

Web Technologies Certificate

The Web Technologies 16-credit hour certificate is designed as a starting point for students to pursue a career in a web-related field. The certificate provides foundational technical skills needed to prepare them for a career in a web-related occupation. Students learn how to combine critical thinking with the appropriate methodology to create and maintain web pages. This certificate exclusively emphasizes technical coursework. Upon completion of the certificate, students may enter the workforce in an entry-level web development position or continue their studies.

(Major Code 6760; CIP Code 11.0801)
