Interior Design Assistant Certificate

The interior design assistant certificate is a program designed for students employed in or seeking positions assisting in the profession of interior design. The JCCC Interior Design Program provides relevant curriculum with experiential learning that emphasizes the student's ability to think creatively, critically and collaboratively in preparation of entering employment.
One required internship helps develop technical, creative and business skills. Faculty have worked in the field, which equips them to offer valuable firsthand knowledge of what it takes to succeed.

Note: Coursework for the Interior Design programs require a "C" or higher for continuous enrollment and to be awarded degree completion.

(Major Code 3040; CIP Code 50.0408)
