#### Program Description

The Associate of Arts, AA (<https://catalog.jccc.edu/archives/2025-26/degreerequirements/associate-arts/>) at JCCC is a general transfer degree and partners well with the first two years of most bachelor degree programs. Students pursuing the AA may select courses that satisfy both the AA degree requirements and lower division requirements for a bachelor's degree at four-year institutions. The elective hours within the AA allow students to complete additional general education and lower division courses required for specific majors. The AA degree requires completion of 60 credit hours. Meeting with a JCCC counselor (<https://www.jccc.edu/student-resources/counseling/academic-counseling/>) is strongly recommended for selection of appropriate courses.

The focus of the Technology Administration program is on the application of technology in administration, economics, leadership, safety, management, production and service. You will build on your previous courses and gain additional knowledge to help advance your career in your chosen field.

All Technology Administration coursework is 100% online. Flexibility is the key to the Washburn University Technology Administration program, allowing you to work full or part-time, attend classes anywhere in the nation, and complete your degree on your schedule.

## Admission Requirements:

Candidates for admission to the Bachelor of Applied Science degree program with a major in Technology Administration must meet the following requirements:
