

Automotive Technology, AAS

The Johnson County Community College Automotive Technology program is in alignment with the National Center for Education Statistics (NCES) CIP code 47.0604: Automobile/Automotive Mechanics Technology/Technician. This program prepares individuals to apply technical knowledge and skills to repair, service, and maintain all types of automobiles. This program includes instruction in brake systems, electrical systems, engine performance, engine repair, suspension and steering, automatic and manual transmissions and drive trains, and heating and air condition systems.

Automotive technicians generally begin their careers in service departments or independent repair facilities, continually expanding industrial and service career advancement opportunities. Technicians work with experienced professionals and have frequent contact with the public. This field requires good mechanical aptitude, manual dexterity, in addition to written and verbal communication skills.

The two-year Associate of Applied Science degree, accredited by the ASE Education Foundation, encompasses all major areas, including engine performance, brakes, steering and suspension, electrical/electronic systems, heating and air conditioning, automatic transmissions, engines, manual transmissions, and drivelines. Students work on developing the skills needed to advance in their field as an automotive technicians.

(Major Code 2420; CIP Code 47.0604)
