

## Fashion Merchandising and Design

---

### Fashion Merchandising and Design Programs

JCCC's Fashion Merchandising and Design department offers a dynamic education that prepares you for a successful career in the fast-paced fashion industry. Whether you're drawn to the creative world of fashion design or the business-driven side of merchandising, our comprehensive curriculum provides the skills and experience you need to thrive.

Combine your creativity and business interests for a fulfilling role in the fashion industry. Our career-ready training program equips you with both technical expertise and business acumen. You'll learn from experienced industry professionals and enjoy hands-on learning using industry-standard software, textiles, and garment construction techniques. You can also take your education to an international level with faculty tours and study abroad to fashion capitals like New York, Florence, and Paris. We offer seamless transfer opportunities designed to help students transition to top four-year fashion schools nationwide.
