient’s clinical well-being depends heavily on the clinician’s knowledge base and awareness of the most modern tools available. This course will provide an in-depth look at the natural history, epidemiology and pathogenesis of HIV infection. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Approval is pending for other health professionals.

$27.00
XNC 2312
Behavioral Disorders in Children: Dynamics, Issues and Interventions

Explore etiological, diagnostic and clinical approaches for behavioral disorders commonly observed during childhood and adolescence, including conduct disorder, oppositional defiant disorder and ADHD. RNs, LPNs, LMHTs, social workers and counselors will earn 3 contact hours for attending this workshop.

$27.00
XNC 2313
Making Sense of What We Do: An Introduction to Bowen Family Systems Theory

Understanding human behavior has always been challenging. Bowen family systems theory provides a natural systems perspective with which to make sense out of what we do. It offers a road map that enables us to understand more about ourselves and about the people we treat--particularly, how relationships influence behavior and the development of symptoms. It also provides a way of thinking about how family relationships and the influence they exert throughout our lives. In this seminar, you will learn the basic concepts of Bowen family systems theory. You will examine numerous relationship systems, including marital relationships, parent-child relationships and work relationships. Emphasis will be placed on applying theoretical understandings to everyday personal, clinical and work situations. RNs, LPNs, LMHTs, social workers and counselors will earn 6 contact hours for this workshop.
$59.00
XNC 2314

Demystifying Medical Terminology
This introductory course, which serves as the prerequisite for the Medical Coding Certification Course, is of special interest to billing and insurance personnel, as well as consumers. The course covers use of basic medical terms in oral and written communication plus use of word-analysis and word-building skills to expand a basic vocabulary. No CE credit is offered.

$108.00
XNC 2315

Innovations in Diabetes Management
Innovative advances are evident in every dimension of diabetic care--new oral medications, new insulin, nutrition guidelines and choices, new glucose monitors, computer related technology and new administration devices and aides. Preventing the onset of diabetes, especially among our nation's youth, is a high priority of care and education. This exciting workshop will provide you with the latest information about recent advances, including the concept of self care/self management as the basis for diabetes treatment and education. RNs and LPNs will earn 7 contact hours for attending this workshop. Approval is pending for other professional groups.

$63.00
XNC 2316

Healthy Boundaries: Increasing Personal and Professional Effectiveness
While we realize that boundaries are essential for personal/professional growth, it is not always clear how we develop them or how they impact our lives on a daily basis. Learn the basic dynamics of boundaries and explore how boundary issues are developed from infancy and how they can affect adult life. RNs, LPNs, LMHTs, social workers and counselors will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6(A) hours. Approval is pending for other healthcare professionals.

$54.00
XNC 2317

Tips, Tactics and Techniques for Communicating in the Dental World
Our dental patients do not want dentistry! That's right! They want the benefits of dentistry--improved appearance, greater comfort, better function and a generally improved feeling and quality of life. So, how can we steer our patients to want what they "need"? Join us for this high energy, fun-filled and informative evening designed to take the monotony and boredom out of your patient education and treatment presentations. Learn ways to vitalize your communication skills and trigger that motivational spark in each of your patients. Be ready to enjoy the process and relish the result in this relaxed evening of enlightenment. Dentists and dental hygienists will earn 3 contact hours for attending this workshop. Fee for dentist is $59. Fee for dental hygienists is $29.

$69.00
XNC 2318

Alzheimer's and Other Dementias: Strategies for Assisting
Patients and Caregivers Alzheimer's Disease is the fourth leading cause of death in the United States. Like many other chronic conditions, it has no known cause or cure. Caregivers, including health care providers, who assist individuals with Alzheimer's or other dementias, often face unique and seemingly impossible obstacles as they struggle to provide care. How do you prevent a confused person from driving a car or bathe a resistant resident? How do you communicate with a person who cannot process information in a rational way? This workshop will explore problems confronting caregivers and offer practical approaches to
assist them in dealing with demented individuals. RNs, LPNs, social workers, counselors and clergy will earn 3 contact hours for attending this workshop. Approval is pending for other health disciplines.

$27.00
XNC 2319
Aging and Individual Differences: We are More

Alike at 10 than at 70? Why are we more alike at 10 than at 70? Why are some people in a nursing home at 78 and others able to orbit the earth?--or lead a country? This course will present an overview of physical and psychological aspects of the aging process and how individual differences often become more pronounced as we age. Knowledge about aging not only helps us to serve our clients and patients better, but it is also important for our own personal benefit. RNs, LPNs, LMHTs, social workers, counselors, dentists, and dental hygienists will earn 3 contact hours for attending this workshop. Approval is pending for other health disciplines.

$27.00
XNC 2320
Healing Power of the Pen: Journaling as a Therapeutic Tool

Today's world is hectic. As people face the challenges of personal and professional transitions, the technique of journaling can be a helpful tool for change. Journaling can help ease the stress that often accompanies transformation and growth and it can help break through the emotional blocks that stand in the way of success. In this innovative workshop, you will learn techniques for personal use as well as explore specific case examples of exercises that can be used when working with patients/clients--those coping with serious illness, disability and mental health issues, including alcoholics, adult children of alcoholics and others in the addictions recovery process. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Approval is pending for other health professionals.

$54.00
XNC 2321
Marriage or Divorce? (An In-depth Seminar for Clinicians)

Sitting on the fence between marriage and divorce is one of life's weighty dilemmas for people in psychotherapy. Clients who are motivated to take a thoughtful approach with this difficulty can benefit from learning more about their emotional patterns in relationships and from taking another step in defining what principles matter most. How the clinician conceptualizes this issue significantly affects how this question is addressed in therapy. This seminar presents Bowen family systems theory as a framework for understanding how a marriage gets to this point and how to move forward. The seminar also focuses on the clinical work with the individual or couple. Case examples are presented to illustrate the therapy process. RNs, LPNs, LMHTs, psychologists, social workers, counselors and clergy will earn 6 contact hours for attending this workshop.

$79.00
XNC 2322
Depression and Suicide in Children and Adolescents

Learn to recognize depressive symptomatology in children and adolescents and understand its relationship to the development of a depressive disorder. Learn about suicide risk and other self destructive behaviors associated with depression as well as treatment and therapeutic interventions. RNs, LPNs, LMHTs, social workers and counselors will earn 3 contact hours for attending this workshop.

XNC 2323
Awakening the Spirit Within: Daring to Be Yourself
Think about creating the kind of life that reflects who you really are—your talents, your values, your serenity, your joy? There are so many ways in which you can express your true self every day of your life. And, there are so many things to keep that from happening! In this experiential workshop, you will explore who you really are—your dreams, fears, passions, blocks, spirituality, creativity, laughter, gratitude—your SPIRIT. You will discover ways in which you are already expressing your authentic self as well as tools for deepening your understanding of what makes you YOU. If you’re ready to take the next step in awakening your spirit within, join us for this day of self-discovery. RNs, LPNs, LMHTs, social workers, counselors, dentists and dental hygienists will earn 6 contact hours for attending this workshop.

$54.00
XNC 2324

Exploring the Child Within: Taking a Look at Codependency
Do you regularly put the needs and wants of others before your own? Do you deal with your feelings in ways that make you feel worse instead of better? In this workshop, you will explore the ways in which unhealed childhood wounds can interfere with your ability to create a loving and joyful life. You will learn practical tools for developing a caring relationship with your inner child—the part of you that feels—so that you can begin to include yourself in your “circle of care.” RNs, LPNs, LMHTs, social workers, counselors, dentists and dental hygienists will earn 3 contact hours for attending this workshop. Includes a box dinner.

$27.00
XNC 2325

Negativity: Increasing Skills for Diagnosis Intervention and Prognosis We all know people whose general demeanor communicates—perhaps screams—negativity. Besides being unpleasant to deal with, negativity can significantly impact other individuals, groups and organizations. In this workshop, you will identify root causes of negativity and discuss ways to prevent, reduce or turn around negative attitudes or behaviors. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (A) hours. Approval is pending for other health professionals.

$54.00
XNC 2326

Three Score Years and Ten: Families and Eldercare
This seminar for helping professionals will focus on understanding the aging process within the context of family life. You will explore issues related to the life cycle, healthy aging, advance directives within the family context, family dilemmas associated with aging and the role of the professional care giver in working with the elderly and their families. This program will be helpful and interesting if you work with the elderly, have elderly family members or are thinking ahead about your own or a loved one’s aging issues. RNs, LPNs, LMHTs, social workers, counselors, psychologists, dentists and dental hygienists will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (RC) hours. Approval is pending for other health professionals.

$54.00
XNC 2327

Art of Positive Conflict: Creative Approaches to Conflict Management Do you hesitate to voice disagreement because you fear an unpleasant scene or a damaged relationship? Too often, disagreements are ignored because conflict is viewed as a destructive process. Learning to use conflict as a constructive tool for problem solving gives you the confidence to approach disagreements expecting positive outcomes. Achieving outcomes that enhance relationships and produce positive solutions is the essence of creative conflict. Join us as we explore this essential interpersonal skill. RNs, LPNs,
LMHTs, social workers, counselors, dentists and dental hygienists will earn 6 contact hours for attending this workshop. Approval is pending for other health disciplines.

$54.00  
XNC 2328  
Competency: Individual and Organizational Accountability  
Increasing attention is being directed toward assuring competency of practicing health care professionals. This workshop will provide you with an overview of the legal, regulatory, accreditation and professional standards that draw attention to issues of competency. You will explore strategies for assessing competency as well as implications for practice, including accepting or declining assignments, delegation and floating. You will look at this important issue from both the individual and organizational perspective and discuss the responsibility and accountability of each for assuring appropriate practice competencies. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop.

$27.00  
XNC 2329  
Connecting for Kids: Discovering Diversity's Colorful  
Palette Health care professionals have an opportunity to view their patients' diversity as a colorful palette, with each patient adding a special hue or intensity to the experience, interaction or relationship. But while a colorful palette adds interest, it can also add confusion as we try to appreciate and understand individual and cultural differences. This program will help identify our prejudices and how they impact the way we perceive others as well as explore techniques for communicating with people from cultures other than our own. Presenters will demonstrate ways to hold a discussion without alienating others and discuss case studies from several different cultural backgrounds. Alice Kitchen, Children's Mercy Hospital, will supplement the program with a hands-on approach to available resources, i.e. medical record translation and using the Internet as a research tool. RNs, LPNs, LMHTs, social workers, counselors, dentists and dental hygienists will earn 3.5 contact hours for attending this workshop.

$35.00  
XNC 2330  
Parkinson's Disease: New Miracles  
Learn about the new "miracle" surgery for Parkinson's Disease as well as some of the problems patients have encountered after the procedure. Newer medications and the latest findings regarding swallowing, balance, exercise and ADL's will be included also. RNs and LPNs will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (RC) hours. Approval is pending for other health professionals.

XNC 2331  
Managed Care: Mastering the Basics  
The dynamics of the health care delivery system have changed dramatically over the past several years. The single most important factor impacting the change in health care delivery is consumer demand for quality care at an affordable price. As a result, we have witnessed the emergence of managed care. This workshop will provide you with a basic understanding of managed care, the concept of medical management, and the expanding roles for nurses in this growing area of health care. This timely workshop will give you insights and new information for decision-making in our changing health care environment. RNs and LPNs will earn 4 contact hours for attending this workshop.

$36.00  
XNC 2332
High Tech Dentistry with a Compassionate Spirit:
A Recipe for Success Technology is pushing dentistry rapidly ahead in preparation for the new millennium. Which components are right for you and for your dental office? What benefits will they provide? What headaches? How will the staff adjust to the changes that result? And most important, what will your patients think? This workshop will provide a candid look at the high-tech dental office through the eyes of an experienced dentist and her practice manager. You will meet a dentist who went from being afraid to turn a computer on to one who uses most of the high-tech components available. You will interact with a practice manager who knew computers and how to care of people, but did not know an amalgam from an occlusal. Yet, together they have learned how to combine technology and a compassionate spirit to build a very successful dental practice. They look forward to sharing their journey with your dental team. Dentists and dental hygienists will earn 6 contact hours for attending this workshop. The fee for Dentists is $159. The fee for dental hygienists and dental office staff is $89.

$159.00
XNC 2333
Introduction to CPT-4 Coding
A basic understanding of coding has become an important part of effective health care delivery. If you need an introduction to coding and want to focus on basic how-to's, plan to attend this practical course. The course will begin with an overview of the coding system and its conventions. You will code in-class exercises from real-life situations to help you correctly apply the concepts presented. The CPT-4 coding book can be purchased in the JCCC bookstore. Because this course is applicable to a wide range of medical office professionals, no C.E. credit will be given. Certifications documenting attendance will be awarded and may be submitted by the individual participant to the appropriate licensing board.

$39.00
XNC 2334
Taking Care of You: Creative Self-Care
Is it possible to maintain a career and a life? Organizational demands and busy lifestyles have left many health care providers wondering about this question. Fortunately, the answer is yes! Learn how to prioritize needs and establish a plan for getting those needs met. Explore ways to develop daily discipline, a requirement for maintaining spiritual, emotional and physical health. Maintain a sense of peace even when the world around you seems hectic and chaotic. Join us to discover how to creatively take care of you! RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Approval is pending for other health care professionals.

$54.00
XNC 2335
The Challenges of Longevity
We often hear "when the baby boomers reach 65..." Economic implications and social security are already a concern and the large numbers in this age group will influence other factors also. When a large proportion of older people dominates a culture, the social and political climates change as well. Explore these factors and learn how older adults can use their later years in purposeful and rewarding ways. Learn how the healthy and more energetic older adult can contribute in the community, in the family and develop a deeper inner life. Resources for this pursuit will be presented. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Approval is pending for other health care professionals.

$27.00
XNC 2336
Practice What You Preach: Modeling Healthy Weight
Management Why is it so hard to maintain a healthy weight? Even many health
professionals find it very difficult to remain physically fit. This program will help health care professionals analyze the effectiveness of their personal and professional approaches to healthy weight management. You will learn research-based strategies for eating without overeating, for getting regular exercise without procrastinating and for gaining insight into how relationships may set you up for overeating and not getting regular exercise. You will receive detailed descriptions of the recommended weight management clinical guidelines by the National Institutes of Health (NIH) as well as the presenter’s three-pronged approach---Holistic Self-Care Model for Long-Term Weight Management. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Approval is pending for other health care professionals.

$54.00
XNC 2337
Putting Your Patient’s Best Foot Forward
Painful or disabling conditions of the feet prevent many individuals, especially older or homebound patients, from living comfortable and active lives. In this program, you will learn to assess skin condition, circulation, sensation and movement in the foot as well as discuss the management of common foot fungi. You will also have an opportunity to observe a demonstration of nail and skin care. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Approval is pending for other health care professionals.

$27.00
XNC 2338
Nursing Documentation: Professional and Legal Issues
Nursing documentation has undergone multiple changes over the years and documentation methods are continuously evolving—narratives, soaps, AIEMS, focuses, exceptions, raps and paths! Individual, integrated and multidisciplinary formats! No matter what system is used, nursing documentation must reflect the nursing process and stand up to close scrutiny in legal, governmental and regulatory arenas. Learn to evaluate how documentation truly reflects the care received and examine examples of charting involved in medical malpractice cases. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop.

$27.00
XNC 2339
Breathe Easy: An Update on the Pharmacologic Treatment of Asthma and COPD This practical presentation will emphasize the appropriate use of pharmacological agents in the treatment of patients suffering from asthma and/or chronic obstructive pulmonary disease (COPD). The pharmacology, pharmacokinetics, use, side effects and evidenced-based alternatives will be discussed thoroughly. Case studies of various patient scenarios will be provided to facilitate understanding and application of the information presented. RNs and LPNs will earn 6 contact hours for attending this workshop. Approval is pending for other health care professionals.

$54.00
XNC 2340
Anger: The Road to Misery or Self-Discovery?
What happens when you get really angry? How does your body feel, how does your mood change and how do you act? Does your mood and behavior depend on whether you are a male or a female? In this experiential workshop, you will take a look at the different sides of anger—things that influence your particular style of feeling and expressing it, how the anger of others affects you and how repressed anger shows up. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Approval is pending for other health care professionals.

$54.00
XNC 2341

Diabetes: Psychosocial Aspects of Diagnosis and Self-Management

What does it mean to be diabetic? How does an individual's attitudes and coping styles impact the four areas of diabetes care—diet, medication and glucose monitoring, stress management and exercise? In this workshop, you will explore how various factors, including age, gender, ethnicity and learning or parenting style, influence an individual's response to a diagnosis of diabetes. You will learn to utilize these factors to enhance your patient education and assist your client to achieve good medical outcomes. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Approval is pending for other health care professionals.

$27.00

XNC 2342

Therapeutic Touch: A Nursing Intervention

Therapeutic Touch is a healing intervention that involves the direction of life energy by the practitioner to benefit the recipient. You will explore the interaction of the human energy fields with the environment and discuss the different phases of therapeutic touch. You will learn the importance of intentionality and centering in the therapeutic touch process. Specific research that supports the practice of therapeutic touch will also be discussed. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop.

$54.00

XNC 2343

So You Want to Be a Nurse Entrepreneur?

Nurses, because of their education and experience, are in a unique position to work independently rather than in a traditional employment setting. If you are intrigued with this idea, this program will answer your questions and tell you how to get started. RNs and LPNs will earn 3 contact hours for attending this program.

$27.00

XNC 2344

Lab Values: The ABCs of CBCs (and ABGs and TSHs and Lytes and...)

This practical program will provide you with a clear understanding of various lab tests, when and why they are indicated and what their values mean. An overview of cardiac and liver enzymes will be presented and routine labs and their implications will be described. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop.

$36.00

XNC 2345

Women and Heart Disease: The Silent Epidemic

Traditional research into the causes, diagnosis, treatment and prevention strategies of cardiovascular disease has been conducted predominantly on men. As a result, women have not been viewed as being at risk. Yet, national statistics support that more than 500,000 women die from heart disease annually, making it the leading cause of women's death in the United States. This state of vulnerability warrants an emergent need to stimulate awareness, prompt early detection, education and prevention in addressing the magnitude of this "Silent Epidemic" in women. Learn the approaches you need to improve the cardiovascular health of yourself, your family and your patients. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop.

$27.00

XNC 2346

Sentinel Lymph Node: Concept and Technique
The histologic status of lymph nodes is an important prognostic indicator in patients with cancer. The first stop along the route of lymphatic drainage from a primary tumor is a limited set of regional lymph nodes. Dyes and radioactive traces are used to identify the first lymph node(s) to receive drainage from a tumor, termed sentinel lymph node(s). In melanoma, this sentinel lymph node reflects the status of a lymph node basin and is the basis for further treatment. In breast cancer, the use of sentinel lymph node biopsy is undergoing debate. In this workshop, you will review the lymphatic system and explore both the concept and technique for using this important prognostic indicator. RNs and LPNs will earn 3 contact hours for attending this workshop.

$27.00

**XNC 2347**

**Hepatitis: Prevention and Management**

Hepatitis, presenting in both acute and chronic forms, is more prevalent and often more serious than many people realize. While some forms of the illness may be mild, others can lead to life threatening illness and/or development of serious sequelae. In this program, you will examine the different types of hepatitis, explore new treatments and prevention strategies and receive the latest information regarding blood borne pathogen protocols. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Approval is pending for other health care professionals.

$27.00

**XNC 2348**

**Psychotropics Made Simple**

The number and variety of psychotropic agents now available to treat clients/patients with mental disorders has grown significantly in the past few years. Many of these agents have diverse uses and are given to individuals in many different care settings. And you, the health care professional, are asked to respond knowledgeably to these situations! In this interactive program, you will explore the major disease states encountered in mental health care as well as the drug treatment and pharmacology associated with those illnesses. You will learn characteristics of major drug classifications, mechanisms of action, common side effects and implications for use. While pharmacologic treatment of five/six major disease states will be highlighted, the program is flexible and will include an opportunity for questions and more in-depth discussion as needed to provide practical information to assist you in your practice setting. RNs, LPNs, LMHTs, social workers, psychologists and counselors will earn 4 contact hours for attending this workshop. Kansas ACHAs will earn 4 (RC) contact hours. Approval is pending for other health care professionals.

$36.00

**XNC 2349**

**ADD/ADHD: Diagnostic Issues and Management Strategies**

Hear thought provoking discussion addressing diagnostic and assessment issues regarding individuals with attention dysfunction (ADD/ADHD). Learn about research, the challenges associated with the condition and successful treatment interventions. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Approval is pending for other health care professionals.

$27.00

**XNC 2350**

**Drug Therapy in the Elderly**

The elderly constitute about 12.5% of the US population. A myriad of health-related problems complicate the lives of these older individuals. Management of these medical problems frequently involves the use of multiple medications resulting in a variety of adverse events. This program will help you gain a better understanding of these events and provide strategies to prevent adverse outcomes of drug therapy. In addition, the most commonly prescribed
medications for the elderly will be discussed. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (RC) hours.

$27.00

XNC 2351

Mastering Those Dysrhythmia Challenges
This program is designed for nurses and emergency personnel who already have a basic understanding of dysrhythmia analysis and who wish to advance their skills. You will gain confidence in recognizing and appropriately responding to the dysrhythmias covered. Lecture as well as practice on EKG strips will be included. RNs and LPNs will earn 6 contact hours for attending this workshop.

$54.00

XNC 2352

Holistic Approaches to Chronic Fatigue Syndrome
Chronic fatigue syndrome and fibromyalgia have many common features, and some patients may actually have both conditions. Living with these conditions is often very difficult for patients. Health care providers, helping patients manage these chronic ailments, find them challenging as well. This program will discuss criteria for the diagnosis of chronic fatigued syndrome and fibromyalgia and review the latest literature on treatment strategies. The program will also highlight current thinking about the roots of these two increasingly common diagnoses, and assist participants in understanding current research in the field. RNs, LPNs and LMHTs will earn 3 contact hours. Approval is pending for OTs and PTs.

$36.00

XNC 2353

Workplace Relationships: Best Friends or Worst
Wherever men and women come together to accomplish a common goal, conflict seems to be an inevitable companion. This is just as true of the health care workplace as any other. In this workshop, you will examine basic life principles---the power of love, the practical application of forgiveness, keeping work issues in perspective and the importance of affirmation ---and how these impact workplace relationships, often turning worst nightmares into best friends. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Approval is pending for other health professionals. Kansas ACHAs will earn 6 (RC) hours.

$54.00

XNC 2354

Anatomy of a Lawsuit: A Case Study Approach
Changes in our health care system have broadened the scope of nursing practice and professional accountability. Increased accountability can mean increased liability! It is essential for today's nurse to be aware of areas of risk exposure and potential liability. This seminar will feature three legal nurse consultants who frequently review medical malpractice cases. You will learn how a medical practice case is researched and hear expert witnesses present actual court cases with trial exhibits. RNs, LPNs and LMHTs will earn 4 contact hours for attending this course. Approval is pending for other health professionals.

$36.00

XNC 2355

Generation to Generation: How the Family Influences
Children It is generally accepted that the family influences how children function. However, how this occurs is often not understood. Popular ideas range from blaming the mother to blaming the genetic pool of the family. These explanations do not offer people a way of thinking that takes into account how the family emotional environment can influence the behavior of children. This way of
thinking dispels the myth of the "dysfunctional family" and focuses instead on the numerous variables that influence how parents function in relationship to their children. The perspective presented in this seminar is based on Bowen family systems theory, which outlines the complexity of how previous generations exert influence on current generations. The "generation" affect will be explored through the concepts of the theory and through clinical examples. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Approval is pending for other health professionals.

$69.00
XNC 2356

Dermatologic Emergencies and Urgencies

Often rashes or other skin problems may appear benign, but actually reflect an ominous diagnosis. Other conditions can appear alarming, but warrant only reassurance. In this workshop, nurses who encounter patients with skin problems as part of their daily care will discover cutaneous clinical clues that will assist them in providing knowledgeable care for patients who present with various inflammatory, infectious and neoplastic processes. Emphasis will be placed on clinical presentation and will include diagnostic intervention when appropriate.

RNs and LPNs will earn 3 contact hours for attending this workshop.

$27.00
XNC 2357

Diabetes and Pregnancy

The outcome of pregnancy complicated by diabetes can be significantly influenced by the effective management of blood glucose levels. In this presentation, you will discuss gestational diabetes as well as pregnancy complicated by pre-existing diabetes. You will explore the pathophysiology of both conditions and learn screening criteria. You will discuss important aspects of effective management, including nutrition, exercise, stress reduction, medications, and intensive monitoring of mother and baby before and during pregnancy, labor, delivery and postpartum. Emphasis will be placed on achieving "healthy moms and healthy babies." RNs and LPNs will earn 6 contact hours for attending this workshop. Approval is pending for other health professionals.

$54.00
XNC 2358

Innovations in Treating Arthritis

Arthritis and other rheumatic conditions affect more than 42 million Americans, approximately one in every six people. Arthritis is the leading cause of disability in the United States and accounts for medical costs of $15 billion annually. The magnitude of arthritis and related conditions alone compels nurses and other health professionals to be knowledgeable about recent innovations in managing these conditions. This presentation will provide an overview of rheumatic disorders, including rheumatoid arthritis, osteoarthritis, lupus and polymyositis, and will include the clinical presentation, treatment and drug therapy for these debilitating illnesses. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Approval is pending for other health professionals.

$27.00
XNC 2359

Assessment and Stabilization of the Extremities

This practical presentation will introduce you to the examination of the extremities. Using a systematic approach, you will review the appropriate anatomy and learn to perform a detailed assessment of the upper and lower extremities. You will learn to evaluate injuries and medical problems using a risk management format (a systematic evaluation to eliminate potential, serious, underlying problems). RNs and LPNs will earn 6 contact hours for attending this workshop. Approval is pending for other health professionals.
Psychotherapy Made Simple

This workshop identifies and elaborates basic concepts of the psychotherapeutic process. Beginning with how to greet the client and concluding with planning and carrying out termination, this workshop will explore the essential ingredients of the successful therapy practice. Of interest to both new and experienced therapists. Advanced practice mental health nurses, psychologists, social workers and licensed counselors will earn 6 contact hours for attending this workshop.

Attachment and Hunger: Understanding the Client with An Eating Disorder

This presentation will focus on the diagnosis and treatment of eating disorders within the context of connection and attachment. Nurturing care with balanced limit setting will be explored. RNs, LPNs, LMHTs, social workers, psychologists and counselors will earn 6 contact hours for attending this workshop.

Potassium: Maintaining the Balance

This program, available in JCCC labs, provides an overview of the role and function of potassium in the body, as well as measures to correct potassium imbalance. RNs and LPNs will earn 1 contact hour for completing this course. ACHAs will earn 1 (RC) contact hour.

Nursing and the Law

This course, available in JCCC labs, defines legal terms pertinent to nursing practice, explains the role of the state legislature in regulating nursing practice and discusses the relationship between negligence and malpractice. RNs and LPNs will earn 1 contact hour for completing this course. ACHAs will earn 1 (A) contact hour.

Care of the Client Experiencing Anxiety

Presented as a computer-based module in JCCC’s open lab, this course discusses various anxiety-related disorders, including social phobia, post trauma stress disorder, obsessive compulsive disorder and hypochondriasis. RNs, LPNs, LMHTs and social workers will earn 1 contact hour for completing this course. ACHAs will earn 1 (RC) hour.

Care of the Client with Peptic Ulcer Disease

This course provides a comprehensive overview of peptic ulcer disease, including causes, nursing interventions, medications and client teaching needs. RNs, LPNs and LMHTs will earn 1.5 contact hours for completing this course. Kansas ACHAs will earn 1.5 (RC) hours.
XNC 2366

Clinical Management of Individuals with Alzheimer's Disease
As our population ages, the emotional and behavioral problems associated with Alzheimer's Disease and other forms of dementia are becoming increasingly significant for both families and health care providers. This comprehensive workshop will examine the Alzheimer's Disease process from a neurological viewpoint, emphasizing the changes that result in behavioral and psychiatric problems for these individuals, their families and caregivers. Environmental, pharmacologic and interpersonal interventions will be discussed with an emphasis on understanding the demented person's world and changing needs. Medications commonly used to treat both Alzheimer's Disease and the behavioral changes that occur will be discussed also. RNs, LPNs and LMHTs will earn 6 contact hours for attending this program. Kansas ACHAs will earn 6 (RC) hours.

$54.00

XNC 2367

Religious Diversity in Health Care: A Foundation for Holistic Care
Historically, health care has focused on caring for and curing the body and mind, excluding the spiritual dimension of our triune nature. The wall between medical science and spirituality is now coming down! We recognize that effective treatment requires consideration of the whole person---body, mind and spirit. In this course, participants will explore the complementary relationship between spirituality in a religiously pluralistic society and the care provided to patients. Participants will identify approaches for meeting the spiritual needs of individuals from various religious traditions. RNs, LPNs, LMHTs, social workers, psychologists, counselors, clergy, dentists and dental hygienists will earn 6 contact hours. ACHAs will earn 6 (RC) hours. Approval is pending for other health professionals.

$54.00

XNC 2368

Understanding Lab Values
This practical program will provide you with a clear understanding of various lab tests, when and why they are indicated and what their values mean. You will discuss routine lab tests and their implications as well as overview cardiac and liver enzymes. RNs and LPNs will earn 4 contact hours for attending this workshop.

$48.00

XNC 2369

Naturopathic Medicine: Philosophy, Modalities
Naturopathic medicine, also known as natural or holistic medicine, has experienced a tremendous resurgence in the last two decades as a health conscious public seeks alternatives in health care. In this informative course, you will explore the philosophy and therapeutic modalities of naturopathic medicine, including nutritional medicine, botanical medicine and homeopathy. You will learn the clinical indications, mechanism of action, side effects and contraindications of a wide variety of natural medicines commonly used today---CoQ10, DHEA, Hypericum (St. John's Wort), Ginko, Ginseng and others. You will also gain an understanding of the education, training and role of the naturopathic physician, allowing you to answer your patients' questions with greater knowledge and confidence. RNs, LPNs, LMHTs and dietitians will earn 3 contact hours. Approval is pending for OTs and PTs.

$36.00

XNC 2370

Pharmacology of Depression: Familiar Pathways and New Frontiers
This course will allow you to take an in-depth look at
depression with special emphasis on the receptors and the neurotransmitters involved. You will study serotonin, dopamine, norepinephrine and other neurotransmitters believed to be involved with depression, as well as the different anatomical pathways in the brain responsible for depression, obsessive compulsive disorder, panic disorder and eating disorders. You will review traditional drugs such as the selective serotonin re-uptake inhibitors (SSRIs) and tricyclics (TCAs) and learn about newer agents now available. You will also examine the pharmacology, side effects and interaction potentials with other drugs. This course will provide an excellent review of depression and introduce cutting-edge concepts and research about new serotonin receptors, new treatments and combination drug therapy. RNs, LPNs and LMHTs will earn 3 contact hours for attending this course. Approval is pending for other health professionals.

$27.00
XNC 2371

Obsessive Compulsive and Anxiety-related Disorders in Children
Although obsessive compulsive (OCD) and anxiety-related disorders are believed to affect only 3-5% of children under age 16, the symptoms and experiences of these children are often misunderstood and misdiagnosed. Families are confused and often feel helpless as their child battles internal anxiety and the overpowering urge to perform or avoid behaviors/rituals that give only temporary relief to overwhelming anxiety and fear. Since many symptoms associated with OCD or anxiety disorders can also be found in children with attention deficits, learning challenges, Tourette’s Disorder and depression, thoughtful consideration will be given to making the correct diagnosis as well as identifying therapeutic treatment/management approaches, including the importance of developing a team approach to assist the child experiencing these challenges. RNs, LPNs and LMHTs will earn 3 contact hours for attending this course. Approval is pending for other health professionals.

$27.00
XNC 2372

Immunization: You Call the Shots (Parts 1 & 2)
Presented on computer disk, this program is a two-part series. It provides a comprehensive overview of currently accepted immunization practices. RNs, LPNs and LMHTs will earn 6 contact hours for completing this course.

$66.00
XNC 2373

Musical Solutions for Everyday Problems
Music is good for us! We intuitively know this and accept it without question. But do we know why it is not only good for us, but needed for optimal development and well being? In this workshop, you will learn what The Mozart Effect is and why it is important. You will discuss high and low frequency sounds and learn how they relate to health. You will discuss the art of listening, hear the latest research on the relationship between the ear and the brain and explore how this can be used in children with ADD and other problems. You will see a slide presentation on The Sound Environment and how this impacts our lives and discover how cutting edge hospitals are using sound and music in innovative ways, including music for grieving, music in hospice and how the harp is used to assist dying patients. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (RC) hours. Approval is pending for other health professionals.

$54.00
XNC 2374

Pain Management: Integrating Complementary Therapies
into Traditional Regimens According to The American Pain Society, pain is often undertreated, causing suffering and financial loss to individuals and to society. As
a practicing health care professional, you can cite numerous cases to verify this assumption. In addition, Joint Commission on Accreditation of Organizations (JCAHO) acknowledges pain as a coexisting condition with many diseases and injuries and has included new pain management standards for compliance in 2001. In this experiential workshop, you will examine the mind/body connection as well as learn principles of psychoneuroimmunology. You will explore a variety of complimentary therapies, allowing you to individualize your treatment plans and increase your effectiveness as a practitioner. RNs and LPNs will earn 7 contact hours for attending this workshop. Approval is pending for other health professionals.

$63.00
XNC 2375
Taking Off the Mask: Feeding the Hunger Within
Depression, anxiety, marital problems or stress! Traditionally, our clients have presented with symptoms of one of these problems. In recent years, we have been challenged by an increasing number of individuals presenting with feelings of emptiness, being numb or being unable to develop or sustain relationships. Rather than focus on symptoms, this workshop will examine ways clients can lead a fuller life. It will explore issues of attachment, identity, boundary and spirituality as well as barriers to meaningful relationships. RNs, LPNs, LMHTs will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (A) hours. Approval is pending for other health professionals.

$54.00
XNC 2376
Intrapartum Bleeding Disorders
Few emergencies are as frightening as intrapartum hemorrhage. The causes of hemorrhage during the birth process are numerous and determining the etiology of the problem requires a sound understanding of maternal-fetal physiology. In this program, you will review maternal-fetal and uteroplacental physiology, examine problems that may result in intrapartum hemorrhage—placental abnormalities, coagulation defects and uterine problems, and explore interventions to improve outcomes when intrapartum hemorrhage occurs. RNs and LPNs will earn 3 contact hours for attending this workshop.

$27.00
XNC 2377
Making Pathophysiology Work in Your Practice:
Endocrine and CNS If you don't work with patients experiencing endocrine and central nervous system disorders often, you may feel challenged to recall the pathological basis of conditions affecting these body systems. In this workshop, you will review the anatomy and physiology related to endocrine and related CNS disorders and discuss clinical features and laboratory changes expected in patients. You will learn the pathogenesis, clinical characteristics, supporting lab data and assessment procedures for a wide variety of endocrine and neurological disorders as well as how to utilize this information to strengthen your everyday practice. RNs and LPNs will earn 6 contact hours for attending this workshop.

$54.00
XNC 2378
The Compassionate Heart: Dealing with Life-limiting
Illness, Death and Grief From the moment an individual learns they have a life-limiting illness, their life and the lives of everyone close to them will never be the same again. Life has changed—-with change comes loss, with loss comes grief and with grief comes the opportunity to feel, learn and grow into someone more than we were before. In this workshop, you will examine some of the physical, mental, emotional and spiritual aspects of life-limiting illness, death and loss. You will also examine the pain of the grieving process and discover the healing, hopeful power it can bring. Whether you're dealing with the challenges of a
life-limiting illness professionally or on a personal level, developing a compassionate, understanding and loving heart can help make this time a little less difficult. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (RC) hours. Approval is pending for other health professionals.

$27.00
XNC 2379

Seizures and Epilepsy: An Overview of Current Management

A diagnosis of seizures/epilepsy can be frightening and health care professionals are in a unique position to provide factual information about the management of this condition. This workshop will provide an overview of this important topic, beginning with the classification of seizures. You will explore the epidemiology and evaluation of seizures/epilepsy, review videos of various seizure types and discover how to differentiate non-epileptic spells (e.g. syncope and pseudoseizures) from epilepsy. You will also discuss therapeutic strategies to eliminate seizures, including vagal nerve stimulators and brain surgery. The impact of epilepsy on the life of the individual and family will also be discussed. RNs and LPNs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (RC) contact hours.

$27.00
XNC 2380

Prevention and Management of Back Injury

Oh, my aching back! This disabling complaint will affect an estimated one out of four people this year and many of these people will be health care professionals! In this workshop, an advance practice nurse and a physical therapist will join forces to explore this common problem. You will discuss spinal anatomy, the etiology of common injuries and various treatment options, including medication, physical therapy and specialist treatments. You will also focus on preventive and rehabilitative aspects of back pain, including ergonomics and fitness. RNs and LPNs will earn 6 contact hours for attending this workshop. Approval is pending for physical therapists and other health professionals.

$54.00
XNC 2381

Hit Parade of Prescribed Drugs: The Top 100

Which drugs make up the top 100 list? Why are these drugs important and why are they prescribed more than others? Are they safer than similar drugs? Is cost the driving force? Do the multi-million dollar drug companies we hear so much about play a significant part in drug selection? Take a critical look at the top 100 most frequently prescribed drugs, review the characteristics that make them "favorites" and learn why they are prescribed so frequently. Learn why a drug is taken off the market or "banned" by the FDA and discuss the use of herbals and natural products. RNs and LPNs will earn 3 contact hours for attending this workshop. Approval is pending for other health professionals.

$27.00
XNC 2382

Reclaiming Your Life Story

We each carry with us a story of how we arrived at our current place in life. These stories are made up of generational influences, family of origin experiences, life events and perspectives. This presentation will give you the opportunity to see who the antagonists and protagonists are in your life, what has been the theme of your story to date, and how you can begin to shape and alter the script. A story of pain can be retold as one of empowerment. Come learn how to retell your story from strength and resilience. Information from family systems theory will be intermixed throughout the presentation. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Approval is pending for other health professionals.
Meditation and Mind/Body Health: You and Your Patient

Meditation is becoming an important part of self-care regimens. However, the effects of meditation, its benefits and its risks are not always well understood. You will explore two major forms of meditation—mindfulness and concentration, learn how meditation is being used in health care settings and which conditions it can help. You will experience four different meditation sessions and get tips on how meditation can be applied to daily life. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Approval is pending for other health care professionals.

Management of Primary Headache

It is estimated that from 60 to 70 million Americans have experienced some form of headache, making it one of our most common health problems. In this informative workshop, you will explore various causes and types of headache, discuss the prevention and medical management of primary headache and discover various behavioral therapies shown to decrease the frequency and severity of headache pain. RNs, LPNs and LMHTs will earn 3 contact hours for attending this course. Kansas ACHAs will earn 3 (RC) hours. Approval is pending for other health professionals.

Innovative Approaches to Diabetes Management

Type 2 diabetes is reaching epidemic proportions in the United States. Approximately 16 million people have diabetes, but only half are currently diagnosed. Although no cure yet exists for diabetes, our understanding of disease progression and complication escalation in growing each year. In this seminar, you will explore new and innovative approaches to the treatment of pre-diabetic conditions leading to type 2 diabetes, including alternative therapies, dietary variations, and folk remedies. You will also discuss the impact of psychological issues and culture on diabetes care. This seminar will be most beneficial for health care providers who wish to advance their knowledge beyond a basic understanding of diabetes. RNs and LPNs will earn 6 contact hours for attending this workshop. Approval is pending for other health professionals.

The Business of Healthcare: Where Does the Money Go?

Reimbursement, budgets and quality patient care may appear to be in direct conflict with each other. Do you know how reimbursement drives your employer's budget? Do you know how to provide quality patient care and yet support your employer's budget. This workshop will explore healthcare reimbursement history, address budget preparation and provide an opportunity for group discussion of case studies that illustrate important concepts related to the business of healthcare. RNs, LPNs and LMHTs will earn 4 contact hours for attending this workshop. Kansas ACHAs will earn 4 (A) hours. Approval is pending for other health professionals.

Engineering Wellness: Nutrition, Exercise and Stress

Management Developing a wellness lifestyle isn't always easy, but it isn't the impossible task we sometimes imagine it to be. Must you impose rigid dietary restrictions, exercise to exhaustion or change your personality type? Absolutely
In this seminar, you will explore good nutrition and long-term weight management, including the futility/potential harm of popular diets and the use of herbal drugs, supplements, appetite suppressants and caffeine. You will review the benefits of exercise, learn practical ways to incorporate more physical activity into your daily routine and gain tips to reduce stress, fatigue and professional burnout. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Approval is pending for other health professionals.

$54.00

XNC 2388

Two and Three-headed Dragons: Meeting the Challenge of Dual Diagnosis Individuals with dual diagnosis, addiction illness coupled with psychiatric illness, are among the most difficult patients to treat successfully. Left untreated, they are likely to demonstrate horrific behavior in forms of violence, self-harm and suicide. In this workshop, you will explore the relationship between addiction and psychiatric illness and learn how a dual diagnosis treatment approach can make an effective difference. You will also discover how treating only one problem while remaining blind to the other, only undermines good treatment. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (RC) hours. Approval is pending for other health professionals.

$54.00

XNC 2389

Differential Diagnosis, the DSM-IV and Biopsychosocial Assessment. Providing accurate differential diagnoses, using the DSM-IV, is a challenging task for mental health practitioners of all disciplines. While the multi-axial design encourages us to view the individual from multiple perspectives, in reality we tend to concentrate only on Axis I and Axis II criteria. In this program, you will learn to assess the individual's developmental stage, life circumstances, culture, gender and physical status, prior to applying DSM-IV diagnoses. Special emphasis will be given to commonly over-diagnosed and under diagnosed conditions. RNs, LPNs, LMHTs, social workers, psychologists and counselors will earn 6 contact hours for attending this workshop.

$54.00

XNC 2390

Tell Me How It Hurts: Health Care Communication Based on Personality Preferences Why do some patients comply with your requests, while the same words inflame others? It's probably not WHAT you said, but how they HEARD it. Even under normal circumstances, people don't all react the same. When they're sick, their responses are more complex and even more critical to their well being. Based on the Myers-Briggs Type Inventory (MBTI), this program will help you recognize clues to patients' type preferences and interpret them for more effective communication. RNs, LPNs and LMHTs will earn 7 contact hours for attending this workshop. Kansas ACHAs will earn 7 (RC) hours. Approval is pending for other health professionals.

$63.00

XNC 2391

Depression in the Elderly The relationship of depression to morbidity will be discussed, as well as the role of psychotherapy and environmental interventions. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (RC) hours. Approval is pending for other health care professionals.

$36.00

XNC 2392
Complementary Approaches to Women's Health Problems

Women are becoming more knowledgeable regarding choices that may be available for managing menopausal symptoms. And they are asking questions of their health care providers! In this seminar, you will review the physiology of menopause and perimenopause and discuss the pros and cons of conventional and alternative approaches to managing symptoms and preventing long term sequelae of estrogen deficiency. You will also explore nutritional and herbal supplements, Oriental Medicine options, lifestyle modifications, and bioidentical - or so-called "natural" - hormones. 4 contact hours

$36.00
XNC 2393

Meeting the Challenge of Ethical Practice in Mental Health

Mental Health Mental health professionals often face ethical challenges as they address the problems and concerns of their clients. In this important workshop, you will discuss these challenges and examine several ethical orientations that can be used as decision-making tools. Vignettes will be used to provide you an opportunity to think through how to manage ethical dilemmas. You will also review ethical principles and Codes of Ethics from various disciplines. This workshop meets the three-hour ethics requirement for mental health professionals established by the Kansas Behavioral Sciences Regulatory Board. Kansas ACHAs will earn 3 (A) hours.

$27.00
XNC 2394

Exploring the Risk Factors for Cardiovascular Disease

Whether for personal or professional reasons, nurses and other health care professionals need a sound understanding of the risk factors for cardiovascular disease. In this workshop, you will review the well-recognized risk factors--family history and genetic predisposition, smoking, diabetes, hypertension and hyperlipidemia as well as lesser risk factors. You will examine each risk factor individually and explore up-to-date treatments and potential nursing interventions. You will review the current NCEP 2 treatment guidelines, learn about the upcoming NCEP 3 anticipated guidelines and discover how these changes will impact practice. This class will be helpful not only for patient care but also for yourself and your family. RNs and LPNs will earn 3 contact hours for attending this workshop. Approval is pending for other health professionals.

$27.00
XNC 2395

Becoming a Quitter: A Guide to Smoking Cessation

Smoking contributes, directly or indirectly, to 20% of all deaths in the United States annually. More than 400,000 smokers die each year from the effects of smoking. Are you concerned about your patient's tobacco use, but feel unable to help? Is a family member or friend experiencing health problems related to smoking? Are you a smoker and wonder what methods are available to help you quit? This workshop will answer your questions and offer effective strategies for smoking cessation. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (RC) hours. Approval is pending for other health professionals.

$27.00
XNC 2396

Treatment of Inflammatory Disease-Old and New Chemotherapeutic Regimens

Chemotherapeutic Regimens This course will briefly review rheumatologic disease and focus on old and new drug therapy regimens. The treatment goals for inflammatory disorders have remained constant for the past several years and include relief of pain, prevention of joint destruction and deformity and maintenance or restoration of preferred lifestyle. New therapies such as inhibitors
of cytokine interleukin-1 and tumor necrosis factor along with monoclonal antibodies are changing current research efforts and treatment modalities. RNS, LPNs and LMHTs will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTs.

$36.00
XNC 2397
Information Management: Internet Basics
This course is presented on CD for home use and as a computer-based module in JCCC's open lab. It explains how it can benefit healthcare professionals, including information about e-mail, listServs, netiquette and searching the World Wide Web. RNS, LPNs and LMHTs will earn 1.5 contact hours for completing this course. Kansas ACHAs will earn 1.5 (E) hours.

$21.00
XNC 2398
Care of Clients With Sexually Transmitted Diseases
Presented as a computer-based module in JCCC's open lab, this course provides a comprehensive overview of common sexually transmitted diseases, including signs and symptoms, patient teaching and pathophysiology required for nursing assessments and interventions. RNS, LPNs and LMHTs will earn 1.5 contact hours for completing this course.

$18.00
XNC 2399
Antithrombotic Therapy in the Emergency Setting
Learn the basic pharmacology, therapeutic indications, contraindications, adverse effects and monitoring parameters for the use of antiplatelet drugs, anticoagulants and thrombotic drugs in urgent and emergent settings. RNS and LPNs will earn 3 contact hours for attending this workshop.

$27.00
XNC 2400
Medicine Ways of Our Ancestors: Native American
Spirituality Energy Medicine, considered the cutting edge of scientific thought, is actually very old. Shamans, wise women, medicine men and sages have practiced it for over five thousand years. Our ancestors understood the true meaning of healing—restoration, reintegration, reunion and reconnection of one's Spirit. To the healing sound of drum, voice and rattle, explore the dreamtime, that realm of no time and no space where all spiritual healing is effected. RNS, LPNs, LMHTs, social workers, counselors, LMTs, dentists and dental hygienists will earn 6 contact hours. ACHAs will earn 6 (E) hours. Approval is pending for OTs and PTs.

$72.00
XNC 2401
Homeopathy: An Introduction to Principles,
Practices and Commonly Prescribed Remedies The word homeopathy, derived from the Greek words for similar and illness/suffering, is based on the theory that a substance can cure the same problems it causes. You will explore how homeopathy differs from conventional medicine, what kinds of conditions it treats and some of the commonly prescribed remedies—Arnica, Sulphur, Sepia and more. RNS and LPNs will earn 3 contact hours for attending this workshop. Approval is pending for other health professionals.

$27.00
XNC 2402
Dealing with Aging Relatives: Care Along the Continuum
As our population ages, issues related to the care of our elderly are becoming increasingly important. Who are the caregivers and why are they care giving? What happens in families as the demands of caring for aging relatives increase? How do you help guide families in making tough decisions and talking about difficult issues? How do you balance care giving with a career, healthy self-care and other family relationships? This seminar will address the issues that are of primary concern for both elders and caregivers. Particular focus will be on family dynamics, how issues present themselves in mental health and medical settings and what community resources are available. Enrollment is limited to 54. RNs, LPNs, LMHTs, social workers, counselors, dentist and dental hygienists will earn 6 contact hours for attending this seminar. ACHAs will earn 6 (RC) hours.

$54.00

XNC 2403
OSHA Standards as They Apply to the Healthcare
Workplace There have been updates to the Bloodborne Pathogen Standard, Recordkeeping Standard and General Industry Standard that will affect your OSHA compliance program. You need to know the latest information for your healthcare workplace to be in compliance with OSHA regulations. This course will satisfy the required annual training for OSHA's Bloodborne Pathogen Standard and cover health care requirements of the Hazard Communication Standard and the General Industry Standard. RNs, LPNs, dentists and dental hygienists will earn 6 contact hours for attending this workshop. Approval is pending for other health professionals.

XNC 2404
Take Charge: Leave Chronic Fatigue Syndrome and
Fibromyalgia Behind Chronic fatigue syndrome and fibromyalgia currently afflict approximately 8-10 million people in the U.S. Many more go undiagnosed and ineffectively treated. This program will discuss physical and cognitive barriers to overcoming these illnesses and present strategies for healing these conditions. Strategies will focus on the whole person. RNs, LPNs and LMHTs will earn 5 contact hours for attending this workshop.

$45.00

XNC 2405
Those Mysterious Movement Disorders
"Movement disorders" encompass a broad array of disease processes, including "restless leg syndrome," ataxia, dystonia, essential tremor, Parkinsonism, spasticity and others. This workshop will explore the evaluation, management and care of these conditions. RNs and LPNs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (RC) hours.

$27.00

XNC 2406
Solving Workplace Challenges: 2008 and Beyond
The growing complexities of our changing society are adding challenges to the workplace and traditional thinking patterns seem insufficient for solving them. Meanwhile, staffing challenges and questions posed by a diverse workforce remain unanswered. Are realistic solutions to these issues possible? You bet! Don't miss this exciting seminar. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (A) hours. Approval is pending for other health professionals.

$54.00
**XNC 2407**

**If I'm Their Leader, Which Way Did They Go? The Art of Caring Leadership**

Health Care is a business and business research reveals that as high as 75% of all staff are committed to their employer and truly desire to provide quality performance. Their ability to retain that commitment to excellence is governed most by the quality of the leadership they receive. Yet in this present atmosphere of flattened organizational charts, increased direct service of "working managers" and general distrust of people in authority, quality leadership is sorely lacking. This seminar provides the nuts-and-bolts "how to's" of leadership and of influencing staff to eagerly follow. It will be of special interest for health care managers. RNs, LPNs, LMHTs, social workers, LMTs, dentists and dental hygienists will earn 6 contact hours. ACHAs will earn 6 (A) hours. Approval is pending for OTs and PTs.

$72.00

**XNC 2408**

**Uppers, Downers and All-Arounders**

Take a whirlwind tour of the drugs that are abused in our society, from amphetamines, to opiates, to hallucinogens. Explore the brain to uncover the biochemistry of addiction and look at how to utilize this information in the recovery process. Take a look at the latest drugs used in the treatment of addictions as well as important aspects surrounding prescription and street drugs of abuse. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (RC) hours for attending.

$54.00

**XNC 2409**

**Evolutions and Revolutions in Women's Health**

This workshop will present a clinical examination of the impact of the women's movement of the past 40 years. Young girls are increasingly susceptible to a dysfunctional peer and media culture. Adult women remain reluctant to make healthy physical and emotional choices. RNs, LPNs, LMHTs, social workers, counselors, psychologists, dentists and dental hygienists will earn 6 contact hours for attending this seminar. Approval is pending for other health care professionals.

$54.00

**XNC 2410**

**Mindful Practice: Using Meditation for Personal and Professional Growth**

Mindfulness is about developing your awareness skills. As you do this, you will experience increased insight, decreased stress and a more fulfilling life. In this workshop, you will learn about and practice mindfulness meditation. Through active experiences, you will increase your understanding of meditation and how to apply meditative techniques in daily life. The workshop will involve meditation, experiential exercises and group discussion. RNs, LPNs and LMHTs will earn 4 contact hours for attending this workshop. Approval is pending for other health professionals.

$36.00

**XNC 2411**

**Managing Behavior Problems in the Elderly**

Have you ever heard an elderly person referred to as a "mean old man" or "nasty old lady"? Often elderly people do exhibit problem behaviors, but rarely are these the result of being mean or nasty. In this seminar, you will identify common causes of behavior problems in elderly clients and plan practical environmental, interpersonal and medical interventions. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (RC) hours. Approval is pending for other health professionals.
Bringing Home to Those Who Can't Go Home
Home is the primary environment in which you develop and reinforce your sense of identity. It is there that you gain a sense of history and roots. Your home is a unique expression of who you are; it serves as a vessel for your memories and your relationships with family and friends. In this moving workshop, you will explore ways to help nurture that sense of home and personal identity so often lost in sick and institutionalized patients. Deanna Edwards will share her musical talents to show you how to accomplish this goal. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (RC) hours. Approval is pending for other health professionals.

When Drugs Don't Kill Bugs: Antibiotic Resistant
Bacteria Explore past, present and future trends of antibiotic resistant bacteria, including the impact of this phenomenon on patient care, patient outcomes and the health care economy. RNs and LPNs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (RC) hours.

Understanding Asperger and Other
Pervasive Developmental Disorders Pervasive Developmental Disorders (PPD) represent a spectrum of disorders that generally involve impairment in social relatedness, communication skills and eccentric interests, rituals or stereotypes. Asperger Disorder, one disorder within the PDD spectrum, is frequently compared to autism due to a number of shared behavioral similarities. Unlike autism, however, individuals with Asperger Disorder do not tend to display language delay, but rather exhibit severe impairment in social interactions as well as a restricted repertoire of behaviors, interests and activities. In this seminar, the characteristics of Asperger Disorder will be explored plus you will learn why differential diagnosis of this condition is a complex process. There will be a focus on issues regarding social relatedness and appropriate social interventions. RNs, LPNs, LMHTs, social workers, psychologists, counselors, dentists, and dental hygienists will earn 3 contact hours for attending this workshop. Approval is pending for other health care professionals.

GI Drugs: How Do You Spell Relief for GI Problems?
How do you spell relief for digestive problems that can range from minor inconveniences to major illnesses? This practical seminar will review gastrointestinal disorders, discuss the most common GI medications and explore important drug interactions with these agents. RNs and LPNs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (RC) hours.

Finding the Courage to Care: Looking In and Reaching Out
These are tough, yet hopeful times for health care professionals. Critical voices, impossible constraints and unreasonable demands can cause us to lose heart. This seminar will help health care professionals take heart and dare to care. RNs, LPNs and LMHTS will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (A) hours.
XNC 2417

The Silent Epidemic: Alcoholism in the Elderly
Among today's 25 million Americans age 65 and older, there are an estimated 2.5 to 3.7 million that are addicted to alcohol. What is perceived as frailty, senility, or simply the unsteadiness of old age may be alcoholism. This program will explore the depth of the problem in our elderly citizens, and how to recognize and successfully treat it in the geriatric client. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (RC) hours. $27.00

XNC 2418

Spanish 101 for Health Care Professionals
Having a grasp of elementary Spanish phrases can serve to meet patients' basic needs and provide a welcoming atmosphere. Learn Spanish pronunciation, basic grammar and helpful phrases. Resources will be shared and discussion of relevant cultural aspects will be included. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (E) hours. $54.00

XNC 2419

Innovations in Cardiac Surgery
Dramatic changes have occurred in the management of cardiac surgical patients in the last decade. Surgical techniques have undergone exciting changes too--off-pump coronary artery bypass, transmyocardial revascularization and artificial heart implantation to name just a few. This seminar will explore current issues and emerging techniques as well as discuss the impact of evolving technology. RNs and LPNs will earn 3 contact hours for attending this workshop. $27.00

XNC 2420

Bulletproof Confidence
Celebrities Michael Jordan and Oprah Winfrey generate bulletproof confidence from "feeling" brain centers that are not influenced by "thinking" centers or the thought-based techniques used in self-confidence programs. This new feeling-based program helps you uncover these instinctive, primordial "I-can-do-anything" feelings that, unfortunately, most of us have suppressed. RNs, LPNs, and LMHTs will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (A) hours. $54.00

XNC 2421

Managing Anxiety in Today's World
In the uncertainty of today's world, stress cannot be avoided--but it can be managed. This workshop will examine how we can distinguish normal fears and anxieties from serious anxiety disorders. It will focus on ways to make anxiety work for you and your clients in today's uncertain times. RNs, LPNs and LMHTs will earn 4 contact hours for attending this workshop. Kansas ACHAs will earn 4 (A) contact hours. $36.00

XNC 2422

Your Nursing Practice: A Potpourri of Legal Issues
Today's nurses have many concerns about the legal aspects of their practice. This seminar will address three important aspects--defensible charting, malpractice and liability issues, and your rights as an employee. RNs and LPNs will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6
Integrative Therapies for Labor Comfort
Explore the use of nurse-friendly, non-invasive interventions, including the therapeutic uses of music, massage, aromatherapy and birth balls to enhance support of the laboring and birthing woman. RNs and LPNs will earn 3 contact hours for attending this workshop.

Old Isn't Old Any More: Normal Aging in the 21st Century
At the turn of the 20th century life expectancy for females was 47 years; males slightly less. Today it is almost 80 years. The process of aging is not the same as it was 100 years ago. We must redefine what is normal and what is not. This seminar will explore normal changes that occur with aging as well as ways to slow this process. RNs, LPNs and LMHTs will earn 3 contact hours for attending this seminar. Kansas ACHAs will earn 3 (RC) hours.

Stress Management from the Inside Out
Do you think you can't manage your stress because all the things that stress you out---your job, your boss, your spouse, the "system"---are things you can't change? Do you feel "stuck"? Learn how to use your mind and your activities to help create health and peace in your life. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (A) hours.

Understanding Conditions of the Liver
Review the role and functions of the liver. Explore the pathophysiology and evaluation of various liver conditions and understand liver function studies often seen in patient records. RNs and LPNs will earn 5 contact hours for attending this workshop.

The Heart of Healing: Providing Compassionate Care
Technological advances, budget challenges and calls for improved productivity contribute to the growing complexity of the healthcare environment. In spite of this complexity, the person seeking healthcare services is a human being in need of healing. For this reason, offering compassionate care within our high tech, fast-paced work environments has never been more important. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (RC) hours. Approval is pending for OTs and PTs.

Management of Peripheral Lymphedema
One out of eight women will develop breast cancer over the course of their lifetime. Twenty percent of these women will develop lymphedema. This workshop will explore strategies to prevent, identify and manage this debilitating condition. RNs and LPNs will earn 3 contact hours for attending this workshop.
Kansas ACHAs will earn 3 (RC) hours. Approval is pending for other health professionals.

$27.00
XNC 2429
Premenstrual Syndrome and Menopause: A Natural Medicine
Approach Millions of American women experience unpleasant symptoms because of premenstrual syndrome or menopause. Explore the role of hormones in these conditions and discover how natural and synthetic hormone replacement therapy can impact them. Learn to use dietary and lifestyle changes as well as nutritional supplements and botanical therapies to improve general health and sense of well being. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop.

$36.00
XNC 2430
Medical Coding Certification Course
This class will study medical coding using the latest curriculum approved by the American Academy of Professional Coders (AAPC). Individuals who complete the course are then ready to sit for the national AAPC exam. Student workbooks are included in the fee. In addition, CPT, ICD-9-CM and HCPCS are required books and are available for purchase in the JCCC bookstore. A three installment payment plan is available for this course.

$899.00
XNC 2431
Chemotherapy Today: Principles, Practices and Complications
Learn the basic principles behind chemotherapy, including multiple dosing regimens and targeting specifics areas of the cell cycle with multiple drug regimens. Examine side effects and dose limiting toxicities of specific, commonly used chemotherapeutics. Review oncologic emergencies. RNs and LPNs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (RC) hours.

$27.00
XNC 2432
The Decision to Forgive
The decision to forgive after a wrong is sometimes easy, at other times very difficult. In this workshop, you will explore the complex concept and process of forgiveness: the pros, the cons, the risks and the benefits. Gaining more clarity regarding this issue will enhance your personal life as well as your professional life. RNs, LPNs, LMHTs and social workers will earn 3 contact hours for attending this workshop.

$27.00
XNC 2433
Understanding Latino Diversity in Health Care
America's Latino citizens come from dozens of nations and all races. Learn about the similarities and dramatic differences among Hispanic groups and the historical events that shape Latino culture today. Discover how Latino citizens from various backgrounds experience health and illness and explore factors that define quality care for your Latino patients. RNs, LPNs, LMHTs, social workers and counselors will earn 4 contact hours for attending this workshop. Kansas ACHAs will earn 4 (RC) hours.
**XNC 2434**

**A Window Into You: Why You Do What You Do**
Ever wonder, "How did I get to be the way I am?" This workshop will allow you to look at some of the contributing factors that create your unique self---your family system, your birth order, your personality and temperament as well as your group or leadership style. RNs, LPNs, LMHTs, social workers, LMTs, and counselors will earn 6 contact hours for attending this workshop.

$72.00

**XNC 2435**

**Healthcare Management in a Changing Environment**
The healthcare manager has never been more challenged than in today's ever changing environment. New and aspiring managers are invited to explore current concepts of successful management, including finance and budgeting, communication and delegation, scheduling, ethics, TQM and leadership skills. RNs and LPNs will earn 12 contact hours for attending this workshop. Kansas ACHAs will earn 12 (A) hours. Approval is pending for other health care professionals.

$99.00

**XNC 2437**

**Depression: Marital and Family Process**
Depression is a multifaceted symptom that is part of the human's evolutionary inheritance. Although depression is usually thought of as a problem in the individual, Bowen family systems theory sees depression as a symptom of the family system. Using Bowen theory, this seminar presents a map for understanding how marriage and family relationships affect the development and maintenance of depression and how working on oneself in the context of important relationships can influence the course of this symptom. RNs, LPNs, LMHTs, social workers, counselors, psychologists and mental health nurse clinicians will earn 7 contact hours for attending this seminar.

$84.00

**XNC 2438**

**Movement Strategies to Manage Chronic Health Conditions**
This experiential workshop explores how different types of holistic movement can be beneficial for specific chronic health conditions, including arthritis, stroke, multiple sclerosis, fibromyalgia, chronic fatigue, osteoporosis and stress. RNs and LPNs will earn 6 contact hours for attending this workshop. Approval is pending for other health professionals.

$54.00

**XNC 2439**

**Understanding and Motivating A Real Zoo Around the Workplace**
Identify your primary personality style and learn how ingrained behavioral patterns tend to cluster into four basic personality styles. Expand your awareness of individual differences and learn to bring out the best in others, while taking advantage of strengths in the workplace and home. RNs, LPNs, LMHTs, social workers, counselors, dentists and dental hygienists will earn 6 contact hours for attending this workshop. ACHAs will earn 6 (A) hours. Approval is pending for other health care professionals.
XNC 2440

Something Old, Something New: Total Joint Replacement
As our population ages, total joint replacement is increasing as an option for joint pain. Disciplines in many areas of health care will likely encounter patients who plan to or have already had a joint replacement. This comprehensive presentation will prepare you to care for the total joint replacement patient across the continuum. RNs and LPNs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTS.

XNC 2441

New Drugs on the Block
Take a comprehensive look at recently approved drug products in the U.S. Discover how they work, their place in therapy and adverse and drug interactions. RNs and LPNs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (RC) hours.

XNC 2442

Growing Old Ain’t for Sissies
Getting older is not for the faint of heart. The aging process brings slow, but sure, declines in physical and mental abilities. In this workshop, you will explore normal aging, its liabilities and rewards, as well as the psychological characteristics and physical habits we can adopt to face our senior years with optimism and hope. RNs, LPNs, LMHTs, social workers and counselors will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (RC) hours.

XNC 2443

Attachment and Hunger: Understanding the Client with
An Eating Disorder This presentation will focus on the diagnosis and treatment of eating disorders within the context of connection and attachment. Nurturing care with balanced limit setting will be explored. RNs, LPNs, social workers, psychologists and counselors will earn 6 contact hours for attending this workshop.

XNC 2444

Family Caregivers: Meet Their Needs and Improve Patient Outcomes One out of three families in America is providing care for one of their members—a child using high-tech equipment or an elder with dementia. Family caregivers must depend on health care professionals for direction. Learn how to assess and meet the needs of family caregivers from an interdisciplinary group of experts. Hear the latest research and identify resources in the Kansas City area to obtain further assistance. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (RC) hours. Approval is pending for other health professionals.

XNC 2445

Beginning Spanish for Health Professionals
Learn the rudiments of conversational Spanish in the health care setting, especially in the context of the therapeutic patient relationship. Vocabulary words, phrases, pronunciation and idioms will be covered as well as basic medical terminology. Cultural considerations of the Hispanic patient will also be
considered. RNs, LPNs, LMHTs, social workers and counselors will earn 6 contact hours for attending this course. ACHAs will earn 6 (RC) hours. Approval is pending for other health professionals.

$54.00

XNC 2446

Preparation This course is designed for the experienced coder and will move at a fast pace. The latest curriculum approved by the American Academy of Professional Coders (AAPC) will be utilized and will prepare participants to sit for the national AAPC exam. Course completion does not guarantee passing the exam. There is an additional fee for the exam. Prerequisite: Medical Terminology Course and two years verifiable coding experience.

$899.00
XNC 2452

Pain Management in the Substance Dependent Patient

Learn how to properly assess and manage pain in a patient who is currently abusing or has a history of substance dependence. Implementing boundaries in pain treatment plans does this. Boundaries include opioid agreements, random urine drug screens, psychotherapy and frequent appointments. Appropriate pain treatment plans should have both pharmacologic and nonpharmacologic components. RNs, LPNs, LMHTs, social workers, psychologists, counselors, dentists and dental hygienists will earn 4 contact hours. ACHAs will earn 4 (RC) hours. Approval is pending for other health professionals.

$36.00
XNC 2453

Mood Disorders and Anxiety: Diagnosis and Treatment

The program will include didactic and experiential activities that will assist the participant in understanding and being able to make the differential diagnoses in each of these DSM-IV categories. Participants will learn the epidemiology, etiology, diagnostic criteria, and recommended treatments for each diagnosis. Additional topics will include interactions with other diagnoses and ethics with regard to clients with these diagnoses. Experiential activities will include the application of therapeutic interventions to themselves in order to facilitate awareness and understanding, and the review of real case scenarios for practice in diagnosis and treatment management. This program meets social worker requirement for DSM-IV education. RNs, LPNs, LMHTs, social workers, psychologists and counselors will earn 6 contact hours. ACHAs will earn 6 (RC) hours.

$54.00
XNC 2454

Give Me Your Tired, Your Poor: Ethics and Cultural

Competency "Give me your tired, your poor, your huddled masses yearning to breathe free," is inscribed at the base of the Statue of Liberty. No where is that invitation more realized than for those who deliver health care! Today’s patient population presents cultural challenges that at times seem overwhelming. This course begins with the use of a dramatic monologue, “Bonita and Her Children,”
performed by nurse dramatist, Julie Russell. Helen Emmott, community ethicist, will follow with ethical theory and facilitation of participant self-reflection. With the presenters’ unique methodology, you will journey from reaction to practical response, better preparing participants to meet the challenges of cultural issues. Active listening, narrative ethics and the ethic of care will be utilized. RNs, LPNs, LMHTs, social workers, psychologists, counselors, dentists and dental hygienists will earn 3 contact hours. ACHAs will earn 3 (A) hours. Approval is pending for other health professionals.

$27.00

XNC 2455

Mary Ann Thompson 10th Memorial Cancer Symposium
The word cancer continues to evoke fear and dread although medical science has made great strides toward diagnosing and successfully treating many forms of this illness. Aside from surgery, radiation and chemotherapy, a myriad of other interventions are being utilized to enhance both quantity and quality of life. This seminar will present the psychosocial, nutritional, and emotional approaches to living and surviving a diagnosis of cancer. RNs, LPNs, LMHTs, social workers, and counselors will earn 6 contact hours. ACHAs will earn 6 (RC) hours. Approval is pending for OTs and PTs.

$72.00

XNC 2456

Holistic Strategies for Managing Chronic Pain
According to the American Pain Society, pain is often undertreated, causing suffering and financial loss to individuals and to society. Considering the multidimensionality of pain, traditional treatment modalities are not always successful. Pain often requires more than medical management. The addition of complementary therapies to traditional treatment is based on the principles of psychoneuroimmunology, or the mind/body connection. In this experiential workshop, participants will discuss current research on complementary techniques, experience techniques first hand, and begin to develop a plan to integrate techniques into daily life and patient care. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. ACHAs will receive 6 (RC) hours. Approval is pending for other health professionals.

$54.00

XNC 2457

Baby Boomers are Busting Out All Over
This seminar will provide an overview of the so called "baby boom" generation. The session will provide a demographic profile and then identify the effects of this generation on numerous American social institutions such as the family, the economy, and the health care industry. Methods of working with "baby boomers" who have aging parents will also be included. RNs, LPNs, and LMHTs will earn 3 contact hours. ACHAs will earn 3 (A) hours.

$27.00

XNC 2458

The Silent Epidemic: Alcohol and Prescription Drug
This workshop explores the seriousness of this problem and ways in which to become involved and help break the cycle of these addictions. RNs, LPNs, LMHTs, social workers, counselors, psychologists, dentists and dental hygienists will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for other health professionals.

$36.00

XNC 2459

Creative Patient Education: How To Teach So That
Patients Will Learn Positive educational outcomes are the goal of patient teaching encounters. Declining lengths of stay have made attaining those goals more challenging. Have you wondered if it is possible to provide patients essential information in today's rapid delivery healthcare environment? Despite the challenges such an environment poses to professionals, shortened lengths of stay have intensified the need for effective patient education. Leaving the hospital sooner and often with complicated care requirements, patients and families are expected to manage increasingly complex care. Creative approaches to patient education are essential so that we may prepare individuals for life beyond the hospital. This program will provide realistic, practical, and creative approaches to give patients the education they need to be successful. RNs, LPNs, LMHTs and social workers will earn 6 contact hours. Approval is pending for other health care providers.

XNC 2461
Nursing Assessment of Patients with Cardiac Disorders Nursing assessment is the foundation for providing care. Proficiency in conducting a concise and systematic history and physical assessment is a key element. This program will provide the nurse with the skills to perform an adult cardiac assessment and to differentiate between normal and abnormal findings. RNs and LPNs will earn 4 contact hours. ACHAs will receive 4 (RC) hours.

$36.00
XNC 2462
Sixty, Seventy and Suddenly Single Aging in America is changing the phychosocial make-up of our society in many ways and none so important as widowhood and later life divorce. Historically, these life events were handled in traditional ways by remarrying or often going to live with family. Today, seniors are exploring a number of options not open to them before, and women in particular are leading the way to broader horizons after becoming single again. This workshop explores the ways in which seniors survive and often thrive following the loss of a spouse. RNs, LPNs, LMHTs, social workers and psychologists will earn 3 contact hours. ACHAs will earn 3 (RC) hours.

$27.00
XNC 2463
Conscious Anger: Learning to Respond Instead of React Anger is one of those feelings that is often misunderstood and, in many situations, is just downright scary! We can learn to run from it, deny it, block it, use it as a weapon, or we can learn to see it for what it is - just another emotion that is trying to teach us something about ourselves or someone else. In this workshop, we will explore some of the different facets of anger - the things that influence your particular style of feeling and expressing it, the ways in which the anger of others affects you and the ways in which unexpressed anger shows up. We will also discuss the importance of learning to "pick your battles" wisely in your personal as well as your professional life. RNs, LPNs, LMHTs, social workers, counselors, psychologists dentists and dental hygienists will earn 3 contact hours for attending.
this workshop. ACHAs will earn 3 (RC) hours. Approval is pending for other health care professionals.

The Compassionate Heart: Responding to the Needs of
Your Seriously and Chronically Ill Patients From the very moment that someone is
told that they have a serious or chronic illness, not only their life but the lives of
everyone near and dear to them will never be the same again. Life has changed
and with the change comes loss, with loss comes grief, and with grief comes the
opportunity to feel, to learn, and to grow into someone more than we were before.
We will look at some of the physical, mental, emotional and spiritual aspects of
someone who is going through this process. Whether you are dealing with the
challenges of illness professionally or on a more personal level, developing a
compassionate, understanding and loving heart can help to make a very difficult
time a little less difficult. RNs, LPNs, LMHTs, social workers, counselors,
psychologists, dentists, dental hygienists will earn 3 contact hours for attending
this workshop. Approval is pending for other health professionals.

$27.00
XNC 2465
Pharmacologic Interventions for Mental Illness
This course will discuss drug therapies across different mental health disease
states with an emphasis on pharmacological mechanisms of actions and side
effects. The course will also highlight some of the newer drugs approved by the
FDA within the last 3-5 years and the biology of some of the receptors and
neurotransmitters involved. This course is designed to be interactive and involve
participants in their learning. Your course experience will be enhanced if
participants come prepared to talk and ask questions about some of the patients
in your own clinical settings. RNs, LPNs, LMHTs, social workers, psychologists
and counselors will earn 6 contact hours for attending this workshop. ACHAs will
earn 6 (RC) hours.

$54.00
XNC 2466
Long Term Care: Issues, Changes and Approaches for
Our Future Plagued with years of poor reimbursement, bad public image and a
staffing crisis, the Long Term Care provider community is now rising above the
struggles with new innovations and strategies. Demands will increase due to our
aging population, especially within the next 20 years. This seminar will identify
some of the issues and discuss their causes. Focus will then be shifted to
successful strategies for dealing with those issues and current realities. RNs,
LPNs, LMHTs and social workers will earn 3 contact hours. ACHAs will earn 3 (A)
hours. Approval is pending for other health professionals.

$27.00
XNC 2467
Nursing Care of the Patient in Renal Failure
This interactive presentation focuses on the common causes, physiological
alterations, clinical manifestations and nursing care of the patient suffering from
renal failure. A differentiation is made between acute and chronic renal failure.
Current treatments, such as dialysis and organ transplantation will be discussed.
An interactive case approach is used to assist participants with learning about
renal failure. This is basic introductory presentation. Enrollment is limited to 40.
RNs and LPNs will earn 4 contact hours for attending this seminar. ACHAs will
receive 4 (RC) hours.

$36.00
XNC 2468
Levels of Healing
This program explores the levels of healing, physical, psychological and spiritual, and the practitioner’s interventions at each of these levels. Beyond meeting the physical, medical needs, learn ways to promote a positive attitude during the healing experience and help your patients find meaning in their pain and suffering. Come and explore how to integrate this holistic approach in your practice. RNs, LPNs, LMHTs, social workers, counselors, psychologists, dentists and dental hygienists will earn 3 contact hours for attending this seminar. ACHAs will receive 3 (RC) hours. Approval is pending for other health care professionals.

$27.00

XNC 2469

Diagnosing and Treating the Continuum of Grief
When loss occurs for individuals the resulting ripple effects of change permeates a family system as individuals move to adjust and adapt to the loss. The grief and mourning journey is unique to each person however there are some commonalities often shared by fellow travelers on the road. This workshop will explore what is referred to as the grief journey. Attention will be given to the following areas: clinical aspects of diagnosing and treating grief; practical interventions to use with those experiencing loss; issues related to trauma; grief over the life span; discussion on the concept of complicated mourning; and cultural considerations in working with people around loss and grief issues. This course meets the requirements for social worker’s DSM-IV annual training. RNs, LPNs, LMHTs, social workers, counselors and psychologists will earn 7 contact hours for attending the seminar. ACHAs will receive 7 (RC) hours.

$84.00

XNC 2470

Psychosocial Aspects of Patient Care: Now What Do
Many patients bring multiple emotional issues to the medical setting. In addition to the demands of addressing medical needs, the health professional is often used as a sounding board or confidant on emotional matters. It can be difficult to know what to say or suggest. Intense emotional reactions are common during crisis or anxious times, which can be especially challenging. This workshop is designed for the non-mental health professional. Discussion will center on interactions and interventions one might use to address the non-medical areas of life. RNs, LPNs, dentists and dental hygienists will earn 3 contact hours for attending this workshop. Approval is pending for other health care professionals.

XNC 2471

Insulin Resistance: The Path to Metabolic Syndrome and
Diabetes Type 2? Obesity has risen to epidemic proportions in the US today. An estimated 64% of the current population is either overweight or obese. Metabolic Syndrome, the term used to describe a cluster of related medical conditions (including obesity, hyperlipidemia, hypertension and high blood sugar), is also on the rise. An estimated 47 million Americans exhibit symptoms of Metabolic Syndrome. Many of these individuals eventually develop Diabetes Type 2. Can these conditions be identified and treated early to slow or stop the onset of Diabetes? This lecture will discuss Insulin Resistance (IR) as the root cause of these disorders and propose strategies for early detection and possible prevention of Metabolic Syndrome and Diabetes Type 2. RNs and LPNs will earn 3 contact hours for attending this seminar. Approval is pending for other health care professionals.

$27.00

XNC 2472

Assuring a Safe Working Environment: Applying the OSHA
Standards to the Healthcare Workplace 2004 It is important for Healthcare employers and employees to not only know what is required by the OSHA
standards, but also understand the spirit and intent of the standards to provide a safe working environment. OSHA has updated the Bloodborne Pathogen Standard, Recordkeeping Standard and General Industry Standard in the last three years that will affect your OSHA compliance program. You need to know what the latest information is for your healthcare workplace to be in compliance with OSHA regulations. This course will satisfy the required annual training for OSHA's training. RNs, LPNs, LMHTs, social workers, dentists and dental hygienists will earn 6 contact hours for attending this seminar. ACHAs will receive 6(A) hours. Approval is pending for other health care professionals.

XNC 2473

Living in a Culture of Loss

No one is immune from loss. Not in today's business and social climate. Loss of status, employment, marriage, parent(s), spouse, child, sibling, mind, health, financial security and/or integrity are part of the task of navigating life in a loss-centric culture. The motivationalists tell us it's about "turning lemons into lemonade!" You still end up with sticky lemon pulp and peels. How can one recognize, integrate, and come, over time, to value the loss—the accumulated losses? How can the palette of loss become a resource for personal growth and maturation? It's not what you will do "about" the loss. It's, "What will you do through the loss?" RNs, LPNs, LMHTs, social workers, counselors, psychologists, dentists and dental hygienists will earn 4 contact hours for attending this seminar. ACHAs will earn 4 (RC) hours. Approval is pending for other health care professionals.

$36.00

XNC 2474

Advice Outside of the ER/Office

Nurses are always being asked for advice by friends, neighbors and family. Do you ever wonder if there are limitations on what kind of information or assistance a nurse can give outside of the office? Do you worry about your liability when helping a friend with a medical problem? This lecture will answer those questions and more. RNs and LPNs will earn 3 contact hours for attending this seminar.

$27.00

XNC 2475

End-of-Life Nursing Education Consortium Training (ELNEC)

Nurses spend more time with patients and families facing the end of life than any other health professional. Nurses are intimately involved in all aspects of end-of-life care and they address the myriad of needs facing individuals at this time of life. Expert nursing care has the potential to greatly reduce the burden and distress of those facing life's end and the ability to offer support for the many physical, psychological, social, and spiritual needs of patients and their families. This educational activity utilizes the End-of-Life Nursing Education Consortium's curriculum and includes all nine ELNEC modules addressing critical aspects of end-of-life care. Attendance for all nine modules is required to utilize the "ELNEC Trained" designation. RNs and LPNs will earn 9 contact hours for attending this seminar.

$108.00

Presentation Skills for Health Care Professionals
Speaking effectively is a top skill for success in the health care industry. If you want to look, feel, and sound more confident in speaking situations, you’ll want to enroll in this class. Learn how to easily organize your thoughts, confidently present your information and maintain audience interest. RNs, LPNs, LMHTs, social workers, and counselors will earn 6 contact hours. ACHAs will earn 6 (A) hours. Approval is pending for OTs and PTS.

$72.00
XNC 2483
Handling Challenging Behaviors in Persons on the Autism Spectrum
As therapeutic interventions and scientific research continue to improve the quality of life for individuals with autism and their families. The stereotyped description of a child banging a head against the wall while rocking and screaming has become vastly outdated. Individuals with autism spectrum disorders are winning basketball games and spelling bees, starting companies, and writing books. While awareness of autism disorders has grown, practical knowledge about this group of disorders has not followed suit. This course is designed to familiarize students with the characteristics of autism and Asperger Syndrome, with a dual focus on behavioral and social challenges. Particular emphasis will be placed on the proactive and reactive management of challenging behaviors as well as the promotion of social competence. RNs, LPNs, LMHTs, social workers and counselors will earn 4 contact hours. Approval is pending for OTs and PTS.

$48.00
XNC 2484
Effective Teamwork
Health care is a growing industry where people work non-standard hours and often feel they lack sufficient resources. It is essential to their success that they involve, support, and share information with those in their teams or work groups. This course helps managers focus their staff on personal, interpersonal, and organizational advantages of working together effectively and efficiently. RNs, LPNs, LMHTs, social workers, and counselors will earn 3 contact hours. ACHAs will earn 3 (A) hours.

$36.00
XNC 2485
FLASH! Everything You Wanted to Know About Hormones
Have you ever wanted to know more about hormones and hormone replacement therapy? Have other people asked you questions about hormones that you couldn’t answer? Find the answers you need about hormones and how they affect women, men and even children in this seminar. RNs and LPNs will receive 3 contact hours for attending this seminar.

$27.00
XNC 2486
Obesity and Bariatric Care
This course is designed to provide an overview of the obesity epidemic affecting so many Americans today. The treatment options available through bariatric surgery offer many of these people new hope for a better quality of life. The process of identifying appropriate surgical candidates, resolving co-morbidity
issues and psychological and sensitivity issues will be addressed in this program along with the significance of multidisciplinary care to foster positive outcomes. Specific components of a comprehensive surgical program will be identified and reviewed. RN, LPNs, LMHTs, social workers and counselors will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTs.

XNC 2489

Why We Click With Some, and Clank With Others

This course will utilize the DiSC personal profile to help each individual better understand what their strengths and weaknesses are as well as those of others. This information is then utilized to help participants understand how to adapt their style to that of others and explore interpersonal relationships at work. This program also develops key skills based on communication, teamwork and leadership to improve personal and professional relationships. Course fee includes DiSC Personal Profile workbook ($25). RNs, LPNs, LMHT, social workers and counselors will earn 6 contact hours. ACHAs will earn 6 (A) hours.

$97.00

XNC 2490

Elder Law for Kansas Caregivers

Caring for an elder in today’s legal environment can be confusing at best. Come learn how aging can be impacted by the legal system. You will study legal principles where decision making can be withheld from impaired adults and grant to others the power to act for them. (Guardianship). Legal principles will be reviewed which permit preservation of some assets without causing ineligibility for benefits (Medicaid eligibility). Plus there will be valuable information about the power of others to make decisions for a person who is ill or injured (Durable Power of Attorney and Advanced Directives). RNs, LPNs, LMHTs, social workers, counselors, dentists and dental hygienists will earn 3 contact hours for attending this workshop. ACHAs will earn 3 (A) hours. Approval is pending for other health professionals.
Caring for the Caregiver: The Hidden Patient
Approximately 50 million people in the United States provide care for an elder or disabled family member during any given year. As the population of persons age 65 and older climbs to 20 percent by 2030, more and more families will be faced with care giving responsibilities. Caregivers must provide care under complex circumstances, balancing care giving with other responsibilities related to their own families and work outside the home. This seminar provides information about our aging population, issues related to care giving, how to support the caregiver, and available resources. RNs, LPNs, LMHTs, social workers, counselors and psychologists will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTs.

Building Habits that Empower Positive and Durable Change in Clients
Boost your professional effectiveness by learning to make the most of both your knowledge and personal style. First, we’ll examine the five strategies to success and how terminology and communication are key to facilitating change in clients. Then the next level begins with professional philosophy and demeanor: How do you see your role? Is success more art or science? How do you use your personality as an instrument? What elements of routine and self-discipline (as well as self-care) can heighten your effectiveness (think boundaries, record-keeping, professional support and consultation, policies, and systems)? This course will encourage participants to maximize the resources they bring to future professional interventions. RNs, LPNs, LMHTs, social workers and counselors will earn 6 contact hours.

Blending Families: Practical Skills and Insights for Combining Families
Blending families are the fastest growing lifestyle in America. The complexities far exceed the ‘Brady Bunch’ perception. Half of American children will live in divorced families before they are age 18. The divorce rate for first marriages is 50%, second marriages is 60%, and 75% for third marriages. Children are left with revolving parents and parents with revolving responsibilities. The challenge of clarifying ambiguous boundaries and roles takes 5-7 years. This course will cover how these Blending families can, with guidance and psycho-education, be very successful and positive for everyone. RNs, LPNs, LMHTs, social workers, counselors and psychologists will earn 6 contact hours. Approval is pending for OTs and PTs.

Social Work Advocacy for Aging
Although working with the aging population exposes the significant presence of age discrimination that persists in our society, much of social work efforts in the aging field are directed at maintaining inadequate systems. This class will focus on the demands of the social work code of ethics as it relates to advocacy as interpreted through individual, group and community work and how those demands take form in day to day work with this population. Social workers and counselors will earn 3.5 contact hours.

Lab Studies - Advanced
This seminar is expanded beyond the basics. It is a practical program that will
provide a clear understanding of various lab tests, when and why they are indicated and what their values mean. In addition to routine labs, content will cover pregnancy and hormone tests, rheumatology tests, cardiac and liver enzymes, strep and other infectious diseases. RNs and LPNs will earn 5 contact hours for attending this seminar.

$45.00  
XNC 2496  
Women With Attentional Issues: How to Intervene When Traditional Treatment Fails  
Females with attentional deficits often fall through the cracks in terms of both diagnosis and treatment. Unlike their male counterparts, most women report no childhood history of disruptive classroom behavior, no impulsive hyperactivity. Instead, we see a pattern of adulthood contradictions: creativity and underachievement, plus insightful, witty personalities with troubled relationships. Participants will learn to identify and appropriately address attentional issues in women. Both professionals and clients benefit from a multi-discipline approach to client care and education, and this course will invite participants to increase their personal resource lists, gain a better understanding of which interventions are not appropriate for this population, and explore the unique benefits of a women?s attention-deficit support group. RNs, LPNs, LMHTs social workers and counselors will earn 6 contact hours.

$72.00  
XNC 2497  
A Culture of Change in Long-term Care  
As many industries use the term culture change, in long-term care it is vital and long overdue. In this course you will learn the changing trends of healthcare delivery affecting our seniors. Understand how culture change / resident centered care is transforming the long-term care profession. Identify the barriers and road-blocks found during the transformation process. Discover how employee empowerment and self-directed teams can affect retention, job satisfaction and resident outcomes. Find out what type of leadership skills best work in culture change. RNs, LPNs, LMHTs, social workers and counselors will earn 3 contact hours. ACHAs will earn (3 RC) hours. Approval is pending for OTs and PTs.

$36.00  
XNC 2500  
Traumatic Grief and Trauma in Children  
This course is designed to help professionals who work with bereaved individuals and families to better understand the nature and effects of trauma on the grief process and to identify methods of dealing with those who have experienced traumatic events. Specific content will be presented on how to work with children and adolescents who have experienced trauma - recognizing the signs of trauma, identifying signals that are warning signs that a child may be in difficulty and learning about appropriate interventions. RNs, LPNs, LMHTs, social workers, counselors and psychologists will earn 5 contact hours for attending this seminar.

$45.00  
XNC 2501  
Building Relationships That Can Prevent Youth Violence  
American culture is the most violent in the world and our youth are now participants in crimes once thought unthinkable in ones so young. The causes for this are many, but no longer can we ignore the problem. The research shows that one caring adult can make a difference when they realize the pain our youth are experiencing trying to grow up in complex society. This symposium explores the individual psychiatric conditions, family, cultural and the societal dynamics that fulminate in this serious problem. Strategies for individuals and organizations to apply that will make a difference will be presented. Lunch will be provided. RNs,LPNs, LMHTs, social workers, counselors, and psychologists will earn 16
Bridging Generational Gaps: Four Generations in Healthcare Workplace
Representatives from the four generations comprising today's workforce agree about their desire to work in a coordinated, cooperative environment. Yet, discussions between members of those generations often yield unproductive results. In today's world, success is contingent on the ability to identify and enhance the strengths possessed by all team members, regardless of their generation. If you've struggled to understand why some members of your work team behave in annoying and unpredictable ways, don't miss this seminar! RNs, LPNs, LMHTs, social workers, dentists and dental hygienists will earn 6 contact hours for attending this seminar. ACHAs will earn 6 (A) hours. Approval is pending for other health professionals.

Where Has the Thrill Gone? Burnout Prevention
and Recovery Remember the excitement and enthusiasm you experienced when you began to practice your profession? Do you still anticipate each workday or have you become vulnerable to the devastating impact of burnout? Has your excitement and enthusiasm been replaced with cynicism and apathy? Are negative feelings no longer limited to the workplace, but creeping into other aspects of your life as well? If you've been wondering where the thrill has gone, it's time to take action! Join us to identify strategies for recovery and future prevention. RNs, LPNs and LMHTs will earn 6 contact hours for attending this workshop. Approval is pending for other health care professionals.

Certified Dietary Manager-Basic Nutrition
A description is not available for this course.
Deadly Sleep
More than 1,500 traffic fatalities per year may be directly attributed to sleep disorders. Strokes, headaches, impaired mental function and poor job performance can be the result of these disorders as well. Sleep disorders involve more than "sleep apnea" and may include a long list of possible diagnoses. Learn about the many causes of these disorders. RNs, LPNs and LMHTs will wear 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (RC) hours. Approval is pending for other health professionals.

Healing Trauma: The Stages of Treatment
Treatment of survivors of trauma, childhood or adult, neglect and abuse, has often been a random process for both the therapist and the client. While healing trauma is not a linear process, certain stages of recovery follow a common pathway. This presentation explores dynamic, cognitive and behavioral approaches to healing trauma. RNs, LPNs, LMHTs, social workers and counselors will earn 3 contact hours for attending this workshop.

Why It’s OK to Put the "I" Back in Team
Who says there’s no "I" in team? As a matter of fact there are Introverts, Extroverts and other categories of preference that make up any well-functioning team. The problem comes in identifying them and then relating to them in effective ways. Using the Myers-Briggs Type Inventory (MBTI), a framework that facilitates team building, you will explore these preferences and learn to respond to individuals in ways that produce a more effective work environment. RNs, LPNs, LMHTs, social workers and counselors will earn 6 contact hours for attending this workshop. Kansas ACHAs will earn 6 (A) hours.

Common G.I. Conditions: Updating Your Knowledge
Explore common G.I. problems, including GERD, ulcers and superinfections of the G.I. tract, that affect all segments of our population in one way or another. Update your knowledge of current treatments, the health professional's role in educating patients and ways to prevent complications or recurrence of symptoms. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (RC) hours.

Biological Terrorism: A High Impact Threat in Our Community
Are you prepared to deal with a large-scale biological attack when it happens in your community? This workshop will give you a better understanding of the threat that biological terrorism poses and what you can do to prepare for dealing with such an attack. RNs, LPNs and LMHTs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 1.5 (A) and 1.5 (RC) hours. Approval is pending for other health care professionals.

Low Back Pain: Managing A Disabling Health Problem
Low back pain is the leading cause of disability in adults less than 45 years of age, with more than 60% of the U.S. population expected to have at least one episode of limited function from low back pain during their lifetime. Explore the expanding roles of physical medicine and physical therapy in managing this painful and debilitating problem. RNs and LPNs will earn 3 contact hours for attending this workshop. Kansas ACHAs will earn 3 (RC) hours. Approval is pending for physical therapists.

Making a Difference When Grief Strikes
This seminar will explore the needs and support required by the grievers and their close family. RNs, LPNs and LMHTs will earn 3.0 contact hours for attending this seminar.
Making Meaning Out of Loss
This seminar will center on the post-death grieving experience. RNs, LPNs and LMHTs will earn 3.0 contact hours for attending this seminar.

Command Spanish for Health Professionals
This course is designed to teach Spanish that can be used immediately in day-to-day communication with patients. Pronunciation, work-specific language, phonetic encoding and listening activities are a part of each lesson. This is a customized real-life Spanish program designed to prepare the non-Spanish speaking health care professional to better interact with and care for Spanish-speaking patients. Coursework will apply to a wide range of health professionals with an emphasis on enhancing the quality of patient care. Educational materials are published by Command Spanish(r) and include a workbook manual and two CDs ($30) which are included in the fee. RNs, LPNs, LMHTs, social workers and counselors will earn 12 contact hours for attending this seminar. ACHAs will earn 12 (RC) hours. Approval is pending for OTs and PTs.

Negligence 101: The Basics of Tort Law
What does it mean to think like a lawyer? What does an attorney look for when deciding to take a case? As the healthcare environment becomes more technical, healthcare practitioners are exposed to more liability than ever. A basic understanding of what negligence is and how to avoid it are essential. This course is designed for the healthcare professional interested in gaining a basic understanding of how an attorney views a negligence case. You will also gain insight into what happens during the course of litigation and what you can do to limit your risk of being involved in a malpractice action. RNs, LPNs and LMHTs will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending OTs, PTs and dietitians.

Fitting in Fitness
Too Busy? No Time? No Energy? Rid yourself of excuses by squeezing bite-size amounts of fitness into every day. Those with hectic schedules know that finding time to go to the gym can be a challenge. How can we take care of others if we aren’t taking care of ourselves too? Perhaps we know what to do, but can’t find the time to start? Don’t allow exercise to be overwhelming; there are many ways to fit fitness into our lives. By making small changes in your daily routine, you’ll increase your health and well-being tenfold. A little brief stretching goes a long way when it comes to a pain-free body. Learn how to make the most out of every stretch, exercise, and daily task performed at home as well as in the workplace. Develop fitness programs tailored to suit your personal goals and lifestyle. Learn how to exercise properly by combining strength-training and cardiovascular activity to achieve life-long results. Class participation in exercises and stretching is optional, but encouraged. (Bring calculators to class and wear comfortable clothing) RNs, LPNs,LMHTs, social workers counselors and dental hygienists will earn 3 contact hours for attending this course. ACHAs will earn 3 (E) hours. Approval is pending for OTs, PTs and dietitians.
and Immune Reactions Every day health care professionals care for patients who are immune suppressed, deficient, hypersensitive or autoimmune. Yet we often do not remember how the immune system works or the consequences of its failure to work properly. This program is designed to reacquaint health care professionals with the basic principles of immunity. The structure and function of the immune system will be reviewed and case studies will be used to demonstrate the concepts of hypersensitivity, autoimmunity, and therapeutic immune suppression. RNs and LPNs will earn 4 contact hours for attending this seminar. ACHAs will earn 4 (RC) hours.

Precepting-Leadership: Bridging the Gap for Recruiting, Retention and Excellence
In today's health care crises with a decrease in health care professionals and the cost containment crises, it is essential to provide a structured, supportive, learning environment while continuing to teach excellence in practice. RNS, LPNs, LMHTs, and LMTs will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTs.

$36.00
XNC 2865
Weight Loss Revolution - or is it a Revolt? Intelligent Weight Loss for Adults and Kids
It is a well-known, but poorly applied understanding in our American culture that physical inactivity and poor nutrition have been identified as a leading cause of mortality in the US. In 2000, about 400,000 deaths were linked to these behaviors and this represents a 33% increase since 1990. The prevalence of obesity is considered to be a major mediator of these increases. The changes in statistics related to children have also increased at an alarming rate and if not reversed in the near future, the combination of poor diet and inactivity may soon become the number one cause of death in America. This seminar will focus the myths and realities of obesity, nutrition and exercise as they pertain to a healthy lifestyle for adults and children. RNS, LPNs, LMHTs, social workers, counselors, dentists and dental hygienists will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTs.

$36.00
XNC 2870
MIS: Minimally Invasive Surgery for Hip and Knee Replacement
Golfer, Jack Nicklaus and probably someone you know personally, are two of the 165,000 Americans who have undergone hip joint replacement surgery and the lengthy recovery process. Minimally Invasive Surgery (MIS) is addressing many issues associated with conventional/traditional joint replacement procedures. Reduction in the size of incision, reduced tissue trauma, decreased hospital and recovery time combine to make MIS a viable alternative. This seminar will explore this new procedure and how it will impact the patient and caregiver alike. RNS, LPNs, LMHTs, and LMTs will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTs.

$36.00
XNC 2875
Dependent Adult/Elder Abuse: Identifying the Problem and Seeking Solutions
The elderly population is increasing, especially with the baby boomers reaching retirement. This will only increase the challenges the medical community already faces in providing adequate care to dependant adults. As the care for dependant adults increases the strains on the medical community will also increase. These strains can only promote an increase in fraudulent activity against our most vulnerable members of society. This course will explore the need for a combined law enforcement and medical professionals approach to study, detect, treat, prosecute, and most importantly, prevent elder abuse, neglect and exploitation. RNS, LPNs, LMHTs, social workers, counselors, LMTs, dentists and dental hygienists will earn 3 contact hours. ACHAs will earn 3 (A) hours. Approval is pending for OTs and PTs.
XNC 2880

Allergic Diseases: Allergic Rhinitis, Food Allergies, Atopic Dermatitis

A worldwide increase in allergic diseases has lead to a rise in patient visits to the physician, missed school days, absenteeism at work, and healthcare costs. In fact, allergies are one of the most frequent reasons for a patient to visit a physician. This seminar will focus on the many diseases that are caused by allergies and will help sort out these diseases and the different treatments that are available. RNs, LPNs, LMHTs, social workers, counselors, LMTs, dentists and dental hygienists will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTs.

$36.00

XNC 2885

New Concepts Regarding Polycystic Ovarian Disease

Polycystic Ovarian Disease (PCO) will occur in approximately ten percent of women of reproductive age in the U.S. with an initial onset after menarche. This seminar will discuss classic symptoms, long term risks and effects and variable treatment options based on the patient conditions. RNs, LPNs, LMHTs, and LMTs earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTs.

The Health Care Professional Puzzle: How to Make All the Pieces Fit

For changes to occur in today's challenging healthcare world, professionals must speak with one unified voice and collaborate along the full continuum. Many times nurses see obstacles with physicians, physical therapists see obstacles with nurses, case managers see obstacles with any treatment team player and all healthcare workers encounter obstacles with the payer source. This seminar will encourage the participant to look at the full length of healthcare while developing methods and ideas that will foster communication, build teams and form relationships with all healthcare professionals. These situations will be examined and strategies designed to improve the working relationship. The changes can bring about increased effectiveness and value to the healthcare consumer. RNs,
LPNs, LMHTs, social workers, counselors, LMTs, dentists and dental hygienists will earn 3 contact hours. ACHAs will earn 3 (A) hours. Approval is pending for LMTs, OTs and PTs.

$36.00
XNC 2995

Knowledge Overload
Today, healthcare knowledge can be obtained in many formats. The Internet, professional publications, journals and seminars are all valid resources but, as a whole, the information can be overwhelming to the professional and consumer alike. This workshop will define a model for those involved in healthcare resource management to assist in their expectation of knowledge, the appropriate use of knowledge and personal knowledge overload. RNs, LPNs, LMHTs, social workers, counselors, LMTs, dentists and dental hygienists will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTs.

XNC 3000

Improving Care for People with Asthma
Few things are more frightening than feeling as if you can't breathe and for the 13 million Americans who suffer from asthma, management of their disease is as essential as their next breath. Recognizing the signs and symptoms of asthma and its triggers, designing an appropriate treatment program and action plan are major components in disease management. This seminar will look at patient education and many other components that combine to improve the quality of care for people with asthma. RNs, LPNs, LMHTs, and LMTs, will earn 3 contact hours. ACHAs will earn 3 (A) hours. Approval is pending for OTs and PTs.

$36.00
XNC 3005

What is Case Management?
In the world of healthcare, case management has become a term often used for the collaborative healthcare management process. Those practicing as case managers vary in background, education, professional discipline, work setting and experience. This workshop will cover the who, why, when and where of case management. We will also explore the opportunities in the field of case management. RNs, LPNs, LMHTs and LMTs, will earn 3 contact hours. ACHAs will earn 3 (A) hours. Approval is pending for OTs and PTs.

$36.00
XNC 3010

Patients Who Try Your Patience
This seminar is a primer on handling the most challenging behaviors in the hospital setting. Patients with personality disorders may display angry, manipulative, self-destructive behaviors that evoke frustration and anger in the caregivers. They adhere poorly to the treatment recommendations, develop severe anxiety, depression or intractable physical complaints, and may present with alcohol or drug problems. Patients with dementia or delirium can also become aggressive towards their caregivers while in the hospital. This course is designed to provide an overview of causes and characteristics and ways to manage and intervene with various types of challenging patient behaviors. RNs, LPNs, LMHTs, social workers, counselors, psychologists, LMTs, dentists and dental hygienists will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTs.

$36.00
XNC 3015

Cardiovascular Disease and Depression: What's the Connection?
Coronary heart disease affects 6.9 million people, with 800,000 new heart attacks each year. One in three men and one in ten women will develop significant cardiovascular disease by the age of 60 and one quarter of the population has hypertension. Statistics alone would support frequent concurrence of cardiovascular disease and psychiatric disorders. Anxiety and depression are frequent after myocardial infarction and patients with significant cardiovascular disease appear to be at risk for developing psychopathology, particularly depression. This workshop will bring professionals up to date with the psychological aspects of cardiovascular diseases both prior to and after the illness. Emotional consequences, appropriate interventions, and treatments will be highlighted. RNs, LPNs, LMHTs, LMTs, social workers and counselors, LMTs will earn 3 contact hours. ACHAs will earn 3 (A) hours. Approval is OTs and PTs.

$36.00

XNC 3020

Diabetes: Evaluating, Treating, and Preventing an Epidemic

There are 13 million people in the U.S. who have been diagnosed with diabetes and 5.2 million who are unaware that they have this disease. Diabetes does not discriminate age, sex, ethnic or cultural boundaries. This seminar will discuss the complexity of this disease, the epidemiology, complications, prevention and treatment. The socio-economic impact on health care will also be addressed. RNs, LPNs, LMHTs, social workers, and counselors will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTs.

$36.00

XNC 3025

HIPAA: Update: Your Privacy and My Security

This seminar will provide the participant with an update on the latest developments of the Health Insurance Portability and Accountability Act (HIPAA) of 1996. Content will focus on the Privacy Rule, on which new interpretation is available on a regular basis from the Office for Civil Rights, the enforcement arm of HIPAA, and on the Security Rule, which takes effect on April 21, 2005. In addition to didactic material, real world examples will be used to assist participants to critically analyze issues they are faced with in the healthcare environment. Strategies to achieve compliance under the Security Rule before April 21 will be explored and discussed. RNs, LPNs, LMHTs, social workers, counselors, LMTs, dentists and dental hygienists will earn 3 contact hours. ACHAs will earn 4 (A) hours. Approval is pending for OTs and PTs.

Talking 9 to 5: Conversation and Conflict in the Workplace

Conflict? "Oh NO!" ?If this reaction sounds familiar, then this course is for you! The average day in the life of a healthcare worker abounds with opportunities for miscommunication, disagreements, conflict, frustration and headaches. Being able to confidently handle the difficult interpersonal situations that happen every day can decrease the overall stress of the workday and puts you in the position of being able to give better care. Learn skills and insights that turn conflict and disagreements into opportunities for making things better. Find ways to feel more in control of yourself, and the situation. Feel better walking away from the conversation whether or not everything went your way’. RNs, LPNs, LMHTs, social workers, counselors, dentists and dental hygienists will earn 3 contact hours. ACHAs will earn 3 (A) hours. Approval is pending for OTs and PTs.

$36.00

XNC 3035

Family Issues During Difficult Times

Currently, the U.S. divorce rate is the highest in the world, tripling in the last 25 years and forty percent of all current marriages in the United States are 2nd and 3rd marriages. This seminar will acquaint mental health professionals, educators,
childcare and healthcare providers with information about significant family issues of the day. The day is four interrelated sessions devoted to principles of enriching marriage, exploring the blended family, encouraging values in children and establishing effective discipline patterns. Upon completing this seminar, participants will have the understanding to provide meaningful intervention into each of these important family components. RNs, LPNs, LMHTs, social workers, counselors, psychologists, LMTs, dentists and dental hygienists will earn 3 contact hours. ACHAs will earn 3 (RC) hours.

$72.00
XNC 3040
Coronary Artery Disease and Acute Coronary Syndrome
Discussions in this class will include pathophysiology, diagnosis, risk stratification, treatments, and commonly used medications. RNs, LPNs, LMHTs, social workers, counselors, LMTs, dentists and dental hygienists will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTs.

$36.00

Refresh, Restore, Renew: Health Professionals Appreciation Day
As a health care professional, you serve a vital role in the community. We honor you with a day that focuses on caring for the mind, body and spirit. The morning will start with exercise strategies to help you make it through your workday. Following will be a little funny business to encourage a daily dose of laughter. The day will close with music to lift your spirits and soothe the soul. RNs, LPNs, LMHTs, social workers, counselors, psychologists, LMTs, dentists and dental hygienists will earn 6 contact hours. ACHAs will earn 3 (A) hours. Approval is pending for OTs and PTs.

$72.00
XNC 3050
Understanding and Dealing with Difficult Children
In the past few years there has been an array of information regarding dealing with difficult children and adolescents. This workshop is designed to help participants identify qualities and characteristics associated with normal and abnormal development of children and adolescents. It will distinguish common behavioral problems from more serious diagnostic concerns, such as disorders of depression, oppositional defiance, conduct, and hyperactivity. Participants will examine what parental patterns are associated with difficult behavior in children and explore behavioral techniques to discourage negative behavior patterns and encourage positive behavior patterns. RNs, LPNs, LMHTs, social workers, counselors and psychologists will earn 3 contact hours for attending this workshop. This program meets social worker requirements for DSM-IV education.

$36.00
XNC 3055
Development and Maintenance of Intimate Relationships: What the Research Shows
In the past few years new research has surfaced to describe ways in which couples have dealt with relationships and development of intimacy. This workshop is designed to help participants identify this research and integrate the dynamics of this research into practice. The workshop will provide an understanding of healthy relationship development, premarital intimacy, and identify issues of couple discord. Participants will be able to help couples assess strengths and weaknesses of their patients' relationships and identify and conceptualize thematic problems in relationships and develop strategies to deal with these concerns. A focus on sexual functioning will be addressed with techniques to assess and manage these issues in therapy. RNs, LPN, LMHTs, social workers, counselors and psychologists will earn 3 contact hours. This program meets social worker requirements for DSM-IV education.

XNC 3090

Healing With Humor: Therapeutic Humor for Healthcare Professionals
A hearty laugh goes a long way in helping others feel good. This course is for healthcare professionals in all fields and is designed to provide participants with Smart Strategies to become more skilled at using therapeutic laughter, play and humor in a healthcare setting. Therapeutic humor is defined as "any intervention that promotes health and wellness by stimulating a playful discovery or expression of the absurdity of life's situations." Laughter may be the best medicine; laughter mobilizes the patient's own forces of mind and body to combat pain and illness. RNs, LPNs, LMHTs, social workers and dietitians will earn 3 contact hours for attending this course. ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTs.

$36.00

XNC 3095

Dealing Effectively With Generational Differences
"Strive to reach the level of the enthusiasm of youth balanced with the wisdom of age.‖ This quote by an unknown person captures one of the cornerstones of this seminar. We need to realize the "other generation" has much to offer and when all the generational groups close the misunderstanding gap we will benefit from the wisdom and the enthusiasm each has to offer. Terminology, trends and types will be covered for the traditionalist, boomer, 'x'-er and 'y'-er. RNs, LPN, LMHTs, LMTs, social workers, dentists and dental hygienists will earn 4 contact hours for attending this seminar. ACHAs will earn 4 (RC) hours. Approval is pending for OTs and PTs.

$72.00

XNC 3100

Contraindications for Massage Therapy: Lecture and Workshop
This seminar will present vascular, dermatologic, cardiac and a variety of infectious conditions which would contraindicate massage therapy. RNs, LPN, LMHTs, and LMTs will earn 3 contact hours for attending this seminar. Approval is pending for OTs and PTs.

$36.00

XNC 3101

Massage for Healthcare Professionals: More Than a Backrub
This interactive seminar provides healthcare professional information and techniques used in therapeutic massage that are helpful in reducing or eliminating commonly experienced patient discomforts, including headaches, sinus pain and achy shoulders, low back and leg pain. These techniques can reduce the need for medications and improves patient satisfaction with the overall healthcare experience. This course teaches the basics of therapeutic massage that all healthcare professionals can incorporate into their practice. RNs, LPNs, LMHTs, and counselors will earn 6 contact hours. Approval is pending for OTs and PTs.

$72.00

XNC 3102

Unlocking the Mysteries of the DSM-IV-TR
This seminar will start with a systematic look at various DSM diagnoses, some of the most prevalent and some of the trickiest, as portrayed by Hollywood. Comparing and contrasting these images and themes of presentation with DSM criteria, everyday professional issues related to diagnosis, treatment
(psychopharmacological, behavioral, and psychological), and client compliance will be discussed. The critical question for all practitioners, 'is there such a thing as trusting this mental health Bible too much' will be explored. This seminar will also review threats to the DSM validity and reliability, questions, even scandals, related to the ethics behind particular diagnostic entries, and challenges that include, 'Might there be too many diagnoses' and 'Who decides what's a disorder' and who benefits'. RNs, LPNs, counselors, psychologists, and social workers will earn 6 contact hours.

$72.00
XNC 3103
Clinical Update in Dementia Research and Treatment
This seminar will introduce the student to the diagnosis and treatment of the main dementing disorders including Alzheimer's disease, vascular dementia, dementia with Lewy bodies and frontotemporal dementia. Research advances that may lead to future diagnostic and treatment strategies will also be discussed. RNs, LPNs, LMHTs, social workers, counselors will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTs.

$36.00
XNC 3104
Cultural Competency: Strategies for a Diverse Healthcare Workplace
Cultural competency in healthcare describes care provided that is sensitive of health traditions of diverse cultural groups. This program will help update your knowledge and familiarize you with cultural competency and provide you with strategies to effectively manage a diverse healthcare workforce and patient population. Participants will utilize a series of questions to conduct a detailed self-interview of their own cultural heritage and evaluate how their cultural attitudes may influence healthcare provided in their workplace. Discussions will focus on the cultural diversity of Kansas and the United States (US). In addition, health and illness experiences of US ethnic and refugee populations will be discussed. RNs, LPNs, LMHTs, social workers, counselors and psychologists will earn 6 contact hours. ACHAs will earn 6 (RC) hours. Approval is pending for OTs and PTs.

Solving Sleep Problems: From A to Zzzzz
Today clients and professionals are often surrounded by multi-media demands, immediate deadlines, and multi-tasking nightmares. These day-to-day rhythms drive people to ratchet up their levels of activity, adrenaline, and stress, as well as their self-expectations. Why would we be surprised, then, to see that it becomes harder and harder for individuals in all walks of life to turn it off, calm down, take it easy, and settle in and get a good night's sleep? The problems, and solutions, come from a variety of sources. Luckily, one of the most effective treatment options is based in classic cognitive behavioral theory and can be tailored to just about any client presentation. This workshop will explore cognitive behavioral therapies effective for resolving sleep problems. RNs, LPNs, LMHTs, social workers and counselors will earn 6 contact hours. Approval is pending for OTs and PTs.

$72.00
XNC 3107

Self-Centered, Petulant and Moody: Narcissistic and Borderline Personality Disorders

This course will seek to clarify the DSM IV-TR distinctions between Narcissistic and Borderline Personality Disorders and their corresponding, but less pervasive and severe, alternatives. While diagnosis is as much art as science, this course focuses on the science of identifying the differentiating symptoms and designing treatment plans that are both productive and realistic. A review of which diagnostic tools are useful in making the diagnosis as well as strategies to improve compliance with treatment recommendations will be reviewed. RNs, LPNs, LMHTs, counselors, psychologists, and social workers will earn 6 contact hours. ACHAs will earn 6 (RC) hours.

$72.00

XNC 3108

Alzheimer’s Research Forum

Science and research continues to propel us into exciting new directions. We are sitting on the brink of disease modifying medications, new tools of diagnosis and interventions, new understanding of brain aging, and a host of other battle fronts that will lead us to truly changing the face of Alzheimer’s disease. With the Alzheimer’s Research Forum, the Alzheimer’s Association, Heart of America Chapter will partner with JCCC in bringing you Dr. Maria Carillo, Director of Medical and Scientific Affairs, Alzheimer’s Association National Office, Chicago, Ill, as well as area researchers to increase your understanding of the direction of new research and the many ways that the Kansas City metropolitan area is contributing to it. RNs, LPNs, LMHTs, social workers, counselors and psychologists will earn 6 contact hours. ACHAs will earn 6 (RC) hours.

$72.00

XNC 3109

"Just a Behavior?": Managing the Behaviors of Autism

Screaming, blunting out, swearing, hand flapping. ?Just a behavior, or is it the disorder?? Parents often pose this question when a child with an autism spectrum disorder demonstrates a disruptive behavior. This course challenges the perspective that a problem behavior is just a behavior, arguing that all behaviors serve a communicative function. The process of discovering that function and the overall management of problem behaviors will be addressed through both the school and home lens. Special attention will be paid to the Functional Behavioral Assessment (FBA), an approach commonly used by schools to understand problem behaviors, and the Rumbling-Rage-Recovery Curve, a tool for understanding the dynamics of difficult behaviors at home or school. Proactive and reactive strategies for handling behaviors in all environments will also be discussed. RNs, LPNs, LMHTs, social workers, counselors, and psychologists will earn 4 contact hours. Approval is pending for OTs and PTs.

$48.00

XNC 3110

The Psychiatry of Sexuality

Sexuality is one of the most meaningful and complicated aspects of a human life. Because our sexuality is so complicated, many things can go wrong. Over 40% of couples report a sexual problem at some time in their relationship. It is helpful to view these problems from a medical perspective, since medical and psychological interventions are often therapeutic. We will trace the historical aspects, including ancient documents, and the work of Kinsey, Masters and Johnson and others. RN, LPNs, LMHTs, social workers, counselors and psychologists will earn 3 contact hours.

$36.00
Management and Leadership in Long-term Care
This 2-day course is for all supervisors in all departments of any long-term care organization. The purpose is to help managers be successful in the areas of budget, staffing, hiring, leadership and understanding their role as a manager in this highly regulated and complex industry. The participant will first grow in understanding of their own leadership style through the DISC personality profile, then apply those strengths to their own natural ability to lead and impact the outcome for their departments. RNs, LPNs, LMHTs and social workers will earn 12 contact hours. ACHAs will earn 12 (A) hours. Approval is pending for OTs and PTs.

$200.00
XNC 3112

Epidemiology of Infectious Diseases: An Update
Epidemiology is the study of how disease is distributed in populations. This program will help update your knowledge and familiarize you with infectious disease epidemiology and provide you with strategies to effectively minimize transmission in the healthcare environment. Discussions will focus on pathogens, hosts and methods of surveillance and investigation. In addition, the emergence and re-emergence of pathogens including avian influenza and human immunodeficiency virus will be discussed. Participants will investigate outbreaks of an infectious disease, identify the source of the outbreak and make recommendations for prevention and control. RNs, LPNs, and LMHTs will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs, PTs and dental hygienists.

$36.00
XNC 3113

Beyond Fight or Flight...Dealing Constructively With Conflict
In reality, there are more than just two responses to conflict. Each of us, and each DiSC style, reacts to conflict in a unique way. We have our own goals, our own fears and our own ways to get what we need. This course helps participants understand their reactions to conflict and how these reactions affect those around them. It also helps them discover more constructive ways to deal with conflict. Using the DiSC assessment, participants will learn the building blocks of personal style as well as conflict and walk away with a robust understanding of both as well as a personal action plan for managing conflict. RNs, LPNs and LMHTs will earn 6 contact hours. ACHAs will earn 6 (A) hours.

$72.00
XNC 3114

Systemic Health Starts with Good Oral Care
Today, oral health is well documented to influence systemic health and overall well being. Diseases of the teeth, gums and tongue greatly affect heart disease and other systemic illnesses. As the physician workforce shrinks and our aging population increase, the demand for medical support and long-term care needs may not be met with the current models of care. A larger portion of future health care may be in the dental office, not the physician?s office. This workshop will explore how the relationship with dentists and physicians will integrate to provide people with optimum systemic health. The pathology of heart, renal and other diseases as influenced by oral health will also be discussed. RNs, LPNs, LMHTs, dietitians and dental hygienists will receive 3 contact hours.

$36.00
XNC 3115

A History of Psychiatry: A Pill for Every Problem?
Mental illness is as old as mankind, but the concept of a medical specialist responsible for diagnosing and managing disturbances of emotion and behavior is a relatively recent development historical development. Why is it important to expand our medical understanding of emotion and behavior? Psychiatry has
much to offer, but has it promised too much? RN, LPNs, LMHTs, social workers, counselors and psychologists will earn 3 contact hours for attending this seminar.

**Thanks Goodness It's Monday: Putting FUN to Work**

Is it possible for work to be fun? Can fun be a strategic weapon to achieve extraordinary results? Southwest Airlines, Men's Warehouse and many other organizations have found that it may be one of the most important traits of highly successful businesses. Fun decreases stress and increases productivity, creativity, and "want to" in organizations. Learn the steps to create a fun work environment, create an action plan to make it happen, and take away fun energizers to infuse your work life with fun. RNs, LPNs, LMHTs, LMTs, social workers and counselors will earn 4 contact hours for attending this workshop. Kansas ACHAs will earn 4 (RC) hours. Approval is pending for OTs and PTs.

**The Power of Empowerment and the Secret to Forgiveness**

When serving and leading others in a professional setting, we must be clear about who we are in relation to others. This interactive course provides health professionals with tips, tools, and insights for encouraging healthy connections between their patients and others. The course also helps professionals with the self-development they need to model healthy connections through their interaction with patients and other health professionals. Join us to learn the secrets to empowerment and forgiveness in your life and the lives of your patients. You will receive a signed copy of the book, Life Compass for Women. RNs, LPNs, LMHTs, LMTs, social workers and dietitians will earn 3 contact hours for attending this course. ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTs.

$36.00

**XNC 3130**

**You Work Where? Nursing Homes Ain't What They Used to Be!**

Tied up, doped up, bad food and bad smells are what most outsiders think of when the words nursing home are mentioned. Few know that a dynamic
transformation is underway to change the life of residents and the staff who care for them in America’s long-term care facilities. The medical model is being replaced with a humanistic, life-affirming psychosocial model that focuses on individuality, freedom of choice, meaningful pursuits and yes, even the Red Hat Society! In this workshop you will come to view nursing homes in an entirely different way and learn about the changes that are yet to come that will forever change the way we experience nursing homes. RNs, LPNs, LMHTs, dietitians, social workers, and dentists will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs and PTs.

$36.00
XNC 3135
Infidelity: A Systems Perspective
Infidelity usually creates an emotional storm of betrayal, hurt, anger, distrust, and guilt. Couples vary in their ability to slow the emotional process enough to understand the infidelity and to put it in the context of the family. Those who are motivated to learn from this symptom can strengthen their marriage and/or take another step in differentiating a self. In this seminar, you will explore Bowen family systems theory as a framework for understanding infidelity and examine infidelity as a symptom of the family system. You will learn about a natural systems view of infidelity, infidelity as triangling, and the influence of the multigenerational family, emotional cutoff, anxiety, and differentiation of self. In the second part of the seminar, you will explore the clinician’s challenge to apply theory in the clinical setting. You will learn how to work with the emotional intensity, factors affecting resolution of the affair, ways of moving beyond the affair to the emotional process in the marriage and family, and concepts related to differentiation of self. Case examples will be presented to illustrate the clinical process. Social workers, psychologists, counselors and mental health nurse clinicians will earn 7 contact hours for attending this workshop.

$84.00
XNC 3140
Basic Life Support (CPR) for Health Care Provider
This course includes discussion of the cardiac and respiratory systems. The student will demonstrate CPR skills and airway obstruction techniques. With successful completion of this course, the student will receive Basic Rescuer level (Health Care Provider) affirmation.

Anxious Organizations and Noxious Workplaces: Co-Workers on the Therapist’s Couch
Organizations are made up of people - fortunately and unfortunately with all the good and bad qualities thereof. Every day individuals in the workplace, from management to those ‘in the trenches,’ make decisions based upon their own sensitivity to the world. Ultimately, these countless choices affect the success of the organization. When decisions are grounded in reality, the behaviors of the organization will seem sound. However, if driven by anxiety, the behaviors of the organization will seem illogical at best, or self-destructive at worst. Even with a great product, smart leaders, and high profit, a number of organizations receive fines, incur legal charges, and experience high employee turnover. Chalk it up to organizational anxiety, a primitive survival instinct. Learn practical techniques for assessing the level of anxiety in any organization or workplace. The more anxious an organization, the clearer the symptoms and dynamics become. The behavioral dynamics also become very predictable with increased anxiety. Learn practical ways to manage yourself and your employees in the intensity. Bring any challenges you have for application and discussion. RNs, LPNs, LMHTs, social workers, psychologists and counselors will earn 3 contact hours. Approval is pending for OTs, PTs and dieticians.

$36.00

Music That Speaks to Alzheimer’s
In this workshop you will learn why and how music is a powerful tool for helping Alzheimer’s patients. Much of this workshop is experiential so you learn from a whole brain perspective. You will learn about practical musical solutions for relaxation to help the Alzheimer’s patient. There will be an explanation of entrainment, the body’s natural ability to synchronize with outside rhythms and the use of entrainment to help lower heart rate and blood pressure by experiencing music written at exactly 50 and 60 bpm. Participants will learn about the sound environment and how it effects the Alzheimer’s patient. There will be a discussion of sensory issues, challenges and how to reduce agitation in the Alzheimer’s patient by altering the sound environment. Learn many musical techniques for coping with dementia. No musical ability needed to benefit from this workshop.
RNs, LPNs, LMHTs, social workers and counselors will earn 6 contact hours.
ACHAs will earn 6 (RC) hours. Approval is pending for OTs and PTs.

$72.00
XNC 3260
Native American Flute: Therapeutic Aspects
In this experiential class, you will learn the basic techniques needed to play a Native American cedar flute. This instrument is one of the easiest to learn and a wonderful meditative tool. There are two ways to play it: the Western scale and the 5-note Native scale. In this class you will learn the difference between these two scales, but the concentration will be on the Native scale because it allows even non-musicians to quickly learn to make music on this instrument. The cedar wood gives it a wonderful organic sound, great for playing inside or outside. You will learn the therapeutic aspects of the cedar flute, as well as the spiritual significance in working with those who have lung disease, cancer, arthritis, and other medical conditions. A flute will be available for participant use during this class time. RNs, LPNs, LMHTs, social workers and counselors will earn 4 contact hours.

$48.00
XNC 3265
The Difficult Patient: Clinical and Ethical Issues
This one day workshop will give both the beginner and experienced clinician a chance to review and discuss basic concepts and issues in work with difficult-to-treat patients and families. In the morning, participants will divide up into fictional families and role play the initial interview. Dr. Stamm will use the material that emerges from this role-play to talk about important clinical concepts such as making a proper diagnosis, forming a treatment alliance, and dealing with resistance. In the afternoon, Dr. Stamm will illustrate and talk about difficult treatment situations and the troublesome feelings some patients evoke in the patient. The focus will be on how to maintain therapeutic and ethical boundaries with the patient and how to keep the treatment alliance in tact when the patient and/or family seems bent on sabotaging the process. RNs, LPNs, LMHTs social workers, psychologists and counselors will earn 6 contact hours.

$72.00
XNC 3270
Psychotropic Medications: When and Why to Use Them
The use of psychotropic medications for mental illness is a common practice among health care practitioners. This practice has led to the improved quality of life for many, but it is not without risk. More recent medications have a lower negative side-effect profile, but risks still remain including the increase in the number of suicidal thoughts, plans and attempts in adolescents. Behavior problems in adults with dementia are also treated with psychotropic medications. Being able to identify the use of any particular medication is dependent on target symptoms and side-effect profile. This workshop reviews common psychotropic medications, their appropriate use for mood and behavior problems and potential negative side-effects and drug:drug interactions. RNs, LPNs, LMHTs social workers and counselors will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs, PTs and dieticians.

$36.00
XNC 3275
Cerebral Palsy: Old and New Concepts
Our concept of cerebral palsy has changed in recent years because of improved methods of examining the brain. CT, MRI & PET scanning have given us the ability to see inside into the structural and functional status of the brain. Genetic testing has also advanced our understanding of this condition. Most injuries to the neonatal brain are not due to lack of oxygen, but to developmental defects that occur during the first trimester of pregnancy. Many of these are due to genetic
factors. This workshop focuses on the neurological diagnostics that health care professionals need to know to support individuals and their families living with this chronic condition. RNs, LPNs, LMHTs, social workers, counselors and psychologists will earn 3 contact hours. ACHAs will earn 3 (RC) hours. Approval is pending for OTs, PTs and dieticians.

$36.00
XNC 3280
T.E.A.M. Commandments: Tips for Positive and Productive Relationships
The 'Team' is the common structure in today's workplace and how well people work together determines the success of the organization. In this presentation the audience gets involved in discussions and activities that explore 10 skills, attitudes, and beliefs common to successful teams. This learning experience is perfect for all people who have to work with other people. Join the fun and stretch your teamwork muscles in this program of energizing and interactive team-based activities. RNs, LPNs, LMHTs, dental hygienists, social workers and counselors will earn 3 contact hours. ACHAs will earn 3 (E) hours. Approval is pending for OTs and PTs.

$36.00
XNC 3285
Sexual Addiction and the American Family
Mental health professionals are increasingly being confronted with clients who report problematic sexual behavior. These clients often describe out of control, compulsive behaviors which put them and their primary relationships at risk. This course is designed to be an introduction to sexual addiction, its scope, impact on families, identification and treatment. This course is also designed to provide information regarding the resources and training which are available to clinicians who are interested in learning how to treat this population by giving them resources they can share with their clients who may be struggling with sexual behaviors they find problematic. RNs, LPNs, LMHTs, social workers and counselors will earn 3 contact hours. ACHAs will earn 3 (RC) hours.

$36.00

This self-paced course describes the transmission, symptoms, complications, treatment options and management strategies for Hepatitis C. RNs and LPNs will earn 1 contact hour for completing this course. ACHAs will earn 1 (RC) hour.
NOTE: This course may not be taken with ABC’s of Viral Hepatitis.

Art of Positive Conflict: Effective Conflict
Management Skills This self-paced course, available online and in booklet format, defines conflict, describes the stages of its development and explores factors that interfere with effective conflict resolution. RNs, LPNs, LMHTs, and social workers will earn 1 contact hour for completing this course. ACHAs will earn 1 (A) hour.

Veterinary Administrative Assistant Certificate
This 240 hour nationally recognized online course and training program prepares students for an exciting career as an administrative veterinary assistant. Students in the program learn about the care of animals as well as how to recognize signs of illness and disease. This online program also covers interpersonal communication, interaction with clients and their animals, as well as how to assist the veterinarian during examinations. Administrative duties, such as fee collection, banking, and accounts payable are emphasized, and the program contains basic information about pet insurance. A three part payment plan is available for this course. Textbooks are included.

Human Resources for Healthcare Providers Certificate
This 80 hour online course and training program provides a comprehensive human resource management foundation, grounded in practice, for those who intend to work, or are working, in healthcare settings. All of the modules in this online program instill a solid foundation in both human resources and healthcare administrative practices. A three part payment plan is available for this course. Textbooks are included.

Certified National Pharmaceutical Sales Representative
This 120 hour online course was developed in response to a rising need for entry-level certified pharmaceutical sales representatives (CNPR). The program is designed for individuals who want to gain entry into the pharmaceutical industry but who lack the required pharmacology and medical education. A three part payment plan is available for this course. Textbooks are included.
Administrative Dental Assistant Certificate (1 CR)
This 240 hour nationally recognized program teaches the essential administrative tasks for managing the business aspects of a dental practice and becoming an Administrative Dental Assistant. This online program includes instruction in dental terminology and anatomy, medical records management, accounts receivable and reimbursement management, insurance and patient billing, patient scheduling, and procedural and diagnostic coding. This certificate will prepare you for a new career working in a dental office. A three part payment plan is available for this course. Textbooks are included.

Medical Coding and Billing
Upon successful completion of this 240 hour self-paced online course, the student will be prepared to an entry-level position as medical coding and billing professionals. This course prepares you for the CCA certification. You must also meet the Professional Associations's eligibility requirements for the examination. This course is usually completed within six months and all materials are included and a three part payment plan is available for this course.

ICD-10 Medical Coding: Preparation and Instruction for Implementation
ICD-10 is a radically upgraded diagnostic and procedural medical coding system and will soon be mandated by the Federal government for use in the health industry in insurance processing, reimbursement and statistical data gathering. This 200 hour online self-paced course presents a comprehensive overview of the significant changes in store. This course is usually completed in six months and all materials are included. A three part payment plan is available for this course.

Pharmacy Technician Certification Program
This self-paced online course teaches students pharmaceutical terminology, basic physiology as related to the pharmacology of medications, and medication dosage calculations. The course is self-paced and pairs students with an instructor for one-on-one assistance. There are seven online modules to complete prior to the 40 hour externship. Clinical rotations include 20 hours of retail and 20 hours of hospital experience. The course is usually completed within 6 months, but an extension can be applied for. A three installment payment plan is available for this course.

Hypertension 101
Despite all the progress that has been made in identifying the risks associated with hypertension and all the efforts to develop ways to control it (therapeutic or lifestyle modifications) the situation in the US leaves a lot of room for improvement as the following figures will attest. This course will help the healthcare professional health care providers to understand hypertension better and by so doing be in a position to give optimal care. RNs, LPNs, and LMHTs will earn 4 contact hours.

Hypertension 101
Cardiovascular Emergencies
Despite recent progress in the management of cardiovascular disorders generally, and cardiac arrhythmias in particular, sudden cardiac death remains both a problem for the practicing clinician and a major public health issue. In this course, you will re-acquaint you with the more common of these emergencies including chest pain, severe hypertension, dysrhythmia and cardiopulmonary arrest. You will review the health care providers approach to the disorder, treatment and recommended follow up where applicable. RNs, LPNs, and LMHTs will earn 4 contact hours.

$48.00

Health and Lifestyles (XPG)

XPG 1001
Back Safe Workout Program
Back pain affects 80% of adults at one time or another. Many workout programs are potentially damaging to one’s back. The Back Safe Workout is a research-based program that will help you get in shape, decrease your current back pain and avoid future problems.

$10.00

XPG 1003
Natural Solutions to Fibromyalgia
Fibromyalgia is a debilitating condition that can be managed effectively. Dr. Dale Scott will explain why standard medical treatments fail and will offer natural solutions that get results. Learn some pharmaceutical, nutritional, emotional and physical treatment options.

$10.00

XPG 1014
Stay Fit While You Sit
"Oh my aching back". Let Dr. Dale Scott remedy this oft heard complaint with an evening dedicated to discovering the anatomy of neck/back posture, how to make your work station back and neck friendly and finally learn a battery of self-help stretches and exercises to relieve and prevent musculoskeletal complaints.

$10.00

XPG 1021
Natural Alternatives to Prescription Pain Medication
Pain management is a hot topic today. Pharmaceutical companies are pulling popular pain relief medications from the market. This class focuses on safe, non-prescription alternatives to pain medications. Attendees will learn side effects of common prescription pain medications as well as safe relief alternatives and therapies.

$10.00

XPG 5003
Luscious, Low-Fat, Lightning-Quick Meals
Uncover the secrets of making lowered-fat recipes taste terrific. Learn how to get in and out of the kitchen quicker, and explore a registered dietitian's tricks for encouraging reluctant family members to eat more healthfully.

$82.00

XPG 5005
Introduction to Natural Health and Healing
Learn how to promote wellness, balance and health in all aspects of your daily life. This course will give you a basic understanding of the field of natural health.

$82.00

Home Ownership (XPK)

XPK 1008
Is Reverse Mortgage Right for You?
Learn about reverse mortgages; who can qualify, how they work, is a reverse mortgage a good idea for you.

$12.00

XPK 1011
Community Homebuyers Program (Spanish)
You may be able to afford more home than you've thought possible. This four-hour course will help you decide, as it addresses the basic steps involved in achieving home ownership. You will acquire essential information on budgeting, credit reporting, qualifying for the purchase, home inspection and maintenance. Participation in this program is a prerequisite for qualifying for several government-sponsored and conventional loan programs. The class includes information on a new public Web site on financing options and programs available to consumers in the Kansas City Metro Area. Note: The course is co-sponsored by the Kansas City Regional Association of Realtors and will be taught in Spanish. The $10 registration fee entitles you to one instructional packet and one certificate of completion.

$10.00

XPK 1012
Community Homebuyers Program (American Sign Language)
Description: You may be able to afford more home than you've thought possible. This four-hour course will help you decide, as it addresses the basic steps involved in achieving home ownership. $10.00
XPK 1025

All About Mortgages
Getting a mortgage can be painless if you're "armed" with information on various types of loans, the loan process, and factors that determine your interest rates. Special emphasis on avoiding the mortgage pitfalls and traps out there and what some lenders don't tell you. New trends in mortgage insurance are discussed.

$9.00

XPK 1155

Patents, Trademarks and Copyrights
This class will give you a basic understanding of what is patentable, what can be trademarked, and when to obtain a copyright. A patent attorney will instruct the class.

$5.00

House and Garden (XPI)

XPI 1021

Bulbs for Spring Bloom
Learn easier and more effective ways of adding spring-blooming bulbs to your existing flower beds. Get answers to your questions on why your tulips don't always come back, which bulbs are resistant to deer, which bulbs do well in part-shade and more. This class comes with a handout and gorgeous slide program, and is for novice and seasoned gardeners alike.

$12.00

XPI 1023

Raingardens
Turn your problems into landscaping opportunities! This is the class for you if you have an area of your yard that gets swampy for a day or two after a heavy rain, if you are needing to solve a problem with rain-water runoff from your gutters or your neighbors, or are curious about this latest trend in horticulture. This class includes an extensive handout and slide program describing what problems raingardens can solve, how they are constructed, useful plants for sun or shade, and examples of local raingardens. We'll debunk mosquito myths and talk a bit about plant maintenance as well. For novice and seasoned gardeners alike.

$12.00

XPI 1026

Plants for Problem Locations
Many of us have struggled with areas that are periodically sodden, too windy, too steep, too rocky, get too much of the wrong kind of traffic, et cetera. Stop trying to "fix" the site, and instead find plants that like those kinds of locations! (For shade problems, see "Made in the Shade Gardens" class.)

$12.00

XPI 1200

Herb Gardening for the Novice
This class provides a full sensory experience: a full slide program of different herbs and herb gardens. We will explore the differences between annual and perennial herbs and discuss seed starting. You will also get to smell and taste herbs in a few recipes, receive pages of handouts with recipes and uses. Learn how to make herbal oils, vinegars and more. (Class is devoted to culinary, not medicinal herbs.) For novice and seasoned gardeners alike.
Cottage Garden in Suburbia
Cottage-type gardens replete with an abundance of old-fashioned annuals and perennials are enjoying a resurgence in popularity. Find out how you can create one of these gems for your own sunny yard, and view a slide show of plants suitable for our climate. This class is for novice and seasoned gardeners alike. Fee includes handouts and bibliography. Note: landscaping consultation not provided.

Made-in-the-Shade Gardening
Shade gardeners don't worry about sunburn, tomato wilt or wind-whipped plants. But what do you grow in the shade besides impatiens and hostas? What can you do about (eeww) slugs and snails? Learn about flowering shade plants beyond impatiens and hostas. Class includes a slide program of three seasons of flowering plants and handout. For novice and seasoned gardeners alike.

Midwestern Rock Gardens
Even experienced gardeners often shy away from rock gardens because many of the traditional alpine plants are unfamiliar or will not grow in humid weather. However, anyone can have a rock garden. They are neither hard to make nor hard to stock with plants that like Kansas City weather. Class includes handouts, slide program showing suitable plants, rock gardens and directions on how to create your own. For novice and seasoned gardeners alike.

The "Dirt" on Composting
Composting can be as easy or as enthusiastic as you want. We will discuss a heap of ways to add inches of nutritious, soil-loosening compost to your beds. Dig into the details of how to trouble-shoot your pile and what to do about all those leaves! Class includes a slide program and handout. For novice and seasoned gardeners alike.

Xeriscaping: Cottage Gardens on the Prairie
Xeriscaping doesn't mean "zero-landscaping", but rather landscaping that holds up better in years of drought. Learn how our native wildflowers and other tough, well-adapted flowers and ornamental grasses will allow you to create an old-fashioned style "cottage garden" for the sunny areas of your yard. Class includes a slide program and handout. For novice and seasoned gardeners alike.
Butterfly Gardening
Join the growing number of people who enjoy this exciting hobby that combines the best of gardening and butterfly watching. This gardening class includes a slide program of butterflies, the flowers that attract them and gardens. The handout has descriptions of suitable plants for local butterflies. This class is for novice and seasoned gardeners alike.

Perfect Perennials and Awesome Annuals
Perennials are sometimes advertised as "just plant and that's all"; well, not quite. What we have here is a plan for pinching, pruning and dividing to keep your flowers blooming longer and plants tidier and healthier. Class includes a slide program illustrating different techniques, and a handout detailing how you can keep your garden "in the pink" with a minimum of fuss. For novice and seasoned gardeners alike.

Flower Bed Design
This visually-oriented program on design concepts will use the first class to introduce you to the uses of color, visual texture, foliage effects, plus address the quantity of materials needed and using hardscape elements in your flower garden. The second session allows you to then put these concepts into practice in instructor-guided and small-group work. Classes include a slide program and handout. For novice and seasoned gardeners alike.

Growing Plants for Fun and Profit
Turn your love of plants into an enjoyable and profitable home business. Learn how to grow and market plants on a small scale without major capital investment, select and produce plants appropriate to your climate zone, and how to produce quality material.

Insurance (XNI)

INS 21 - Property and Liability Insurance Principles
This course prepares you to take the INS 21 exam which covers the following topics: What insurance is, who provides insurance, how insurance is regulated, measuring the financial performance of insurers, marketing, underwriting, claims, contracts, property loss exposures, liability loss exposures, and risk management.

INS 22 - Personal Insurance
This course prepare you to take the INS 22 exam which covers the following topics: Personal auto policy, homeowners insurance, other residential insurance, personal loss exposures and financial planning, life insurance, and health and disability insurance.
INS 23 - Commercial Insurance
This exam covers the following topics: Commercial property insurance, business income, commercial crime and equipment breakdown, commercial general liability, commercial automobile, workers' compensation and employers' liability, and miscellaneous coverages.

AIC 33 - The Claims Environment
You will learn how the claim representative's role is simultaneously determined by policyholders and other customers, the insurance policy, the insurance company and its management and the law.

AIC 34 - Workers Comp and Managing Bodily Injury Claims
This course will cover the important factors of the workers' compensation system to workers and to employers as well as the central role of claim settlements in that system. You will learn to analyze comprehensibility and benefits in given situations, evaluate the medical aspects of given injury claims and appreciate the importance of medical knowledge and education.

AIC 35 - Property Loss Adjusting
You will learn about all the significant aspects of property loss claims, other than auto. You will understand the important role that insurance policy language plays in determining the rights and duties of policyholders and insurers and how it shapes and guides the investigation and adjustment of first-party losses.

AIC 36 Liability Claims Adjusting
The legal liability in given situations by organizing an appropriate investigation and how to apply the appropriate law will be covered. You will be able to evaluate damages for bodily injury, claims and effectively settle a third-party claim.

ARe 141 Principles of Reinsurance
A description is not available for this course.

Insurance Ethics - 1 Ethics
In this one-hour session you will work with the instructor to secure a consensus on the meaning of the term "ethical behavior." You will then discuss examples of company, client and agent/broker behavior for evaluation from the standpoint of the consensus meaning. CECs: 1 Ethics, Kansas and Missouri Insurance Departments.

$39.00
XNI 3005
Estate Planning - 3 L/H
You will look at strategies involved in estate planning for single, married and nontraditional households. You will review historical perspectives and traditional approaches to planning for the disposition of an estate, as well as the growing popularity of the living trust. This course emphasizes comprehensive estate planning using a team of advisers while offering case studies that illustrate the pitfalls of inadequate or no planning. CECs: 3 L/H - Kansas and Missouri Insurance Departments.

$59.00
XNI 3015
Estate Planning II - 3 L/H
You'll examine the need for planning to minimize the impact of federal estate tax and state inheritance tax on the larger estate. You'll explore planning techniques such as irrevocable trusts and planned giving programs, as well as estate and business planning for the small- to medium-sized business owner through irrevocable life insurance trusts, charitable remainder trusts, buy/sell agreements and family limited partnerships. You are encouraged to complete Estate Planning I before enrolling in Estate Planning II. CECs: 3L/H Kansas Insurance Department.

$45.00
NFIP: The Elevation Certification
Filling out the NFIP Elevation Certificate (EC) has not always been easy, judging from comments the Federal Insurance Administration (FIA) has received about the EC’s format and the relevance of the data collected on it. However, the process of identifying and rating flood risks just got a little easier. Attend this course to learn more about the new Elevation Certificate. Use of the new certificate will become mandatory on January 1, 2000, if the certification date is on or after that date. No fee for this class.

$0.00

NFIP 2006-2008
You will be given an overview of the National Flood Insurance Program and the NFIP’s Elevation Certificate Program changes. The federal government has created a new Elevation Certificate and its use became mandatory in October 2000. This training provides a review by comparing each section with the correlating instructions and carefully analyzes the process of this highly technical document. Several hands-on exercises will be presented to ensure that you have a complete comprehension of the Elevation Certificate.

$30.00

Prerequisite: Appropriate placement test score or XGI 1132. 3 HRS. This course provides the student with knowledge of academic pronunciation and prepares such students for future participation in U.S. based college and university classes by providing tools, strategies, and techniques to speak clearly and accurately. Students will learn and practice high-level strategies and activities which will develop oral and aural proficiency improving the student's ability to understand conversational and academic North American English and to be able to produce English sounds individually and within the context of continuous speech at an advanced level. The goal is for the students to understand and to be understandable to a native speaker of North American English.

XGI 1210
Structure 1210
Prerequisite: Appropriate placement test score. 3 HRS. This course is designed to provide students numerous opportunities for practice in all grammar areas that are important for the beginning grammar student to become a better writer of English. A variety of exercises and activities, both written and oral, enhance this practice with guided study in the classroom and independent work outside the classroom. Weekly computer labs provide further self-paced practice, both during and outside of class time. The goal of this course is to set a foundation for bridging the gap between the study of English as a Second Language and the use of academic English in the college classroom setting.
$189.00
XGI 1220
Structure 1220
Prerequisite: Appropriate placement test score or XGI 1210. 3 HRS. This course is designed to provide students sufficient practice in all the grammar structures that are important for the intermediate grammar student to become a better writer of English. A variety exercises, both oral and written, supplement this practice with guided study in the classroom and self-study outside the classroom. Weekly computer labs give further self-paced practice, both during and outside of class time. The goal of this course is to begin bridging the gap between the study of English as a Second Language and the use of academic English in the college classroom setting.

$189.00
XGI 1230
Structure 1230
Prerequisite: Appropriate placement test score or XGI 1220. 3 HRS. This course is designed to provide students intensive practice using the target grammar structures that are important for the high-intermediate grammar student to become a better academic writer of English. Students will focus on the form, meaning and use of those grammar structures most pertinent to high-intermediate-level rhetorical styles and writing requirements, through extensive and diverse practice exercises, both oral and written. This practice is provided by means of guided study in the classroom, self-study outside the classroom, and weekly computer labs for further self-paced practice, both during and outside of class time. The goal of this course is to further reduce the gap between the study of ESL and the use of academic English in the college classroom setting.

$189.00
XGI 1240
Structure & Writing 1240
Prerequisite: Appropriate placement test score or XGI 1230. 6 HRS. Students develop the ability to comprehend and interpret authentic college-level writing assignments across the disciplines and to respond to them by applying appropriate writing strategies (i.e., comprehend and select material, plan, draft, and revise their written text).

$189.00
XGI 1250
Structure Workshop 1250
Prerequisite: Appropriate placement test score or XGI 1210. 3 HRS. Study, practice, and use the various structures of English to become a better speaker and writer.

$189.00
XGI 1310
Writing 1310
Prerequisite: Appropriate placement test score. 3 HRS. Students review basic English sentences structures and develop the ability to write accurate, fluent, multiple sentences about basic academic topics with an emphasis on the use of specific detail and sentence combining.

$189.00
XGI 1320
Writing 1320
Prerequisite: Appropriate placement test score or XGI 1310. 3 HRS. Students continue to develop academic writing with an emphasis on writing level-appropriate academic paragraphs in the traditional modes: observing, describing, defining, comparing and/or contrasting, explaining processes and/or classifying, and explaining cause(s) and/or effect(s).

$189.00

XGI 1330
Writing 1330
Prerequisite: Appropriate placement test score or XGI 1320. 3 HRS. Students develop the ability to compose (i.e., comprehend, select, plan, and draft) and produce lengthier texts on diverse general education academic topics by applying appropriate writing strategies.

$189.00

XGI 1410
Reading 1410
Prerequisite: Appropriate placement test score. 3 HRS. Students develop the ability to read texts on familiar, basic academic topics with an emphasis on application of critical reading skills.

$189.00

XGI 1411
Vocabulary 1411
Prerequisite: Appropriate placement test score. 3 HRS. Students expand vocabulary and develop vocabulary skills.

$189.00

XGI 1420
Reading 1420
Prerequisite: Appropriate placement test score or XGI 1410. 3 HRS. Students continue to develop academic reading abilities including texts on contemporary academic and literary topics with an emphasis on extensive reading and the enhancement of critical reading skills.

$189.00

XGI 1421
Vocabulary 1421
Prerequisite: Appropriate placement test score or XGI 1411. 3 HRS. Students continue expanding vocabulary and developing vocabulary skills.

$189.00

XGI 1430
Reading 1430
Prerequisite: Appropriate placement test score or XGI 1420. 3 HRS. Students continue to develop academic reading abilities including texts on contemporary academic and literary topics with an emphasis on extensive reading and the enhancement of critical reading skills.

$189.00

XGI 1431
Short Stories 1431
Prerequisite: Appropriate placement test score or XGI 1420. 3 HRS. Students
develop academic reading abilities by being introduced to the works of famous American authors, while building reading, vocabulary, writing, and discussion skills and analyzing and understanding literary terms and techniques. The texts feature original and adaptations of classic stories that progress in difficulty and which highlight important people and periods in American cultural, social, and political history.

$189.00
XGI 1440
Reading 1440
Prerequisite: Appropriate placement test score or XGI 1430. 3 HRS. Students develop academic reading abilities including texts on contemporary literary and academic topics with an emphasis on extensive reading and the enhancement of critical reading skills. Students develop the ability to understand and use academically appropriate new words.

$189.00

Law Enforcement (XNP)

XNP 0140
Basic Leadership/Johnson County Sheriff's Department
Upon successful completion of this course, the student should be able to define the supervisor's role within a company and identify the skills necessary to successfully fulfill that role. In addition, the student should be able to determine the supervisor's role in supervising employees on an individual basis and as a group. The student should also be able to apply the principles of supervision in simulated work situations. (10 sessions)

Coaching Within an Evaluation Program
Supervision of Police Personnel
Prepare your first-line supervisors with the training they need to fulfill their leadership responsibilities. This two-week, 80-hour program assists supervisory personnel in making the transition from office to supervisor. The role of a law enforcement supervisor is a challenging one, requiring the ability to maintain a balance between the objectives and responsibilities of workers and upper-level management, and the ability to manage the ever-increasing volume of job-related data. Topics covered include responsibilities of a staff officer, ethics, professionalism, community image, communication, motivational principles, supervisory challenge, diversity, disciplinary process, complaint investigations, planning and decision making, leadership, managing problem employee, employee performance appraisal, the personal profile system (DiSC) and case studies.

XNP 5700  
**OBJECTIVE PRE-EMPLOYMENT INTERVIEWING**  
There is a direct relationship between people who do not meet a hiring agency’s basic qualifications or behavioral requirements and their tendency to exaggerate, fabricate, minimize, or omit critical information needed to make hiring decisions. Legislation has been proposed that would eliminate government’s use of polygraph and various psychological tests (already illegal in the private sector). Record checks (criminal, credit, academic, traffic, etc.) require that a record exist (seldom the case, particularly with regard to criminal misconduct, violence, or conflicts of interest) and drug tests can be defeated by simple temporary abstinence. In short, it's becoming increasingly more difficult - and expensive - to obtain accurate information regarding sworn and civilian candidates for employment. This course is appropriate for recruiters, personnel officers, background investigators, members of the oral board, and administrators charged with the selection of police and other public personnel for positions of trust. It does not attract negative media or legislative attention and often provides critical employment information unattainable from any other source. (2 sessions)  

$319.00  
XNP 5705
Basic Leadership
This course is designed for first-line supervisors. The supervisor’s role will be defined and skills to successfully fill that role will be discussed. Areas of study include the functions of management, differences between managing and leading, the role of creativity, team building and problem solving for a supervisor, characteristics necessary for a supervisor to get the most from his/her direct reports, a supervisor’s role in the total management structure of an organization, how a knowledge of demographics, abilities, values, attitudes, perception, and personality influence individual behaviors, the theories of motivation and how they can be applied to successfully guide employees toward accomplishing organizational objectives, the communications process, how to use it effectively, and barriers to it, and managing all the stress, The Life Styles Inventory (LSI) will be completed.

$359.00
XNP 5710

Advanced Leadership for Law Enforcement
Advanced Leadership for Law Enforcement is a 40-hour course directed toward law enforcement managers, lieutenants and higher. Basic concepts of leadership are reviewed, and knowledge and skill areas appropriate to the increased responsibilities of administrative staff or line command positions are studied in depth. These areas include teams and team building, trust, change management, organizational culture, the Organizational Culture Inventory (OCI), conflict resolution, the Conflict Style Inventory and negotiation.

XNP 5780
Identity Theft
This lesson will include an overview of Identity Theft. The presentation encompasses video, scenarios, law review, and a simulated Identity Theft investigation. The simulated scenario will focus on obtaining new techniques in combating financial crimes by utilizing audience input to capture a broad range of expertise from the initial police complaint to prosecution. Conscious of the statistic that 1 out of every 4 people will have their identity compromised within the next two years, the course design encourages an attendee to listen as a responding officer as well as a potential victim. Prevention tips on guarding one's identity will be discussed, examples of schemes and new trends will be shared,
and details on courses of action in the event an identity is compromised will be included.

$65.00

XNP 5785

Computer Crimes
This course will provide a comprehensive look at the current trends in the growing subject of computer-related crimes. Instruction will include topics of on-line fraud, electronic storage of evidence of criminal activity, child pornography, on-line enticement, and financial crimes. This course will also instruct attendees on the basic seizure of electronic evidence and proper packaging techniques. The instructor will also present some personal case studies to demonstrate how investigations were conducted and mistakes that were made. Several new technology devices and "toys" will be presented in the class. The instructor intends for the course to be interactive and discussion from the participants is highly encouraged. Some material may be offensive, but is Law Enforcement related and intended for educational purposes only. The instructor will also attempt some humor and will keep the mood very casual. This course is directed to Law Enforcement Officers who have had very little computer exposure, to those who have a great deal of expertise in the subject.

$65.00

XNP 5790

Crime Scene Basic Photography
This will be a four hour class on basic police and crime scene photography. Topics covered will include the basic operation of the digital cameras that most agencies utilize for crime scene photography and their associated media, downloading/emailing/editing images, storage/evidence issues, special features found on most digital cameras, how to photograph various types of crime scenes, the use of scales, the proper use of perspective in photography, legal issues regarding digital images vs. 35 mm photos, do's and don'ts of crime scene photography. The course will consists of the viewing and analyzing of actual crime scene photos taken from various types of cases that the instructor has been involved in including homicide, rape, child abuse, aggravated battery, robbery, and property crimes.

$65.00

XNP 5791

Crime Scene Patrol Level
Understanding each crime scene is unique but that each requires similar processes, procedures, and documentation is the first step to a systematic approach to each scene. This class is for patrol officers and covers topics from gathering initial information and doing a walk through to crime scene diagrams and evidence collection.

$65.00

XNP 5795

Stress Management
This course will teach officers how to be pro-active throughout their careers in regard to the emotional problems consistent within law enforcement. This class will follow the model provided through PHD Kevin Gilmartin, author "Emotional Survival for Law Enforcement" and will discuss the varying stresses an officer can expect to encounter through their social, family and duty roles. The class will examine such topics of entitlement, balance and perspective that are primary issues in a law enforcement career.

$65.00

$35.50
XNP 58005
Advanc’d Accident Investigation
The course is a technical motor vehicle crash investigation class in which students will learn and apply basic principles of physics and mathematical equations to estimate speeds and causes of motor vehicle crashes. The proper procedures for measuring, completing scale diagrams, and recording physical evidence and facts available only at the crash scene will be taught.

$129.00
XNP 5810
Advanced FTO
Designed for Training Officers and Supervisors who have completed a basic Training and Evaluation Program course based on the San Jose Model. The advanced strategies used in this presentation are designed to maximize the effectiveness of those responsible for training and supervising the newly hired employee.

$319.00
XNP 5815
Criminal Interdiction
In this class, officers will learn how, during routine traffic stops, to identify indicators that may lead to investigation of other criminal activity. The course will also teach officers to identify hidden compartments; both those existing naturally in vehicles, and those that have been mechanically installed by sophisticated drug smugglers. Topics will include: Indicators, legal issues, racial profiling, rental cars, false compartments and use of K-9.

$99.00
XNP 5820
Pharmaceutical Diversion Investigation Training
This course will provide the student with a national overview of the abuse of prescription drugs, an understanding of the Controlled Substance Act as it applies to prescription controlled substances and a description of prescription drug crimes and their victims. Suggestions will be provided for the targeting, investigating and reporting of these offenses.

$19.00
XNP 5825
Officer Involved Shooting Investigations
The purpose of this course is to provide attendees with a basic investigative model that is applicable to all officer involved shootings, incidents, regardless of the size of their department. Police officer involved shootings are vastly different from any other type of investigation. The stakes for the shooting officer and his department are so high that it is imperative that the investigation be conducted in a prescribed manner. This course will provide those in attendance with the knowledge, skills and confidence necessary to handle any deadly force incident.

$0.00
XNP 5830
Command Officer Development Course
The course has been developed to provide participants with a group of
management tools that can be applied on the job. This training provides a comprehensive overview of management practices. The course was built around a traditional police administration course. Additional classroom hours were added to provide an in-depth treatment of specific topical areas.

$3,445.00

XNP 5835

Domestic Terrorism
The session examines the wide variety of hate groups currently active in the United States - their history, activities and leaders. Beginning with a broad overview of the various factions of the hate movement, which include the Ku Klux Klan, neo-Nazis, racist Skinheads, black supremacists and others, it will then focus on the most prominent national organizations and state and local chapters. The session also offers several open-source, public Internet resources that can be used to examine these groups and their websites.

$19.00

XNP 5840

Columbine Debriefing
Dr. John Dunaway will complete a de-briefing for law enforcement on the Columbine High School shootings, which took place in Littleton, Colorado on April 19, 1999. John was the Undersheriff of Jefferson County at the time of the incident and was heavily involved in handling it from start to finish. His de-briefing will cover the actual incident, the aftermath and ways to avoid having something like it happen again. This class is for Law Enforcement Officers only.

$19.00

XNP 5855

Law Enforcement Operations
This program will be a presentation on law enforcement operations, focusing on risk management, systems design, customer service, accountability, and integrity. Also included in the program is a system for ethical decision making and many operational risk management ideas for identifying and addressing problem areas. This class is specifically designed for law enforcement supervisory and management personnel. Attendees will learn about techniques to maximize customer service, the decision making process, the "risk/frequency" analysis to better insure things go right, utilization of discretionary time, and where improvement is currently needed in our operations of these critical areas. This program is featured at the FBI National Academy program, the National Executive Institute, and the LEEDS program.

Leadership (XBZ)

XBZ 0414
Essentials of Leadership
This foundation course for the Leadership 101 Certificate Series teaches leaders how to get maximum results through people. You will learn the principles and qualities of successful leaders, practice the skills, and begin planning your own long-term development.

$89.00
XBZ 0427
Essential Skills of Communicating
The skills of first-line managers affect team member retention, productivity, even profitability. Learn to logically organize messages and aim them at the listener’s interests. You will understand how nonverbal factors, such as voice tone, intonation and gestures, are an important part of effective communication. Learn the importance of active listening and the role of responding appropriately.

$89.00
XBZ 0428
Coaching Job Skills
Coaching involves observing, analyzing demonstrating, and giving feedback. It’s a process of developing trusting relationships with team members that are the foundation of successful organizations. Learn how to effectively coach individuals through a process of observation, analysis and one-on-one communication to have impact and gain individual commitment to achieving results.
Supporting Change
Change is an ever-present and important part of business today. Organizations that fail to change find it difficult to compete in today's marketplace. In this course you will understand the three phases of change; learn strategies for supporting change; deal with rumors of change; learn reactions to organizational changes, and how to communicate change.

Resolving Conflict
Managing conflict quickly and effectively can mean the difference between a minor "bump-in-the-road" and lost productivity that can impact the entire organization. Workplace conflicts are unavoidable, but their affect on business can be controlled. Course participants will develop skills and learn to identify the source of team member conflicts; gain effective ways to resolving conflict; and learn the positive and negative aspects of conflict.

Delegating
Sometimes it seems easier to do it yourself. Delegating responsibilities and projects can take time and can lead to misunderstandings and negative results, but delegating can balance the workload and strengthen the bonds of your team. In this course, you will master the skills needed to effectively assign work to others and clearly communicate expectations.

Developing Performance Goals & Standards
An important part of the team leader-team member relationship is mutual agreement on what work needs to be done. In this course you will learn to define goals, objectives and performance standards; identify and set performance standards that are SMART; involve team members in creating their own individual performance standards; negotiate with team members to develop effective SMART-based performance standards; and monitor team members' progress toward their goals by holding individual review meetings.

Providing Performance Feedback
The performance feedback process must be collaborative, where both parties reach a mutual commitment to an agreed-upon change. Properly implemented, the performance feedback process leaves no bad feelings generated or experienced on either side of the discussion. You will learn a systematic, fact-based approach to performance improvement through quality feedback and master the tools required to adjust individual performance.

Effective Discipline
Discussing work performance can be difficult. No one likes to get negative feedback - and giving it can be just as unappealing. But, disciplining team members and eliminating performance problems are a critical management skill. Like most management skills, they are skills that must be developed to be
This course teaches leaders to discipline by focusing on behavior; use positive discipline to encourage self-discipline; and to document the discipline.

$89.00

**XBZ 0435**

**Improving Work Habits**

Poor work habits are a major cause of disciplinary action. Left unaddressed, poor work habits can lead team members to assume that the behavior is acceptable, and that can become a critical management issue. In this course you will learn to clearly communicate the nature of the problem; learn a process for working with the individual to develop a plan for addressing the issue while maintaining self-esteem; distinguishing between job performance and work habits; and recognize and address work-habit problems.

$89.00

**XBZ 0436**

**Managing Complaints**

Learn to treat all complaints with fairness and dignity before they become larger problems that threaten the work environment. This course will show you how to approach complaints in a way that is supportive of employee and team goals and to understand why dealing with team-member complaints is important. Learn how the effective team leader manages complaints and uses listening skills to manage complaints.

$89.00

**XBZ 0437**

**Communicating Up**

How do you get your manager’s time and attention? Communicating up is not difficult, but it does demand that you temporarily put yourself in your manager’s place to understand his/her specific style and work challenges. Managers live with the same time pressures you do, so any time you spend with them must be focused on giving them the information they need to support problem-solving and decision-making for you and your group or company. Determine your manager’s communication style. Learn how to deliver bad news and communicate your group’s accomplishments.

$89.00

**XBZ 2100**

**Core Skills for Building Commitment**

This course teaches you how to get results through people. You will acquire a set of proven interaction skills, discover seven Leadership Imperatives key to meeting today’s challenges, and realize your role as a catalyst leader who inspires others to act.

$99.00

**XBZ 2101**

**Facilitating Improved Performance**

You will learn the skills needed to help people with performance or work habit problems. This course will show you how to help people develop improvement plans, conduct effective improvement discussions, and handle the challenges you may encounter in improvement discussions.

$99.00

**XBZ 2102**

**Performance Planning: Setting Expectations**
This course will help you prepare for and conduct planning discussions, encourage continued involvement, and work with members of project teams or task forces on their performance plans.

$99.00

XBZ 2103

Trust: Strengthening the Foundation
Trust is a key ingredient of employee engagement and loyalty. You will gain awareness of trust traps and strategies for overcoming them, helping you create an environment where people take risks, identify and solve problems, and work together.

$99.00

XBZ 2104

Following Up to Support Improvement
Dealing effectively with performance or work habit problems is one of the biggest challenges leaders face. This course will help you plan and conduct meetings with employees who need to improve or face prescribed organizational consequences.

$99.00

XBZ 2105

Guiding the Development of Others
This course will provide you with the necessary skills and a practical process to develop talent. It focuses on a leader’s critical role before, during and after the creation of a development plan.

$99.00

XBZ 2106

Delegating for Productivity and Growth
You will learn skills for successfully matching people, responsibility, and authority to maximize involvement, productivity, motivation, and growth for individuals, groups, and the organization.

$99.00

XBZ 2107

Performance Planning: Reviewing Progress
You will build skills for tracking progress, providing specific, balanced feedback, and conducting review discussions. The course material emphasizes your role of offering ongoing support, guidance, and resources while encouraging others to assume responsibility for achieving their plan. You will also focus on revisiting objectives and tracking methods if priorities change.

$99.00

XBZ 2108

Preparing Others to Succeed
You will be introduced to skills for guiding individuals and teams toward achieving successful results. You will learn the importance of helping people learn from successes rather than mistakes, how to balance seeking and telling, and how to conduct an effective coaching discussion.

$99.00

XBZ 2109

Leading Successful Meetings
Meetings can be a source of frustration or a productive use of everyone’s time and talent. It often all depends on the leader, and it has a huge effect on productivity. You will learn the skills needed to ensure that meetings run efficiently, generate good decisions, and result in clear action.

$99.00  
XBZ 2110  
Guiding Conflict Resolution  
You will learn to recognize signs of conflict, assess the conflict to determine your level of involvement, and serve as a catalyst to encourage those involved to achieve resolution. You will also learn how to provide support and to act as a mediator.

$99.00  
XBZ 2111  
Helping Others Adapt to Change  
You will focus on the crucial role leaders have in effectively exploring change, introducing change, and helping others overcome resistance typically associated with change. You will learn how to conduct effective change discussions that minimize the potentially negative effects of change on morale, processes, and productivity.

$99.00  
XBZ 2200  
Coaching for Improvement  
Individuals need to take responsibility for addressing unacceptable performance or work habits that impact others and the organization—but leaders must know how to help them do it. This course helps leaders conduct effective improvement discussions and provide the feedback and ongoing support people need to improve performance.

$99.00  
XBZ 2201  
Coaching for Success  
This course develops leaders who help people achieve goals and avoid problems, a positive experience for themselves and those being coached. Leaders learn a proven coaching process to ensure they identify coaching opportunities, provide needed coaching and support, observe performance, and measure results until desired outcomes are achieved. They learn how coaching for success benefits individuals, strengthens work groups, and supports company objectives and priorities.

$99.00  
XBZ 2202  
Delegating for Results  
In this course, leaders overcome their hesitation for delegation by learning skills for successfully matching people, responsibility, and authority. This allows them to maximize involvement, productivity, motivation, and growth for individuals, groups, and the organization.

$99.00  
XBZ 2203  
Developing Others  
Organizations need to get the most out of their people, and employees want the opportunity to do more, grow and develop. Developing others is critical to
retaining key talent, driving higher levels of employee engagement, and ultimately impacting an organization’s success. This course provides leaders, coaches and mentors with a practical process and the skills necessary to develop talent.

$99.00

**XBZ 2204**  
**Essentials of Leadership**  
The essence of being an effective people leader lies in establishing good interpersonal work relationships and having the ability to spark action in others. This course teaches you how to get results through people. Learners acquire a set of proven interaction skills, discover seven Leadership Imperatives key to meeting today’s challenges, and realize their role as a catalyst leader who inspires others to act.

$99.00

**XBZ 2205**  
**Leading Change**  
This course focuses on leaders’ crucial role in effectively leading change initiatives in the workplace. Leaders learn how to introduce a change initiative and lead discussions with employees to explore how best to implement the changes. They also learn to help others overcome their resistance to change. These skills enhance a leader’s ability to minimize the potentially negative effects of change on morale, processes, and productivity.

$99.00

**XBZ 2206**  
**Resolving Conflict**  
Differences of opinion can quickly escalate into an out-and-out battle. In the workplace, it’s the leader’s role to recognize the signs of conflict and then to quickly choose the appropriate level of involvement to help resolve the issue. This course teaches leaders how to recognize that a conflict is escalating and minimize damage by using the most appropriate resolution tactic regardless of which stage a conflict is in. Leaders also learn the true cost of conflict to an organization and techniques for handling even the most challenging conflict-related discussions effectively.

$99.00

**XBZ 2207**  
**Getting Started as a New Leader**  
It’s an exciting day in the workplace when an individual is recognized for their performance and rewarded with a promotion to the leadership ranks. This course arms new leaders with the knowledge and skills they need to confront the challenges associated with getting their footing and getting results more quickly in their new leadership role. They learn how to focus their time and efforts on tasks that are most important to the organization’s success.

$99.00

**XBZ 2208**  
**Making Meetings Work**  
Most people say they hate meetings, but what they really dislike are non-productive, poorly run meetings. Meetings are a great tool for achieving business results when the right people meet with a clear purpose and specific agenda. This course helps leaders save time and resources by leading meetings that support business needs. Leaders learn how to plan, facilitate, and follow-up on meetings (including virtual meetings) to ensure that there is a payoff for the time invested in meetings.
Reaching Agreement
In today’s fast-paced and competitive environment, organizations must be able to make high-quality decisions as efficiently as possible. You need leaders who can get all of the ideas out on the table and then get everyone to agree on and commit to a course of action. This course teaches leaders seven techniques for making high-quality decisions group members will support and execute.

Leading High Performance Teams
This course provides team leaders with the tools and skills to perform three primary responsibilities-diagnose, coach and reinforce-that support their team’s growth. Leaders learn to diagnose behaviors and conditions that limit team performance. They are equipped to assess their teams strength and weakness, as well as to use coaching and reinforcing skills to be a catalyst for high performance and continuous improvement.

Retaining Talent
This course helps leaders understand their critical role in retaining organizational talent. They learn to identify what it takes to keep employees happy and satisfied, and how to conduct “quick check” discussions critical for retaining valuable employees. By taking a proactive approach to retaining people, and encouraging people to openly discuss what it will take for them to stay, leaders can create an environment in which people feel valued and satisfied in their jobs.

Influential Leadership
In today’s flatter, ever-evolving organization, leaders need to get things done through people who work outside their line of reporting-and in some cases who even “outrank” them. Welcome to the new age of influence, where effective leaders don’t, or can’t, throw their weight around to make things happen...even with their direct reports. Leaders learn influencing strategies and how to package ideas to gain the commitment of even the most skeptical coworkers and partners.

Managing Performance Problems
This course builds leaders’ skills in handling chronic performance, work-habit problems or serious misconduct. They learn how to document the problem and explain what the employee must do to address it. Leaders are skilled in discussing and imposing formal consequences while adhering to their organizations’ disciplinary policies and procedures.

Building Winning Partnerships
This course helps leaders to identify their role in establishing alliances among work groups, management, customers and suppliers. They learn how to establish effective partnerships to meet customer needs by developing strategies for gaining people’s commitment to working together.
Reviewing Performance Progress
This course helps leaders drive performance and accountability by replacing the "dread" of performance reviews with the "human touch" that builds trusting relationships with the people who report to them. Leaders learn to conduct effective discussions that recognize people's success and plan for their future development.

Building an Environment of Trust
Because of the crucial link between trust and business success, leaders must realize the power of trust as a business tool. In this course, leaders learn how to avoid the trust breakers and take action to create an environment in which people take risks, identify and solve problems, and work together to create and sustain high levels of trust.

Setting Performance Expectations
This course helps leaders drive performance and accountability by helping people understand what is expected of them and gaining their commitment to achieving it. When leaders conduct effective setting expectations discussions, people feel more motivated to perform well because they see how their efforts make a difference.

Launching a Successful Team
Starting a new team, taskforce, or work group, or re-starting a floundering team is the focus of this course. Leaders learn the process of setting up a team charter, including goals, ground rules, and other important elements of a successful team. The course provides practical, actionable tools to help members stay on track, avoid the problems that plague many teams, and achieve success.

Achieving Your Leadership Potential
According to surveys of CEOs and HR managers, effective leadership is a competitive advantage for their organizations. Unfortunately, these same surveys show that people at all organizational levels lack confidence in their leaders and in the ability of their organizations to develop good leaders. This course bridges the widening gap between what is needed and required of today's leaders. A three-step process—Diagnose, Plan, and Execute—helps learners stretch their capabilities and accelerate their leadership development.

Legal Education and Mediation (XNL)

Principles of Core Mediation: How to Settle Disputes
You will gain valuable information about the mediation process and how it can be used to effectively settle conflicts. Our instructors are state-approved mediators.
who will teach you the stages of core mediation, which involves
neighbor-to-neighbor disputes, as well as the guidelines for using mediation in
your current position. Upon completion of this course and the Practicum you can
apply with the state of Kansas to be an approved core mediator.

$449.00
XNL 1005
Mediation Practicum (Core)
The Mediation Practicum involves co-mediating three actual court cases under the
supervision of a state-approved mediator. To become state-approved you must
comediate all three cases in the content area in which you wish to specialize
(core, civil, domestic, juvenile dependency or parent/adolescent). This practicum
will meet the Core requirement only. Contact the Professional Education office at
913-469-4420 for more information.

$299.00
XNL 1010
Domestic Relations Mediation Training
You will learn to apply mediation principles to situations involving divorcing
parents who are in dispute over their children, disputes pertaining to access to
their children or co-parenting matters. Course materials include a review of
mediation principles, application to divorce situations, child development, conflict
type, ethics, Kansas laws, resource development and networking. You will
participate in several role-play activities to practice your skill development. This
course has been approved by the KS Supreme Court to meet the
educational/classroom requirements for approval as a domestic mediator. Upon
completion of this course and the Domestic Practicum you can apply with the
state of Kansas to be an approved domestic mediator. Prerequisite: Principles of
Core Mediation.

$429.00
XNL 1015
Civil Mediation Training
You will focus your mediation skills to practice resolving disputes between
employers and employees, management and labor, businesses and consumers,
government and environmental groups, residents and communities. The training
techniques include lecture, video, class discussion, demonstrations and student
role-plays. This course has been approved by the KS Supreme Court to meet the
educational/classroom requirements for approval as a civil mediator. Upon
completion of this course and a Civil Practicum you can apply with the state of
Kansas to be an approved civil mediator. Prerequisite: Principles of Core
Mediation.

$429.00
XNL 1046
Divorce: Its Impact on Children and the Role of Mediation
Divorce has a tremendous impact on children. In this specialized seminar you will
learn about the consequences of divorce on children by examining their different
developmental stages. You will also discuss the role parents play in helping
children cope with divorce or conversely how parents can complicate and
undermine the children's coping skills. You will learn about the role mediation
plays in different ways parents and children deal with divorce.

$49.00
XNL 1055
Parent/Adolescent Mediation Training
In this 16-hour course you will be trained in the skills of mediating
parent/adolescent cases. Upon completion of this course, you will be qualified to
make application through the State of Kansas Office of Judicial Administration to become an approved parent/adolescent mediator in the State of Kansas. Included in the course content is a short review of basic mediation principles, child and adolescent development theories, family psychology, parent/adolescent relationships and the mediation process itself. The course presentation will offer ample opportunity for role play and class discussion. Prerequisite: Principles of Core Mediation Training.

$295.00

XNL 1066

Juvenile Dependence Mediation
Juvenile Dependency Mediation is the newest category of mediator approval. In this course, you will study the use of mediation in cases where children are removed from the home pursuant to child welfare statutes. You will learn how the juvenile dependency court functions, the players in that process (SRS, private contractors, district attorneys, CASA, GALs, the court) and how mediation can be used to find placement which is in the best interest of children. Prerequisite: Domestic and/or Parent/Adolescent Mediation Training.

$385.00

XNL 1121

Introduction to Environmental Mediation
You will learn fundamental information about environmental law, science, technology and social inequalities; and the economics of environmental disputes. In addition you will explore each of these issues through case study role-plays, with follow up critiques and discussion. ADR practitioners interested in expanding their horizons should enroll, however, if you are interested in learning about environmentally significant issues and community/environmental well-being, you may find this course worthwhile. This course has been approved for three hours of civil mediation continuing education. Prerequisite: Core Mediation Training.

$45.00

XNL 1122

Introduction to Transformative Mediation
The primary focus of this 12 hour seminar is to explore the practices and premises of transformative mediation. Through presentation, the theoretical framework of transformative mediation will be illustrated. Exercises and role plays will give participants an opportunity to experience how transformative mediation is practiced. Participants will explore how their assumptions about conflict influence their approach to mediation. Prerequisite: Core Mediation

$200.00

XNL 1126

Mentoring New Mediators
This course will prepare experienced mediators to become Kansas Supreme Court-approved "mentor mediators", ready to supervise and guide new mediators in their actual practice. Participants need to have conducted 10 or more full mediation cases in any setting - core, domestic, civil, parent-adolescent, victim-offender, etc. Participants are encouraged to read "The Making of a Mediator" by Michael Lang and Alison Taylor prior to the class.

$69.00

XNL 1140

Principles of Restorative Justice
This introductory course will present the underlying values of Restorative Justice principles. Whether it is act, employment dispute, school quarrel or neighborhood disagreement, Restorative Justice may offer alternative framework for thinking about wrongdoing. At its core is a philosophy that can provide an alternative for
mediators to use.

$95.00
XNL 1150
Conflict Management Skills for Professionals
You will learn a simple and effective framework for approaching conflict in professional settings. You will gain an awareness of potential disputes, foster communication about differences and respond constructively to clients, staff and colleagues. With these skills you can manage your own reaction to difficulties and create positive outcomes.

$59.00
XNL 1151
Family Mediation-It's Not Just for Divorce
Mediation is a powerful tool for resolving conflict through the family life cycle. You will learn a blend of relations mediation skills and family systems theory tailored for family issues on the continuum of family experience: birth and adoption, parents and adolescents, blended families, aging parents and end-of-life. You will learn how to expand your mediation practice by working with families at various stages of life.

$49.00
XNL 1157
Employment Mediation
Not all workplaces lend themselves to mediation. In this course you will learn to create a positive environment that uses mediation when needed. You will review conflict theory and negotiation theory as applied in appropriate environments. You will also develop strategies for using mediation in your workplace. Prerequisite: Read and be ready to discuss "Getting to Yes". This book is included as part of the course fee.

$119.00
XNL 1160
Negotiating Win/Win Solutions
You will enhance your negotiation skills by discussing ways to separate the people from the problem, focus on interests not positions, develop creative options for mutual gain while insisting on the use of objective criteria. You will discover your preferred negotiation style and how it compares to others. The required textbook will be provided.

$129.00
XNL 1171
Introduction to Transformative Mediation
You will learn the underlying premise that defines the approaches to transformative mediation. You will discuss specific methods, models and exercises that convey the nature of a transformative approach. Understanding these principles will be helpful to you regardless of your current style of mediation.

$49.00
XNL 1172
Communication Strategies and Techniques for Mediators/Negotiators
Whether you are mediating disputes or negotiating agreements on your own behalf, your success depends largely on the manner in which you communicate with other parties. In this highly interactive course you will review the role of
perception in negotiation, examine your nonverbal and listening strategies, and improve your skills in constructing messages, word choice, diplomacy and tact.

$99.00
XNL 1174
Mediating Conflict in Organizations
You will learn to use your mediation skills to effectively deal with all types of conflicts within public and private sector organizations. You will learn to convert conflict from an unpleasant encounter into a positive interaction, break the reactive cycle of accusations, neutralize emotions, frame issues appropriately and create new perspectives through powerful questions.

$99.00
XNL 1177
Beyond Impasse Attitudes and Skills
You will learn to generate new energy and creativity as a mediator with techniques such as positive approaches, humor and mindset to help parties move past obstacles towards solutions.

$49.00
XNL 1180
Negotiating with Power, Influence and Leverage
Do you need to upgrade your negotiating strategies? This course will cover the relationship between perception and power, sources of power, strategies to increase your leverage at an uneven table, and strategies to enhance your ability to persuade and influence others in interpersonal, group and organizational negotiations.

$59.00
XNL 1181
Working With High Conflict Families
Are you ready to arm your practice with a positive mindset and new strategies for working effectively with the high conflict families who use the most service time and community resources? This course highlights interdisciplinary approaches to adult learning and cognitive behavioral change. You will learn simple but effective skills to manage emotions, streamline communication and negotiate with challenging clients.

$59.00
XNL 1182
Mediation Strategies for Dealing with Difficult Situations and Behaviors
You will explore ways to deal with complex conflict situations that go beyond the realm of simple disagreements and learn how to get better results when mediations involve contentious issues. You will learn what you need to do differently when dealing with multiple parties and issues; how to best deal with controversies; how to set the stage for positive outcomes by the way you develop the negotiation agenda; and how to reduce the stress level and improve group dynamics. You will also learn how to deal more effectively with various types of difficult behaviors, including how to handle emotional outbursts, threats, and ultimatums.

$99.00
XNL 1183
Mediation Skills for Changing Times
In today’s quickly changing, dynamic, and sometimes volatile world, mediation
skills are more important than ever before. This highly participatory and dynamic course has been designed to provide you with strategies that can be used to improve outcomes in all types of mediations - whether your aim is to reach better agreements on contracts, resolve conflicts with colleagues, or build collaborative working relationships with other organizations. In particular, you will learn how to select the best mediation style, how to use timing techniques effectively, ways to uncover the other party's hidden agenda, how to neutralize emotionalism, and when and how to make creative solutions, compromises, and concessions.

$99.00

XNL 1184

Everyday Conflict Resolution Skills
Conflict is normal at work and in life! Avoiding conflict may not be possible or productive. This course will help you expand and adapt your approach to any problem at hand. Learn simple but effective strategies for managing your emotions, defusing conflict, clarifying others' concerns, and choosing productive responses. Build on your unique characteristics and natural problem-solving methods with new strategies. This interdisciplinary, interactive course focuses on appreciating and managing differences between colleagues and within work teams with a positive, centered approach to conflict management.

$59.00

LifeTime Learning (XLN)

XNL 1012

Cooking for Two or One
Do you have a problem with recipes that are for more than just one or two people? You will discover solutions to this question as well as many more on how you can downsize recipes to fit your household.

$6.00

XNL 1031

Join professional writers, Lawrence and Suella Walsh, and through a character chart and visual aids, watch a character come to life. The group will participate in developing the character. This class provides techniques for creating characters that will seem real to readers.

$12.00

XKL 1063
Getting Started Writing Stories
What stories do you know? What stories would you like to tell? We'll work to mine
your thoughts and experiences for stories, and to open up your receptivity to the stories surrounding you right now! You’ll participate in in-class writing exercises and write the beginning of one story.

$15.00  
XKL 1066  
**Knowing Your Characters**  
How do you get your reader on your character's side--and in your character's head? How much do you reveal your character through dialogue, action, and description? Learn to create vivid, complex, and interesting characters so real they jump off the page and into your readers' hearts.

$15.00  
XKL 1067  
**Point of View**  
Omniscient? First person? Second or Third? Who is your narrator? Multiple points of view on the same event. This class will help you decide which point of view will work best for your story. From in-class exercises you’ll learn how to write from various points of view.

$15.00  
XKL 1068  
**Plot and Time in Fiction Writing**  
How should you structure your plot? What needs to happen...and how and when? How do you time the action so your reader can't put the story down?

$15.00  
XKL 1069  
**A Sense of Place**  
How are your characters and plot influenced by where your story occurs? Should your setting become as active as your characters? How do you weave information about place into action and dialogue? You’ll learn the importance of setting in fiction and how to create vivid, real settings for stories.

$14.00  
XKL 1071  
**Poetry Workshop**  
Calling all poets! Are you seeking an environment to review, revise and refine your work? This workshop will give you a chance to focus on craft, collaboration and presentation. Come willing to write, share and learn. We will have a coffeehouse-style poetry reading at the end of the session.

$16.00  
XKL 1078  
**Writing Great Dialogue**  
Writing great dialogue means developing an "ear" for the patterns of natural human speech and then learning to shape and craft that speech so that it sounds natural and reads like writing on the page. A fun class in which you get to eavesdrop!

$15.00  
XKL 1079  
**Sensory Writing**
Words that reflect the senses of smell and taste, hearing, and sight can make your writing richer. Practice sensory writing by creating descriptions from a food-tasting session, a photographic exhibit, and a variety of audio recordings. Instructor is an award-winning writer, restaurant critic, and photographer.

$25.00
XKL 1082
Finding Your Voice
We’ll discuss why it is important to develop your unique voice and techniques to help you do this. Topics include the elements of style in writing: figurative language, sound, rhythm, sentence structure and language.

$15.00
XKL 1083
Getting Started Writing Your Novel
We’ll talk about how to get started on your novel as well as how to move ahead when it begins to get rough. You’ll learn writing techniques to get your plot moving, planning techniques to develop a structure for the book, and ways of more deeply understanding your characters so you can begin to let them write your novel for you.

$15.00
XKL 1084
Fiction Writing Workshop
Now is your opportunity to gain the real benefits from your study of fiction writing techniques by sharing your work with your peer writers. Bring copies of a recent fiction piece you’ve written. It can be a short story, chapter in a novel, or some form. (Call 913-469-3836 one week before class for number of copies needed.) We’ll read these in class and provide responses with the intention of encouraging your development as a fiction writer.

$29.00
XKL 1086
Enhancing Creativity Through Meditation
Enhance your innate creativity through meditation and creative visualization. The tools taught in this class will help you access the treasures of your creative mind. Perfect for writers, artists or anyone who wants to expand their creative skills. Students should wear comfortable clothes and bring note taking supplies and a blanket and pillow for comfort.

$14.00
XKL 1087
Writing "Experimental" Fiction
Working in new forms can open up new territory in your writing and creativity. We’ll explore a range of new genres developing in the fiction writing world, including the "short short," the prose poem, post modern and experimental fiction by reading examples and practicing these forms in writing exercises.

$29.00
XKL 1088
Article Leads and Structure
Have you been told your first paragraph must capture the reader’s attention? Were you warned that editors won’t read further if you don’t accomplish this goal? Join professional writers, Lawrence and Suella Walsh, and learn methods to hook readers from the first paragraph and hold their attention until the end of the article.
$12.00
XKL 1089
Tight Writing
Ever wish you could use less words on paper to get your message across?
Through interactive exercises, you will learn to cut unnecessary words from your
writing. Instructor is a professional freelance writer.

$25.00
XKL 1101
Dialogue & Make it Work
How does dialogue move the plot? How does it develop characters?
Professional writers, Lawrence and Suella Walsh, will illustrate ways to make the
dialogue in fiction work to develop the story. Dialogue is the most loved aspect of
writing; readers never skip the dialogue.

Management Development (XDM)

XDM 0502

Working Smarter: Using Technology to Your Advantage
This one day course is designed to teach you, the manager, how to use technology to your advantage so that you and your staff work smarter, not harder. We’ll cover topics like using ergonomics to prevent Repetitive Strain Injuries (RSI); creating policies and procedures to make sure company resources are used properly and the best ways to use time-saving software (including e-mail, instant messaging, contact management software, and scheduling applications). We’ll also talk about what to do when employees get angry with computers and how to deal with common problems related to technology.

$169.00

XDM 0503

Effective Supervisory Skills
As a supervisor, you’re asked to empower your workforce using a team approach for greater productivity. You’ll learn how to provide leadership for groups and hold them accountable for their own productivity, how to involve employees in their own appraisals and strategies for training new employees.

$189.00

XDM 0505

Listening As If Your Job Depends On It
We spend more time listening than any other communication skill, yet we spend the least time in learning how to do it well. Good listening assists you to lead, serve and perform well. This short course will give you the opportunity to practice good listening techniques, and you will be able to use them immediately with your boss, coworkers, and customers.

$109.00
Selling to the Generations
It is probably the most difficult aspect of the selling process. One’s ability to span the generational differences and sell to customers of another generation. The language barriers, values, and needs are discussed. Solutions are provided as to how to sell to the other generation. Learn how to tap into the high-profit potential of the Generation X and Y market segments.

$159.00

Selling Smarter
It’s no secret that selling has changed in recent years. This is an exciting and dynamic profession, yet it is one of the most underrated and misunderstood, at least in recent years. Broadly defined, today’s top salespeople are in the business of identifying needs and persuading potential customers to respond favorably to an idea that will result in mutual satisfaction for both the buyer and the seller. This one-day workshop will help you develop those skills, enabling you to sell smarter.

$189.00

Overcoming Objections: Getting the Sale
If you are like most sales professionals you are always looking for ways to overcome customer objections and close the sale. This workshop will help you plan, prepare and execute proposals and presentations that address customer concerns, reduce the number of objections you encounter and improve your batting average at closing the sale.

$189.00

Prospecting for Leads Like a Pro
Prospecting is the key to your sales success. Your success today is a result of the prospecting you did six months ago. In this one-day workshop, you will become skilled at networking and learn the 80/20 rule. After the workshop, you will know who to target and how to target them, and remember to do some prospecting every day through warming up cold calls, following up on leads, or networking. You will also build your personal prospecting plan to ensure your future by planting seeds daily.

$189.00

Using the Telephone As a Sales Tool
We never stop learning how to improve our selling skills. Virtually everybody in sales today sells over the phone at least part of the time. Perhaps it is time for you to evaluate how you use the telephone and where it fits into your sales and marketing mix. The telephone can supplement, enhance, and sometimes replace other means of marketing and selling. This personal approach can dramatically increase your sales success. This one-day workshop will help you hone your communication skills, your ability to persuade, and your ability to personalize each sales call to the person and to each situation.

$189.00

Facilitation Skills
How can you facilitate, rather than control, group decision-making and team interaction? With no formal training, people may find it difficult to make the
transition from "instructors" to "facilitators". With its focus on asking rather than telling, and listening to build consensus, facilitation is the new leadership ideal, the core competency everybody needs.

$299.00
XDM 0513

Building Relationships for Success in Sales
No one questions that making friends is a good thing. However, it's not an easy thing, particularly when you're cultivating business relationships. How do you make friends with customers you don't like? How do you start networking when you go to a business convention and you don't know anyone? In this one-day workshop, you are going to discover that the business of business is making friends, and the business of all sales professionals is making friends and building relationships. Strategic friendships will make or break any business, no matter how big and no matter what kind of market.

$189.00
XDM 0516

Behavioral Interviewing
The single-best predictor of future job performance is past job behavior in similar situations. You will go through the process of planning and conducting effective hiring interviews, evaluating candidates, and arriving at the right hiring decisions.

$189.00
XDM 0517

The Power of Emotional Intelligence in the Workplace
The rules in the workplace are changing. We are now being rated by a new metric: not just by how smart we are, or by our education and experience, but also by how well we handle ourselves and each other. This workshop will focus on helping you cultivate the qualities that make up emotional intelligence.

$125.00
XDM 0518

Negotiating for Results
The skills you acquire will help you in your role as mediator and negotiator as well as in your day-to-day responsibilities. You will be encouraged to focus on interests rather than positions, so you can develop relationships of mutual trust, fairness and respect for one another. This is a common-sense approach based upon developing a balanced and lasting partnership to solve workplace problems. You will learn and practice effective communication skills, problem-solving and consensus building, with the intention of turning face-to-face confrontation into side-by-side problem solving.

$189.00
XDM 0519

Managing Diversity
Without effective diversity management capability, the strength of your organization is in jeopardy. This course will help you build diversity management skills to create a high-performing work environment. It will reinforce diversity concepts and knowledge and provide tools, processes and techniques to use with a diverse workforce to improve organizational performance.

$109.00
XDM 0539

Increased Personal Productivity
It takes more than good intentions to manage your time. Learn how you can take control to increase your personal productivity by developing goals that get results, setting priorities and staying on track. Plan what you want to achieve and make it happen. These specific strategies and tools for time management will decrease stress and increase success.

$189.00
XDM 0540

Supervisory Skills Assessment Center
Offered exclusively by the Center for Business and Technology! Find out what you do well - and what you can improve - through this individualized "diagnosis" of your strengths and development needs in 9 skill areas. During the initial one-day assessment, you'll try your hand at an "in-basket" exercise to see how you handle everyday business challenges, and we'll videotape your interactions in four simulated business situations with a direct report, a peer, a customer and in a group meeting. Your actions and reactions will be evaluated and, three weeks later, you'll receive your "diagnosis". During that in-depth, half-day session, you'll talk to an assessor in a 30-minute private phone session to help you interpret your report and a trained Center for Business and Technology professional will work with you to create a personal development plan with action items that will help you meet any challenge.

$1,650.00
XDM 0551

Roles and Skills for Supervisory Success
The responsibility of a supervisor is to obtain consistent performance from employees. In this program, participants will learn how to make the transition from employee to supervisor, how to define their jobs, and how to avoid the most common factors that can cause a supervisor to fail.

$114.00
XDM 0566

Understanding the Human Resources Function
This course is designed to help people without experience in human resources to understand this very vital link in the organizational chain. It will prepare both managers and business owners to handle basic human resource functions in a way that will ensure the best possible result.

$109.00
XDM 0588

Principles of Sales Management
Learn how to deliver superior sales-team results from a sales management veteran. This exciting six-week online course begins with a detailed examination of sales management's roles and responsibilities. The balance of the journey teaches you valuable tips, techniques and strategies for success and reinforces how critical planning is to successful sales management. You will learn how to prepare and lead better sales meetings and how to resolve team conflict. You'll also learn how to develop sales plans and budgets, recruit and interview new sales professionals, and set team goals and objectives. Finally, you'll have mastered the art of sales training. At the end of this course, you will have almost all of the tools you'll need to effectively motivate and manage sales teams.

$109.00
XDM 0591

Effective Business Writing
Do you have a nagging suspicion that a small improvement in your writing skills might also improve your career prospects? Don't let small gaps in your business writing skills prevent you from reaching your full potential! It doesn't matter
whether you're a clerical worker, an engineer, or an executive. If you communicate with others in writing, this course can help you identify and eliminate problem areas. By the end of this course, you'll know the secret to developing powerful written documents that immediately draw readers in and keep them motivated to continue until your very last, well-chosen word.

$109.00
XDM 0597

Virtual Teams: The Next Generation

Do you lead teams where you interact primarily via email, videoconference or teleconference? Want tips for getting the work done faster and easier? The next generation of teams are teams that don't get together physically but work together across the country or globe on a project. This type of team takes a different kind of leadership approach than traditional teams. Come join us in a discussion of how we can get these teams off to a quick start, get the work accomplished and maximize the process of virtual teaming. We will focus on the interpersonal side of these teams rather than on the mechanics or systems that support them.

$209.00
XDM 0600

Administrative Assistant Fundamentals

Rapid growth in the health, legal services, data processing, management, public relations, and other industries have created many new job opportunities for administrative assistants. This course will help you discover and master the essentials of managerial and staff support, information and records management, communications technology, travel and meeting coordination, space planning, and office ergonomics.

$109.00

Customer Service Fundamentals

Customer service personnel interact with current and potential customers every day. But do they truly spend time finding out what customers really want and giving them the highest service possible? In this six-week online course, you'll discover dynamite methods for bringing out the best in your team, measuring customer service, and anticipating the needs of your reps and your customers. Learn how to attract and hire top-notch reps, succeed with teams, and minimize customer complaints. As an added bonus, you'll unlock the power of leading by example and setting new trends for customer service in your growing business.

$109.00
XDM 0616

Winning the Battle Against Negativity

Can you think of a person you've worked with who's had a habit of making pessimistic remarks - no matter what the subject? Someone who seemed to enjoy dragging others down to their level of sour attitude? Or what about the co-worker who has had a temporary lapse into disagreeable thoughts and contention? This seminar is about people who are short-term or long-term cynics and naysayers, and how you can help them see the bright side of things.
Accounting Fundamentals
Demand for accounting professionals currently exceeds supply. If you're interested in increasing your financial awareness and accountability while also gaining a marketable skill, this course is for you. You'll learn the basics of double-entry bookkeeping, while also learning how to analyze and record financial transactions, as well as prepare various financial reports at the end of the fiscal period. Accounts receivable, accounts payable, payroll procedures, sales taxes, and various common banking activities will be discussed. We'll cover all the bases, from writing checks to preparing an income statement and closing out accounts at the end of each fiscal period.

Fundamentals of Supervision and Management
This course will help you master the basics of business by learning the language of management. You will learn how to make a successful transition from employee to manager and you'll learn how to manage your time so that you can deal with the constant demands of a managerial job. You will learn the skills required to delegate responsibility and motivate your employees. Finally, you will learn how to solve problems and resolve conflicts so you can accomplish your job more effectively.

Fundamentals of Supervision and Management II
Have you ever felt technically prepared for a supervisor's role, yet felt defeated by all of the people issues that seem to arise? In this course, you will master the basics of communication, because effective communication is essential in your quest to be a good manager or supervisor. In addition, we will discuss how you can develop your interpersonal skills, by understanding and dealing with the various people issues that arise at work. You will be able to assess your own personality, as well as the personalities of your co-workers and boss, and you'll develop a plan of action to improve both your interpersonal skills and your work relationships.

Accounting Fundamentals II
While it is true that accounting professionals are scarce, those with corporate accounting experience are even more rare. This course will build on the knowledge you gained in our Accounting Fundamentals I course to provide you with a solid understanding of corporate accounting practices. You'll be able to analyze transactions and prepare various corporate financial reports. You'll also gain practical experience working with dividends, plant assets, depreciation, accrued revenue and expenses, retained earnings, stockholders' equity, and more.

Management vs. Leadership
This course will look at management vs. leadership and the components of each. A model will be utilized which gives managers/leaders a tool which will help them identify specific actions they can take in developing direct reports. The Parker Team Player Survey and the Life Styles Inventory assessments are also used.
XDM 0652

Administrative Assistant Applications
Gain the skills and knowledge you'll need to prepare for the Certified Administrative Professional exam and begin a rewarding career as an administrative assistant. Discover how economics, accounting, business law, organizational behavior, and management affect administrative assistant responsibilities and activities. Determine how the world economy can affect an enterprise, learn the basics of accounting, including the general ledger and key accounting terms, and see how financial statements and controls help keep your organization moving in a positive direction. This course may help you prepare for the internationally recognized Certified Professional Secretary (CPS) and Certified Administrative Professional (CAP) exams offered by the International Association of Administrative Professionals.

$109.00

XDM 0653

Pharmacology
Numerous clients receiving massage therapy are taking prescription or over-the-counter medications and/or supplements. Drug therapy of any sort causes physiological and chemical changes in the body. Massage therapists must be familiar with the effects of drug therapy that may enhance or disrupt the effects of massage. This knowledge will lead to changes in how the therapist applies massage therapy in individual cases and how to assess outcomes. This course explores the primary pharmacological agents, their mechanisms of action, disease processes they are prescribed for and contraindications for massage.

$85.00  
Personal Development (XKD)  
XKD 1062  
**Bulletproof Self-esteem**  
Michael Jordan and Oprah generate bulletproof confidence from primitive feeling brain centers that are not influenced by our thinking centers or the thought-based techniques used in self confidence programs. This new feeling based program helps you uncover these instinctive primordial I-can-do-anything feelings. You'll understand the reasons for repression of instinctive confidence and will learn techniques to uncover and feel comfortable with instinctive confidence.

$14.00  
XKD 1066  
**Connections**  
This weekly social skills course is designed for young adults with mild-moderate special needs. The weekly classes alternate between in class instructional sessions or social outings. The weekly instructional sessions emphasize social skills practice, social interaction, and how to plan, organize and access community activities. Various topics related to self-awareness, developing relationships and pursuing a social life are discussed. Role-playing, open forums, speakers, and small group interaction keep students engaged. In addition, the students attend a group-planned social outing in the community called "Community Connections," twice a month. For "Connections" application form, call 913-469-3837. The course is limited to 28 students with special needs. Note: At the first class session, a special activities fee of $50 will be due.

$175.00  
XKD 1074  
**Understanding Self-Esteem**  
What is self-esteem? Where do we look for it. How can we increase it? These three questions will form the basis for this two-hour session. Our self-esteem directly affects the extent to which we are satisfied with our relationships - both with others and with ourselves. Take time out to reintroduce yourself to your best friend - YOU!

$12.00  
XKD 1080  
**What’s Happening in Greater Kansas City for Singles?**
This class is for singles who want to know about singles groups, events and activities taking place in Kansas City. The course is presented by Don Davidson, publisher Guide to Singles Groups in the Kansas City Area. Enrollees will receive a copy of the directory. The fee includes the cost of the directory and other materials.

$13.00
XKD 1082

101 Fun and Clever Ways to Get Noticed
The first step in starting a relationship with someone of the opposite sex is getting noticed. This workshop will discuss fun and clever ways to get the attention of those you wish to meet. The material is presented by Don Davidson, singles leader and author. Come and have fun meeting others and contributing your own clever ways of getting noticed. The fee includes handout materials.

$13.00
XKD 1084

Unleash Your Potential and Get Motivated
Most of us have ideas of things we want to do that never get accomplished. We believe if we could just get motivated we could accomplish all that we desire. This workshop will provide a practical model for becoming self-motivated. The model will give you tools to move forward from good ideas to seeing concrete results in your life. Learn why logic and guilty feelings are not enough to motivate you to action. You will have the opportunity to identify barriers to achieving your heart's desire, and will learn strategies to move through these barriers toward success.

$12.00
XKD 1085

What You See Is What You Get
This course looks at what we pay attention to during our day, and how what we notice affects our self-esteem and our sense of happiness. Through lecture and personal exploration exercises, participants will gain an understanding of how their thoughts and feelings impact them. We will explore how a "good day" is created and how "bad" days happen. Participants will also learn what they can begin doing immediately to achieve a greater sense of contentment and control in their lives.

$12.00
XKD 1089

Asserting Yourself
Are you ever hesitant to speak up for what you want or need? This class stresses self-management by learning to use assertiveness skills as a way to promote personal growth and fulfillment. Therapist Donna Bacic will help you develop a "personal assertiveness" tool kit through lecture, role play, exercises and sharing.

$15.00
XKD 1113

Dream Interpretation
Dreams can be spellbinding, mystical and frightening all at the same time. Learn the essential language that your inner self communicates to you every night in the form of a dream. Subjects include: remembering dreams, two rules of dreams, dream journaling, divisions of the mind, kinds and types of dreams and plenty of time actually interpreting your dreams so you can see how it all works. Come ready to explore your inner mind!

$12.00

Public Events (XKE)

XKE 1012
Natural History of Kansas
Increasingly, people want an understanding of the place where they live and the ability to achieve a sense of rootedness. In this course you'll examine the physical and biological processes which have led to the present Kansas landscape. Physical science topics include geology, climate patterns and soil formation. Biological science topics include ecology and a survey of plants and animals of Kansas. The class will consider how the physical and biological environment relate to the role Kansas played in historical events and to present day land and resource use. Two Saturday field trips are included in this course. Enrollment is limited.

$189.00

XKE 1014
Modern Russian History
Imagine what your life would be like if the U.S. government declared democracy and capitalism failed experiments and the country dissolved. Imagine the U.S. lost its super-power status, was abandoned by its allies and defaulted on its public debt while businessmen from our former ideological enemy lived in luxury in our country lecturing us on how to rebuild the economy. Now imagine that your grandparents lived through similar social, political, and economic chaos eighty years earlier. However, their suffering was compounded by the horror of a world war, a revolution, civil war and famine. Now you have some idea of the tragedy of Russian history. Join professor Gaar and classmates for a study of the endurance and the endeavors of the Russian people.

$129.00
XNR 3000
**Real Estate Finance, Value, and Investment Performance**
All appraisers should be knowledgeable about financial markets, financial mathematics and how financial markets impact real estate values. In this hands-on seminar, you will learn the relationship between debt and investment risk and value. You will understand how financial markets impact value and influence buyer behavior and investment decisions. You will leave this seminar knowing a new terminology that is important for all real estate appraisers.

$150.00
XNR 3001
**Supporting Capitalization Rates**
The theme of this seminar is that a well-supported capitalization rate is logically impacted by market activity, tested for reasonableness, and demonstrates consideration by the appraiser of the relevant factors that affect the property. Working with realistic case studies, you will develop well-supported, market-extracted capitalization rates that reflect specific economic and property characteristics. You will also learn how the appraiser should apply skills and market knowledge to check the rate for reasonableness.

$150.00
XNR 3010
**Basic Appraisal Principles**
If you are considering a career in professional valuation services, this is your first course. This course will introduce you to real property concepts and characteristics, legal considerations, influences on real estate values, types of
value, economic principles, real estate markets and analysis, highest and best use, and ethical considerations. The course will provide a solid foundation in basic appraisal principles no matter what appraisal specialty you pursue. By successfully completing the course and exam, you will have met most states' education requirements in the content area identified as basis appraisal principles.

$450.00
XNR 3011

This case study seminar will teach you how to address more effectively the special purpose properties in unique valuation assignments. Increase your confidence and business opportunities. CE - 7 hours for General Appraisers.

$150.00
XNR 3012
Appraisal 740 - Appraising the Tough Ones: Case Studies in Complex Residential Valuation
The seminar provides numerous unique examples and a case study to help you successfully solve complex residential valuation problems. CE -7hrs.

$150.00
XNR 3020
Basic Appraisal Procedures
In this course you will apply the principles and concepts you learned in "Basic Appraisal Principles." You will go through the valuation process including defining the problem, collecting and analyzing data, reaching a final opinion of value, and communicating the appraisal. You will learn about the three approaches to reaching an opinion of value - income capitalization, cost and sales comparison - and apply them in case studies. Through case studies you will discover the steps and concepts involved in the cost approach. The course will guide you through the sales comparison approach including researching the market, verifying information, selecting units of comparison, conducting a comparative analysis, making adjustments, and reconciliation. By successfully completing the course and exam you will have met most states' education requirements for content identified as basic appraisal procedures.

$450.00
XNR 3030
Course 210 - Residential Case Study
In addition to reviewing residential appraisal techniques, this course uses a case study to demonstrate the skills needed by modern residential appraisers. The material takes the class through a residential appraisal from the time the assignment is received to the point that a value conclusion is reached and the appraiser is ready to complete the appraisal report. The case study provided is supplemented by drill problems that focus on individual valuation procedures. Market extraction of data is emphasized in this course. In addition, participants are required to consider the impact of the Uniform Standards of Professional Appraisal Practice and the Code of Professional Ethics of the Appraisal Institute. This practical course is designed to help participants apply the principles and procedures learned in earlier courses. Prerequisites: Appraisal Principles and Appraisal Procedures or Real Estate Appraisal Principles and Basic Valuation Procedures or An Introduction to Appraising Real Property or an equivalent background is strongly recommended. Required Textbooks Appraising Residential Properties, second edition; dictionary of Real Estate Appraisal, third edition.

$450.00
XNR 3040
Basic Income Capitalization
You will develop an understanding of the mathematical procedures used to analyze data and derive value opinions for income-producing properties. You will review the theory and applicability of the income capitalization approach along with the reasoning and concepts behind yield capitalization formulas.

$650.00
XNR 3045
Advanced Income Capitalization - 510
You will investigate and explore advanced applications of the income capitalization approach. Discounted cash flow (DCF) analysis provides the framework for much of the discussion of investment analysis concepts, emphasizing an understanding of the relationships among the various components of DCF. Financial leverage, risk analysis, and ways to support a discount rate will be highlighted.

$650.00
XNR 3050
Course 320

$475.00
XNR 3051
Business Practices and Ethics - 420
This is the second course in the Appraisal Institute's Standards of Professional Practice series. You'll learn how the organization's Code of Professional Ethics can empower you to practice your profession in accordance with the Appraisal Institute's guiding values and principles, and why this is important to you as a practicing appraiser. Participants will become familiar with the definitions and canons of the Code of Professional Ethics and how the code relates to the Uniform Standards of Professional Appraisal Practice and the Appraisal Institute's Certification Standard.

$150.00
XNR 3090
Course 510 - Advanced Income Capitalization
Participants in this course are assumed to have a working knowledge of the income approach. Through lectures and homework assignments, you will receive an understanding of more advanced, contemporary applications of the income approach, as well as a thorough understanding of discounted cash flow analysis. At the conclusion of the course, you will also have an understanding of the relationship between value and real estate investment decisions. Risk analysis will be presented as it applies to the selection and support of yield rates. Prerequisites: Successful completion of Appraisal Principles (Course 110), Appraisal Procedures (Course 120), Basic Income Capitalization (Course 310) and General Applications (Course 320), or an equivalent educational background and a working knowledge of the income approach is strongly recommended. Required Textbook: The Appraisal of Real Estate 10 edition. Optional Text: The Appraiser Workplace.

$625.00
XNR 3100
Course 520 - Highest and Best Use and Market Analysis
This course is designed to help participants apply market analysis to appraisal procedures, with particular emphasis placed on estimating supply and demand. The course provides tools that appraisers can use to support these highest and best use determinations. Course participants will gain a deeper understanding of
the markets in which buyers and sellers operate and learn how to measure the future performance of properties in those markets. Demand analysis for retail, office, and residential properties is emphasized. Step-by-step procedures for performing marketability studies are presented and data sources are identified. Absorption and capture rate analysis for use in discounted cash flows is also explored. Prerequisites Appraisal Principles, Appraisal Procedures, Basic Income Capitalization, General Applications, and Advanced Income Capitalization; or an equivalent background and a working knowledge of the three approaches to estimating value is strongly recommended. Optional Textbook Readings in Market Research for Real Estate You may purchase this textbook in the JCCC bookstore.

$550.00

XNR 3110

Course 530-Advanced Sales Comparison and Cost Approaches
This course provides in-depth instruction in the sales comparison and cost approaches as they apply to income-producing properties. In this course, participants explore various methods of determining elements of comparison in the sales comparison approach. Methods used to select, measure, and support adjustments, including graphing, pairing, sorting, and regression analysis, in addition to non-numerical, subjective arguments, are presented. Participants will learn the importance of the cost approach when it is market driven and how this approach applies to everyday valuations. After reviewing the standard methods of calculation, the course explores alternative applications. In addition, participants will learn how to extract depreciation from the market and apply it to real-world problems. Also covered are how to use quantitative analysis, confirmation of data, and reconciliation in the appraisal process. Prerequisites Appraisal Principles, Appraisal Procedures, Basic Income Capitalization, General Applications and Advanced Income Capitalization, and Highest and Best Use and Market Analysis; or an equivalent background and a working knowledge of the three approaches to estimating value is strongly recommended. Required Textbooks The Appraisal of Real Estate, tenth edition; The Dictionary of Real Estate Appraisal, third edition. You may purchase these books at the JCCC bookstore.

$550.00

XNR 3150

Appraisal 550 Advanced Applications
Advanced applications synthesizes the three approaches to value, examines their applications and helps participants apply the basic and advanced valuation techniques they have learned in previous courses. Case studies on actual property will give first hand knowledge to choose appropriate tools to solve appraisal problems. This seminar will teach you to identify the demographic and economic data that are used to estimate an absorption period, prepare cash flow forecast, calculate replacement allowance and reversionary value and distinguish between fee simple, leased fee and leasehold estates. Required textbook: The Appraisal of Real Estate, 11th Edition.

$700.00

XNR 5000

Managing Risk in Today’s Market - 9 CEUs

$250.00
XNR 5215
National Uniform Standards of Professional Appraisal Practice (USPAP) Update
This course, designed by the Appraisal Institute, focuses on the recent changes to the Uniform Standards of Professional Appraisal Practice. All sections pertain to the USPAP requirements for ethical behavior and competent performance by appraisers. The material will help you clarify concepts such as scope of work and when USPAP applies. This course is for students who have already completed the 15-hour USPAP course. It satisfies most states’ continuing education requirements of a National USPAP Update course for license renewal.

$165.00

XNR 5216

National Uniform Standards of Professional Appraisal Practice (USPAP)

You will use the National USPAP Course material to cover the basic rules for ethical behavior and competent performance. The course is designed to comply with USPAP requirements for state certified appraisers and it highlights the role of the appraiser and the implied impartiality often associated with this role. You will learn how requirements of the Uniform Standards of Professional Appraisal Practice affect your appraisal business.

$300.00

XNR 5219

Appraisal 520 - Highest & Best Use and Market Analysis

In this course participants learn to apply market analysis to appraisal procedures, with particular emphasis on estimating supply and demand. The course presents market analysis techniques as tools to increase reliability of highest and best use analysis and evaluation models. Participants will gain a deeper understanding of the markets in which buyers and sellers interact and learn how to measure the future performance of properties. Other topics include demand analysis for retail, office, and residential properties and absorption and capture rate analysis for use in discounted cash flow analysis. Enrollment requirements: completion of Appraisal Principles 110, Appraisal Procedures 120, Basic Income Capitalization 310, General Applications 320, and Advanced Income Capitalization 510, or the equivalent educational background. A financial calculator is required for this class.

$650.00

XNR 5225

Reviewing Residential Appraisal Reports

Recent guidance from federal regulators and the increase of real estate fraud has placed renewed emphasis on the importance of the appraisal review process. This seminar is designed to invoke discussion about the correct use, pitfalls, and optimal procedures used in the review of residential appraisal reports. Most residential review assignments are done for lenders who are complying with quality control requirements, so in addition to USPAP Standard 3, lender quality control programs including Fannie Mae and FHA forms are included. Key information for residential appraisers who review reports or would like to learn about this type of work will be presented including tips on where to find and confirm data presented in reports. Required equipment HP-12C or equivalent calculator.

$150.00

XNR 5230

Residential Market Analysis and Highest & Best Use

You will learn how to read and map a market area for a subject property and discover the essential links between market analysis, highest and best use analysis, and the three approaches to value (cost, sales comparison, and income capitalization). Theory is translated into practice through extensive and varied classroom activities encouraging you to become actively involved in applying concepts to real-world situations. Successful completion of the course and exam should satisfy most states’ education requirements in the content area identified as residential market analysis and highest and best use.
Report Writing and Valuation Analysis
This course provides instruction and practice in communicating a narrative appraisal. Lectures focus on relevant questions in each step of the valuation process and on the integration of the various parts of an appraisal report. You will work through a case study, deriving conclusions and organizing them into a consistent, well-reasoned narrative. The examination consists of various parts of a Self-Contained Appraisal Report, which are prepared as homework assignments and submitted at the end of the course. By focusing on effective organization, style, grammar, and the elimination of wordiness and ambiguity, you will learn to develop good writing habits and communicate effectively in appraisal reports.

Residential Site Valuation and Cost Approach
This NEW course designed by the Appraisal Institute meets current and future AQB criteria. It focuses on the valuation of vacant land parcels and the development of the cost approach for students with introductory experience and understanding of fundamental concepts of appraising. An in-depth case study takes you from the origin of the appraisal assignment to a final value estimate using various cost approach applications. By successfully completing this course and exam, you will have met most states’ education requirements in the content area identified as residential site valuation and cost approach. This course will also satisfy part of the required coursework for SRA Associates of the Appraisal Institute who are pursuing the SRA designation after May 2006.

Evaluating Residential Construction
This seminar will provide you with a comprehensive orientation to all the elements of a house including style, structure, envelope, interior, and mechanical systems components of single-family housing. You will gain the insight, vocabulary and confidence needed to accurately and efficiently inspect, describe and critique residential properties. You will also improve your skills in identifying the style, quality and condition of a house.

Evaluating Commercial Construction
This seminar will provide you with a complete introduction to site and building improvements including site, structure, enclosure and mechanical systems components of both old and new commercial construction. You will improve your identification of building conditions and determination of physical and functional depreciation.

RE Finance, Statistics and Valuation Modeling
The two-day course will provide you an introduction to statistics, real estate finance and modeling with applications to residential and commercial real estate appraisal. On day one you will develop an understanding of basic statistics and statistical analysis and learn how those skills can be used in valuation and evaluation practice. On day two you will gain an understanding of real estate finance markets, learn about credit conditions and their impact values on appraisal, and calculate and interpret fundamental numbers on loan payments and balances. Successful completion of the course and exam should satisfy most states’ education requirements in the content area identified as real estate finance,
statistics and valuation modeling.

$350.00

**XNR 5260**

**Advanced Sales Comparison and Cost Approaches**
You will explore ways to identify and measure elements of comparison as well as methods to select and support adjustments including graphing, pairing, sorting, regression analysis, and qualitative analysis. After reviewing the standard methods of calculation, you will explore special applications and common errors in using or misapplications of the approaches. All components of the cost approach are explored thoroughly, with particular attention paid to feasibility and current cost, including supporting entrepreneurial incentive and calculating lease-up costs. In addition, you will study advanced data confirmation techniques, learn how to make all three approaches consistent in the reconciliation process, and discover traps to avoid.

$650.00

**XNR 5266**

**Liability Management for Residential Appraisers**
The primary focus of this seminar is dealing with liability issues and the reporting of assignment results on the new Uniform Residential Appraisal Report Form. After completing this seminar you will be able to determine how to react and what to expect if sued, understand how compliance with USPAP and Supplemental standards can diminish liability and know when to avoid in appropriate employment agreements.

$150.00

**XNR 5512**

**Supporting Capitalization Rates**
Improve your appraisal reports with well supported capitalization rates by attending this new one day seminar! You will focus on practical ways to incorporate judgment and market experience into the rate selection process. In fact the theme of this seminar is that a well supported capitalization rate is logically impacted by market activity, tested for reasonableness and demonstrates consideration by the appraiser of the relevant factors that affect the property.

$125.00

**XNR 6000**

**Home Inspection Training**
This course prepares you to become a home inspector by training you to pass the National Home Inspector’s exam and the American Society of Home Inspector’s exam. Topics covered include the history of the inspection industry; an overview of plumbing, electrical, air and heating systems; structure quality (including walls, windows, doors and frames); foundations and roofs; and how to write reports. Classroom instruction will feature hands-on displays of electrical panels, furnaces, plumbing fixtures, roofing materials and more. You will accompany the instructor on an actual home inspection. Books and study materials may be purchased through Midwest Inspectors Institute.

Recording Engineer (XRE)

XRE 1001
Chamber Recording Ensemble I
This is an entry level course for the recording engineering student, emphasizing guided practice and actual recording session experience in the recording studio.

$640.00

XRE 1002
Advanced Recording Engineering I
Building on the practical skills gained in Intro to the Recording Studio and Recording Studio Skills II, this course begins advanced study of the essential equipment, recording techniques, and theoretical principles used in the modern professional recording studio. Emphasis is placed on the advanced study of sound and its production, as well as the capture, distribution, preservation, manipulation, and enhancement of sound through the use of advanced, modern studio tools. Students will additionally demonstrate essential knowledge of the basic electronics and audio theory necessary for intuitive and creative operation of Pro Tools TDM and other professional DAW tools of the modern recording studio.

$1,600.00

XRE 1003
Recording Studio Skills
This course is an in-depth study of the modern multi-track recording studio, and a continuation of Intro to the Recording Studio. Emphasis is placed on developing increased competencies in a variety of recording studio skills. Students will demonstrate increased competencies in using the patch bay and tracing signal flow, properly selecting and using microphones, using the audio console in a utilitarian and creative manner, reading electronic schematic diagrams, using soldering skills to fabricate circuits, using multiple sets of audio monitors and headphones to analyze audio and mix audio, and record and mix audio sessions using industry-standard Digital Audio Workstations (DAW). 3 lecture, 2 hrs. lab/wk
Music Theory for Recording Engineers
This course is for the recording engineering student with little experience in the practical application of music theory principles in the daily operation of a professional recording studio. Students will learn the fundamentals of basic, modern music theory as it relates to their daily activities in a professional studio environment. Topics to be covered will include scales, note values, chords, rhythm, musical form, time signatures, key signatures, score reading, intonation and the application of musical nomenclature in the use of computer sequencers and Digital Audio Workstation tracking, editing, and mixing sessions.

Chamber Recording Ensemble II
This is a mid-level course for the recording engineering student with little experience in the practical application of the art of audio engineering. Through continued practice and new additional recording session experience in the recording studio, the student will expand on the basic fundamentals of recording and running a recording session in a professional studio environment. Topics to be covered will include stylistically dependent instrument and vocal setups, microphone choice and placement, tracking a recording session, mixing and mastering, session protocol, and communication and client relations skills.

Chamber Recording Ensemble III
This is a mid-level course for the recording engineering student with little experience in the practical application of the art of audio engineering. Through continued practice and new additional recording session experience in the recording studio, the student will expand on the basic fundamentals of recording and running a recording session in a professional studio environment. Topics to be covered will include stylistically dependent instrument and vocal setups, microphone choice and placement, standard and alternative methods of tracking a recording session, plug-in vs. hardware options in mixing and mastering, session protocol, and communication and client relations skills.

Chamber Recording Ensemble IV
This is an advanced-level course for the recording engineering student with experience gained in Chamber Recording I, II, III in the practical application of the art of audio engineering. Through continued practice and new additional recording session experience in the recording studio, the student will expand on the skills learned by recording and running various styles of recording sessions in a professional studio environment and/or remote locations, with instructor permission. Topics to be covered will include stylistically dependent instrument and vocal setups, microphone choices and placements, standard and alternative methods of tracking a recording session, mixing, mastering for different mediums, session protocol and communication and client relation skills.

Introduction to the Recording Studio
This course is an introductory study of the modern multi-track recording studio. Emphasis is placed on understanding the audio signal path, use of the patch bay, recorder remote control operations, basics of microphone technique and simple soldering and realization of schematic diagrams. Students will demonstrate an
understanding of the skills necessary to conduct a simple recording session from set up to final mix.

$1,280.00
XRE 1009
Advanced Recording Engineering II
This course continues the advanced study of the modern professional recording studio as introduced in Advanced Recording Engineering I. Emphasis is placed on in-depth study and use of professional analog and digital recording techniques and equipment. Students will demonstrate essential knowledge of the basic electronics and audio theory necessary for intuitive and creative operation of DAWs and other essential professional tools used in the industry. Students will also gain basic competencies in the creative use of audio with video, and will demonstrate common procedures for studio related maintenance, calibration, alignment and basic repairs.

$1,600.00
XRE 1010
The Studio Business
This course is for the recording engineering student with little or no experience in the business concepts and daily operation of a professional recording studio. Students will learn the basic fundamentals of business as it relates to the professional studio environment. Topics to be covered will include joining a studio’s staff or building a new studio, success through diversification, management, communication and client relations, financial concerns, copyright issues and studio pricing/collection.

$960.00
XRE 1011
Recording Engineer Portfolio
This is the final course for the recording engineering student and serves as a juried exit path to the Audio Recording Engineering Certificate Program. Students will work independently of and with an instructor and record a final project to realize and exhibit the extent of their engineering knowledge and skill. After completion of the recording project and assisting on at least four other recording sessions, the student will assemble a professional caliber portfolio CD of their best work for jury review. This is a pass/fail course and will be the determining factor in a student’s ability to receive certification. The student must repeat this course until the student’s work is judged to be of employable, professional caliber.

$640.00
XRE 1012
Remote Location Recording
This is a course for the recording engineering student with little experience in the practical application of the art of remote multitrack audio recording and is available to recording students after completion of Intro to the Recording Studio. Through new remote recording session experience outside of the traditional recording studio, the student will learn the basic fundamentals of running remote multitrack recording sessions in indoor and outdoor venues removed from a professional studio environment. Techniques to be covered will include stylistically dependent instrument and vocal setups, microphone choice and placement, tracking a remote recording session, dealing with weather and other remote location concerns, mixing while multitrack recording, session protocol, and communication and client relations skills.

$640.00
XRE 1013
Audio For Video and Film
Building on the practical skills gained in Intro To The Recording Studio and Recording Studio Skills, this course begins study of the essential equipment, recording techniques, and theoretical principles used in audio sessions for video and film formats. Emphasis is placed on the study of recording studio sound and its production, capture, distribution, synchronization, preservation, manipulation, and enhancement for the audio requirements of radio, video, and film production. Students will also study and utilize the specialized audio and computer equipment and software used in the production and synchronization of audio for video and film productions.

$960.00
XRE 1014

Sound Reinforcement Engineering
This is a course for the recording engineering student with little or no experience in the practical application of the art of sound reinforcement, and is available to audio students after completion of Intro to the Recording Studio. Through classroom instruction and practical experience utilizing lab time within and outside of the studio complex, the student will learn the basic fundamentals of running remote live sound reinforcement equipment through live sessions in indoor and outdoor venues. Techniques to be covered will include stylistically dependent instrument and vocal setups, P.A. microphone choice and placement, P.A. speaker construction and power-matching of sound reinforcement equipment, dealing with weather and other remote location concerns, multiple monitor mixes, feedback suppression techniques, session protocol, and communication and client relations skills.

$640.00
XRE 1015

MIDI in the Recording Studio
MIDI in the Recording Studio is designed to prepare the new recording student for all things utilizing MIDI (Musical Instrument Digital Interface) in the recording studio environment. This class should be taken in the recording student's first semester. Students will learn and demonstrate basic music compositional techniques, MIDI hardware commands and sequencer programming, MIDI interfacing in the professional recording studio environment, MIDI as a control language in the studio, and MIDI hardware and software synchronizing to audio hardware and software. Also, the student will demonstrate the ability to use McIntosh computers and various music software programs to better serve musicians who need help in operating MIDI equipment and programs in a professional audio environment.

$640.00
XRE 1016

Music Styles & Recording Analysis I
This course is one of two courses designed to enhance recording-student music listening and relate music styles to proper studio engineering technique. The two courses do not have to be taken in any specific order, but should be started at the beginning of a recording student's program of study. In this course, students will learn to identify changes in the elements of music through the different stylistic periods of Classical, Rock, Pop, and Rap/Hip-Hop/Electronic music. Through lecture, audio recordings, and video presentations, historical-to-present information will be presented to broaden the student's cultural and music appreciation as well as his understanding of the ever-evolving methods of recording engineering related to the music style being studied. Students will analyze recordings and attend live concerts to better understand the various styles and the group instrumentations used in the musics covered in the class.

$640.00
XRE 1017
Music Styles & Analysis II
This course is one of two courses designed to enhance recording-student music listening and relate music styles to proper studio engineering technique. The two courses do not have to be taken in any specific order, but should be started at the beginning of a recording student’s program of study. In this course, students will learn to identify changes in the elements of music through the different stylistic periods of Jazz, Country, Folk, and various ethnic musics from around the world. Through lecture, audio recordings, and video presentations, historical-to-present information will be presented to broaden the student’s cultural and music appreciation as well as his understanding of the ever-evolving methods of recording engineering related to the music style being studied. Students will analyse recordings and attend live concerts to better understand the various styles and the group instrumentations used in the musics covered in the class.

$640.00

XRE 1018

Music Fundamentals & the Keyboard I
This course provides a basic knowledge of music and the basic, essential techniques required to play a keyboard instrument. This course is the first of two in series. Recording students should take this course their first semester in the program. Students will learn essential musical terminology, including musical notation and symbols, major and minor key signatures, and the harmonization of melodies using tonic and dominant triads. Specific keyboard-related terminology will include finger exercises, basic keyboard repertoire using major and minor five-finger patterns, major and minor scales, major and minor triads in root position, ensemble playing of two to four parts, and the formation of good practice habits. Music Fundamentals & the Keyboard II should follow the successful completion of this course.

$640.00

XRE 1019

Music Fundamentals & the Keyboard II
This is the second of two beginning-level courses, and builds on the information and keyboard techniques learned in Music Fundamentals & the Keyboard I. Students will learn and review musical terminology, musical notation and symbols, and specific keyboard-related terminology. Topics covered will include major, minor, and church-mode keys; exercises and repertoire using major, minor, diminished and augmented triads in root position and inversions; chord progressions in various styles; ensemble playing; and use of the damper pedal.

$640.00

Sign Language (XVS)

XVS 1000

ABC, 123 & Finger Spelling
This very basic sign language course, which teaches participants the manual alphabet, number signs and finger spelling, provides an excellent preparation for Sign Language I. In addition, it provides information and details about the deaf culture.

$15.00

XVS 1100

Sign Language I
This basic course in sign language will acquaint beginners with the manual alphabet and the most commonly used signs, leading toward the development of conversational skills. The textbook, "Learning American Sign Language", can be purchased at the JCCC bookstore.
$89.00  
**XVS 1200**  
**Sign Language II**  
This course will offer continued development in the language of signs with emphasis on building vocabulary and developing expressive and receptive signing skills. The textbook, "Learning American Sign Language", can be purchased at the JCCC bookstore.

$89.00  
**XVS 1300**  
**Sign Language III**  
Continue the development of vocabulary building with emphasis on comprehension and expressive signing skills. The textbook, "Learning American Sign Language", can be purchased at the JCCC bookstore.

$89.00  
**XVS 1400**  
**Sign Language IV**  
This course is for you if you’re interested in reviewing your sign language skills. Through practice, dialogue, ASL theory, finger spelling research and activities, participants will review Sign Language I, II and III and enhance their conversational signing skills. Bring the text, "Learning American Sign Language", from your previous classes. Prerequisite: Sign Language III or equivalent.

$89.00  
**Small Business (XBE)**

**XBE 0101**  
**Business Communications Using e-mail**  
Become an e-mail expert! Learn the basic parts of an e-mail and how to use them correctly. Learn the ins and outs of effective e-mail communication. Learn how to avoid common mistakes often made by newcomers to the information super-highway. Learn how to attach applications and documents to your e-mail messages. Learn how to put emphasis and intonation that we take for granted when talking on the telephone into your e-mail messages. Learn about privacy and what encryption techniques are available for use with e-mail. Learn how to find and guess e-mail addresses, and make yourself easy to find on the Internet. Learn about web-based e-mail services including how and when they are useful to

**XBE 0212**  
**How to Start and Manage a Home-Based Business**  
Thinking about starting your own business out of your home to save on start-up and overhead costs? Learn the marketing and management skills necessary to succeed and identify resources to assist you as you begin your business. You will learn how to address issues such as licenses, regulations, legal structure, taxes and insurance; how to set up a record-keeping system; and how to develop a business plan.

$40.00  
**XBE 0214**  
**Success Right from the Start**  
Thinking about starting your own business? This seminar provides an overview of useful business information covering government requirements, forms of business
organization, record keeping and financial planning. You will learn how to objectively evaluate your business concept, products and services; define and analyze the market potential for your business; and begin work on a business plan for managing your business and obtaining financing. A banker and an attorney who specialize in working with small businesses also participate in this seminar as guest speakers.

$30.00

XBE 0225

Introduction to QuickBooks Pro/Premier
Learn how to set up your business in this popular computerized accounting program—the right way. In this beginning-level seminar, you will learn how to create your own chart of accounts; set up customers, vendors, and employees; generate invoices and receive payments; pay bills and write checks; track credit card purchases and balances; reconcile bank accounts; track and pay sales taxes; and produce customized financial statements and reports that will help you manage your business.

$189.00

XBE 0226

Successful Selling for Entrepreneurs: Helping Customers Buy
Develop your skills in the three phases of the "helping customers buy" process: preparation, making a customer call, and follow-up. This is more than a sales technique; you will learn how to develop long-term customer relationships and increase your profitability. This seminar was developed by the Ewing Marion Kauffman Foundation. Lunch is provided.

$99.00

XBE 0248

Small Business Resource Conference
The conference will present private and government resources available to small business owners. Lunch will be provided. This conference is sponsored by the Small Business Development Center and the Kansas Women's Business Center and hosted by Congressman Dennis Moore.

$15.00

XBE 0250

Opportunity Analysis
This workshop is designed to overcome the barrier that keeps many individuals from starting a business—the lack of a workable idea. Using a three-step approach for identifying and evaluating business ideas, participants will learn to identify a business opportunity that fits their own unique needs and goals. Textbook available at JCCC Bookstore.

$288.00

XBE 0252

FastTrac Business Plan
In this course you will learn to assess the strengths and weaknesses of a business concept and write a sound business plan. You will collect, analyze and organize market research data into a marketing plan; and prepare the financial projections for your business concept. Textbook available at JCCC bookstore.

$432.00

XBE 0253

Write Your Own Press Release
Getting the word out about your business is easy and inexpensive. In this class you will learn the basic mechanics of distributing your press release. Participants will walk away with one press release they can immediately distribute to local publications to publicize their business.

$30.00
XBE 0255

Creating an Effective Brochure
Learn how to make your sales more effective with a well-written marketing brochure. This course will cover how to write and organize the brochure for your target audience. You will leave the session with an 8 1/2 by 11 tri-fold marketing brochure for your business.

$30.00
XBE 0256

HyperGrow! Your Business
Want your business, revenues and profits to grow? Most businesses do. In fact, it has been said a business is either growing or shrinking. Join us for this session on how to profitably increase customer revenues. Study the nine natural laws of growth that every business must address to ensure forward progress. See how strategic marketing principles combine with other business functions to form a comprehensive business development system. It's like MiracleGro (tm) for your business!

$59.00

Entrepreneurial Management: FastTrac Planning for Growth Proven Strategies to Maximize Performance
Entrepreneurs who build successful businesses know life-long learning, building on their knowledge, and examining their strategies lead to greater success. This four week, fast-paced series is designed to expand the knowledge and skills of small business owners by focusing on strategic business functions with the goal of maximizing performance. Location: Kauffman Foundation, 4801 Rockhill Road, Kansas City, MO. Contact the Small Business Development Center at 913-469-3878 for registration information.

$600.00

XBE 0266

Introduction to Entrepreneurship
You will learn the role of entrepreneurial businesses in the United States and the impact on our national and global economy. You will analyze the skills, commitment, challenges and rewards necessary to successfully operate an entrepreneurial venture, as well as entrance strategies to accomplish such a choice.

$288.00

XBE 0267

Entrepreneurial Marketing
In this class you will gain insights essential for marketing your entrepreneurial venture utilizing innovative and financially responsible marketing strategies. You will analyze marketing philosophies and prepare a marketing plan to launch your business venture and to implement during the first two years of business operation.
Franchising
Participants will learn how to research the franchising methods of doing business from the perspective of both the franchisor and the franchisee. You will learn how to analyze independent management efforts necessary for a successful franchise business venture as well as understand the interdependent contractual obligations.

Small Business "Check Up"
Tailored for those in business for two years or more and with 50 or fewer employees this workshop shows you how to track the ongoing health of your business and how to pay attention to the "right symptoms." An accountant, attorney and financial planner share the checklists and questions they annually review with business owners and point out the catchphrases and warning flags they watch for. Continental breakfast included.

Creating and Protecting Your Business Image
Whether it is printing a logo, packaging your product or designing a web presence, careful planning helps you control the quality, schedule and cost of doing business. This class is an overview of graphic design/advertising, marketing, and the printing industry. An attorney provides information on trademarks and copyrights.

QuickBooks Pro/Premier for Contractors
This intro course is tailored to the specialized needs of contractors. Learn how to set up job costing, vendors and sub-contractors; generate estimates and invoices; progress billing; retainage; track credit card purchases and balances; reconcile bank accounts; track and pay sales taxes; and produce customized financial statements and job-profitability reports that will help you manage your business.
Family Business
By exploring a diverse set of family firms, examining the interrelationships among the owners, and the management practices you will become familiar with methods that ensure success while recognizing the advantages and challenges facing family enterprises. Emphasis is placed on positioning the family enterprise for sustained growth and continuity through generations.

Funding Acquisitions
Participants will learn the impact of funding sources for entrepreneurial ventures. This course will focus on venture capital from the business concept phase to an exit strategy, including protecting intellectual capital, identifying funding sources, writing funding agreements, and managing an Initial Public Offering or merger and acquisition. Participants also will develop and present a funding proposal.

Strategic Business Planning for Profitable Growth
Is your business growing profitably? Do you take time to strategically plan how to grow your business? Work on your business instead of just in it by attending this comprehensive seminar that will lead you to develop a strategic business plan to grow profitably.

Mindset Series: Three business and life planning sessions for experienced business owners
This first time offered series of three workshops is designed for experienced business owners seeking to strategically grow their businesses as part of their plan for a successful life. Bring balance to your life by understanding and planning for a successful relationship between your life's dreams and ambitions and the needs and requirements of your business. These workshops also will help you better understand a major resource in your business and life? you and the people who make up your team. See following descriptions for the individual workshops, Strategic Planning, Team Building, and Strategic Life Planning. Receive a discount of $75 ($25 per workshop) if you register in advance for all three workshops (Mindset Series Parts 1, 2, & 3 described below). Fee includes workbooks.

Mindset Series Part 2 -Strategic Planning
Participants will learn more about their entrepreneurial mindset as it relates to planning. The process incorporates the human element into the plan and participants will plot a strategic course for their business by attending this innovative and results oriented workshop. Upon completion of this strategic planning process, participants will have a one-page blueprint to follow to take their businesses to new levels of success. Fee includes workbook.
Mindset Series Part 3-Team Profile
Participants will look at their own mindset to understand what might be holding them back from reaching their full potential and achieving their goals. Insights into the mindsets needed to run a successful business will be identified. Team building will take on new meaning as the knowledge learned in this workshop is put into action. Fee includes workbook.

$75.00
XBE 0280

Mindset Series Part I-Strategic Life Planning
Participants will choose the life they desire, plan that life, and develop action plans to live that life. Without a plan, we are destined to live a life of default, responding to life as it happens. This workshop will help participants emerge from the maze of life and discover where they want to go and how the pieces of life can be fit together to reach their goals and dreams. Fee includes workbook.

$325.00
XBE 0281

XBE 0284

Financing Options for Your Business
This workshop helps entrepreneurs understand the variety of funding sources that are available for their business and where to find them. Topics covered include determining your financing strategy, equity vs debt financing, types of business loans, financing sources, lease financing, the Small Business Innovation Research (SBIR) program, and more. The workshop also covers the advantages and disadvantages of equity versus debt, which financing options are typically available to early stage businesses and issues to consider in selecting a financing option.
Business Valuation
Valuation involves estimating the worth of a company. It's at the core of determining how much ownership an investor is entitled to for funding a venture. It's also critical for family businesses for the purpose of succession and estate planning. This workshop covers valuation methods, why business valuation is important, factors that affect valuation and valuation by life stage. The workshop will also provide entrepreneurs assistance in preparing an actual valuation for their business.

The Process of Raising Capital
This workshop helps entrepreneurs understand the process of raising capital. Topics covered include traits necessary for success; Angel Investors - who are they, what they look for in an investment and how to find and deal with them; Angel Capital vs Venture Capital; securities laws; Regulation D offerings; private placement memorandums, and documentation. Additionally, the workshop covers potential deal-breaker issues, negotiation and post-closing considerations.

Bootstrapping Your business Workshop
Bootstrapping - the art of starting a company with little or no money - represents one of the surest routes to success for many entrepreneurs. In fact, there have been many great American businesses launched with less than $20,000. So how does one go about bootstrapping? Does it mean you need to build your desk out of doors and sawhorses? Or, is it something more? This Workshop will provide you with many proven bootstrapping techniques that will allow you to build on your "street smarts" while stretching your dollars. Also, the second half of the workshop includes a panel of successful local entrepreneurs who share their strategies for bootstrapping success.

Family Business I: Family Business as a System
For family businesses, the crossover between family and business creates challenges for all involved. Developing structures and policies can help family businesses meet these challenges by defining family members roles. In this dynamic, interactive workshop facilitated by a family business counselor and mediator, you will discover ways to professionalize the family business by developing policies for compensation, employment, advisory boards, and systems for communication and conflict resolution.

Family Business Sucession and Estate Planning
Developing a succession and estate plan well in advance allows family business owners to effectively transition their business to the next generation. Key components of succession and estate planning include determining the value of the business, minimizing taxes, and structuring the transition/buyout to meet the financial needs of the current CEO and the business. Learn from an experienced family business attorney and insurance specialist how to avoid business killers during a time of transition.
Developing a strategic plan for your family business engages both management and family in the process of thinking about the future. Small and mid-size family businesses need strategic planning because of the mixed roles of family business members. Learn a simplified process to identify both family and business goals and then, develop a step by step plan to satisfy both. Facilitated by experienced family business consultants.

$98.00  
**XVT 5011**  
**LSAT Preparation - Part 1**  
Taking both part 1 and part 2 will prepare you to perform well on all three question types on the LSAT: reading comprehension, logical reasoning, and analytical reasoning. In this online course you will practice on actual LSAT exams from previous years and learn proven test-taking techniques.

$98.00  
**XVT 5012**  
**LSAT Preparation - Part 2**  
Taking both part 1 and part 2 of this course will prepare you to perform well on all three question types on the LSAT: reading comprehension, logical reasoning, and analytical reasoning. In this online course you will practice on actual LSAT exams from previous years and learn test-taking techniques.

$98.00  
**XVT 5021**  
**GMAT Preparation**  
Learn test-taking techniques and methods for improving your score while saving time on all GMAT questions with this online course. Review familiar and new types of questions like critical reasoning and data sufficiency for verbal and quantitative sections. You will practice on actual GMAT tests from previous years.

$98.00  
**XKO 1008**  
**Turkey: The Crossroad of Civilizations**  
The land of Turkey is like a giant layer cake. In it you will find every layer of Western Civilization from the beginning to the present. Using audio-visual resources and sound, JCCC professor William Stockton, Ph.D. will introduce you to the treasures of Turkey. Land of the Hittites and legendary Troy, Turkey was Alexander the Great’s road to Persia. Filled with Greek and Roman cities, Turkey was also the site of missionary visits by St. Paul, himself born in Turkey, and of important early Christian churches and theologians. Constantinople (now Istanbul) was the seat of the Byzantine and Ottoman Empires and features numerous architectural wonders, including the Hagia Sophia church and the Sulemaniye Mosque. Currently a modern nation state, Turkey is aiming to join the European Union. All these Turkish delights and more (e.g., belly dancers) will be on view in this course. If they wish, students may also participate in an educational trip to Turkey in March, 2008.

Youth and Talents (XLY)

XLY 1001
Etiquette for Children, Boys and Girls
The course is designed to model and teach appropriate behavior in different social settings and situations. Students will learn and practice courtesy at home and in school and public places, table and telephone manners, hostess and guest courtesy and conversation etiquette and artful interruptions.

$33.00
XLY 1063
Supervised lunch
Bring your sack lunch. Fee is for supervision of lunch room.

$12.00
XLY 1075
Car Care for Teens
You finally have your own car or are about to get one, but do you know how to take care of it? You’ll discuss, observe and get some hands-on experience in observing proper maintenance such as changing tires, oil, filters, belts and plugs. Get familiar with car brakes, electrical, cooling and exhaust systems. This class will be taught in the JCCC Automotive Technology labs by automotive technology staff.

$59.00
XLY 1080
Emergency Room, Gr 4-5
Students enrolled in this session will explore the inner working of a hospital emergency room. Students will begin by performing tasks in a fast-paced, intentionally stressful role-play. Debriefing will follow to help students understand the importance of being able to handle multiple situations in a productive way. Students will study the sterile procedure and learn to take vital signs within their own emergency room as they practice on each other. A study of viruses and bacteria, how they have affected the world, and their influence on modern medicine will be a big part of this session.

$65.00
XLY 1082
City Hospital
Children enrolled in this session will have the opportunity to explore the exciting environment of a community hospital. We will begin by exploring why people go to the hospital and we will practice admitting our own patients. We will then discuss the importance of a sterile environment as we don our hospital garb and learn to take each other’s vital signs. We will finish our journey by looking at how our skeletal and muscular systems work together as we practice "surgical skills!"

$65.00
XLY 1086
Med School Student
Students enrolled in this session will begin with a look at the emergency room. They will identify medical body systems, learn how diseases are transmitted, understand the qualities that define a good doctor, and look at the historical significance of the Hippocrates’ contributions to modern medicine. A discussion of medical ethics will certainly make for lively dinner conversation when your child completes this session.

$65.00
XLY 1098
So You Want to be a Vet
Learn what it takes to be a vet through guest speakers and/or a trip to a vet office. You'll discover what a vet does on a daily basis. You'll learn what type of pet would work best in your house and the start-up costs and expenses of owning a pet. Finally you'll analyze pet food samples and find out what is best for your pet.

$60.00
XLY 1101

Zooland-Design a Zoo
Apply your creative talents as you design your own zoo. Develop an understanding of wild animals and their needs. Choose the most interesting animals as you develop a map of the perfect zoo.

$65.00
XLY 1107

Space Command
Apply for the space program and join your fellow astronauts-in-training as you explore the history of flight and the subsequent travels of humans in space. In hands-on learning activities you'll conduct experiments, record and interpret data in preparation for a lunar landing. In addition to having a 'real blast' you'll work with math skill builders that strengthen math concepts that directly relate to the intricacies of space. Each week is a different curriculum. Students may take one or any combination of the three offerings.

$60.00
XLY 1109

Vocabulary for the ACT/SAT
This course will cover basic information about the exams, along with tips for taking the exams. We'll focus on verbal preparation that will address a variety of learning styles. This course will provide valuable information and a confidence boost for students taking the test in the coming months.

$105.00
XLY 1113

Rhymes, Songs and Fingerplays for Young Children Birth-5 yrs.
Join "Miss Jackie" Silberg and boost your child's math, language, reading and social skills with rhymes and songs that teach your children listening, language, cognitive and motor skills. Learn many new rhymes and songs and how the new research into early childhood brain development can be applied to your child. This class is for parents and grandparents only...no children.

$12.00
XLY 1123

Book Bug Bunch ages 6-8
Sign your beginning reader up for the Book Bug Bunch... love of reading and good reading habits will lead to a joyous lifetime hobby and help pave the way for school achievement. The young reader will become acquainted with many selections of picture books through reading, listening and sharing. Each young reader will receive a picture book at the conclusion of the class.

$20.00
XLY 1136

City Hospital
Children enrolled in this session will explore the magic of the human body. We start by creating maps to guide us through the circulatory and digestive systems.
We then move onto our five senses as we conduct laboratory experiments to
discover how the brain controls all that we see, hear, taste, touch, and smell. We
will conclude with a life-size body outline showing off all that we have learned.

$65.00
XLY 1137
City Hospital
Children enrolled in this session will create their own community hospital. We will
begin by exploring basic first-aid and how to handle making a 911 call. We will
then create and set up the various areas of our hospital as we prepare to handle
our own medical emergencies. Then mayhem will break loose as everyone takes
turns being the patients and the doctors. Be prepared to take x-rays, cast broken
bones, and stitch up wounds!!!

$60.00
XLY 1138
Emergency Room - All Bones About It, Gr 4-5
Students enrolled in this session will study bones and muscles and how the body
heals injury. Students will learn the concept of opposing muscle groups and
identify muscles and how they work within their own bodies. Students will practice
splinting and casting on one another in order to understand how stabilizing injuries
can promote healing.

$65.00
XLY 1139
Emergency Room, Gr. 4-5
Students enrolled in this session will examine several of the bodies exciting
complexities. The students will begin by journeying through the anatomy of the
eye and ear. Students will then move on to the workings of the respiratory system
and how it supplies our body with oxygen.

$65.00
XLY 1142
Dinosaur Digs, Gr. 2-3
Travel back through time to the Mesozoic Era. We will begin by finding out what
made a dinosaur a dinosaur. We will look at how the dinosaurs evolved as time
passed through the Cretaceous, Triassic, and Jurassic periods. Finally, we will
explore different kinds of fossils and how paleontologists study them, ending with
the creation of our very own mold fossil of a dinosaur tooth.

$65.00
XLY 1147
Dinosaur Digs II, Gr. 2-3
First we will learn the most common dinosaur myths and why they are untrue. We
will then reconstruct a skeleton with actual bones, just like paleontologists do with
dinosaur bones. We will end with the study of dinosaur behavior, defenses, and
communication to help determine which dinosaurs were social and which were
loners.

$65.00
XLY 1149
Dinosaur Digs
Children enrolled in this session will find out where all the dinosaurs have gone.
We will begin by each creating our own new species of dinosaurs. Then we will
choose how our species died after learning about all of the different extinction
theories. Students will conclude the session by looking at all of the ways we can see dinosaurs in the world today. Yes, today!

$60.00
XLY 1158
Med School Student
Students enrolled in this session will start with a quick overview of Session I. We will then move on to learning how to take vital signs and understanding the relationship of this information to their own health and the health of others. Students will learn the five major steps of patient care and apply them within their own “group practice.” Analysis of disease and disease prevention will conclude the session.

$65.00
XLY 1159
Med School Student
Students enrolled in this session will investigate the aging process and look at life expectancy and its effect on society. Students will examine the brain and its role in learning and memory as well as have an opportunity to learn some strategies for improving their own memory skills. Time permitting, we will finish the session with a look at alternative medicine practices.

$60.00
XLY 1167
Fun with Science, Gr 2-3
What makes a light bulb turn on when you flip the switch? How does a rocket fly high into the sky? What makes paper airplanes fly, twist, and turn in the air? Learn the answers to these questions and many more as you become a science investigator and have fun with science!

$65.00
XLY 1168
Petmania-All About Dogs
Have you always wanted a dog? Spend your mornings learning all about our wonderful canine companion and his needs. Learn about a variety of breeds and find the right one for you!

$65.00
XLY 1169
Petmania-Exploring Pet Ownership, Gr. 2-3
Have you always wanted to own a pet? Explore the responsibilities and options of pet ownership. Complete activities on the costs of owning a pet and picking the right pet for you.

$65.00
XLY 1174
Exploring with Mother Goose, Gr K-1
Join Mother Goose for a week of fun! Through hands-on math activities, science investigations, art projects, songs, and reading activities, you will explore the world of nursery rhymes. During the week, we will devise a safety plan for Humpty; explore density with Jack and Jill; and use a map to help Little Bo Peep find her sheep. Each day we will learn a new nursery rhyme as we engage in creative thinking activities.
XLY 1176

Zoology
Use your math skills to develop a class zoo. Design the animals, determine the cage size, and build pattern pathways. You will practice estimating, problem solving, measuring and much more as you take on the role of a zookeeper.

$75.00

XLY 1177

Munch, Munch, Munch
Do you like to eat snacks? Would you like to learn how to make an edible mud pie? How about an American flag you can eat or an apple tree? Come practice math, reading, and science skills while following directions to make delicious snacks. We will measure ingredients, determine fair shares, practice problem solving, addition and subtraction, and much more. Bring your Chef’s hat, you’re in for a real treat! Note: Students who are picky eaters or have food allergies should be advised about taking this class. We will be using peanut butter and some products that contain milk.

$75.00

XLY 1178

Fantastic Frogs
Put your hopping feet on and jump into the world of frogs where you will explore the habitat and life cycle of the frog. Practice measuring and recording data as you compete in a frog jumping contest. In this class you will learn about frogs through hands-on activities, song, art projects, and stories.

$75.00

XLY 1179

News Casting, Gr. 6/7
Have you ever wanted to be a part of a newscast? Maybe you want to be a meteorologist or an anchor. Learn what it is like to be on a newscast team all the way from the reporting to the production.

$105.00

XLY 1186

Amazing Art - Gr. 2/3
Come and create all types of art projects. Make prints, books, paintings, leaf rubbings and anything else you can dream of. Be a part of our class as we explore the world of art.

$105.00

XLY 1187

Construction Junction, Gr. 6/7
Do you think that you can build a ten-foot tower structure out of newspaper? What about building something out of toothpicks that can hold 15 pounds? Come to Construction Junction and see if you can do these as well as a few other interesting projects.

$105.00

XLY 1188

Girl Talk: Navigating the Teen Years, Gr. 7 & 8
In this class teenage girls will discuss the joys and challenges facing young teens in today’s world. Topics will include friendships, peer pressure, dating and successful dealings with parents and other adults. The class will be led by a
school counselor who will have frank discussions and activities to help build a positive sense of self.

$45.00  
XLY 1189  
**Earth Awareness and Crazy Chemistry, Gr 5-6**  
Uncover how science will help us protect our planet. Learn interesting facts about water pollution and acid rain and the benefits of solar energy. Then mix, mush and brew together different chemicals to create solutions you can use in this very-fun hands-on chemistry lab.

$105.00  
XLY 1190  
**Machine Mania & Robotics, Gr 5-6**  
Find out how useful wedges, levers, and inclined planes can be in this hands-on exploration of how simple machines help us with our daily lives. Then - it's off to the futuristic world of robotics! Learn about robot anatomy, understand robot fundamentals, and spend hands-on time experimenting with super cool red-hot robots!

$105.00  
XLY 1191  
**Animals, Plants, Sun, Water, and YOU!**  
Students will be examining the life of plants and animals in environmental communities. They will explore how living and non-living things are interdependent and how living organisms must adapt to survive. As students study the major biomes of the earth, they will investigate the relationships within the biosphere, an ecosystem, a population, and an organism. Through hands-on activities, students will explore the purpose of various animal adaptations.

$65.00  
XLY 1192  
**Mad Messages & Jr. Engineers, Gr 5-6**  
Discover how to send secret messages to your friends using special codes! Become a "code cracker" detective. Then learn all about structures, investigate arches, and test loads as you put on an engineer's hat. Build a giant geodesic dome!

$105.00  
XLY 1193  
**Birds & Beasts and Nature, Gr 5-6**  
Where do owls live and what do they eat? Take a walk on the wild side to investigate owls, birds and all kinds of bugs. Participate in nature's scavenger hunt which combines science exploration with animal kingdom.

$105.00  
XLY 1194  
**Advanced Castle Building, Gr 6-9**  
Students will travel back in time to study, design and build Medieval Castles. We will watch video clips and History, Learning & Discovery Channel shows regarding castles, and study the way middle age warfare was conducted. We will examine working catapults and build paper castles. Students will also be able to create their own unique castles using advanced Lego & Mega Blocks-castle building sets. The class will conclude with the study and viewing of the middle ages myth, LadyHawke. Students are encouraged to do research before class including
checking out library books regarding Middle Age Castles and/or printing off pictures and articles from the internet.

$115.00
XLY 1195

**Advanced Egyptian Mummy Making Gr. 4-9**

Students will travel back in time to study, design and build complete Egyptian mummies. We will watch video clips and History, Learning & Discovery Channel shows regarding ancient Egypt and study the reasons and ways Egyptian mummies were created. We will examine Egyptian artifacts, writing and in the end create individual or team created tombs, mummies, sarcophagus and canopic jars. Students will need to bring one 12-inch action figure or doll to be mummified and four small two-inch tall plastic containers (preferably film canisters for the body parts). Students are encouraged to do research before class including checking out library books regarding Ancient Egypt and mummies and/or printing off pictures and articles from the internet.

$115.00
XLY 1196

**This, That & More, Gr 2-3**

Students will have a wide variety of opportunities in exploring hands-on science. They will be building Lego machines that demonstrate how simple machines work, and use ingredients to make silly putty, slime, and their own creations. Students will build a maze and a landing pad to catch eggs. Every day the students will be developing their scientific thinking as they complete experiments and projects.

$115.00
XLY 1197

**Game Factory, Gr. 4-5**

The game is on! Join in as we explore games and their fairness through a simulation trip through the Game Factory. We will explore probability as we play a variety of games. Show what you have learned by designing your own fair game to play with your parents on the final day.

$115.00
XLY 1198

**Sensational Science, Gr K-1**

Grab your magnifying glass and lab coat and join us for sensational science activities. During this week, we will use hands-on activities and experiments to introduce and practice the scientific process. Join us as we create volcanoes, explore the properties of water, launch Pringles rockets and much, much more.

$75.00
XLY 1201

**Supervised Lunch Break**

Supervision is available at no charge during the lunch hour for students enrolled in both morning Adventurers and afternoon Talents classes. Students are required to bring a sack lunch and a drink.

$0.00
XLY 1204

**Step-Discipline: What Does and Doesn’t Work**

Step-parenting is the most difficult dynamic that step couples face. The better you understand the principles of step-family discipline, the more productive your parenting will be in the step-family.
Reading Games for Young Children
Bend yourself into a letter shape or have an alphabet conversation and you will see that learning to read is fun. Join Miss Jackie and learn easy to do activities that are organized by elements of literacy that will help young children 2-5 years to be good readers. A must for parents of young children. Adults only please.

Exploring Our World, Gr 2-3
Join us as we explore our world through many hands-on activities. Discover the animals that live on the seven continents and make a panda bear, boa constrictor and penguin. Play “Continent Lotto” and create your very own ocean in a bottle.

The World of Living Things, Gr 2-3
Join us as we explore the world of living things. Observe plants, conduct experiments and classify mammals, reptiles, birds and fish. Discover creepy crawlies and make an edible insect. Have fun as you construct your very own worm habitat.

Create & Design with Metal, Gr 4-5
Students have an opportunity to work with a variety of metals to create wearable art. They will learn building and surface techniques to add visual interest to these projects.

To Dye For, Gr 6-7
Students will learn a variety of textile handprinting techniques. They will have options of using these techniques to create a variety of projects to dye for!

3-D Design, Gr 6-7
Students will build and sculpt themselves into well-rounded artists as they use a variety of materials to create three dimensional projects.

Odyssey, Gr 4-5
Design a maze for a minotaur. Race for Atlantas apples. Learn about the gods, goddesses, heroes, and monsters that make up Greek mythology as we read two myths each day. Let your creative juices flow as you help the mythical heroes in their quests.
Purple Ketchup...and Other Fun Psychology Activities, Gr 6-7
Why do people cringe at purple ketchup? How are your personality and your brain related? This course is designed with that in mind. Come learn about the psychology of the human brain and design activities for sensory-perception, intelligence, learning and personality.

$65.00
XLY 1225

Model United Nations, Gr 6-7
Participants will be introduced to the structure and procedures of the United Nations. This class will increase international understanding as students take the role of national and international leaders in a simulated General Assembly.

$65.00
XLY 1226

Exploration of Young Adult Literature, Gr 6-7
Explore young adult literature, create projects and play vocabulary enhancing games. While sharing and relaxing with our literature, we will prepare snacks to share.

$65.00
XLY 1227

One Week in China, Gr 6-7/CRN 50393 - Gr 4-5/CRN 50397 - Gr 2-3/CRN 50399
This class will introduce you to a variety of customs in the Chinese culture and language. Students will learn to speak basic conversations in Mandarin Chinese and writing. Get ready to explore the language, costumes, food and a lot more through fun activities and drills.

$65.00
XLY 1228

Math Games Galore, Gr 2-3
Do you like to play games? Do you enjoy math? Then this class is for you! Join us as we explore math through fun hands-on learning activities.

$65.00
XLY 1231

Exploring with Mother Goose II, Gr K-1
Continue the exploration with new nursery rhymes. Find out if you can reach the moon with Hey Diddle Diddle. Practice telling time with Hickory Dickory Dock, and learn about spiders and determination with the Itsy Bitsy Spider. Each day will bring excitement and fun as we explore with Mother Goose.

$75.00
XLY 1232

Raising Responsible Kids by Using Household Chores and Allowance
Household allowance is a key to building your child's money management skills and can teach responsibility that can last a lifetime. Learn how to design an allowance program that is just right for your household no matter the ages of the kids or the amount of the family income.

$12.00
XLY 1233
From Innocence to Entitlement
A perfect class as we enter into the holiday season to curb our children's wants and open up their hearts for giving. This is for every parent who has heard their children have more “wants” and “give me’s”. The focus will be on how parents can implement easy to learn techniques into their parenting skills to ward off entitlement and raise responsible, respectful children.

$12.00
XLY 1234

Surviving the First Year of Parenting
If you are a first time expectant mom or dad, you'll want to check out this class filled with first hand tips and ideas about the first year of parenting. You'll have the opportunity to meet new friends and learn helpful advice in preparation for the arrival of your little one.

$12.00
XLY 1235

High Flyin' - Grades 6-8
Launch into an action packed day of flight and flying. Complete your flight log as you create rockets, airplanes and other flying contraptions. Successfully finish all the challenges that await you and maybe you will be certified to take off!!!

$62.50
XLY 1236

Polyhedraville-City of the Future Grades 4-6
The year is 2106. You and a team of student architects have been hired to design a city of the future, using only polygons. Design and build a 3-d model of this futuristic city while staying within a budget of $100,000. Let your creative ideas flow as you become a futuristic architect in this design simulation.

$62.50
XLY 1237

Castle Building, Grades 5-8
Travel back in time to study, design and build Medieval Castles. You will watch video clips and History, Learning & Discovery Channel shows regarding castles and study the way middle age warfare was conducted. Examine working catapults, build paper castles. Then, create your own unique castles using advanced Lego and Mega Blocks - castle building sets. You are encouraged to do research before class including checking out library books regarding Middle Age Castles and/or printing Internet pictures and articles.

$62.50
XLY 1238

Storm Warning! Grades 6-8
Want to know how tornados form? What's an isobar? How does barometric pressure affect weather? Ever heard of weather forecast models? Learn about these topics and more through exciting, hand-on experiments, weather-related websites, projects and meteorological experts! Eligibility: Students must have an IEP (Individualized Education Plan) or have tested in the 98th percentile on an IQ test.

$150.00
XLY 1239

Wild Numbers! Grades 6-8
This course will allow students to explore and investigate mathematical topics not
usually found in a traditional math curriculum. Many topics will be selected by the students! These might include Fibonacci numbers, tessellations, advanced logical processes, and even statistical modeling! Eligibility: Students must have an IEP (Individualized Education Plan) or have tested in the 98th percentile on an IQ test.

$150.00
XLY 1246

Calming the Chaos of an ADHD Household

ADHD can cause chaos in any household but it can also bring along many wonderful attributes when the energy is funneled in a positive direction. Meet with an ADHD Parent Coach for ideas of how to teach your ADHD child social skills, getting homework accomplished, getting the day organized, raising your child’s self esteem and dealing with day to day issues that occur in an ADHD household. While every household is different, this class will explore options that can refuel all parents’ ideas toward making a calmer household and raising a more responsible child.

$12.00
XLY 1250

Stretch Your Thinking: Games, Puzzles and Brain Teasers, Gr 6-7

Come join the fun of learning by playing! Students will work together to strengthen those critical thinking skills through classic mind-challenging games, puzzles and brainteasers.

$65.00
XLY 1253

Art Throughout Time, Gr 4-5

Travel through time to learn about civilizations and artists from different eras. Use the same style to create your own original art in clay, paint, sculpture, etc. Display your art with information on the time or artist it reflects.

$115.00
XLY 1254

Museum of Me

Design a museum all about you? Learn more about your personality and learning style. Choose the architectural elements, design the rooms and choose the items for display that help tell the viewer about your interests, strengths and dreams.

$115.00
XLY 1256

Beginning Chinese, Grades 6-8

This course will focus on the fundamental study of Mandarin Chinese pronunciations, grammars and sentence patterns. Students will develop vocabularies, learn basic writings and communicate in functional conversations in a fun and challenging environment. (A book will need to be purchased for this class.) Eligibility: Students must have an IEP (Individualized Education Plan) or have tested in the 98th percentile on an IQ test.

$150.00
XLY 1257

Potential to Publish: eWriters, Grades 6-8

Love to write but tired of the "old school" way of doing things? Then join this exciting, motivated group of writers as we surf the web, read eZines and submit works of our own for publication. You don’t want to miss this fast paced writing
Eligibility: Students must have an IEP (Individualized Education Plan) or have tested in the 98th percentile on an IQ test.

$150.00

XLY 1258

**JCCC Evening Hands-ON Science Enrichment, Grades 3-6**

Mad Science-KC sparks the imagination and curiosity of elementary age children by providing them with educational and entertaining activities that instill a clear understanding of what science is really about and how it affects the world around them. You will experience five topics: "Matter of Fact!" Investigate the ingredients of the universe. Play alchemist by creating a chemical change right before your very eyes, and make your own take-home Mad Science Putty. "Optical Illusions" Build your own take-home periscope while learning about optics, reflection and sight. Watch celebrity images change before your very eyes. Seeing is not always believing... "Sonic Sounds" Discover sound, and how household items can be used to create amazing movie sound effects. Use our Mad Science VoiceBox to alter your own voice; fun take-home. "Space...the Final Frontier" Your mission: to take an exciting look at planets, moons, comets, and stars. Boldly explore space and return from your mission with your take-home Roto-Rocket. "Tantalizing Taste" Map out your tongue's taste sensations. Compare your sense of smell with your sense of taste. Carbonate water for yummy pop and make a great-tasting take-home treat.

$75.00

XLY 1259

**I Love You Too Much to Argue With You**

Do you find yourself drawn into power struggles, bickering and arguing with your kids? Does it drain your energy? Do you want it to stop? Whether you have a small child or a teenager, come learn some tools and tactics to use that will put an end to the energy drain and a start toward more respect from your kids. This class promises practical techniques that parents can start using immediately as well as resources to rely on for years to come.

$12.00

XLY 1262

**Becoming a "Love and Logic" Parent**

Are you looking for a better way to parent? Ideal for parents of toddlers to teens as this class will offer and build weekly on better ways to communicate with your children, create stronger family relationships, and raise the odds on raising a responsible child through learning how to set limits through enforceable statements, choices within those limits and consequences with empathy. Each week participants will build on the knowledge and experience of the week before while finding their parenting confidences grow!

$53.00

XLY 1268

**Creative Problem Solving**

Have fun while being challenged to creatively solve problems. You will work on teams to push the limits of your imagination. There will be skits, structures and much more.

$65.00

XLY 1269

**Raising a Lifelong Reader**

Research shows that parental involvement in a child's education is one of the strongest indicators of academic success. Learn ideas and activities (to share with your child 0-5 years) that create great readers.
Learn the skills of public speaking, research and "thinking on your feet" as you explore topics of interest. You will learn debate techniques and fundamentals. Class will conclude with participation in an actual debate.

Learn the skills of public speaking, research and debate as you explore current topics of interest. We will learn the fundamentals of debate technique. Each student will participate in a debate at the conclusion of the class.

Calling all canine fans! Come enroll in this tail wagging course to learn about man’s best friend. Students will discover popular AKC breeds, doggy care, ownership responsibility and dog training. Special guest dogs and speakers will highlight the course.

This course has been designed for the review and advancement of basic pre-algebra concepts. Topics include integers, simplifying expressions, evaluating and solving equations and inequalities.

Join us to sharpen your drawing skills. You will create contour and gesture drawings while learning about space and shape. We will also dive into perspective and observational skills needed to be an artist.

Enjoy a literature based science and math exploration of nature's perfect fruit. Follow Johnny Appleseed as he plants trees throughout the colonies. Watch the changing seasons affect the apple tree. Sing a collection of songs that build early reading skills, and cook, sample, and share some tasty treats.

Use math and science skills to explore favorite children’s literature. Each day, a different book will be used as a focus for discoveries in problem solving and language expression through games and creative activities.
XLY 1277

Bookin' & Cookin', Gr 2-3
Do you like trying new recipes? Come explore some great books and fun recipes to go along with them. We're not just talking food, either. We'll do all sorts of cooking in this class! Note: Children will not operate any equipment.

$65.00

XLY 1278

Creativity, Gr. 2-3
Do you like to think up wild and crazy ideas? Do you like to make things? Do you like to read imaginative books? Then this class is for you! Let your creative juices flow as we learn about creativity. We'll share some great books and have a blast creating something new each day.

$65.00

XLY 1279

Inventions, Gr. 2-3
Do you look at a cardboard box and see a space ship? Do you look at old newspaper and see a hat or a sailboat? Could you design a game using only five recycled materials? Ideas will flow as we explore the topic of inventions. Join us as we study famous inventors and explore the world of inventions.

$65.00

XLY 1280

Fairy Tale Fun, Gr. 2-3
Sleeping Beauty, the Three Little Pigs and more! Join us as we explore the fairy tale characters and their stories. We'll make masks, put on plays and create a fairy tale city.

$65.00

XLY 1281

Smileyburg-The Town You Create, Gr 2-3
Come create a town that only you can call home. Make townspeople and give them names and jobs, decide what they are going to look like, buy materials and build your own home and a place to work. Design the streets of your town...where will houses and businesses go, what about that water park you wanted to build? Come do all of this in the miniature town of Smileyburg!

$65.00

XLY 1282

Creative Capers, Gr. 4-5
Let your creative juices flow as we learn about creativity. Do you like to think up wild and crazy ideas? Do you like to make things? Then this class is for you! We'll share some great books and have a blast creating something new each day.

$65.00

XLY 1283

Invention Mania, Gr. 4-5
Ideas will flow as we explore the topic of inventions. Who are some famous inventors and their inventions? Could you design a game using only five recycled materials? Join us as we explore the world of inventions.

$65.00
XLY 1284

Fairy Tale Fun, Gr. 4-5
Sleeping Beauty, the Three Little Pigs and more! Join us as we explore the fairy tale characters and their stories. We'll make masks, put on plays and create a fairy tale city.

$65.00

XLY 1285

Petmania-Exploring Pet Ownership, Gr. 4-5
Have you always wanted to own a pet? Explore the responsibilities and options of pet ownership. Complete activities on the costs of owning a pet and picking the right pet for you.

$65.00

XLY 1286

Computer Projects, Gr. 6-7
Create magnets, decals, posters and more on the computer. You will use your creative side to create these fun projects.

$65.00

XLY 1287

World War II, Gr 4-5
World War II shaped the world we know today. Learn about the Axis, Allies, Hitler, Nazis, the Holocaust and Heroes of the war to end all wars. Do research, creative writing, create a board game, and meet a veteran.

$115.00

XLY 1288

Science in a Box! Gr 2-3
This class offers students the amazing opportunity to implement hands-on activities that meet state standards. It allows students to explore the three main areas of science from a common sense, everyday perspective.

$115.00

XLY 1289

Chinese, Intensive Beginning, Gr 6-7
An intensive program of Mandarin Chinese in a semantic and fun environment. The course covers material of Beginning Chinese I and II, and focuses on proficiency and speaking/listening drills. Reading and writing are taught in related topics.

$115.00

XLY 1290

Fun With Thinking, Gr 2-3
Students will be brainstorming new ways to solve fun problems. Challenges will include: creating a picture using only torn paper, designing a lunch box of the future, and charades. Students will also increase their spontaneous thinking by learning to think out of the box.

$65.00

XLY 1291

ACT/SAT Advanced Vocabulary & Essay Writing, Gr 8-9
This class is for students who have previously taken this course and want a review and new word studies. Add advanced words to your upper-level vocabulary through activities such as puzzles, games, worksheets and interactive websites. Advanced sentence and essay writing will prepare students for college entrance tests.

$115.00
XLY 1292

Language Game Show! Gr 2-3/CRN 50405 - GR 4-5/CRN 50408
Have you ever dreamed of being on Jeopardy or Wheel of Fortune? Well, here's your chance! From grammar to comprehension, this fun-filled game reinforces essential language skills in an exciting quiz show format! Come join the fun!

$65.00
XLY 1293

Explore the Caldecott Medal! Gr 2-3
How do those beautifully illustrated books win this fabulous award? You'll learn about different Caldecott award winners, the illustrators, the illustration techniques, and will even test out some illustrating. We'll wrap up by holding our own JCCC Adventures Mock Caldecott Award.

$65.00
XLY 1294

Books! Books! Books! Gr 4-5
There's more to your local library than fiction! Discover a treasure by exploring a variety of literature available in libraries! You'll learn about picture books connecting to history, explore poetry, folk tales, fairy tales, biographies, and informational text. Bring your Johnson County Public Library Summer Reading Log - you will have some terrific titles to add to your reading/listening list.

$65.00
XLY 1295

Architecture Gr. 6-8
A description is not available for this course.

$150.00
XLY 2003

Writing Wrinkles, Gr. 4-5
If you really like to write, join us and try a new "wrinkle" of written expression. We will sample different types of writing experiences...poetry, myths, fables, fairy tales, summaries, scripts, etc. You'll participate in group activities and produce an individual project.

$115.00
XLY 2005

W-H-A-M (Writing in Harmony, Art & Music), Gr. 2-3
Do you like to make up stories, draw, and listen to music? We will focus activities around a theme for each day...Animals, Hats, Fairy Tales and others. Come and join us as we read and write, draw and color, listen and make music.

$115.00
XLY 2008

Game Factory
"Play Fair!" But are games always fair? In this class, you will use all of your math skills to study probability and determine "fairness" in games. Working in pairs, you will explore whether games are fair, modify them when needed, and design your own fair game to share with the class. All this, while reinforcing your skills in addition, subtraction, multiplication, division, and fractions.

$105.00
XLY 2023
Creative Problem Solving
Have fun thinking outside the box! We will learn brainstorming techniques, solve problems and be challenged to think spontaneously. We will perform skits, build structures and use your sense of humor.

$115.00
XLY 2029
Music Technology and You, Gr 8-9
Do you love music...and computers, too? Spend two weeks at a MIDI computerized work station learning the hardware and software currently used to produce music. You'll learn to operate a workstation capable of digitally recording 32 tracks of music utilizing over 1500 present instruments via the synthesizer. Course conclusion will feature a concert of student compositions.

$115.00
XLY 2041
Explore the World of Art, Gr 2-3
Come join us as we explore the world of art. Journey around the world and create art inspired by many cultures from Asia, Africa, Australia and the Americas.

$115.00
XLY 2050
Mock Trial Experience, Gr 6-7
Be part of a courtroom drama. Learn the criminal justice system's procedures, processes, and roles so you can actively participate in a mock trial, playing judge, lawyer or witness. Speakers from related professions and a field trip, too!

$115.00
XLY 2068
Comedy Improv! (CRN 50198-Gr 6-7, CRN 50214-Gr 8-9)
Thinking on your feet creatively is the hallmark of improvisation...fine tune your creative skills and practice tickling funny bones in this fast paced, fun adventure. You'll enjoy learning games that will help with characterization, movement, and plot development. Class finale will feature an improv performance.

$115.00
XLY 2072
E.O.A.S. Earth, Oceans, Atmosphere, Space, Gr 6-7
Students will research and explore EOAS topics by working with internet websites and other resources (including telescopes). Students will be challenged to create presentations/websites to enhance their learning.

$115.00
XLY 2083
Exploring Veterinary Medicine and Other Animal Careers, Gr 6-7
Do you love animals? Have you thought about working with animals as a career? In this seminar overview course, explore some of the exciting options available for a career working with animals. Field trips and guest speakers will be scheduled when possible as we “go to the dogs.”

$115.00

XLY 2084

To Be or Not To Be
Join us and learn some techniques that could launch you on a stage career. Through improvisation, charades, scene work and acting games you’ll become comfortable stepping into fictional roles. You’ll also learn the basics of stage make-up application...this could be a real plus next Halloween.

$115.00

XLY 2100

Space Command - Space Travel, Gr 4-5
Take a trip into outer space. Learn about the solar system and the vehicles that are used to explore it. Design a lunar lander and a moon colony as we travel to the moon and beyond.

$65.00

XLY 2109

Maz-zles, Gr 4-5
Do you enjoy solving unusual mazes and puzzles? You will design original mazes/puzzles plus create a board game based on a topic of special interest. Join us as we connect logic and critical thinking skills to creativity.

$115.00

XLY 2119

Creative Problem Solving in Mathematics, Gr 6-7
Students will learn creative problem techniques as applied to mathematics. These techniques will be applied in a variety of individual and group activities. Students will have a choice of individual logical thought problems and will team with others in the class in a competitive setting.

$115.00

XLY 2122

Bugs, Bugs, Bugs, Gr K-1
Come explore the exciting world of bugs. Children will learn all about insects and other creepy crawlies as they get involved in reading, writing, math, art and science activities. We will learn about interesting bugs from around the world as well as explore our own backyards.

$75.00

XLY 2138

Archeological Restorations
Students will be cleaning, polishing and restoring a myriad of antique brass, copper, and silver projects used in the archeology classes. Some of the objects you’ll be working with are a brass/copper fire extinguisher and brass electric fan from the 1930’s, silver dishes, brass buttons, etc. A before and after picture will be taken to show the progress made during the session. Students should bring work gloves, a cover-up shift and polishing rags.

$105.00
XLY 2140

**Cashflow 101**
Get ready to explore the concepts of money by using hands-on activities to learn how to be financially intelligent. You'll learn a glossary of financial terms, and how to figure your assets and liabilities, income and expenses. Use all your new found knowledge to play the game Cashflow 101, which makes getting out of debt fun!

$115.00

XLY 2141

**Exploring Veterinary Medicine II**
Continuing your exploration into the world of veterinarians and other people who work with animals. Explore large animal medicine and other career opportunities. Field trips and guest speakers will be included. Prerequisite: Exploring Vet Medicine I.

$55.00

XLY 2147

**Life as a Marionette, Gr. 4-5**
Join us as we create an "artful" story. You'll use your creativity and imagination to create a plot, scenes and yes, the marionettes to complete the story. You'll fashion wire, paint and papier-mache into your own fantastic story.

$115.00

XLY 2149

**Egyptology, Gr 2-3**
Explore the world of Egypt. Discover the secrets of mummification and take an archeological expedition into a pyramid. Learn to add using Egyptian symbols for numbers and send a letter to a friend inviting them to share an Egyptian meal. This wonderful hands-on history/archeology class will include some time on computers.

$115.00

XLY 2150

**After Class Activities**
The Carlsen Center After Class Activities is a college-supervised activity for students enrolled only in the following programs: TALENTS!, JCCC Adventurers, Crazy About Learning, Mad Science, and Summer Academy.

$25.00

XLY 2152

**Archeology/Advanced Archeology**
This class is for first-time Archeology students and returning Archeology veterans. Working with our collection of 8,000 archeological artifacts from railroad and mine sites in the Arapaho National Forest, we will learn and review the 10 steps of the archeological process. This class will focus on the sorting and cleaning of newly recovered artifacts, the reconstruction of glass and pottery pieces and the reorganization of the Archeology Treasure Chest which includes our most valuable and rare artifacts. Bring work gloves, 5-10 old towels and 2-5 old brushes (toothbrushes are great).

$115.00

XLY 2153

**Math Safari, Gr. K-1**
Come practice your math skills while counting crocodiles and sorting bears. Every
day will be an exciting math adventure when we explore math and reading with fun activities.

$75.00  
XLY 2154  
**Sensational Science**  
Students will use their five senses to explore daily science activities. Students will gain insight through hands on activities such as mystery boxes, observations, literature and games.

$75.00  
XLY 2155  
**Splish, Splash**  
Explore the water world with us! Come get wet as we get involved in water related activities. We will explore the ocean and ocean animals, learn about our earth's water cycle, experiment with soap and bubbles, and construct and race boats. Children will be involved in a variety of activities that build reading, science and research skills.

$75.00  
XLY 2156  
**Collage Art**  
In this class you will express ideas in the full range of this creative medium. We will focus on masters of art that created collage along with some new ideas in collage.

$105.00  
XLY 2157  
**It’s All Greek To Me**  
Why do flowers bloom in spring? What was Hercules’ sixth labor? Find out the answers to these questions and more as you travel through the world of Greek Mythology. Use your creativity to create your own monster or devise a plan to kill Medusa while on your very own odyssey.

$105.00  
XLY 2158  
**Choc-a-lot, Gr. 4-5**  
Using this favorite sweet as a springboard for a variety of activities, students will study the history of chocolate, design original puzzles, stories, games, and make chocolate candy. Expect chocolate surprises!

$115.00  
XLY 2159  
**Amazing Planet, Gr 4-5**  
Join us as we explore the many wonders of our amazing planet. You'll take a journey on the rock cycle, experience cupcake geology, research the biodiversity and the need for conservation while taking part in games, creative writing, craft activities and tasty snacks.

$115.00  
XLY 2160  
**Exploring Architecture, Gr 4-5**  
Come and explore the world of architecture and construction! You will study
architectural elements and styles, learn how structures like domes, bridges and skyscrapers are built, then design and construct your own original building!

$115.00
XLY 2161

Mars City
Join a team of scientists to develop the first human habitation on Mars! You will learn all about the red planet and apply your critical and creative thinking skills to create plans for a functioning colony.

$105.00
XLY 2162

ACT/SAT Vocabulary & Essay Writing, Gr 6-7
Add words to your upper level vocabulary through activities such as puzzles, games, worksheets, and interactive websites. Sentences and essay writing will prepare you for college entrance tests. Course will culminate in a review of techniques learned when students create group games.

$115.00
XLY 2163

Science Fair
Students will create their own mini science experience. You will decide what you would like your experiment to test, learn about controlling the variables and collecting data as you test your hypothesis.

$105.00
XLY 2164

Comedy Improv II
A description is not available for this course.

XLY 2165

Algebra Review
This course has been designed for the review and advancement of basic algebra concepts. Topics include simplifying expressions, evaluating and solving equations and inequalities, and graphing linear equations.

$115.00
XLY 2166

Enchanted Castle
Visit your favorite fairy tale characters and you enter the world of enchantment. Develop critical thinking skills as you decide if the Big Bad Wolf was really bad or if Snow White should have taken the apple from a stranger. Apply your own creative writing skills as you develop your own fractured fairy tale.

$105.00
XLY 2167

Be An Inventor
Come and be an inventor! Make a catapult or a landing pad for an egg. Use your mind and create wonderful "things" out of ordinary stuff!

$115.00
XLY 2168
Discover Science Olympiad
If you’ve ever wondered what Science Olympiad is all about, now is your chance to find out. We will work with as many events as possible. Mystery architecture and science crime busters are just a couple of the possibilities.

$115.00
XLY 2169

Deal 'Em Up!
You will learn the basic rules for card games of all levels, beginning with classics like solitaire and speed. Our strategic problem solving skills will be challenged as we learn the ins and outs of games such as pitch, gin rummy and hearts. Eventually, students will create their own card games using their new knowledge and skills.

$115.00
XLY 2170

Book-in-the-Box, Gr 4-5
What is your favorite fiction book? Bring it and a shoebox to class. You will have the fun of creating word puzzles, stories, mazes, activities and games...and they will all fit inside the box!

$115.00
XLY 2171

Picasso and Matisse, Gr 2-3
Do you love creating unique pieces of art? Join us as we compare and contrast the unique style of two of the world's greatest artists, Pablo Picasso and Henri Matisse. As we find similarities and differences we will create art of our own inspired by the rival artists.

$115.00
XLY 2172

Tease Your Brain!, Gr. 4-5
Twist, twist and tease your problem-solving skills as you work challenging brainteasers. We'll include mathematical, spatial and language puzzles for individual, team and group challenges. Also, try your skills at creating your own puzzles in this fun, interactive class.

$115.00
XLY 2173

Authors Wanted, Gr 4-5
Create an impressive, hardback book with your original text and illustrations. After you've selected or written a favorite story and completed accompanying illustrations or graphics, you'll learn step-by-step how to create a professional-looking book. Join other junior authors for an unforgettable experience!

$115.00
XLY 2174

Masters of the Night - "The Owl"
Learn more about the owls of Kansas: Whoo they are, their habitat, and their amazing adaptations. Dissect an owl pellet to learn more about the legendary owl. Enjoy a field trip while listening to naturalists describe these remarkable nocturnal creatures.
$115.00
XLY 2175
Castle Building 101
Students will travel back in time to study, design and build Medieval Castles. We will watch video clips regarding castles and study the way middle age warfare was conducted. We will examine working catapults, build paper castles and in the end create a team designed and constructed sugar cube castle. Students are encouraged to do research before class including checking out library books regarding Middle Age Castles and/or printing off color pictures and articles from the internet.

$65.00
XLY 2176
Zooland-Design a Zoo
Apply your creative talents as you design your own zoo. Develop an understanding of wild animals and their needs. Choose the most interesting animals as you develop a map of the perfect zoo.

$65.00
XLY 2177
Eco Columns
In eco-columns you will create and maintain your own ecosystem. Create a living environment with fish, plants, and grass, all in an enclosed ecosystem.

$65.00
XLY 2178
Fun Flying
Students will examine, study, create and play with things that fly. We will watch video clips regarding gliding, flying and space flight. We will examine, create, build and work with Parachutes, Propellers, Balloons, Frisbees, Paper Airplanes, Gliders, Water Rockets, Kites and Air Rockets. Students should bring any flying toys or items listed above that they already own. Students are encouraged to do research before class including checking out library books regarding flight, lift, balloons, or any of the items listed above and/or printing off color pictures and articles from the internet.

$65.00
XLY 2179
Zooland-World of Animals
Explore the wonderful world of wild animals and zoos. Learn about the habitats and characteristics of your favorite animals as we explore zoos. Create a game about your animal and see if you can follow the clues for the mystery animal of the day.

$65.00
XLY 2180
Zooland-World of Animals
Explore the wonderful world of wild animals and zoos. Learn about the habitats and characteristics of your favorite animals as we explore zoos. Create a game about your animal and see if you can follow the clues for the mystery animal of the day.
Adventures in Nature
Learn what it would be like to be a tree, animal, stream, or maybe a rock; be a part of a fossil dig as we uncover fossils from when Kansas was an inland sea. Adventure into the environment that surrounds you.

$65.00  
XLY 2182

Making Egyptian Mummies
Students will travel back in time to study, design and build Complete Egyptian Mummies. We will watch video clips regarding Ancient Egypt and study the reasons and ways Egyptian Mummies were created. We will examine Egyptian artifacts, writing and in the end create individual or team created tombs, mummies, sarcophagus, and canopic jars. Students will need to bring one 12” action figure or doll to be mummified and four small 2” tall plastic containers (preferably film canisters for the body parts). Students are encouraged to do research before class including checking out library books regarding Ancient Egypt and Mummies and/or printing off color pictures and articles from the internet.

$65.00  
XLY 2183

Rainforest Rendezvous, Gr 2-3
Come enjoy the magical world of the rainforest. Learn about lemurs, monkeys, birds, and all the animals that make up the rainforest. Take an interactive trip into a rainforest to see all secrets that it hides. Learn to make your favorite animals and plants as you create a rainforest that will fill the room!

$65.00  
XLY 2184

Space Command-Exploring Planet X, Gr 4-5
A new planet has been discovered. Be creative as you design your own alien civilization and explore a brand new planet. Analyze samples of the planet’s surface. Map the planet’s location as you announce to the world your newest discovery.

$65.00  
XLY 2185

Author Adventures and Activities, Gr. K-1
Children will explore the world of picture book authors and illustrators through stories and hands-on activities correlated to books by Beatrix Potter, David Shannon, Tomie DePaola and others.

$75.00  
XLY 2186

Bakin’ Up Good English Stuff!, Gr. 2-3
Students will prepare summer fun recipes and become tasting critics. These tasting critics will share their personal opinion on great recipes by using good verbal structure and proper standard writing skills in paragraph form.

$65.00  
XLY 2187

Smart Money, Gr 6-7
Handle your own checking account, pay bills, earn money, invest and learn about charge card debt. You will be given the task of managing your own income and making spending decisions. This “real world” experience will affect you for the
rest of your financial life.

$65.00  
XLY 2188  

Exploring Careers: Thinking Beyond High School!, Gr. 6-7  
This class will allow students to explore the world of careers! Discover a variety of careers and what careers interest you. Students will learn more about themselves and apply what they learn to possible future career options. This course will include use of a computer, guest speakers, and energizing group activities.

$65.00  
XLY 2189  

From Atoms to Volcanoes, Gr. 6-7  
Explore how you interact with the world from atoms to volcanoes. We will use everyday items as manipulatives for this exciting hands-on program.

$65.00  
XLY 2190  

Weathering the Weather, Gr. 4-5  
Take a look at the world of weather and the recent changes we've seen this year. Students will study the different types of weather from tsunamis to tornadoes through the study of plate tectonics and environment.

$65.00  
XLY 2191  

Exploring the Rain Forest, Gr. 2-3  
Join us in this exciting hands-on class where we will do experiments, explore the habitats, taste food and answer the question-Why Should We Save the Rain Forest?

$115.00  
XLY 2192  

After Class Activities  
The Carlsen Center After Class Activities is a college-supervised activity for students enrolled only in the following programs: TALENTS!, JCCC Adventurers, Mad Science, and Summer Academy.

$29.00  
XLY 3001  

Summer Academy, Gr 2-7  
Summer Academy offers a full-day program that includes science, board games, computer, team building and brain teaser module each day. A supervised hot lunch is included in the Academy fee.

$170.00  
XLY 3002  

Summer Academy, Gr 2-7  
Summer Academy offers a full-day program that includes science, board games, computer, team building and brain teaser module each day. A supervised hot lunch is included in the Academy fee.
XLY 3003

Summer Academy Jump Start, Gr. K-1
Program for Kindergarten through First Grade students! Choose either a morning or afternoon session of fun-filled reading and math activities.

$69.00

XLY 5004

Solving Discipline Problems at Home
Develop your own home discipline plan. You will learn not only what you need to do when your children misbehave, but you will also learn how to teach your children the rewards of behaving responsibly.

$82.00

B.S.E., M.Ed., Georgia Southern University

Darren Jenkins
Sr. Support Analyst
B.S., Kansas State University
M.S., University of Kansas

Jean Jensen
Professor Mathematics
B.A., Dana College
M.S., Univ of Nebraska - Omaha

Laura Johannesmeyer
Community Career Svcs. Coord.
B.S.N., Univ of Missouri - Columbia
M.P.A., Univ of Missouri - Kansas City
M.S., University of Kansas

**Susan Johnson**  
Prof./CPF Eng. Tech  
B.S.,M.S., Ohio State University

**Timothy Johnson**  
Asst. Mgr./ Executive Chef  
A.O.S., New England Culinary Institute

**Patricia Jonason**  
Professor Reading/Acad Ach Ctr  
B.A., Yankton College  
M.A., Univ of Missouri - Kansas City

**David Jones**  
Sr. Ed. Tech. Analyst  
A.A., Dixie State College  
B.A., Utah State University

**Kelly Jones**  
Professor Dental Hygiene  
A.A., Johnson County Comm College  
B.S., Univ of Missouri - Kansas City

**Marilyn Jones**  
KOO/CLP Coordinator  
B.A., Avila University  
M.A., Webster University

**Robin Judkins**  
Sr. Network Analyst - Telecomm

**Ralph Juhnke**  
Sr. Research Analyst  
B.A.,Ph.D., University of Kansas  
M.A., Univ of Missouri - Kansas City

**Carolyn Kadel**  
Professor/Prog. Fac. Intl. Ed.  
B.A., Elmira College  
M.A.T., Brown University

**Bobanne Kalkofen**  
Assoc. Prof. Interior Design  
B.S., Univ of Missouri - Columbia  
M.L.A., Baker University

**Marzhia Karch**  
Sr. Ed. Tech. Analyst  
B.F.A., University of Kansas  
M.S., Emporia State University

**Andrea Kempf**  
Professor/Librarian  
B.A., Brandeis University  
M.A., Johns Hopkins University  
M.S., Simmons College
Cherie Kennedy
Assoc. Prof. Bus. Adm/Off Tech
B.S., M.Ed., Univ of Central Oklahoma

Jennifer Kennett
Assoc. Prof. Mathematics
M.S., Univ of Texas - Pan American

Raymond Kenny
Hazardous Materials Coord.
B.A., M.P.A., University of Kansas

Kyong-Mal Kim
Professor Economics
B.S., Nihon University
M.A., Calif State Univ - Fullerton
Ph.D., Union Graduate School

Kay King
Assoc. Prof. Admin. Justice
B.S., M.S., Central Missouri State Univ

Russell Kinion
Sr. Support Analyst

Shirly Kleiner
Professor/CPF Accounting
B.A., Avila College
M.B.A., University of Kansas

Cynthia Kleinsorge
Financial Aid Officer
B.A., University of Kansas

Toby Klinger
Professor Psychology
B.A., Douglass College
M.A., M.Ed., Teachers College of Columbia University

Linda Knudson
Dean Evening/Weekend Programs
B.A., Wichita State University
M.P.A., Ed.D., University of Kansas

William Koch
Assoc. Prof. Science
B.S., University of California - San Diego
M.S., Univ of Missouri - Kansas City

Judy Korb
VP HR & Organizational Dev.
A.A., Johnson County Comm College
B.A., MidAmerica Nazarene Univ
M.A., Webster University
Ph.D., University of Kansas

Jeffrey Kosko
Sr. Ed. Tech. Analyst
A.A., Johnson County Comm College
B.S., Avila College

Frederick Krebs
Professor History
B.A., University of Kansas
M.A., Univ of Missouri - Kansas City

Donna Krichiver
Professor Mathematics
B.A.,M.A., Northeastern Illinois State College

David Krug
Assoc. Prof. Accounting
B.B.A., Kansas State University
M.B.A., University of Kansas

Dennis Kuder
Sr. Buyer
B.B.A., Baker University

Sue Kuder
Exec. Asst. to Pres. & Board

Dennis Kurogi
Asst. Dean EMS
B.A., Ottawa University

Paul Kyle
Dean Student Services
A.A., Garden City Comm College
B.A., Sterling College
M.Ed.,

Mark LaBarge
Professor Science
B.S.,M.S., Emporia State University

Anthony Lacy
Bus. Solutions Consultant
A.A.,M.B.A., University of Kansas

Karen LaMartina
Assoc. Prof. Nursing
A.A., Johnson County Comm College
B.S.N., University of Kansas
M.S.N., Univ of Missouri - Kansas City

James Lane Jr
Acad. Theater Tech Dir
B.A., Washburn University
M.F.A., Univ of Missouri - Kansas City

Ralph Langley
Professor Drafting
A.A., Johnson County Comm College
B.S., Pittsburg State University

Darwin Lawyer
Counselor
A.A., Estherville Junior College
B.A., Northwest Missouri State College
M.Ed., Univ of Missouri - Columbia

Timothy Lednicky
Assoc. Prof. R R Welding
A.A., Hutchinson Community College
B.S., Pittsburg State University

**Teresa Lee**
Mgr. Human Resources
B.S., Troy State University
M.S., Central Michigan University

**William Lehman**
Professor Science
B.S., Eastern Illinois University
M.S., Arizona State Univ - Main

**James Leiker**
Assoc. Prof. History
B.B.A.,M.A., Fort Hays State University
Ph.D., University of Kansas

**Jeffery Lewis**
Assoc. Prof. Mathematics
B.S.,M.Ed., University of Wisconsin

**Margaret LoGiudice**
Asst. Dean Dental Hygiene
B.S., Marquette Univ
M.S., Univ of Missouri - Kansas City

**Nancy Longhibler**
Career Services Coordinator
B.S., Central Missouri State Univ
M.Ed., Univ of Missouri - Columbia

**David Loring**
Professor Science
B.S.,M.S., Kansas State University

**Delphine Lovitt**
Systems Support Mgr
B.S., Fort Hays State University

**Edward Lovitt**
Technical Training Coordinator
B.A.,B.S., Kearney State College
M.S., Pittsburg State University
Ph.D., Nova Southeastern University

**Timothy Lucas**
Sr. Systems Analyst
B.S., Friends University

**Gregory Luthi**
Professor English
B.A.,M.A., Kansas State University
Ph.D., Oklahoma State University - Stillwater

**Darryl Luton**
Prof. Interpreter Trng.
B.A., Gallaudet University

**Kevin Lutz**
Systems Administrator
A.A., Wichita State University
Gerald Magliano
Professor Pers. Comp. Appl.
B.A., University of Detroit
M.B.A., Rockhurst University

Barbara Mahring
Prof./CPF Pers. Comp. Appl.
A.A., Johnson County Comm College
A.A.S., Kirkwood Community College
B.A., M.Ed., MidAmerica Nazarene Univ
M.S., Central Michigan University

Gary Malek
Asst. Prof. Science
B.A., M.S., Univ of Wisconsin - Milwaukee

Lori Mallory
Assoc. Prof. Physical Ed.
B.S., Bethel College - North Newton
M.Ed., Wichita State University

Jerold Marcellus
Assoc. Prof. Hosp. Mgmt./CHE
A.A.S., Johnson County Comm College
B.A., Bethany College - Lindsborg
M.M., Kansas State University
M.S., Pittsburg State University

Darren Marshall
Sr. Support Analyst

Teresa Marshall
Publications Manager
B.S., Kansas State University

Chad Martin
Systems Specialist
A.A.S., Ozarks Technical Comm College
B.S., Southwest Missouri State Univ

Michael Martin
Professor Mathematics
B.S., M.A., University of Kansas

Daniel Martinez
Assoc. Prof. Science
A.A.S., Penn Valley Comm College
B.S., Univ of Missouri - Rolla
M.S., Arizona State Univ - Main

Karen Martley
Bus. Solutions Consultant
B.S., Avila College
M.S., Pittsburg State University

Janet Mathis
Mgr. Systems Applications
B.S., University of Houston

Pamela Mayfield
Systems Specialist
B.A., Park College
Charlotte McAnerney
Professor Cosmetology

Theresa McChesney
Assoc. Prof. Mathematics
B.S., Westminster College
M.A., University of Pittsburgh

Joan McCrillis
Professor/CPF Fash Merch. Dsgn
B.S., M.S., Kansas State University

Kristin McDaniel
Development Coordinator
B.A., MidAmerica Nazarene Univ

Sara McElhenny
Prog. Dir. HCDC
B.A., University of Kansas
M.S., Emporia State University

William McFarlane
Asst. Prof. Anthropology
B.A., University of Central Florida
M.A., Ph.D., SUNY at Buffalo

William McKown
Professor Science
B.A., Sterling College
M.A., Sam Houston State University
Ph.D., University of Minnesota

Wiley McMillan III
Master Electrician

John McNally
Asst. Prof. Nursing
B.S.N., Pittsburg State University

Luanne Wolfgram
Assoc. Prof. Science
B.S., University of Wisconsin - LaCrosse
Ph.D., Johns Hopkins University

Kathleen Wolford
Project Accountant
B.B.A., Univ of Nebraska - Lincoln

Jerry Wolfskill
Dir. Police Academy
B.S., M.S., Central Missouri State Univ
Ed.D., University of Kansas

Christopher Worthington
Mgr. Bookstore
A.A., Johnson County Comm College

Brian Wright
Assoc. Prof. Political Science
B.A., M.A., Duquesne University
Ph.D., Kent State University

Jeffrey Wright
Professor Accounting
B.S., M.B.A., University of Kansas

Ray Wright
Professor EMS
B.A., Bethel College

Robert Xidis
Professor English
B.A., Ph.D., University of Kansas
M.A., Indiana University-Bloomington

Kathy Yeager
Bus. Solutions Consultant
B.S., Ball State University
M.A., Webster University

Phillip Yeager
Assoc. Prof. Info. Technology
B.S., Ball State University
M.B.A., Webster University

**Patrick Yeung**
Sr. Support Analyst
A.A., Penn Valley Comm College
B.B.A., Univ of Missouri - Kansas City
M.S., University of Kansas

**Rae Ann York**
Benefits Coordinator

**Myra Young**
Professor Speech
B.S., Northwest Missouri State Univ
M.A., University Northern Colorado

**Charles Zarrelli**
Professor RR Ops/Civil Eng.
B.A., University of Houston

**Mark Zolton**
Systems Programmer/Analyst
B.S., Kansas State University
