Program Description

****Students who meet the admissions criteria and complete the coursework outlined below in their first year at JCCC will be eligible to transfer to KU and remain on track to graduate in 4 years for the Interior Architecture, BS degree.****

The Associate of Arts, AA (<https://catalog.jccc.edu/degree/requirements/associate-arts/>) at JCCC is a general transfer degree and partners well with the first two years of most bachelor degree programs. Students pursuing the AA may select courses that satisfy both the AA degree requirements and lower division requirements for a bachelor's degree at four-year institutions. The elective hours within the AA allow students to complete additional general education and lower division courses required for specific majors. The AA degree requires completion of 60 credit hours. Contact Jonathan Miller (jmill157@jccc.edu), JCCC Architecture Chair & Professor, with any questions.

The School of Architecture & Design offers a Bachelor of Science in Interior Architecture degree. It is unique among interior architecture programs in that it draws upon the nationally-recognized strengths of Arc/D's architecture, visual communication, and industrial design programs. The program has been designed to fit within the School's accredited Master of Architecture degree. Students who are admitted to the B.S. of Interior Architecture & Design curriculum are also admitted to the Master of Architecture program. With less than two years of additional courses, they will complete the requirements for an innovative, joint B.S. of Interior Architecture & Design–Master of Architecture degree. Students who meet the admissions criteria and complete the coursework outlined below in their first year at JCCC will be eligible to transfer to KU and remain on track to graduate in 4 years.
